

Undergraduate Catalog 2016/2017

About the Catalog

Publications

Undergraduate Catalog: The current undergraduate catalog, and previous editions, are available on this site.

Graduate Catalog: The graduate catalog is available online at: www.gradschool.umd.edu/catalog. For additional information, call 301-405-0376.

Registration Guide: The registration guide outlines registration dates and procedures, and provides information on deadlines, fees, and other student services at the university.

The registration guide and schedule of classes are available at www.registrar.umd.edu.

The Online Catalog

Welcome to the University of Maryland Undergraduate Catalog website. The Undergraduate Catalog provides information pertaining to undergraduate academic programs, including course descriptions and program requirements, and sets forth the university's academic, registration and graduation policies and regulations. A listing of University of Maryland policies and procedures is available at <http://www.president.umd.edu/policies/>. Program requirements contained in the Undergraduate Catalog supersede any information which may be contained in any bulletin of any school or department. This Undergraduate Catalog also contains hyperlinks to other informational resources at the University of Maryland. The information contained in these hyperlinks is provided as a convenience to the reader and is not part of the Undergraduate Catalog itself.

The provisions of the Undergraduate Catalog are not to be regarded as a contract between the student and the University of Maryland. The University reserves the right to change its policies, rules, regulations, requirements for graduation, course offerings, tuition, fees, other charges, or any other contents of this catalog at any time.

Changes are effected from time to time in the general policies, and academic and graduation requirements. The Undergraduate Catalog will be updated to reflect such changes, as appropriate, but updates may not appear immediately. There are established procedures for making changes that protect the institution's integrity and the individual student's interest and welfare. A curriculum or graduation requirement, when altered, is not normally retroactive unless the change is to the students' advantage and can be accommodated within the span of years normally required for graduation.

About the University

Academic Calendar 2016-2017

Fall Semester - 2016

First Day of Classes	August 29 (Monday)
Labor Day	September 5 (Monday)
Thanksgiving Recess	November 23- 27 (Wednesday-Sunday)
Last Day of Classes	December 12 (Monday)
Reading Day	December 13 (Tuesday)
Final Exams	December 14-20 (Wednesday-Tuesday)
Commencement - Main/College/Department Ceremonies*	December 20 (Tuesday)
Commencement - College/Department Ceremonies*	December 21 (Wednesday)

*See <http://commencement.umd.edu> for any updates.

Winter Term - 2017

Classes Begin	January 3 (Tuesday)
Dr. Martin Luther King Holiday	January 16 (Monday)
Classes End	January 23 (Monday)

Spring Semester - 2017

First Day of Classes	January 25 (Wednesday)
Spring Break	March 19-26 (Sunday-Sunday)
Last Day of Classes	May 11 (Thursday)
Reading Day	May 12 (Friday)
Final Exams	May 13-19 (Saturday-Friday)
Senior Day	May 20 (Saturday)
Commencement - Main Ceremony*	May 21 (Sunday)
Commencement - College/Department Ceremonies*	May 22 (Monday)

*See <http://commencement.umd.edu> for any updates.

Summer Term - 2017

Sessions I and I-A Begin	May 30 (Tuesday)
Session I-A Ends	June 16 (Friday)
Session I-B Begins	June 19 (Monday)
Independence Day Holiday	July 4 (Tuesday)
Sessions I and I-B End	July 7 (Friday)
Sessions II and II-C Begin	July 10 (Monday)

Session II-C Ends	July 28 (Friday)
Session II-D Begins	July 31 (Monday)
Sessions II and II-D End	August 18 (Friday)

All dates are potentially subject to change. Updates and future academic calendars can be viewed at www.provost.umd.edu/calendar/.

Accreditation

The University of Maryland, College Park is accredited by the Middle States Commission on Higher Education (MSCHE), <http://www.msche.org/>, under the authority of the U.S. Department of Education. In addition, individual colleges, schools, and departments are accredited by a number of other groups:

Accreditors Approved by U.S. Secretary of Education: Academy of Nutrition and Dietetics, Accreditation Council for Education in Nutrition and Dietetics; American Psychological Association, Committee on Accreditation; American Speech-Language-Hearing Association, Council on Academic Accreditation in Audiology and Speech-Language Pathology; American Veterinary Medical Association, Council on Education; Council on Education for Public Health; National Association of Schools of Music, Commission on Accreditation; National Council for Accreditation of Teacher Education; Commission on English Language Program Accreditation.

Other Accreditors: American Association for Marriage and Family Therapy, Commission on Accreditation for Marriage and Family Therapy Education; Landscape Architecture Accreditation Board (LAAB); Institute of Food Technologists; National Architectural Accrediting Board (NAAB); Planning Accreditation Board; American Assembly of Collegiate Schools of Business; American Library Association (ALA); Maryland State Department of Education (MSDE); Council on Rehabilitation Education; Council for Accreditation of Counseling and Related Educational Programs (CACREP); Accreditation Board of Engineering and Technology (ABET); Accrediting Council on Education on Journalism and Mass Communications (ACEJMC); National Association of Schools of Public Affairs and Administration. Master of Architecture program validated, not accredited, by the Royal Society of Architects.

Evaluated Rather Than Accredited:

Maryland Sea Grant College (National Sea Grant Review Panel), Water Resources Center (United States Department of the Interior, U.S. Geological Survey).

For more information about Accreditation see

http://www.provost.umd.edu/Academic_Planning/Accreditation.htm

Campus Administration and Deans

College Park Administration

President **Wallace D. Loh**

Senior Vice President and Provost **Mary Ann Rankin**

Vice President for Student Affairs **Linda Clement**

Vice President for Administration and Finance **Carlo Colella**

Vice President for Information Technology and Chief Information Officer **Eric Denna**

Vice President for Research **Patrick O'Shea**

Vice President and General Counsel **Michael Poterala**

Vice President for University Relations **Peter Weiler**

College Park Administrative Deans

Associate Provost and Dean for Undergraduate Studies **William A. Cohen**

Interim Dean of Libraries **Babak Hamidzadeh**

Associate Dean and Chair, Department of Veterinary Medicine, Maryland Campus
Siba Samal

Associate Provost for Academic Affairs and Dean of the Graduate School *vacant*

1. Requirements and Application Procedures

ADMISSION TO LIMITED ENROLLMENT PROGRAMS (LEP)

The University has taken steps to limit enrollment in certain majors in order to maintain high-quality programs. These majors include business, engineering, journalism, biological sciences, biochemistry, chemistry, environmental sciences and policy (biodiversity and conservation), communication, criminology and criminal justice, government and politics, and psychology. Students should check the LEP website at www.lep.umd.edu or contact the Coordinator of Limited Enrollment Programs at 301-314-8385 for updated information.

Freshmen: Admission of new freshmen to some LEPs is highly selective. LEPs with highly selective admission for freshmen include business, engineering, biological sciences, biochemistry, and chemistry. Because space may be limited for a particular major, early application is encouraged. Freshmen who are directly admitted to an LEP will be subject to a performance review when they complete 45 college credits. The review varies from program to program, but always includes satisfactory performance in a set of appropriate courses. Students not passing the review will be required to choose another major. See the academic program description for specific details.

Freshmen not directly admitted to an LEP may be assigned to Letters and Sciences. Students are not guaranteed admission to an LEP at a later date, although they may gain admission by meeting the requirements outlined in their particular program by the time they complete 45 or 60 credits at Maryland. See the following section on LEP transfer admission and the LEP program descriptions for further details about this option.

Transfers: Prospective transfer students and current UMD students wishing to change their major to an LEP must meet a set of gateway courses with minimum grades and obtain the required GPA in order to be considered for admission to the program. Space is limited in each program, and the most qualified applicants will be admitted each semester. Additional information for each of the LEPs may be found in the descriptions of academic majors in Chapter 7.

Transfer students who are not directly admitted to an LEP upon application to the university will be assigned to Letters and Sciences. Those with fewer than 60 credits will be assigned to Letters and Sciences, and will be allowed the opportunity to meet the gateway requirements. Students with more than 60 credits will be admitted to an interim advising program in Letters and Sciences where they will be advised regarding their qualifications for the LEP and, in some cases, students will need to choose another major.

Second Major: Enrolled students interested in adding an LEP as a second major should see "Degree Requirements" in Chapter 4.

FRESHMAN ADMISSION

The University of Maryland is a publicly funded land grant institution and the flagship of the University System of Maryland. The University's Mission Statement expresses a commitment to achieving excellence as the state's primary center for research and graduate education and the institution of choice for undergraduate students of exceptional ability and promise. Consistent with this mission, the University counts the diversity of its students among its greatest strengths and as an integral component of the educational process and a contributing factor to the academic excellence of the institution.

The undergraduate admission process, which reflects the University's educational mission, seeks to identify those applicants, who as individuals and as a group, will enrich and benefit from the campus learning environment, and thus benefit the entire student body. The process is structured to build entering classes of students whose varied backgrounds and experiences provide substantial evidence of their potential to:

1. Meet the University's requirements for academic success.
2. Enrich the University as a heterogeneous community.
3. Add new perspectives to the University's curriculum and scholarly pursuits.
4. Develop personal skills, including leadership, self-confidence, and intellectual engagement.
5. Contribute to the intellectual, cultural, social and political life of the University, state, and nation.

As the University must make fine distinctions among large numbers of highly qualified applicants, the ability to assess consistently all information presented in the application becomes increasingly important. Therefore, the University employs a rigorous review process that engages the expertise of professional educators in performing individualized and holistic evaluations of each application. Each applicant is assessed on the basis of achievements and potential in a broad range of academic categories, viewed in the context of the opportunities and challenges the applicant has faced.

These categories include:

1. Strength of educational performance, as measured by the nature and rigor of high school curriculum and academic achievements.
2. Potential for college success, as evidenced by performance on nationally normed standardized tests.
3. Potential to promote beneficial educational outcomes and to make a positive contribution to campus and community life.
4. Persistence, and commitment to educational excellence, as evidenced by demonstrated success in facing adversity and overcoming obstacles.

Application Forms

The undergraduate application and supporting documents may be completed and submitted online via the web at www.admissions.umd.edu.

Fall Semester Freshman Admission

The University of Maryland strongly encourages all applicants to apply by our November 1st priority application deadline to assure best consideration for admission, merit scholarships, and invitation to the Honors College, College Park Scholars and other living and learning programs. Admission to the University of Maryland is competitive. We typically receive more than 30,000 applications for a fall freshman class of approximately 4,100. As a result, we are unable to offer admission to all students who have the ability to be academically successful at Maryland. A completed application includes a submitted application form, official high school transcript, SAT or ACT scores, essays and activity statement, school counselor and teacher recommendations and the application fee.

Applying by the November 1st priority deadline is encouraged. For updated deadline information, please visit our undergraduate admissions website: <http://www.admissions.umd.edu/apply/>.

Spring Semester Freshman Admission

Students may be admitted for the spring semester by applying directly for spring admission or by having their fall application identified for spring admission through the application review process (as a result of space limitations). A completed application includes an application form, official high school transcript, SAT or ACT scores, essays and activities, school counselor and teacher recommendations and the application fee.

Applying by the priority deadline is encouraged. For updated deadline information, please visit our undergraduate admissions website: <http://www.admissions.umd.edu/apply/>.

Freshman Admission Deadlines:

Priority deadline: November 1st

Regular deadline: January 20th

Financial Aid Applications

The priority deadline for Financial Aid is February 15th. Students seeking financial assistance should complete the FAFSA **before** receiving their letter of admission. More information is available about Financial Aid in [Chapter 2](#).

Early Admission Options for High-Achieving High School Students

Concurrent Enrollment: Talented high school seniors have the opportunity to enroll at the University of Maryland for two courses, or seven credits, each semester. Successful applicants will have pursued a rigorous high school program and will have indicated exceptional performance and ability achieved over time. To apply, students must submit: the completed application and fee; high school transcript; an essay explaining why they are interested in the program; a letter of recommendation from the high school; and a letter of permission from the parents or guardian. Students must live within commuting distance. Tuition is assessed on a per-credit-hour basis. All mandatory fees apply in full.

Summer Enrollment: High school students with a strong high school record may be considered for enrollment in courses during the summer preceding their junior or senior year. They must file an application for admission, and submit an official high school transcript. Tuition is assessed on a per-credit-hour basis. All mandatory fees apply in full. For more information, students should visit the Office of Extended Studies – www.oes.umd.edu.

Early Admission: Although the University of Maryland generally requires applicants to earn a high school diploma prior to their first full-time registration, the University will admit a limited number of well-qualified students without high school diplomas. Successful applicants will have pursued a rigorous high school program and will have indicated exceptional performance and ability achieved over time. Students must be within two credits of high school graduation and have the commitment of the high school to award a diploma after successful completion of the freshman year at Maryland. To apply, students must submit: the completed application and fee, high school transcript and SAT or ACT results, an essay explaining how they will benefit from the program, a letter of permission from the parents or guardian and a letter of support from the high school which details the school's agreement to award the high school diploma. Early admission students are eligible for on-campus housing, scholarships based on academic achievement, the Honors College, College Park Scholars, and other living learning programs. Early application is strongly advised.

High School Equivalency Examination (GED)

Maryland residents who are at least 16 years of age and who have not received a high school diploma may be considered for admission provided they have earned the high school General Education Equivalency (GED) certificate. In order to be considered for admission, the applicant must submit a completed application (including SAT scores if the applicant has been out of high school for less than three years) and present an above average total score as well as above average scores on each of the five parts of the test.

Non-Accredited/Non-Approved High School

Students from non-accredited/non-approved high schools who seek admission to the University of Maryland should contact the Office of Undergraduate Admissions for additional information.

Home-Schooled Students

Home-schooled applicants should meet the same minimum high school course requirements expected of all applicants. Additional information from home-schooled students is required in the following areas of the application:

Transcript: should provide course descriptions, books used, methods of evaluation, and the grades received, as well as a statement providing general information about the home-school curriculum. If college-level courses have been taken simultaneously, an official college transcript should be included with the application.

Letters of Recommendation: the University of Maryland requires two recommendations from all freshman applicants. In the case of home-schooled students these recommendations should be provided by 1) an individual acting in a supervisory or evaluative capacity with regard to the

student's curriculum, and 2) from a teacher in any setting (home-school program, community college course, etc.).

Prior Learning Credit

The University of Maryland awards credit for Advanced Placement (AP), International Baccalaureate (IB), and Advanced Level (A-Level)/Advanced Subsidiary Level (AS-Level) exams when an appropriate score has been achieved. It is important to note that not all exams are awarded credit. All departments reserve the right to re-evaluate the content of exams and to change the assignment of credit and course equivalencies. There are other types of college level exams that may be awarded credit on a case-by-case basis. These include Caribbean Advance Proficiency Exam (CAPE), or Abitur. For additional information on the transferability of these exams, please see Prior Learning Credit - AP, IB, A-Level/AS-Level, CLEP, Credit-by-Exam, Basic Military Training section in Chapter 4.

GRADUATE SCHOOL

Applicants who have earned or will earn a bachelor's degree at a regionally accredited college or university in the United States (or the equivalent of a baccalaureate degree in another country) are eligible to be considered for admission to the Graduate School at the University of Maryland. Graduate School and degree program criteria for admission are available in the Graduate Catalog, available online at www.gradschool.umd.edu/catalog. For more information on graduate degree programs, financial aid for graduate study, deadlines, and online application instructions, please visit the Graduate School's website at www.gradschool.umd.edu, email gradschool@umd.edu, or call the Graduate School Information Center at 301-405-3644. Hard-copy correspondence can be addressed to the Graduate School, 2123 Lee Building, University of Maryland, College Park, MD 20742-5121.

INTERNATIONAL STUDENT ADMISSION

The University of Maryland seeks to enroll international students who demonstrate strong academic performance with records suggesting potential for success at Maryland. Admission to the University of Maryland is competitive. Typically, admission is offered to applicants whose academic credentials indicate marks of "very good" to "excellent." Due to space limitations and the competitive nature of undergraduate admission at the University of Maryland, an international applicant should submit a complete application as early as possible, and always before the deadlines listed in this section. Evaluation of an applicant's credentials will take place only after all application materials are received.

Applicants currently holding or intending to seek an F-1 Student or J-1 Exchange Visitor visa to study in the United States are considered international applicants and should observe the following instructions. All other non-immigrant visa holders (including A, E, G, H, I, and L) should follow the domestic Freshman and Transfer instructions. However, please refer to the Undergraduate Admissions website (<https://www.admissions.umd.edu/requirements/EnglishLanguageProficiency.php>) for more information regarding English proficiency requirements.

Freshman Admission - International

You are considered a freshman applicant if you have completed fewer than 12 semester hours of university-level credit beyond secondary school at the time you plan to enter the University of Maryland. Successful freshman applicants demonstrate satisfactory completion of diverse college-preparatory subjects in secondary school, proficiency in English, and evidence of sufficient funds to cover all expenses. Due to space limitations, we are unable to offer admission to all students who have the ability to be successful academically at the University of Maryland.

The Fall (August) deadline for applications to be received is November 1. The Spring (January) general deadline is August 1.

For a listing of required documents, please visit our website:

<https://www.admissions.umd.edu/requirements/InternationalApplicants.php>.

Transfer Admission - International

You are considered a transfer applicant if you have attempted 12 or more semester hours of university-level credit beyond secondary school at the time you plan to enter the University of Maryland. Students who have completed fewer than 30 transferable credits must submit high school transcripts and SAT or ACT scores. Successful transfer applicants demonstrate better than average grades in strong academic courses, proficiency in English, and evidence of sufficient funds to cover all expenses. Due to space limitations, we are unable to offer admission to all students who have the ability to be academically successful at the University of Maryland.

The fall (August) final deadline for applications to be received is March 1. The spring (January) final deadline is August 1st.

For a listing of required documents, please visit our website:

<https://www.admissions.umd.edu/requirements/InternationalApplicants.php>.

English Proficiency

Non-native English speakers (regardless of citizenship) who seek admission to the University of Maryland must verify their proficiency in English by taking and submitting an official score report from one of the following English proficiency exams: Test of English as a Foreign Language (TOEFL) or International English Language Test System (IELTS). Please note that while TOEFL or IELTS scores are required to satisfy proficiency in English, the Office of Undergraduate Admissions will conduct a full file review considering all application materials submitted in the application package to make a determination about the student's level of English proficiency.

Those whose native language is English, or who have earned a post-secondary degree from a university in an English-speaking country do not need to take or submit scores from an English proficiency exam. Transfer credit for an English composition course from a U.S. institution does not waive the English proficiency exam. Please refer to the Undergraduate Admissions website (<https://www.admissions.umd.edu/requirements/EnglishLanguageProficiency.php>) for more information regarding English proficiency requirements.

Visa Requirements

Applicants Residing Outside of the United States: To enter the United States, international students residing abroad will need a passport from their government and a visa from the U.S. Consulate. In order to obtain a visa for the purposes of studying in the United States, the applicant must present a Certificate of Eligibility form (I-20) to the U.S. Consulate for non-immigrant student status. The university will issue this form to admitted students who have submitted proof of having sufficient funds to cover the cost of a program of study. Admitted students with personal, family, or other source of private funding will be issued the Certificate of Eligibility form (I-20) in order to obtain the F-1 Student Visa. Admitted students who are sponsored by agencies, foundations, or their home government, or are participating in an established exchange program may be issued the Certificate of Eligibility form (DS-2019) in order to obtain the J-1 Exchange Visitor Visa.

Applicants Currently Residing in the United States: Applicants currently holding F-1 Student or J-1 Exchange Visitor status in the United States need to submit a photocopy of their I-94 Arrival/Departure Record, visa stamp, and current I-20 or DS-2019 form along with proof of having sufficient funds to cover the cost of a program of study. Applicants holding another type of non-immigrant status need to submit a photocopy of their I-94 Arrival/Departure Record and visa stamp, and must indicate if they intend to seek a change to F-1 Student or J-1 Exchange Visitor status. Upon admission and submission of the appropriate financial support documentation, the university will issue the appropriate Certificate of Eligibility form (I-20 or DS-2019) to the student.

For more information, please visit the Office of International Student and Scholar Services website: <http://globalmaryland.umd.edu/offices/international-students-scholar-services>.

International External Exam

The University of Maryland awards credit for some Advanced Level/Advanced Subsidiary Level (A-Level/AS-Level) Exams taken through Cambridge International Exams (CIE) or other recognized organizations. There are other types of college level exams that may be awarded credit on a case-by-case basis. For additional information on the transferability of these exams, please see Prior Learning Credit - AP, IB, A-Level/AS-Level, BMT, Credit-by-Exam in Chapter 4.

OFFICE OF EXTENDED STUDIES (Summer Session, Winter Session, Freshmen Connection, Freshmen First, Pre-College Programs, and Graduate, Post-Baccalaureate, and Continuing Education Programs)

0132 Main Administration Building

Phone: 301-405-7762

Fax: 301-314-9572

E-mail: oes@umd.edu

Web: oes.umd.edu

The Office of Extended Studies administers Summer Session, Winter Session, Freshmen Connection, Freshmen First, Pre-College Programs, and Graduate, Post-Baccalaureate, and Continuing Education Programs.

Summer Session serves current UMD students, visiting students from other universities and colleges, graduates, professionals, and high school students who can satisfy a requirement, catch up on credits, and get closer to graduation. Summer Session features more than 1,700 courses that are offered morning, afternoon, evening, and online during three-week or six-week sessions.

Winter Session serves current UMD students, visiting students from other universities and colleges, graduates and professionals who can fulfill prerequisites, meet eligibility requirements for certain majors, and accelerate progress for graduation. Held in January, the three-week Winter Session features more than 350 courses that meet morning, afternoon, evening, and online.

In **Freshmen Connection**, spring-admitted freshmen begin their University of Maryland education in the fall semester, earn up to 17 university credits toward their undergraduate degree, and get on track to graduate in four years.

The **Freshmen First Program**, a three-week summer program, prepares freshmen for living and learning at the University of Maryland, easing the transition to the university environment. Students enroll for three credits, attend seminars and social activities, meet and study with other incoming freshmen, and reside on campus or commute from home.

Pre-College Programs

The **Terp Scholars Program**, a three-week summer program, invites academically talented rising high school sophomores, juniors, and seniors to pursue academic interests, discover career opportunities, earn university credits, and explore university life.

Terp Discovery, a two-week summer program, invites academically promising middle school students to explore education and career opportunities and learn about university life.

Graduate Programs offer master degrees and graduate certificates to professionals who want to advance their knowledge and career goals.

Post-Baccalaureate Programs prepare students for professional schools, graduate programs, and professional achievement.

Continuing Education Programs include customized initiatives that include seminars, work force training, and short courses crafted for industry application.

READMISSION AND REINSTATEMENT

Students who are admitted and do not register for their first semester or cancel registration prior to beginning their first semester must apply again for admission (see Freshman or Transfer Admission). Students who are admitted as "Term Only" also must apply again for admission if they wish to register for a subsequent term. Students admitted as "Non-Degree" seeking students, who would like to become degree-seeking students, must apply again for admission (see Transfer Admission).

Students who have matriculated and registered and did not maintain that registration continuously (Fall and Spring semesters) to graduation, must apply for readmission or reinstatement to re-enroll at the University of Maryland.

See "Withdrawal and Leave of Absence from the University" in Chapter 4 for more detailed information.

Readmission

Students must apply for readmission if they interrupt registration for one or more semesters and were not academically dismissed at the conclusion of the last semester of attendance.

Reinstatement

Students who are academically dismissed from the university must apply for reinstatement. All applications for reinstatement are reviewed by a Faculty Petition Board. Students may apply for reinstatement for the semester immediately following dismissal or for any subsequent semester. Only the Faculty Petition Board can grant reinstatement.

Students who are denied reinstatement may be required to comply with specific recommendations made by the Faculty Petition Board in order to be considered for reinstatement in a future semester.

Reinstatement After Withdrawal

Students who withdraw from the university must apply for reinstatement if they interrupt enrollment for one or more semesters.

Students may apply for readmission or reinstatement at www.studentsuccess.umd.edu.

Application Deadlines (readmission and reinstatement)*

Fall: April 1st

Spring: November 1st

*Students who wish to reenroll for summer term must apply for fall reenrollment. Students who wish to enroll for winter term must apply for spring reenrollment.

Students who have been **academically dismissed** and wish to return the following semester must apply by:

- June 1st for fall enrollment
- January 6th for spring enrollment

All students are encouraged to apply early in order to take advantage of early registration.

Summer School

Students who are dismissed or withdraw at the end of the fall semester are not eligible to attend Summer Sessions unless or until they are approved for reinstatement. Students dismissed at the end of a spring semester may attend any Summer Sessions prior to being reinstated, provided the student registered for Summer Session courses prior to dismissal or withdrawal, or has applied for reenrollment.

Winter Term

Students who are dismissed or who withdraw at the end of the fall semester may attend Winter Term prior to being reinstated provided the student registered for Winter Term prior to dismissal or withdrawal. Winter Term is offered to students who have attended during the preceding fall semester. Students with a break in attendance must be reenrolled to be eligible to attend Winter

Term. Students readmitted/reinstated for a spring semester may also attend Winter Term.

Clearances

Clearances from Office of Student Conduct, the Office of the Bursar, Health Center, International Education Services and/or the Graduate School may be requested of the applicant.

Applications

Applications for readmission and reinstatement may be accessed via the web at <http://www.studentsuccess.umd.edu/>

Additional Information

Student Success Office, 0110 Hornbake Library, Office of Undergraduate Studies, University of Maryland, College Park, MD 20742. Email: rr-admit@umd.edu.

RESIDENCY INFORMATION

Residency Reclassification Services, 1130 Clarence M. Mitchell Jr. Building

Phone: 301-314-9596; Fax: 301-314-7915

E-mail: resclass@umd.edu

<http://registrar.umd.edu/resreclass.html>

Petitions, related documents and questions concerning the Board of Regents Policy on Student Classification for Admission and Tuition Purposes should be directed to Residency Reclassification Services in the Office of the Registrar.

Determination of In-State Status for Admission and Tuition Purposes: See

www.usmd.edu/regents/bylaws/SectionVIII/viii270r.pdf for the complete text of this policy.

An initial determination of in-state status will be made by the Office of Undergraduate Admissions at the time a student's application for admission is considered. The determination made at that time, and any determination made thereafter, shall prevail in each semester until the determination is successfully challenged. Students may challenge their classification by submitting a timely petition to Residency Reclassification Services. Determinations are based on the residency policy and requirements. The deadline for submitting a complete petition along with all supporting documents, is the first day of the semester in which the student wishes to be classified as in-state.

The volume of requests for reclassification may necessitate a delay in completing the review process. A decision in each case will be made within 60 days of receipt of a complete petition and all required documentation. During this period of time, or any further period of time required by the university, any fees and charges based on the previous determination must be paid. The student is solely responsible for any late charges incurred by the residency process. If the determination is changed, any excess fees and charges will be refunded.

Students classified as in-state for admission and tuition purposes are responsible for notifying Residency Reclassification Services in writing within 15 days of any change in their circumstances that might in any way affect their classification at the University of Maryland.

SPECIAL APPLICANTS

Golden Identification (Golden ID) Program

The University of Maryland participates in the Golden ID Program. This program allows eligible senior citizens to take advantage of the wide variety of course offerings at College Park. To be eligible to participate, the individual must: be 60 years of age or older, be a legal resident of the State of Maryland, and is retired (not engaged in gainful employment for more than 20 hours a week).

Students who are interested in participating in this program must first be admitted to the University. They can apply through the Office of Undergraduate Admissions. The appropriate application fee will be assessed.

Additional information on how to apply may be obtained from the Office of Undergraduate Admissions at 301-314-8385. For more information about the Golden ID Program, go to: <http://registrar.umd.edu/current/registration/golden-id.html>.

Non-Degree Seeking Students

Applicants who qualify for admission but do not desire to work toward a baccalaureate degree may be admitted as non-degree seeking students.

Non-degree seeking students who have received a baccalaureate degree are advised that no credit earned while enrolled may be applied at a later date to a graduate program. These post-baccalaureate students may enroll in undergraduate courses for which they possess the necessary prerequisites, but may not enroll in courses restricted to graduate students only.

Students who wish to take courses at the graduate level (600 and above) must contact the Graduate School for information concerning admission requirements for Advanced Special Student status.

Non-degree seeking students who do not have a baccalaureate degree must submit transcripts and meet regular admission standards. Transcripts are not required from students with baccalaureate degrees from a regionally accredited institution. Because of space limitation, several departments require that permission be given in advance to register for classes as a non-degree student. Please contact the Office of Undergraduate Admissions for further information.

Non-degree seeking students who wish to take classes must submit the transfer application, official transcript and a letter of permission from an academic advisor or dean at their home institution.

Returning Students

Applicants who have not attended school for more than five years should contact Student Success Office (<http://studentsuccess.umd.edu/>). Veterans should also contact the University of Maryland Veterans Certification Services at 301-314-8239.

Students returning to the University of Maryland after a separation of five calendar years may petition the appropriate dean to have a number of grades and credits from courses previously taken at the University of Maryland, College Park, removed from the calculation of their cumulative grade point averages and from the credits applied toward graduation requirements. See information under "Registration, Academic Requirements and Regulations" in Chapter 4.

TRANSFER ADMISSION

Admission to the University of Maryland is competitive. Review the Statement of Philosophy (<https://www.admissions.umd.edu/requirements/AdmissionPhilosophy.php>) of Undergraduate Admissions and Admission.

Review Factors (<https://www.admissions.umd.edu/requirements/AdmissionReviewFactors.php>) for more information regarding our admission process. Admission is based on the overall strength of the student's academic performance and is assessed through a holistic review process as described in the Statement of Philosophy of Undergraduate Admissions.

In accordance with Maryland Higher Education Commission and Board of Regents (<http://www.dsd.state.md.us/comar/comarhtml/13b/13b.06.01.02-1.htm>) transfer policies, certain applicants from Maryland public institutions are given special consideration and are admitted when space is available.

The Admission Committee considers the student's academic record and grades received in all college-level courses. Students are expected to have completed English Composition (the equivalent of UMD's ENGL101) and college level mathematics (Fundamental Studies Math or higher) for best consideration in the review process.

Students who graduate from high school and subsequently complete a minimum of 12 semester

hours or 18 quarter hours during a regular term excluding summer school, at a regionally accredited college or university are considered transfer applicants. Students who complete fewer than 30 semester or 45 quarter hours are expected to submit high school records and SAT I and/or ACT scores for review. When an applicant has attended more than one institution, a cumulative average for all previous college work attempted will be computed and included in the review process. To be considered, course work must have been completed at a regionally accredited college or university.

Application Deadline Dates

<i>Semester</i>	<i>Date</i>
Spring Priority	August 1st
Spring	November 15th
Fall Priority	March 1st
Fall	June 1st

Transfer from Maryland Public Institutions

Currently, applicants who have attended Maryland public institutions may be admitted in accordance with the criteria outlined in the previous paragraph. The university subscribes to the policies set forth in the Maryland Higher Education Commission (MHEC) and Board of Regents transfer policies. When the number of students desiring admission exceeds the number that can be accommodated in a particular professional or specialized program, admission will be based on criteria developed by the university to select the best qualified students.

Articulated transfer programs are available at each Maryland public community college. An articulated transfer program is a list of courses that best prepare applicants for a particular course of study at the University of Maryland. Applicants who take appropriate courses specified in the articulated program and earn acceptable grades are guaranteed transfer with no loss of credit. Articulated transfer programs help students plan their new programs after changing career objectives. More information about ARTSYS, the articulation system, is available online at <http://artsys.usmd.edu/>. Applicants are encouraged to follow articulated programs to enhance their transition to the University of Maryland.

Transfer Credit

For more information on receiving transfer credit at the University of Maryland, please see the Transfer Credit section in Chapter 4.

Some UM colleges and departments offer merit-based scholarships. Most departments will only consider students who enroll for 12 credits per semester, and who have a grade point average of at least 3.0. Some of these scholarships are open to prospective freshman and transfer students. Some of them are only open to continuing UM students. For additional information regarding departmental scholarships please contact the appropriate college or department or visit <http://www.financialaid.umd.edu/scholarships/>.

Mandatory Fees

Student Fees: The mandatory fee assessment for undergraduate students is based on a number of requested credit hours as follows: Students registered for 9 or more credits: \$933* per semester; students registered for 8 or fewer credits: \$433* per semester.

*estimated amount; for more information, see http://bursar.umd.edu/t_ug1617.php.

Student Activities Fee (Refundable): Charged to all undergraduate students at the request of the Student Government Association. It is used in sponsoring various student activities, student publications, and cultural programs.

Auxiliary Facilities Fee (Refundable): Charged to all students. This fee is paid into a fund that is used for capital improvement, expansion, and construction of various campus facilities such as open recreation areas (tennis courts, basketball courts, etc.), transportation alternatives, and the Stamp Student Union. These projects are not funded or are funded only in part from other sources.

Athletic Fee (Refundable): Charged to all students for the support of the Department of Intercollegiate Athletics. All students are encouraged to participate in all of the activities of this department or to attend the contests if they do not participate.

Shuttle Bus Fee (Refundable): Charged to all students for the support of the shuttle bus transportation system.

Stamp Student Union and Recreational Fee (Refundable): Charged to all students and is used to expand recreational facilities and the Stamp Student Union services.

Recreation Services Fee (Refundable): Charged to all students specifically to support the construction and operation of Ritchie Coliseum and the Campus Recreation Center, a multi-use facility that includes basketball and racquetball courts, indoor and outdoor pools, an indoor jogging track, and multipurpose activity spaces.

Performing Arts and Cultural Center Fee: Charged to all students to support the operation of the Clarice Smith Performing Arts Center.

Telecommunications Fee: Assessed to all students living in university residence halls.

Technology Fee: Charged to undergraduate students, to support the improvement of the computer systems on campus.

Other Fees

Undergraduate Application Fee: A non-refundable fee of \$65 is charged to all new applicants.

Enrollment Confirmation Deposit: All newly admitted undergraduate students who intend to matriculate in the Fall or Spring semester must submit a non-refundable \$400 deposit, which is credited to their tuition charges when they enroll. Should the student decide not to enroll for the specific semester of application, the \$400 deposit is forfeited and cannot be used to offset any charges, including orientation charges, the student may incur.

Students admitted for the Fall semester must submit this deposit by May 1 or within 30 days from their date of admission, whichever is later, to reserve their place in the entering class. Students admitted for the Spring semester must submit this deposit by December 1 or within 14 days of their date of admission, whichever is later, to reserve their place in the entering class.

Pre-College Orientation Program Registration Fee: \$160 Freshmen (two-day program), \$101 Transfer (one-day program), \$60.00 Parent (per person).

Late Registration Fee: All students are expected to complete their registration on the regular registration days. Those who do not complete their registration during the prescribed days must pay a \$20 late registration fee.

Special Fee for students requiring additional preparation in Mathematics (MATH003, 010, 011, 013 and 015) per semester: A fee of \$280 is required of students whose curriculum calls for MATH110 or 115 and who do not pass the qualifying examination for these courses. This Special Math Fee is in addition to course charge. Students enrolled in this course and concurrently enrolled for nine or more credit hours will be considered as full-time students for purposes of assessing fees.

Cooperative Education in Liberal Arts, Business, and Science (UNIV098-099) Per Semester: \$60

Engineering COOP Program (ENCO098-099) Per Semester: \$60

Other Special Fees: The University offers a number of courses (MBA, ENTS, Chemical and Life Sciences, Animal Sciences) that have special course fees in addition to, or in lieu of, the standard tuition charges. Students are encouraged to contact the department prior to registering for the class to determine the total cost of the course.

Fees for Auditors: Fees for auditors and courses taken for audit are the same as those charged for courses taken for credit at both the undergraduate and graduate levels. Audited credit hours will be added to hours taken for credit to determine full-time or part-time status for fee assessment purposes. Special Students are assessed fees in accordance with the schedule for the comparable undergraduate or graduate classification.

Special Examination Fee (Credit-by-Exam): \$30 per course for all undergraduates and full-time graduate students; credit-hour charge for part-time graduate students.

Parking Registration Fees: All students enrolled in classes at the university and

who drive or park a vehicle anywhere or anytime on the campus must register to park on campus each academic year. For additional information, please refer to Department of Transportation Services.

Textbooks and Supplies: Textbooks and classroom supplies vary with the course pursued, but averaged \$1130 in 2015-2016 (two semesters).

Service Charges for Dishonored Checks: Payable for each check which is returned unpaid by the drawee bank on initial presentation because of insufficient funds, payment stopped, post-dating, drawn against uncollected items, etc.

For checks up to \$100: \$10

For checks from \$100.01 to \$500: \$25

For checks over \$500: \$50

When a check is returned unpaid, the student must redeem the check and pay any outstanding balance in the account within 10 days or late fees may be assessed and the account transferred to the Central Collection Unit for legal follow-up. Additionally, a minimum 17% collection charge is added to the charges posted to the student's account at the time the transfer is made. When a check is returned unpaid due to an error made by the student's bank, the student must obtain a letter from the branch manager of the bank or a person of equivalent status admitting the error. This letter must be submitted to the Office of the Bursar to have the service charge waived.

Overdue Library Charges: For items from the library's main circulating collections, charges are .50 cents per day per item, and recalled item fines are \$2 per day. If an item is lost or mutilated, the borrower is charged the estimated cost of the item plus a processing fee to cover acquisition and cataloging costs. Different fine rates may apply to other library collections, such as reserve collections.

Maryland English Institute Fee: Semi-intensive, \$3,406.00. Intensive, \$5,972.00. Students enrolled with the Maryland English Institute pay this fee in support of the Institute. Students enrolled in the semi-intensive program may also enroll for regular academic courses and pay the tuition and fees associated with those offerings. The program also offers non-credit courses in American English Pronunciation (UMEI 006) for \$943.00 and Fluency Program or Advanced Writing (UMEI007, 008) for \$1,253.00. These charges are subject to change.

Property Damage Charge: Students will be charged for damage to property or equipment. When responsibility for the damage can be fixed, the individual student will be billed for it; when responsibility cannot be fixed, the cost of repairing the damage or replacing equipment will be prorated among the individuals involved.

Late Payment Fee: Per-semester fee of 5% for past due amount, or \$10, whichever is greater, plus an additional 1.5% on each subsequent billing.

Withdrawal and Refund of Fees: Students compelled to leave the university at any time during the academic year should meet with their academic college advising office and secure a form for withdrawal. The completed form and identification card are to be submitted to the academic college advising office which will communicate results to the Office of the Registrar. Students will forfeit their right to a refund if the withdrawal action described above is not adhered to. The

effective date used in computing refunds is the date the withdrawal form is filed in the academic college advising office. Stop payment on a check, failure to pay the semester bill, or failure to attend classes does not constitute withdrawal. Refund requests should be processed by students with the Office of the Bursar otherwise, any credit on the student account could be carried over to the next semester. **If a Cancellation of Registration is submitted to the Office of the Registrar before the official first day of classes the student is entitled to a full credit of semester tuition.**

Undergraduate students withdrawing from the university will be credited for tuition and fees in accordance with the following schedule:

Prior to 1st day of classes	100%
1st 10 days of classes	80%
3rd week	60%
4th week	40%
5th week	20%
After 5th week	No refund

Note: First-semester freshmen who receive Title IV aid and who withdraw will receive a refund in accordance with federal regulations.

Prior to the first day of classes, if full-time undergraduates drop a course or courses, thereby changing the total number of credits for which they are registered to 11 or fewer, charges for the semester will be assessed on the basis of the per-credit-hour fee for part-time students. However, if students later add a course or courses thereby changing the total number of credits for which they are registered to 12 or more, they will be billed for the difference between per-credit-hour fees paid and the general fees for full-time undergraduates.

If during the first five days of classes full-time undergraduates drop a course or courses thereby changing the total number of credits for which they are registered to 11 or fewer, charges for the semester will be assessed on the basis of part-time charges plus 20% of the difference between the full-time fees and appropriate part-time charges. After the first five days of classes, there is no refund for changing from full-time to part-time status. Students who register as part-time undergraduate students and apply for a refund for courses dropped during the first week of classes will be given an 80% refund. No refund will be made for courses dropped thereafter.

No part of the charges for room and board is refundable except when students officially withdraw from the university or when they are given permission by the appropriate officials of the university to move from the residence halls and/or to discontinue dining hall privileges. In these cases, the room refund will be computed by multiplying the number of periods remaining by the pro rata weekly rate after adjusting for a service charge. Refunds to students having full board contracts will be calculated in a similar manner. No room and/or board refunds will be made after the 14th week of the semester. Students are reminded that

reservations for room and board must be canceled by the date published in the residence hall and dining services agreement(s).

In computing refunds to students who have received the benefit of scholarships and loans from university funds, the computation will be made to return the maximum amount to the scholarship and loan accounts without loss to the university.

MERIT-BASED FINANCIAL ASSISTANCE

sfa-scholarships@umd.edu
www.financialaid.umd.edu

Scholarships

Several scholarships are available to the highest-achieving students at the University of Maryland, College Park. The two types of scholarships that are available are based solely on academic or creative talent (merit-based), and those based on financial need. The eligibility criteria for the different University of Maryland merit scholarships are listed below. Please also see the list of departmental scholarships at the end of this chapter. Students are encouraged to contact the office or department responsible for selecting the recipients for more information on these programs. Current information about merit scholarships offered through the University of Maryland is also available on the web at www.admissions.umd.edu.

Banneker/Key Scholarship: The University of Maryland seeks to identify and select some of the brightest high school seniors in the nation to continue their education as Banneker/Key Scholars. There are two award levels for Banneker Key Scholarships. The first award level covers the costs of tuition, mandatory fees, room and board, and a book allowance each year for eight consecutive semesters. The second award level provides a partial scholarship to go towards tuition, and a book allowance each year for eight consecutive semesters. Scholarship recipients will also be admitted to the Honors College and will be afforded many other opportunities as they participate in intellectual enrichment programs. For full consideration, students must submit an admission application, application fee, official transcript, essay, recommendations, and official copies of SAT or ACT scores to the Office of Undergraduate Admissions by November 1st for the following academic year. Selected semifinalists are given a personal interview by the Banneker/Key Selection committee. Factors such as a candidate's involvement in community service, talents or skills, leadership, and character all play a part in the final awards. Contact the Office of Undergraduate Admissions at www.admissions.umd.edu for more information.

President's Scholarship: This award provides talented prospective freshmen with scholarship support for eight consecutive semesters. Awards ranging from \$2,000 to \$12,000 per year are offered to incoming freshmen. Students are

selected through the admissions process with primary consideration given to academic performance in high school (high school courses and achievement), results of standardized test scores (SAT or ACT), extracurricular activities, awards, honors, recommendations, and the essay. For full consideration, students must submit a complete application for admission by November 1st. Contact the Office of Undergraduate Admissions at www.admissions.umd.edu for more information.

Deans' Scholarship: This award provides talented prospective freshmen with scholarship support for two to four consecutive semesters. Awards ranging from \$1,500 for one year to \$4,500 for two years are offered to incoming freshmen. To be considered, students must submit a complete application for admission by November 1st. Contact the Office of Undergraduate Admissions at www.admissions.umd.edu for more information.

President's Transfer Scholarship: This scholarship is a two-year \$5,000 per year scholarship for transfer students. Students do not have to fill out a separate application to be considered as they will be evaluated based on their application to the University of Maryland. The scholarship will be awarded to the most competitive transfer students with the strongest academic records and college grade point averages. Students who are awarded the scholarship will receive notification by mail about two weeks after they receive their letter of admission. Contact the Office of Undergraduate Admissions at www.admissions.umd.edu for more information.

Regents Scholars Program: The Regents Scholars Program recognizes the extraordinary achievement of outstanding freshmen students. New awards are made each year in the amount of full in-state tuition, mandatory fees, room, board, and a \$1000 stipend. Recipients are automatically admitted to the Honors College. A select number of the top high school scholars in the state will be considered for this most prestigious award. A complete admission application, application fee, official transcript, essay, recommendations, and SAT or ACT scores must be submitted to the Office of Undergraduate Admissions by November 1st for consideration for the Regents Scholars Program for the following academic year. Contact the Office of Undergraduate Admissions at www.admissions.umd.edu for more information.

Kelly, Shipley or Weinberg Regents Scholarships: In order to continue the commitment to outstanding students, the Board of Regents has designated several Regents Scholarships to be awarded to Maryland community college transfer students. To be selected for this award, the transfer student must have exceptional qualifications, including achievement of a 4.0 grade point average, completion of the associate's degree at a Maryland community college, evidence of creative and intellectual activities or scholarly potential, and have been admitted to one of the University System of Maryland institutions. The deadline for submitting the candidate's application material is May 15th. The winner may receive the scholarship for two years, totaling no more than four semesters including summer sessions. For information, contact the University System of Maryland System Office at 301-445-1992.

Transfer Academic Excellence Scholarship: These awards are available to outstanding students transferring from Maryland community colleges. The

awards cover in-state tuition for four consecutive semesters of undergraduate study. To be eligible students must have completed 56 or more credits or have an Associates of Arts degree and have a cumulative grade point average of 3.5 or better. Students who have previously attended the University of Maryland, College Park, are ineligible for this scholarship. Candidate nomination forms are available in early January from the Office of Undergraduate Admissions or from community college advisors. The deadline for receipt of the application, official transcripts, and scholarship materials is March 1st. Contact the Office of Undergraduate Admissions at www.admissions.umd.edu for more information.

University of Maryland Departmental Scholarships: Some Colleges and departments at the university offer a variety of merit scholarships. Most departmental scholarships require a student to have a minimum grade point average of 3.0 and be registered for a minimum of 12 credits per semester. For information regarding departmental scholarships, please contact the appropriate College or department.

Creative and Performing Arts Scholarships: These are competitive scholarships which are awarded annually. Primary consideration will be given to entering freshmen and transfer students from community colleges that have outstanding talent in art, dance, music, or theater. The scholarships cover in-state tuition and mandatory fees and are renewable for up to three years based upon an acceptable level of performance as defined by the respective departments. Additional application materials and information about required auditions are available directly from the Departments of Art, Dance, Music and Theatre at www.arhu.umd.edu.

Maryland State Scholarships: The Maryland Higher Education Commission (MHEC), awards both need- and merit-based scholarships to Maryland residents. There are many different programs available, including the Guaranteed Access Grant, Educational Assistance Grant, the Senatorial Scholarship, and the Delegate Scholarship. You may obtain more information about these and other awards by calling MHEC at 800-974-0203. All Maryland residents are expected to apply for State scholarship assistance. Initial application for many of the awards is made through the Free Application for Federal Student Aid (FAFSA). Please note that filing the FAFSA is sufficient to apply for most Maryland State Scholarships at UMD, although some may require additional application forms. The application deadline for most programs is March 1st. The FAFSA is available on the Office of Student Financial Aid web site at www.financialaid.umd.edu.

Scholarships from Other States: Several states have reciprocal agreements with the State of Maryland. Students who are residents of these states may receive funds for study in eligible post-secondary institutions in Maryland. Interested students should contact their state scholarship agencies for information.

Scholarship Searches: A broad range of scholarships are available from private sources. Usually, these awards are not as well publicized as state and university programs. Therefore, students should conduct a scholarship search to locate such sources. The University of Maryland offers access to several services to students to aid them in their searches. Access our website at www.financialaid.umd.edu/scholarships to use these services.

NEED-BASED FINANCIAL ASSISTANCE

0102 Lee Building
301-314-9000
301-405-9265
umfinaid@umd.edu
www.financialaid.umd.edu

Grants

The Office of Student Financial Aid (OSFA) administers several grant programs for undergraduates. Awards are made based on financial need as determined by the FAFSA. Grants do not have to be repaid. Access the Financial Aid web site at www.financialaid.umd.edu for more information.

Federal Pell Grant: This grant provides a "foundation" of financial aid, to which aid from other sources may be added. Only undergraduates who are seeking their first bachelor's degree and have exceptional need may receive a Federal Pell Grant. All undergraduates will be considered for this grant regardless of when their applications were received. Students may receive the Federal Pell Grant for less than full-time attendance, although the award will be pro-rated based on the number of credits attempted. Awards range from \$598 to \$5,815.

Teacher Education Assistance for College and Higher Education (TEACH) Grant: Through the College Cost Reduction and Access Act of 2007, Congress created the Teacher Education Assistance for College and Higher Education (TEACH) Grant Program that provides grants of up to \$3,728 per year to students who intend to teach in a public or private elementary or secondary school that serves students from low-income families.

To receive the TEACH Grant students must complete the FAFSA, be a U.S. citizen or eligible non-citizen, enrolled as an undergraduate, post-baccalaureate or graduate student, enrolled in a coursework necessary to begin a career in teaching or plan to complete such coursework, maintain a cumulative 3.25 GPA and sign a TEACH Grant Agreement to Serve. Questions regarding the TEACH Grant Program can be directed to the Office of Student Financial Aid.

Institutional Grants: The University of Maryland (UM) grant is awarded to full-time students who demonstrate financial need and meet OSFA's priority application deadline of February 15th. The OSFA selects the recipients of this award based on availability of funds and the qualifications of the applicants. The UM grant may be awarded to undergraduates who demonstrated need and high academic achievement. The UM Grant may be awarded to any undergraduate with demonstrated need. Award amounts for these programs range from \$500 to \$4,000.

Self-Help: Financial aid also consists of self-help assistance such as employment and student loan programs. Most of these programs are awarded based on need as determined by the FAFSA. Access our web site at www.financialaid.umd.edu for additional information.

Federal Work-Study: The Federal Work-Study (FWS) Program provides students with the opportunity to earn money to meet their educational and personal expenses. Money earned from the FWS program does not have to be paid back.

To be considered for FWS, students must meet OSFA's priority application deadline of February 15th. This award is need-based and may range from \$800 to \$2,400. Pay rates depend on the level of complexity of the work, but will be at least the federal minimum wage. Like all university employees, FWS employees receive a paycheck every other week for the hours worked. Most FWS jobs are on campus, though opportunities exist through the Community Service Program for FWS students to work off campus at several Federal Government Agencies. The number of hours students may work is limited to 20 per week while school is in session and 40 per week during vacations and summer break.

Paid Internships: Students with paid internships sign a contract at the beginning of the semester that states the payment amount for the number of hours to be worked during that semester. The payment amount is advanced to the student's account at the start of each semester. This program differs from Federal Work-Study in that students receive all "wages" at the start of each semester, as opposed to a bi-weekly pay check, and those funds are applied directly to the student's account. Several offices and departments on campus, including Shuttle UM, Residential Facilities, and Dining Services, offer paid internships. Students should contact the department or office for which they are interested in working.

Federal Perkins Loan: The Perkins loan is a low-interest rate (5%) loan for students with exceptional financial need. This is a loan borrowed from the school, and must be repaid. To be eligible, students must meet OSFA's priority application deadline of February 15th. The amount of the award will depend upon the student's need and may range from \$200 to \$2,500. New borrowers (those who first receive a federal Perkins Loan after July 1, 1988) have a grace period of nine months after graduating or leaving school before they must begin repayment of their federal Perkins Loan(s). Interest will begin accruing at the time of repayment. This loan is interest-free while students are attending school and enrolled at least half time in a degree-seeking program.

Direct Stafford Loan: This is a low-interest-rate loan for students who attend at least half-time. Application is made through the school's financial aid office via the FAFSA. Eligibility for this loan is based on need, not credit worthiness. This loan is borrowed by the student and must be repaid.

There are two types of Direct Stafford Loans: subsidized and unsubsidized. The Direct Stafford subsidized loan is awarded to students with demonstrated financial need; this loan is interest-free while students are attending school and enrolled at least half-time in a degree-seeking program. Students who do not demonstrate financial need, or who do not demonstrate sufficient need to borrow a fully Direct Stafford subsidized loan, may borrow a Direct Stafford unsubsidized loan. The Direct Stafford unsubsidized loan is interest bearing. Students borrowing a Direct Stafford unsubsidized loan will be required to repay the principle and any interest that may accrue during school attendance. All students who want to apply for either Direct Stafford loan must complete the FAFSA. As of July 1, 2015, the Direct Stafford subsidized and unsubsidized loans for

undergraduates has a 4.29% fixed interest rate. Students who graduate or drop below half-time status are granted a six-month grace period before repayment of the Direct Stafford loan is required.

The following are the maximum loan amounts per academic year: \$5,500 for undergraduates with freshman status, \$6,500 for undergraduates attaining sophomore status, and \$7,500 for undergraduate students who attain junior or senior status. If students do not demonstrate sufficient need to borrow the maximum Direct Stafford subsidized loan, they may borrow the difference in a Direct Stafford unsubsidized loan. The maximum borrowing limit for most undergraduates is \$31,000.

Direct PLUS (Parent Loans for Undergraduate Students) Loan: This is a non-need-based loan, which parents may borrow to help defray the cost of their dependent children's education. The Direct PLUS enables parents to borrow the full yearly cost of attendance (as determined by the school) minus all other financial aid. Otherwise, there is no yearly or cumulative borrowing limit. As of July 1, 2011, the student is required to complete a Free Application for Federal Student Aid (FAFSA) in order to apply for the Direct PLUS loan. After the FAFSA is completed, borrowers must submit the Direct PLUS loan application to the school for calculation and certification of the maximum loan amount that the parent may borrow per student per year. The Direct PLUS loan application can be completed with the Department of Education at www.studentloans.gov.

The Direct PLUS is granted to borrowers based on credit-worthiness as determined by the Department of Education whom the borrower selects. The Direct PLUS loan has a 6.84% fixed interest rate. The borrower has the option of beginning repayment on the Direct PLUS loan either 60 days after the loan is fully disbursed or not until six (6) months after the dependent student on whose behalf the parent borrowed ceases to be enrolled on at least a half-time basis.

OFFICE OF STUDENT FINANCIAL AID

0102 Lee Building
301-314-9000
301-405-9265
umfinaid@umd.edu
www.financialaid.umd.edu

The Office of Student Financial Aid (OSFA) administers all types of federal, state, and institutional financial assistance programs, and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. The primary responsibility for financing attendance at the University of Maryland, College Park, lies with students and families. Scholarships, grants, loans, and work-study positions are awarded on the basis of academic ability and/or financial need as determined by a federal needs analysis system. It is the intent of OSFA to provide assistance to students who might not otherwise be able to pursue college studies due to financial constraints.

Financial aid funds are limited; therefore, all new, readmitted, and returning

students must follow these steps to receive priority consideration for financial aid:

1. Student admissions applications and all necessary supporting documents to the Office of Admissions by the appropriate deadlines (Deadlines are listed in Chapter 1).
2. Complete the Free Application for Federal Student Aid (FAFSA) after January 1st. The FAFSA is available on the OSFA web site at www.financialaid.umd.edu. A new FAFSA is required for each academic year of the student's enrollment.

New students should not wait to be admitted before filing the FAFSA. A financial aid application has no bearing on a student's admission application. However, students will not receive final consideration for aid until they are admitted to a degree program.

3. **Complete the FAFSA no later than February 1 so that it is received by the federal processor by February 15. Applying online helps to expedite the process.** Income for the previous year may be estimated initially and corrected later on the Student Aid Report (SAR).

Applications received before February 15 will be given priority consideration.

General Regulations Applicable to All Forms of Aid

Full-Time Status: For most types of aid, students must attempt at least 12 credit hours through the schedule adjustment period each semester in order to receive the full financial aid award. Please refer to the standards of Satisfactory Academic Progress (SAP) when considering dropping below 12 credit hours for any given semester. Please visit the Office of Student Financial Aid website at www.financialaid.umd.edu to review the Satisfactory Academic Progress policy.

Citizenship Status: In order to be eligible for federal, state, or university financial assistance, students must be United States citizens or eligible non-citizens.

Default/Owe Refund: Students cannot be in default on an educational loan, nor can they owe any refund on a Pell Grant or Supplemental Educational Opportunity Grant (SEOG) previously awarded at any post-secondary institution.

Degree-Seeking: Students must be working toward a degree or certificate. Students must be admitted to the university as "degree-seeking."

Satisfactory Progress: Students must be making satisfactory progress toward a degree or certificate according to the Standards for Satisfactory Academic Progress (SAP) published in the Schedule of Classes. Please visit the Office of Student Financial Aid website at www.financialaid.umd.edu to review the Satisfactory Academic Progress policy.

Selective Service: To receive federal financial aid, male students must register with Selective Service if they are at least 18 years old and born after December 31, 1959, unless they are not required by law. The federal government will verify compliance of this registration requirement. Students who have questions about Selective Service registration may contact the Selective Service at 847-688-6888/1-888-655-1825 or www.sss.gov.

Receiving a Non-University Award: If a student receives assistance (scholarship or loan) from a non-university source, the university may reduce the financial aid awarded by the university. It is the student's responsibility to notify the Office of Student Financial Aid of all outside awards.

Change in Financial Situation: It is the student's responsibility to notify the Office of Student Financial Aid of any changes to his or her financial circumstances during the year.

Reapplication Requirement: Need-based assistance is not automatically renewed from year to year. All students requesting need-based aid must reapply by submitting a new or renewal FAFSA annually. Such reapplication must indicate continued financial need and maintain Satisfactory Academic Progress (SAP). Please visit the Office of Student Financial Aid website at www.financialaid.umd.edu to review the Satisfactory Academic Progress policy.

Award Policy: Financial aid is normally a combination of grants, loans, and student employment. The financial aid "package" is determined by the availability of financial aid and the financial circumstances of each student. It is not necessary to make any special application for university grants. The Office of Student Financial Aid will determine awards that best fit the needs and qualifications of the candidates.

Estimating Educational Cost

Costs of Attendance Budgets are estimates of the educational expenses incurred by students during the nine-month academic year. These budgets include direct university charges (tuition, fees and on campus room and board) and estimates of indirect expenses (transportation, books, supplies, miscellaneous living expenses, and off-campus room and board).

Off-campus cost of living expenses are determined based on the average room and board charges for the local area. These are indirect costs, not billed by the University.

Actual College Park tuition and fees can be found by contacting the Office of the Bursar (<http://bursar.umd.edu/index.php>).

Dependent student living on campus (*not with parent/relative*)

Tuition and Fees	
In-State: Maryland Resident	\$10,224
Out-of-State: DC, other states, other countries	\$32,088
Room	\$6,812*
Board	\$4,846*
Books/Supplies	\$1,200**

Personal and Transportation expenses	\$2,604**
Subtotal In-State (Tuition & Books/Supplies)	\$11,424
Total In-State	\$25,686
Subtotal Out-of-State (Tuition & Books/Supplies)	\$33,288
Total Out-of-State	\$47,550

Dependent student commuting from parents home

Tuition and Fees

Subtotal Out-of-State (Tuition & Books/Supplies)	\$33,288
Total Out-of-State	\$51,218

*These figures are averages and will vary from student to student.

**They are indirect costs not billed by the bursar.

TUITION AND BILL PAYMENT INFORMATION

1135 Lee Building
 301-314-9000
 301-405-0659 fax
 Financial Services Center
 billtalk@umd.edu
 bursar.umd.edu
 1-888-313-2404

Tuition and fees for the University of Maryland, College Park, are listed in the next section. The university requires that all deposits and fees be paid by stated deadlines, or penalties must be imposed. Many potential administrative difficulties can be avoided if students carefully follow published procedures and notify the appropriate office(s) of any changes that might affect their financial obligation to the university. This includes updating your email address so communication concerning your billing is prompt, and notifying the Bursar's Office of changes of address so that mail affecting the student's financial relationship with the university will not be delayed or returned.

Tuition and bill payment information for Summer Term, Winter Term, Freshmen Connection and Professional Programs may be found at oes.umd.edu. College Park sponsors a deferred-payment plan for the Fall and Spring semesters only. Information regarding the Terp payment plan is available by calling 301-314-9000 or 1-888-313-2404 or at bursar.umd.edu. All charges incurred during a semester are payable immediately. Returning

students will not be permitted to complete registration until all financial obligations to the university, including library fines, parking violations, and other penalty fees and service charges, are paid in full.

Payment for past due balances and current semester fees is due on or before the first day of classes. Students who register in advance must pay their bills in full prior to the general registration period. Students who register after the initial registration period are required to make full payment by the due date indicated to avoid cancellation of their enrollment and loss of their classroom seats to other students.

Although the university bills students monthly, it cannot assume responsibility for their receipt. Students are reminded that it is their responsibility to notify the University of any change in their email address. If a student bill is not received on or before the beginning of each semester, it is the student's responsibility to obtain a copy of the bill. To check your account balance or view your monthly billing statement go to bursar.umd.edu and choose "View Your Monthly Bill" or go to the Financial Service Center, 1135 Lee Building. The office is open Monday through Friday, 8:30 a.m. to 4:30 p.m.

All checks or money orders should be made payable to the **University of Maryland** for the exact amount due. **Student's name and student's University ID number should be written on the front side of the check.** University grants and scholarships will be posted to the student's account. However, the first bill mailed prior to the beginning of each semester may not include these credits.

Students are urged to check their residence hall and dining service agreements for procedures for cancellation of reservations and for deadlines for receiving refunds of deposits. Refunds cannot be made after these deadlines, even if the student decides not to attend the University of Maryland, College Park.

Students will incur a late payment fee in the event of failure to pay a balance on their student account by its due date. A late payment fee of \$10.00 or 5%, whichever is higher, will be assessed in addition to the total past due amount. An additional 1.5% finance charge will be charged monthly if the account is not settled.

Students who fail to pay the indebtedness during the semester in which delinquency occurs will be ineligible to register for subsequent semesters until the debt and the penalty fees are cleared.

In the event a student with a delinquent account becomes registered for a future semester, the account must be settled in full prior to the onset of the future semester, to avoid cancellation of registration.

The state has established, under legislative mandate, a Central Collections Unit (CCU) within the Department of Budget and Fiscal Planning. The university is required by state law to refer all delinquent accounts to the State Collections Unit. Please note that Maryland law allows the Central Collections Unit to intercept state income tax refunds for individuals with delinquent accounts, and that CCU is authorized to notify a National Credit Bureau of the delinquency at the time the account is referred to it for collection.

All accounts due from students, faculty, staff, non-students, etc., are included within these guidelines.

Central Collections Unit costs incurred in collecting delinquent accounts will be charged to the student. The minimum collection fee is 17% plus attorney and/or court costs.

No degrees, diplomas, certificates, or transcripts of records will be issued to

students who have not made satisfactory settlement of their accounts.

Note: Additional Information on Student Financial Obligations, Disclosure of Information, Delinquent Accounts, and Special Fees, can be found in the "Policy Statements" section at the beginning of this catalog.

Payment of Fees

All checks, money orders, or postal notes should be made payable to "University of Maryland." The student's University ID number must be written on the front of the check. VISA, MasterCard, American Express, and Discover credit cards, and online check payments are accepted. Online payments can be made by clicking on the blue box at bursar.umd.edu.

UNDERGRADUATE TUITION AND FEES

1135 Lee Building

3. Campus Administration, Resources, and Student Services

ACADEMIC RESOURCES AND SERVICES

Academic Achievement Programs

2204 Marie Mount Hall
301-405-4736 (phone)
301-314-9162 (fax)
Executive Director: Dr. Jerry L. Lewis
www.aap.umd.edu

The Academic Achievement Programs (AAP) primarily provides resources and opportunities for low-income individuals, first generation college students, disabled students and traditionally under-represented students.

For more information, see Office of Undergraduate Studies section in Chapter 6.

Admissions

Ground Floor Clarence M. Mitchell Jr. Building
301-314-8385
Associate Vice President for Enrollment Management: Barbara Gill
ApplyMaryland@umd.edu
www.admissions.umd.edu
1-800-422-5867

The services offered by the Office of Undergraduate Admissions are designed to meet the individual needs of prospective students. The office provides general information about the University of Maryland through brochures, letters, website, electronic communication, information sessions, campus tours and other personal interactions. Admissions staff evaluate both freshman and transfer applicants in order to shape the entering class of students. For more information about undergraduate admission, see Chapter 1.

Computing Services: Division of Information Technology

Phone: 301-405-1500
Fax: 301-405-0300
it-reply@umd.edu
www.it.umd.edu

The Division of Information Technology is part of a University of Maryland student's everyday academic and social life. The division plans, develops, supports, and maintains computing, networking, and telecommunications services for the university community to enhance both day-to-day academic and business goals and to further the university's standard of excellence in education and research.

Many faculty members have integrated technology into courses, both inside and outside of the classroom. Some professors use clickers to collect student feedback during class. Through ELMS, the university's Enterprise Learning Management System (www.elms.umd.edu), instructors can provide online course materials, collect assignments, post grades electronically, and hold discussion sessions.

The university's robust wireless network (one of the nation's largest for a university our size) gives students the ability to connect to the Internet from almost anywhere on campus. Every student living in a residence hall also has a dedicated high-speed data jack to use when connecting to the university network from his or her room. Computer labs across campus feature Windows and Macintosh environments, offer printing services (from lab or personal computers), and provide course-related software. UMD's Box service (www.it.umd.edu/box) gives students 50

GB of storage space to use for backing up files, synching files on multiple devices, and collaborating with others.

Service Desk staff (www.helpdesk.umd.edu, 301-405-1500) are available to answer IT questions and provide tech support, and they can be contacted in person, over the telephone, and via live chat. The Service Desk's IT Service Center online resource (www.itsc.umd.edu) enables you to consult a knowledge base of how-to articles and a catalog of IT services, check and subscribe to service alerts, and initiate and track help requests online 24/7.

Discounts on computers and cellular devices and service are also available to University of Maryland students. Some popular software is available at no cost via downloads or subscriptions. Visit www.it.umd.edu/techsavings for more information.

Education Abroad

3122 Susquehanna Hall
Phone: 301-314-7746
Fax: 301-314-9135
Director: Dr. Moira Rogers
educationabroad@umd.edu
www.international.umd.edu/studyabroad
Receptionist: 301-314-7473

Through Education Abroad (EA), UMD students participate in academically rigorous overseas programs designed to broaden and enrich their major fields of study, deepen their understanding of other languages and cultures, and strengthen their ability to compete for successful careers in today's global economy. These programs provide coursework in a wide range of disciplines so that participants can study abroad for a semester or academic year and still complete their degrees on schedule. A growing number of EA programs combine the concepts of global citizenship, civic engagement, and entrepreneurship by engaging students in innovative projects designed to address health, economic, and environmental issues in the communities that host them during their overseas studies.

EA collaborates with UMD faculty and staff as well as international institutions and affiliated organizations to support more than 400 international programs in over 65 countries and to integrate overseas coursework into campus curricula. Professional advisors guide students in the selection of suitable programs and the arrangement of academic credit, assist with applications for financial aid, conduct pre-departure orientations, and provide on-call support to participants overseas. Recognizing that substantive international experience is a crucial part of any undergraduate education, EA continually seeks to enable every UMD student to study abroad regardless of his or her major field of study or financial profile. EA is especially attentive to the diverse needs of the UMD campus community and is committed to developing and delivering programs and resources that facilitate access for and representation of diverse identities.

Study Abroad Process

Students interested in overseas studies should ideally visit EA one year before actually submitting an application in order to explore program options and learn more about the next steps in arranging academic credit, completing pre-requisites, and obtaining financial aid for their intended programs. When a student is prepared to begin an application, he or she should arrange to meet with an advisor by making an appointment through the on-line system at: www.international.umd.edu/studyabroad.

Types of Study Abroad Programs

Exchange programs: Exchange programs allow UMD students to study for a semester or year at leading universities throughout the world while paying little more than their regular UMD tuition, travel, and overseas living expenses. In exchange for each outgoing student, one from the overseas host university studies at the College Park campus for an equivalent period. While some exchange programs require foreign language proficiency, many are open to students who speak only English. These programs offer UMD students an outstanding opportunity to develop lasting

bonds with local students. UMD students earn transfer credit applied to their UMD degree on all exchange programs.

Maryland Semester (Maryland-in), Maryland Short Term & Freshmen Abroad programs: EA directly sponsors and administers a wide array of semester and short term opportunities in partnership with UMD academic departments. These options allow students to receive UMD resident credit. These include semester programs in Copenhagen, Florence, Perugia, London, Nice, Seville, Berlin, Barcelona, Rome and Beijing, as well as more than 70 short term courses taught by Maryland faculty during the summer, winter term, and spring break in locations ranging from Morocco to Brazil. This also includes Terrapin Takeoff and Destination programs for spring admitted freshmen. In addition to high-quality instruction, UMD programs offer cultural activities, internships, and service opportunities to help students maximize their engagement with the host-country culture.

Approved Programs and Affiliate Programs: EA administers a wide range of programs in collaboration with vetted study abroad providers and universities, including The Council on International Educational Exchange (CIEE), the Institute for the International Education of Students (IES), The Education Abroad Network (TEAN), American Councils (ACTR), and the University Studies Abroad Consortium (USAC).

Non-Approved programs: UMD students who wish to study abroad through other institutions must petition to do so. The first step in this process is to speak with an EA advisor. Petitioners must demonstrate a compelling academic reason to participate in a non-approved program and that the program in question meets the same standards required of approved programs. EA strongly encourages students to explore its extensive list of affiliated and approved programs before beginning the petition process.

More information and applications are available at the EA website:

www.international.umd.edu/studyabroad.

Honor Societies

Students who excel in scholarship and leadership may be invited to join the appropriate honor society. Honor societies at Maryland include:

Alpha Chi Sigma (Chemistry)
*Alpha Epsilon (Agricultural Engineering)
*Alpha Epsilon Delta (Pre-Med)
Alpha Epsilon Rho (Broadcast Journalism)
*Alpha Kappa Delta (Sociology)
*Alpha Lambda Delta (Freshman Scholarship)
Alpha Phi Sigma (Criminal Justice)
Alpha Zeta (Agriculture)
Beta Alpha Psi (Accounting)
Beta Gamma Sigma (Business Management)
Black Honors Caucus
*Chi Epsilon (Civil Engineering)
Delta Nu Alpha (Transportation)
Delta Phi Alpha (German)
Delta Sigma Pi (Business)
Eta Beta Rho (Hebrew)
*Eta Kappa Nu (Electrical Engineering)
*Gamma Theta Upsilon (Geography)
*Golden Key Honor Society (Leadership/Scholarship)
*Kappa Delta Pi (Education)
*Kappa Tau Alpha (Journalism)
*Lambda Pi Eta (Speech Communication)
*Mortar Board National Honor Society (Scholarship)
*National Society of Collegiate Scholars
*Omega Chi Epsilon (Chemistry Engineering)

*Omega Rho (Business)
 *Omicron Delta Epsilon (Economics)
 *Omicron Delta Kappa (Scholarship/Leadership)
 *Order of Omega (Fraternity/Sorority Leadership)
 Phi Alpha Epsilon (Health/Human Resources)
 *Phi Alpha Theta (History)
 Phi Beta Kappa (Scholarship)
 Phi Chi Theta (Business and Economics)
 *Phi Eta Sigma (Freshman Scholarship)
 *Phi Kappa Phi (Senior/Graduate Scholarship)
 *Phi Sigma (Biology)
 *Phi Sigma Pi (Scholarship/Leadership)
 *Phi Sigma Iota (French/Italian)
 *Pi Sigma Alpha (Political Science)
 *Phi Sigma Theta
 Pi Tau Sigma (Mechanical Engineering)
 *Primannum Honor Society
 *Psi Chi (Psychology)
 Sigma Alpha Omicron (Microbiology)
 Sigma Delta Chi (Journalism)
 *Sigma Delta Pi (Spanish)
 *Sigma Tau Delta (English)
 *Tau Beta Pi (Engineering)
 Tau Beta Sigma
 *Member of Association of College Honor Societies

Intercollegiate Athletics

XFINITY Center
 301-314-7075
 301-314-7149
 Director of Athletics: Kevin Anderson
 lebihara@umd.edu
 www.umterps.com

The Department of Intercollegiate Athletics is responsible for directing intercollegiate athletic programs for both women and men, and for managing the campus' athletic complex.

Women's intercollegiate athletic teams include cross country, field hockey, soccer and volleyball in the fall; basketball, indoor track/field and gymnastics during the winter; and lacrosse, softball and outdoor track/field in the spring. Tennis and golf competition is scheduled in both the fall and spring seasons.

There are men's teams in football and soccer in the fall; basketball and wrestling during the winter; and baseball, lacrosse and outdoor track/field in the spring. Golf competition is scheduled in both the fall and spring seasons.

Men's and women's intercollegiate athletic teams compete in the National Collegiate Athletic Association (NCAA) at the Division I level and in the Big Ten Conference.

Eligibility Requirements

Student-athletes must meet all NCAA, Big Ten and University of Maryland requirements for eligibility. The chart below serves **only** as a guideline to eligibility rules and does not provide complete detail. All NCAA requirements are available via www.NCAA.org.

NCAA Continuing Eligibility and Progress Towards Degree Guidelines

Year of Initial Collegiate Enrollment	Semester of Full-Time Enrollment	NCAA Requirements
Fall 2003 - present	Entering 1st semester (1st year)	Must be certified by the NCAA Eligibility Center
	Entering 2nd semester	* 6 degree applicable credits earned previous semester * 1.29 UM GPA
	Entering 3rd semester (2nd year)	* 18 hours earned during previous regular academic year and 24 for the year earned at UMD * 6 degree applicable credits earned in previous semester * 1.8 NCAA GPA
	Entering 4th semester	* 6 degree applicable credits previous semester * 1.80 NCAA GPA
	Entering 5th semester (3rd year)	* 40% (*48 degree applicable credits) of degree requirement completed * 18 hours during previous regular academic year * 6 degree applicable credits earned previous semester * 1.90 NCAA GPA * declaration of degree program
	Entering 6th semester	* 6 degree applicable credits earned previous semester * 1.90 NCAA GPA
	Entering 7th semester (4th year)	* 60% (*72 degree applicable credits) of degree requirement completed * 18 hours earned during previous regular academic year * 6 degree applicable credits earned previous semester * 2.00 NCAA GPA
	Entering 8th semester	* 6 degree applicable credits earned in previous semester * 2.00 NCAA GPA
	Entering 9th semester (5th year)	* 80% (*96 degree applicable credits) of degree requirement completed * 18 hours earned in previous regular academic year * 6 degree applicable credits earned previous semester * 2.00 NCAA GPA

**Based on 120 credit degree program*

1. Student-athletes are allowed 4 seasons of eligibility within 5 calendar years from the time they first enroll full-time in a collegiate institution. When they participate in any competition in their sport (including a scrimmage with outside competition), whether it is for one minute or an entire contest, they have used a season of competition and one of their four years of eligibility.
2. Student-athletes must be enrolled full-time, that is, carry a minimum of 12 credit hours each

semester to be eligible to practice or compete with their team. If a student-athlete drops below 12 hours he/she will immediately be ineligible to practice or compete, and his/her athletics grant-in-aid will be revoked unless otherwise approved by the Department of Athletics. Graduating seniors who need less than 12 credit hours to complete degree requirements may receive an exception to enroll in less than 12 credit hours by completing a Less Than 12 form available in the ASCDU.

3. Student-athletes are required to meet multiple sets of academic standards in order to maintain eligibility for athletic competition. These standards are dictated by the NCAA and the Athletic Council. In addition, student-athletes may be required to maintain standards dictated by the college of their major for either admission into a degree program, or maintaining enrollment.

4. Transfer student-athletes must meet all NCAA, Big Ten and UMD requirements in order to be immediately eligible. Please note that in certain cases NCAA and Big Ten eligibility requirements are more stringent than UMD admissions requirements.

5. Ineligible student-athletes are not permitted to compete or travel.

6. First semester freshman who do not meet UMD cumulative GPA requirements, may seek an appeal under certain circumstances. Transfer student-athletes are required to attain the appropriate cumulative GPA based upon the number of full-time semesters they have been enrolled in any institution.

7. Dismissed and later reinstated student-athletes are ineligible for competition until they meet designated grade point averages.

The Department of Intercollegiate Athletics (ICA) also sponsors a number of awards for achievement in athletics and/or scholarship. For further information, contact the Academic Support and Career Development Unit (ASCDU), 301-314-7043.

International Student and Scholar Services

Third Floor Susquehanna Hall

301-314-7740

301-314-3280

Director: Susan Dougherty

<http://isss.umd.edu>

International students and faculty receive a wide variety of services designed to help them benefit from their experience in the United States. International Student and Scholar Services (ISSS) works closely with the Office of Undergraduate Admissions on the admission of international students. ISSS services include: university sponsorship of international students, orientation programs, immigration and employment seminars and coffee hours. ISSS advisors counsel international undergraduate students concerning immigration, personal and campus life issues.

F-1 and J-1 status students. The ISSS is the only office on campus authorized to sign immigration documents and advise on the following topics: extension of stay, transfers, off-campus employment authorization, practical training, and course loads.

Students with F-1 or J-1 status are responsible for following the regulations of the U.S. Citizenship and Immigration Service (USCIS) and the Department of State (DOS) pertaining to their visa status.

Maintaining Status

- **Full-time registration:** In order to maintain full-time student status for immigration purposes, F-1 and J-1 undergraduate students are expected to register for and complete a minimum credit load of 12 hours per semester. Pre-approval from ISSS is required if you are going to complete the semester with fewer than 12 credits.
- **Documents:** International students must have a valid passport at all times unless exempt from passport requirements. If your I-20 or DS-2109 will soon expire you should apply for an extension at least 30 days prior to the program completion date on the document. To travel outside the U.S. and re-enter as an F-1 or J-1, an advisor in ISSS must sign your I-20 or DS-2109 before you leave.
- **Health Insurance:** All undergraduate students, regardless of visa status, are required by the University Health Center to carry adequate health insurance. In addition, J-1 students must present copies of their health insurance to ISSS in order to comply with Department of State

requirements.

We hope you will find the resources you need in this catalog or by visiting our office. Please contact us if we can be of any further assistance to you.

Thanks for being a part of our global UMD community!

Learning Assistance Service (LAS)

2202 Shoemaker Building
301-314-7693
<http://www.counseling.umd.edu/LAS>
301-314-7651

LAS is the premier academic success service on campus. Through collaboration with other campus partners, we provide innovative and supportive academic skills enrichment services to help students achieve optimal success in college and life.

Many students would like to improve their academic skills. If you want to enhance your learning strategies, build confidence in challenging subjects, learn efficient time management techniques, or think positively about being an effective college student, schedule an appointment with one of the Counseling Center's academic skills coaches in LAS. To schedule an appointment, call 301-314-7693 or sign up online at: <https://lasonline.umd.edu>. Visit our website at www.counseling.umd.edu/LAS.

Letters and Sciences

1117 Hornbake Library
301-314-8418 (phone)
301-314-9394 (fax)
Assistant Dean/Director: Deborah Reid Bryant, Ph. D.
askltsc@umd.edu
www.ltsc.umd.edu

Letters and Sciences is the academic home for students exploring a variety of fields before selecting a major, for post-baccalaureate students taking additional course work, and for non-degree seeking students taking undergraduate courses. Letters and Sciences may also serve as the academic home for students completing requirements for entry into a Limited Enrollment Program. Letters and Sciences advisors help students to select and schedule courses, plan academic programs, and learn about campus-wide resources. Letters and Sciences collaborates closely with college advising offices, academic departments, and programs across campus and provides a coordinated advising network.

For more information, see Office of Undergraduate Studies section in Chapter 6.

Maryland Center for Undergraduate Research (MCUR)

1201 (first floor) Marie Mount Hall
301-314-6786
Director: Francis DuVinage
ugresearch@umd.edu
www.ugresearch.umd.edu

The Maryland Center for Undergraduate Research (MCUR) is an initiative of the Office of the Dean of Undergraduate Studies. Created as a resource for students and faculty, the Center serves as a clearinghouse for both on-campus and off-campus research opportunities for undergraduates. Major programs of the MCUR include Maryland Student Researchers, which permits faculty to list research opportunities open to undergraduates during the academic year, and Maryland Summer Scholars, which provides funding for students to conduct summer research (on-campus or elsewhere in the US or abroad as needed) under the mentorship of a Maryland faculty member.

MCUR also presents Undergraduate Research Day, a campus-wide poster event, every spring. For more information, see Office of Undergraduate Studies section in Chapter 6.

Maryland English Institute (MEI)

1117 Cole Student Activities Building
301-405-8634
301-314-9462
Director: Dr. Elizabeth Driver
mei@umd.edu
www.mei.umd.edu

The mission of Maryland English Institute (MEI) is to provide English language instruction and assessment at the postsecondary level for speakers of other languages who wish to learn English for academic, professional, or personal reasons. MEI fulfills its mission by providing:

- courses for matriculated University of Maryland students
- courses for international teaching assistants
- short courses for members of the campus and local community
- custom-designed programs
- evaluation of the English language proficiency of provisionally admitted students
- assessment of oral communication skills of international teaching assistants
- a full-time, multi-level Intensive English Program

MEI offers rigorous courses of study while providing a positive and supportive learning community and promoting cross-cultural understanding.

Two regular instructional programs are offered for provisionally admitted and prospective undergraduate and graduate students who are non-native speakers of English: a semi-intensive program for provisionally admitted students and a full-time intensive program for provisionally admitted or prospective students.

Semi-Intensive (UMEI005): This course is open only to students who are admitted to the University of Maryland. Students who are provisionally admitted to the University must satisfactorily complete UMEI005 in their first semester in order to become fully admitted, full-time students at the University. UMEI005 classes meet five days a week, two hours a day. The program is designed especially to strengthen the language skills necessary for academic work at the University of Maryland. No credit is given toward any university degree.

Intensive (UMEI001-004): This full-time English language program is open to non-native speakers who wish to improve their English for academic, professional or personal reasons. There are three intensive English sessions per year: one for fall semester, one for spring, and a seven-week session in the summer. Each consists of approximately 23 hours of instruction weekly. The fall and spring programs offer five levels of instruction, beginning through advanced. The summer program offers varied levels of instruction with the opportunity to choose from a variety of electives for part of the program.

Satisfactory completion of the intensive program does not guarantee acceptance at the University for prospective students who enroll at MEI. Students who already have provisional admission when they enroll at MEI will matriculate into degree programs if they successfully complete the required courses. Enrollment is by MEI application and acceptance, and no credit is given toward any university degree. Tuition remission cannot be applied to MEI courses.

Oak Ridge Associated Universities

Vice President and Chief Research Officer: Patrick G. O'Shea
ORAU Councilor, University of Maryland
www.oraui.org

Since 1951, students and faculty of University of Maryland have benefited from its membership in

Oak Ridge Associated Universities (ORAU). ORAU is a consortium of 98 colleges and universities and a contractor for the US Department of Energy (DOE) located in Oak Ridge, Tennessee. ORAU works with its member institutions to help their students and faculty gain access to federal research facilities throughout the country; to keep its members informed about opportunities for fellowship, scholarship, and research appointments; and to organize research alliances among its members.

Through the Oak Ridge Institute for Science and Education (ORISE), the DOE facility that ORAU operates, undergraduates, graduates, postgraduates, as well as faculty enjoy access to a multitude of opportunities for study and research. Students can participate in programs covering a wide variety of disciplines including business, earth sciences, epidemiology, engineering, physics, geological sciences, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry, and mathematics. Appointment and program length range from one month to four years. Many of these programs are especially designed to increase the numbers of underrepresented minority students pursuing degrees in science and engineering related disciplines, and details on locations and benefits can be found in the *ORISE Catalog of Education and Training Programs*, which is available at www.ornl.gov/orise/educ.htm, or by calling the contacts below.

ORAU's Office of Partnership Development seeks opportunities for partnerships and alliances among ORUA's members, private industry, and major federal facilities. Activities include faculty development programs, such as the Ralph E. Powe Junior Faculty Enhancement Awards, the Visiting Industrial Scholars Program, consortium research funding initiatives, faculty research and support programs as well as services to chief research officers.

For more information about ORAU and its programs, contact:

Patrick G. O'Shea
Vice President and Chief Research Officer
ORAU Councilor for University of Maryland

Monnie E. Champion
ORAU Corporate Secretary
865-576-3306

Visit the ORAU home page at www.ornl.gov.

OFFICE OF EXTENDED STUDIES (Summer Session, Winter Session, Freshmen Connection, Freshmen First, Pre-College Programs, and Graduate, Post-Baccalaureate, and Continuing Education Programs)

0132 Main Administration Building
Phone: 301-405-7762
Fax: 301-314-9572
E-mail: oes@umd.edu
Web: oes.umd.edu

The Office of Extended Studies administers Summer Session, Winter Session, Freshmen Connection, Freshmen First, Pre-College Programs, and Graduate, Post-Baccalaureate, and Continuing Education Programs.

Summer Session serves current UMD students, visiting students from other universities and colleges, graduates, professionals, and high school students who can satisfy a requirement, catch up on credits, and get closer to graduation. Summer Session features more than 1,700 courses that are offered morning, afternoon, evening, and online during three-week or six-week sessions.

Winter Session serves current UMD students, visiting students from other universities and colleges, graduates and professionals who can fulfill prerequisites, meet eligibility requirements for certain majors, and accelerate progress for graduation. Held in January, the three-week Winter Session features more than 350 courses that meet morning, afternoon, evening, and online.

In Freshmen Connection, spring-admitted freshmen begin their University of Maryland education

in the fall semester, earn up to 17 university credits toward their undergraduate degree, and get on track to graduate in four years.

The **Freshmen First Program**, a three-week summer program, prepares freshmen for living and learning at the University of Maryland, easing the transition to the university environment. Students enroll for three credits, attend seminars and social activities, meet and study with other incoming freshmen, and reside on campus or commute from home.

Pre-College Programs

The **Terp Scholars Program**, a three-week summer program, invites academically talented rising high school sophomores, juniors, and seniors to pursue academic interests, discover career opportunities, earn university credits, and explore university life.

Terp Discovery, a two-week summer program, invites academically promising middle school students to explore education and career opportunities and learn about university life.

Graduate Programs offer master degrees and graduate certificates to professionals who want to advance their knowledge and career goals.

Post-Baccalaureate Programs prepare students for professional schools, graduate programs, and professional achievement.

Continuing Education Programs include customized initiatives that include seminars, work force training, and short courses crafted for industry application.

Office of Multi-Ethnic Student Education (OMSE)

1101 Hornbake Library
301-405-5616
301-314-9512 (fax)
www.omse.umd.edu

The Office of Multi-ethnic Student Education provides programs and resources to support the academic, personal, and professional excellence of students. The mission of the Office of Multi-ethnic Student Education is directly linked to the elimination of the achievement gap at the University of Maryland. With that goal in mind, OMSE provides programs such as a walk-in tutorial program, study lab, a computer lab with disability services software, affinity groups, drop in OMSE Check Ups, the OMSE Academic Excellence Society, College Success Scholars, and a myriad of services and annual events that recognize the multiple identities of students. The OMSE team is dedicated to our motto of high expectations, high standards and excellence.

Office of the Registrar

First Floor Clarence Mitchell Building
301-314-8240
University Registrar: Adrian Cornelius
www.registrar.umd.edu

The Office of the Registrar is committed to providing the highest level of customer satisfaction in all aspects of its operation, which includes coordinating course enrollment and student registration; maintaining students' permanent academic records; administering academic policy compliance; and producing official transcripts, certifications, and diplomas. Detailed information on the Registrar's Office services is published in Chapter 4 of this catalog.

Orientation

1102 Cole Student Activities Building
Phone: 301-314-8217
Fax: 301-314-1063
Gerry Strumpf, PhD

Gerry Strumpf, PhD
askorientation@umd.edu
www.orientation.umd.edu
Other Phone: 301-314-8212

The goal of the New Student Orientation is to introduce new students to the University of Maryland community. The Orientation Office offers a wide range of transitional programming and services for students and their families as they prepare to attend the University of Maryland.

For more information, see Office of Undergraduate Studies section in Chapter 6.

Pre-College Programs

4111 John S. Toll Physics Building
Phone: 301-405-6776
Fax: 301-314-9155
Executive Director: Georgette Hardy DeJesus
precollege@umd.edu
www.precollege.umd.edu
Other Phone: 301-405-1224

Upward Bound Programs: 301-405-6776
Upward Bound Math and Science Program (UB-MS): 301-405-1224

The University of Maryland Pre-College Programs in Undergraduate Studies is comprised of three federally and state supported programs:

Two Upward Bound Programs (UB) and
Upward Bound-Math and Science Program (UB-MS)

These programs generate the skills and motivation necessary for success in post-secondary education. They immerse high school participants in rigorous academic instruction, tutoring, counseling, and innovative educational experiences throughout the school year and during the six-week summer residential program. Pre-College Programs are part of the Federal TRIO Programs that provide educational opportunity outreach programs designed to motivate and support students from disadvantaged backgrounds.

The UB Programs are open to low-income and/or first-generation college bound high school students in grades 9 through 12, who demonstrate an academic need and want to pursue a four-year postsecondary education. Eligible students must attend target high schools in Prince George's and Montgomery Counties. High school principals, teachers, and counselors recommend students to the program.

Eligibility for the Upward Bound Programs require students attend Northwood High School in Montgomery County and Bladensburg, Central, High Point, Parkdale or Northwestern High Schools in Prince George's County.

The UBMS is open to students in grades 9 through 12, who demonstrate an academic need and want to pursue post-secondary education programs in fields related to mathematics and science. UBMS recruits high school students who have successfully completed Algebra I and attend Potomac and Fairmont Heights High Schools in Prince George's County, MD; Watkins Mill High School in Montgomery County, MD; Edmonston-Westside High School in Baltimore, MD; and Bell High School in Washington, DC.

Pre-Health Professions Advising and Programs

1210 H.J. Patterson Hall
301-405-7805
Director: Wendy Loughlin; Assistant Director: Becky Kenemuth; Advisor: Nick Celedon
www.prehealth.umd.edu

The Reed-Yorke Health Professions Advising Office (HPAO), part of the College of Computer,

Mathematical, and Natural Sciences, serves University of Maryland students and alumni interested in pursuing careers in medicine, dentistry, or allied health fields.

Pre-Law Advising Program

0110 Hornbake Library
301-405-2793
prelawadvisor@umd.edu
www.prelaw.umd.edu

The Pre-Law Advising Office within Letters and Sciences serves all current and former students at the University of Maryland interested in pursuing law school and careers in law. The program provides students with law school planning, including individual and group advising, career preparation workshops, admission information, and much more. While law schools do not require, favor, or prefer specific majors, the pre-law advisor can provide guidance concerning the choice of major. Pre-law does not serve as an undergraduate major, nor does the program require completion of a specific academic curriculum.

Pre-Transfer Advising

0110 Hornbake
301-405-9449 or 301-405-9448
Assistant Dean: Lisa Kiely
transferadvising@umd.edu
www.transferadvising.umd.edu

The Pre-Transfer Advising Program promotes academic success and excellence by assessing the readiness of students who wish to transfer to UM. Pre-Transfer Advising assists students in estimating time to degree completion and advises on which courses to take prior to transfer. Advisors also serve as a resource for community college staff.

Student Success Office

0110C Hornbake
Coordinator: Paulanne Walker; Assistant Dean: Lisa Kiely
rr-admit@umd.edu
www.studentsuccess.umd.edu

The Student Success Office is a clearinghouse for services and resources to assist students in the completion of their undergraduate degrees. This includes:

- Coordinating reenrollment
- Centralizing tutoring resources
- Managing data from exiting students
- Providing leadership on other retention initiatives

For more information, please see www.studentsuccess.umd.edu.

Tutoring

2204 Marie Mount Hall (MMH)
301-405-4745 (phone)
301-314-9794 (fax)
Christine Duchouquette
cduchou@umd.edu
www.aap.umd.edu

The Academic Success and Tutorial Services initiative of the Academic Achievement Programs (AAP) offers free tutoring for many lower-level general education courses, as well as several math- and science-intensive courses for all University of Maryland students. Visit MMH 2204 for

a complete schedule of tutoring, study skills, math, and English sessions.

To inquire about courses offered, tutor availability, and/or additional services offered by AAP, please contact the Tutorial Coordinator at 301-405-4745, or cduchou@umd.edu. Visit <http://www.aap.umd.edu/tutoring.html> to learn more about schedules, job opportunities, and the mission of the Academic Achievement Programs.

Additional tutoring resources can be found at www.tutoring.umd.edu.

CAMPUS ADMINISTRATION

Academic Affairs

1119 Main Administration Building

301-405-5252

301-405-8195

Mary Ann Rankin, Senior Vice President and Provost

provost@umd.edu

www.provost.umd.edu

The Senior Vice President and Provost is the chief academic officer of the university with responsibility for guiding the academic development and direction of the institution in accordance with the University's mission. As Senior Vice President, the Provost has budgetary responsibility for campus academic programs and resources and works directly with the President on campus-wide resource allocation. The Provost oversees the development, review, and implementation of all academic policies and regulations; consults closely with the University Senate and other faculty advisory groups on academic programs and policies; and serves as liaison with other university divisions in strategic and long-range planning. The deans of the 12 academic colleges and schools report to the Provost as do the deans for Undergraduate Studies, of the Graduate School, and of the University Libraries. The director of the Institute for Bioscience and Biotechnology Research and the Executive Director of the Universities at Shady Grove, both situated in Rockville, also report to the Provost. Other major academic administrative offices that report to the Provost include: Academic Planning and Programs; Diversity and Inclusion; Faculty Affairs; Enrollment Management; Institutional Research, Planning, and Assessment; International Affairs; Finance and Personnel; Records, Registration, and Extended Studies; the Teaching and Learning Transformation Center; and the Academy for Innovation and Entrepreneurship.

Division of Administration and Finance

2119 Main Administration Building

301-405-1105

Carlo Colella, Vice President, Administration and Finance

vpaf@umd.edu

vpaf.umd.edu

The Division of Administration and Finance supports and facilitates the research, education and service missions of the university. We do this through the work of eight units responsible for effectively managing the physical, financial and staff support resources of the university. Our operations include: Community Engagement; Environmental Safety, Sustainability and Risk; Facilities Management, Finance and Budget (which includes business services, student financial services and cashiering); Procurement and Strategic Sourcing; Public Safety; Real Estate and University Human Resources.

Of particular interest to students are the community awareness and security programs offered by the Department of Public Safety, information and assistance services provided by the Bursar/Office of Student Financial Services and Cashiering for concerns of students regarding university billings, and campus efforts related to community engagement and sustainability.

Equity Council

2411 Marie Mount Hall

301-405-6810

Dr. Kumea Shorter-Gooden, Chief Diversity Officer and Assistant Vice President

kshorter@umd.edu

www.president.umd.edu/EqCo/

301-405-0805

The Equity Council serves as an advisory group to the President and supports the longstanding and continuous goal of the University of Maryland to be a national leader in recruiting and retaining a diverse community of faculty, staff and students. The council provides leadership in the articulation and development of affirmative action policies and procedures for the campus community. A particular focus of the Equity Council is to review and recommend, as appropriate, search and selection policies and procedures for the university and its colleges and departments. The Council consists of equity administrators from each Vice President and Dean's office and the Office of the President. The Chief Diversity Officer serves as Chair of the Council.

The current list of equity administrators at the university can be found at the Equity Council website: www.president.umd.edu/EqCo/.

Office of Diversity and Inclusion

2411 Marie Mount Hall

Phone: 301-405-6810

Fax: 301-314-9992

Kumea Shorter-Gooden

diverseterps@umd.edu

www.diversity.umd.edu

The Office of Diversity & Inclusion (ODI) provides active oversight, coordination, and evaluation of the University of Maryland's equity, diversity and inclusion activities; manages and tracks implementation of the Strategic Plan for Diversity; and encourages and supports the efforts of units to achieve their diversity goals. We invite you to explore our website for information about our office, its activities and programs, as well as equity and diversity initiatives on campus and beyond. We are led by the university's Chief Diversity Officer and Associate Vice President, Dr. Kumea Shorter-Gooden.

To foster "inclusive excellence," the Office of Diversity & Inclusion offers funding for diversity and inclusion initiatives that address the goals of the Strategic Plan for Diversity. Campus units and student organizations are invited to apply for annual Moving Maryland Forward Grants of up to \$15,000, and for Rise Above Isms Grants of up to \$750, awarded on a rolling basis.

For more information about ODI please go to <http://www.diversity.umd.edu/>.

Office of the President

1101 Main Administration Building

301-405-5803

301-314-9560

Wallace D. Loh, President

president@umd.edu

www.president.umd.edu

The president is the chief executive officer of the University of Maryland. Seven vice presidents, who report directly to the president, manage different divisions of the campus administration. The Department of Intercollegiate Athletics, the Maryland Fire and Rescue Institute, and the Office of Civil Rights and Sexual Misconduct report to the Office of the President. The University Senate,

a representative legislative body of the university, advises the president on academic and other matters.

Office of Undergraduate Studies

2110 Marie Mount Hall
301-405-9363
www.ugst.umd.edu

Associate Provost and Dean: William A. Cohen
Director of Administration and External Relations: Ashley Adkins
Director of Development and Alumni Relations: Heidi Bruce
Associate Dean for General Education: Douglas Roberts
Associate Dean: Cynthia Kay Stevens
Assistant Deans: Deborah Reid Bryant, Lisa Kiely, Kathryn Robinson, Ann Smith
Assistant to the Dean: Mark Kuhn

Through its many programs, the Office of Undergraduate Studies serves all undergraduate students at the University and the faculty and staff that support the undergraduate mission of the campus. The Office of Undergraduate Studies is the primary division at the University of Maryland responsible for leadership and oversight of undergraduate curricular and co-curricular education.

Student Affairs

2108 Clarence M. Mitchell Jr. Building
Phone: 301-314-8428
Fax: 301-314-9606
Linda M. Clement, Vice President
studentaffairs@umd.edu
www.studentaffairs.umd.edu

The Office of the Vice President for Student Affairs provides administrative leadership for 14 departments which oversee student life. The office serves as a general point of contact for students and their families regarding housing, dining, transportation, recreation, wellness and non-academic student services. In addition, the office provides support for the Senior Council, Parents and Family Affairs, and Omicron Delta Kappa.

University Relations

1132 Main Administration Building
301-405-4680
Vice President: Peter Weiler
www.urhome.umd.edu

The Division of University Relations encompasses a variety of programs to advance the goals of the University by increasing resources and support, enhancing awareness and affinity, and strengthening and developing relationships with the Maryland family and the greater community. Units of this division include Development, Marketing and Communications, University of Maryland College Park Foundation Administration, Special Events, and Alumni Relations. The recently completed *Great Expectations* campaign, which raised \$1 billion in private support for university priorities such as scholarships and facilities, was coordinated by University Relations.

We are proud to promote and carry out the values of excellence, communication and collaboration as we interact with our constituents, both internal and external to the university.

University Senate

1100 Marie Mount Hall
Phone: 301-405-5805
Fax: 301-405-5749

Fax: 301-405-5749
Director: Reka S. Montfort
senate-admin@umd.edu
www.senate.umd.edu

The University Senate, an integral part of the University's system of shared governance, has representation from all segments of the campus community: faculty, staff, undergraduate students, and graduate students. Participation in the Senate or any of its 10 Standing Committees is an honor and a responsibility.

The full Senate meets approximately nine times a year to consider matters of concern to the institution, including academic issues, university policies, plans of organization, facilities, and the welfare of faculty, staff, and students. The Senate advises the president, the chancellor, or the Board of Regents as appropriate. To become an undergraduate student senator, students must be elected by students in their college or school or the Office of Undergraduate Studies in centralized, online elections. Elections are held every year during the spring semester. All students are also encouraged to participate in Senate Standing Committees, such as Student Affairs and Campus Affairs. These committees draw membership from the campus community at large and cover every aspect of campus life and function. Details about the election and committee volunteer processes can be found at www.senate.umd.edu.

STUDENT PROGRAMS AND SERVICES

Adele H. Stamp Student Union - Center for Campus Life

Adele H. Stamp Student Union
301-314-DESK
www.thestamp.umd.edu

The Adele H. Stamp Student Union - Center for Campus Life is the University's "community center." More than 25,000 students, faculty, staff members, and campus guests visit the Stamp daily to take advantage of its services, programs, and facilities. Our mission is to create and sustain a student-centered environment that promotes academic success and personal development; serves as a safe and inviting campus center; and is characterized by a strong commitment to multiculturalism, excellence, and a positive work environment.

The Stamp offers lounge space, a variety of information services, recreation and leisure activities, student-sponsored programs, visual arts, retail outlets, and more than 40,000 square feet of reservable space.

Information Services

- Information Center located on the first floor, 301-314-DESK or visit http://thestamp.umd.edu/event_guest_services/information_desk
- Bulletin boards located throughout the building
- Display showcases located throughout the building

Recreation and Leisure

- Terp Zone, including full-service bowling lanes, "Cosmic Bowling", billiard tables, video games, and three big-screen TVs, 301-314-BOWL or visit <http://thestamp.umd.edu/terpzone>.

Student-Sponsored Programs

- Student Entertainment Events (SEE), a student-directed program board whose committees plan games, tournaments, concerts, lectures, outdoor recreation trips, 301-314-8359 or visit <http://see.umd.edu/>.
 - Graduate Student Government, 301-314-8630
-

Art and Learning Center

- Art and Learning Center, a visual arts work and teaching center, offering mini-courses and arts services
- Stamp Gallery, located on the first floor, 301-314-ARTS or visit http://thestamp.umd.edu/art_learning_center

Food and Retail Outlets

- Capital One Bank, 301-864-8722
- University Book Center (basement level), 301-314-BOOK
- Food Services: Maryland Food Co-op (301-314-8089), Saladworks (301-314-0947), Taco Bell (301-314-6569), McDonald's (301-314-1489), Adele's Restaurant (301-314-8022), Coffee Bar (301-314-CAFE), Panda Express (301-314-6111), Sbarros (301-314-4105), Sushi by Panda (301-314-6111), Chick-Fil-A (301-314-6568), Subway (301-266-7827), Moby Dick (301-405-6531), Auntie Anne's (301-314-6569), Maryland Dairy (301-405-1415)
- The UPS Store, a full-service postal and packaging facility, 301-314-9982
- Ticket Office, offering campus performance tickets, 301-314-TKTS
- Union Shop 301-314-7467, featuring snacks, sodas, newspapers, and magazines

Reservable Space

The Stamp offers meeting rooms that accommodate groups from 8 to 1,000 people. For reservations, or catering information, contact the Event and Guest Services Office, 301-314-8488 or visit http://thestamp.umd.edu/event_guest_services.

Adele H. Stamp Student Union - Center for Campus Life Hours

The Stamp is open Monday through Thursday, 7 a.m. to midnight; Friday, 7 a.m. to 1:30 a.m.; Saturday, 8 a.m. to 1:30 a.m., and Sunday, 11 a.m. to midnight during the academic year with modified hours during the summer and university breaks. For more information, see <http://thestamp.umd.edu/>.

See other Adele H. Stamp Student Union - Center for Campus Life hours, offices, and services elsewhere in Chapter 3.

Alumni Association

Samuel Riggs IV Alumni Center
301-405-4678
alumni@umd.edu
www.alumni.umd.edu
800-336-8627

The University of Maryland Alumni Association exists to foster a spirit of loyalty, involvement and life-long commitment to the university for its more than 340,000 living alumni. The association is a nonprofit, membership organization for alumni of the University of Maryland, College Park.

Through traditional and innovative programming, the Alumni Association provides hundreds of programs and initiatives each year which strive to fulfill its mission of connecting, cultivating and channeling the power of Terps to both enrich themselves and advance the University.

The alumni association offers all graduates access to the dynamic network of Terrapins who share interests, common acquaintances, professions, locations and more. It promotes opportunities for alumni to volunteer in their communities or travel the world with fellow Terps. Most important, the alumni association seeks to build Terrapin spirit through over 60 alumni regional, affinity and academic networks throughout the country.

While the association serves all alumni, it also provides special programs and services to members of the association, including consumer discounts, a Terp to Terp mentorship program, access to members-only events, and special pricing at association events.

The alumni association is governed by a board of alumni volunteers and is supported by countless other alumni volunteers around the world.

Book Center

Stamp, Lower Level
301-314-BOOK
www.umcp.bncollege.com

The University Book Center, operated by Barnes & Noble, is the *official* bookstore for the University of Maryland. The Book Center is the only store that carries textbooks for *all* of your classes. The store has a large selection of ***used, digital, and rental textbooks*** that are available in many courses. General-interest books, literature, technical books, and best sellers can be found on the lower level of the store. The Book Center also carries a wide selection of school supplies, and imprinted sportswear and related items. The Book Center's hours of operation and a complete listing of their products and services can be found at www.umcp.bncollege.com.

Department of Fraternity and Sorority Life

0221 Stamp Student Union
301-314-7172
301-314-9393
Director: Matt Supple
www.greek.umd.edu

Office Hours: Monday - Friday. 8:30 a.m. - 5:00 p.m.

The Department of Fraternity and Sorority Life oversees all recognized social and cultural/multicultural based fraternities and sororities. Staff within the department provide advising and support for the chapter members, their leadership, and the leadership of four student governing councils: the Interfraternity Council (IFC), the Panhellenic Association (PHA), the National Pan-Hellenic Council (NPHC) and the Multicultural Greek Council (MGC). The department also manages the 21 university-owned fraternity and sorority houses and provides resources for the off-campus fraternity and sorority houses.

Dining Services

1109 South Campus Dining Hall
Dining Plans: 301-314-8069
Terrapin Express: 301-314-8068
Student Employment: 301-314-8058
umfood@umd.edu
dining.umd.edu

The University of Maryland offers one of the largest self-operated and self-supported dining services programs in the country. Dining halls are open from 7:00 a.m. until midnight on weekdays, and during the day and evening on weekends. Convenience shops in resident communities are open long hours (the 24 Shop, in the Denton Community, is open around the clock!). Cafés tucked in academic buildings have hours of operation that work well with the schedules of people using those facilities.

Three dining halls feature a total of 42 culinary stations serving build-your-own pasta, stuffed-to-order burritos, custom-made hot and cold deli sandwiches and wraps, self-serve and specially-assembled salads, rotisserie chicken with healthy homemade side dishes, and classic

lunches and dinners. Students will find internationally themed shops, smoothie stations, bakeries, vegan stations, and Mongolian grills.

We operate two restaurants, fourteen cafés, seven brand-name quick-service locations, and five convenience shops scattered across campus. For a complete list of dining locations, hours, and general information visit dining.umd.edu. We welcome students, faculty, staff, and visitors into all of our locations across campus.

Resident Anytime Dining Plans

All Resident Dining Plans start with unlimited access to campus dining halls. Come in anytime we're open and eat whatever you like. To enter a dining hall you wave your hand over the scanner, the gate opens, and you come in to enjoy what you choose. You can come in every day, as many times as you like — and we do not track what food you take each time you dine. Students who live in traditional, on-campus resident halls are required to have one of four Seven-Day Resident Dining Plans.

- The Diner and South Campus Dining Hall open at: 7:00 am Monday to Friday, 10:00 am Saturday and Sunday
- The Diner and South Campus Dining Hall offer dinner and late night dining until midnight Sunday to Thursday, and until 10:00 pm on Friday and Saturday
- 251 North will be open Sunday to Friday 11:30 am to 9:00 pm

Dining Dollars are part of upgraded resident plans, and are accepted in all Dining Services permanent locations including the Dining Services operated brand name locations in the Stamp. Chick fil-A, Taco Bell Express, Auntie Anne's, Sbarro and Subway are new members of the Dining Dollars family.

Guest Passes are included in every dining plan. These can be used to bring an occasional guest into the dining halls. Alternately, guests are welcome to pay at the door using cash, credit or Terrapin Express.

Optional Dining Plans

We are always pleased to see students, faculty, staff and guests in dining halls, restaurants, shops and cafés on campus! Members of the campus community can become members of the dining plan program in several ways:

- Any student is welcome to purchase a **Seven-Day Anytime Dining Plan**. This plan gives you unlimited access to the three dining halls any time they are open – come in as many times a day as you like, eat whatever you choose.
- To non-resident students we offer a **Five-Day Anytime Dining Plan**. This plan provides unlimited access to the three dining halls Monday through Friday.
- We offer **Dining Dollars** - accepted at all permanent Dining Services locations. When you purchase a block of Dining Dollars, you get a discount! And there is no tax when you use Dining Dollars in any dining services location on campus.
- And remember, we always accept **cash, credit and Terrapin Express** everywhere we serve food.

Terrapin Express

Terrapin Express is a prepaid debit account: money you set aside to use at over 50 locations across campus including the University Book Center and University Health Center. Cashiers, copiers, printers and washing machines use the UMD ID card to access account information. Every active UMD ID card is connected to a Terrapin Express account. To activate the account, call the office or visit the website listed above. In addition to being an easy way to access products and services on campus, Terrapin Express is a wonderful way to supplement the dining plans and a great dining plan alternative for non-resident and apartment students. Funds roll over from semester to semester and additional funds can be added at the Terrapin Express Office by mail and online through Testudo Web services. A complete listing of participating locations is available online at www.dining.umd.edu/terrapiin.

Engagement and Activities

0110 Adele H. Stamp Student Union - Center for Campus Life
301-314-7174
www.thestamp.umd.edu

The mission of Engagement and Activities areas is to support and complement the University's academic mission and to enhance the educational experience of students through exposure and participation in social, cultural, recreational, leadership, intellectual, and governance activities.

Student Organization Resource Center. Registers all student organizations at the university and provides an online directory of more than 850 groups. Organization support services includes: accounting assistance, advisors' workshops, leadership training programs for organization leaders, involvement sessions offered for classes and semester orientations are some of the ways involvement is nurtured for organizations and individuals. In addition, First Look Fair and Stampfest are large-scale involvement fairs held at the beginning of each semester to showcase the student groups and organizations.

Organization Advising. Major student groups such as the Student Government Association, Graduate Student Government, Peer Leadership Council, TerpVets, the Homecoming Committee, and Student Entertainment Events receive direct advising from Engagement and Activities staff.

Other student groups can also obtain help by request. Assistance in programming, securing a faculty advisor, officer transitions, and efforts to create a new organization is available.

Programs and Leisure Learning Opportunities. Staff mentors student volunteers and leaders to provide options for out of class engagement through recreational options that includes: the Art and Learning Center (offering non-credit courses), the Stamp Gallery (featuring regular displays of the visual arts), the TerpZone (bowling, billiards, and more), as well as Stamp Special Events and Programs.

Engagement Area. Staff members work directly with some distinct and growing student constituencies on campus. The staff are available as resources for students and encourage student involvement in all areas of campus. The areas served by the Engagement Team include **Graduate Student Life, Veteran Student Life, Transfer and Off-Campus Student Life, Transfer 2 Terp** (a learning community for students who have transferred from local community college), and the **Memorial Chapel** as well as its affiliated 14 chaplaincies' work in spiritual diversity. Students are engaged and integrated into the campus community through social, educational, and outreach programs to assist in the transition to collegiate life.

Housing: Resident Life

1102 Annapolis Hall
301-314-2100
reslife@umd.edu
www.reslife.umd.edu

The Department of Resident Life is responsible for management of the residence halls as well as the cultural, educational, recreational and social programs and activities that create the *Maryland Residential Experience* for residential students. The department is committed to students' academic and social success in their lives on campus and to the role the residential living experience will play in their successful lives beyond the University of Maryland.

While living in a Maryland residence hall is not required, nine of every ten students in Maryland's freshman class make the choice to live on campus. More than 90 professional and graduate staff and over 400 undergraduate student employees meet the needs of resident students.

There are rooms for approximately 9,500 undergraduate students in 38 residence halls. Three different styles of living are available to campus residents: traditional halls, suites, and apartments. Within traditional housing, where most first-year residents live, single, double, triple and quadruple room occupancy exists. All rooms have a cable and data jack for each student. One telephone jack is provided in each room.

Our nationally acclaimed living-learning programs include: Advanced Cybersecurity Experience for Students (ACES), Beyond the Classroom, BioFIRE Living & Learning Center, Carillon Communities, CIVICUS, College Park Scholars, Digital Cultures and Creativity, Entrepreneurship and Innovation, FLEXUS: The Dr. Marilyn Berman Pollans' Women in Engineering Living & Learning Community, Gemstone, Global Communities, Hinman CEOs, Honors Humanities, Integrated Life Sciences, Jiménez-Porter Writers' House, Language House, University Honors, and the Virtus Men in Engineering Program. All of these programs add to the diversity and quality of on-campus housing options.

First-time freshmen are guaranteed on-campus housing provided they complete their Enrollment Confirmation and Housing and Dining Services Agreement along with the \$400 enrollment deposit, by May 1st. Transfer students who want to live on campus should complete these items as well and will be allotted housing on a space available basis. No housing reservation deposit is required.

Leadership and Community Service-Learning

1110 Adele H. Stamp Student Union - Center for Campus Life
301-405-9044
www.thestamp.umd.edu/lcsl

Leadership & Community Service-Learning (LCSL) promotes positive social change through transformative learning and community engagement. Through our values (collective approach, social responsibility, principled practice, critical inquiry, and engaged scholarship), we work with students, staff, faculty, and community members to achieve our vision of a just world through the practice of socially responsible leadership.

Maryland LEAD

Out-of-classroom leadership conference, institutes, retreats, and programs focused on teaching leadership for social change. The program recognizes leadership as an ability that can be developed in all people, opening doors for individual growth and social change. Signature programs include the Peer Leadership Council (PLC), The Terrapin Leadership Institute (TLI), Activation Academy, the Maryland Leadership Conference, Maryland Leadership Summit and Turtle Camp.

Maryland Leadership Studies Program

Curricular offerings include credit-bearing coursework covering a range of topics including leadership theory and practice, leadership ethics, diversity in leadership, and group and organizational processes. Courses on leadership and identity and other special topics are also available. Students may also pursue a Minor in Leadership Studies and a certificate, offered through the Department of Counseling, Higher Education, and Special Education in the College of Education.

Other curricular programs include online resources for faculty to support service-learning initiatives in the classroom, including a faculty fellow program to enhance service-learning across curriculums.

America Reads*America Counts & Partners in Print (AR*AC)

In collaboration with the Prince George's County Public School system, America Reads*America Counts (AR*AC) provides high quality mentoring in local schools that enriches learning opportunities for both college and elementary school students. Approximately 250 Maryland federal work-study, volunteer, and intern students serve as reading and math mentors and work with families on literacy in 18 Prince George's County elementary schools. The three core mentoring programs are America Reads (1st and 2nd graders, working on reading and writing skills), America Counts (4th graders, working on math skills), and Partners in Print (working with Spanish-speaking families on techniques to encourage reading at home).

Terp Service

Community Service-Learning programs engage students on campus in meaningful service-learning with the local community through resources, programs, and events. We seek to explore the complexities of social issues, encourage critical thinking, and take action to address community needs and build upon community assets. Signature programs include: Terps for Change, TerpCorps' Terp Service Days and Terp Service Weekends, M-Pact (a support system for the leaders of student service organizations), UMServes (a listserv for volunteer opportunity), and ServiceLink (a community partner database).

Immersion Experiences & Alternative Breaks

The Alternative Breaks (AB) program engages students in substance free, short-term service-learning experiences. Student participants travel locally, nationally, and internationally in teams during the university's winter, spring, and summer breaks to engage in active service, gain new perspectives on social issues, meet direct community needs and build upon community assets. Students also have the opportunity to engage in alternative week experiences through the AWE program. AB and AWE experiences explore social issues including disaster relief, environmental restoration, immigration, HIV/AIDS, education, homelessness, and healthcare. UMD Alternative Breaks main goal is to develop globally-conscious citizens who are transforming communities for good. Opportunities to be involved include serving as trip participants, trip leaders, interns and staff/faculty advisors.

National Clearinghouse for Leadership Programs (NCLP) – www.nclp.umd.edu

The National Clearinghouse for Leadership Programs (NCLP), through the development of cutting edge resources, information sharing, and symposia, supports leadership development in college students by serving as a central source of professional development for leadership educators across the globe. Housed at the University of Maryland since its creation in the 1990s, NCLP works to connect leadership educators to one another and support those developing leadership programs on their own campuses. NCLP is known world-wide for promoting the Social Change Model of Leadership Development.

Multicultural Involvement and Community Advocacy

1120 Stamp Student Union
301-314-8600
301-314-2672
mica-contact@umd.edu
www.thestamp.umd.edu/diversity

The Multicultural Involvement and Community Advocacy Office (MICA), is a unit within the Adele H. Stamp Student Union - Center for Campus Life and the Division of Student Affairs. In support of the University's commitment to diversity, multiculturalism, and social justice, we advance a purposeful campus climate that capitalizes on the educational benefits of diversity, through student-centered advising, advocacy, programs, research, and practices. We encourage student involvement and engagement in the campus and community. MICA serves all students and seeks to empower them through education on issues of race, ethnicity, sexual orientation, gender identity, gender expression, religion and their intersections. All of the activities, programs, services and research of MICA strive towards meeting the common outcome of developing "good citizens" and committed leaders.

Nyumburu Cultural Center

Nyumburu Cultural Center
301-314-7758
301-314-0383 (fax)
Director: Dr. Ronald Zeigler
www.nyumburu.umd.edu

The Nyumburu Cultural Center has served as a major resource of cultural, historical, and social programming at the University of Maryland, College Park for forty-five years. The Center works

closely with student, faculty, and community organizations. The Nyumburu Cultural Center offers a variety of socio-cultural, musical, educational and artistic programs to the campus community. The nature of the diverse programming and activities is based on the African American, African, and Caribbean Diaspora experience(s). Nyumburu is home of the Maryland Gospel Choir, Shades of Harlem (performing arts ensemble), The Black Explosion Newspaper, Male Spokesmodel Competition, Miss Unity Scholarship Pageant, Juke Joint, Gospel Happy Hour, Leadership Series, Nyumburu Jazz Club, Kwanzaa Celebration, Cultural Dinner during Black History Month, Literature Conference, Homecoming Alumni Tailgate, Annual Talent Showcase, Annual Student Awards Banquet, Black Male Initiative (BMI) Program, and Sisterhood of Unity and Love (SOUL).

Nyumburu's staff are advisors to many campus student organizations: Black Student Union, African Student Association (ASA), The Maryland Gospel Choir, The Black Explosion Newspaper, Sigma Gamma Rho sorority Inc., Delta Sigma Theta Sorority Inc. Kappa Alpha Psi Fraternity, inc., and Dimensions Modeling Group to name a few.

Nyumburu presents Blues, Jazz, and Gospel music concerts as well as academic courses in Creative Writing (ENGL274), Blues (AASP298V) and Jazz (AASP298Z) for three credits each. Maryland Gospel Choir students earn 1-credit (MUSC329E), and students who take EDCP108N, College and Career Advancement earn 1-credit. Academic and collaborative programming is also done with colleges/departments such as: School of Public Health, Department of African American Studies, and the Clark School of Engineering.

During the summer, Nyumburu sponsors a Summer Camp Program for students from the age of five to sixteen. Through this dynamic eight week program, opportunities for youth to explore academic, artistic, and athletic interests in a relaxed and creative environment are provided. Camp Shule was established to provide the children of Maryland faculty/staff and local youth with a diverse educational experience.

The Multipurpose Room, Conference Rooms, Computer Labs, and the Nyumburu Amphitheatre of the Nyumburu Cultural Center are open to the students, faculty and staff of the University of Maryland. Room reservations are also available at a nominal cost for departmental and off-campus events and programs. Come in and interact with us, meet other students and make your ideas and wishes known. Our staff goal is to make Nyumburu a cultural center that is, "Your Home Away from Home."

Off-Campus Housing Services

0232 Stamp Student Union
301-314-3645
301-314-9874
och@umd.edu
www.och.umd.edu

The Off-Campus Housing Services Office provides information and resources about housing and off-campus living. Resources available online include a searchable web-based housing database listing available rental properties in the area; a roommate finder database where students create a profile and search for others with similar housing needs and interests; as well as an extensive array of educational materials. For assistance in locating housing, please visit www.och.umd.edu or contact our office.

Office of Student Conduct

2117 Clarence M. Mitchell Jr. Building
Phone: 301-314-8204
Fax: 301-314-9533
Director: Andrea Goodwin, Ph.D.
studentconduct@umd.edu
www.studentconduct.umd.edu

The mission of the Office of Student Conduct is to resolve allegations of misconduct under the *Code of Student Conduct* and the *Code of Academic Integrity* in a manner consistent with the core values of fairness, honesty, and integrity, while promoting the University's educational mission. Enhancing the development of character, civility, citizenship, individual/community responsibility, and ethics is essential to this mission. University students play a significant role in considering the behavior of their peers and are asked to assume positions of responsibility as members of the university's student judiciary. The following tenets guide this mission:

- To regard each student as an individual deserving of individual attention, consideration, and respect.
- To consider the facts fully and carefully before resolving any case.
- To speak candidly and honestly with each student.
- To hold each student to a high standard of behavior, both to protect the campus community, and to promote student ethical development.
- To recognize the reality of human fallibility, as well as the stresses associated with collegiate life, and to demonstrate compassion, understanding, and a sense of humor.
- To contribute to the educational mission of the University by designing policies, conducting programs, and offering instruction that contribute to the intellectual and ethical development of the entire student body.

General Statement of Student Responsibility: Students are expected to conduct themselves at all times in a manner consistent with the University responsibility of protecting the safety, welfare, rights, and property of all members of the campus community as well as ensuring to all members of the campus community the opportunity to pursue their educational objectives. According to

Senate Doc. No. 12-13-26

(<http://www.senate.umd.edu/sms/index.cfm?event=publicViewBill&billId=275&context=c>) the Code of Student Conduct Expansion of Jurisdiction approved by President Wallace D. Loh on May 9, 2013, [V-1.00(B) University of Maryland Code of Student Conduct Part 9(c)] expanded the University's Jurisdiction to include student conduct which occurs **off-campus** as a means to enhance the safety and security of students living both **on- and off-campus**. Specific expectations for student conduct are outlined in the *Code of Student Conduct* and the *Code of Academic Integrity* (See www.president.umd.edu/policies/).

Disciplinary Procedures: Students accused of violating university regulations are accorded fundamental due process in disciplinary proceedings. Formal rules of evidence, however, shall not be applicable, nor shall deviations from prescribed procedures necessarily invalidate a decision or proceeding unless significant prejudice to one of the parties may result. University procedures are outlined in the *Code of Student Conduct* and *Code of Academic Integrity* supplemented by materials provided by the Office of Student Conduct to assist students who are facing accusations of misconduct.

Transportation Services

Regents Drive Garage
301-314-PARK (x47275)
transportation@umd.edu
www.transportation.umd.edu
301-314-2255

Please consider walking, biking, car sharing/carpooling, and riding Shuttle-UM as alternatives to driving alone to campus.

Shuttle-UM

The Shuttle-UM transit system, operated by the Department of Transportation Services (DOTS), is predominantly supported by student fees. Shuttle-UM provides commuter, evening, NITE Ride, paratransit, and charter services to university students, faculty, and staff while classes are in session. DOTS publishes a Campus Connections transit guide each semester. Campus Connections guides contain all of our current bus schedules as well as general information about getting around in the D.C. Metro area. Campus Connections guides are available at the DOTS office in Regents Drive Garage, The Stamp Information Desk, residence halls, and on the DOTS website. More information about Shuttle-UM is available online at:

<http://www.transportation.umd.edu/shuttle.html>.

Zipcar

Zipcar is a membership-based car sharing system available on the UMD campus for UMD students as young as 18 years old. Car sharing is a great option for students who may only need occasional access to a car on campus. Zipcar fees include gasoline and insurance. For more information about becoming a Zipcar member, please visit

<http://www.transportation.umd.edu/share.html>.

Biking

The University of Maryland has been designated a Gold Level Bicycle Friendly Campus by the League of American Bicyclists. bikeUMD is a full service campus bike program that is a collaboration between Campus Recreation Services, Campus Police Department, and the Department of Facilities Management. We offer clinics, discounted safety gear, sponsored events, rides, and bicycle registration. bikeUMD also collaborates with the Campus Bike Shop, which offers free bike maintenance and bike rentals for just \$75/semester. For more information about biking, please visit <http://www.transportation.umd.edu/bike.html>.

Parking

Students who wish to park on campus must register to do so online before bringing a car to campus. Student parking registration takes place online in July (annual or fall-only parking) and in January (for the spring term). Parking registrations are billed to student accounts after the semester has begun or can be paid by credit/debit card. Parking is assigned on a first come, first served basis according to credit level and housing status. Overnight parking is only permitted for resident students, faculty, and staff with the exception of exam weeks, university breaks, and closures. Please note: Due to campus projects, the number of parking spaces could be

dramatically reduced in the upcoming semesters. Freshmen and sophomores living on campus are eligible to register for parking, but may not be in future years. For more information about student parking, please visit the DOTS website <http://www.transportation.umd.edu/student.html>. For a full list of parking rules, fines, and fees please read our parking regulations http://dots.umd.edu/images/parking/PDFs/parking_regulations.pdf.

Transportation to New York, New Jersey, and BWI Airport

DOTS provides transportation for UMD students to and from Port Authority, New York, Metropark, New Jersey, and BWI Airport for Thanksgiving, Winter, and Spring Breaks. Shuttle service to NY/NJ is \$60 round trip or \$35 one way; shuttle service to BWI Airport is free. Registration dates and departure times are posted to the DOTS website at least one month before the trips depart.

Motorized Scooters

Parking registration is required for any motorized scooter parked on campus. Motorized scooter drivers are also required to wear a helmet while operating or riding on a scooter. Any motorized scooter left unattended in an area not designated for scooter or motorcycle parking is subject to immobilization. Please visit the DOTS website for more information about motorized scooters <http://www.transportation.umd.edu/scooter.html>. For a map of existing motorized scooter parking locations, visit the DOTS website at: <http://www.transportation.umd.edu/maps.html>.

Social Media

While the DOTS website is the best place to get information about DOTS services, we also maintain Twitter, Facebook, and Instagram pages for real-time interaction with the UMD community. We bring news, contests, giveaways, relevant programming, and information about campus events to students via the @DOTS_UMD and @Shuttle_UM Twitter accounts, bikeUMD and DOTS UMD Facebook pages, and @DOTS_UMD on Instagram.

University Career Center & The President's Promise (UCC/TPP)

3100 Hornbake Library, South Wing
301-314-7225
Director: Kelley Bishop
UCC-studenthelp@umd.edu
www.Careers.umd.edu

Refer to Careers.umd.edu for current hours of operation.

Mission

We provide valuable programs and services to address the diverse career development and employment needs of our Terps. Decide on career interests, employment and furthering educational pursuits such as professional or graduate school. Our Center collaborates with academic departments, employers, and alumni to deliver workshops, services, and Career & Internship Fairs throughout the year. Over 17,000 Terps subscribe to the Center's E-Newsletter for weekly, Terp-specific career and internship news.

Through The President's Promise, every student has the chance to achieve extraordinary personal growth by engaging in a special experience outside of the classroom through activities such as internships, research, service-learning, living and learning programs, leadership and international experiences. Drastically increase your future career options by gaining this competitive edge.

Though opportunities within The President's Promise dwell within many offices across campus, President's Promise staff are available at the University Career Center to help you individually navigate through all of your options and select the best opportunities for your goals.

CAREER the Turtle!

Center staff can help you:

- address educational and career decisions
- identify useful resources
- take advantage of internships, full-time, part-time and summer employment opportunities

- improve resume and cover letters
- sharpen job search skills and strategies
- plan for graduate and professional school

The Terp Guide

Dozens of helpful “cheat sheets” about the career planning process and successful job searches in one free booklet! Contents include resume and cover letter samples, successful interviewing techniques and job search tips. Stop in for a physical copy or visit our website for the most up-to-date digital copy.

Careers4Terps (Virtual Career Center 24.7.365)

Update your Careers4Terps profiles to manage your career. C4T is your gateway to:

- schedule individual career advising appointments
- access internship and job postings
- receive job and internship notifications related to your specific interests
- receive e-newsletter with event information related to your career interests
- participate in On-Campus Interviewing to discuss your qualifications with recruiters
- engage with employers through information sessions/networking opportunities

You will also gain access to:

- Candid Career: Career-related informational videos by UMD alumni
- FOCUS2: Career testing/self-assessment
- InterviewStream: Practice interviewing 24/7/365
- Going Global: Working abroad, visas, international student resources
- Vault: Employer/industry insights, rankings and reviews

Networking Events

Connect with alumni and employers during the academic year. Opportunities include:

- resume and mock interview clinics
- career and employment panels
- job shadowing and informational interviews
- career and internship fairs
- employer networking sessions

Intern for a Day

Connects undergraduate students with host sites for one day internship/shadowing experiences. You may attend meetings, participate in informational interviews with other staff members or work on small projects.

Career Shuttles

Center-sponsored field trips to employer sites from various industries. Shuttle seats are limited. Students should RSVP early.

Career Courses

PSYC123: The Psychology of Getting Hired • 1-credit

Looks at what’s behind the hiring process, applies psychological principles and strategies for landing internships or other jobs. *Freshman/Sophomore standing.*

EDCP108i: College and Career Advancement: Concepts and Skills; Academic Transitions to Internships • 1-credit

This course is designed to provide students with the full experience of searching for an internship. Themes include the importance of targeting your resume and cover letter to internship postings, communicating interests and skills to potential employers, searching for internships, networking with alumni and professionals in your intended career field, and more.

UNIV099: Internship Seminar • 0-credit

Complements supervised work experiences and assures that experiences are noted on your transcript.

Evisors - UMD Alumni Advisor Network

Connects students with alumni and webinars for career and job search advice.

<https://umd.evisors.com>.

University Counseling Center

1101 Shoemaker Building

Phone: 301-314-7651

Fax: 301-314-9206

Director: Sharon Kirkland-Gordon, Ph.D.

skirklan@umd.edu

www.counseling.umd.edu

Seeking help is a sign of strength! Many students encounter a variety of personal, emotional, social, career, and academic issues that call for assistance beyond advice provided by friends and family. Fortunately, the Counseling Center in Shoemaker Building is staffed by licensed psychologists and counselors, who provide free and confidential counseling services to all University of Maryland students. To schedule an appointment, call 301-314-7651 or stop by the front desk in the main lobby of the Shoemaker Building. Walk-in counseling is available to students of color who would like a consultation with a counselor of color; LGBTQ students who would like a consultation with a gay, lesbian or a gay ally counselor; and international students. Walk-in hours are also provided for veterans looking for a safe and supportive place to talk. Students can visit our website or call 301-314-7651 for current walk-in hour schedules.

An after-hours call service staffed by professional counselors is available for urgent mental health concerns after business hours, during weekends, breaks, and holidays. Call 301-314-7651.

Counseling Center Services

Personal and Psychological Counseling. You don't have to face your problems alone. In a warm and supportive environment, you can meet with a counselor to discuss any concern you may have related to your personal, emotional, and social well-being. Among the topics that students discuss in counseling are depression, anxiety, self-esteem, academic stress, relationship issues, grief and loss, family problems, and loneliness. You may see a counselor for short-term individual counseling, couples counseling, or join one of the many counselor-led support groups. Call 301-314-7651 or visit our website at www.counseling.umd.edu.

Career Counseling. A normal part of your development in college is identifying who you are in relation to a future career. You can get help with this process in individual career counseling at the Counseling Center. Your exploration may include taking career interest tests and interpreting the results with a counselor or taking advantage of a computerized career information system.

Whether you are choosing a major, changing a major, or establishing career goals, it is important to understand how your personality, values, and interests relate to your future professional life.

Career counseling at the Counseling Center is a good place to begin this process. Call 301-314-7651 or visit our website at www.counseling.umd.edu.

Support for Parents of College Students. The Parent Warmline is a telephone consultation resource available to any parent or guardian concerned about his or her student's adjustment at college. Counselors will help callers address a range of concerns related to academic, social, and emotional issues and overall mental health. Parent Warmline staff can be contacted at 301-314-7651.

Group Counseling and Workshops. You can gain strength to deal with your concerns by getting together with other people who share similar problems, interests, and goals. Each semester, the Counseling Center offers interpersonal psychotherapy groups and weekly support groups addressing a variety of topics, such as career exploration, mindfulness, dissertation support, procrastination prevention, and stress management. Facilitated by psychologists and counselors, the typical group size is 6 to 8 students. Recent groups have included, "Circle of Sisters," a support group for black women; "My Body-My Self: A Woman's Group," which addresses

problems of body image and eating; and a Mindfulness group that assists people with strategies for overcoming stress and anxiety. Call 301-314-7651 or visit our website at www.counseling.umd.edu.

Academic Skills Counseling. Many students would like to improve their academic skills. If you want to enhance your learning strategies, overcome weak areas, or think differently about being an effective college learner, schedule an appointment with one of the Counseling Center's academic skills specialists in the Learning Assistance Service (LAS). To schedule an appointment, call 301-314-7693 or sign up online at: <https://lasonline.umd.edu>. Visit our website at www.counseling.umd.edu/LAS.

Guided Study Sessions (GSS). The GSS program provides peer-led collaborative academic support in lower level gateway courses that have a high DFW rate (number of students earning grades of D and F, or withdrawing before the end of the semester). GSS helps students learn more and perform better in these important gateway courses by encouraging active engagement in the learning process. The focus of GSS is on high-risk courses, not high-risk students. Students who perform better in the lower level courses and develop effective learning strategies are more likely to persist and perform better in upper level courses. For more information call 301-314-7693.

Disability Services. The Counseling Center's Disability Support Service provides a range of accommodations for students with disabilities, including: (1) interpreters and transcribing services for deaf or hard-of-hearing students; (2) enlarged print and electronic format of textbooks and written materials for individuals with print material disabilities (e.g., blind or low vision, learning disabilities and attention deficit disorders, or physical disabilities); (3) extended time and private or reduced distraction testing space for exams; and (4) assistance with access to various buildings and facilities on campus including access to the campus' paratransit service. If you are a new or returning student, contact the Disability Support Service in the Shoemaker Building to register as soon as possible. Call us at 301-314-7682 - (voice and TTY), email us at dissup@umd.edu, or visit our website at www.counseling.umd.edu/DSS.

Testing Services. The Testing Office in the Counseling Center administers career and personality tests for counseling purposes, and also administers national standardized educational tests, such as the GRE, LSAT, MCAT, PRAXIS, GMAT, and Miller Analogies. Call 301-314-7688 or visit our website at <http://www.counseling.umd.edu/TRU/testing.php>.

Research Services. Group and individual consultation are available for those who need assistance with research design, statistics and writing project proposals, theses, and dissertations. Call 301-314-7651 or visit our website <http://www.counseling.umd.edu/TRU/research.php>.

Counseling Center Hours

<i>Counseling Service appointments</i>	301-314-7651
Monday-Thursday	8:30 a.m. to 9:00 p.m.
Friday	8:30 a.m. to 4:30 p.m.
<i>Students of Color Walk-In Hours</i>	no appointment needed
Monday - Friday	3:00 p.m. to 4:00 p.m.
<i>Rainbow Walk-In Hours</i>	no appointment needed
Monday - Friday	3:00 p.m. to 4:00 p.m.
<i>Veterans Walk-in Hours</i>	no appointment needed
Monday – Thursday	call for hours
<i>International Students Walk-in Hour</i>	no appointment needed
	3:00 p.m. to 4:00 p.m.
<i>Learning Assistance Service</i>	301-314-7693
Mondays-Friday	8:30 a.m. to 4:30 p.m.
<i>Disability Support Services</i>	301-314-7682
Monday - Friday	8:30 a.m. to 4:30 p.m.

Testing Office

Monday - Friday

301-314-7688

Evening and weekend hours for
testing purposes

8:30 a.m. to 4:30 p.m.

University Health Center (UHC)

Campus Drive, Building 140

301-314-8180

301-405-9755 (fax)

health@umd.edu

www.health.umd.edu

Hours of Operation:

Monday-Friday: 8:00 a.m. - 6:00 p.m.

Saturday: 9:00 a.m. - 12:00 p.m.

Sunday: Closed

About the University Health Center

The University Health Center (UHC) is a nationally accredited ambulatory health care facility located on Campus Drive (across from the Adele H. Stamp Student Union). All registered students living on or off-campus are eligible to use the UHC. The UHC is open during the hours listed above, with varied hours during semester breaks, holidays and summer sessions. Visit the UHC website, www.health.umd.edu, for up-to-date information. *For life-threatening or Mental Health Emergencies, call 911 or (301) 405-3333* (University of Maryland Police Department, <http://www.umpd.umd.edu/>). For a list of area hospitals and their contact information, see: <http://www.health.umd.edu/about/emergency/areahospitals>.

Services

University Health Center offers comprehensive health services including:

- Primary Care (<http://www.health.umd.edu/clinicalservices/primary>)
- Walk-In Services (<http://www.health.umd.edu/clinicalservices/triage>)
- Mental Health (<http://www.health.umd.edu/mentalhealth/services>)
- Pharmacy (<http://www.health.umd.edu/clinicalservices/pharmacy>)
- Acupuncture (www.health.umd.edu/clinicalservices/complementary/acupuncture)
- Massage Therapy (<http://www.health.umd.edu/clinicalservices/complementary/massage>)
- HIV and STI testing
(<http://www.health.umd.edu/healthpromotion/sexualhealth/STIandHIVTesting>)
- Meditation (<http://www.health.umd.edu/meditation>) and Smoking Cessation
(<http://www.health.umd.edu/smokingcessation>)
- Nutrition (<http://www.health.umd.edu/nutritionservices>)
- Health Promotion and Wellness Services (<http://www.health.umd.edu/healthpromotion>)
- Substance Use Intervention and Treatment (<http://www.health.umd.edu/suit>)
- Men's (<http://www.health.umd.edu/menshealth>)
and Women's (<http://www.health.umd.edu/clinicalservices/womenshlth>) Reproductive health care
- International Travel/Allergy/Immunizations Clinic
(<http://www.health.umd.edu/clinicalservices/allergimmuntravel>)
- Campus Advocates Respond and Educate to Stop Violence Program
(<http://www.health.umd.edu/care>)

How to Access Care

Students are seen by appointment (<http://www.health.umd.edu/about/appointment>) for routine care 8:00 a.m. - 4:30 p.m. on weekdays. Medical services are limited after 5:00 p.m. and on

Saturdays 9:00 a.m.-12:00 p.m.

- Some appointments can be scheduled online at www.myuhc.umd.edu.
- Same-day appointments are available.
- Walk-in services are available, though waits tend to be longer for walk-in care. Walk-in patients are triaged and seen based on urgency.
- Fees will be assessed if an appointment is not canceled or rescheduled within: 4 hours for a medical appointment, at least 24 hours for a mental health/acupuncture/massage/physical therapy/travel clinic/nutrition/smoking cessation appointment, and 72 hours if the acupuncture/massage appointment is on a Monday. You may cancel or change an appointment on-line at www.myuhc.umd.edu or by calling (301) 314-8184.
- An After Hours Nurseline (<http://www.health.umd.edu/about/emergency/nurseline> or 301-314-9386) is available for free medical information *when the UHC is closed*.
- *The UHC and the University assumes no financial responsibility for care received off campus.*

Paying for Your Care

There are charges for almost all services provided at the University Health Center (UHC). We participate with many insurance plans and can bill those plans for our medical services. Your financial responsibility will vary depending on the type of insurance and service provided. We do allow the option to pay for service directly without using health insurance.

- ***Patients should always bring their health insurance card to the UHC when seeking care.***
- You should check with your health insurance company and not assume that your health plan will pay for services provided at the UHC as some plans do not cover services outside their geographic area.
- We are considered out-of-network with Point of Service (POS) (<http://www.health.umd.edu/node/1883#InsuranceTerms>) plans.
- We cannot bill HMOs (<http://www.health.umd.edu/node/1883#InsuranceTerms>, e.g. Kaiser Permanente), Medicare, or out of state Medicaid plans and non-students with Medicaid.
- Charges not covered by insurance are posted to the student's Bursar Account or can be paid at the time of visit in the UHC. Charges can be paid by cash, check, credit cards, or Terrapin Express at the UHC.

The University Health Center Pharmacy (<http://www.health.umd.edu/clinicalservices/pharmacy>) participates with many pharmacy insurance plans.

Mental Health (<http://www.health.umd.edu/mentalhealth/services>) and Nutrition (<http://www.health.umd.edu/nutritionservices>) services are not billed through insurance.

- Mental Health Services are available to *registered students only*. The fee for each mental health session is \$25.
- Nutrition Services are available to students and are charged \$20.00 per visit. All non-students are charged \$55.00 per visit.

Please call **(301) 314-9144** if you have further questions about fees or using your health insurance at the UHC. You may also refer to our health insurance Frequently Asked Questions (<http://www.health.umd.edu/insurance>) page.

Confidentiality

Students younger than 18 years will need permission (<http://www.health.umd.edu/sites/default/files/ImmunizationRecordForm.pdf>) from a parent or legal guardian to be treated, except for mental health and sexual health services. Treatment and visit information will only be given to parents with the student's consent or through a court ordered subpoena. *If the visit is billed through an insurance policy, the insurance company may send detailed information concerning a medical visit to the policy holder (i.e. parent).*

Mandatory Health Insurance (<http://www.health.umd.edu/insurance#MHI>)

The University of Maryland requires ***all undergraduate students enrolled in 6 or more credits to show proof of health insurance***. This is an active process that must be completed each year.

- *Each year*, students who have health insurance can go directly to www.firststudent.com and **complete an insurance waiver**.
- Students **without** coverage or those who wish to purchase the student health insurance plan can enroll at www.firststudent.com

Graduate Students are exempt from this requirement.

Additional information on student insurance and Frequently Asked Questions can be found on the University Health Center's web site: <http://www.health.umd.edu/HealthInsuranceFAQs>.

Immunization Requirements

The University of Maryland requires **ALL** new students, including graduate and transfer students, to provide *proof of two immunization dates for Measles, Mumps, and Rubella (MMR)*. The Immunization Record Form (<http://www.health.umd.edu/sites/default/files/ImmunizationRecordForm.pdf>) *must be submitted to the University Health Center at Orientation, but no later than the first day of class*. Completed forms can also be faxed to 301-314-5234.

- **In addition to the above MMR requirement, ALL INTERNATIONAL STUDENTS** must also provide documentation of a **Tuberculosis (TB) test** completed within the past six months **in** the United States.
- Maryland State Law requires students living in residence halls to provide proof of vaccination against *meningococcal meningitis or a signed waiver* (<http://www.health.umd.edu/sites/default/files/ImmunizationRecordForm.pdf>) stating that they have chosen not to receive the vaccination.
- Failure to submit a completed *Immunization Record Form* (<http://www.health.umd.edu/sites/default/files/ImmunizationRecordForm.pdf>) will result in a Registration Block for the future semester and a non-compliance fee may be assessed. The Registration Block will be removed after the Immunization Record has been submitted and processed.

University Recreation and Wellness

301-405-7529

301-226-4455

Director: Jay Gilchrist

recwell@umd.edu

www.recwell.umd.edu

Being physically active as a college student is a crucial component of success in and out of the classroom. Activity helps students manage stress, boosts their immune system against illness, aids sleep, improves mood, increases energy and provides a social connection to other students. Perhaps most importantly, movement primes the brain for learning and makes it easier to focus when studying. University Recreation & Wellness (RecWell) encourages Terps to make the most of their college experience by incorporating movement and activity into their daily lives. There are many opportunities for students to find an activity they enjoy through RecWell.

Membership with RecWell and access to all its facilities, programs and services are included in the student fee. Students simply need their university ID to enter recreation facilities on campus. Facilities include the Eppley Recreation Center (ERC), Ritchie Coliseum, Reckord Armory Gym, the weight and fitness areas in the School of Public Health (SPH), and multiple outdoor playing fields.

The ERC is the largest recreation facility on campus and offers a cardio fitness center, weight rooms, martial arts room, indoor track, and a functional training studio as well as courts for basketball, racquetball, wallyball, and squash. The ERC also features indoor and outdoor pools for lap swimming and diving, a sauna, and steam room. When school is in session, the ERC is open 6 a.m.–midnight on weekdays, 8 a.m.–10 p.m. on Saturdays, and 10 a.m.–midnight on Sundays for students to enjoy their favorite activity on their own schedule. Weight rooms and cardio fitness centers are also located in Ritchie Coliseum and SPH.

For students motivated by a structured workout in a high-energy group setting, RecWell offers approximately 90 group fitness classes each week, including yoga, Zumba®, BODYPUMP™, cycling, cardioboxing, and high intensity interval training. Classes are no additional charge and are drop-in only—there's no need to sign up ahead of time. Students may also take advantage of working with a certified personal trainer to meet their individual fitness goals at a student discounted rate.

Students who enjoy playing sports have many opportunities to do so through RecWell's sport club and intramural sports programs. These programs are open to everyone and you don't have to consider yourself an athlete to play. Many sport clubs do compete regionally and nationally against other schools, but they are also a great way to learn a new sport or simply enjoy the comradery that comes from playing for fun. There are 40+ studentled sport clubs, including ballroom dance, lacrosse, black belt, equestrian, sailing, figure skating, paintball and soccer. Students can also participate in intramural sports that are open to all members of the university community. Participants select their own level of competition and play in either men's, women's or coed leagues over the course of a weekend, a week or a tournament lasting several weeks. Intramural sports include basketball, flag football, softball, soccer, racquetball, table tennis and more.

For students who prefer to be active outdoors, RecWell's adventure program offers outdoor adventure trips, clinics and social bike rides throughout the year. Students can take a day or weekend trip to go backpacking, caving, mountain biking, kayaking rock climbing, or other various outdoor activities. Students may also use the adventure program resource library and rent gear to pursue their own outdoor adventure. The climbing wall and challenge course are located at the ERC, where students may challenge themselves physically and mentally to increase interpersonal skills and self-confidence. Maryland also has a vibrant cycling community. The RecWell Bike Shop offers free repairs and maintenance and will even teach students how to repair their own bikes.

RecWell also offers community programs open to students including swimming lessons, water safety instructor and lifeguard training, deep water conditioning and tennis instruction.

Veteran Student Life

0110 Stamp Student Union

301-314-0073

Brian Bertges, Coordinator for Veteran Student Life

bbertges@umd.edu

<http://thestamp.umd.edu/VSL>

Veteran Student Life (VSL) serves to the build and maintain a community of University of Maryland students, staff, faculty, and alumni who have served in the US military. The Veteran Student Life office is located on the ground floor of the Adele H. Stamp Student Union - Center for Campus Life. VSL programs and services support a seamless transition from military life to civilian college life providing extra support for continued growth in mind, body, and spirit. We carry the pride and confidence established in the military into the college experience as well as future careers for veteran alumni.

For more information about programming or overall Veteran Student Life at the University of Maryland, please contact Brian Bertges (bbertges@umd.edu) or visit <http://thestamp.umd.edu/VSL>.

Veteran Center

In addition to support and programming, Veteran Student Life offers a Veterans Center is available exclusively for UMD student veterans located in Cole Field House (Room 1122), thanks to a generous donation from Board of Trustee member and former Secretary of the Navy Gordon England. This center includes:

Television

Computers and Printers

Free Coffee

Study Lounge

4. Registration, Academic Requirements, and Regulations

Academic Advising

Academic Advising

Role of Advising

Academic advising is an integral part of each student's educational experience and it takes many forms. Academic advisors provide students with information on academic requirements needed for degree completion, help students plan for future graduate study or a career, and serve as a research person. Academic advising is a shared responsibility between the student and the advisor.

- **Provide information on academic requirements needed for graduation.** Advisors assist students in developing an academic and career plan, monitor students in the major, and discuss how a course of study fits a particular academic or career interest. Advisors answer questions concerning a specific academic concern, such as problems with a particular class, and guide students through the registration process, including providing information on various registration blocks and what needs to be done to remove them.
- **Help students plan for future graduate study or career.** Advisors discuss how an academic major can prepare a student for his/her career, and what career options are available. Advisors refer students to the Career Center which provides career counseling and workshops on issues such as writing resumes and preparing for job interviews. They also inform students about internship opportunities and how credit can be earned, and provide information on study abroad programs that might enrich a student's academic experience as well as enhance their resume. Advisors inform students about graduate school opportunities and application procedures.
- **Serve as a campus resource.** Advisors assist students in obtaining support from other offices of the university. This includes informing students about possible scholarships or fellowships, and referring students to academic support units that provide tutoring or workshops on study skills, time management, and stress management. They may recommend that students seek counseling for stress, addictions, or trauma that may be affecting their academic work. Advisors inform students with physical and learning disabilities of the support available to them. They also encourage students to enrich their experiences by becoming involved on campus via social, political, academic, ethnic/cultural, sport and/or recreational student organizations and activities.

Some advisors are able to provide information on all of the above. Others specialize in a particular topic or area of concern. For example, a college/department may have a specific career advisor or study abroad coordinator. Students in upper level courses are often advised by faculty members who can assist with graduate school and career issues. Furthermore, some advisors work with specific populations, such as returning students, athletes, students with physical or learning disabilities, and students of color.

If you are not sure where to seek advising, contact your academic college. When requesting to meet with an advisor, specify what topics you wish to discuss to ensure that you are directed to the appropriate individual. Advising at the University of Maryland is normally a combination of professional advisors, located in many of the college office, and faculty advisors. Please check your individual college to find out whom you need to see for academic advising. For more information, visit www.advising.umd.edu.

Academic Advising and Degree Completion

All new students are required to attend Orientation where they will register for classes. During their first semester, students develop a four year plan based on templates provided for each major (see www.4yearplans.umd.edu). Each plan includes specific benchmark courses to be completed within a specific period of time. Four year plans must be approved by an advisor in order to register for subsequent semesters.

Students are required to complete the benchmark courses in their major in order to progress to graduation (see *Student Academic Success-Degree Completion Policy* below). Outlined in each four year plan, benchmark courses guide students in a step by step process to degree completion and demonstrate satisfactory progress in the major. Academic units conduct regular reviews of students' progress, and those students who are in danger of falling behind benchmarks will be required to work with an advisor to develop a plan to get back on track. Students who do not make progress may be required to select a new major in which they can be successful.

Many students change their majors over the course of their academic career. When doing so, students must first complete and have approved a new four year plan. Any student who completes ten semesters or 130

credits without completing a degree is subject to mandatory advising prior to registration for any subsequent semester. Students with exceptional circumstances or those who are enrolled in special programs are required to develop a modified graduation plan that is appropriate to their situations. In all cases, students are responsible for meeting progress expectations and benchmarks required for their degree programs.

It is recommended that all students seek advising assistance prior to course registration. Students should also consult with an advisor as circumstances change and four year plans need to be updated. Many colleges have mandatory advising for prior to registering for a new semester.

Students placed on probation are required to consult an academic advisor in their college prior to the beginning of a new semester but no later than the end of the schedule adjustment period. Students will not be allowed to add or drop courses, or to register during any probation semester without the approval of an academic advisor in their college.

Student Academic Success-Degree Completion Policy

The goal of the Student Academic Success-Degree Completion Policy is to promote undergraduate student success. The policy establishes a structured framework and criteria to guide all students to completion of an undergraduate degree within a reasonable period of time.

Full-time degree seeking students normally are expected to complete the undergraduate program in four years. Within this timeframe, all students are expected to demonstrate continuing progress in their majors by completing prerequisite or required courses with the appropriate grades, and by completing other requirements consistent with graduation progress or benchmarks established by their academic units (see 2, below). It is ultimately the responsibility of the student to meet these requirements. To help students meet these requirements the university will facilitate student progress to degree by providing enhanced student advising through the following measures:

1. Academic units will create 4-year graduation templates that will specify the degree requirements for each major and provide semester-by-semester course schedule models that achieve graduation within four years. Students will prepare individualized plans for completing their degrees in accordance with the academic units' 4-year graduation plans. Students are also encouraged to periodically update their plans with the assistance of their academic advisors.
2. Academic units will establish graduation progress benchmarks for each academic major. These will specify the credit and course criteria that will indicate satisfactory progress to degree. Academic units will establish schedules for regular periodic reviews of student progress, and students who are in danger of falling behind the program benchmarks will be required to consult with an advisor prior to registration.
3. Students who do not achieve the progress expectations or benchmarks will be permitted to continue in the major only upon the approval of the dean of their college. If it becomes necessary for students to change majors, they will be given assistance in identifying and enrolling in a suitable alternative major.
4. When students change majors, they will be required to present an academic plan to the new major unit that demonstrates their ability to complete their degree in a timely manner.

While some students will have valid reasons to take additional time to degree, any student who completes 10 semesters or 130 credits (see footnote 1 for credits not counted towards these limits) without completing a degree will require mandatory advising in his/her college prior to registration for subsequent semesters. Students with exceptional circumstances, students whose programs include minors, double majors/degrees, enrichment activities or who need to pursue a degree part time will have on record approved plans with approved program benchmarks. Program benchmarks will be developed by the student in consultation with and approved by an advisor.

Footnote 1: Degree credits include University of Maryland credits and all applicable transfer credits from other postsecondary institutions. The equivalent semesters applicable to the enrollment limit for transfer credits will be determined by dividing all transfer credits applicable to the degree by 15. However, Advanced Placement (AP) and International Baccalaureate (IB) credits, and credits earned for college courses taken while in high school and prior to matriculation at a postsecondary institution, will not count toward this semester or credit limitation. Such courses may, however, count toward degrees. Summer Session and Winter term will not be included in the semester count. Credits earned during Summer Sessions or Winter terms will be included in the credit count.

Student Academic Success-Degree Completion Policy

The goal of the Student Academic Success-Degree Completion Policy is to promote undergraduate student

success. The policy establishes a structured framework to guide all students to completion of an undergraduate degree within a reasonable period of time. Academic units provide 4-year templates that students can use to develop a program of study that will meet the course requirements for a degree. Students are responsible for developing plans of study, with the assistance of their academic advisers. Academic units monitor student progress and assist students at risk of falling behind benchmarks in their plans. The policy in essence establishes a process to provide a pathway to completion of a degree for each student, initially created and then adjusted over time as needed to meet each student's particular circumstances. The policy is described in more detail in the section on Academic Advising.

(References to the policy: www.ugst.umd.edu/academicsuccess.html and to frequently asked questions: www.ugst.umd.edu/faqs-successpolicy.html).

Academic Integrity

The University of Maryland is an academic community. Its fundamental purpose is the pursuit of knowledge. Like all other communities, the University can function properly only if its members adhere to clearly established goals and values. Essential to the fundamental purpose of the University is the commitment to the principles of truth and academic honesty. Accordingly, the *Code of Academic Integrity* is designed to ensure that the principle of academic honesty is upheld. While all members of the University share this responsibility, the *Code of Academic Integrity* is designed so that special responsibility for upholding the principle of academic honesty lies with the students.

The University's *Code of Academic Integrity* is a nationally recognized honor code, administered by a Student Honor Council. Any of the following acts, when committed by a student, shall constitute academic dishonesty:

Cheating: fraud, deceit, or dishonesty in any academic course or exercise in an attempt to gain an unfair advantage and/or intentionally using or attempting to use unauthorized materials, information, or study aids in any academic course or exercise.

Fabrication: intentional and unauthorized falsification or invention of any information or citation in any academic course or exercise.

Facilitating academic dishonesty: Intentionally or knowingly helping or attempting to help another to violate any provision of the *Code of Academic Integrity*.

Plagiarism: Intentionally or knowingly representing the words or ideas of another as one's own in any academic course or exercise.

If it is determined that an act of academic dishonesty has occurred, a grade of "XF" is considered the normal sanction for undergraduate students. The grade of "XF" is noted on the academic transcript as failure due to academic dishonesty. Lesser or more severe sanctions may be imposed when there are circumstances to warrant such consideration. Suspension or expulsion from the University may be imposed even for a first offense.

Students should consult the *Code of Academic Integrity*, at <http://www.president.umd.edu/administration/policies/section-iii-academic-affairs/iii-100a> for further information regarding procedures for reporting and resolving allegations of academic dishonesty.

Honor Pledge

In 2002, the University adopted an honor pledge in which students are asked to write out and sign the pledge on major assignments and exams, as designated by the instructor. The Honor Pledge is designed to encourage instructors and students to reflect upon the University's core institutional value of academic integrity. Professors who invite students to sign the Honor Pledge signify that there is an ethical component to teaching and learning. Students who write by hand and sign the Pledge affirm a sense of pride in the integrity of their work. The Pledge states:

"I pledge on my honor that I have not given or received any unauthorized assistance on this assignment/examination."

For more information regarding the Code of Academic Integrity, the Honor Pledge, or the Student Honor Council please refer to www.shc.umd.edu or contact the Office of Student Conduct at 301-314-8204.

Summary of Policies and Regulations Pertaining to Students

Descriptions of these policies are for general information only. Please refer to specific texts for official language. Modifications may be made, or other policies added, throughout the year. Please contact the Office of Student Conduct for additional information.

In addition to the policies reprinted or identified elsewhere (e.g., the *Code of Student Conduct* and *Code of Academic Integrity*), students enrolled at College Park are expected to be aware of, and to abide by, the policies summarized below. Information about where the complete texts may be consulted (other than the Code of Student Conduct) follows each summary. This information was compiled and provided by the Office of Student Conduct. The Code of Student Conduct is available at

<http://go.umd.edu/codeofstudentconduct>.

The Alcohol Policy prohibits the use or possession of any alcoholic beverage under the age of 21; knowingly providing alcoholic beverages to a person known to be under the age of 21. The Drug Policy prohibits unauthorized distribution; possession for purposes of distribution; use; or possession of any controlled substance or illegal drugs. Information subject to change pending legislation. (Originally approved by the Board of Regents, September 26, 1969. Legal drinking age in the State of Maryland is 21 years.)

Policy on Amplifying Equipment restricts the hours and locations of use of certain forms of sound amplifying equipment, provides a procedure for the authorization of otherwise restricted uses of sound amplifying equipment, and locates responsibility for complaints with those using the equipment. (Adopted by the University Senate, June 2, 1970.) For more information visit:

http://thestamp.umd.edu/event_guest_services/policies#amplified

Stamp Student Union Policies regulate reservation of university facilities, advertising, co-sponsorship, cancellation and postponement, and various other matters relating to programs of student organizations. (Published in the Event Management Handbook. For more information, contact the Event and Guest Services Office.) For more information visit: http://thestamp.umd.edu/event_guest_services/policies

Acceptable Use of Information Technology Resources Policy defines standards for reasonable and acceptable use of university computer resources, including electronic mail.

Policy on Demonstrations establishes guidelines for demonstrations and picketing stipulates that the university will take steps necessary both to protect the right of individuals or groups to demonstrate and to protect the freedom of speech, assembly, and movement of any individual or group. (Adopted by the University Senate, June 2, 1970) For more information, see the Code of Student Conduct or visit http://thestamp.umd.edu/event_guest_services/policies#demonstrations

Examination Rules set general standards for student conduct during examinations. They are applicable to all examinations given at the College Park campus unless contrary instructions are provided by the faculty member administering the examination.

Policy on Hazing which defines Hazing as Recklessly or intentionally: 1) engaging in or enabling an act or situation that subjects another person to the risk of a) physical harm b) emotional distress, humiliation, degradation; c) harm from unreasonable requirements which interfere with a student's ability to function as a student, including financial requirements outside of membership dues; d) diminished physical or mental capacity, or 2) causing or encouraging another person to violate any law or University regulation.

Campus Parking Regulations cover registration, permits, fees, violations, enforcement, fines, towing and impounding, reviews, carpool programs, special events parking, emergency parking, and a number of other areas. The parking regulations are in effect to help ensure safe and adequate parking for the campus community and are designed to provide parking spaces as equitable as possible for students, faculty, staff and campus visitors. Parking regulations are updated annually and are provided electronically to all who register for parking and are also available at the following link:

http://www.transportation.umd.edu/images/parking/PDFs/parking_regulations.pdf

Residence Hall Rules define prohibited conduct in and around campus residence halls, buildings, and at Department of Resident Life sponsored activities, in addition to that which falls under the Residence Halls/Dining Services Agreement, *Code of Student Conduct*, and federal, state and local laws. The rules also specify standard sanctions for rule violations, and provide for an adjudication process. For more information, contact the Department of Resident Life or visit www.reslife.umd.edu/communityhandbook/.

Sexual Misconduct Policy and Procedures defines prohibited behavior including possible sanctions for violations of the policy, offers guidance for complainants including how to make a formal report to the University and to the police. Additionally, the policy defines confidential resources on campus for reporting. A collection of university and community resources are provided for parties, including possible interim protective measures.

Student Organization Registration Guidelines define student organizations, responsibilities of officers, and registration, and establish types of registration, a registration process, certain privileges of registered student organizations in good standing, sanctions which may result from registration review, and guidelines for constitutions. For more information, or for a copy of the guidelines, contact the Student Organization Resource Center located on the ground floor in the Stamp Student Union.

In May 2013, the University Senate approved changes to the *Code of Student Conduct* related to student misconduct which occurs off-campus. The changes to the *Code* have expanded the University's Jurisdiction to include conduct that occurs off-campus.

Student Conduct

The primary purpose for the imposition of discipline in the university setting is to protect the campus community. Consistent with that purpose, reasonable efforts are also made to foster the personal and social development of those students who are held accountable for violations of university regulations. Compared to disciplinary systems at many universities, University of Maryland students are given unusual authority and responsibility for management of the campus process. Membership on the student judiciary is an extraordinary educational experience, and opportunity to be of service to the community, and a personal honor.

Cases that may result in suspension or expulsion are heard by conduct boards, comprised entirely of students. In such cases, students are accorded substantial procedural protections, including an opportunity for a hearing and an appeal. Less serious cases are resolved in disciplinary conferences conducted by University staff members. Acts of violence, intimidation, disruption, or rioting; substantial theft or vandalism; fraud or forgery; use or distribution of illegal drugs; are forms of misconduct that most frequently result in dismissal from the University. Students accused of violating University disciplinary regulations are encouraged to discuss the allegations with their parents or guardians, legal counsel, and with appropriate university staff members.

Prohibited Conduct

A complete list of conduct considered prohibited as well procedures for resolving allegations of misconduct may be found in the *Code of Student Conduct* at www.president.umd.edu/policies or through the Office of Student Conduct website at www.studentconduct.umd.edu.

The following is general notice of what constitutes prohibited conduct and is subject to disciplinary action:

- Use, possession or storage of any weapon
- Causing physical harm or apprehension of harm
- Initiating or causing to be initiated a false report, warning or threat of fire, explosion or other emergency
- A criminal offense committed off-campus
- Violating the terms of any disciplinary sanction
- Misusing or damaging fire safety equipment
- Distribution or possession for purposes of distribution of any illegal drug
- Furnishing false information to the University
- Making, possessing, or using any forged, altered, or falsified instrument of identification
- Interfering with the freedom of expression of others
- Theft of property or of services; possession of stolen property
- Destroying or damaging the property of others
- Engaging in disorderly or disruptive conduct
- Failure to comply with the directions of university officials
- Use or possession of any illegal drug or controlled substances
- Use or possession of fireworks
- Use or possession of any alcoholic beverage under the age of 21 or providing alcoholic beverages to a person known to be under the age of 21
- Violation of published university regulations or policies including the residence hall contract, as well as those regulations relating to entry and use of University facilities, sale of alcoholic beverages, use of vehicles and amplifying equipment, campus demonstrations, misuse of identification cards, sexual misconduct, hazing, acceptable use, and parking regulations.

Note: This Code does not apply to student sexual misconduct. The policy and procedures applicable to student sexual misconduct is VI-1.60(A) University of Maryland Sexual Misconduct Policy & Procedures at <http://www.president.umd.edu/administration/policies/section-vi-general-administration/vi-160a-0>.

Note: Effective April 2006, students who violate the following section will be dismissed from the University:

Rioting, assault, theft, vandalism, fire-setting, or other serious misconduct related to a

University-sponsored event, occurring on- or off-campus, that results in harm to persons or property or otherwise poses a threat to the stability of the campus or campus community may result in disciplinary action regardless of the existence, status, or outcome of any criminal charges in a court of law related to misconduct associated with a university-sponsored event.

For more information regarding student conduct issues, contact the Office of Student Conduct at 301-314-8204 or visit www.studentconduct.umd.edu.

Academic Records and Regulations

The Office of the Registrar, located on the first floor of the Clarence M. Mitchell Jr. Building, is responsible for maintaining student records and issuing official transcripts.

Academic Clemency Policy

III-1.30(A) UNIVERSITY OF MARYLAND POLICY AND PROCEDURES ON ACADEMIC CLEMENCY (Approved by the President August 1, 1991, Amended April 21, 2016)

Undergraduate degree-seeking students who have reenrolled at the University of Maryland in pursuit of their initial baccalaureate degree are eligible, after a separation of at least five calendar years from the University (determined by the last day of the last attended semester), for academic clemency. Academic clemency is granted one time only, and subsequent requests will be denied.

Application for academic clemency must be filed with the Office of Undergraduate Studies (or designee) as soon as possible, and before the end of the first semester of the student's return to the University. Clemency will be recorded on the student's record following the completion of the student's first semester of reenrollment. Under clemency, up to 16 attempted credits of D+, D, D-, and F grades from courses previously completed at the University of Maryland will be removed from the calculation of the student's cumulative grade point average (GPA).

Attempted credits and grades for which clemency is granted will:

1. remain on the student's transcript;
2. not be used to satisfy degree requirements;
3. be excluded from the student's cumulative GPA calculation;
4. remain included in the calculation of Latin Honors; and
5. adhere to the institution's repeat guidelines and be included in the student's repeat limits.

The granting of clemency is contingent upon the student's satisfactory completion of the initial semester of reenrollment, and will be recorded by the university at that time. If the student's first semester of registration upon reenrollment is canceled, or the student withdraws from the semester, clemency will not be granted (and the student will retain the option of filing for clemency in the future).

(Policy can be found

here: <http://president.umd.edu/administration/policies/section-iii-academic-affairs/iii-130a>)

Academic Probation and Dismissal

Consistent with the University of Maryland Student Academic Success - Degree Completion Policy, it is the intent of the University that its students make satisfactory progress toward their degree objectives, and achieve academic success. If a student has special circumstances that make it impossible to complete a normal course load, the student must meet with an advisor to discuss the circumstances, the student's plans for continued progress toward a degree, and the implications for continued enrollment.

The following guidelines for retention of students refer separately to semester (Fall and Spring) and Winter or Summer terms:

- a. Academic retention is based solely on grade point average (GPA). A minimum of 120 successfully completed course credits is required for graduation in any degree curriculum. Individual colleges, schools, and departments may establish higher requirements for graduation. Students must consult the appropriate college, school, or department for specific information.
- b. Satisfactory Performance is defined as the achievement of a cumulative GPA of 2.0 or above. Students whose semester GPA falls below 2.0 are encouraged to meet with their advisors regarding the development of a plan that will appropriately respond to the student's academic difficulties and lead to academic

improvement. Individual colleges, schools and departments may establish separate requirements for mandatory advising. Students must consult the appropriate college, school, or department for specific information.

c. Unsatisfactory Performance is defined as the achievement of a cumulative GPA of less than 2.0. Students will be placed on Academic Probation following any semester in which a 2.0 cumulative GPA is not achieved. Normally, students will be placed on Academic Dismissal if they are unable to raise their cumulative GPA to 2.0 or higher at the end of their probationary semester.

Academic Probation:

Students will be placed on academic probation if their cumulative GPA falls below 2.0. Normally, a student is expected to attain a 2.0 cumulative GPA at the end of any probationary semester. Students who fail to achieve a 2.0 cumulative GPA at the end of their probationary semester may be academically dismissed, depending on their credit level as detailed below.

1. Students who have earned 60 credits or more will be dismissed from the University in the event their cumulative GPA remains below 2.0 at the end of their probationary semester. Students who are on probation and attain a cumulative GPA of 2.0 at the end of a winter or summer term will not be subject to dismissal in the subsequent semester.
2. Students who are on academic probation and have earned fewer than 60 credits will be permitted to continue on academic probation if a minimum semester GPA of 2.0 is achieved in each semester of probation.
 - a. Full-time students must complete 9 or more credits in each semester of probation. A completed credit is defined as credit for any course in which a student receives a grade of A+, A, A-, B+, B, B-, C+, C, C-, D+, D, D-, F, P, or S.
 - b. Students who meet this requirement will be permitted to continue on probation until the close of the semester (excluding winter and summer terms) in which they attain a cumulative GPA of 2.0.
 - c. However, students who are on probation will be dismissed if they have not achieved a cumulative GPA of 2.0 at the end of the semester in which they complete 60 credits.
 - d. Students who are on probation and attain a cumulative GPA of 2.0 at the end of a winter or summer term will not be subject to dismissal in the subsequent semester.
3. The Office of the Registrar will notify students when they are placed on academic probation. Such notices will include a requirement that the students consult an academic advisor in their colleges early in the probationary semester and in no event later than the beginning of the early registration period for the next semester. The Office of the Registrar will notify the colleges of students who are placed on academic probation and will note the academic probationary status on the students' academic record.
 - a. The academic advisors will assist students in developing appropriate plans for achieving satisfactory academic performance.
 - b. Students who are placed on probation will not be allowed to add or drop courses, or register without the approval of an academic advisor in their college.

Academic Dismissal:

1. Students who have earned 60 or more credits will be dismissed if their cumulative GPA remains below 2.0 for two consecutive semesters (excluding winter and summer terms). Students who attain a cumulative GPA of 2.0 in the preceding winter or summer term will not be subject to dismissal.
2. Students who have earned fewer than 60 credits will be dismissed following any probationary semester in which they fail to attain a minimum 2.0 semester GPA and complete the requisite credits detailed under Academic Probation. Students who attain a cumulative GPA of 2.0 in the preceding winter or summer term will not be subject to dismissal.
3. Students who have been academically dismissed and who are reinstated will be academically dismissed again if a cumulative GPA of at least 2.0 is not achieved by the end of the first semester after reinstatement. Reinstated students will not be allowed to add or drop courses, or to register during any semester without the approval of an academic advisor in their college, unless a cumulative GPA of at least 2.0 is achieved.
4. The Office of the Registrar will notify the appropriate University offices when students are academically dismissed and will note the dismissal on the student's academic record.
5. The Student Success Office will notify students via email. The email will include a statement that registration for the next semester (excluding winter or summer terms) will be canceled.

Application for Academic Reinstatement:

1. Students who have been dismissed may apply to the Faculty Petition Board for reinstatement on the grounds of mitigating circumstance.
2. The application for reinstatement must include a written statement explaining the circumstances leading to dismissal and a proposed plan to remedy those circumstances. Students are encouraged to consult with their academic advisors prior to submitting their applications to the Faculty Petition Board.
3. Applications for reinstatement can be completed at <http://www.studentsuccess.umd.edu/application.php>.

Faculty Petition Board:

1. The Student Success Office is responsible for submitting the reinstatement applications for review to the Faculty Petition Board, which is comprised of faculty appointed by the Senior Vice President for Academic Affairs and Provost. The Board is the sole arbiter of reinstatement applications.
2. The Faculty Petition Board has the discretion to establish the terms for reinstatement, including the requirements for achieving academic improvement and developing an academic plan for success.
3. The Student Success Office will forward the Board's decision to students at the email address supplied on the application.

Dismissal of Delinquent Students:

The University reserves the right to request at any time the withdrawal of a student who cannot or does not maintain the required standard of scholarship, or whose continuance in the University would be detrimental to his or her health, or the health of others, or whose conduct is not satisfactory to the authorities of the university. Additional information about the dismissal of delinquent students may be found in the Code of Student Conduct.

Computation of Grade Point Average

GPA is computed by dividing the total number of quality points accumulated in courses for which a grade of A+, A, A-, B+, B, B-, C+, C, C-, D+, D, D-, F, or XF has been assigned by the total number of credits attempted in those courses. Courses for which a mark of P, S, I, NGR or W has been assigned are not included in computing the GPA. Each letter grade has a numerical value: A+=4, A=4, A- = 3.7; B+=3.3, B=3, B- = 2.7; C+=2.3, C=2, C- = 1.7; D+=1.3, D=1, D- = 0.7; F = 0. Multiplying this value by the number of credits for a particular course gives the number of quality points earned for that course.

See Repeat Policy to determine the effect of repeated courses in the calculation of GPA.

Graduation Applications and Latin Honors**Graduation Applications**

Each candidate for a degree or certificate must file a formal application with the Office of the Registrar. The deadline for application is the end of the schedule adjustment period for the semester in which the student plans to graduate, or at the end of the first week of the second summer session for August degrees.

In all cases, graduation applications must be filed at the beginning of the student's final semester before receiving a degree. The graduation applications are available on the internet at www.testudo.umd.edu or at the Registrar's Office, 1st floor Clarence M. Mitchell Jr. Building.

Latin Honors

Summa cum laude, magna cum laude and cum laude are the highest Latin honors that the University bestows for sustained excellence in scholarship. They are awarded to the top 10% of all students graduating in each College or School. Summa cum laude is awarded to students with a GPA equal to or greater than the highest two percent of GPAs from the specific College or School averaged over the previous academic year, magna cum laude to the next highest three percent, and cum laude to the following five percent. To be eligible for this recognition, at least 60 semester hours must be earned at the University or at a program in which credit earned is counted as University of Maryland, College Park, resident credit (contact the Office of the Registrar to determine program eligibility). No more than 6 credits taken pass/fail or satisfactory/fail grade modes shall count toward the 60-hour minimum. No student with a grade-point average of less than 3.3 will be considered for a Latin honor. See the Office of the Registrar's website (www.registrar.umd.edu) for a list of minimum GPA cut-offs (for the current year) for each honor designation, published by College or School.

Election to Phi Beta Kappa

Organized in 1776, Phi Beta Kappa is the oldest and most widely respected academic honorary society in the United States. Invitation to membership is based on outstanding scholastic achievement in studies of the liberal arts and sciences. Student members are chosen entirely on the basis of academic excellence; neither extracurricular leadership nor service to the community is considered. Election is held twice a year, once in the fall and once in the spring semester.

The process for election to Phi Beta Kappa involves a review in November for those who graduated the previous August or those who will graduate in December, and a review in March for those graduating in May. For juniors the review occurs in March. The review is conducted by a select committee of faculty members representing the humanities, social sciences, and natural sciences. The committee reviews transcripts of all students with qualifying grade point averages. Whether a student qualifies for membership in Phi Beta Kappa depends on the quality, depth, and breadth of the student's record in liberal courses. The final decision for election rests with the faculty committee and faculty Phi Beta Kappa members.

Attention Students who are under the General Education Program Requirements

- The way in which Phi Beta Kappa criteria will apply to courses in the General Education Program (www.gened.umd.edu/for-students/gened-students.php) is being determined. Any changes to the criteria will be posted at: www.ugst.umd.edu/pbk.html as soon as known.
- All new freshmen starting fall 2012 are under the General Education Requirements.
- Transfer and other students should visit: www.gened.umd.edu/documents/GenEdTransferPolicy.pdf to determine whether they are under CORE or General Education Program Requirements.

Requirements for consideration of membership in Phi Beta Kappa at the University of Maryland, College Park campus chapter include:

1. Grade Point Average: For seniors a grade point average of at least 3.75 overall as well as in all liberal arts and sciences courses taken. For juniors the minimum grade point average is at least 3.85. National PBK rules, however, require that no more than 20 percent of the students elected in any one year can be juniors, so the actual minimum grade point average for junior admission may be higher than 3.85.

2. Residence: At least 60 credit hours must be taken at the University of Maryland, College Park.

3. Liberal Courses: For seniors, at least 90 credit hours in courses in the liberal arts and sciences (where "liberal" courses are to be distinguished from professional or technical courses), at least 45 of which must be taken at the University of Maryland, College Park. For juniors, at least 75 total credit hours must be completed, at least 60 of which are in courses in the liberal arts and sciences; of these, at least 45 must be taken at the University of Maryland, College Park. Students would ordinarily be majors in one of the programs in the liberal arts and sciences. However, students with the requisite number of liberal credit hours can be admitted if they have completed at least 5 courses (15 credit hours or more) for seniors and for juniors in a single liberal arts and sciences department/program at UMCP.

4. Required courses: One semester of mathematics, which must be fulfilled by college-level credit hours (including AP or IB credit, but not exemption by SAT), and two college semesters of the same foreign language at the elementary level, or at least one semester above that level. The language requirement may also be satisfied by completion of four years of the same language other than English at the high-school level or above, or the equivalent. Students with such a foreign language background who wish to be considered for admission to Phi Beta Kappa should notify the Phi Beta Kappa office (2110 Marie Mount Hall) in writing and provide the appropriate documentation (an official high school transcript) prior to the month of consideration. Juniors providing late documentation (after March 1) will be considered only as seniors.

5. Distribution: The credit hours presented for Phi Beta Kappa must contain at least nine liberal arts credit hours in each of the three following areas: (a) arts and humanities, (b) behavioral and social sciences, (c) natural sciences and mathematics (including a laboratory science course). The laboratory science course cannot be fulfilled by AP or IB credit. All the courses in at least two of the three required areas must be completed at the University of Maryland, College Park, and in the remaining area no more than one AP or IB course can be used to fulfill the requirement. In general, Phi Beta Kappa will accept the CORE classification of courses. In satisfying the distribution requirement, however, a maximum of one course that satisfies multiple CORE categories, allotted to the category that helps the student the most, can be used. AP or IB History courses will be considered as satisfying only the arts and humanities requirement.

Students with more challenging courses and moderately high grade point averages are preferred by the committee to those with higher grade point averages but a narrow range of courses. Minimal qualifications in more than one area may preclude election to Phi Beta Kappa.

Recommended Criteria Include:

- Regular grades (rather than pass/fail) in mathematics, foreign language courses, and distribution areas.
- Some traditional social sciences and humanities courses that require written essays and papers. (Note that internships may be counted as professional courses and not as liberal courses).

Meeting the above requirements does not guarantee election to Phi Beta Kappa. The judgment of the resident faculty members of Phi Beta Kappa on the quality, depth, and breadth of the student's record is the deciding factor in every case. Any questions about criteria for election to Phi Beta Kappa (including equivalency examinations in foreign languages) should be directed to the Phi Beta Kappa Office, Dr. Denis Sullivan, and 301-405-8986.

Honors (Dean's List)

Semester Academic Honors (Dean's List) are awarded to students who - within any given semester (excluding winter and summer terms) - complete 12 or more credits with a semester GPA of 3.5 or higher. This recognition is noted on the student's academic record.

Please Note: Courses with grades of P and S are excluded from the calculation.

Incompletes

The mark of 'I' is an exceptional mark that is an instructor option. It is given only to a student whose work in a course has been qualitatively satisfactory, when, because of illness or other circumstances beyond the student's control, he or she has been unable to complete some small portion of the work of the course. In no case will the mark 'I' be recorded for a student who has not completed the major portion of the work of the course.

1. This Incomplete Contract form must be submitted to the dean of the college offering the course within six weeks after the grade submission deadline (if a grade hasn't already been submitted). If any Incomplete Contract isn't completed within the six week period, the instructor will convert the 'I' to the appropriate grade.
2. The student will remove the 'I' by completing work assigned by the instructor; it is the student's responsibility to request arrangements for the completion of the work. The work must be completed by the time stipulated in the contract, usually by the end of the next semester, but in any event, no later than one year. If the remaining work for the course as defined by the contract is not completed on schedule, the instructor will convert the 'I' to the grade indicated by the contract.
3. Exceptions to the stated deadline may be granted by the student's dean (in negotiation with the faculty member or the faculty member's dean) upon the written request of the student if circumstances warrant further delay.
4. If the instructor is unavailable, the department chair, upon request of the student will make appropriate arrangements for the student to complete the course requirements.
5. It is the responsibility of the instructor or department chair concerned to submit the grade promptly upon completion of the conditions of the Incomplete Contract.
6. The 'I' cannot be removed through re-registration for the course or through credit by examination. An 'I' mark is not used in the computation of quality points or cumulative grade point averages.

Marking System

The following symbols are used on the student's permanent record for all courses in which the student is enrolled after the initial registration and schedule adjustment period: A+, A, A-, B+, B, B-, C+, C, C-, D+, D, D-, F, XF, I, P, S, W, and AU. These marks remain as part of the student's permanent record and may be changed only by the original instructor on certification, approved by the department chair and the dean, that an actual mistake was made in determining or recording the grade.

- A+, A, A- denotes excellent mastery of the subject and outstanding scholarship. In computations of cumulative or semester averages, a grade of A+ or A will be assigned a value of 4.0 quality points per credit hour. A grade of A- will be assigned 3.7 quality points per credit hour.
- B+, B, B- denotes good mastery of the subject and good scholarship. A grade of B+ is assigned a value of 3.3 quality points per hour. A grade of B is assigned a value of 3.0 quality points per credit hour. A grade of B- is assigned a value of 2.7 quality points per hour.
- C+, C, C- denotes acceptable mastery of the subject. A grade of C+ is assigned a value of 2.3 quality points per hour. A grade of C is assigned a value of 2.0 points per credit hour. A grade of C- is assigned a value of 1.7 quality points per credit hour.
- D+, D, D- denotes borderline understanding of the subject, marginal performance, and it does not

represent satisfactory progress toward a degree. A grade of D+ is assigned 1.3 points per credit hour. A grade of D is assigned a value of 1.0 quality point per credit hour. A grade of D- is assigned 0.7 quality points per credit.

- F denotes failure to understand the subject and unsatisfactory performance. A grade of F is assigned a value of 0.0 quality points per credit hour.
- XF- denotes failure due to academic dishonesty. An XF is treated in the same way as F for the purposes of cumulative average.
- The mark of 'I' is an exceptional mark that is an instructor option. It is only given to a student whose work has been qualitatively satisfactory, when, because of illness or other circumstances beyond the student's control, he or she has been unable to complete some small portion of the work of the course. In no case will the mark 'I' be recorded for a student who has not completed the major portion of the work of the course. For further explanation see "Incompletes" below.
- The mark of P is a student option mark, equivalent to a grade of D- or better. This grade is not used in any computation of quality points or cumulative average totals at the end of the semester. The student must inform the Office of the Registrar of the selection of this option by the end of the schedule adjustment period. For a full explanation see "Pass-Fail Policy" below.
- S is a department option mark that may be used to denote satisfactory performance by a student in progressing thesis projects, orientation courses, practice teaching, and the like. In computation of cumulative averages a mark of S will not be included.
- W is used to indicate withdrawal from a course after the end of the schedule adjustment period. For information and completeness, the grade of W is placed on the student's permanent record by the Office of the Registrar. The instructor will be notified that the student has withdrawn from the course. This grade is not used in any computation of quality points or cumulative average totals at the end of the semester.
- AU denotes a student registering to audit a course or courses which have been designated as available under the audit option and in which space is available. The notation AU will be placed on the transcript for each course audited. A notation to the effect that this symbol does not imply attendance or any other effort in the course will be included on the transcript in the explanation of the grading system.

(Policy can be found here:

<http://www.president.umd.edu/administration/policies/section-iii-academic-affairs/iii-600a>)

Additional Record Notations

In addition to the above marks, there are provisions for other record or transcript notations that may be used based on university policy and individual circumstances.

Duplicate course: Used to indicate two courses with the same course content. The second course is counted in the cumulative totals unless an exception is made by the dean.

Excluded Credit (Excl Crd). : Excluded credit is noted when academic clemency has been granted.

Incompletes: The mark of 'I' is an exceptional mark that is an instructor option. It is given only to a student whose work in a course has been qualitatively satisfactory, when, because of illness or other circumstances beyond the student's control, he or she has been unable to complete some small portion of the work of the course. In no case will the mark 'I' be recorded for a student who has not completed the major portion of the work of the course.

1. This Incomplete Contract form must be submitted to the dean of the college offering the course within six weeks after the grade submission deadline (if a grade hasn't already been submitted). If any Incomplete Contract isn't completed within the six week period, the instructor will convert the 'I' to the appropriate grade.

2. The student will remove the 'I' by completing work assigned by the instructor; it is the student's responsibility to request arrangements for the completion of the work. The work must be completed by the time stipulated in the contract, usually by the end of the next semester, but in any event, no later than one year. If the remaining work for the course as defined by the contract is not completed on schedule, the instructor will convert the 'I' to the grade indicated by the contract.

3. Exceptions to the stated deadline may be granted by the student's dean (in negotiation with the faculty member or the faculty member's dean) upon the written request of the student if circumstances warrant further delay.

4. If the instructor is unavailable, the department chair, upon request of the student will make appropriate arrangements for the student to complete the course requirements.

5. It is the responsibility of the instructor or department chair concerned to submit the grade promptly upon completion of the conditions of the Incomplete Contract.

6. The 'I' cannot be removed through re-registration for the course or through credit by examination. An 'I'

mark is not used in the computation of quality points or cumulative grade point averages.

Mid-Term Grades

Mid-Term Grades shall be submitted for undergraduate students as detailed below. These grades are an important component of student success, as they provide timely feedback to students about the University's academic expectations. Mid-term Grades are used to inform students of their performance in the course during roughly the first half of the semester; they are used for advising purposes and are not recorded on the student's academic transcript.

1. Mid-Term Grades must be submitted for all of the following:
 - Undergraduate students enrolled in their first year (fewer than 30 credits earned at the University of Maryland),
 - Undergraduate students in all 0xx, 1xx, and 2xx level courses,
 - Student athletes in undergraduate courses.
2. Mid-Term Grades are due eight (8) weeks after the start of the semester.
3. Department Chair or Unit Head must approve any courses for which Mid-Term Grades cannot be issued.
4. Instructors who have students who require Mid-Term Grades will be prompted to submit Mid-Term Grades. If instructors do not have such students, they will not need to submit Mid-Term Grades.
5. Mid-Term Grades should be issued in the grading mode for the course.
6. Satisfactory/unsatisfactory (S/U) marks may be used.
7. All Mid-Term Grades must be submitted as specified by the Office of the Registrar.

For more information, see

<http://www.president.umd.edu/administration/policies/section-iii-academic-affairs/iii-600b>.

Pass-Fail Policy

Pass-Fail Policy: The following Pass-Fail policy was approved by the Board of Regents for implementation beginning with the Spring 1989 semester:

1. To register for a course under the pass-fail option, an undergraduate must have completed 30 or more credit hours of college credit with a GPA of at least 2.0. At least 15 of these credit hours must have been completed at the University of Maryland, College Park with a University of Maryland GPA of at least 2.0.
2. Courses for which this option applies must be electives in the student's program. The courses may not be college, major, field of concentration, or general education program requirements.
3. Only one course per semester may be registered for under the pass-fail option.
4. No more than 12 semester hours of credit may be taken under the pass-fail option during a student's college career.
5. Students may not choose this option when re-registering for a course.
6. When registering under the pass-fail option, a course that is passed will count as hours in the student's record but will not be computed in the grade point average. A course that is failed will appear on the student's record and will be computed both in the overall average and the semester average.
7. Students registering for a course under the pass-fail option are required to complete all regular course requirements. Their work will be evaluated by the instructor by the normal procedure for letter grades. The instructor will submit the normal grade. The grades A+, A, A-, B+, B, B-, C+, C, C-, D+, D or D- will automatically be converted by the Office of the Registrar to the grade P on the student's permanent record. The grade F will remain as given. The choice of grading option may be changed only during the schedule adjustment period for courses in which the student is currently registered.

Repeat Policy

The following Campus Repeat Policy applies to ALL courses that may not be repeated for additional credit.

1. The following students are required to follow the repeat policy effective Fall 1990:
 - a. All new freshmen who began at University of Maryland, College Park Fall 1990 and after.
 - b. Transfer students from schools other than Maryland community colleges who began at

University of Maryland, College Park, Fall 1990 and after. This includes transfer students from another University of Maryland institution.

2. There is a limit to the number of times a student may repeat a course. Students may have one repeat of any course in which they earned an A+, A, A-, B+, B, B-, C+, C, C-, D+, D, D-, F, P, S, W, NG or Audit; they cannot be registered (after the schedule adjustment period) for any given course more than twice. A student's deans office may grant an exception allowing an additional course repeat. In this case, students must present a plan for successfully completing the course. All attempts *will* be counted toward the total limit for repeatable credits.

Note: *Students may not choose the Pass-Fail option when re-registering for a course or re-register for a course in which a grade of "I" has been noted.*

3. Students may repeat no more than 18 credits. Additionally, if a student withdraws from *all* courses during a semester, those courses are not included in this limit.

4. The grade point average will include all attempts at a given course that result in a grade of A+, A, A-, B+, B, B-, C+, C, C-, D+, D, D-, or F. However, to help freshmen and transfer students adjust to the University of Maryland, College Park, the following two exceptions allow for the cumulative GPA to be calculated so that only the higher grade is included:

- a. When the repeated course was taken within the students first semester at University of Maryland, College Park, or
- b. When the repeated course was taken within the students first 24 credit hours attempted (including transfer credits) or within the semester during which the student reached the 24th credit hour attempted. Advanced Placement Exam credits do not count toward the 24 credit count.

5. Any grade earned in prior attempts of a repeated course will appear on the student's transcript, regardless of whether the grade is dropped from, or included in, the cumulative grade point average.

6. Repeat by transfer: If a student repeats by transfer a course that was taken before or during the semester in which the student reached 24 credits attempted (including transfer credits) and the transfer grade is higher, then the original grade in the course will be excluded from the GPA calculation.

- a. If the course was taken after the semester in which the student reached 24 credits attempted, the original grade remains in the GPA calculation.

Repeat Policy Prior to Fall 1990:

The following students follow the *previous* repeat policy:

- Students who began at University of Maryland, College Park, before the Fall 1990 semester (including students who enter University of Maryland, College Park for summer 1990).
- Transfer students who began at a Maryland community college before Fall 1990.
- UMBC College of Engineering students who began before 1990.

The highest grade received in the repeated course is used to calculate the GPA. A student may repeat any course; however no student may be registered for a course more than three times.

If a student repeats a course in which he or she has already earned a mark of A, B, C, D, P, or S, the subsequent attempt shall not increase the total hours earned toward the degree. Only the highest mark will be used in computation of the student's cumulative average. Under unusual circumstances, the student's dean may grant an exception to this policy.

Statement on Classroom Climate

The University of Maryland values the diversity of its student body and is committed to providing a classroom atmosphere that encourages the equitable participation of all students. Patterns of interaction in the classroom between the faculty member and students and among the students themselves may inadvertently communicate preconceptions about student abilities based on age, disability, ethnicity, gender, national origin, race, religion, or sexual orientation. These patterns are due in part to the differences the students themselves bring to the classroom. Classroom instructors should be particularly sensitive to being equitable in the opportunities they provide students to answer questions in class, to contribute their own ideas, and to participate fully in projects in and outside of the classroom.

Of equal importance to equity in the classroom is the need to attend to potential devaluation of students that can occur by reference to demeaning stereotypes of any group and/or overlooking the contributions of a particular group to the topic under discussion. Joking at the expense of any group creates an inhospitable

environment and is inappropriate. Moreover, in providing evaluations of students, it is essential that instructors avoid distorting these evaluations with preconceived expectations about the intellectual capacities of any group.

It is the responsibility of individual faculty members to review their classroom behaviors, and those of any teaching assistants they supervise, to ensure that students are treated equitably and not discouraged or devalued based on their differences. Resources for self-evaluation and training for faculty members on classroom climate and interaction patterns are available from the Office of Human Relations.

Syllabus, Attendance, Absences, and Assessment

Syllabus

There shall be a complete course syllabus for the current term made available to students no later than the first day of class at the beginning of each undergraduate course. Any changes to the syllabus made after the first day of class must be announced and must be clearly represented with the date of the revision. The course syllabus will specify in general terms:

- a course description including course objectives;
- the content and nature of assignments;
- the schedule of major graded assessments (e.g., examinations and due dates for projects and papers);
- the examination and/or assessment procedures;
- the mode of communication for excused absences;
- the basis for determining final grades, including if the plus/minus grading system will be used and the relationship between in-class participation and the final course grade;
- reference to the list of course-related policies maintained by the Office of Undergraduate Studies.

Attendance

Students are expected to take full responsibility for their own academic work and progress. Students, to progress satisfactorily, must meet all of the requirements of each course for which they are registered. Students are expected to attend classes regularly. Consistent attendance offers students the most effective opportunity to gain command of course concepts and materials.

In-class participation may be an ongoing requirement and an integral part of the work of some courses. In-class assessments may occur, sometimes without advance notice. The syllabus will specify expectations about in-class participation and its relationship to the final course grade.

Except in cases where in-class participation forms a significant part of the work of the course, attendance should not be used in the computation of grades; assignment of a course grade on some basis other than performance in the course is prohibited by University policy. Recording student attendance is not required of the faculty.

Absences

Absences from courses in which in-class participation forms a significant part of the work of the course (such as lab or discussion courses) shall be handled by instructors in accordance with the general policies of their academic units.

An excused absence is an absence for which the student has the right to receive, and the instructor has the responsibility to provide, academic accommodation.

Excused absences must be requested promptly and must be supported by appropriate documentation. Excused absences do not alter the academic requirements for the course. Students are responsible for information and material missed on the day of absence. Students are within reason entitled to receive any materials provided to the class during the absence. Students are responsible for determining what course material they have missed and for completing required exercises in a timely manner.

Events that justify an excused absence include: religious observances; mandatory military obligation; illness of the student or illness of an immediate family member; participation in university activities at the request of university authorities; and compelling circumstances beyond the student's control (e.g., death in the family, required court appearance). Absences stemming from work duties other than military obligation (e.g., unexpected changes in shift assignments) and traffic/transit problems do not typically qualify for excused absence.

Students claiming excused absence must notify the course instructor in a timely manner and provide appropriate documentation. The notification should be provided either prior to the absence or as soon afterwards as possible. In the case of religious observances, athletic events, and planned absences known at

the beginning of the semester, the student must inform the instructor during the schedule adjustment period. All other absences must be reported as soon as is practical. The student must provide appropriate documentation of the absence. The documentation must be provided in writing to the instructor by the means specified in the syllabus.

- a. For medically necessitated absences: Students may, one time per course per semester, provide a self-signed excuse as documentation of an absence from a single class (e.g., lecture, recitation, or laboratory session) that does not coincide with a major assessment or assignment due date. For all other medically necessitated absences, students must provide documentation from a physician or the University Health Center, upon request of the course instructor.
- b. For all other absences students must provide verifiable documentation upon request (e.g., religious calendar, court summons, death announcement, etc.).

In keeping with USM policy, students shall not be penalized because of observances of their religious holidays and shall be given an opportunity, whenever feasible, to make up within a reasonable time any academic assignment that is missed due to individual participation in religious observances. For all other excused absences, the student must be provided academic accommodation. The accommodation provided should, within reason, neither advantage nor disadvantage either the student or the rest of the class.

If the accommodation is a makeup assessment, it must be timely, at a time and place agreed upon by the instructor and student, cover the same material, and be at the same level of difficulty as the original assessment. In the event that a group of students requires the same makeup assessment, one time and place may be scheduled. The makeup assessment must not interfere with the student's regularly scheduled classes. If makeup work is not feasible, an alternate accommodation for excused absences will be provided. Alternate accommodations will be according to the principles established by the unit offering the course. Students who miss a substantial number of class sessions or course assignments should seek guidance from an academic advisor with respect to academic options.

Extended absences stemming from active military duty are addressed in the USM V-7.00

Policy on Students who are called to Active Military Duty during a National or International Crisis or Conflict. Absences related to a student's disability are addressed in the VI-1.00(D) University of Maryland Disability & Accessibility Policy and Procedures.

Although the university attempts to accommodate the religious beliefs of all of its members, it functions within a secular environment and is limited in the extent to which it can interrupt its normal operations. The president shall determine when it is appropriate for the campus community to restrict rescheduling examinations or other significant assessments on the dates of religious observance.

Assessment

Students can expect to receive a reasonable number of graded assessments or progress reports to permit evaluation of their performance. These assessments shall be returned to the students in a timely manner. Students will have reasonable opportunity to review graded assignments, such as papers and examinations (including the final examination or assessment), after evaluation by the instructor and while materials are reasonably current. Information about assessments and determination of the final course grade will be presented in a course syllabus.

Ordinarily, in-class assessments are given during class hours in accordance with the regularly scheduled time and place of each course. Students are responsible for knowing the information in the syllabus, including dates of assessments and due dates of graded assignments. Assessments may take a variety of forms and need not be classroom-based written examinations.

Final Examination: There shall be a final examination and/or assessment in every undergraduate course. Exceptions may be made with the written approval of the department chair or other appropriate unit administrator.

Each faculty member shall retain, for one full semester (either fall or spring) after a course is ended, the students' final assessments in the appropriate medium. If a faculty member goes on leave for a semester or longer, or leaves the university, the faculty member shall leave the final assessments and grade records for the course with the department chair, the program director, or the dean of the College or School, as appropriate.

All in-class final examinations must be held on the date and at the time listed in the official final examination schedule. Out-of-class final examination or equivalent assessments shall be due on the date and at a time listed in the official final examination schedule. Changes to final examination schedules and locations must be approved by the chair of the department or the dean of the College, or the appropriate

designee. However, final examinations or assessments may not be rescheduled to the final week of classes or to Reading Day.

Students may seek to reschedule final examinations so that they have no more than three examinations on any given day. It is the responsibility of the student to initiate the rescheduling or be responsible for taking the examination as originally scheduled. When rescheduling is desired, students should first contact their instructors. Students who encounter difficulty rescheduling examinations with their instructors are advised to contact the dean's office of their academic program for help. Faculty members are expected to accommodate students with legitimate rescheduling requests.

Resolution of Problems

Any concerns regarding the syllabus, attendance, absences and assessment should be addressed to the course instructor. In the case of unresolved concerns, students are encouraged to consult the following policies for appropriate resolution.

Degree Information

Combined Bachelor's/Master's Programs

In a combined bachelor's/master's program, some graduate level courses initially taken for undergraduate credit may also be applied towards the graduate credit requirements for a master's degree program at the University of Maryland. A bachelor's/master's program may be developed for an individual student, or it may be a structured program.

Individual Student Bachelor's/Master's Program: A program may be developed by an individual student in consultation with his/her academic advisor. Such a program is available only to students whose academic performance is exceptional. It is to be developed according to the individual career interests and goals of the student and should be an integrated learning experience rather than merely the completion of a certain number of graduate and undergraduate credits. The program requires the approval of the directors of both the undergraduate and the graduate programs involved and of the Dean for Office of Undergraduate Studies and the Dean of the Graduate School. Normally, no more than nine credits of graduate courses applied to the bachelor's degree may be counted also for graduate credit in an individual student program. Courses to be double-counted must be at the 600-level or above and must be passed with at least a 'B' grade. Individual study courses, internships, or courses given credit by examination are not eligible. The credits to be double-counted will be designated as applicable to the graduate program after the student receives the bachelor's degree and matriculates in the Graduate School. This designation will be canceled if the student withdraws from the graduate program before completing the master's degree.

Structured Bachelor's/Master's Program: A structured bachelor's/ master's program is an articulated curriculum combining an existing undergraduate program and an existing master's program at the University of Maryland, offered by the same or by different departments. Such a program is to be designed for students whose academic performance is exceptional and should be an integrated learning experience rather than merely the completion of a certain number of graduate and undergraduate credits. A proposal for such a program should be submitted by the college(s) housing the academic programs concerned and requires the approval of the Graduate Council, the Graduate Dean, the Senate PCC Committee, and the Provost.

Necessary features of a structured bachelor's/master's program include the following:

- a. There must be specific requirements for admission to the combined program that speak to the exceptional performance of the students to be admitted. At a minimum, students accepted for the program must be clearly admissible to the graduate program portion.
- b. The program should be designed so as not to unduly delay the student's receipt of their bachelor's degrees. Taking graduate credits should not unduly limit the breadth of the student's

experience through premature specialization.

c. All requirements of the bachelor's program and of the master's program must be completed to receive the two degrees. Where appropriate, graduate courses taken while an undergraduate may substitute for courses required in the undergraduate major program.

d. The student may be offered deferred admission to the graduate school at the end of the Junior year program, subject to completion of the senior year program in a timely fashion and with a specified level of achievement. Formal admission to the graduate school will require completion of all requirements for the bachelor's degree.

e. The credits to be double-counted will be designated as applicable to the graduate program after the student receives the bachelor's degree and matriculates in the Graduate School. This designation will be canceled if the student withdraws from the graduate program before completing the master's degree.

A structured bachelor's/master's program may normally include up to nine credits of graduate level courses (600-level and above) that are counted both for the bachelor's program and the master's program. More than nine double-counted credits may be allowed if both of the following conditions are satisfied.

a. The additional graduate credits applied to the undergraduate program do not unduly limit the breadth of the student's experience through premature specialization. This condition may be satisfied, for example, if the graduate credits substitute for courses required in the undergraduate program that would have been taken in any case, but at a less advanced level.

b. The master's program requires substantially more than thirty credits. This condition will be deemed to be satisfied if the combined program, with double-counting, still requires 150 or more credit hours to complete.

Degree Requirements

The requirements for graduation vary according to the character of work in the different colleges, schools, departments and academic units. It is the responsibility of the colleges, schools, departments and other academic units to establish and publish clearly defined degree requirements. Responsibility for knowing and meeting all degree requirements for graduation in any curriculum rests with the student. Specific degree requirements are listed in this catalog under the college and/or department as appropriate.

Each student should check with the proper academic authorities no later than the close of the junior year to ascertain his or her standing with respect to advancement toward a degree. For this purpose, each student should be sure to review their semester grades and unofficial transcript on the Testudo website (www.testudo.umd.edu) at the close of each semester or request a semester grade report.

1. Residency Requirement

a. All candidates for undergraduate degrees from the University of Maryland, College Park, must take a minimum of 15 credits in courses numbered 300 or above, including at least 12 credits in the major field.

b. All candidates for undergraduate degrees from the University of Maryland, College Park must take a minimum of 30 credits in residence. Normally these 30 credits will be the final 30 credits counted toward the degree. However, credits from University-approved study abroad and internship programs, and a maximum of 6 credits that are not part of such programs, may be included in the final 30 if approved in advance by the dean of the academic unit from which the student expects to receive the degree.

2. Enrollment in Majors

A student who is eligible to remain at the University of Maryland, College Park, may transfer among curricula, colleges, or other academic units except where limitations on enrollments have been approved. By the time they complete 60 credits, students are expected to declare a degree-granting major. Students must be enrolled in the major program from which they plan to graduate, when registering for the final fifteen hours of the baccalaureate program. This requirement also applies to the third year of the combined, pre-professional degree programs. Also see information on double majors and double degrees elsewhere in this chapter.

3. Credit Requirements

No baccalaureate degree will be awarded in instances where fewer than 120 credit hours have been earned.

Many undergraduate curricula at the University of Maryland, College Park, require more than 120 credits. It is the responsibility of each student to familiarize himself or herself with the requirements of particular curricula. The student is urged to seek advice on these matters from the departments, colleges, or the Office of the Dean for Undergraduate Studies. To earn a baccalaureate from the University of Maryland, College Park, a minimum of 30 credits must be taken in residence (see above).

4. Grade Point Average

A minimum cumulative 2.0 grade point average is required for graduation in all curricula. A higher average may be required by the individual department, college, school, or program.

Students who matriculated to the University in Fall 2012 and after must have a minimum "C" (2.00) cumulative grade point average across all courses used to satisfy major degree requirements, minor requirements, and undergraduate certificate requirements, respectively. Individual department, college, school, or program requirements may exceed this minimum.

5. Completion of Interrupted Degree

Students whose registration at the University of Maryland, College Park, has lapsed for more than 10 years shall be required to complete a minimum of 15 credit hours at College Park after their return to campus in order to earn a baccalaureate degree.

Recommendations about courses needed to satisfy the remaining degree requirements will be made at the department level, with approval of the Dean's Office required. The reason for requiring these credits is that many fields change sufficiently in 10 years to require that students take current courses if they are to be awarded a current degree. Exceptions to the requirement for a minimum of 15 credits earned at College Park upon return to the campus can be recommended by the Deans for approval in the Office of the Vice President for Academic Affairs.

(Policy can be found here:

<http://www.president.umd.edu/administration/policies/section-iii-academic-affairs/iii-700a>)

Minors

Minors afford students the opportunity to pursue a limited but structured concentration in a coherent field of study outside their major. The minor may be a truncated version of a major or a distinctive intellectual subset of a discipline. Minors are not offered in every field of study. Students should inquire with departments for current availability of minors or see individual listings on this site.

The structures of minors vary in detail, but, with rare exceptions, they all require no fewer than 15 and no more than 24 credits with at least 9 credits in upper division courses (300-level or above). No more than six credits (or two courses) may be applied to satisfy both the requirements of a minor and a major program. No course may be used to satisfy the requirements of more than one minor. All courses taken for a minor must be completed with a minimum grade of "C-". A minimum C (2.00) cumulative grade point average across all courses used to satisfy the minor is also required.

To ensure appropriate academic advising, students who wish to pursue a minor should inform both the college responsible for their major and the unit offering the minor as early as possible, but in no case later than one full academic year before the expected date of graduation. When a student has completed all requirements for the minor, the unit offering the minor shall notify the student's college, which verifies that the student has met all requirements and officially notifies the Registrar's Office. The completion of a minor is posted on the student's official transcript only when the student completes all requirements for the bachelor's degree.

In February 2004, the University Senate voted to phase out academic citations and replace them with minors. Students pursuing an academic citation should contact the respective department or program for information on this conversion process.

Second Majors and Second Degrees

Second majors

A student who wishes to complete a second major concurrently with his or her primary major of record must obtain written permission in advance from the appropriate departments or programs and colleges. As early as possible, but in no case later than one full academic year before the expected date of graduation, the student must file with the department or programs involved and with the appropriate deans, formal programs showing the courses to be offered to meet requirements in each of the majors and supporting areas as well as those of the college and general education programs. A student who wishes to add a Limited Enrollment Program as a second major must do so at the earliest possible opportunity to assure that specific credit and GPA requirements can be met. In order to obtain approval, students must complete all of the requirements specified for both the primary and secondary major. Courses taken for one major

may be counted as appropriate as part of the degree requirements for the general education programs. If two colleges are involved in the double major program, the student must designate which college will be responsible for the maintenance of records and certification of general education requirements. Final approval of a double major program must be obtained from each of the appropriate departments and college(s).

Second Degrees Taken Simultaneously

A student who wishes to receive two bachelor's degrees simultaneously must satisfactorily complete the regularly prescribed requirements of both degree programs and a minimum of 150 credits (180 credits if one of the degrees is in Special Education). At least 18 of the credits applied to one degree must be in course work not applied to the requirements of the other degree program. As early as possible, but in no case later than one full academic year before the expected date of graduation, the student must file with the department or programs involved, as well as with the appropriate deans, formal programs showing the courses to be offered to meet the major, supporting area, college, and general education programs. If two colleges are involved in the double degree program, the student must designate which college will be responsible for the maintenance of records and certification of general education requirements. Final approval of a double degree program must be obtained from each of the appropriate departments and college(s).

Second Degrees Taken Sequentially

A student who has completed the requirements for, and has received one baccalaureate and who wishes to earn a second degree from the university must satisfactorily complete all of the prescribed requirements for the second degree and enough additional credits so that the total, including all applicable credits earned at the university or elsewhere, is at least 150 credits (180 credits if one of the degrees is in Special Education). At least 18 of the credits applied to one degree must be in course work not applied to the requirements of the other degree program. In no case will a second baccalaureate be awarded to a student who has not completed a minimum of 30 credits in residence at the university.

Post-Baccalaureate Second Degree

Students who matriculate to the University with a bachelor's degree from any regionally accredited college or university will be considered to have satisfied the University's general education requirements, regardless of when the degree was received.

Student Academic Success-Degree Completion Policy

The goal of the Student Academic Success-Degree Completion Policy (<http://www.president.umd.edu/administration/policies/section-iii-academic-affairs/iii-800a>) is to promote undergraduate student success. The policy establishes a structured framework to guide all students to completion of an undergraduate degree within a reasonable period of time. Academic units provide 4-year templates that students can use to develop a program of study that will meet the course requirements for a degree. Students are responsible for developing plans of study, with the assistance of their academic advisers. Academic units monitor student progress and assist students at risk of falling behind benchmarks in their plans. The policy in essence establishes a process to provide a pathway to completion of a degree for each student, initially created and then adjusted over time as needed to meet each student's particular circumstances. The policy is described in more detail in the section on Academic Advising. (References to the policy: www.ugst.umd.edu/academicsuccess.html and to frequently asked questions: www.ugst.umd.edu/faqs-successpolicy.html).

Prior Learning Credit - AP, IB, A-Level/AS-Level, CLEP, BMT, Credit-by-Exam

The University of Maryland provides students with several opportunities to receive undergraduate credit for knowledge and achievements gained through prior learning/competency-based education. Students may earn up to one-half of the credits required for their baccalaureate degree through PLC. Usually, this is no more than 60 credits. No more than 30 of these credits can be from College Level Examination Program (CLEP). The University recognizes the following as PLC: Advanced Placement (AP), International Baccalaureate (IB), Advanced Level/Advanced Subsidiary Level (A-Level/AS-Level), College-Level Examination Program (CLEP), Basic Military Training (BMT) and Departmental Proficiency Exams (Credit-by-Exam). All PLC that is awarded credit by the University of Maryland, with the exception of Credit-by-Exam, is recorded as prior learning credit at the top of the student's transcript and will be included in the total number of credits earned. Credits earned through Credit-by-Exam are considered

resident credit and posted under the semester in which the exam was taken. *Students will not receive credit for both passing an examination and completing an equivalent course.*

Students should inform their advisor that they have received or anticipate receiving credit for AP, IB, or A-Level/AS-Level exams. This information may impact placement into courses required for their degree.

Credit for AP, IB, A-Level/AS-Level and CLEP is awarded based on the approval of the relevant department offering the course material and is subject to ongoing departmental reevaluation. Even if a student has already been awarded credit for one of these exams at another institution, the credit will be reevaluated by the University of Maryland. The score received on the exam must be equivalent to the minimum score the University of Maryland accepted at the time the test was taken, otherwise, the exam will not be awarded PLC. The University of Maryland must receive an official score report directly from the organization/board that administered the exam for PLC to be awarded.

Duplicate credit will not be awarded for passing an exam and completing an equivalent course. Credit received in a course at the University of Maryland shall supersede any credit from AP, IB, A-Level/AS-Level, or CLEP. A student who has earned any grade, passing or otherwise, in a course at the University of Maryland shall not subsequently receive credit for that course by AP, IB, A-Level/AS-Level, or CLEP. If a student has been awarded exam credit for an equivalent University of Maryland course in which they have also earned credit, the course from the exam will be marked on their record as being a repeated course and the credits will be removed from the total number of credits earned. *No credit will be awarded for AP, IB, or A-Level/AS-Level exams that are repeated or taken after a student has matriculated to the University of Maryland.*

Information about the Prior Learning Credit, including the acceptance and awarding of credit, along with course equivalency charts, can be found online at www.transferecredit.umd.edu/plc.html. The University of Maryland Policy and Procedures Concerning Credit for Prior Learning can be found at <http://www.president.umd.edu/administration/policies/section-iii-academic-affairs/iii-141a>. The University System of Maryland Policy on Credit for Competency-Based Education and Prior Learning can be found at <https://www.usmd.edu/regents/bylaws/SectionIII/>. Questions regarding PLC should be directed to Transfer Credit Services at transferecredit@umd.edu.

Advanced Placement (AP)

The University of Maryland encourages applicants to seek AP credit so that academically successful students may move forward in their programs at an appropriate pace. However, credit is not awarded for all exams offered by the College Board. Credits for AP exams are awarded based on departmental approval when the designated minimum score is earned. All departments reserve the right to reevaluate the content of exams and to change the assignment of credit, minimum required score and course equivalencies. Students need to have their scores sent directly to the University of Maryland from College Board; the University's code is 5814.

International Baccalaureate (IB)

IB credit is awarded to students who have completed IB exams with a minimum grade of 5. Credit is not awarded for all exams offered by IB and is based on departmental approval. All departments reserve the right to reevaluate the content of exams, and to change the assignment of credit, minimum required score and course equivalencies. Students should have their scores sent directly to the University of Maryland from the International Baccalaureate Results Service. The University's code is 001417.

Advanced Level/Advanced Subsidiary Level (A-Level/AS-Level)

The University of Maryland awards credit for A-Level/AS-Level exams taken through Cambridge International Exams (CIE) or one of the other approved boards. All departments reserve the right to reevaluate the content of exams and to change the assignment of credit, minimum required score and course equivalencies. Students are not permitted to earn credit for both A-Level and AS-Level exams within the same subject areas. Official scores must be sent by CIE or the approved exam board to the University of Maryland.

College-Level Examination Program (CLEP)

CLEP recognizes college-level competence achieved outside the college classroom. Two types of CLEP tests are available:

- General Examinations - cover the content of a broad field of study
- Subject Examinations - cover the specific content of a college course

Credit is not awarded for all CLEP General and Subject Examinations. CLEP credits are awarded when

satisfactory scores are attained. All departments reserve the right to reevaluate the content of exams, and to change the assignment of credit, minimum required score and course equivalencies. CLEP exams are administered at approved CLEP testing centers throughout the country. The University of Maryland is an approved CLEP Test Center (Test Center Code: 5814). Students who want to earn credit through CLEP must request their official score reports to be sent to the University of Maryland. The Score Recipient Code is 5814.

Basic Military Training (BMT)

Students who are currently on active duty or former service members in the United States Armed Forces are eligible to be awarded six credits of lower-level general elective credits. The credits are awarded for the completion of basic physical fitness and basic military science as part of basic military training for the United States Armed Forces.

To qualify, students must have been enrolled as an undergraduate student in the Fall 2013 semester or beyond, along with one of the following:

- Currently serving as an active duty member in the United States Armed Forces.
- Currently serving as a member of a reserve or National Guard branch of the United States Armed Forces.
- Has been Honorably Discharged from service in the United States Armed Forces.
- Has been Honorably Discharged from a reserve or National Guard branch of the United States Armed Forces.

Departmental Proficiency Examination (Credit-by-Exam)

At the University of Maryland, Credit-by-Exam is comparable to a comprehensive final examination in a course. Although the mathematics department receives the most applications for Credit-by-Exam, many departments will provide opportunities for certain courses. Initial inquiry as to whether an examination in a specific course is available should be directed to the academic department which offers the course in question.

Credit-by-Exam may not be taken for courses in which the student has remained registered at the University of Maryland, beyond the Schedule Adjustment Period even with a transcript notation of W.

In order to be considered for Credit-by-Exam, a student must meet the following eligibility criteria:

- a) A minimum of 12 (twelve) credit hours completed at the University of Maryland;
- b) A minimum grade point average of 2.0;
- c) Completion of all prerequisite courses or the approval of the department chairperson (or, in non-departmentalized units, the dean) and the Senior Vice President and Provost.

Note: Requirements a. and b. may be waived for students in their first semester at the University of Maryland by the department chairperson and the dean.

The following applies to the grading associated with Credit-by-Exam:

- a) A student may cancel application for credit-by-exam at any time prior to the completion of the examination with no entry on the permanent record.
- b) The examination instructor shall make the grade available to the student prior to the formal submission of the grade.
- c) A grade of "C-" or better must be obtained to establish credit-by-exam.
- d) If a student elects not to have the grade posted, a grade of "W" shall be recorded. No course may be attempted more than once using credit-by-exam.
- e) Grades earned using credit-by-exam shall be posted on the transcript as resident credit in the semester the examination was taken and used in computing semester and cumulative grade point averages. Such grades shall be accompanied by the notation "By examination" as applicable.

Credit-by-exam will not be accepted for any part of the final 30 (thirty) semester hours without permission of the Senior Vice President and Provost. With such permission, 6 (six) of the final 30 (thirty) credit hours may be by credit-by-exam. Applications for examinations shall be approved on an individual course basis. The instructor must certify on the report of examination that copies of the examination questions and the student's answers shall be retained in accordance with the University of Maryland's Records and Retention and Disposal Schedule.

If an examination for a course is available, the department will provide information regarding when and where the exam is administered, type of examination, and material which might be helpful in preparing for the examination. After making arrangements with the department, students must apply through the Division of Letters and Sciences, 1117 Hornbake Library, 301-405-2793. See ltsc.umd.edu/forms-ltsc.html for additional information regarding Credit-by-Exam.

Other Non-Traditional Experience

There are some instances of prior learning/competency-based education for which the University of Maryland generally does not award credit. These include, but are not limited to: American Council on Education (ACE), Defense Activity for Non-Traditional Education Support (DANTES), Program on Non-Collegiate Sponsored Instruction (PONSI), departmental credit-by-exam from institutions other than Maryland public institutions of higher education, and life experiences.

Students may contact the Office of the Registrar to appeal the acceptance of prior learning experiences. For prior learning credit to be awarded during an appeal, the student must provide evidence that the prior learning experience falls within the level, scope, content and expected learning outcomes of courses offered at the University of Maryland. The determination of the Office of the Registrar shall be final.

Change of Address

Students are expected to notify the Office of the Registrar of any change in their local, permanent or e-mail address. Change of address can be completed online at (<http://registrar.umd.edu/current/index.html#online-transactions>) or forms are available at the following places:

Office of the Bursar, Room 1115 or 1135, Lee Building

Office of the Registrar, First Floor, Clarence M. Mitchell Jr. Building

Please be advised that changing your permanent address could affect your residency status for tuition and billing purposes. For further information about these potential implications, please contact Residency Reclassification Services at resclass@umd.edu.

Classification of Students

Official classifications of undergraduate students are based on cumulative credits as follows: freshman, 0-29 credit hours; sophomore, 30-59 credit hours; junior, 60-89 credit hours; and senior, 90 or more credit hours.

(Policy can be found here:

<http://www.president.umd.edu/administration/policies/section-iii-academic-affairs/iii-640a>)

Concurrent Undergraduate-Graduate Registration

An undergraduate degree seeking student at the University of Maryland may, with the approval of his or her Dean, the department and the instructor offering the course, and of the Graduate School, register for graduate courses (600 level and above) that will be recorded as *for graduate credit only* and that may be applied towards an advanced degree at this university or elsewhere. Students eligible for this option normally will have achieved junior standing, will have a GPA of at least 3.0, and will have successfully completed the prerequisite courses with a grade of "B-" or better. The student must submit a plan of study that shows that taking graduate courses will not unduly delay completion of requirements for the bachelor's degree. The total of graduate and undergraduate credits attempted in any semester may not be more than eighteen. The graduate credits so earned will not count towards any of the requirements for the Baccalaureate degree. A maximum of twelve credits may be taken for graduate credit by a student while enrolled as an undergraduate.

Courses Taken at Other Institutions

Eligible students may enroll in courses at other universities via the University System of Maryland's Inter-Institutional Registration Program or the Consortium of Universities of the Washington Metropolitan Area. Courses taken at another institution may not be credited toward a degree program without prior approval of the dean of the college from which the student expects to earn a degree.

Consortium of Universities of the Washington Metropolitan Area:

The Consortium of Universities of the Washington Metropolitan Area consists of American University, The

Catholic University of America, Gallaudet University, The George Washington University, George Mason University, Georgetown University, Howard University, Marymount University, National Defense University, National Intelligence University, Trinity Washington University, Uniformed Services University of the Health Sciences, University of the District of Columbia and the University of Maryland College Park. Students enrolled in degree-seeking programs at these institutions are able to attend certain classes at the other campuses and have the credit considered as resident credit at their home institutions. The intention is to allow students to take an occasional course to augment a program rather than to develop an individual program. Payment of tuition for courses will be made to the student's home campus however, special fees may be assessed by the host institution. Comparable courses offered at University of Maryland may not be taken through the Consortium.

Currently registered, degree seeking University of Maryland students with at least junior standing may participate in the Consortium program according to the stipulations listed in the current edition of the Registration Guide. Enrollment in courses is available only on a space-available basis. Visiting students are expected to meet prerequisites or other criteria set by the host institution and comply with the host institution's registration procedures and deadlines.

Golden ID students are not eligible to enroll in courses through the Consortium with waiver of fees. Faculty and staff tuition remission programs (e.g. assistantships, fellowships, etc.) will not cover the cost of courses registered through the consortium program. University of Maryland students may only enroll in courses offered on the campus of the host institution. Students interested in additional information about the Consortium program should review the Office of the Registrar website at: <http://registrar.umd.edu/current/registration/consortium.html> or contact the Consortium Coordinator on the first floor of the Clarence M. Mitchell Jr. Building.

University System of Maryland Inter-Institutional Registration Program:

Currently registered, degree seeking University of Maryland College Park students have the opportunity to take courses at certain University System of Maryland Institutions to augment their degree program at University of Maryland under the Inter-Institutional Registration Program. The provisions for such are contained in the Board of Regents Policy on Student Concurrent Inter-Institutional Registration (BOR III 2.40;III 2.41) found at www.usmd.edu/regents/. Participating institutions include Bowie State University, Coppin State University, Frostburg State University, Salisbury University, Towson University, University of Baltimore, University of Maryland at Baltimore, University of Maryland, Baltimore County, University of Maryland College Park and University of Maryland Eastern Shore. University of Maryland College Park students may not enroll in courses at the University of Maryland University College through this program. Currently registered, degree seeking University of Maryland students with at least sophomore standing may enroll in courses for credit, and have that credit considered as resident credit at their home institution. Enrollment in courses is available only on a space available basis and visiting students are expected to meet prerequisites or other criteria set by the host institution. Payment of tuition for courses will be made to the student's home campus however special fees may be assessed by the host institution. Students interested in additional information about the Inter-Institutional Registration program should review the office of the Registrar website at: <http://registrar.umd.edu/current/registration/inter-institutional.html> or contact the Inter-institutional Coordinator on the first floor of the Clarence Mitchell Building.

Inter-Institutional Registration is only applicable for the Fall and Spring semesters.

Credit Hours and Maximum Semester Credits

No baccalaureate curriculum requires fewer than 120 semester hours. The semester hour, which is the unit of credit, is the equivalent of a subject pursued one period a week for one semester. Two or three hours of laboratory or field work are equivalent to one lecture or recitation period.

In order for undergraduate students to complete most curricula in four academic years, their semester load must range from 12 to 19 hours (30 to 36 hours each year) toward the degree. By policy, undergraduates may not exceed the following maximum credit loads without the prior approval of their Dean:

15 week semester: 20 credits (16 credits prior to the first day of classes)

6 week session: 8 credits

3 week session: 4 credits

Use of Email for Official Communication

The University has adopted email as the primary means for sending official communications to students.

Academic advisors, faculty, and campus administrative offices use email to convey important information and time-sensitive notices. All enrolled students are provided a University email address. Students are responsible for keeping their email address up to date or for forwarding email to another address. Changes of email address can be completed online at <http://registrar.umd.edu/current/index.html#online-transactions>. Failure to check email, errors in forwarding email, and returned email due to *mailbox full* or *user unknown* will not excuse a student from missing announcements or deadlines.

Identification Cards

The photo ID card is issued at the time the student first registers for classes. This card is to be used for the entire duration of enrollment. Additionally, students who have food service contracts will use this photo identification card to access these services. Contact Dining Services directly for further information.

The photo ID card can be used by students for admission to most athletic, social, and cultural events, to withdraw books from the libraries, and as a general form of identification on campus.

There is a \$20 charge for a replacement ID card in cases where the card is lost, stolen, has intentional damage (e.g. holes punched in the card, snapped in two, etc.), or the cardholder wishes to retake their photo. The replacement fee is waived in cases where the replacement is due to normal wear and tear (i.e. the bar code is no longer visible or the magnetic strip is non-functioning). A replacement ID card can be obtained from the Office of the Registrar, First Floor, Clarence M. Mitchell Jr. Building, Monday - Friday, 8am - 5pm.

It is the responsibility of the cardholder to keep their ID card safe and secure and to deactivate a lost or stolen ID card. You should immediately deactivate your ID card (<https://id-card.umd.edu/lost/user>) to prevent use by unauthorized individuals. The University assumes no responsibility for misuse of your card, or for charges to your accounts due to your ID card being lost or stolen.

Once deactivated, you must obtain a new ID card at the Office of the Registrar, First Floor, Clarence Mitchell Building, Monday - Friday, 8am - 5pm. The charge for a new ID card is \$20. A deactivated ID card cannot be reactivated.

For more information, visit <http://www.registrar.umd.edu/current/Policies/id-cards.html>.

Registering for Classes

Office of the Registrar
Clarence M. Mitchell Jr. Building, 301-314-8240
www.registrar.umd.edu

To attend classes at the University of Maryland, it is necessary to process an official registration. Specific registration dates and instructions are available on www.registrar.umd.edu.

Newly admitted students are required to attend an orientation session (see Chapter 3 for Orientation information). Advising and course registration are part of the orientation process. All newly admitted students must meet with an advisor prior to registration. Likewise, newly admitted freshmen and transfer students are required to provide proof of immunization for measles, rubella, mumps and tetanus/diphtheria. Additionally, Maryland law requires residence hall students to either provide proof of vaccination against meningococcal disease or seek an exemption from this requirement. For more information, see: <http://www.president.umd.edu/administration/policies/section-v-student-affairs/v-100h>.

Registration Process: Currently enrolled undergraduate students are invited to early registration by appointment. Students can register at, or any time after, their assigned registration appointment date and time. Registration appointments for the Fall semester begin in April, and appointments for the Spring semester begin in late October. Registration can be processed on Testudo (<http://www.testudo.umd.edu/>) or in person. Open registration follows early registration, and continues up to the first day of classes. During this time, students may process an original registration or make schedule adjustments. The schedule adjustment period begins on the first day of classes. All registration transactions, either on-line or in person, are final unless a student processes a cancellation of registration.

Registration information for Summer Term, Winter Term, Freshmen Connection, and Professional Programs may be found at www.oes.umd.edu.

Cancellation of Registration

Students who register and later decide not to attend the University must cancel their registration in writing with the Office of the Registrar prior to the official first day of classes. Failure to cancel registration will result in a financial obligation to the University of Maryland even if a student does not attend class. The University reserves the right to cancel registration for students who fail to meet their financial obligations.

Schedule Adjustment and Drop Period

Schedule Adjustment Period: Courses may be added, when space is available, during the schedule adjustment period, and will appear on the student's permanent record. Courses dropped during this period will not appear on the student's permanent record. The schedule adjustment period is the first 10 days of classes for the fall and spring semesters.

For the standard 6-week Summer Sessions I and II, the schedule adjustment period is typically the first 5 days of classes; for the Winter Session and the standard 3-week Summer sessions, the schedule adjustment period is the first day of classes. Complete information on schedule adjustment and drop period for Summer Session, Winter Session, Freshmen Connection, and Professional Programs may be found at www.oes.umd.edu.

Information on non-standard courses can be found at: <http://www.registrar.umd.edu/current/registration/non-standard.htm>

During the schedule adjustment period full-time undergraduates may drop or add courses, or change sections or credit level without financial penalty provided they remain full-time students (registered for 12 or more credits). See Penalties for Drops During Schedule Adjustment (<http://registrar.umd.edu/current/registration/ScheduleAdjustment.html>) for information and penalties associated with changing from full-time to part-time.

Part-time undergraduates (fewer than 12 credits) may also add, drop and change sections, as well as change credit level, but should consult the Penalties for Drops During Schedule Adjustment section (<http://registrar.umd.edu/current/registration/ScheduleAdjustment.html>) to avoid incurring additional charges.

Grading Method (including pass-fail) may be changed only during the schedule adjustment period.

After Schedule Adjustment

Courses may not be added without special permission of the department and the dean of the academic unit in which the student is enrolled.

All courses for which the student is enrolled shall remain as a part of the student's permanent record. The student's status shall be considered full-time if the number of credit hours enrolled at this time is 12 or more.

Drop Period

The drop period for undergraduate students will begin at the close of the schedule adjustment period and terminate at the end of the tenth week of classes for the fall and spring semesters. Consult the academic calendar at <http://registrar.umd.edu/deadlines.html> for dates.

Drops during this period will be recorded on the student's permanent record with a notation of W and will not be used in the computation of a student's cumulative grade point average. During this period a student may drop a maximum of four credits. However, if the course carries more than four credits, the student may drop the entire course, or in the case of a variable credit course, reduce the credit level by up to four credits.

Student ID Numbers

University of Maryland assigns all students a unique nine-digit university identification number (UID). The UID is the student identifier for most university transactions. Use of the social security number is limited to necessary business transactions or where it is required by law.

See <http://www.president.umd.edu/sites/president.umd.edu/files/documents/policies/VI-2600a.pdf> for the University of Maryland Policy on the Collection, Use and Protection of ID Numbers and a list of currently approved uses.

Undergraduate Credit for Graduate Level Courses

Subject to requirements determined by the graduate faculty of the department or program offering the course, undergraduate degree-seeking students may register for graduate-level courses, i.e., those numbered from 600 to 898, with the exception of 799, for undergraduate credit. The student must obtain the prior approval of the department and instructor offering the course.

Students eligible for this option normally will have achieved Junior standing, will have a GPA of at least 3.0, and will have successfully completed the prerequisite courses with a grade of "B-" or better.

Enrollment in a graduate-level course does not in any way imply subsequent departmental or graduate school approval for admission into a graduate program, nor may the course be used as credit for a graduate degree at the University of Maryland.

Veterans Benefits

Students attending the university under the Veterans Education Assistance Act (Title 38, U.S. Code) may receive assistance and enrollment certification at the Office of the Registrar, 1113 Clarence M. Mitchell Jr. Building. Consult www.registrar.umd.edu/veteran-benefits.html for more information.

Withdrawal and Leave of Absence

Students admitted to the University of Maryland are expected to make regular and consistent progress towards the completion of their degree. However, the University understands that in exceptional circumstances a student may find it necessary to completely withdraw from all classes. The University considers such an interruption to be very serious as it delays normal progress towards the degree. Students should not withdraw for frivolous reasons or to avoid the consequences of ignoring their academic responsibilities. Any student considering withdrawal is strongly encouraged to meet with his or her academic college advisor before leaving the University.

Potential Implications: Withdrawing or taking a leave of absence from the University may have serious implications for international students, students receiving financial aid or students residing in on-campus housing. Students are advised to contact the appropriate offices before finalizing withdrawal or leave of absence plans.

Student Financial Services Office, 1135 Lee Building, 301-314-9000
Department of Resident Life, 2100 Annapolis Hall, 301-314-2100
Office of International Services, 2111 Holzapfel Hall, 301-314-7740

Withdrawal: A withdrawal is available anytime between the first and last day of classes. Students must submit written notice of withdrawal to the Office of the Registrar no later than the last day of classes. In exceptional cases, a retroactive withdrawal may be granted based on documented requests in which extenuating circumstances significantly impaired the student's ability to complete the semester and officially withdraw by the established semester deadlines. Such circumstances include, but are not limited to, medical or psychological causes. A student's return to the University is contingent upon the conditions outlined in *Return to the University* below.

Leave of Absence: A leave of absence is a type of withdrawal and is available for students wishing to take time away from the University with the intention of returning the following semester. The leave of absence status is especially helpful for recipients of federal financial aid because they are not considered to be withdrawn provided they do return and complete the following semester. Students may apply for a leave of absence only during the last 60 days of the semester. A student's return to the University is contingent upon the conditions outlined in *Return to the University* below.

Return to the University: Normally, a student may withdraw or take a leave of absence from the University only once during matriculation as an undergraduate. Students who find it necessary to leave the University are required to petition the Faculty Review Board in order to return. Students who have earned a minimum 2.0 cumulative GPA, with no previous withdrawal or leave of absence, are exempt from this requirement. Students who withdraw or take a leave of absence while on academic probation, or those returning from dismissal, are always required to petition the Faculty Review Board. For information on returning to the university, please see www.studentsuccess.umd.edu.

Additional Withdrawal/Leave of Absence Information: The effective date of withdrawal or leave of absence for the purposes of refunds is the date that the notice is received by the Office of the Registrar. Notation of withdrawal/leave of absence and the effective date will be posted to the student's academic record. Instructors and college offices will be notified of all withdrawn students. The deadline date for submitting the withdrawal for each semester is the last day of classes. Students should contact the Student Success Office for reenrollment information.

The repeat policy will not apply to courses taken during the academic semester from which the student is

officially withdrawn.

Military Call-ups: It is the intent of the University of Maryland, College Park, to facilitate the withdrawal or change in registration and the reenrollment of students who are called to active military duty during the semester. The student (or a representative) should take a copy of the military orders to the Office of the Registrar and process a withdrawal or change in registration papers. Detailed information about this process may be obtained from the Office of the Registrar. Withdrawal for active military service will have no effect on any subsequent request to withdraw from the University.

Transfer Credit

Acceptability of Undergraduate Transfer Credits

Generally, college-level courses completed at regionally-accredited institutions will be acceptable and awarded transfer credit, provided the course is similar in level, scope, content and expected learning outcomes to courses offered at the University of Maryland and a grade of "C-" or higher is earned. Regional accrediting bodies include: Middle States Association of Colleges and Schools; New England Association of Schools and Colleges; North Central Association of Colleges and Schools; Northwest Association of Schools and Colleges; Southern Association of Colleges and Schools; and Western Association of Schools and Colleges. The University of Maryland does not award transfer credit for internship, externship, practicum, or co-op work experiences that are not supervised by University of Maryland faculty. In addition, transfer credit is not awarded for these types of experiences completed through other institutions.

The Office of the Registrar at the University of Maryland posts all transfer courses to a student's academic record from regionally-accredited institutions of higher education in the United States and international institutions recognized by the country's Ministry of Education. Only transfer courses that are acceptable and awarded credit by the University of Maryland will be noted on the student's official transcript. The notation will include the course title and number of credits awarded; the grade for a course is not included. Grades from transfer courses are not included in the University of Maryland grade point average calculation.

Transfer courses from non-regionally accredited institutions in the United States will be reviewed for acceptability on an individual basis at the request of the student. Only transfer courses that have been determined to be acceptable for transfer to the University of Maryland will be posted to the students' academic record. For a course to be deemed acceptable for transfer, the course must be similar in level, scope, content and expected learning outcomes to courses offered at the University of Maryland. Transfer courses from international institutions that are not recognized by the country's Ministry of Education are not accepted for transfer and will not be awarded credit by the University of Maryland.

Transfer courses completed at public institutions of higher education in the State of Maryland, in accordance to MHEC (Maryland Higher Education Commission) policy 13B.06.01.05 (www.dsd.state.md.us/comar/subtitle_chapters/13B_Chapters.aspx), are acceptable for transfer with a grade of "D-" (as of Fall 2012) or higher. The transfer course must be similar in level, scope, content and expected learning outcomes to courses offered at the University of Maryland. In addition, the University of Maryland has direct articulation transfer programs (www.artsys.usmd.edu/) with all Maryland public community colleges. An articulated transfer program is a list of courses that best prepares applicants for a particular program of study at the University of Maryland. *It is important to note that as per University of Maryland academic policies, the minimum grade required to satisfy a degree requirement may be higher than the minimum grade to be awarded transfer credit.*

Transfer of General Education Requirements from Maryland Public Institutions

As directed by the MHEC Policy (13B.06.01.04), transferable courses taken in fulfillment of general education requirements at a Maryland public institution will be applied toward University of Maryland's general education requirements. Careful planning with an academic advisor will ensure that students take appropriate credit and maximize their credit transfer. The total number of general education credits for a Maryland public institution transfer or post baccalaureate credits will not exceed that required of native students.

- A student transferring from a Maryland public community college with an earned associate's degree has completed general education at the University of Maryland, except for any upper-level requirements and the number of credits required to complete general education (40 credits for GenEd or 43 credits for CORE). An official transcript from the transfer institution must be received by the University of Maryland with a notation the associate's degree was awarded.
- A student who has completed the general education program at a Maryland public community college

has completed general education at the University of Maryland, except for any upper-level requirements and the number of credits required to complete general education (40 credits for GenEd or 43 credits for CORE). The transfer institution must provide documentation on or with the student's official transcript stating the student has completed the general education program.

- A student who earned a baccalaureate degree from the University of Maryland and is pursuing a second degree has completed all general education for the University of Maryland.
- A student who has earned a baccalaureate degree at a Maryland public four-year institution has completed all general education at the University of Maryland. An official transcript from the transfer institution must be received by the University of Maryland with a notation the baccalaureate degree was awarded.
- A student who has completed the general education program at a Maryland public four-year institution has completed all general education at the University of Maryland. The transfer institution must provide documentation on or with the student's official transcript stating the student has completed the general education program.

Transfer of General Education Requirements from Non-Maryland Public Institutions

Students transferring from non-Maryland public institutions are required to complete all general education requirements at the University of Maryland with the following exceptions:

- A student who has earned a baccalaureate degree from a regionally accredited institution in the United States has completed all general education at the University of Maryland. An official transcript from the transfer institution must be received by the University of Maryland with a notation the baccalaureate degree was awarded.
- A student who has earned a baccalaureate degree from an international institution that is recognized by that country's ministry of education and the degree has been determined to be equivalent to a baccalaureate degree in the United States has completed all general education at the University of Maryland. An official transcript from the transfer institution must be received by the University of Maryland with a notation the baccalaureate degree was awarded.

Transfer Credit Services

Transfer Credit Services (TCS) is a division of the Office of the Registrar at the University of Maryland. TCS oversees course subject matter to determine the acceptability and awarding of transfer credit for the University; and consults with the academic departments for course clarifications and guidance. This review is based on a comparison of the transfer course to courses offered for degree programs at the University of Maryland.

A course that is accepted for transfer to the University of Maryland will receive one of the following types of evaluations:

- direct equivalency to a University of Maryland course (whether within or outside of the major),
- no direct equivalency, but satisfies general education requirement, or
- no direct equivalency, but is accepted as a general elective.

Students and advisors work together to decide how courses satisfy a student's degree program, while TCS provides information to the campus advising community on transfer course evaluations, credit reports and articulation through an online course equivalency database at www.transfercredit.umd.edu/tclookup.html.

For additional information about Transfer Credit Services, visit www.transfercredit.umd.edu.

Transfer Course Preliminary Evaluation

Admitted students can obtain access to their preliminary transfer credit evaluation starting approximately two weeks after the receipt of their admission letter. The preliminary evaluation can be reviewed via their University of Maryland unofficial transcript (www.testudo.umd.edu). An official review of transfer courses completed at institutions in the United States will occur automatically upon admission to the University. For courses that have not previously been evaluated or state NS (Needs Syllabus) on the student's unofficial transcript, the student needs to request the course be evaluated by following the steps for the Transfer Credit Evaluation Process (www.transfercredit.umd.edu/tceval.html). The student will need to provide a detailed syllabus to request a transfer course evaluation. Occasionally, additional information about a course may be required by the departmental evaluator to complete the evaluation. The evaluation of transfer credit is an ongoing process that may continue through the student's first semester at the University of Maryland or as updated transcripts for the student are received.

Students are responsible for submitting all official final transcripts detailing their entire academic record prior to matriculation to the University of Maryland. Credit will post to a student's University of Maryland record only from official transcripts received from the institution at which the credits were earned.

An academic advisor in the student's advising college will review and determine the applicability of the already evaluated courses during orientation. It is important for admitted students to continually monitor their unofficial transcript for updates and to consult with their advisor when updates occur.

Transfer Credit Conversion to Semester System

The University of Maryland operates on a semester calendar system. Transfer courses taken at institutions on quarter, unit or other types of calendar systems will be converted to semester credit hours. For transfer courses taken on a quarter calendar system, the University awards .67 semester credits per quarter credit hour of study. For transfer courses taken on a unit or other type of credit system, the University bases the number of semester credit hours on the number of units required to earn a degree from the institution. It is important to note the University of Maryland does not round transfer credits up or down to the nearest whole number.

Applicability of Transfer Courses to Degree Requirements

Once a course has been approved as acceptable for transfer to the University of Maryland, the advising college in which the student is enrolled determines which transfer courses are applicable to the student's degree program. In cases when a student is majoring within more than one advising college, the primary advising college is responsible for determining applicability of transfer courses in collaboration with the secondary advising college.

It is imperative that the advising college makes note of the required semester hours for the degree the student is pursuing. In addition, students should be warned that changing their major could impact the number of transfer credits that may be applied to their degree requirements. If a student changes the degree they are pursuing, the advising college will need to reevaluate the applicability of the transfer credits and adjust accordingly to ensure the most appropriate transfer courses are being applied toward the degree requirements.

The University of Maryland requires a *minimum of 120 semester hours* have been earned to award a baccalaureate degree. In general, the maximum number of transfer credits applicable toward degree requirements at the University of Maryland is as follows:

- No more than **60 transfer credits** may be applied toward degree requirements from a **2-year institution**.
- No more than **90 transfer credits** may be applied toward degree requirements from:
 - a) a **4-year institution or any combination of 4-year institutions**.
 - b) a combination of **2-year institutions, 4-year institutions and prior learning credits**.

Regardless of the total number of semester hours required for a degree program, all candidates for undergraduate degrees from the University of Maryland must complete a minimum of 30 credits in residence at the University.

Prior Learning Credit

For information about Prior Learning Credit, please see Chapter 4 – Prior Learning Credit – AP, IB, A-Level/AS-Level, CLEP, BMT, Credit-by-Exam.

Permission to Enroll at Another Institution

Obtaining Permission to Enroll at Another Institution (Transfer Credit)

Undergraduate students already enrolled at the University of Maryland must obtain permission prior to taking courses at another institution using the following forms:

- *Permission to Enroll at Another Institution* (PTE) form must be submitted to, and approved by, the advising college prior to enrolling at another U.S. institution. This form is available online at <http://www.registrar.umd.edu/petitions-forms/PermissionToEnroll.html> or in the student's advising college office.
- *Permission to Study Abroad* (PSA) form must be submitted to, and approved by, the advising college prior to enrolling at an International Institution. This form is available through the Education Abroad office (<http://globalmaryland.umd.edu/offices/education-abroad>).

This permission is required for courses taken away from the University of Maryland in all semesters, summer and winter term. Failure to obtain permission prior to enrolling in course(s) away from the University of Maryland may result in the course not being accepted for transfer by the university and/or

applied to degree requirements.

Upon completion of the course(s), the student must request an official sealed transcript be sent from the institution they attended to the University of Maryland.

The student and advisor will work together to decide how the transfer course(s) are applicable to the student's degree program. The title of course, term in which the course was taken and the number of transfer credits awarded will be noted on the student's official transcript; but the grade earned will not be displayed. Grades from transferred courses are not included in the University of Maryland grade point average calculation.

Questions regarding Courses Taken at Another Institution (Transfer Credit) should be directed to the student's advising college: www.transfercredit.umd.edu/advcollege.html.

Courses Taken at Other University of Maryland Institutions

For students who began their attendance at the University of Maryland in Fall 1989 or later, all course work taken at any University System of Maryland institution will be posted as transfer credit. For all students who attended the University of Maryland prior to Fall 1989, courses taken at another University System of Maryland institution (UMBC, UMAB, UMES, UMUC) prior to Fall 1989 will be included in the cumulative GPA. Courses taken at any other institution may not be credited toward a degree without advance approval.

For information about Consortium or Inter-Institutional Programs, please see Chapter 4 – Registration, Courses at Other Institutions.

5. General Education Requirements

General Education Program and Requirements

General Education Program and Requirements

Office of the Associate Provost and Dean for Undergraduate Studies

2100 Marie Mount Hall, 301-405-9363

Contact: Douglas Roberts, Associate Dean for General Education

www.gened.umd.edu

gened@umd.edu

New freshmen for fall 2012 and after will follow the General Education@UMD Program: www.gened.umd.edu. Students enrolled at the university prior to fall 2012 will be under the CORE Program: www.ugst.umd.edu/core. Transfer and other students should check the General Education Program: Effective Dates information below.

General Education Program: Effective Dates

Students matriculating to the University of Maryland (including freshmen and students transferring from private institutions and from non-Maryland public institutions) beginning in fall 2012 will be subject to the University's General Education Program requirements www.gened.umd.edu, except as provided below:*

1. The University of Maryland, College Park requires students to complete a minimum of 40 credits of general education. Students transferring to the University who have completed their general education requirements at another Maryland public institution of higher education will be considered to have completed their general education requirements with the exception of an upper-level writing course and any additional credits necessary to complete the minimum number of general education credits.
 2. Students transferring to the University from another Maryland public institution of higher education who have not completed their general education requirements at another Maryland public institution of higher education will be treated as follows:
 - a. Students who matriculate to college beginning in fall 2012 and thereafter will be subject to the new General Education Program requirements upon transfer to the University of Maryland.
 - b. Students who matriculate to college prior to fall 2012 but transfer to the University of Maryland prior to fall 2016 will be subject to the CORE general education requirements (www.ugst.umd.edu/core).
 - c. Students who transfer to the University of Maryland beginning in fall 2016 and thereafter will be subject to the General Education Program requirements, regardless of the date of their matriculation at another Maryland public institution of higher education following award of the high school diploma.
 3. Students returning or transferring to College Park after a separation from
-

college of five or more continuous years must follow the requirements in effect at the time of reentry. Students who matriculate to the University with a bachelor's degree from any regionally accredited college or university will be considered to have satisfied the University's general education requirements, regardless of when the degree was received.

*For purposes of this transfer policy, matriculation means to be admitted to college and enrolled in classes following award of the high school diploma.

General Education at the University of Maryland

Through the General Education program you will discover that education at the University of Maryland is an experience that reaches from the campus classroom and lab to across the globe. As a student you will engage with that larger universe by acquiring new skills and understandings. General Education exposes you to different disciplines, improves your fundamental academic skills, and strengthens your commitment to using knowledge and abilities to better yourself and others.

The General Education program will assist you in preparing for a new "multiverse" of learning, and for the demanding and constantly changing world beyond graduation. It provides necessary skills and basic knowledge, complements and expands the university's course offerings, and connects you more fully to the intellectual community of the Washington-Baltimore metropolitan area, the nation, and the world beyond.

General Education program goals for all students:

- Develop the skills necessary to succeed in academic careers and in professional lives by establishing habits and understanding of clear writing, effective speaking and presentation, and critical and analytic reasoning.
- Strengthen knowledge in major areas of study.
- Broaden knowledge of civilizations past and present.
- Establish the ability to thrive both intellectually and materially and to support themselves, their families, and their communities through a broad understanding of the world in which they live and work.
- Define the ethical imperatives necessary to create a just society in their own communities and in the larger world.

IMPORTANT NOTES: General Education courses:

- **MUST** be selected from the courses coded as meeting General Education requirements. See list of approved General Education courses at Testudo: <https://ntst.umd.edu/soc/>. Click on the General Education list for the term you wish to explore.
- **MAY** also be used to satisfy college, major, and/or supporting area requirements
- **MAY NOT** be taken on a Pass-Fail basis.

Elements of the GENERAL EDUCATION@UMD PROGRAM

Fundamental Studies

Master the skills. (5 courses, 15 credits)

- Mathematics
- Analytic Reasoning
- Academic Writing
- Professional Writing
- Oral Communication

Mathematics: The goal of the Mathematics requirement is to convey the power of mathematics, demonstrated by the variety of problems that can be modeled and solved by quantitative means. Ability in mathematics is a critical measure of how well students are prepared to meet the challenges they will face in their lives beyond school. *Must be attempted by 30 credits and successfully completed by 60 credits.**

Analytic Reasoning: Courses in Analytic Reasoning foster a student's ability to use mathematical or formal methods or structured protocols and patterns of reasoning to examine problems or issues by evaluating evidence, examining proofs, analyzing relationships between variables, developing arguments, and drawing conclusions appropriately.

If a student passes an Analytical Reasoning course that requires Fundamental Studies Math as a prerequisite, the Math requirement has also been fulfilled.

Academic Writing: The Fundamental Studies Academic Writing requirement prepares students with a foundational understanding of the writing skills needed for success in further studies at Maryland and beyond. *Must be attempted by 30 credits and successfully completed by 60 credits.**

Professional Writing: The Fundamental Studies Professional Writing requirement strengthens writing skills and prepares students for the range of writing expected of them after graduation.

Oral Communication: Human relationships, from the most formal to the most personal, rest in large measure on skilled listening and effective speaking. Skillful listening and speaking support success in personal relationships, educational undertakings, professional advancement, and civic engagement.

** No exemption is allowed for SAT scores. Scores on AP and IB exams may provide exemption. Refer to the 2012-13 [Undergraduate Catalog](http://www.umd.edu/catalog/index.cfm) for exemption information: <http://www.umd.edu/catalog/index.cfm>*

Distributive Studies

Experience a variety of disciplines. (8 courses, 25 credits)

- Natural Sciences
- History and Social Sciences
- Humanities
- Scholarship in Practice

The Program has three additional categories that may be taken on their own or, through double-counting, may be rolled up into the Distributive Studies categories. Two of these comprise the Diversity requirement: Understanding Plural Societies and Cultural Competence. The third is the I-Series program which offers students two courses that deal with major issues. With double-counting, students

will have a minimum of 40 credits in General Education.

Natural Sciences courses introduce the concepts and methods of studying the natural world. Courses include the traditional physical and life sciences, environmental science, animal and avian science, and plant science, among others. *One of the two courses selected must include a substantial, rigorous laboratory experience.*

History and Social Science courses introduce students to history and to the social science disciplines, with their combination of qualitative and quantitative methods. They include courses in criminology, economics, history, psychology, sociology, and other social sciences.

Humanities courses study the history and the genres of human creativity. They include courses in literatures in any language, art and art history, classics, and music and music history, as well as in the disciplines of linguistics and philosophy, among others.

Scholarship in Practice courses engage students in applying a body of knowledge to create professional products or works of art. Architecture, business, education, engineering, and journalism offer courses that lead to products such as architectural designs, new technologies, innovative publications, new computer software, business plans, advertising campaigns, educational curricula, and bioengineering. Creative and artistic performance courses lead students to produce writing portfolios, plays, operas, dance productions, art exhibits, and creative media. Scholarship in Practice also includes courses that combine competency in speaking, writing, and translation in a foreign language. *One of the two Scholarship in Practice courses selected must be outside the student's major requirements.*

To fulfill the Distributive Studies requirement:

- Students must complete two courses in each of the four Distributive Studies areas for a total of eight courses in Distributive Studies. One of the courses in the Natural Sciences must include a laboratory experience.
- Two of the eight courses must be I-Series courses. I-Series courses double-count with Distributive Studies. AP credit may not be used to satisfy the I-Series requirement.
- AP credit for Distributive Studies is limited to six of the eight courses.
- One of the two Scholarship in Practice courses must be outside the major requirements.
- Coursework within one's major is permitted to satisfy both the major and general education requirements.
- A Diversity requirement may be fulfilled by a course that is approved for both a Diversity category and for a Distributive Studies category.

Diversity

Explore human, social, and cultural differences. (2 courses, 4-6 credits that normally double-count with Distributive Studies)

- Understanding Plural Societies
 - Cultural Competence
-

To fulfill the Diversity requirement:

- Students must complete two Understanding Plural Societies courses (6 credits total)
OR
- One Understanding Plural Societies course (3 credits) and one Cultural Competence course (1-3 credits).

Courses fulfilling the Diversity requirement may double-count in an approved Distributive Studies category.

Students will not be able to fulfill Understanding Plural Societies and/or Cultural Competence by a study abroad experience unless the study abroad course carries that specific designation.

I-Series

Choose from a unique suite of courses that form the cornerstone of Distributive Studies. (2 courses, 6 credits that double-count with Distributive Studies)

The I-Series is the signature program of General Education at the University of Maryland. I-Series courses are lively and contemporary. They speak to important issues that spark the imagination, demand intellect, and inspire innovation. They challenge students to wrestle with big questions, and examine the ways that different disciplines address them. I-Series courses are not surveys of particular fields of knowledge. Instead, I-Series courses provide students with the basic concepts, approaches, and vocabulary of particular disciplines and fields of study as well as an understanding of how experts in those disciplines and fields employ terms, concepts, and approaches. Visit www.iseries.umd.edu for all the details and course offerings.

- To view the General Education Requirement Checklist, see: <http://www.gened.umd.edu/documents/GenEdChecklist.pdf>
- To view Frequently Asked Questions, see: <http://www.gened.umd.edu/faqs-gened.php>
- To obtain a General Education@UMD Academic Planner and Record Keeper, visit your college advising office, or the Office of Undergraduate Studies (2110 Marie Mount Hall).

CORE Program Requirements

Office of the Associate Provost and Dean for Undergraduate Studies

2100 Marie Mount Hall, 301-405-9363

Contact: Douglas Roberts, Associate Dean for General Education

www.ugst.umd.edu/core

IMPORTANT: See “General Education Program: Effective Dates” above to determine whether you are under the CORE Program Requirements or the General Education Program Requirements.

- To view Learning Outcome Goals for the CORE Program see: www.ugst.umd.edu/core/LearningOutcome.htm
- To view the CORE Program Requirements Outline:

www.ugst.umd.edu/core/core_req.html

- To obtain a CORE Academic Planner and Record Keeper, visit your college advising office, or the Office of Undergraduate Studies, 2110 Marie Mount Hall.

CORE Program Elements

1. **Fundamental Studies** build competence and confidence in basic writing and mathematics. Mastery of these basics enhances success both during and after college. Students begin fulfilling Fundamental Studies requirements in their first year at the University. www.ugst.umd.edu/core/elements/FundaSt.html

2. **Distributive Studies** focus on breadth, including courses in the following categories: Literature; The History or Theory of the Arts; Humanities; Physical Sciences; Life Sciences; Mathematics and Formal Reasoning; Social or Political History; Behavioral and Social Sciences; and Interdisciplinary and Emerging Issues. Students generally pursue Distributive Studies in the first two years of their course work. www.ugst.umd.edu/core/elements/DistrSt.html

3. **Advanced Studies** allow students to enhance their degree and strengthen their critical thinking and writing skills by taking two upper-level courses outside their major after 60 credits. Students may substitute an approved CORE Capstone course in their major or a senior or honors thesis for one of these two courses. www.ugst.umd.edu/core/elements/AdvanSt.html

4. **Human Cultural Diversity** gives students the opportunity to examine their ideas and values in the light of various cultural, intellectual, and social contexts. Diversity courses increase knowledge of what constitutes difference and increase students' ability to learn from and appreciate people, cultures, ideas, and art forms that are often different from those they know best. Students may complete the Cultural Diversity requirement at any time before graduation. www.ugst.umd.edu/core/elements/Diversity.html

IMPORTANT NOTES: Fundamental and Distributive Studies courses:

- MUST be selected from the approved CORE course lists to count toward CORE requirements. At www.ugst.umd.edu/core, click on "What are the CORE Courses?" for links to the current lists of approved courses in each CORE category.
- MAY also be used to satisfy college, major, and/or supporting area requirements if the courses also appear on CORE Fundamental or Distributive Studies lists.
- CORE courses MAY NOT be taken on a Pass-Fail basis.

I. CORE Fundamental Studies

Three Courses (9 credits) Required

1. One course in Academic Writing (Must be attempted within the first 30 credits; must be passed within the first 60 credits.) See:

<http://www.english.umd.edu/academics/academicwriting>

- Approved CORE Academic Writing Courses:
ENGL101 Academic Writing
-

ENGL101A Academic Writing (Must be taken if student has TSWE [SAT verbal subtest] score below 33)

ENGL101H Academic Writing (Honors Students)

ENGL101X Academic Writing (Students for whom English is a second language may register for ENGL101X instead of ENGL101.)

- Note: Based on scores from either the TOEFL or MEIP, students may be required to complete a program of English language instruction for non-native speakers through the MEI before being allowed to register for ENGL101X.

Exemptions from Academic Writing requirement (**CORE Program Only**):

- AP English Language and Composition test score of 4 or 5, OR
- SAT verbal score 670 or above for scores achieved between May 1995 and February 2005. (In April 1995, the Educational Testing Service re-centered the scores on the SAT. Students whose test scores are from before April 1995 must have received a score of 600 or above to be exempt from Academic Writing. This re-centering does not reflect a raising of the requirement for exemption, but a change in the scoring system used by ETS.
- In March 2005, ETS began the use of a new SAT test for writing. Information about exemption in connection with SAT tests taken after March 2005 will be available at www.english.umd.edu/fw-program-general/fwp-exemptions/.
- Beginning in fall 2012, students under the new General Education program will not be exempted from the Academic Writing requirement based on SAT scores.

2. One course in Mathematics (Must be attempted within the first 30 credits; must be passed within the first 60 credits.) See

www.ugst.umd.edu/core/courses/Fundamental/FundaSt-math.html

Approved CORE Fundamental Studies Mathematics Courses:

MATH110 Elementary Mathematical Models; OR

MATH112 College Algebra with Applications and Trigonometry; OR

MATH113 College Algebra with Applications; OR

MATH115 Pre-calculus; OR

Any 100- or 200-level MATH or STAT course except MATH199, 210, 211, 212, 213, 214, and 274.

Exemptions from Mathematics requirement (**CORE Program Only**):

- SAT Math score of 600 or above; OR
- AP score of 4 or above in Calculus AB or BC; OR
- AP score of 4 or above in Statistics; OR
- CLEP Calculus Exam score of 50 or higher.
- Beginning in fall 2012, students under the new General Education program will not be exempted from the Mathematics requirement based on SAT scores.

Note: If you are placed in the Developmental Math Program by the Mathematics Placement Exam, you may be offered the opportunity to combine your Developmental course with the appropriate subsequent course of MATH110, 111, 113, or 115 and thus finish both in one semester. For further information, please see the Developmental Math Program web site:

www.math.umd.edu/undergraduate/courses/fsm.html

3. One course in Professional Writing (taken after 60 credits).

www.ugst.umd.edu/core/courses/Fundamental/Funda-St-professional.html

Approved CORE Professional Writing Courses:

ENGL390 Science Writing

ENGL391 Advanced Composition

ENGL392 Legal Writing

ENGL393 Technical Writing

ENGL394 Business Writing

ENGL395 Writing for Health Professions

ENGL398 Topics in Professional Writing

Suffixed versions of the above course numbers also fulfill the CORE Professional Writing requirement.

Exemption from Professional Writing Requirement (CORE Program Only):

- Grade of "A" in ENGL101 (NOT ENGL101A or ENGL101X), except for students majoring in Engineering. All Engineering majors must take ENGL393.
- Beginning in fall 2012, students under the new General Education program will not be exempted from the Professional Writing requirement based on a grade of "A" in ENGL101.

Note: No exemption from the Professional Writing requirement will be granted for achievement on SAT verbal exam. Professional Writing courses cannot be used to fulfill Advanced Studies requirements.

II. CORE Distributive Studies

Nine Courses (28 credits) Required

See the listings of approved CORE courses in the online Schedule of Classes at <https://ntst.umd.edu/soc/>

1. Humanities and the Arts-three courses required

- One course from Literature (HL), **and**
- One course from The History or Theory of the Arts (HA), **and**
- One more course from Literature (HL), OR The History or Theory of the Arts (HA), OR Humanities (HO).

Note: There is no specific CORE requirement for a Humanities (HO) course.

2. The Sciences and Mathematics - three courses required:

- Up to two courses from Physical Sciences (PL/PS)
- Up to two courses from Life Sciences (LL/LS)
- Up to one course from Mathematics and Formal Reasoning (MS)

Notes: At least one science course MUST include or be accompanied by a lab taken in the same semester (LL or PL only). More than one lab course may be taken.

Courses must be taken from at least two of the three categories. There is no specific CORE requirement for a Mathematics and Formal Reasoning (MS) course. At least two life and/or physical science courses must be taken (PL, PS, LL, and LS).

The third Sciences and Mathematics course may be another science selection or may be chosen from Mathematics and Formal Reasoning (MS) courses.

3. Social Sciences and History-three courses required:

- One course from Social or Political History (SH) **and**
- Two courses from Behavioral and Social Sciences (SB)

4. Interdisciplinary and Emerging Issues (CORE CODE: IE)

OPTIONAL CORE DISTRIBUTIVE STUDIES CATEGORY EFFECTIVE BEGINNING FALL 2005

Details at: <http://www.ugst.umd.edu/core/elements/DistrSt.html#IE>

- IE is an optional CORE distributive studies category; Students may fulfill CORE requirements without taking an IE course.
- Only one IE course may be counted toward fulfilling CORE Distributive Studies requirements.
- Whether a student takes an IE course or not, total CORE Distributive Studies course and credit requirements remain the same: at least 9 courses and 28 credits.

III. CORE Advanced Studies

Two Courses (6 credits) Required

Students may choose their two Advanced Studies courses from a wide range of upper-level offerings outside their majors. Good choices include courses that mesh with or expand educational goals or other interests, increase knowledge, and strengthen critical thinking and writing skills.

CORE Advanced Studies Requirement: Two upper-level (300- or 400-level) courses outside the major taken after 60 credits. Students may substitute a CORE approved senior capstone course in their major or a senior or honors thesis for one of the two required Advanced Studies courses. Enrollment in CORE Capstone courses will be subject to departmental guidelines. The other course must be outside the major. Students completing double majors or double degrees will have fulfilled the campus Advanced Studies requirement, unless their primary major or college has additional requirements. The student's academic college determines whether or not a course is "outside the major" for the purpose of fulfilling CORE Advanced Studies.

The following may NOT be used to fulfill Advanced Studies requirements:

- Professional Writing courses (courses that meet the Fundamental Studies upper-level writing requirement);
- courses used to meet Distributive Studies requirements;
- internships, practica, or other experiential learning types of courses;
- courses taken on a pass/fail basis.

One independent studies course (minimum of three credits, outside the major) may be used toward Advanced Studies requirements as long as it is consistent with the rules above and the faculty member supervising the independent study agrees that it is appropriate for Advanced Studies.

Notes: CORE Capstone courses must be taken within the major. A senior thesis (minimum of 3 credits) or successful completion and defense of an honors thesis in

either the Honors College or a Departmental Honors Program (minimum of 3 credits) counts as CORE Capstone credit.

See list of approved CORE Capstone courses at <https://ntst.umd.edu/soc/>

IV. CORE Human Cultural Diversity

One Course (3 credits) Required

See the CORE Diversity List in the online Schedule of Classes at

<https://ntst.umd.edu/soc/>

Cultural Diversity courses focus primarily on: (a) the history, status, treatment, or accomplishment of women or minority groups and subcultures; (b) non-Western culture, or (c) concepts and implications of diversity.

Note: A number of CORE Human Cultural Diversity courses also satisfy CORE Distributive Studies, Advanced Studies, or a college, major, and/or supporting area requirement.

Study Abroad and Satisfying CORE Requirements see:

<http://www.ugst.umd.edu/core/moreinfo/StudyAbroad.html>

6. The Colleges and Schools

COLLEGE OF AGRICULTURE AND NATURAL RESOURCES (AGNR)

0108 Symons Hall, 301-405-2078

agnr.umd.edu

hrobert1@umd.edu

Dean: Craig Beyrouty

Associate Dean(s): Adel Shirmohammadi

Assistant Dean(s): Evelyn E. Cooper and Daniel Kugler

The College of Agriculture and Natural Resources offers a variety of academic programs that apply science, management, design, and engineering to improve the world in which we live and work. Feeding the world's population, developing scientifically-based land use practices and policies, understanding animal and plant biology, improving nutrition and its effects on human health, conserving and restoring ecosystems, and profitably managing farms and agribusinesses in harmony with the environment are all vital concerns of the College. Integrating the use and protection of natural resources in the production of food and nursery crops is a challenge facing students.

In addition to course work, undergraduates have opportunities to work closely with faculty in state-of-the-art facilities including those for animal sciences, dietetics, environmental science and technology, landscape architecture, plant sciences, and veterinary medicine.

The College also serves as the academic home of the Maryland Campus of the Virginia-Maryland College of Veterinary Medicine. Nearby resources such as the U.S. Department of Agriculture's Beltsville Agricultural National Research Center, the National Institutes of Health, the Food and Drug Administration, the Smithsonian Institution and the National Zoo, Maryland's Departments of Agriculture and Natural Resources, and the Patuxent Wildlife Research Center enhance teaching, research, internship, and career opportunities for students. Field study courses offered in Azerbaijan, Brazil, Belize, Costa Rica, Italy, Peru, Russia, and Taiwan, and a study-abroad program in Angers, France expose students to other cultures and environments. Learning opportunities are also strengthened through student involvement in such co-curricular activities as the College Honors Program, AGNR Undergraduate Research Program, career programs, leadership workshops, and student clubs.

Special Advantages and Facilities

Educational opportunities in the College of Agriculture and Natural Resources are enhanced by the proximity of several research units of the federal government. Teaching and research activities in the College are conducted with the cooperation of scientists and professional people in government positions. Of particular interest are the National Agricultural Research Center at Beltsville, the National Agricultural Library, the National Arboretum, and the Food and Drug Administration.

Instruction in the basic biological and social sciences, and landscape design is conducted in modern, technologically-equipped classrooms and laboratories. The application of basic principles to practical situations is demonstrated for the student in numerous ways. In addition to on-campus facilities, the college operates several education and research facilities throughout Maryland. Horticultural and agronomic crops, turf, beef, horses, dairy cattle, and poultry are maintained under practical and research conditions and may be used by our students. These centers, as well as other selected locations on and off campus also serve as living laboratories for environmental studies.

Admission Requirements

It is recommended that students entering the College of Agriculture and Natural Resources have completed a high school preparatory course that includes: English, 4 units; mathematics, 3 units; biological and physical sciences, 3 units; and history or social sciences, 2 units.

Undergraduate Degree Requirements/Degree Options

Departments in the College of Agriculture and Natural Resources offer the following programs of study:

Agricultural and Resource Economics: Business Management; Agricultural Science; Environmental and Resource Policy; Food Production; International Agriculture; and Political Process

Animal Sciences: Animal Care and Management; Equine Studies; Laboratory Animal Care; Science/Pre-professional; and Animal Biotechnology

Combined Agriculture/Veterinary Medicine

Environmental Science and Policy: Environment & Agriculture, Environmental Economics, Environmental Restoration, Soil, Water, & Land Resources, and Wildlife Resources & Conservation

Environmental Science and Technology: Concentrations in Ecological Technology Design, Environmental Health, Soil and Watershed Science, or Natural Resources Management

Plant Sciences: Horticulture and Crop Production, Landscape Management, Plant Sciences, Turf and Golf Course Management, and Urban Forestry

Agricultural Sciences and Technology

Landscape Architecture

Nutrition and Food Science: Dietetics; Food Science; and Nutritional Science

Students graduating from the college must complete at least 120 credits with a grade point average of 2.0 in all courses applicable toward the degree. Requirements of the major and supporting areas are listed under individual program headings in the Departments, Majors and Programs section of this site.

Advising

Each student in the College is assigned a faculty advisor to assist in selecting courses, accessing academic enrichment opportunities, and making strategic career decisions. Advisors normally work with a limited number of students and are able to give individual guidance. Both freshmen entering with a definite choice of curriculum and transfer students are assigned to departmental advisors for counsel and planning of all academic programs as soon as possible. Students have access to additional advising through their home department's undergraduate program office and through the college's student services office. AGNR Peer Mentors, academically talented and university-engaged upperclassmen, provide an additional advising resource for students in the college.

Specifics of advisor assignment are available in the undergraduate office of each department.

Departments and Centers

Undergraduate credit instruction is offered by the Departments of Animal and Avian Sciences (ANSC), Agricultural and Resource Economics (AREC), Environmental Science and Technology (ENST), Nutrition and Food Science (NFSC), and Plant Science and Landscape Architecture (PSLA). Additionally, the Environmental Science and Policy (ENSP) major is based and administered within the College of Agriculture and Natural Resources; it offers specializations advised within this college as well the colleges of Behavioral and Social Sciences, Chemical, Mathematical and Natural Sciences. Also, the Agricultural Science and Technology major within PSLA offers students the opportunity to double major in Agriculture Education. Additional courses are provided through the 2-year certificate program in the Institute of Applied Agriculture.

Minors

Academic Minors provide students an opportunity to expand or complement their major by taking additional courses (15-24 credits) in a coherent field of study. Students interested in a minor should contact the undergraduate program office of the department offering the minor. Currently the following are approved minors (with the offering department in parentheses) in the college:

Agribusiness Economics (Agricultural and Resource Economics)

Environmental Economics and Policy (Agricultural and Resource Economics)

Resource and Agricultural Policy in Economic Development (Agricultural and Resource Economics)

Global Poverty (Agricultural and Resource Economics)

Landscape Management (Plant Science and Landscape Architecture)

Soil Science (Environmental Science and Technology)

Sustainability Studies (Environmental Science and Policy)

Living-Learning Programs

The college sponsors, through its Environmental Science and Policy Program, the Environment, Technology and Economy curriculum in College Park Scholars. Admission to College Park Scholars is selective and by invitation only. For further information, see Undergraduate Studies, College Park Scholars Program in the Colleges and Schools section of this site.

Specialized Academic Programs

The Institute of Applied Agriculture offers 60-credit certificate programs designed primarily for professional development. Options offered include Agribusiness Management, Equine Business Management, Golf Course Management, Golf Course Construction Management, Landscape Management, Ornamental Horticulture, Sports Turf Management, Sustainable Agriculture and Turfgrass Management. Some two-year program students continue on in regular four-year programs in the college and several of the college's majors allow limited use of Institute courses in their programs.

Pre-Veterinary Medicine

The College of Agriculture and Natural Resources is the most popular choice for students who wish to pursue veterinary medicine. Two excellent majors not to be missed are housed in the Department of Animal and Avian Sciences. The Agricultural and Veterinary Medicine major offers a student an accelerated academic path with all recommended courses for veterinary school and the opportunity to apply at the end of the junior year. The Sciences/Pre-Professional major offers a student a four year academic path with all recommended courses for veterinary school and the opportunity to apply upon receipt of the bachelor of science (B.S.) degree.

College Honors Program

Students may apply for admission to the College Honors program after completing 60 credits with a minimum 3.2 GPA in a program within the College. Honors students work with a faculty mentor and must take at least 12 credits of honors courses including a senior thesis. Interested students should contact their faculty advisor.

Approved Student Societies and Professional Organizations

Student participation in professional societies, clubs, and interest groups is extensive in the college, and students find opportunity for varied expression and growth in the following organizations:

AGNR Peer Mentors; AGNR Student Ambassadors; AGNR Student Council; Alpha Zeta; Alpha Gamma Rho; Animal and Avian Sciences Graduate Student Association; Block and Bridle; Collegiate 4-H; Food and Nutrition Club; Landscape Architecture Student Association; Natural Resources Management Society; Sigma Alpha; UM Equestrian Club; UM Food Science Club; UM Student Chapter of Golf Course Superintendents Association of America; Minorities in Agriculture and Natural Resources and Related Sciences (MANRRS) and Veterinary Science Club.

Financial Assistance

A number of scholarships are available for students enrolled in the College of Agriculture and Natural Resources. These include:

AGNR Alumni Association Scholarship; AGNR General Scholarship; Arthur M. Ahalt Memorial Scholarship; Attorney General's Agricultural and Natural Resources Scholarship; Professor John Axley Memorial Scholarship; Eileen Barnett Scholarship; Beltsville Garden Club Scholarship; Bruce and Donna Berlage Scholarship; Chester F. Bletch Endowment; Bowie-Crofton Garden Club Scholarship; Frank D. Brown Memorial Scholarship; Joseph Byrd Foundation Scholarship; Jonas and Joan Cash Student Award Scholarship; Chapel Valley Landscape Honorary Scholarship; George Earle Cook, Jr. Scholarship; Ernest T. Cullen Memorial Scholarship; Jaime Dannemann Scholarship; R.F. Davis Memorial Scholarship; Jerry V. DeBarthe Memorial Scholarship; William R. DeLauder Scholarship; Frank J. Duda Turfgrass Scholarship; Mylo S. Downey Memorial Scholarship; Equine Studies Scholarship; Explore AGNR Scholarship; James R. Ferguson Memorial Scholarship; Kenneth S. Fowler Memorial Endowed Scholarship; Thomas A. Fretz Agriculture and Natural Resources Scholarship; James & Sarah Goddard Memorial Scholarship; William D. Godwin Endowed Scholarship; Golf Course Builders of America Association Foundation Scholarship; Manasses J. & Susanna Jarboe Grove Scholarship; Tom Hartsock Animal Management Scholarship; H. Palmer Hopkins Scholarship established by Charles W. Coale, Jr. & Ellen Kirby Coale; Charles & Judy Lager Scholarship; Land Grant Scholarship; James & Gertrude Leamer Scholarship; Donald Leishear International Travel Scholarship; Lee Majeskie Dairy Youth Scholarship; Maryland Greenhouse Growers Association Scholarship; James R. & Patricia M. Miller Outstanding Senior Scholarship; John and Marjorie Moore International Agriculture & Natural Resources Student Travel Scholarship; James and Dessie Moxley Scholarship; Paul R. Poffenberger Memorial Scholarship; Jennifer Russo Memorial Scholarship; Ross & Pauline Smith Scholarship; J. Herbert Snyder Educational Scholarship; Southern States Cooperative Scholarship; Hiram I. Stine Memorial Scholarship; T.B. Symons Memorial Scholarship; TIC Gums Scholarship; Vansville Farmers Club Scholarship; A.V. Vierheller Scholarship; Siegfried Weisberger, Jr. Memorial Scholarship; Theo & Georgianna Miles Weiss Memorial Scholarship; and the William R. Winslow Scholarship.

The College is privileged to offer additional support in the form of interest-free loans through the Catherine Brinkley Loan Fund

which are available to students who are residents of Maryland and progressing in programs within the College of Agriculture and Natural Resources.

Awards

The Agriculture and Natural Resources Alumni Chapter provides recognition each year for the Outstanding Senior in the two-year and four-year programs.

Research Units

Maryland Agricultural Experiment Station

The Maryland Agricultural Experiment Station (MAES) supports research conducted primarily by 120 faculty scientists located within the College of Agriculture and Natural Resources. Faculty use state-of-the-art facilities such as a new Research Greenhouse Complex and Environmental Simulator, as well as 10 off-campus research locations, for research in the science, business, policy, and practice of agriculture. MAES supports research that benefits consumers and producers alike; for example, our significant focus on the environment protects valuable natural resources such as the Chesapeake Bay. Undergraduate students also benefit from mentoring by MAES-supported faculty and instructional use of MAES facilities statewide.

University of Maryland Extension

The University of Maryland Extension educates citizens in the application of practical, research-based knowledge to critical issues in agricultural and agribusiness including aquaculture; natural resources and the environment; human development, nutrition, diet, and health; youth development and 4-H; and family and community leadership. The statewide program includes more than 180 faculty and support staff located in 23 counties, the City of Baltimore, four regional centers, and the University of Maryland's College Park and Eastern Shore campuses. In addition, more than 15,000 volunteers and citizens in Maryland give generously of their time and energy.

Center for Food Safety and Security Systems (CFS³)

The **Center for Food Safety and Security Systems (CFS³)** provides world-class research, education and outreach on issues related to food and water defense, safety and protection. Housed in the Department of Nutrition and Food Science, this new center will provide additional opportunity for students to become involved in issues of significance for homeland security. For information on CFS³, please see <http://cfs3.umd.edu/> or call 301-405-0773.

Harry R. Hughes Center for Agro-Ecology, Inc.

The **Harry R. Hughes Center for Agro-Ecology, Inc.** is a private, non-profit 501 (c) 3 organization affiliated with the University of Maryland. The Center brings together diverse interests from the agricultural, forestry, and environmental communities for the purpose of retaining Maryland's working landscapes and the industries they support while protecting and improving the health of the Chesapeake Bay and its tributaries. For further information see <http://agresearch.umd.edu/agroecol> or call at 410-827-6202.

Joint Institute For Food Safety and Nutrition

The **Joint Institute For Food Safety and Nutrition (JIFSAN)**, established between the US FDA and the University of Maryland in 1996, is a jointly administered research and education program. For information on JIFSAN, see www.jifsan.umd.edu/ or call 301-405-8382.

Northeastern Regional Aquaculture Center

The **Northeastern Regional Aquaculture Center (NRAC)** is one of five Regional Aquaculture Centers established by the U. S. Congress for the United States. Funded by the USDA, and representing 12 states and the District of Columbia, NRAC develops and sponsors cooperative regional research and extension projects in support of the aquaculture industry in the northeastern United States. For further information see <https://agresearch.umd.edu/nrac> or call 301-405-6085.

Student Engagement and Service Units

Virginia-Maryland Regional College of Veterinary Medicine, Maryland Campus

College of Agriculture and Natural Resources

Dr. Nathaniel Tablante, Associate Director, Center for Public and Corporate Veterinary Medicine

1202 Gudelsky Veterinary Center, 301-314-6820

Email: nlt@umd.edu

<http://vetmed.umd.edu/>

The Virginia-Maryland Regional College of Veterinary Medicine is operated by the University of Maryland and the Virginia Polytechnic Institute and State University. Each year, 30 Maryland and 50 Virginia residents comprise the entering class of a four-year program leading to a Doctor of Veterinary Medicine (DVM).

The first three years are given at Virginia Polytechnic Institute and State University in Blacksburg, Virginia. The final year of instruction is given at several locations, including the University of Maryland, College Park.

A student desiring admission to the college must complete the pre-veterinary requirements and apply for admission to the professional curriculum. Admission to this program is competitive, and open to all Maryland residents. All Maryland residents' applications are processed at the College of Veterinary Medicine, Maryland Campus, University of Maryland, College Park.

Institute of Applied Agriculture (Two-Year Certificate Program)

College of Agriculture and Natural Resources

Glori Hyman, Director

2123 Jull Hall, 301-405-4685

E-mail: iaa@umd.edu

www.iaa.umd.edu

The Institute of Applied Agriculture (IAA) awards academic certificates in Agricultural Business Management, Golf Course Management, Golf Course Construction Management, Landscape Management, Ornamental Horticulture, Sports Turf Management, Sustainable Agriculture and Turfgrass Management. As a two-year program, the IAA has a separate admission policy. Upon completion of the program, students are welcome to transfer to the University of Maryland, College Park; University of Maryland University College; and other schools.

For more information about the IAA, its admissions procedures, and requirements, contact the Institute of Applied Agriculture, 2123 Jull Hall, University of Maryland, College Park, MD 20742-2525.

SCHOOL OF ARCHITECTURE, PLANNING AND PRESERVATION (ARCH)

1200 Architecture Building, 301-405-8000

www.arch.umd.edu

mappinfo@umd.edu

Dean: David Cronrath

Associate Dean(s): Donald Linebaugh, Gerrit Knaap

Assistant Dean(s): Ingrid Farrell

The undergraduate program in architecture develops critical thinkers, problem solvers and skilled professionals ready to take on the challenges of sustainable design. Our prime location between Washington, D.C., and Baltimore offers many advantages: a faculty of highly respected scholars and practitioners; alumni connections and careers at countless architectural firms; and rich architectural diversity. Begin your journey to a more sustainable and environmentally balanced world right here.

The first two years of the curriculum focus on developing a broad-based and well-rounded liberal education, complemented by courses that introduce you to architecture. You'll be exposed to the many resources and opportunities of the university while refining your academic and career interests. We offer you two degree options that are tailored to fit your particular academic and career interests. The **Bachelor of Science** curriculum is centered on design studios, with complementary coursework in architectural history, theory, technology and visual media. The studio courses offer unique experiences where you'll not only have the opportunity to show your design skills but also work with communities to help solve real-world problems.

One unique feature of the **Bachelor of Arts** program is your ability to pursue an academic path that reflect your passions and interests. It's not uncommon for students to discover that their interest in architecture reveals other career aspirations. Earning a bachelor of arts in architecture allows you to build a foundation in architecture while preparing for careers in business, urban planning, real estate development or historic preservation, just to name a few.

Students receive rigorous and comprehensive instruction from a faculty whose members are active in professional practice and research. Their individual areas of expertise include architectural design and theory, history, architectural archaeology, technology, urban design and planning, and historic preservation.

Special Advantages and Facilities

Accreditations

NAAB - In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted a 6-year, 3-year, or 2-year term of accreditation, depending on the extent of its conformance with established educational standards.

Doctor of Architecture and Master of Architecture degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree that, when earned sequentially, constitute an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

The University of Maryland's School of Architecture, Planning and Preservation offers the following NAAB-accredited degree programs:

- M.Arch (pre-professional degree + 60 graduate credits)
- M.Arch (non-pre-professional degree + 109 credits)

Facilities

The school is housed in a modern building providing design workstations for each student, a 300 seat auditorium, and seminar and classroom facilities. The Great Space, an atrium at the center of the School, is the location for collaborative projects, design reviews, critiques, and a variety of events that bring the architecture program together. Facilities include a well-equipped woodworking and model shop, computer labs, digital output and digital fabrication. The Architecture Library, one of the finest in the nation, offers convenient access to a current circulating collection of more than 34,000 volumes, 8,000 periodicals, and an extensive selection of reference materials. Rare books and special acquisitions include a collection relating to international expositions and the 11,000-volume National Trust for Historic Preservation Library.

Upper level summer programs include travel to Rome, Paris, Turkey, Great Britain, and other countries. Students may earn direct credit doing hands-on restoration work and by attending lectures by visiting architects, preservationists, and scholars. Undergraduate seniors and graduate students may also participate in a Studio Abroad in Florence: Live, study, and learn in the city where Architecture began. You'll take classes in Leon Battista Alberti's masterpiece, the Palazzo Rucellai, and attend studio in a newly renovated building on the banks of the Arno. In addition to learning in the classroom, you will have plenty of opportunity to visit museums, draw in piazzas, learn to speak Italian, and absorb the history of Italy while learning local customs.

Admission Requirements

<http://arch.umd.edu/arch/degree/bachelor-science-architecture> for admissions questions.

Freshman Admission. Students from high school gain admission to the Undergraduate Architecture Program through the University's Office of Undergraduate Admissions. Admitted freshmen have access to the necessary advising through their initial semesters to determine if architecture is an appropriate major for their interests and abilities.

Before a student enrolls in either the BA or BS during their third year of study, they must complete the Degree Placement Review Process. This will determine which degree program best fits their interests and talents, as well as, the duration of their studies until graduation. Students should complete the following courses as prerequisites before beginning their junior year:

- ARCH170 or 171, 225, 226, 200, and 300 with a grade of "C-"
- MATH120 or MATH220, PHYS121 and one natural science course with a minimum grade of "C-" in all three

Transfer Admission Requirements. Transfer students who wish to study Architecture must first gain admission to the University and concurrently submit for the Degree Placement Review Process if they wish to be considered for junior standing. Please see above for the requirements. Transfer applicants are strongly encouraged to apply by the priority deadline and should contact the Undergraduate Architecture Advisors as soon as possible at archadvise@umd.edu.

Undergraduate Degree Requirements/Degree Options

All students must complete the following courses in Architecture:

- ARCH171 – Design Thinking

- ARCH225 – Architectural World History I
- ARCH200 – Design Media I
- ARCH226 – Architectural World History II
- ARCH300 – Design Media II
- ARCH201 – Elements & Principles
- ARCH462 – Methods & Materials I
- ARCH400 – Architectural Design Studio I
- ARCH463 – Sustainable Systems

For the Bachelor of Science degree option, students must complete three additional 6-credit design studios and accompanying technical/structures courses.

- ARCH401, ARCH402, ARCH403
- ARCH464, ARCH465, ARCH466
- ARCH474
- ARCH4XX – 12 credits

For the Bachelor of Arts degree option, students must complete 36 additional credits in upper level Architecture electives and a minimum of 9 additional credits in directed electives inside or outside the major.

- ARCH4XX – 36 credits

Advising

Entering students are advised by the Undergraduate Advisors located in the School's Main Office. Advising is mandatory for all undergraduate architecture majors each semester. Students must meet with an academic advisor to discuss their academic plan and course selection. Students can make an appointment for advising online by visiting www.arch.umd.edu. Students may also contact the advising office via archadvise@umd.edu. Walk-in appointments may be available. Students may use the archadvise@umd.edu email at any time. Students should always include their full name, UID and contact information in any email correspondence.

Minors

Construction Project Management:

A minor in Construction Project Management will prepare students for employment in one of the many careers related to the built environment, such as project management, architectural engineering, design and commercial construction. Students will learn how to manage multiple phases of operation and management in the construction process including building information modeling, cost estimating, project scheduling, construction financing and planning. The Construction Project Management minor is ideal for students in Architecture, Engineering and similar fields. This minor is designed to give students a competitive advantage when applying for a job in the construction industry.

Requirements for the Minor:

1. 12 credits of required courses:

- ENCE325 - Introduction to Construction Project Management
- ENCE423 - Project Planning, Estimating & Scheduling
- ENCE424 - Communication for Project Managers
- ARCH472 - Building Information Modeling (BIM) Communication & Collaboration

2. 3 credits of approved upper level electives

Approved Student Societies and Professional Organizations

The Architecture Student Assembly represents the student body. Assembly members are elected from undergraduate and graduate classes. Representatives attend Faculty Meetings, serve on committees, and organize the Architecture Program Retrospective at the end of each semester.

The School of Architecture, Planning, and Preservation sponsors a chapter of the American Institute of Architecture Students (AIAS), the national association for architecture students. The AIAS chapter sponsors a variety of activities including an annual Career Fair, Beaux Arts Ball, field trips, conferences, workshops, and other events throughout the academic year.

The University of Maryland chapter of NOMAS is affiliated with the national professional organization NOMA. NOMAS is a group of students from a variety of backgrounds pursuing architecture degrees at the undergraduate and graduate levels, interested in contributing to the UMD School of Architecture, Planning and Preservation by building a sense of community based on shared experiences unique to our diverse student body.

USGBC Students – University of Maryland Chapter of the United States Green Building Council is a coalition of undergraduate and graduate students intent on learning about and promoting sustainable design and building practices. Formed in 2007, the group hosts monthly meetings in the Architecture Building.

Alpha Rho Chi (APX) is the national co-ed fraternity for architecture and the allied arts. Its brotherhood unites men and women for the purpose of fellowship and lifelong friendships, as well as professional development. This is exemplified by the fraternity's motto: Fidelitas, Amor et Artes or "Fidelity and Love of the Arts."

Financial Assistance

Many financial awards are offered to freshman upon admission. Any questions about financial aid for freshman admits should be directed to the Office of Undergraduate Admissions and the Office of Student Financial Aid.

Each year, the School of Architecture, Planning and Preservation offers a number of merit-based scholarships to qualifying undergraduate students. Many are offered to students participating in study abroad programs. Interested students are encouraged to apply for these in early Spring. Information is available at www.arch.umd.edu. Please note that most of these scholarships are reserved for students in the studio sequence of the program.

The Office of Student Financial Aid (OFSA) administers all types of federal, state, and institutional financial assistance programs and, in cooperation with other University offices, participates in the awarding of scholarships to deserving students. Freshmen and sophomores are strongly encouraged to visit the OFSA early in their tenure at the University of Maryland to determine any scholarships they may be eligible for in the following years.

For more information, visit: www.financialaid.umd.edu.

Research Units

National Center for Smart Growth Research and Education

1112 Preinkert Fieldhouse, College Park, 301-405-6788

www.smartgrowth.umd.edu

Dr. Gerrit Knaap

The National Center for Smart Growth Research and Education is a non-partisan center for research and leadership training on Smart Growth and related land use issues nationally and internationally. Founded in 2000, the National Center for Smart Growth is a cooperative venture of four University of Maryland schools: Architecture, Planning and Preservation; Public Policy; Agriculture and Natural Resources; and Engineering. The mission of the Center is to bring the diverse resources of the University of Maryland and a network of national experts to bear on issues of land development, resource preservation and urban growth -- the nature of our communities, our landscape and our quality of life -- through interdisciplinary research, outreach and education, thereby establishing the University as the national leader in this field.

COLLEGE OF ARTS AND HUMANITIES (ARHU)

1102 Francis Scott Key Hall, 301-405-2088

www.arhu.umd.edu

Dean: Bonnie Thornton Dill

The College of Arts and Humanities embraces a heterogeneous group of disciplines that study human experience, thought, expression and creativity. All value the development of critical thinking, fluent expression in writing and speech, sensitivity to ethical and aesthetic issues, and a complex understanding of history and culture. Departments and programs in Arts and Humanities prize vigorous intellectual debate in a diverse community. While they have strong individual identities, they are also involved in interdisciplinary studies. Thus students will find, for example, courses in the Department of English that approach literature in its historical contexts, courses in the Department of History that adopt feminist perspectives, courses in the Department of Art History and Archaeology that study African politics, and so on.

Further examples of the special opportunities available to students in this richly variegated college include an exceptional visual resource center in Art History and Archaeology, the English Department's computer-based writing classroom, and the School of Languages, Literatures, and Culture's Foreign Language Media Lab. Additionally, students may add an international experience to their undergraduate education by participating in an ARHU-sponsored study abroad program in Chile, China, Ecuador, France, Germany, Greece, Ireland, Israel, Italy, Japan, New Zealand, Spain, Taiwan, and the United Kingdom. The educational vistas open to students in the School of Music and the School of Theatre, Dance, and Performance Studies are enhanced enormously by the Clarice Smith Center for the Performing Arts, which houses those departments. Students may also participate in one of the College's five living-learning programs: Honors Humanities, College Park Scholars in the Arts, Design I Cultures + Creativity, Jimenez-Porter Writers' House, and Language House (see below).

Admission Requirements

Freshmen and transfer students interested in applying for admission should refer to the general university admissions information provided in the catalog. Admission to the college's School of Music is a two-step process: undergraduate applicants must apply to both the Office of Undergraduate Admissions and to the School of Music. Visit www.music.umd.edu for information. Further, students wishing to major in creative or performing arts are encouraged to seek training in the skills associated with such an area prior to matriculation. Applicants to these programs may be required to audition or submit a portfolio as a part of the admission requirements. For more information about the college's academic programs, please contact Mr. J. Darius Greene, Associate Director at arhu-admit@umd.edu or 301-405-2096.

Undergraduate Degree Requirements/Degree Options

The College of Arts and Humanities offers the degree of Bachelor of Arts in the following fields of study:

American Studies: www.amst.umd.eduArabic Studies: www.arabic.umd.eduArt: www.art.umd.eduArt History and Archaeology: www.arthistory-archaeology.umd.eduCentral European, Russian, and Eurasian Studies: www.ceres.umd.eduChinese Language and Literature: www.chinese.umd.eduClassics: www.classics.umd.eduClassical Humanities (*see Classics*)Communication: www.comm.umd.eduDance: www.tdps.umd.eduEnglish Language and Literature: www.english.umd.eduFilm Studies: www.film.umd.eduFrench Language and Literature: www.french.umd.eduGermanic Studies: www.german.umd.eduGreek (*see Classics*)History: www.history.umd.eduItalian Language and Literature: www.italian.umd.eduJapanese Language and Literature: www.japanese.umd.eduJewish Studies: www.jewishstudies.umd.eduLatin (*see Classics*)Latin and Greek (*see Classics*)Linguistics: www.ling.umd.eduMusic: www.music.umd.edu (*Students majoring in Music may pursue a Bachelor of Music degree*)Persian Studies: www.persian.umd.eduPhilosophy: www.philosophy.umd.eduRomance Languages: www.romancelanguages.umd.eduRussian: www.russian.umd.eduSpanish: www.spanish.umd.eduTheatre: www.tdps.umd.eduWomen's Studies: www.womensstudies.umd.edu

The College also offers certificate programs in East Asian Studies; Latin American Studies; Lesbian, Gay, Bisexual and Transgender Studies; and Women's Studies.

Major Requirements

- All students must complete a program of study consisting of a major (a field of concentration) and sometimes supporting courses as specified by one of the academic units of the college. No program of study shall require in excess of 60 semester hours.
- A major shall consist, in addition to the lower-division departmental prerequisites, of 24 to 40 hours, at least 12 of which must be in courses numbered 300 or 400 and at least 12 of which must be taken at the University of Maryland, College Park.

- A major program sometimes requires a secondary field of concentration (supporting courses). The nature and number of these courses are determined by the major department.
- No grade lower than "C-" may be used to fulfill major or supporting course requirements. No course for the major or support module may be taken Pass-Fail.
- Students must earn at least a 2.0 cumulative GPA to graduate from the University of Maryland.
- An overall GPA of 2.0 in the major is required for graduation.
- Students should consult the unit in which they will major for specific details; certain units have mandatory advising.
- Students must take a Foreign Language Placement Assessment (<http://www.arhu.umd.edu/undergraduate/flpa>) prior to adding a major in the College of Arts and Humanities unless the student has fulfilled the required language prerequisites. Students who enter the University as Arts and Humanities majors must take the assessment by the end of their first semester on campus. Bachelor of Music students are exempt from taking the foreign language placement assessment. For more information about Bachelor of Music requirements, please see www.music.umd.edu.

Graduation Requirements

To graduate, all students must earn at least 120 credits and at least a 2.0 cumulative GPA. Additionally, students must complete College of Arts and Humanities requirements.

The following college requirements apply only to students earning Bachelor of Arts degrees from the College of Arts and Humanities. These requirements are in addition to or in fulfillment of campus and departmental requirements. For information concerning the Bachelor of Music in the School of Music, students should consult a Music advisor.

Students who double major in ARHU and another college on campus must complete the ARHU Global Engagement requirement and 45 hours of upper-level credit.

All Arts and Humanities freshmen (excluding students in College Park Scholars, Design I Cultures + Creativity, Honors Humanities, Entrepreneurship and Innovation, Gemstone, Integrated Life Sciences, or University Honors) must take ARHU158, Explorations in the Arts and Humanities, during their first semester on campus.

Distribution: To encourage advanced mastery of material, a minimum of 45 of the total of 120 semester hours must be upper-level work (i.e., courses numbered 300-499).

For more information about the CORE program, please visit www.ugst.umd.edu/core/

For more information about the General Education program, please visit www.gened.umd.edu/

The Global Engagement Requirement

To expand ARHU students' understanding of other cultures and language in an increasingly global society, ARHU students must complete the "Global Engagement Requirement." Learning a second language produces deep knowledge of cultural as well as linguistic differences while opening pathways for common understanding. The requirement may be satisfied in one of three ways.

Option 1: Study of a Foreign Language

Requirement: Students will take foreign language coursework to the designated level at UMD. Please consult an ARHU advisor for a list of the approved course sequences.

Option 2: Cultural Immersion through Study Abroad

Requirement: Students will participate in a semester long Study Abroad experience in a country where English is not the primary language.

The study abroad experience must include:

1. At least the first year/elementary level language of the host country before or during the experience (or equivalent as determined by the ARHU foreign language placement policy);
2. A reflection component that will challenge students to assess their pre-departure, in country and post study abroad experience;
3. Participation in one of the following pre-approved engagement experiences:
 - Internship
 - Service Learning
 - A living situation involving daily interaction with host nationals (e.g., a pre-approved home stay with a host national family)
 - Other - an engagement experience approved in advance of departure

Students must develop a learning contract with an ARHU advisor in advance of studying abroad in order for the experience to count for the Global Engagement Requirement. Past study abroad experiences will not be considered retroactively.

Option 3: Individually-designed Engagement Experience

Requirement: Students may also create an individually-designed experience that achieves the learning outcomes of the global engagement requirement.

This option must include:

1. At least the first year/elementary level language of the host country before or during the experience (or equivalent as determined by the ARHU foreign language placement policy);
2. A pre-approved short- or long-term study abroad program that has been deemed appropriate for inclusion in this option by ARHU in conjunction with the Education Abroad Office;
3. Students must develop a learning contract with an ARHU advisor and petition to have the experience approved in advance.

Students proposing study abroad in an English-speaking country must choose to study a language that has significance to the historical or current culture of the host country. Students will need to research and discuss the intersection of the chosen language and culture in their petition.

Important notes:

1. Students already beyond the required language needed to fulfill the Global Engagement Requirement must document their language proficiency by taking a placement assessment or equivalent as determined by the ARHU foreign language placement policy.
2. Students taking a foreign language class at the University of Maryland on or after 9/15/2011 will need to take a foreign language placement assessment. Please see an ARHU advisor for details.
3. Students seeking exemption from the Global Engagement Requirement must take the foreign language placement assessment in an on-campus proctored environment. Please see an ARHU advisor or see www.arhu.umd.edu/undergraduate/flpa for the proctored exam schedule.

For more information, please see an advisor in the ARHU Office of Student Affairs, call 301-405-2108, or visit www.arhu.umd.edu/undergraduate/globalengagement.

Advising

Freshmen and new transfer students have advisors in the College of Arts and Humanities, Office of Student Affairs (301-405-2108) who assist them in the selection of courses. Students must see an advisor in their department for assistance in the selection of courses for the major. All first-year students (both freshmen and transfers), students who have completed 45-55 credits, and seniors who have completed 86-100 credits have mandatory advising with both the College and the department. For further information about advising, students should call the ARHU Office of Student Affairs, 301-405-2108.

Internships

Most departments within Arts and Humanities have well-established internship options. For more information on internships taken for academic credit, students should contact their departmental academic advisor. Internship credit is also available directly through the College for students who have fewer than 60 credits, have already completed an internship in their major, or would like to explore an area outside their major. Typically, students must have a 2.5 GPA. They need to complete an application process and the experience usually lasts for a full semester or over the summer. Students must be enrolled for the internship during the semester in which they intern. Retroactive credit and credit for continuing internships will not be awarded. Internships are not considered to be a "credit for work" experience. In addition to participating in the on-site experience, students will also fulfill an academic component. For assistance in locating an internship, visit the University Career Center at ARHU at 1118 Francis Scott Key Hall. Visit www.arhu.umd.edu/careers for more information about walk-in hours and appointment scheduling.

Secondary Education Teacher Certification

A student interested in a career as a secondary education teacher in a subject represented in this college is encouraged to speak with an advisor in the College of Education Office of Student Services (1204 Benjamin Building) to discuss the different pathways available for certification. The College of Education offers programs that lead to certification for grades PreK-12 in Studio Art and World Language (Chinese, French, German, Russian, Spanish), and grades 7-12 in English and Social Studies (History). Degree pathways that lead to certification include the following: 1) an undergraduate double major in the content area and secondary education, 2) the five-year integrated master's program, which allows for the content major as an undergraduate and completion of certification and graduate degree requirements in a fifth year, or 3) the one-year intensive master's plus certification program.

Departments and Centers

Academic Computing Services

1111 Francis Scott Key Hall, 301-405-2104

www.arhu.umd.edu/tech

Assistant Dean: Kathleen R. Cavanaugh

Academic Computing Services (ACS) supports the use of technology by faculty, staff, and students in the College of Arts and Humanities. ACS provides desktop support services for faculty and staff, support for the use of technology to support teaching and learning, and classroom technology support services.

University of Maryland Art Gallery

1202 Parren J. Mitchell Art-Sociology Building

3884 Campus Drive

College Park, MD 20742

301-405-2763

www.artgallery.umd.edu

artgallery@umd.edu

Assistant Director: Taras W. Matla

The University of Maryland Art Gallery presents exhibitions, lectures, film series, residencies, and publications focusing on contemporary art and visual culture. Opportunities for museum training and arts management experience are available to students through intern and work-study positions.

David C. Driskell Center for the Study of the Visual Arts and Culture of African Americans and the African Diaspora

1214 Cole Student Activities Building, 301-405-6835

email: driskellcenter@umd.edu

www.driskellcenter.umd.edu

Executive Director: Professor Curlee R. Holton

The David C. Driskell Center for the Study of the Visual Arts and Culture of African Americans and the African Diaspora at the University of Maryland, College Park, honors the legacy of David C. Driskell - Distinguished University Professor Emeritus of Art, Artist, Art Historian, Collector, and Curator - by preserving the rich heritage of African American visual art and culture. Established in 2001, the Center provides an intellectual home for artists, museum professionals, art administrators, and scholars, who are interested in broadening the field of African Diasporic studies. The Driskell Center is committed to collecting, documenting, and presenting African American art as well as replenishing and expanding the field.

Consortium on Race, Gender, and Ethnicity (CRGE)

1208 Cole Student Activities Bldg., 301-405-5223

www.crge.umd.edu

Director: Ruth E. Zambrana

Associate Research Director: Michelle M. Espino

The Consortium on Race, Gender and Ethnicity (CRGE) is a University-wide research center with three primary goals 1) promote intersectional theory, pedagogy and research, 2) mentor racial/ethnic, underrepresented faculty, undergraduate and graduate students, and 3) engage in dynamic across-college interdisciplinary collaboration. CRGE seeks to promote a collaborative environment where intersectional scholars and students can work together on key national concerns that explore the intersections of race, gender, ethnicity and other dimensions of inequality and complex institutional power relations. We have been awarded over 1.8 million dollars in grants over the last decade and have mentored over 25 undergraduate and graduate students and faculty.

CRGE has become a national leader in innovative, interdisciplinary methods and research and has worked diligently to serve the campus via colloquiums, seed grant funding of early career faculty and graduate students, and collaborative partnerships with other academic units. In particular with the Maryland Population Research Center, we now provide a one week Intersectional Qualitative Research Methods Institute. Our work enhances the UM mission of achieving excellence in scholarship, mentoring, outreach and service.

Center for Innovative Teaching and Learning (CITL)

1202 Jiménez Hall, 301-405-4925; Fax: 301-314-9752

Email: langweb@umd.edu

www.slrc.umd.edu/citl

Faculty Director: Dr. Mary Ellen Scullen

Instructional Designer: Janel Brennan-Tillmann
Coordinator: Jeff Maurer

The Center for Innovative Teaching and Learning (CITL) is a unit within the School of Languages, Literatures and Cultures whose mission is to enhance and support excellence in teaching, learning and research. The Center provides equipment, web support, training, and instructional design for SLLC faculty and staff as well as first tier support for the technology classrooms located in Jimenez Hall and CIC CourseShare courses.

Consultation services are available for course development, assessment, hybrid and blended course redesign, grant support, and digitization of course and research materials. The Center also maintains a small media library. Services for non-SLLC faculty include technology cart and SLLC Technology Classroom reservations for a fee.

FOLA

0102 St. Mary's Hall, 301-405-4046

www.sllc.umd.edu/foia

Coordinator: Dr. Naime Yaramanoglu

The FOLA (Foreign Language) Program enables qualified students with high motivation to acquire a speaking knowledge of one foreign language not offered in regular campus programs: Urdu. While instruction is basically self-directed, students meet regularly with a native-speaking facilitator for practice sessions to reinforce what has already been covered through the individual use of books and CDs. Oral exams are to be determined by the Coordinator of the program and by the facilitator of the courses.

Living-Learning Programs

Honors Humanities

Director: Professor Gregory A. Staley

0111 Anne Arundel Hall, 301-405-1537

www.honorshumanities.umd.edu

Email: honorshumanities@umd.edu

Entering freshmen participate by invitation in Honors Humanities, a two-year living/learning program. Honors Humanities is the University of Maryland's premier undergraduate program for academically talented students who have diverse intellectual ambitions in the humanities and arts or a desire to develop their education on a liberal arts foundation. The program is organized around an integrated and advanced humanities curriculum and a final independent research or creative project (the Keystone Project) that a student designs and executes with the guidance of a faculty mentor. Honors Humanities provides students with stimulating seminars, life-long friendships, a lively home base in Anne Arundel Hall, and opportunities to take advantage of the intellectual, cultural, and artistic riches of the Washington, D.C. region. Upon completion of the program, students earn an Honors Humanities citation, and this prestigious award is recorded on their university transcripts.

College Park Scholars-Arts

Director: Dr. Harold Burgess

www.scholars.umd.edu

1110 Bel Air Hall, 301-405-0522

The Arts Program, sponsored by the College of Arts and Humanities and Undergraduate Studies, fosters a collaborative learning environment of students, faculty and artists/scholars from the arts community at large to stimulate thoughtful discourse on the practical and theoretical applications of art in connection to communicating big ideas with imagination and purpose. An extraordinary learning community of spirited and creative individuals, the Arts Scholars program attracts a diverse student population from a wide range of academic disciplines. Arts Scholars share common interests in the desire for creative expression and engagement with the arts while being introduced to a broad selection of interdisciplinary topics through thematically inspired colloquia and supporting courses. Beyond the classroom, students participate in service-learning engagements with local schools and arts non-profit organizations, and attend performances and exhibitions at local and regional cultural institutions. The program nurtures students' familiarity with the creative and artistic processes necessary to develop and present works of art while providing a supportive and fertile environment to build upon their successes (and failures) as a community of engaged learners, creative thinkers and responsible citizens.

Jiménez-Porter Writers' House

Director: Johnna Schmidt

Queen Anne's Hall, 301-405-0671

www.writershouse.umd.edu

The Jiménez-Porter Writers' House (JPWH) is a living and learning program open to all majors. The program was conceived and developed primarily for upper-division students, but will consider applications from academically talented incoming freshmen who have a solid focus on creative writing. Located in Queen Anne's Hall, the Writers' House creates a campus-wide literary center to study creative writing especially in its cross-cultural dimensions. Participants live in a close community of students who share an interest in creating stories, poems, plays, and imaginative non-fiction. Students work with visiting writers, publish a literary magazine, attend special readings and colloquia, produce an annual literary festival, and receive notation upon successful completion of the program. Class sizes are small, and include one-on-one faculty advising sessions. Admission to the Writers' House is competitive, with only fifty to sixty students living and writing together each year. Applications can be submitted at <https://apply.arhu.umd.edu>, or by visiting www.writershouse.umd.edu. Final deadline for admission every year is March 1 for currently enrolled University of Maryland students, May 1st for transfer students and incoming freshmen.

Design I Cultures + Creativity

Director: Professor Jason Farman

For more information, please contact:

dcc-honors@umd.edu

Phone: 301.405.2866

Twitter: @umd_dcc

dcc.umd.edu

Digital Cultures + Creativity (DCC) is a living-learning program in the Honors College that builds a collaborative and experimental environment to explore the relationship between emerging media, society, and creative practices. We are passionate about emerging technologies and their impact on the world. We pursue out-of-the-box thinking on topics such as identity, connectivity, social justice, art, design, and all things creative in an era when digital media links us on a scale unprecedented in human history. Through hands-on collaborative projects, students think beyond disciplinary boundaries and approach problems from multiple perspectives. Our courses (16 credits taken during the first two years), lab space, and workshops provide spaces for exploration, for thinking through ideas, and experimenting with the process of building, designing, and creating. DCC strongly values inclusivity and aims to cultivate life long learners who are critically engaged thinkers. Our students will become the makers and doers of tomorrow, able to expand our notions of human potential, not merely technologically but also socially and creatively.

Language House

Program Director: Dr. Phoenix Liu
0107 St. Mary's Hall, 301-405-6996
<http://slhc.umd.edu/language-house>
PhoenixL@umd.edu

The Language House Immersion Program was the first living-learning program on campus for students wishing to immerse themselves in the study of foreign language and culture. A total of 101 students live in one of ten clusters (Arabic, Chinese, French, German, Hebrew, Italian, Japanese, Persian, Russian or Spanish), which are housed in 19 apartments in St. Mary's Hall. Students must commit to speaking their target language as they prepare meals, do household chores, study and socialize together, etc. Faculty liaisons work with students in each of the language clusters, and a graduate mentor, a native speaker of the language, assists students in the immersion environment. The goal of language immersion is achieved through activities organized by the native mentors, a language-learning computer lab, an audio-visual multi-purpose room, and unlimited access to foreign news and film programs via Internet.

College Honors Program

Most departments in the College of Arts and Humanities offer Departmental Honors Programs (DHP). DHPs are upper-division programs within the individual academic units. Students enrolled in Departmental Honors work independently with faculty members in subjects of special interest, develop and deepen their research skills, and, in the process, earn an even stronger degree. Students must have a cumulative GPA of at least 3.0 to be admitted. For further information about individual Departmental Honors Programs and policies, consult with departmental advisors.

COLLEGE OF BEHAVIORAL AND SOCIAL SCIENCES (BSOS)

2141 Tydings Hall, 301-405-1679
www.bsos.umd.edu
bsos@umd.edu
Dean: Gregory Ball
Associate Dean(s): Katherine Russell, Wayne McIntosh
Assistant Dean(s): Ann Holmes, Mengxue Li, Kim Nickerson, Deborah Rhebergen

The College of Behavioral and Social Sciences at the University of Maryland (BSOS) increases understanding of and pursues innovative solutions to the challenges facing our global community. BSOS draws on its Washington, D.C., and worldwide connections to enrich its teaching, research and service. The BSOS community works to enhance international relations, advance global sustainability, understand societies and cultures and improve the human condition.

In all that we do, BSOS aims to **Be the Solution** to the world's great challenges.

Students interested in human behavior and in solving human and social problems will find many exciting opportunities through the programs and courses offered by the College of Behavioral and Social Sciences.

Undergraduate Degree Requirements/Degree Options

- Each student must complete a minimum of 120 hours of credit with at least a 2.0 cumulative grade point average. Courses must include the credits required in the University's general education requirements and the specific major and supporting course and grade requirements of the programs in the academic departments offering bachelor's degrees.
- Students must have a minimum "C" (2.00) cumulative grade point average across all courses used to satisfy major degree requirements.
- Upon entering BSOS as a freshman, transfer, or by major change, students must complete and submit a graduation plan to the college advising office for review and approval.
- In accordance with university policy, fundamental English and Math requirements must be attempted by 30 credits and successfully completed by 60 credits.
- Students must complete 15 upper level credits in the student's final 30 credits.
- All students are urged to speak with an academic advisor in their major and an advisor in the College Advising Office at least two semesters before graduation to review their academic progress and discuss final graduation requirements.

Advising

The BSOS Advising Center, located in 2148 Tydings Hall, coordinates undergraduate advising and maintains student records for behavioral and social science students. Advising services are designed to support students from the time they enter the college through graduation. Students may come to the advising center for information concerning University requirements and policies, transfer credit processes, orientation, academic planning, academic support, and career or other post-graduation questions. Appointments are made online (<http://bsosundergrad.umd.edu/advising/contact-us>) or by calling the front desk. Undergraduate advisors for each undergraduate major are located in the department offices. These advisors are available to assist students in selecting courses and guiding educational experiences in their major area of study consistent with major requirements and students' educational goals. For additional information please visit www.bsosundergrad.umd.edu or call 301-405-1697.

Career Planning and Engagement

The University Career Center @ BSOS is a branch of the UMD University Career Center & The President's Promise. UCC @ BSOS, located in 2148 Tydings Hall, is focused on providing customized services and resources for majors in the College of Behavioral and Social Sciences. UCC @ BSOS works to complement the Career Center's existing resources and programs. Visit the University Career Center @ BSOS website <http://bsosundergrad.umd.edu/your-career/your-career> to learn about the resources and upcoming events available for students.

Internships (<http://bsosundergrad.umd.edu/engagement/internships>) and research experiences (<http://bsosundergrad.umd.edu/opportunities/research>), education abroad (<http://bsosundergrad.umd.edu/opportunities/education-abroad-and-international-opportunities>), service learning (<http://bsosundergrad.umd.edu/engagement/service-learning>), and student leadership opportunities (<http://bsosundergrad.umd.edu/engagement/student-leadership>) round out a student's academic career and personal development beyond what the traditional academic classroom setting can offer. These important experiences allow students to integrate and apply their learning and to build life-long professional and personal networks of colleagues and friends. Follow the links provided to learn more about these out-of-classroom experiences or schedule an individual consultation with UCC @ BSOS (<http://bsosundergrad.umd.edu/your-career/appointments>) to take full advantage of the out-of-classroom experiences available at UMD.

Departments and Centers

The college is composed of the following departments, each offering a major program that leads to the Bachelor of Arts or the Bachelor of Science degree, as appropriate:

Department of African American Studies

Department of Anthropology

Department of Criminology and Criminal Justice

Department of Economics

Department of Geographical Sciences

Department of Government and Politics

Department of Hearing and Speech Sciences

Department of Psychology

Department of Sociology

In addition, the college is a major contributor to the Environmental Science and Policy Program and sponsors several of its areas of concentration.

*The Department of African American Studies also offers an undergraduate certificate requiring 21 semester hours of course work.

Departments and Research Centers are linked from the College website homepage at www.bsos.umd.edu.

Minors

The College of Behavioral and Social Sciences offers the following minors. See individual department or center websites for more information.

- Black Women's Studies (Departments of African American Studies and Women's Studies)
- Geographic Information Science (Department of Geographical Sciences)
- Global Studies (two tracks): International Development and Conflict Management or Global Terrorism
- Hearing and Speech Sciences (Department of Hearing and Speech Sciences)
- Law and Society (MLAW Programs)
- International Development and Conflict Management (Department of Government and Politics)
- Neuroscience (Departments of Psychology and Biology)
- Remote Sensing of Environmental Change (Department of Geographical Sciences)
- Survey Methodology (Joint Program in Survey Methodology)
- Global Terrorism (National Consortium for the Study of Terrorism and Responses to Terrorism)

Living-Learning Programs

Participating in one of Maryland's living-learning communities is one great way for first and second year BSOS students to share their common interests with each other and with faculty in a small, academic, residential community.

Students who are not in a living-learning program are invited to enroll in a special BSOS one-semester course (UNIV100) in their first semester so that they can work closely with an academic advisor and be part of a small, personalized learning community during their first semester on campus.

BSOS students are members of all of the campus living-learning communities, including Honors College, College Park Scholars, CIVICUS, Global Communities, and Carillon Communities. The BSOS College is the academic home for four of these living-learning programs.

CIVICUS

0107 Somerset Hall, 301-405-8759

Director: Dr. Sue Briggs

www.CIVICUS.umd.edu

CIVICUS is a two-year living and learning program in the College of Behavioral and Social Sciences. This academic citation program is centered on five themes of civil society: citizenship, leadership, community service-learning, community building in a diverse society, and scholarship. CIVICUS was founded on the belief that to be engaged members of civil society, we have an obligation to be aware of the world outside of the classroom and to act upon issues that affect the world in which we live.

Global Communities

0119 Dorchester Hall, 301-314-7100

www.globalcommunities.umd.edu

globalcommunities@umd.edu

Faculty Director: Dr. Virginia Haufler

Global Communities is a two-year living-learning program sponsored by the College of Behavioral and Social Sciences (BSOS). Students participate in a combination of courses, co-curricular opportunities, and residential living organized around the theme of globalization and its challenges and opportunities. The program enriches student understanding of the causes and consequences of the world's interconnectedness, and provides academic and intercultural skills to help them address the issues it raises. We value diversity—cultural, intellectual, and ideological—and seek to provide a tolerant place where differences are celebrated. Participants in the program are part of a network of relationships beyond campus and outside the country.

College Park Scholars, International Studies

1104 Centreville Hall, 301-405-9304

Faculty Director: Dr. James Glass

www.scholars.umd.edu/programs/is/

The International Studies Program brings together undergraduate students from a variety of disciplines who share an interest in global issues, politics, and events. Each entering class of approximately sixty-five students takes courses together during the freshman and sophomore years. The majority of International Studies Scholars reside in Centreville Hall. International Studies was one of the original four College Park Scholars programs launched in 1994, sponsored by the College of Behavioral and Social Sciences (BSOS) and the Department of Government and Politics (GVPT). The Faculty Director and the Teaching Assistants all have their roots in the Department of Government and Politics.

College Park Scholars, Justice and Legal Thought

1121 Cumberland Hall, 301-405-3225

Faculty Director: Dr. Robert Koulish

<http://www.scholars.umd.edu/programs/jlt>

The Justice and Legal Thought Program brings together undergraduate students from a variety of disciplines to share an interest in law and justice. Each entering class of approximately seventy-five students takes courses together during the freshman and sophomore years. The majority of Justice and Legal Thought Scholars reside in Cumberland Hall, which is also where the JLT office is located. Justice and Legal Thought is the most recent addition to the College Park Scholars Program and is sponsored by the College of Behavioral and Social Sciences (BSOS). It features faculty from multiple disciplines, including the UMD Carey School of Law. The program is designed for each course to complement the one that preceded it, for example to address big questions in new and more advanced ways. It is also designed to allow students to deepen their classroom learning through experiential projects, field trips and social activities.

College Honors Program

Departmental Honors Programs are offered in the departments of African American Studies, Anthropology, Criminology and Criminal Justice, Economics, Geography, Government and Politics, Psychology, and Sociology. Students in a Departmental Honors Program are also members of the campus Honors College.

Dean's List. Any student who has passed at least 12 hours of academic work under the regular grading method in the preceding semester, without failure of any course, and with an overall average grade of at least 3.5, will be placed on the Dean's List. The Distinguished Dean's List consists of students who have completed successfully a minimum of 12 credit hours in a semester with a 4.0.

Honor Societies. Students who excel in their academic discipline may be selected for membership in an honorary society. Honoraries for which students in BSOS are chosen include:

- Alpha Kappa Delta -- Sociology
- Alpha Phi Sigma -- Criminal Justice
- Gamma Theta Upsilon -- Geography
- Pi Sigma Alpha -- The National Political Science Honor Society
- Psi Chi -- Psychology

Approved Student Societies and Professional Organizations

Students who major in the Behavioral and Social Sciences have a wide range of interests. Students who are interested in student organizations in the disciplines and fields of the Behavioral and Social Sciences should consult with departmental websites for approved student organizations: <http://bsosundergrad.umd.edu>.

For more information about these student organizations or starting a new student group, please contact the Office of Campus Programs, Adele H. Stamp Student Union, 301-314-7174 or <http://orgsync.umd.edu>.

Financial Assistance

The college offers scholarship opportunities to current students on a competitive basis. Each scholarship has eligibility criteria. Scholarship information and applications are available on the scholarships page on the BSOS website: <http://bsosundergrad.umd.edu/opportunities/scholarships>.

Scholarships are sometimes given at the department level. Check with your departmental advisor or your director of undergraduate programs for more information regarding scholarship opportunities that may be available to you.

The National Scholarship Office at the University of Maryland provides information on nationally competitive scholarships at the undergraduate (and graduate) level. For more information, please visit: www.scholarships.umd.edu.

The Office of Student Financial Aid (OFSA) administers offers all types of federal, state, and institutional financial assistance programs and, in cooperation with other University offices, participates in the awarding of scholarships to deserving students. For more information, visit: www.financialaid.umd.edu.

Research Units

The College of Behavioral and Social Sciences sponsors several special purpose, college-wide research centers. These interdisciplinary centers often offer internships and a selected number of undergraduate research assistant opportunities for interested students. These research experiences offer excellent preparation for future graduate study and/or job opportunities in the private and public sectors. These centers include:

Center for the Study of Business, Ethics, Regulation & Crime (C-BERC) (<http://www.rhsmith.umd.edu/centers-excellence/cberc>) is a diverse unit aimed to generate new ideas and information at the intersection of theory, policy, and practice that will serve as a resource for business leaders, policymakers, and practitioners. The center embraces a unique interdisciplinary approach to the legal and ethical challenges of modern business operations by integrating and extending research in the fields of business ethics, regulation, and criminology.

Center for Substance Abuse Research (CESAR) (<http://www.cesar.umd.edu/>) works to gather, analyze, and disseminate timely information on issues of substance abuse and monitor alcohol- and drug-use indicators throughout Maryland. CESAR aids state and local governments in responding to the problem of substance abuse by providing the above-stated information, as well as technical assistance and research. CESAR is located at 4321 Hartwick Rd., College Park, MD. Phone: 301-405-9770.

Interindustry Forecasting Project at the University of Maryland (INFORUM) (<http://inforumweb.umd.edu/>) is dedicated to improving business planning, government policy analysis, and the general understanding of the economic environment. Inforum accomplishes this mission through: Building and using structural economic models of U.S. and other economies; working with government and private sector research sponsors to investigate a variety of issues; serving as a training crucible for University of Maryland graduate and undergraduate students who receive valuable training in empirical economics; and maintaining active and productive ties with a world-wide network of research associates, each of which uses Inforum modeling methods and software. INFORUM is located in the Department of Economics at the University of Maryland, College Park, MD. Phone: 301-405-4609.

Maryland Neuroimaging Center (MNC) (<http://www.mnc.umd.edu/home>) is the home for neuroimaging research at the University of Maryland. The MNC is an initiative of the university's interdepartmental Neuroscience and Cognitive Science (NACS) Program. MNC is located at 8077 Greenmead Dr., Avrum Gudelsky Bldg #795, University of Maryland, College Park, MD. Phone: 301-405-2092.

Maryland Population Research Center (MPRC) (<https://www.popcenter.umd.edu/>) draws together leading scholars from diverse disciplines to support, produce, and promote population-related research. The MPRC's members include faculty from the departments of African American Studies, Agricultural and Resource Economics, Anthropology, Criminology and Criminal Justice, Economics, Epidemiology and Biostatistics, Family Studies, Geographical Sciences, Health Services Administration, Human Development, the Joint Program in Survey Methodology, the MD Institute for Applied Environmental Health, Psychology, Behavioral and Community Health, the School of Public Policy, Sociology, and the Consortium on Race, Gender, and Ethnicity. MPRC is located in 0124N Cole Student Activities

Building, University of Maryland, College Park, MD. Phone: 301-405-6403.

National Consortium for the Study of Terrorism and Responses to Terrorism (START) (<http://www.start.umd.edu/>) is a U.S. Department of Homeland Security Center of Excellence, tasked by the Department of Homeland Security's Science and Technology Directorate with using state-of-the-art theories, methods, and data from the social and behavioral sciences to improve understanding of the origins, dynamics, and social and psychological impacts of terrorism. START is located on 8400 Baltimore Avenue, Suite 250, College Park, MD. Phone: 301-405-6600.

Neuroscience and Cognitive Sciences Program (NACS) (<http://nacs.umd.edu/>) offers research and training opportunities in neuroscience, cognitive neuroscience and computational neuroscience. These research activities are carried out in laboratories housed in six colleges and 17 different departments on the UMD campus. NACS is located in 2131 Biology-Psychology Bldg, University of Maryland, College Park, MD. Phone: 301-405-8910.

Center for Safe Solutions (<http://www.psttap.com/>) provides the highest quality managerial, operational and technical support and training to combat drug trafficking and drug abuse; reduce violent crime; reduce gang activity; provide action-oriented criminal intelligence; support Maryland's Department of Public Safety and Correctional Service's distributed database development; and offer internships and jobs to University students. CSS is located at 9001 Edmonston Rd. Ste. 300, Greenbelt, MD 20770. Phone: 301-489-1700.

Office of International and Executive Programs (OIEP) (<http://oiep.umd.edu/>) initiates, facilitates and coordinates research, teaching, training and associated activities undertaken jointly between departments of the College of Behavioral and Social Sciences at the University of Maryland with partner universities, agencies and organizations in the United States and abroad. By providing strategic advice, programmatic guidance and administrative support, OIEP fosters innovative international collaborations in the form of degree programs, research projects, student and faculty visitor and exchange programs, short-term training courses and more. OIEP is located in 3106 Morrill Hall, College Park, MD. Phone: 301-405-8443.

The Law in Society Minor and Justice and Legal Thought (MLAW) (<http://mlaw.umd.edu/>) interdisciplinary and experiential approaches to the study of law and its impact on society. MLAW has its academic home in the College of Behavioral & Social Sciences but partners closely with other departments, offices, programs and schools to offer a full range of rich educational experiences and opportunities for students. MLAW is located in 0101 Taliaferro Hall College Park, MD. Phone: 301-405-3179.

In addition to these college-wide research centers, BSOS hosts several departmental research centers (<http://bsos.umd.edu/academics-research/all-centers>). Please contact individual departments for more information.

Student Engagement and Service Units

Dean's Student Advisory Council

The Dean's Student Advisory Council (DSAC) is charged with advising the dean on various topics affecting students and their educational and social experiences at the University of Maryland. Each academic year, the group recommends distribution for the college's portion of the approved student technology fees, hosts annual events for students, faculty, and alumni, initiates and implements independent and group projects, and hears ideas and concerns from constituent students.

This council consists of representatives from each department in the College of Behavioral and Social Sciences, the living/learning programs, the Student Government Association, University Senate representatives for the college, and a peer advisor. DSAC members enroll in a credit-bearing course each semester in which they serve on the Council.

For more information, contact the Dean's Student Advisory Council: bsos-ugdean@umd.edu

BSOS Ambassadors

Ambassadors assist with the planning, coordination and execution of special events hosted by the College of Behavioral and Social Sciences, including all major recruiting events. Ambassadors build a strong knowledge base of the behavioral and social science academic disciplines as well as other programs offered by the college so that they may inform prospective students and the public during special events. Ambassadors will have the opportunity to learn valuable leadership, networking and communication skills. Ambassadors enroll in a credit-bearing course each semester they serve on the committee.

For more information contact Julianna Bynoe in the Dean's Office 301-405-1692 or bsos-ugdean@umd.edu.

BSOS Peer Mentors

The Peer Mentor Program is a component of the student services offered by the BSOS Advising Center. The primary role of Peer Mentors is to teach the BSOS Graduation Planning workshops each semester and conduct various presentations in BSOS UNIV100 sections. Through the services they provide to fellow students, Peer Mentors gain leadership, presentation, and public speaking skills. In preparation for their required tasks, all Peer Mentors are expected to attend weekly class sessions and serve for at least two semesters. Students will earn 1 academic credit after successful completion of each semester.

For more information contact the College Advising Office 301-405-1697 or Brandon Clark bclark24@umd.edu.

THE ROBERT H. SMITH SCHOOL OF BUSINESS (BMGT)

1570 Van Munching Hall, 301-405-2286

www.rhsmith.umd.edu

undergradinfo@rhsmith.umd.edu

Dean: Dr. Alexander Trianits

Associate Dean(s): Dr. Victor Mullins

Assistant Dean(s): Dr. Rebecca Ratner and Brian Horick

The Robert H. Smith School of Business is an internationally recognized leader in management education and research, and its mission is to create knowledge, promote a learning environment that fosters intellectual discovery, and equip current and future leaders to assess complex problems and deliver innovative solutions.

The Smith School is accredited by AACSB International - The Association to Advance Collegiate Schools of Business, the premier accrediting agency for bachelor's, master's and doctoral degree programs in business administration and accounting, www.aacsb.edu.

A student in the Smith School of Business, selects a major(s) in one of the following curricula: (1) Accounting; (2) Finance; (3) Information Systems; (4) International Business; (5) Management; (6) Marketing; (7) Operations Management; or (8) Supply Chain Management. Upper-division BMGT programs are offered at College Park and at the Universities at Shady Grove (<http://www.shadygrove.umd.edu/>) in Montgomery County. For details on the majors offered at Shady Grove visit <http://www.rhsmith.umd.edu/programs/undergraduate-programs/shady-grove>.

Admission Requirements

See "Admission Requirements and Application Procedures" chapter for general LEP admissions policies.

Freshman Admission

Direct admission to the Smith School is offered on space-available basis to first-time applicants who present the most competitive academic records. All students admitted directly to BMGT as freshmen must demonstrate satisfactory progress.

- All students admitted as freshmen must demonstrate satisfactory progress (2.0 GPA or better) plus completion of Gateway courses (BMGT220, BMGT230, and MATH120, 220, 130 or 140 - each with a minimum grade of "C-" or better) by the semester they reach 45 credits (excluding AP and ESL), at which time they will be reviewed in order to continue in the Smith School major. (Note: Only one repeat of one single course to the set of Gateway courses will be accepted to remain in BMGT. Appeals will be considered.)

Transfer Admission for Students from On or Off Campus

All students applying for admission to BMGT as transfer students, whether internal transfers already enrolled at UMCP or external transfer students entering the university for the first time, will be subject to competitive admission for a limited number of spaces in the Smith School of Business program at each program location. Internal and external transfer students may apply to compete for admission to the Smith School of Business in the semester they have earned 45 credits. Below are the current admission standards.

- Minimum 3.0 cumulative GPA (preferred, may vary based upon the applicant pool)
- Completion of the following Gateway courses, all with "C-" or better:

BMGT220: Accounting
MATH120, 220, 130 or 140: Calculus
BMGT230*or BMGT231#: Business Statistics

*The following courses are approved substitutes for BMGT230: BIOM301, ECON230, ECON321, EDMS451, GEOG305, PSYC200, and SOCY201.

#The following courses are approved substitutes for BMGT231: ENCE302, ENEE324, ENME392, or STAT400

- Co-curricular involvement, leadership experience and honors and awards will also be considered in the admission decision. Students are strongly encouraged to submit with their applications a resume and letter detailing their accomplishments and experience.

Application Deadlines for Transfer Students: Complete applications and all supporting documents must be received no later than:

Fall Semester: March 15th

Spring Semester: November 1st

Applicants who have earned 45 credits and completed all required gateway courses at the time of their application will be notified of their admission decision in early April for fall admission and early December for spring admission. Students who are in the process of completing the required gateways or accumulating 45 credits at the time of their application will be notified of their admission decision after the semester has ended and final grades for the semester have been calculated.

For additional details visit <http://lep.umd.edu/> and <http://lep.umd.edu/bmgt-lep.pdf>.

Applications to the Smith School can be accessed at <http://www.rhsmith.umd.edu/programs/undergraduate-programs/admissions>. For questions, call 301-314-8385 or email lep@umd.edu.

Any student denied admission or dismissed from the major may appeal to the Associate Dean of the College.

Statement of Policy on Transfer of Credit from Community Colleges

It is the practice of the Smith School of Business to consider for transfer from a regionally accredited community college only the following courses in business administration: an introductory business course, business statistics, introduction to computing (equivalent to BMGT201), or elementary accounting. Thus, it is anticipated that students transferring from another regionally accredited institution will have devoted the major share of their academic effort below the junior year to the completion of basic requirements in the liberal arts. A total of 60 semester hours from a community college may be applied toward a degree from the Smith School of Business.

Other Institutions

The Smith School of Business normally accepts transfer credits from regionally accredited four-year institutions. Junior- and senior-level business courses are accepted from colleges accredited by the Association to Advance Collegiate Schools of Business (AACSB). Junior- and senior- level business courses from other than AACSB-accredited schools are evaluated on a course-by-course basis to determine transferability.

The Smith School of Business requires that at least 50 percent of the business and management credit hours required for a business degree be earned at the University of Maryland, College Park.

Undergraduate Degree Requirements/Degree Options

The University confers the following degrees: Bachelor of Science (B.S.), Master of Business Administration (M.B.A.), Master of Science (M.S.), and Doctor of Philosophy (Ph.D.). Information concerning admission to the M.B.A. or M.S. program is available at www.rhsmith.umd.edu.

Undergraduate Program

The undergraduate program recognizes the need for professional education in business and management based on a foundation in the liberal arts. In addition, the program's internationally integrated curriculum prepares students to be effective and responsible managers in today's dynamic business environment.

A student in business and management selects a major in one of several curricula: (1) Accounting; (2) Information Systems: Specialization Business; (3) Finance; (4) General Business; (5) International Business; (6) Operations Management; (7) Marketing; (8) Supply Chain Management.

Summary of Bachelor of Science Degree Requirements (all curricula)

At least 45 hours of the 120 semester hours of academic work required for graduation must be in business and management subjects. 50% of the required BMGT credit hours must be completed at the University of Maryland, College Park. A minimum of 58 hours of the

required 120 hours must be in 300- or 400-level courses. In addition to the requirement of an overall cumulative grade point average of 2.0 ("C" average) in all university course work, all business majors must earn a "C-" or better in all required courses, including Economics, Mathematics, and Communication. Beginning with students matriculating in Fall 2012, to be awarded a baccalaureate degree, students must have a minimum "C" (2.00) cumulative grade point average across all courses used to satisfy major degree requirements. Electives outside the curricula of the School may be taken in any department of the university, if the student has the necessary prerequisites.

	Credits
Freshman-Sophomore School Requirements	
BMGT110 Intro to the Business Value Chain	3
BMGT220 Principles of Accounting I	3
BMGT221 Principles of Accounting II	3
ECON200 Principles of Microeconomics	3
ECON201 Principles of Macroeconomics	3
One from:	
MATH120 or MATH220 Elementary Calculus I	3
MATH140 Calculus I	4
<i>Note: MATH130 Calculus I for the Life Sciences is an acceptable substitute for MATH120/220/140 if the student completed MATH130 as a part of work toward a previous major, as well as those who were working toward that major while in Letters & Sciences.</i>	
One from:	
BMGT230 Business Statistics	3
BMGT231 Statistical Models for Business	3
One from:	
COMM100 Foundations of Speech Communication	3
COMM107 Speech Communication	3
COMM200 Critical Thinking and Speaking	3
<i>Note: Any course that fulfills the University's Oral Communication General Education requirement will also satisfy the Smith School's public speaking requirement.</i>	
Total	26-27
Junior-Senior School Requirements	
BMGT301 Introduction to Information Systems	3
BMGT340 Business Finance	3
BMGT350 Marketing Principles and Organization	3
BMGT364 Management and Organizational Theory	3
BMGT367 Career Search Strategies in Business	1
BMGT380 Business Law	3
BMGT495 Business Policies	3
ECON Economics - see below	0-3
Total	19-25

Economics Requirements

0-3 credits of approved upper-level economics courses are required by the Smith School of Business. The specific requirements for each major are listed with the majors' specific requirements.

Major Requirements

In addition to the Smith School of Business Bachelor of Science requirements listed above, generally another 18-24 credits are required for each major. See individual major listings in Chapter 7.

A Typical Program for the Freshman and Sophomore Years

	Credits
Freshman Year	
General Education and/or Electives	6
ENGL101 or equivalent	3
MATH (depending on placement)*	3

BMGT110	3
First Semester Total	15
General Education and/or Electives	6
ECON200	3
COMM100, 107 or 200	3

BMGT221 (<i>Prereq BMGT220</i>)	3
BMGT230 or 231 or Elective	3
Fourth Semester Total	16

*See Freshman-Sophomore School requirements for appropriate math and statistics courses.

Advising

General advising for students admitted to the Smith School of Business is available Monday through Friday in the Office of Undergraduate Programs, 1570 Van Munching Hall, 301-405-2286, undergradinfo@rhsmith.umd.edu. It is recommended that students visit this office each semester to ensure that they are informed about current requirements and procedures. Transfer students entering the university can be advised during spring, summer, and fall transfer orientation programs. Contact the Orientation Office for further information, 301-314-8217, or visit <http://www.orientation.umd.edu>.

Minors

The Smith School offers a minors in Business Analytics, General Business, and Innovation & Entrepreneurship. For details on these minors visit <http://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/academic-minors>.

Specialized Academic Programs

The Smith School offers innovative special programs that create small communities of scholars within the larger Smith School community. For more information on the Smith School's special programs please visit <http://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/fellows-special-programs>.

College Honors Program

The Smith School Business Honors program offers students with superior academic achievements special opportunities and resources, including the opportunity to participate in cutting-edge research on business issues, and to graduate with honors. Students in the honors program take their upper-level BMGT core courses in small, seminar-style honors sections which allow in-depth exploration of business topics in marketing, finance, management and organization, business law, and policy and strategy. The Business Honors Program provides both a non-thesis and a thesis option, in which students work on an original research project under the supervision of a Smith School faculty member. Admission to the Smith School Honors Program is competitive. Students are selected on the basis of the following requirements:

- Minimum 3.5 cumulative grade point average
- Minimum 45 credit hours earned
- Completion of all BMGT pre-requisite courses by the end of Spring semester:

Principles of Accounting I and II: BMGT220 and 221
 Business Statistics: BMGT230 (or 231)
 Calculus: MATH120, 220 or 140
 Principles of Micro- and Macro- Economics: ECON200 and 201

Admission to the Smith School Honors Program takes place once a year in the Spring semester. For more information on the Smith School's Honors Program, please visit <http://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/fellows-special-programs/business-honors>.

Approved Student Societies and Professional Organizations

Student Professional Organizations

Students may choose to associate themselves with one or more professional organizations offered under the umbrella organization, Smith Undergraduate Student Association (SUSA). For more details, visit <http://www.rhsmith.umd.edu/programs/undergraduate-programs/community/clubs-organizations>.

COLLEGE OF COMPUTER, MATHEMATICAL, AND NATURAL SCIENCES (CMNS)

2300 Symons Hall, 301-405-4906

www.cmns.umd.edu

Dean: Jayanth R. Banavar

Associate Dean(s): Robert Infantino, Wolfgang Losert

Assistant Dean(s): Lisa Bradley-Klemko, Joelle Presson

Nationally and internationally recognized for our educational programs, research excellence, distinguished faculty and students, the College of Computer, Mathematical, and Natural Sciences (CMNS) (<http://cmns.umd.edu/>) is a critical educational and scientific resource benefiting the region and the nation. The College offers every student a high-quality, innovative, and cross-disciplinary educational experience. Strongly committed to making studies in the sciences available to all, the College actively encourages and supports the recruitment and retention of women and minorities underrepresented in our disciplines.

Our students participate in the Honors College (<http://www.honors.umd.edu/>), College Park Scholars (<http://www.scholars.umd.edu/>), the First-Year Innovation & Research Experience (FIRE) Program (<http://fire.umd.edu/>), Quest (<http://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/fellows-special-programs/quest>) and the Hinman CEOs programs (<http://www.mtech.umd.edu/hinman/>), other living learning communities, departmental honors programs, and many other co-curricular opportunities. Our students pursue research projects in faculty laboratories, or in the rich cluster of federal and private research institutions in proximity to our campus; they apply their lab and classroom skills through internships at area companies, non-governmental organizations, and in clinical settings. Excellent advising and career services guide our students through their academic program, and facilitate transition to graduate programs and professional schools, private-sector employment, and public service careers. Our innovative and entrepreneurial graduates pursue careers in a great many fields and professions.

In collaboration with the College of Education, we are working to increase the quality and number of teachers prepared to teach science and mathematics in secondary schools. In Fall 2014, we launched an innovative new program, Terrapin Teachers (<http://www.tt.umd.edu/>), support in part by a grant from the Howard Hughes Medical Institute. Our students in this new program are gaining experience through their science and pedagogy coursework, and are making an impact through work in local K-12 schools beginning in their first semester in the program.

Admission Requirements

Freshmen and transfer students interested in applying for admission should consult with the general university admissions information provided in Chapter 1 of this catalog. Admission to some CMNS majors is limited - please consult the information in Chapter 1 or the following link for information about Limited Enrollment Programs (<http://lep.umd.edu/>). Freshmen considering a major in a CMNS discipline should pursue a high school program of studies that includes four years of mathematics - preferably including algebra, geometry, pre-calculus, and calculus or more advanced topics. Students interested in pursuing majors in the life sciences and physical sciences should take three to four courses in the biological and physical sciences with laboratory. Students interested in Computer Science are encouraged to take high school Computer Science coursework, including AP Computer Science if it is available. Math and science courses work at the honors/AP/IB level is strongly encouraged.

For more information about admissions to the College, please contact Ms. Eden Garosi, CMNS Coordinator of Admissions Counseling and Recruitment, egarosi@umd.edu, 301-314-8375.

Undergraduate Degree Requirements/Degree Options

Please see individual department/major entries in Chapter 7 for specific information about specific undergraduate major requirements.

Advising

Every student in the College is assigned an academic advisor, who may be a faculty member or a professional staff member of the College or academic department. Advisors work with students to develop their programs and to ensure that they are making required progress toward the degree. Educational and career goals, academic progress, and pre-registration course planning are among the topics discussed during advising sessions. Advisors can also help students connect to valuable opportunities and resources on- and off-campus.

Advising is mandatory for most CMNS students, and all are encouraged to take advantage of this service. Specific information about advising appears on the College website at cmns.umd.edu/undergraduate/advising-academic-planning.

The University Career Center & The President's Promise

(<http://www.studentaffairs.umd.edu/university-career-center-the-president-s-promise>) provides a diverse array of resources and opportunities for students to explore and develop career-related aspirations - beginning as new students and even serving Terp alumni. The University Career Center@CMNS is a partnership that provides college-level career services support and activities more focused on the needs of CMNS majors. For more information, contact UCC@CMNS Program Director Rachel Wobrak (rwobrak@umd.edu) 1320 Symons Hall.

Students interested in pursuing careers in the health professions can find additional advising support from the Reed-Yorke Health Professions Advising Office (<http://www.prehealth.umd.edu/>), 1210 H.J. Patterson Hall, 301-405-7805.

Departments and Centers

The following academic departments deliver undergraduate courses and degree programs in CMNS:

Department of Atmospheric and Oceanic Science (<http://www.atmos.umd.edu/>)

Department of Astronomy (<http://www.astro.umd.edu/>)
 Department of Biology (<http://biology.umd.edu/>)
 Department of Cell Biology and Molecular Genetics (<http://cbmg.umd.edu/>)
 Department of Chemistry and Biochemistry (<http://www.chem.umd.edu/>)
 Department of Computer Science (<http://www.cs.umd.edu/>)
 Department of Entomology (<http://entomology.umd.edu/>)
 Department of Geology (<http://www.geol.umd.edu/>)
 Department of Mathematics (<http://www-math.umd.edu/>)
 Department of Physics (<http://umdphysics.umd.edu/>)

Undergraduates in CMNS also participate in research and co-curricular activities of the research programs, institutes, and centers of the college listed in the Research Units section below.

Majors

Astronomy
 Atmospheric and Oceanic Science
 Biochemistry
 Biological Sciences
 Chemistry
 Computer Science
 Environmental Science and Policy - Biodiversity and Conservation
 Geology
 Mathematics
 Physical Sciences
 Physics

Minors

The College offers minors in the following areas: Actuarial Mathematics, Astronomy, Atmospheric Chemistry, Atmospheric Science, Computer Science, Earth History, Earth Material Properties, Geochemistry, Geophysics, Hydrology, Mathematics, Meteorology, Physics, Planetary Science, Statistics, and Surficial Geology.

Living-Learning Programs

The College sponsors several living-learning programs which offer special academic and co-curricular opportunities to participants.

Advanced Cybersecurity Experiences for Students (ACES) (<http://www.aces.umd.edu/>) is the newest living learning program in the Honors College (<http://www.honors.umd.edu/>). It exposes students to the breadth of technical and non-technical aspects of this emerging field, preparing future leaders in the field of cybersecurity through an interdisciplinary curriculum, hands-on experience with real-world problems, and internships with companies and government agencies. Program Director - Dr. Michel Cukier.

The Integrated Life Sciences Program (ILS) (<http://www.ils.umd.edu/>) in the University Honors College was created to offer students enhanced cross-disciplinary training in the life sciences through an innovative curriculum and research and internship opportunities. The ILS program is directed by Dr. Todd Cooke.

CMNS faculty members also contribute to the course offerings of the Digital Cultures and Creativity (<http://dcc.umd.edu/>) honors program that emphasizes interdisciplinary approaches to exploring emerging technologies and their global impacts. The College sponsors three programs in the College Park Scholars (CPS) (<http://www.scholars.umd.edu/>) living-learning program which draw upon the breadth of the academic disciplines and faculty expertise in CMNS. Each of these two-year programs brings students together around a common disciplinary focus through courses, seminars, and experiential learning opportunities. The programs inspire students to develop their interests and intellectual capacity by building a community in which everyone has shared interests in scholarly pursuits, in close contact with faculty who are working at the forefront of their fields of expertise.

CPS - Life Sciences (<http://www.scholars.umd.edu/programs/lis>)
 Director: Dr. Reid Compton
 Assistant Director: Ms. Jess Wilke

CPS - Science, Discovery & the Universe (<http://www.scholars.umd.edu/programs/sdu>)
 Director: Dr. Alan C. Peel
 Assistant Director: Ms. Natalie Gaudette

CPS - Science and Global Change (<http://www.scholars.umd.edu/programs/sgc>)
 Director: Dr. Thomas R. Holtz, Jr.
 Associate Director: Dr. John Merck, Jr.

Specialized Academic Programs

An important part of the content of CMNS majors is delivered outside the classroom, with the greatest emphasis being on leveraging our strength: research. Our students experience scientific discovery first hand, as conceptual learning in class is integrated and applied. Each major provides access to a variety of research experiences that will provide opportunities to collaborate with faculty members, postdoctoral fellows, graduate, and undergraduate students. Our geographic location also offers many unique opportunities for students to gain research and internship experience in federal laboratories and agencies, private companies, and non-governmental organizations. Employers and graduate schools look for research experience in applicants. Be a part of the science discovery in CMNS, which places the college among the top public and private universities worldwide. More information about research opportunities are provided on the college website (<http://cmns.umd.edu/undergraduate/research-internships>), and on departmental webpages.

College Honors Program

In addition to our living learning programs described above, CMNS departments offer research-intensive departmental honors programs to which students may apply. Based on a student's performance in a multi-semester mentored research project and defense of a written thesis, the department may recommend that candidates receive their bachelor's degree with Departmental Honors or Departmental High Honors. Successful completion of departmental honors is recognized on a student's diploma and transcript. Participation in the University Honors College is not a prerequisite for participation in departmental honors programs. See individual CMNS department websites (<http://cmns.umd.edu/departments>) for more information.

Financial Assistance

The College Scholarships page (<http://cmns.umd.edu/undergraduate/scholarships>) provides a list of scholarships and awards administered at the College level for currently enrolled students, and information about the application process. Students complete an electronic application to be considered for all merit and need-based scholarships administered by the College for which they are eligible. The annual application deadline for scholarship applications for returning students is in May. See department websites (<http://cmns.umd.edu/departments>) for more information about undergraduate scholarships based in the departments of CMNS.

Awards

See the College website for a complete listing of undergraduate scholarships and awards (<http://cmns.umd.edu/undergraduate/scholarships>).

Research Units

In addition to our academic departments, many undergraduate students pursue mentored research projects in the College's research centers and institutes. Contact information for the centers and institutes are provided below. Information about the scope of research in the unit, as well as affiliated faculty, is provided on the website of each center or institute.

Center for Bioinformatics and Computational Biology (<http://www.cbcb.umd.edu/>)

3115 Biomolecular Sciences Building, 301-405-5936

Professor and Director: Eytan Ruppin

Center for Health-related Informatics and Bioimaging (<http://www.chib.umd.edu/>)

2119 A.V. Williams Building, 301-405-6722

Professor and Director: Amitah Varshney

Center for Nanophysics and Advanced Materials (<http://www.cnam.umd.edu/>)

0368 Physics Building, 301-405-8285

Professor and Director: Chris Lobb

Center for Scientific Computation and Mathematical Modeling (<http://www.cscamm.umd.edu/>)

4149 Computer Science Instructional Center, 301-405-0648

Professor and Director: Pierre-Emmanuel Jabin

Earth System Science Interdisciplinary Center (<http://essic.umd.edu/>)

5825 University Research Court, 301-405-5599

Professor and Director: Antonio J. Busalacchi

Institute for Advanced Computer Studies (<http://www.umiacs.umd.edu/>)

2119 A.V. Williams Building, 301-405-6722

Professor and Director: Amitabh Varshney

Institute for Physical Science and Technology (<http://www.ipst.umd.edu/>)

4211 Computer and Space Sciences Building, 301-405-4814

Professor and Director: Christopher Jarzynski

Institute for Research in Electronics and Applied Physics (<http://ireap.umd.edu/>)

Energy Research Facility, 301-405-4951

Associate Professor and Director: Thomas E. Murphy

Joint Quantum Institute (<http://iqi.umd.edu/>)

2207 Computer and Space Sciences Building, 301-405-1300

Professor and Co-Director: Steve Rolston

Co-Director: Dr. Charles Clark

Joint Space-Science Institute (<https://jsi.astro.umd.edu/>)

Professor and Co-Director: James Drake

301-405-1507

Maryland Cybersecurity Center (<http://www.cyber.umd.edu/>)

3400 A.V. Williams Building

Professor and Director: Jonathan Katz

Maryland Nanocenter (<https://www.nanocenter.umd.edu/>)

1119 Kim Engineering Building

Professor and Director: Gary Rubloff

Maryland Pathogen Research Institute (<http://cbmg.umd.edu/mpri>)

3102 Bioscience Research Building, 301-405-2156

Professor and Director: David Mosser

Norbert Wiener Center for Harmonic Analysis and Applications (<http://www.norbertwiener.umd.edu/>)

2211 Mathematics Building, 301-405-5058

Professor and Director: John J. Benedetto

National Socio-Environmental Synthesis Center (SESYNC) (<http://www.sesync.org/>)

One Park Place, Suite 300, Annapolis MD, 410-919-4810

Professor and Director: Margaret Palmer

Student Engagement and Service Units

The College Student Services Office coordinates orientation and advising services, reviews dean's exception to policy requests, and fields inquiries about academic regulations, transfer credit review, study abroad, and other undergraduate program matters. Each department is also served by an undergraduate program office which coordinates departmental academic advising

CMNS Student Services Office

1300 Symons Hall

301-405-2080

cmnsque@umd.edu

Students interested in pursuing careers in the health professions can find additional advising support from the Reed-Yorke Health Professions Advising Office (<http://www.prehealth.umd.edu/>), 1210 H.J Patterson Hall, 301-405-7805.

COLLEGE OF EDUCATION (EDUC)

1204 Benjamin Building, 301-405-2344
 www.education.umd.edu/studentinfo
 Dean: Donna L. Wiseman
 Associate Dean(s): Margaret J. McLaughlin, Jennifer King Rice
 Assistant Dean(s): Kathleen A. Angeletti

The College of Education is a professional college committed to preparing accomplished beginning and advanced-level professionals who can advance the learning and development of their students and who are ready to become leaders in their fields. The College seeks to foster the learning and development of PK-16 students through our educator preparation programs, leadership, research, advocacy, and partnerships. Educational inequities exist on multiple levels; therefore, we aim to prepare educators with the skills and commitments necessary to ensure equity for all students in the public schools and classrooms they will lead.

The college programs prepare educators, counselors, psychologists, administrators, researchers, and educational specialists. Graduates work with individuals from infancy through adulthood in schools, community agencies, colleges and universities. Educational programs are accredited/approved by the following: Council for the Accreditation of Educator Preparation (CAEP)/National Council for Accreditation of Teacher Education (NCATE), Maryland State Department of Education (MSDE), and the American Psychological Association. Accreditation provides reciprocal certification with most other states that recognize national accreditation.

MSDE issues certificates to teach in the public schools of the state. In addition to graduation from an approved program, MSDE requires satisfactory scores on the state Praxis licensure exams for certification. At the time of graduation, the College informs MSDE of the graduates' eligibility for certification. Under Maryland law, criminal background checks may be required and considered by MSDE in the awarding of teaching certification, and by employers before granting employment in the teaching field. Certification may be denied or revoked for individuals who have been convicted of crimes of violence and/or crimes against children. Additionally, some Maryland counties require a criminal background check prior to placement in an internship.

Special Advantages and Facilities

Students in the College of Education have the opportunity to work with an exemplary faculty. Among our ranks are nationally known faculty researchers who have made significant contributions to advancing theory and improving professional practice. In addition, the College's strategic location provides students with research opportunities that are unparalleled. Teacher candidates can complete their teaching internship and conduct research in school districts with highly diverse populations. The region also provides access to several research libraries, government agencies, not-for-profit organizations, and educational associations.

The College of Education offers many special resources and facilities to students, faculty, and the community, including the following centers:

- **The Center for Mathematics Education** provides a mathematics laboratory for undergraduate and graduate students. Occasionally there are tutoring services for children and adolescents. These services are offered in conjunction with special graduate and undergraduate courses in elementary and secondary school mathematics. Center faculty are engaged in research in mathematics education, serve as consultants to school systems and instructional publishers, and provide in-service teacher education in addition to graduate degree programs.
- **The Center for Young Children** is part of the Institute for Child Study/Human Development in the College of Education. It offers a creative learning experience for children three, four, and five years old. The Center engages in child study, curriculum development, and teacher preparation. Its research and observation facilities are available to parents, faculty, and other persons concerned with the care and education of young children.

Admission Requirements

Admission to Teacher Education Professional Course Work

Applicants to the University of Maryland who have declared an interest in education are admitted to a department in the College. All majors must meet the selective admission requirements for full admission into the College of Education in order to enroll in the professional sequence of the teacher education degree programs.

The admission process includes three steps:

1. **Pre-Admission Review:** Candidates must (1) complete the English and math lower-level fundamental studies (six credits) with a grade of "C-" or better; (2) earn 45 semester hours with an overall cumulative grade point average of at least 2.75 on a 4.0 scale; (3) complete gateway and/or specialization or major requirements for the program area with a minimum 2.70 GPA, and earn at least a "B" in any Education course identified by the program as a specific gateway prerequisite; (4) submit a personal goal statement that indicates an appropriate commitment to professional education; (5) have prior experiences in the education field; (6) submit three letters of recommendation/reference; (7) receive satisfactory ratings on the College of Education Technical Standards/Foundational Competencies (or submit a signed copy of the College of Education Foundational Competencies/Technical Standards Self-Assessment if formal evaluations have not yet occurred); (8) submit criminal history disclosure statement; and, (9) have passing scores on the Praxis I.
2. **Program Faculty review** the applications of the candidates who meet the above criteria and rate them on six components: (1) overall GPA, (2) GPA in gateway/specialization/major, (3) rating for prior experience, (4) rating of recommendations, (5) rating of application essay, and (6) review of Foundational Competencies evaluation/self-report.
3. **The faculty sets a minimum cut score for eligibility** based upon several factors (e.g., instructional resource capacity of the program/department, Professional Development School (PDS) placement capacity in the certification area, availability of high quality mentors in the certification area, work force need in the state, etc.). Candidates meeting at least minimum cut scores are scheduled for interviews. Program faculty re-ranks candidates based on aggregate scores from the complete profile - i.e., the six factors in step 2 plus the interview. The highest ranking individuals using the aggregate score are offered admission. [The total number admitted is based on target enrollment guidelines.]

Admission application forms are available in Room 1204 of the Benjamin Building. Only those who are admitted are able to enroll in the professional education sequence. An overall grade point average of 2.75 must be maintained after admission to Teacher Education to continue in the professional education programs. The program faculty is able to recommend selected other candidates for Discretionary Admission based on any of a variety of special considerations. Consult the Student Services Office (Room 1204 Benjamin Bldg.) for policies and procedures regarding Discretionary Admission.

Criteria for admission to the Teacher Education program apply to any teacher preparation program offered by the University of Maryland. Thus, undergraduates desiring a major in music or physical education should apply to the College of Education for admission to the professional program in Teacher Education. Individuals who are not enrolled in the College of Education but who, through an established cooperative program with another college are preparing to teach, must meet all admission, scholastic and curricular requirements of the College of Education. The courses in the professional education sequence are restricted to teacher candidates who are enrolled in an approved teacher preparation program and degree-seeking majors who have met College of Education requirements for admission and retention.

Gateway Requirements for Early Childhood and Elementary Education Programs

In order to meet the Maryland State Department of Education's (MSDE's) institutional performance criteria for the Redesign (i.e. strong

math and science background for early childhood and elementary education teacher candidates), prospective majors in these programs need to fulfill additional performance criteria. In addition to the requirements for admission to teacher education that are listed above, early childhood and elementary education majors must satisfy the following gateway requirements:

- 1. Completion of a four-credit general education laboratory physical science, a four-credit general education laboratory biological science, Elements of Numbers and Operations (MATH212), and Elements of Geometry and Measurement (MATH213) with a minimum grade of "C-" in each class and a 2.7 cumulative GPA across all four courses.*
- 2. Completion of Looking Inside Schools and Classrooms (EDCI280) or Exploring Teaching in Early Childhood (EDHD220) with a grade of "B-" or better.*
- 3. Passing scores on the Praxis I: Academic Skills Assessments (Applicants will be required to meet the individual cut-off scores for each of the three Praxis I assessments. A composite score will not be accepted for admission.)*

In keeping with the campus undergraduate admissions policy, the College of Education will admit as many freshmen as possible as "pre-service" education majors. Internal and external transfers who have completed fewer than 60 credits and who have not yet met the standards required for enrollment in the professional degree programs also will be admitted as "pre-service" education majors. For directly admitted freshmen, the above admission requirements will serve as the criteria for the sophomore (early childhood, elementary, and special education) or junior (secondary education) level review. For internal and external transfers, these criteria make up the "gateway." Teacher candidates who pass the sophomore/junior level review or the gateway will be admitted into the professional degree programs. Transfers with sixty or more credits will be granted permission to enroll as a pre-service major in education, provided they have maintained at least a 2.75 GPA and successfully completed the lower-level fundamental studies with a minimum grade of "C-" or better. These individuals will be given one semester to meet the requirements for admission to teacher education.

Detailed information regarding admission to the Teacher Education program, including the gateway requirements for Early Childhood or Elementary Education, is available in the Student Services Office, Room 1204 Benjamin (301-405-2344).

Undergraduate Degree Requirements/Degree Options

The College of Education confers the degrees of Bachelor of Arts (B.A.) or Bachelor of Science (B.S.) depending on the amount of liberal arts study included in a particular degree program. Minimum requirements for graduation are 120 semester hours. Specific departmental program requirements for more than the minimum must be fulfilled. In addition to the university's general education requirements and the specific requirements for each curriculum, the College requires that all majors complete a Foundations of Education course (e.g., EDPS301) and, depending upon the teacher education major, six to twelve semester hours of reading course requirements. A grade of "C-" or better is required in all pre-professional and professional course work required for the major. An overall grade point average of 2.75 must be maintained after admission to Teacher Education. A grade of "S" is required in the teaching internship. All teacher candidates are required to obtain satisfactory evaluations on the College of Education Foundational Competencies/Technical Standards and attain qualifying scores for the State of Maryland on the Praxis I and Praxis II assessments. Detailed information about the Praxis assessments is available in the Student Services Office, Room 1204 Benjamin. Exceptions to curricular requirements and rules of the College of Education must be recommended by the teacher candidate's advisor and department chairperson and approved by the Dean.

Yearlong Internship

The yearlong internship, which is the culminating experience in the teacher preparation program, takes place in a collaborating school (i.e., partner school - Professional Development School (PDS)). Each teacher candidate's internship will vary according to the unique attributes of their teacher education program. All internships will provide teacher candidates with the opportunity to integrate theory and practice through a comprehensive, reality-based experience. The yearlong internship is arranged through the College of Education in collaboration with the school site coordinators, PDS Coordinators, and the designated schools in the partnership.

The yearlong internship is a full-time commitment. Interference with this responsibility because of employment or course work is strongly discouraged. Teacher candidates assigned to schools for this internship are responsible for their own transportation and living arrangements and should be prepared to travel to whichever school has been assigned. The final semester of the yearlong internship requires a special fee. Please consult the course listings within [Testudo](#) for the current lab fee. During the teaching internship, teacher candidates should be prepared to adhere to the academic schedule/calendar for the school system in which they are placed. In order to receive a yearlong internship placement, all teacher candidates must make application the semester prior to the internship year. Prospective interns must have been admitted to Teacher Education and have completed all prerequisites. Prior to assignment, all candidates in teacher preparation programs must have: (1) maintained a minimum overall grade point average of at least 2.75 with a minimum grade of "C-" in every course required for the major; (2) satisfactorily completed all other required course work in their program; (3) received a favorable recommendation from their department; (4) attained qualifying scores for the State of Maryland on the Praxis I and Praxis II assessments; (5) applied for a year-long internship placement through the College of Education during the semester prior to the internship year; (6) received favorable ratings from prior supervised experiences in school settings; (7) received favorable evaluations on the College of Education Foundational Competencies/Technical Standards; and (8) submitted a criminal history disclosure statement. In addition, state law gives the local school to which the intern is assigned the discretion to require a criminal background check prior to placement. Early Childhood Education majors must have a certificate indicating freedom from tuberculosis and proof of immunization.

Note: All registrations in the teaching internship, regardless of whether an intern withdraws or takes a leave of absence, will be counted as an attempt under the campus repeat policy. Only two registrations will be allowed. After two registrations, further attempts at the teaching internship must be approved by the department and the school system professionals involved in the teacher candidate's internship experience.

College of Education Foundational Competencies/Technical Standards

All candidates in the UM professional preparation programs are expected to demonstrate that they are prepared to work with children and youth in educational settings. This preparation results from the combination of successful completion of university coursework and field/internship experiences and the demonstration of important human characteristics and dispositions that all educators should possess. These characteristics and dispositions, the College of Education Foundational Competencies/Technical Standards, are grouped into seven categories: English Language Competence, Interpersonal Competence, Work and Task Management, Analytic/Reasoning Competencies, Professional Conduct, Physical Abilities, and Professional Dispositions.

Foundational Competencies/Technical Standards serve several important functions, including, but not limited to: (a) providing information to those considering pre K-12 and community professional careers that will help such individuals in their career decision-making; (b) advising applicants of non-academic criteria considered in admissions decisions made by the University's pre K-12 and community professional preparation programs; (c) serving as the basis for feedback provided to candidates in these programs regarding their progress toward mastery of all program objectives; and (d) serving as the basis for the final assessment of attainment of graduation requirements and recommendation for certification.

Candidates in the undergraduate teacher preparation programs will be required to achieve satisfactory ratings on the College of Education Foundational Competencies/Technical Standards (or, if evaluations are not yet available, submit a College of Education

Foundational Competencies/Technical Standards Acknowledgment Form) as part of the College's selective admissions review in the sophomore or junior year. Self-assessments of candidates and faculty evaluations on the Foundational Competencies/Technical Standards also will occur during each field/internship experience. Teacher candidates will be monitored and given feedback throughout the program. At specified points, they will be notified of inadequacies that may prevent them from progressing through their program. Documentation and consensus regarding the teacher candidate's functioning will be sought before any action is taken. Candidates who experience deficiencies in any areas will be encouraged to seek appropriate professional help from university or other sources. If the problem seems to be beyond remediation, admission and/or continuation in the professional programs, graduation, or recommendation for certification may be denied.

Foundational Competencies/Technical standards may be met with, or without, accommodations. The University complies with the requirements of Section 504 of the Rehabilitation Act and the Americans with Disabilities Act of 1990. Therefore, the College of Education will endeavor to make reasonable accommodations with respect to these standards for an applicant with a disability who is otherwise qualified. For detailed information on the College of Education-Foundational Competencies/Technical Standards, see www.education.umd.edu/studentinfo/teachercert.html.

LiveText Portfolio Requirement:

The College recently instituted a new learning electronic portfolio and accreditation management system for its teacher preparation programs. An active subscription to LiveText is a requirement for the courses that comprise the professional education curriculum. Teacher candidates will be expected to submit a number of their course and portfolio assignments through LiveText.

The LiveText account, which can be purchased at the University Book Center, is a one-time purchase that is comparable in price to the cost of a textbook. These accounts will last for a full year after graduation so that education majors can use their electronic LiveText portfolios in the job seeking process. For more information about LiveText, contact Dr. Kathy Angeletti, Assistant Dean (kangel@umd.edu).

Advising

The Office of Student Services provides academic advising for education majors regarding admission, orientation, registration, graduation, and certification. Advising is mandatory in the College of Education: Education majors must be advised prior to registration each semester. Teacher candidates are required to complete an academic audit in the Office of Student Services upon admission to the professional teacher education degree program. Undergraduates are expected to complete their degree program in a timely manner and to adhere to program benchmarks. Information about program benchmarks and four-year plans is available on the Student Services website at http://www.education.umd.edu/studentinfo/undergraduate_info/index.html.

Departments and Centers

The College includes a number of centers that offer special resources and facilities to students, faculty, and the community, including the following:

Center for Children, Relationships, and Culture
Center for Educational Policy and Leadership
Center for Mathematics Education
Center for Young Children
Institute for Child Study
Institute for Exceptional Children and Youth
International Center for Transcultural Education
Maryland Institute for Minority Achievement and Urban Education
Maryland Assessment Research Center for Education Success
Reading Center
Science Teaching Center

Minors

The College of Education offers five minors:

1. The Minor in Secondary Education includes 15 credits and provides opportunities for undergraduate subject area majors to enroll in a sequence of education courses that helps them to determine if teaching is a viable career option for them. For more information about the secondary education minor, contact the program advisor, 1204 Benjamin Building.
2. The Minor in Second Language Education (TESOL) provides opportunities for undergraduate subject area majors to complete a sequence of courses that helps them prepare for careers as teachers of English as a second language in US schools and/or prepares them for roles as teachers of English as a foreign language in international settings. It includes coursework from Curriculum and Instruction and from Human Development. For more information about the TESOL minor, contact the program advisor, 1204 Benjamin Building.
3. The Minor in Special Education provides opportunities for undergraduates to enroll in a sequence of education courses to determine if working with students with disabilities is a viable career option. For individuals who are interested in pursuing this career option, a one-year M.Ed. program, leading to certification as a special educator, is also available. The minor is under review. For more information about the 18-credit special education minor, contact the Office of Student Services, 1204 Benjamin Building. NOTE: This program is currently under review.
4. The Minor in Human Development provides a rigorous foundation in human development for undergraduates who wish to support their major field of study with knowledge of human growth and development across multiple domains and developmental stages, as well as knowledge related to principles of teaching and learning, and/or who desire active participation in human development research under the supervision of Human Development faculty in laboratory settings. Contact the contact the Human Development Minor advisor, Ms. Shannon Hayes, at shaves@umd.edu, or 301-405-5612, for more information or to arrange an advising appointment. Ms. Hayes' office is located in 1204 Benjamin Building.
5. The EDCP Minor in Leadership Studies promotes college student leadership development by educating undergraduate students *for* and *about* leadership in a complex world. The goal of the minor is to prepare students to serve effectively in formal and informal leadership roles in campus, local, national, and global contexts. Faculty and students in the minor are dedicated to advancing the field of leadership studies by building upon and critically evaluating existing theoretical, research-based, and practical knowledge. For the list of approved courses and additional details regarding the EDCP Minor in Leadership Studies, please visit <http://umddepartments.orgsync.com/org/leadershipstudies/>.

Specialized Academic Programs

Secondary Education Program Options: The College of Education has multiple pathways for individuals who are interested in teaching at the secondary level:

The Dual Major option, which is designed for incoming freshmen or sophomores, leads to the Bachelor's degree with a major in an academic content area plus a second major in secondary education. All secondary majors are required to have an academic content major which satisfies the requirements of the academic department and meets the standards for teacher certification. Candidates who

follow the proposed sequencing of courses can complete both majors in four years with careful advisement and scheduling.

The **Certificate Program** requires completion of an academic major - including coursework specific to meet certification standards in the certificate area - and a bachelor's degree in an approved academic content area, plus the completion of a certificate program in secondary education to meet requirements in UM's approved program for MSDE certification. Selected coursework from the Minor in Secondary Education may be taken prior to admission to the Certificate Program option. *(The Certificate Program is currently under review. For additional information, contact the Office of Student Services, 1204 Benjamin.)*

The **Five-Year Integrated Master's with Certification Program** for content majors entering the junior or senior year, is for talented undergraduates with a minimum GPA of 3.0 who seek to combine undergraduate studies in the content area and professional education as a foundation for a focused professional year at the graduate level leading to secondary-level certification in the subject field and the Master's of Education degree. Candidates who are admitted to the program complete their baccalaureate degrees with a major in the relevant content area and a minimum of 12 credits in professional education studies related to teacher certification requirements. In their fifth year, they enroll in a full-year internship and complete graduate-level professional studies that make them eligible for teacher certification and the master's of education degree.

The **Mathematics Education** and **Science Education** programs are currently under review. For more information, please visit the **Terrapin Teachers** website <http://terrapinteachers.umd.edu/>

For detailed information about these secondary education program options, contact the Office of Student Services, 1204 Benjamin Building.

College Honors Program

Undergraduate teacher education majors meeting certain scholastic requirements may participate in the College of Education Honors Program. The objective of this program is to examine the field of education at levels of depth and breadth that go beyond that provided by any one teacher preparation sequence. The program consists of three components: group, cross-disciplinary, and individual study. The Honors Program represents an excellent springboard for teacher candidates with aspirations to go on to graduate school. For further information contact the College of Education Office of Student Services (1204 Benjamin).

Approved Student Societies and Professional Organizations

The College sponsors chapters of Phi Delta Kappa; the Teacher Education Association of Maryland Students (TEAMS), a state/national education association; the College of Education Student Assembly, a student governance organization; and Kappa Delta Pi, an honor society in education. The Mary McLeod Bethune Society is a pre-professional organization concerned with minority issues and education. Student Educators of Young Children (SEYC) is a student organization sponsored by the Maryland Association for the Education of Young Children (MDAEYC), an affiliate of the National Association for the Education of Young Children (NAEYC). A chapter of the Council for Exceptional Children is open to teacher candidates in Special Education.

The Plan of Organization for the College of Education calls for undergraduate student representation on both the College of Education Assembly and College Senate. These organizations assume a critical role in policy development for the College of Education. The Assembly meets at least once a year during the fall semester for its annual meeting. Senate meetings typically occur once a month during the fall and spring semesters. Nine full-time undergraduates are elected as voting members of the College Assembly. The chair of the Undergraduate Student Assembly also serves as a voting member of the College of Education Assembly. Of the nine Assembly members, one is elected to serve as a delegate to the College of Education Senate. For further information about the College Assembly or Senate, contact the Office of Student Services, Room 1204 Benjamin.

In several departments there are informal organizations of students. Students should contact the individual departments or, in the case of College-wide groups, the Student Services office, for additional information regarding these organizations.

Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information (including details regarding TEACH grants), visit: www.financialaid.umd.edu.

In addition, contributions from the College of Education Alumni and Friends have made it possible to award a number of \$1,000 scholarships to deserving teacher education candidates each academic year. These awards are based on the following criteria:

- academic performance
- financial need
- leadership and contributions to the field of education or commitment to potential leadership in the field of education
- encouragement of a diverse and multicultural community

Scholarship applications may be obtained in the Office of Student Services (1204 Benjamin). Applications also are available on-line: <http://www.education.umd.edu/studentinfo/scholarships.html>

For more information about the College of Education Scholarships, including deadlines and application materials, contact the Office of Student Services (1204 Benjamin).

Awards

Maryland Teachers of Promise Program

Each year, the College identifies five to seven of its most promising gifted pre-service educators, who are seniors and who plan to teach in the state of Maryland. These individuals become part of a select group of outstanding pre-service and veteran teachers participating in a mentor-protégé program and educational Institute. As part of the program, each teacher candidate is paired with an award-winning veteran teacher mentor (Teacher of the Year, Milken National Educator, Blue Ribbon School Master Teacher, etc.), who provides guidance and support during the transition period into teaching. For more information about this program, contact Dr. Kathy Angeletti, Assistant Dean (kangel@umd.edu).

Student Engagement and Service Units

Student Services Office

1204 Benjamin Building, 301-405-2344
www.education.umd.edu/studentinfo

The Student Services Office provides academic advising for education majors regarding admission, orientation, registration, graduation, and certification. Information about the Praxis assessments and the College of Education Scholarships also is available in

Student Services.

Educational Technology Services

0234 Benjamin Building, 301-405-3611

Educational Technology Services helps the College advance the effective use of technology in support of student learning. The Center provides a range of technology and media resources and services to faculty and students. The Center also offers professional development courses, technology planning, consulting assistance, and other outreach services to educators and policy makers throughout the state and region. A number of research, development, and demonstration activities in educational technology also are conducted through the Center's grants and contracts with federal, state, and private funding sources.

Career Center

3100 Hornbake Library; 301-314-7225

www.CareerCenter.umd.edu

The Employment Registration Program (TERP) includes job listings in private and public schools and institutions of higher learning, on-campus interviews with in-state and out-of-state school systems, and resume referral to employers interested in hiring education majors. Information and applications from school systems throughout the country, job search publications, and various employment directories also are available in the Career Center.

A. JAMES CLARK SCHOOL OF ENGINEERING (ENGR)

3110 Jeong H. Kim Engineering Building, 301-405-8335

www.eng.umd.edu

Dean: Darryll Pines

Associate Dean(s): William Fourney, Peter Kofinas, Robert Briber

The University of Maryland's A. James Clark School of Engineering is a premier program, ranked among the top 20 in the world. Located just a few miles from Washington, D.C., the Clark School is at the center of a constellation of high-tech companies and federal laboratories, offering students access to unique opportunities to prepare for and launch rewarding careers.

We combine rigorous classroom learning with opportunities for hands-on educational experiences, including the autonomous vehicle project in freshman year and capstone courses in junior and senior years; participation in numerous national and international engineering competitions in which the school is consistently successful; a vibrant entrepreneurial ecosystem; and extensive internship opportunities.

We offer students the chance to engage in cutting-edge research, whether in the many labs run by prominent faculty members in state-of-the-art facilities, or with potential employers in nearby federal research labs and corporations. Research enables students to dig deeper into their majors or explore new areas of possible interest.

With one of the nation's most active chapters of Engineers Without Borders, Clark School students can apply their skills and energies in the service of less fortunate people all around the world. Service options closer to home are available through the many student societies, alternative spring breaks and targeted initiatives started by fellow students.

It is this range of opportunities that makes the Clark School so valuable to talented, ambitious students who want a deeper university experience. We encourage you to explore further by visiting www.eng.umd.edu.

Admission Requirements

Direct Admissions Requirements

Admission to the Clark School of Engineering is limited. Applicants are reviewed and will be admitted directly on a competitive basis. Evaluation is based on high school grades, standardized test scores, activities, leadership and demonstrations of potential to succeed. An applicant may apply to any of the majors offered within the School. An applicant also has the option of entering as an Undecided Engineering major and will typically choose a degree program in the first year.

Directly admitted freshmen will be subject to an academic review at the end of the semester in which they attain 45 University of Maryland credits. In order to successfully complete the review, students must have an overall GPA of at least 2.0 and have completed ENES100, Fundamental Studies English, and the following sequence of Gateway requirements: MATH141, PHYS161, and either CHEM 135 or CHEM 271 or CHEM134 with a minimum grade of "C-". Students who take CHEM134 must also have completed CHEM131 with a minimum grade of "C-".

Only one repeat of a single course to the set of Gateway courses, either at the University of Maryland or at any other university or college, will be considered to meet the review requirements. A course in which a grade of W (withdrawn) is earned is counted as an attempt. Students who fail to meet these requirements by the semester in which they attain 45 University of Maryland credits may be dismissed from the Clark School and may not reapply. Dismissed students may appeal in writing directly to the Associate Dean for Undergraduate Affairs in the Clark School.

Transfer Admission

Direct Admissions Requirements

Internal and external transfer students will be directly admitted to the Clark School if they meet the Gateway requirements; MATH141 with a "B-", PHYS161 with a "B-", either CHEM135 or CHEM271 or CHEM134 with a minimum grade of "C-" (Students who take CHEM134 must also have completed CHEM131 with a minimum grade of "C-"), have a minimum cumulative GPA of 3.0 in all college-level coursework, and have not previously been admitted to the Clark School of Engineering. **Students interested in transferring to the Department of Bioengineering must also complete BIOE120 with a minimum grade of "B-" or better for admission.** Only one repeat of a single course to the set of Gateway courses, either at the University of Maryland or at any other university or college, will be considered to meet the review requirements. A course in which a grade of W (withdrawn) is earned is counted as an attempt. Students should wait until all gateway requirements are complete before applying for admission to the School.

Appeal Process

All students denied admission to the Clark School may appeal the decision in writing directly to the Associate Dean of Undergraduate Affairs in the Clark School. External transfer students who are denied admission to the University may appeal to the Office of Undergraduate Admissions of the University.

Engineering Transfer Programs

Most of the community colleges in Maryland provide one- or two-year programs which have been coordinated to prepare students to enter the sophomore or junior year in engineering at the University of Maryland. These curricula are identified as Engineering Transfer Programs in the catalogs of the sponsoring institutions. The various associate degree programs in technology do not provide the

preparation and transferability into the degree curricula as the designated transfer programs. A maximum of one-half of the degree credits (approximately 60 semester hours) may be transferred from a two-year community college program.

There may be some courses which are not offered by the schools participating in the Engineering Transfer program. Students should investigate the feasibility of completing these courses in summer school at the University of Maryland before starting their junior course work in the fall semester.

Undergraduate Degree Requirements/Degree Options

Structure of Engineering Curricula: Courses in the normal curriculum or program and prescribed credit hours leading to the degree of Bachelor of Science (with curriculum designation) are outlined in the sections describing each department in the Clark School of Engineering. No student may modify the prescribed number of hours without special permission from the Dean of the School. The courses in each curriculum may be classified in the following categories:

1. Courses in the General Education Program,
2. Courses in the physical sciences, mathematics, chemistry, and physics.
3. Related technical courses, engineering sciences and other courses approved for one curriculum but offered by another department.
4. Courses in the major department. A student should obtain written approval for any substitution of courses from the department chair and the Dean of the School. The courses in each engineering curriculum, as classified below, form a sequential and developmental pattern in subject matter. In this respect, curricula in engineering may differ from curricula in other colleges. Some regulations which are generally applicable to all students may need clarification for purposes of orderly administration among engineering students (see the Academic Regulations in Chapter 4). Moreover, the Clark School of Engineering establishes policies which supplement university regulations.

School Regulations

1. The responsibility for proper registration and for satisfying stated prerequisites for any course must rest with the student as does the responsibility for proper achievement in courses in which the student is enrolled. Each student should be familiar with the provisions of this catalog, including the Academic Regulations.
2. Required courses in mathematics, physics, and chemistry have highest priority. It is strongly recommended that every engineering student register for mathematics and chemistry or mathematics and physics each semester until the student has fully satisfied requirements of the Clark School of Engineering in these subjects.
3. To be eligible for a bachelor's degree in the Clark School of Engineering, a student must have an overall cumulative grade point average of at least a 2.0, a "C-" or better in all engineering degree requirements including: BIOE, BCHM, BSCI, CHBE, CMSC, ENXX, ENSP and GEOL. Students matriculating to UM in the fall of 2012 or after must also have a 2.0 cumulative GPA in their major courses, minor courses and classes used to satisfy certificate programs.
4. In addition to the requirement for a "C-" or better in all engineering, CMSC, and degree requirements, all students who begin college-level work, either at the University of Maryland or any other institution in the Spring 2005 semester or later, must receive a grade of "C-" or higher in all technical courses (e.g. mathematics, physics, chemistry, etc.) used to satisfy major requirements.
5. A course taken at UM in which a grade has been earned may not be repeated via transfer from another institution.
6. Students in the Clark School of Engineering must have a minimum 2.0 University of Maryland GPA to enroll in courses at another institution.
7. All students are required to complete a number of general education courses and must follow the university's requirements regarding completion of the General Education Program. Consult the Academic Regulations section of this catalog for additional information. Engineering students who began college-level work (either at the University of Maryland or at other institutions) during the Fall 1989 semester or later are required to complete a junior-level technical writing course, ENGL393, regardless of their performance in freshman English classes. This represents a School policy, not a University-wide policy.
8. All degree programs in the Clark School of Engineering require a minimum of 120 credits plus satisfaction of all department, School, and University general education program requirements. Students should be aware that for all currently existing engineering programs the total number of credits necessary for the degree exceeds 120 by some number that depends on the specific major.

Curricula for the various engineering departments are given in this catalog to illustrate how the programs can be completed in four years. These curricula are rigorous and relatively difficult. Surveys have shown that only about one-third to one-half of the students actually receive an engineering degree in four years. The majority of students (whether at Maryland or at other engineering schools nationwide) complete the engineering program in four and one-half to five years. It is quite feasible for a student to stretch out any curriculum; this may be necessary or desirable for a variety of reasons. However, students should seek competent advising in order to ensure that courses are taken in the proper sequence.

All students are urged to complete a senior audit using uAchieve and review with their departmental advisor at least two semesters prior to graduation. The purpose of the senior audit is to discuss academic progress and confirm that graduation requirements are being completed.

Departments and Degrees

The Clark School of Engineering consists of eight academic departments and offers the degree of Bachelor of Science in the following fields of study: Aerospace Engineering, Bioengineering, Chemical Engineering, Civil Engineering, Computer Engineering, Electrical Engineering, Fire Protection Engineering, Materials Science and Engineering, and Mechanical Engineering. All of the above programs are accredited by the Engineering Accreditation Commission of ABET, www.abet.org, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: (410) 347-7700.

Freshman-Sophomore Years

The freshman and sophomore years in engineering are designed to lay a strong foundation in mathematics, physical sciences, and the engineering sciences upon which the student will later develop a professional program during the upper division (junior and senior) years. During the first two years, students are introduced to the concepts of engineering design and work in multidisciplinary teams. The School course requirements for the freshman and sophomore years are similar for all students, regardless of their intended academic program, thus affording the student maximum flexibility in choosing a specific engineering specialization.

Engineering Sciences

Engineering Science courses represent a common core of basic material offered to students of several different departments. All freshman and sophomore students of engineering are required to take ENES100. Other ENES courses, 102, 220, 221, and 232 are specified by the different departments. The responsibility for teaching the engineering science courses is shared among faculty from

different departments by means of the Keystone Program. In addition to the core courses noted above, several courses of general interest to engineering or non-engineering students have been given ENES designations.

Freshman Curriculum

See individual department requirements in the Departments and Majors section of this site. For entering freshmen, the math placement is determined solely by performance on the University math placement exam and not on the Math SAT score. Placement in MATH115 or lower will delay by a semester eligibility to take certain engineering courses.

Sophomore Year

No later than the sophomore year, a student should select an academic degree program (Aerospace, Bioengineering, Chemical, Civil, Computer, Electrical, Fire Protection, Mechanical, or Materials Science and Engineering) and this department assumes the responsibility for the student's academic guidance, counseling, and program planning from that point until the completion of the degree requirements of that program as well as the School. For the specific requirements, see the curriculum listing in each engineering department.

Advising

Advising is mandatory prior to registration each semester for all students in the Clark School. Each engineering department has a representative who advises students in their respective discipline. Undecided engineering students are advised by the Office of Undergraduate Advising & Academic Support until they have declared a major. Refer to the individual program for additional advising information. During orientation to the University, all students will receive advising from the Office of Undergraduate Advising & Academic Support.

Departments and Centers

Advising is mandatory prior to registration each semester for all students in the Clark School. Each engineering department has a representative who advises students in their respective discipline. Undecided engineering students are advised by the Office of Undergraduate Advising & Academic Support until they have declared a major. Refer to the individual program for additional advising information. During orientation to the University, all students will receive advising from the Office of Undergraduate Advising & Academic Support.

Minors

Computer Engineering: 18 credits. The minor in Computer Engineering is a program offered by the Department of Electrical and Computer Engineering. The minor will introduce students to core hardware concepts, such as computer architecture, digital logic design, and digital circuit design, as well as core software concepts, such as algorithms, discrete mathematics, and programming. Students will also learn how hardware and software interact at the interface. With a minor in computer engineering, students will not only receive preparation for entry into the computer industry, but they will also become more effective at applying computing in their primary field of study. For more information, please visit the minor website at www.ece.umd.edu/undergrad/ce-minor

Construction Project Management: 15 credits. A minor in Construction Project Management will prepare students for employment in one of the many careers related to the built environment, such as project management, architectural engineering, design and commercial construction. Students will learn how to manage multiple phases of operation and management in the construction process including building information modeling, cost estimating, project scheduling, construction financing and planning. The Construction Project Management minor is ideal for students in Architecture, Engineering and similar fields. This minor is designed to give students a competitive advantage when applying for a job in the construction industry. This minor is only available to undergraduate students in the Clark School of Engineering and the School of Architecture, Planning and Preservation who have earned at least 60 credit hours (Junior standing) and have a UMD grade point average of 3.0 or higher. For more information on this minor, students in the School of Engineering should contact Dr. Qingbin Cui at cui@umd.edu, and students in the School of Architecture should contact Heidi Bulich at hbulich@umd.edu

Engineering Leadership Development: 16 credits. The goal of the minor in engineering leadership development is to prepare engineering students for leadership roles in industry and to develop the skills most attractive to employers. The minor will complement the technical skills and knowledge students acquire in their engineering coursework to better prepare them to engage in leadership within industry. Students may earn the minor and a notation on their official transcript by completing coursework which focuses on communication, leadership theory, global awareness, project management, understanding oneself, and working effectively with others. Contact the minor advisor, Ramsey Jabaji (rjabaji@umd.edu), or visit the web at www.ilp.umd.edu for more information.

International Engineering: Minimum of 15 credits. In addition to a strong engineering background, there is a need for engineers with cross-cultural experience and foreign language abilities. Students may earn the minor by completing a course in International Business Cultures for Engineering and Technology, a Global Studies Minor Program signature course, and additional courses in language, culture studies, or internationally related studies, plus an engineering experience abroad. Contact the minor advisor, Jane Fines (jfines@umd.edu), or visit the web at www.ilp.umd.edu for more information. Students who fulfill minor requirements will receive a notation on their official transcript.

Nanoscience and Technology: 15 credits. Explosive growth in the field of nanometer scale science and technology (NS&T) has led in the past few years to many technological advances in devices and materials structured at the nanometer scale. The Interdisciplinary Minor Program of Study in Nanoscience and Technology is intended to prepare participating students for a career in this rapidly developing field. This program draws upon the considerable expertise in nanoscience at the University of Maryland, in departments distributed among two schools: The Clark School of Engineering, and the College of Computer, Mathematics and Natural Sciences. Students take courses in Fabrication/Synthesis and Characterization, which emphasize the experimental side of NS&T, as well as Fundamental Science and Specialization Electives, which teach the underlying principles and directions, and include underlying theory and the motivations for NS&T. Visit the web site <http://www.mse.umd.edu/undergraduate/nanominor> for more information.

Nuclear Engineering: 15 credits. The need for engineers with knowledge of nuclear engineering topics will grow significantly in the coming years, with new nuclear plants being planned, existing plants continuing operation, and increasing industrial and medical uses of radiation sources. The minor in Nuclear Engineering provides an engineering student with an understanding of nuclear engineering and its application to many different fields, such as power generation, reactor operation, and industrial uses. Students in the minor will learn the fundamentals of nuclear reactor engineering, radiation interactions and measurement, power plant design concepts, and reactor safety and risk assessment. The minor is open to any student in the Clark School of Engineering. Contact Dr. G.A. Pertmer (pertmer@umd.edu) for further information. Students who fulfill minor requirements will receive a notation on their official transcript.

Project Management: 15 credits. A basic understanding of project management is becoming increasingly important for engineers. Such knowledge enables them to contribute immediately to employers, and to advance their careers. In addition to a strong engineering background, there is significant need for engineers to understand the fundamentals of managing projects in order to effectively participate as members of project teams. Students who successfully complete minor requirements will receive a notation on their official transcript. Contact Dr. Qingbin Cui, Project Management Minor Advisor (cui@umd.edu) or visit the web site: <http://pm.umd.edu/>

Technology Entrepreneurship: 15 credits. The Minor in Technology Entrepreneurship prepares students for launching successful technology ventures and bringing life-changing products and services to market. The minor develops the entrepreneurial mind-set and functional skillsets of students to improve their ability to create, launch, and manage technology ventures. Students earn the minor by completing coursework which focuses on entrepreneurial opportunity analysis, marketing high-technology products, strategies for managing innovation, and international entrepreneurship and innovation. For details and contact information, visit <http://www.mtech.umd.edu/educate/minor/>

Living-Learning Programs

Flexus: The Dr. Marilyn Berman Pollans Women in Engineering Living & Learning Community

Women in Engineering Program
0110 Easton Hall/1131 Glenn L. Martin Hall
301-405-6610/301-405-3931

Director: Paige Smith

The Women in Engineering Living & Learning Community (WIE LLC) is open to any first-year female engineering student with an interest in promoting gender diversity in the field of engineering. Students who complete the first year of the program are invited to participate in a second year. The program seeks to promote community among first and second year engineering students committed to gender diversity in the field and to provide encouragement and support for academic and professional success by:

1. introducing students to women mentors and role models;
2. offering professional and personal development opportunities;
3. helping students make connections with peers in engineering and
4. reinforcing important technical skills needed to succeed in engineering.

The components of this living and learning community include a one credit seminar course, taking the first math, science and engineering courses together, residential housing on a common floor in Easton Hall and resources provided in the residence hall. Participants will also have the opportunity to work closely with Virtus: a Living and Learning Community for Success in Engineering

Virtus: A Living and Learning Community for Success in Engineering

Successful Engineering Education and Development Support Program

0110 Easton Hall/1131 Glenn L. Martin Hall
301-405-6610/301-405-3936

Coordinator: Tamara Fuller

Virtus provides first-year male engineering students access to an engineering based living and learning environment. The primary goal of Virtus is to promote community among first and second year engineering students and to provide support for academic and professional success. Living in Easton Hall, participants will be introduced to a diverse range of mentors and role models and offered professional and personal development opportunities. In addition to a common residence floor, the components of this living and learning community include a one credit seminar, taking the first math, science and engineering courses together, and resources provided in the residence hall. Participants also have the opportunity to make connections with peers in engineering and work closely with Flexus: the Dr. Marilyn Berman Pollans' Women in Engineering Living and Learning Community. Virtus is funded through the National Science Foundation's Science, Technology, Engineering, and Mathematics Talent Expansion Program (STEP, Award# 0969232).

College Park Scholars - Science, Technology, and Society

1125 Cumberland Hall
301-405-0527; <https://scholars.umd.edu/programs/sts>
Director: Dr. David Tomblin

Co-sponsored by the Clark School of Engineering, the Science, Technology and Society (STS) program is one of 12 living-learning programs offered by the College Park Scholars Program. This 2-year program for academically talented freshmen and sophomores welcomes all majors, who live together in Cambridge Hall. While building close relationships with program faculty, STS explores the influential social, ethical, and political relationships that drive research and innovation. The program delves into the challenges of living and innovating in a world where emerging science and technologies are becoming increasingly interconnected, pervasive, and powerful. The program's primary goal is to give students career development and analytical skills that help connect science and technology to broader social needs. STS pursues this goal through individual research projects, collaborative problem solving activities, user-centered design projects, and service-learning.

STS students participate in a number of field trips to further their understanding of the program themes and objectives. Sites include the National Institute of Standards and Technology, NASA Goddard Spaceflight Center, United States Patent and Trademark Office and the National Building Museum. Students also have the opportunity to engage in service activities related to the program such as volunteering for Maryland Robotics Day, Women In Engineering's annual DREAM Conference, Maryland Regional Science Bowl, Center for Social Value Creation's annual Social Enterprise Symposium, and FIRST's Chesapeake Regional Competition at the Xfinity Center on campus.

STS features three rewarding practicum opportunities: 1) Robotics service-learning program, students explore innovative ways of encouraging STEM education in Prince Georges County schools; 2) Infrastructure and Society, students work with professional engineers on a service-learning project that assesses the safety and viability of infrastructure; 3) Sustainability and Design: Work with real clients from local communities to design the implementation of sustainable technologies.

Specialized Academic Programs

Science, Technology and Society Certificate

1125 Cumberland Hall, 301-405-0527
<http://www.scholars.umd.edu/programs/sts/about>
Director, David Tomblin, PhD, dtomblin@umd.edu

The undergraduate University Certificate program in Science, Technology, and Society (STS) enables students to learn about the dynamic, interactive and creative relationships among science, technology, and society. This 21-credit program helps structure a student's general education and elective requirements into a unifying theme. The end product of the program is a research project of the student's own choosing, which is developed under faculty mentorship. The STS University Certificate is especially helpful to students who are seeking jobs that require understanding policy decisions as they relate to scientific and engineering endeavors, those students hoping to seek a graduate degree that integrates science, technology, and policy, or students simply interested in developing a greater understanding of social issues related to science and technology.

STS is an interdisciplinary field that has been taught for more than 30 years at universities in the United States and Europe, notably in those with strong engineering and public policy programs. In recent years, STS University Certificate students have chosen to write their capstone term papers about timely topics, including the interactions among science, technology and society related to nanotechnology, fuel cell applications, physics research funding, climate change modeling, religious principles as a basis for climate action, integration of SONAR into underwater vehicles, nuclear power in developing countries, and interpersonal impacts of social networking.

Courses:

The STS program requires 9 credits of Lower Level (100-200) and 9 credits of Upper Level courses (300-400) and the STS Capstone

(ENES 440, 3 credits). Students must obtain prior approval of the director before counting courses toward their individualized STS curriculum. Many of these credits may overlap with major and minor requirements. For guidance, see the website for a list of approved courses, and note that students may ask the director to approve a course not listed on the website.

Lower Level (100- and 200-level) Courses (9 credits):

Three courses that relate science to society, technology to society, or science to technology; one of the courses should be CPSS 225 (STS sophomore survey course)

Upper Level (300- and 400-level) Courses (12 credits):

These courses have an interdisciplinary orientation that demonstrates inter-relationships between science and society, between technology and society, or between science and technology. Students choose three courses and the fourth course is ENES440, the STS University Certificate capstone.

Joining the Program and Program Requirements:

Students interested in STS should contact the director to obtain advice and approval prior to enrolling in courses that fulfill the program. Students record their progress with the STS program office as they complete requirements, participate in a semi-annual advising meeting, and write a brief evaluation upon completing the program. Students must earn a minimum grade of "C-" in each course they wish to credit toward the STS University Certificate. A student's individual course of study may not exceed these maximums: 9 credits of courses applied to the student's major; 3 credits of Special or Selected Topics courses; 9 credits of courses taken outside UMCP; and 6 credits of courses with the AREC, ECON and GVPT prefixes. Once all requirements are met and the director affirms that the student has completed the program, the Registrar includes a notation of this University Certificate on the student's transcript.

College Honors Program

Students in the A. James Clark School of Engineering may participate in the University's Honors College, College Park Scholars, Quest, and/or departmental honors programs (see the individual department section for details).

Clark School Engineering Honors Program

The Clark School offers an Engineering Honors Program that provides eligible students the opportunity to pursue an enriched program of studies that will broaden their perspectives and increase the depth of their knowledge. Engineering students meeting all of the following criteria are eligible to apply:

1. Upper fourth of engineering juniors and seniors;
2. Junior standing or 60 applicable credits;
3. Completion of at least one semester at UMD.

The requirements for completing the program are as follows:

1. An Honors Research Project which often can be used as a technical elective, a written report, and an oral presentation to a faculty panel of the EHP;
2. Successful completion of both Engineering Honors Seminars (ENES480 and ENES481, one credit hour each);
3. Maintenance of a GPA to remain in the upper third of the class.

For more information see <http://www.eng.umd.edu/current/honors-program>.

Approved Student Societies and Professional Organizations

Professional Societies

Each of the engineering departments sponsors student chapters or student sections of a national engineering society. The student chapters sponsor a variety of activities including technical meetings, social gatherings, and School or University service projects. All students are strongly encouraged to join one or more of these chapters.

These organizations are: American Helicopter Society-Intl.; American Institute of Aeronautics and Astronautics; American Ceramic Society; American Institute of Chemical Engineers; American Nuclear Society; American Society of Civil Engineers; American Society of Heating, Refrigeration, and Air Conditioning Engineering; American Society of Mechanical Engineers; ASM International; Black Engineers Society; BMES-UMD (Biomedical Engineering Society, UMD chapter); Engineers Without Borders; Institute of Electrical and Electronics Engineers; Material Advantage; Society of Asian Engineers; Society of Automotive Engineers; Society of Fire Protection Engineers; Society of Hispanic Engineers; Society of Manufacturing Engineers; and Society of Women Engineers.

Honor Societies

The Clark School of Engineering and each of the engineering departments sponsor honors societies. Nominations or invitations for membership are usually extended to junior and senior students based on scholarship, service, and/or other selective criteria. Some of the honors organizations are branches of national societies; others are local groups: Tau Beta Pi (College Honorary); Alpha Eta Mu Beta (Biomedical Engineering); Alpha Nu Sigma (Nuclear Engineering); Alpha Sigma Mu (Materials Science and Engineering); Chi Epsilon (Civil Engineering); Eta Kappa Nu (Electrical and Computer Engineering); Omega Chi Epsilon (Chemical Engineering); Pi Tau Sigma (Mechanical Engineering); Salamander (Fire Protection Engineering); and Sigma Gamma Tau (Aerospace Engineering).

Financial Assistance

The Clark School offers scholarships to talented undergraduate engineering students. This is a competitive scholarship program with scholarships awarded for merit. Financial need and a variety of other factors may also be considered. New freshmen are automatically considered for most Clark School scholarships and are not required to apply for funding. Current and new transfer students must complete the online scholarship application by May 31st for best consideration. Visit the website www.ursp.umd.edu/scholarships/index.html for more information.

The Benjamin T. Rome Scholarship is a full-ride scholarship awarded to a new freshman student each year. The Rome Scholarship, in conjunction with other university scholarships, covers all expenses (tuition and fees, room and board) plus a book allowance and a stipend. The award is renewable for up to three additional years provided the recipient maintains good academic standing and makes progress toward an engineering degree.

The Herbert Rabin Scholarship is awarded to one or two entering freshman students each year based on merit. The Rabin Scholarship, in conjunction with other university scholarships, covers tuition and fees, and room and board. The award is renewable for three additional years provided the recipient is an undergraduate engineering student, maintains good academic standing and makes progress toward an engineering degree.

The Office of Student Financial Aid (OFSA) administers all types of federal, state, and institutional financial assistance programs and, in cooperation with other University offices, participates in the awarding of scholarships to deserving students. For more information, visit: www.financialaid.umd.edu.

Research Units

Undergraduate Research Programs

Undergraduate research programs allow qualified undergraduate students to work with research laboratory directors in departments, thus giving students a chance for a unique experience in research and engineering design. Projects in engineering allow undergraduate students to do independent study under the guidance of faculty members in an area of mutual interest. For more information, contact the department or research center you are interested in performing research.

Student Engagement and Service Units

Office of Undergraduate Advising and Academic Support

1131 Glenn L. Martin Hall, 301-405-9973

Director: Jenna Bucci

www.eng.umd.edu/advisingengrhelp@umd.edu
engrhelp@umd.edu

The Office of Undergraduate Advising and Academic Support Office provides a broad variety of services to assist students during their collegiate careers. Individual advising may focus on a number of student related issues including: schedule planning, course selection, university policy interpretations, career choices, social and personal adjustments, as well as identification and support for students with specific academic concerns. The office also provides orientation to new students, certifies students for graduation, and is instrumental in helping students process administrative forms. The staff works closely with other campus offices to identify resources that address the various needs of our students.

Engineering Co-op and Career Services

1131 Glenn L. Martin Hall, 301-405-3863

Director: Heidi Sauber

CareerEngr@umd.edu, <http://www.coop.eng.umd.edu/>

The Engineering Co-op and Career Services Office assists students in finding cooperative education (co-op), internship, and post-graduation positions. Co-op and internship positions complement classroom learning and provide students with professional level experience, mentoring relationships, integration of theory and practice, confirmation of career choices, and financial compensation. To assist students in their job search we offer a wide variety of workshops on topics such as effective resumes, interview strategies, professionalism, career fair preparation, salary negotiation, and advanced job search techniques. We also provide one-on-one resume critiques, career advising appointments, mock interviews, job-search handouts, an e-newsletter, and a jobs database called *Careers4Engineers*. In addition, students have the opportunity to meet employers by participating in career fairs, networking events, employer information sessions, and special job search presentations conducted by engineering recruiters.

Office of International and Leadership Programs

1131 Glenn L. Martin Hall, 301-405-3857

Director: Jane F. Fines

www.ilp.umd.edu

The Office of International and Leadership Programs is responsible for developing international and leadership opportunities for engineering students. Services include advising students studying abroad, advising students completing the minors in International Engineering and Engineering Leadership Development, developing faculty-led programs abroad, advising the Breakaway Program (alternative spring break service program), and leadership development programs for engineering students.

Undergraduate Recruitment

1131 Glenn L. Martin Hall, 301-405-0287

Coordinator: Mr. Bruk Berhane

www.ursp.umd.edu

The Office of Undergraduate Recruitment and Scholarship Programs is responsible for outreach and new student recruitment activities in the A. James Clark School of Engineering. Services include undergraduate recruitment, meeting with prospective students, providing K-12 and community college outreach activities, and administering the Clark School's scholarship program for new students.

The Center for Minorities in Science and Engineering

1131 Glenn L. Martin Hall, 301-405-3878

Director: Rosemary L. Parker

www.cmse.umd.edu

The Center is dedicated to increasing the enrollment and graduation rates of African American, Hispanic, and Native American students majoring in engineering. The Center provides a complete package of services designed to assist students from pre-college through completion of the PhD. Services include academic advising, tutorial assistance, scholarship information, the BRIDGE Program, the BRIDGE to the Doctorate Fellowship, outreach programs, job information and support of student organizations.

Women in Engineering Program

1131 Glenn L. Martin Hall, 301-405-3931

Director: Paige E. Smith

www.wie.umd.edu

The Women in Engineering Program (WIE) Program is dedicated to increasing the enrollment, retention, and graduation rates of females in the School, as well as identifying and addressing this group's unique needs. The Program provides a comprehensive set of initiatives designed to encourage and assist women students to become successful professional engineers.

Services offered include research and teaching fellowships, information listserv, website, living and learning community, first year peer mentoring program, workshops on careers, outreach programs, speakers, student advisory board, and support of women engineering organizations.

Engineering Information Technologies (EIT)

2125 J.M. Patterson Building

301-405-3885

Executive Director: Jim Zahniser zahniser@umd.edu

www.eit.umd.edu

Keeping pace with the latest developments in the area of information technologies worldwide, the Clark School of Engineering provides

a state-of-the-art computing environment that will be the standard for engineers in the years ahead. Faculty and students have access to computer workstations with a wide range of engineering software and technology enabled classrooms with the latest presentation capabilities. In addition, EIT provides access and support on the latest tools and services for online collaboration, presentation technologies, and infrastructure services.

Distance Education Technology and Services

2125 J.M. Patterson Bldg, 301-405-4907; Fax: 301-314-9639

Assistant Director: Marty Ronning, 301-405-4899

www.dets.umd.edu

Distance Education Technology and Services, DETS, provides distance education technology and support service to the A. James Clark School of Engineering and the UMCP campus. We serve over 1000 students per year by providing graduate and undergraduate courses in engineering and other related fields. In addition, we also provide technical services to the campus such as video conferencing, video capturing, satellite services and more.

COLLEGE OF INFORMATION STUDIES, Maryland's iSchool (INFO)

4105 Hornbake Building, 301-405-2038

<http://infosci.umd.edu/>

infosci@umd.edu

Dean: Keith Marzullo

Associate Dean(s): Brian Butler; Susan Winter

The Bachelor of Science in Information Science (BSIS) program addresses the growing need for skilled information professionals who can strategically develop and use new information methods and technologies in a wide variety of contexts. The BSIS program prepares students to understand, assess, create and manage information services and systems, organizations and digital technologies from a multidisciplinary perspective. The BSIS program teaches future information professionals to manage issues related to information users, information organization and content, technology and the global environment.

Advising

Students are required to meet with an advisor each semester before registration. Advisors help students choose courses, and encourage students to seek professional experiences during their college years. As in all majors, students must submit and have approved a graduation plan using the template that is available at www.4yearplans.umd.edu. The four year course plan outlines the prerequisites, benchmarks and required courses for this degree.

Students are primarily responsible for keeping track of their academic progress and strongly encouraged to contact their advisor for the correct interpretation of policies and procedures.

Financial Assistance

The Office of Student Financial Aid (OFSA) administers all types of federal, state, and institutional financial assistance programs, and in cooperation with other University offices, participates in the awarding of scholarships to deserving students. For more information, visit: www.financialaid.umd.edu.

THE PHILIP MERRILL COLLEGE OF JOURNALISM (JOUR)

1100 Knight Hall, 301-405-2399

www.merrill.umd.edu

Dean: Lucy Dalglish

Associate Dean(s): Rafael Lorente, Olive Reid

Assistant Dean(s): Lele Ashworth, Emily Hartz

Professors: M. Feldstein, K. Klose, S. Moeller, S. Oates, D. Priest, L. Steiner, C. Stepp

Associate Professors: I. Chinoy, C. Hanson, D. Nelson, R. Yaros

Assistant Professors: K. Chadha, N. Diakopoulos

Lecturers: J. Carroll, C. Clayton, J. Davidsburg, K. Denny, A. Flynn, C. Harvey, S. Katcef, S. Mussenden, B. Swain

Affiliate Professors: G. Solomon (Prof Of Practice)

Professors Emeriti: M. Beasley, J. Blumler, J. Franklin, P. Geraci (Assoc Prof Emeritus), D. Gomery, R. Hiebert, L. Martin, K. McAdams

(Assoc Prof Emeritus), J. Newhagen (Assoc Prof Emeritus), E. Roberts

Visiting Faculty: S. Banisky, K. Blackstone, L. Walker

The Major

The Philip Merrill College of Journalism prepares students for careers in newspapers, magazines, TV news, newsletters and online journalism outlets. The undergraduate journalism program culminates in a B.A. degree in journalism.

The College is fully accredited by the Accrediting Council on Education in Journalism and Mass Communications.

Students learn in college programs such as Capital News Service, a daily wire service in College Park, Washington, D.C., and Annapolis and UMTV, a cable station operated by the college.

Students majoring in journalism take approximately one-third (42-45 credits) of their total coursework in the Philip Merrill College of Journalism. Journalism courses are designed to provide students with a working knowledge of the tools and concepts they will need to perform as top-flight professional communicators.

The remaining approximately two-thirds (77-80 credits) of undergraduate coursework consists of a variety of other subjects such as history, economics, government, sociology and psychology. This exposure acquaints students with fundamental problems and issues they will encounter in their careers. Within these credits, journalism students must choose a "Concentration" (a core of advanced work in a substantive field) to establish competency in a specialized area of knowledge they will be able to use as professionals.

Program Objectives

About the College

The Philip Merrill College of Journalism is widely considered one of the best journalism programs in the nation, blending a mix of prize-winning journalists, communication scholars and nationally recognized professional programs. The school's mission is simple: to produce the best possible journalists for leading newspapers, magazines, TV, radio and online news outlets. Recent graduates are

editors, reporters and producers at The New York Times, The Washington Post, CBS, Los Angeles Times, CNN and many of the nation's other top news organizations.

Located less than 10 miles from the news capital of Washington, students participate in internships during the academic year at The Washington Post, The (Baltimore) Sun, CNN, and a wide array of Washington news bureaus. In the summer, students intern at top news organizations around the country. Broadcast news students produce and anchor a 30-minute nightly news show that reaches more than 400,000 households in suburban Washington on the College-operated UMTV station, and multi-platform students work on Maryland Newslane, a political and public policy web-based news magazine. Advanced students enroll in Capital News Service, an intensive full-time reporting program in Washington, Annapolis and College Park. Students also participate in some of the school's professional programs.

College Mission Statement

The College seeks to be the nation's preeminent professional school in its field, a model for others in its integration of scholarly work and professional practice. It aspires to lead in the uses and study of new technologies to improve understanding and performance in our fields. Its mission is to educate university students at the undergraduate, master's and doctoral level within a liberal arts context, preparing them for careers in journalism, scholarly work and teaching in these fields; to elevate the standards of professional practice; and to advance the quality of public life through knowledge of public issues, including those related to the role in a democratic society.

Program Learning Outcomes

1. Demonstrate the ability to research, write, report and edit relevant news stories acceptable by a professional news outlet.
2. Understand the history of journalism, be familiar with coverage of diverse groups in society and learn the role of journalists in society.
3. Understand the ethical guidelines and practices that govern the profession and the legal implications and considerations that inform the profession.
4. Demonstrate the ability to apply tools, concepts and technology appropriate for the presentation of images and information in the profession.
5. Conduct research and evaluate information by methods appropriate to the profession.
6. Apply basic numerical and statistical concepts.

Special Advantages and Facilities

The Merrill College is home to many unique programs and opportunities available to undergraduate students:

UMTV: Broadcast journalism students study and learn at UMTV, the college-owned cable TV station that houses state-of-the-art equipment, including DVCPro, Avid and ENPS systems used in the field today. Students begin their broadcast education from their first semester at the College, volunteering as crew members for programs produced under the guidance of renowned broadcast faculty members.

Capital News Service: The College's Capital News Service operates news-editorial and multi-platform bureaus in College Park, Washington, D.C., and Annapolis, a daily television newscast, and an online news magazine. CNS provides students with real-life reporting experiences covering a beat, developing sources, generating story ideas and writing on deadline under the supervision of a faculty editor.

Real-World Experience: Students take their education out of the classroom and into the real world. Using internships, student media and in-class reporting, our students don't just learn why, but how. The college is located just outside Washington, D.C., the country's eighth largest media market.

Top-Notch Faculty: The Merrill College is home to internationally renowned journalists and media scholars. Courses are also taught by working journalists who serve as adjunct professors.

Access to Centers of Journalism Study: The Merrill College is home to several centers for journalism study and professional development. Undergraduates have opportunities to interact with these programs.

Technology for the Real World: Students use the same technologies used by professional journalists and media specialists. From the latest in non-linear editing systems, to updated technologies for digital art and pagination, every undergraduate will have access to the hardware and software used by professionals in television and radio production, visual journalism, online news and media communication.

Admission Requirements

Journalism is a Limited Enrollment Program (LEP). See the Admissions section in Chapter 1 for general LEP admission policies.

Freshman Admission and the 45-Credit Review

First-time entering freshmen will gain admission to the Philip Merrill College of Journalism directly from high school on an available basis. Early application is encouraged. Freshmen admitted to the program will have access to the necessary advising through their initial semesters to help them determine if Journalism is an appropriate area for their interests and abilities. Academic and career advising is provided to journalism students throughout their academic career by qualified academic counselors and the College's faculty.

Freshmen who are admitted directly to Journalism will be subject to a performance review by the time they have completed 45 credits. To meet the provisions of the review, these students must complete: (1) The two, first-year Fundamental Studies courses: ENGL101 and mathematics; (2) JOUR201 with a grade of "C-" or higher (JOUR181, ENGL101 AND JOUR200 are prerequisites for JOUR201); and (3) a minimum cumulative GPA of 2.0. Students must prove grammar skills competency through attainment of a minimum of a "C-" in JOUR181 or an 80 or higher on the grammar competency exam offered in JOUR181. Students who do not meet these requirements will not be allowed to continue in the LEP and will be required to select another major. In addition freshmen are expected to complete JOUR200 by the end of their first year.

Transfer Admission

These requirements apply to new transfer students to the University as well as on-campus students.

Note: No more than 12 transfer credits of communications courses from an accredited journalism program may be approved by the College to be applied toward the degree. Transfer students who wish to receive credit for JOUR201 based on work done in a non-accredited journalism program must pass a proficiency exam.

In order to be admitted to Journalism, transfer students will be required to meet the following set of gateway requirements: (1) The two, first-year Fundamental Studies courses: ENGL101 and mathematics; (2) JOUR201 with a grade of "C-" or higher (JOUR181, ENGL101 and JOUR200 are prerequisites for JOUR201); and (3) attainment of a 2.8 GPA for all college-level work attempted.

Appeals

Students who are unsuccessful in gaining admission to Journalism at the freshman or transfer level, and believe they have extenuating

or special circumstances that should be considered, may appeal in writing to the Office of Undergraduate Admissions. The student will be notified in writing of the appeal decision.

Students admitted to Journalism as freshmen that do not pass the 45-credit review but believe they have special circumstances that should be considered, may appeal directly to the College.

For further information, contact the College's Student Services office at 301-405-2399.

Requirements for the Major

Effective for students matriculating Fall 2015 or later. (Student matriculating before Fall 2015 should contact an advisor about requirements).

Students are required to earn a minimum of 122 credits. Accredited journalism programs require majors to complete successfully approximately two-thirds of their coursework in areas other than journalism and communication. The Philip Merrill College of Journalism at the University of Maryland adheres to this nationwide policy. In practical terms, this means that of the 122 minimum credits required for graduation, a journalism student must take 42 credits (and may take up to 45) in journalism (numbered 100 or above). Of the remaining 77-80 credits, a minimum of 65 must be earned in liberal-arts designated courses.

The Philip Merrill College of Journalism stipulates that 57 of the total credits must be taken in upper-level courses (courses numbered 300-499).

Required courses for all journalism majors, whether primary or secondary major:

I. Journalism requirements outside the College

Students must complete the following liberal arts coursework complementing the university's general education requirements. For the university's general education requirements, consult the General Education program in the current Undergraduate Catalog.

- Abstract thinking skills requirement (9 credits)
 1. One three-credit statistics course from the following list:
BIOM301, BMGT230, CCJS200, ECON 230, ECON321, EDMS451, GEOG306, GVPT422, HLTH300, PSYC200, SOCY201, STAT400 or a more advanced statistics course.
 2. A minimum of six credits through one or a combination of the following options. Should a student choose to combine the options, at least one language course must be at the intermediate level:
 - Language: up to two courses with at least one course at the intermediate level and no more than one course at the introductory level. (High school equivalency does not satisfy this requirement.)
 - Math/Statistics/Computer Science: up to two courses
 - Any mathematics (MATH) course numbered 111 or higher.
 - Any computer science (CMSC) course numbered 102 or higher (at least three credits).
- Public Speaking: one course from COMM100, 107, 200, or 230.
- History: one course from HIST200 or 201.
- Behavioral or Social Science: one course from ANTH260; PSYC100 or 221; SOCY100 or 105.
- Economics: one course from ECON200 or 201.
- Government and Politics: GVPT170.
- Supporting Area: Four upper-level (numbered 300 or higher) courses for a minimum of 12 credits in a supporting field (cannot be in Communication). Upper Level Electives: Four additional upper-level (numbered 300 or higher) courses for a minimum of 12 credits (cannot be in Communication).

II. Journalism course requirements:

- JOUR200: Journalism History Roles and Structures (3 credits)
- JOUR201: News Writing and Reporting I (3 credits)
- JOUR203: Introduction to Multimedia Skills (3 credits)
- JOUR300: Journalism Ethics (3 credits)
- JOUR352: Intermediate Multimedia Journalism (3 credits)
- JOUR396: Supervised Internship (2 credits)
- JOUR400: Media Law (3 credits)
- JOUR410-469: Journalism and Society (3 credits)
- JOUR470-479: Media Research (3 credits)
- Journalism Capstone Experience (3 credits)
- JOUR480: Capstone Colloquium: The Business of News (1 credit)

SPECIALIZATIONS (12 credits)

MULTI-PLATFORM:

- JOUR202: News Editing (3 credits)
- JOUR320: News Writing and Reporting II: Multiplatform (3 credits)
- JOUR321-389: One Journalism Skills Elective (3 credits)
- JOUR321-389: One Journalism Skills Elective (3 credits)

BROADCAST:

- JOUR262: News Videography (3 credits)
- JOUR360: News Writing and Reporting II: Broadcast (3 credits)
- JOUR361: Television Reporting and Production (3 credits)
- JOUR321-389: One Journalism Skills Elective (3 credits)

Total JOUR credits (42)*

*Student can count three additional JOUR credits toward their degree if they take an additional course from JOUR321-389, JOUR410-469 or JOUR470-479 in place of an UL Elective.

III. Specific Journalism Requirements

- Completion of JOUR201: Students must complete JOUR201 with a "C-" or higher. Consult the Undergraduate Catalog or online Schedule for a list of prerequisites and restrictions for journalism courses.
- "C" Requirement: Students must earn a "C-" or better in JOUR201 and JOUR202/262 prior to taking any courses for which they serve as a prerequisite.

Placement in Courses

Enrollment in JOUR201 requires proof of grammar competency through the attainment of at least a "C-" in JOUR181 or a score of 80 or higher on the grammar diagnostic exam, completion of ENGL101 with at least a "C-" and completion of JOUR200 with at least a "C-".

Advising

The Office of Student Services provides academic advising to journalism majors on an appointment basis. It is located at 1100 Knight Hall. The phone number is 301-405-2399.

Living-Learning Programs

College Park Scholars - Media, Self & Society

Dr. Kalyani Chadha, Director, Media, Self & Society Program

Co-sponsored by the Philip Merrill College of Journalism, the Media, Self and Society Program is one of the living/learning programs offered by the College Park Scholars Program. This two-year program for incoming freshmen is designed to give students the opportunity to undertake a critical examination of media organizations, institutions and practices as well as gain practical experience through involvement in a media-related activity of their choice. For more information, see the College Park Scholars Program section in this catalog.

Honors Program

Although no departmental honors program currently exists within the College, academically outstanding students are recognized through Kappa Tau Alpha, the Journalism academic honor society.

Student Societies and Professional Organizations

The college sponsors student chapters of the Society for Professional Journalists and the National Association of Black Journalists. These organizations provide students with opportunities to practice skills, establish social relationships with other students both on and off campus, and meet and work with professionals in the field. For information on the organizations listed, contact the Student Services Office, 1100 Knight Hall, 301-405-2399.

Financial Assistance

The College is committed to enrolling the most qualified students, regardless of ability to pay. Toward that end, the College, through donor-sponsored awards, gives scholarships annually to undergraduates. Additionally, the University awards scholarships and financial aid including low-interest loans, grants and work-study opportunities.

Sources for Incoming Students

All incoming freshman are automatically considered for scholarships granted by the College.

Baltimore Sun Diversity in Journalism Scholarship - Established by the Times Mirror Foundation, this non-renewable award is granted to an incoming freshman with high academic achievement in high school and wide-ranging cultural and economic background, who resides in the Baltimore Sun's circulation area.

William Randolph Hearst Scholarships - Established in honor of William Randolph Hearst's 82nd birthday, these are among the college's first scholarships. A limited number of non-renewable awards are granted to outstanding Maryland high school students admitted to the Philip Merrill College of Journalism.

William C. Huffman Scholarship - This fund was established by Diana L. Huffman, the Baltimore Sun Distinguished Lecturer at Merrill College, in honor of her father, Dr. William C. Huffman (1910-1988), and his commitment to education and philanthropy. This renewable scholarship is awarded to incoming freshmen at the Philip Merrill College of Journalism who are in good academic standing and remain so throughout the term of the award, demonstrate financial need, and are residents of Washington, D.C. or Prince George's County, Maryland. Students are eligible to re-apply for the award in subsequent years as long as they still qualify for the award criteria.

Maury Povich Sports Journalism Scholarship - Funded by Maury Povich and Connie Chung '69 to support scholarships for students in the Philip Merrill College of Journalism who have interest in sports journalism. Recipients must have an expressed interest in sports journalism, be accepted for full-time enrollment and maintain good academic standing. Preference will be given to students of underrepresented populations and with unmet financial need.

Sources for Current Students

Students are selected on a basis of need, merit, donors' intent or a combination of these factors. Below is a selection of scholarships students may apply for:

Carolyn A. and Howard F. Ahrens Scholarship

Fred I., Edna O. and Fred J. Archibald Scholarship

Paul Berg *Diamondback* Scholarship

Bonnie Bernstein Scholarship

John Story Cleghorn and Nona Reese Cleghorn Scholarship

Reese Cleghorn Excellence in Journalism Scholarship

J. Theodore Crown, Sr. and Joseph T. Crown, Jr. Scholarship

Ralph Crosby Journalism Excellence Award

Penny Bender Fuchs Scholarship

Lawrence L. Goldberg and Lillie Z. Goldberg Journalism Scholarships

Carol Horner Journalism Scholarship

K. Christopher Houston '85 Scholarship

Jay Jackson Scholarship

Phyllis and Frank Kopen Broadcast Journalism Scholarship

Tom Kunkel Journalism Excellence Scholarship

Maryland-Delaware-DC Press Association Scholarship

Ron Menchine Broadcast Journalism Scholarships
 Gertrude Poe Fund for Journalism Excellence
 Frank Quine and Mary Ellen Doran-Quine Journalism Scholarship
 Stanley E. Rubenstein Memorial Journalism Scholarship
 Richard W. Worthington Journalism Scholarship
 Maury Povich Sports Journalism Scholarship

Internship Awards

Penny Bender Fuchs Internship Grants
 John A. Jenkins '72 Internship Award
 Joseph R. Slevin Award

Awards and Recognition

Maryland-Delaware-District of Columbia Press Association Top News-Editorial Student - Awarded annually to an outstanding news-editorial journalism student at the May commencement. A separate award is also given to the top broadcast journalism student and top multimedia journalism student.

Julie Galvan Outstanding Campus Member Award - The Society of Professional Journalists chapter selects one graduate in journalism who is outstanding in his or her class on the basis of character, service to the community, scholarship, proficiency in practical

journalism and significant contributions to their SPJ chapter.

Kappa Tau Alpha Top Scholar Award - Awarded at each commencement to the journalism student earning the highest academic achievement for all undergraduate study.

Kappa Tau Alpha National Honor Society - The top ten percent of the journalism graduating class is inducted into this national organization each commencement.

Fieldwork Opportunities

Internships

Supervised internships are essential. Adrienne Flynn is the Director of Journalism Internships and Career Development, 3105A Knight Hall, 301-405-7247.

Professional Experience Opportunities

Capital News Service

Capital News Service is a student-powered news organization run by the Philip Merrill College of Journalism. For more than two decades, we have provided deeply reported, award-winning coverage of issues of import to Marylanders.

With bureaus in College Park, Annapolis and Washington run by professional journalists, we deliver news in multiple multimedia formats via partner news organizations, a destination Website, a nightly on-air television newscast and affiliated social media channels (including Twitter and Facebook). We provide breaking news coverage, in-depth investigative and enterprise journalism, and serve as a laboratory for students to test and develop innovative new methods of reporting and telling stories.

UMTV

For students interested in broadcast news, opportunities to gain experience with cable news programs are presented within the curriculum and by volunteering at the campus television station, UMTV.

Student-Run Campus Media Outlets

Students can gain broadcast news and sports reporting experience through the campus radio station, WMUC. There are numerous student-run publications on campus. These include, The Diamondback, an independent daily newspaper that appears in print and online. The Diamondback is one of the most-read campus dailies in the nation. Among the many campus publications there are literary magazines and newspapers of interest to special populations. These include the Black Explosion, La Voz Latina, Mitzpeh, PublicAsian and Unwind! magazine.

SCHOOL OF PUBLIC HEALTH (SPHL)

2242 SPH Building, 301-405-2438

www.sph.umd.edu

Dean: Jane E. Clark

Associate Dean(s): Dushanka Kleinman, Sandra Crouse Quinn, Stephen Roth

Assistant Dean(s): Coke Farmer

The School of Public Health provides preparation leading to the Bachelor of Science degree in the following professional areas: Kinesiology, Community Health, Family Science and Public Health Science. In addition, each department offers a wide variety of courses for all university students. These courses may be used to fulfill the general education requirements and as electives. Programs combining service and instruction are provided by the Children's Health and Developmental Clinic (see KNES389E) and the Adult Health and Developmental Program (see HLSA287).

Special Advantages and Facilities

The Friedgen Family Student Lounge, located in the SPH Building is available for use by all students in the college between 7 a.m. and 10 p.m. Access is through the student ID card. See the Director of Facilities in 3310 SPH Bldg if you do not have access. The Student Service Center, 2242C SPH, has study areas and computers available to SPH students from 8:00 am - 4:30 pm daily. Occasionally, availability and access are limited due to classes and student programs.

The School also offers several specialized laboratories related to student success, technology and specific course applications.

Undergraduate Degree Requirements/Degree Options

The School of Public Health offers the baccalaureate in the following fields of study: Physical Education, Kinesiology, Community Health and Family Science. The degree of Bachelor of Science is conferred upon students who have met the conditions of their curricula as herein prescribed by the School of Public Health.

The School of Public Health also offers a baccalaureate degree in Public Health Science. This is a science-based program for 3rd and 4th year students. The program is offered exclusively at the Shady Grove campus. For more information please refer to www.sph.umd.edu/phs/.

Each candidate for a degree must file a formal application with the Office of the Registrar according to the scheduled deadlines for the anticipated semester of graduation.

Advising

At the time of matriculation and first registration, each student will meet with the departmental Undergraduate Director who will act as the student's advisor. Additionally, athletes and all students on probation or dismissal have mandatory advising and are seen by advisors in the Center for Academic Success and Achievement (CASA).

Departments and Centers

The School is composed of several centers, departments and institutes. The Centers for Health Equity, Health Literacy, Prevention Research, Aging, Health Behavior Research and Young Adult Health and Development offer multiple opportunities for students to engage with faculty mentors in funded research projects. The following departments offer major programs that lead to a Bachelor of Science degree:

Department of Behavioral and Community Health

Department of Family Science

Department of Kinesiology

Public Health Science (at the College Park campus and also the Shady Grove Campus)

Living-Learning Programs

Global Public Health Scholars Living and Learning Community

The School of Public Health offers a Global Public Health Scholars program within the College Park Scholars Living and Learning Communities. For more information please refer to www.scholars.umd.edu.

College Honors Program

Phi Alpha Epsilon: Honorary Society of the School of Public Health. The purpose of this organization is to recognize academic achievement and to promote professional growth by sponsoring activities in the fields of kinesiology, family science, community health, public health science and related areas.

Students qualify for membership when they attain junior standing in kinesiology, family science, public health science or community health, and have a minimum overall average of 3.5 and a minimum of 24 credits at the University of Maryland, College Park. For additional information, please contact the Center for Academic Success and Achievement.

Financial Assistance

The Office of Student Financial Aid (OFSA) administers all types of federal, state, and institutional financial assistance programs and, in cooperation with other University offices, participates in the awarding of scholarships to deserving students. For more information, visit: www.financialaid.umd.edu.

Awards

Awards within the School of Public Health include the Jerry P. Wrenn Scholarships, the Noel Myricks Endowed Scholarship, the Ned Gaylin Endowed Scholarship, the Jeanette Spier Beavers Memorial Scholarship the Andrew Billingsley Endowed Scholarship, the David Hyde Scholarship, the Doris Sands Scholarship, the Quinn Scholarship, the Alice Morgan Love Scholarships, NASPE Major of the Year Award, EDA/AAPHERD Outstanding Future Professionals Awards, the Dean's Senior Scholars Awards the Fraley Award, and several TerpStart Scholarships.

Research Units

Center on Aging

<http://sph.umd.edu/department/hlsa/center-aging>

The Center on Aging, as part of the Department of Health Services Administration (a graduate program), stimulates and supports aging-related activities within existing departments, colleges, and schools throughout all of the various institutions of the University System of Maryland. The Center coordinates the Graduate Gerontology Certificate (master's and doctoral levels), the university's first approved graduate certificate program. The Center assists undergraduate and graduate students interested in the field of gerontology and helps them to devise educational programs to meet their goals. It is a research center working in health and aging policy, lifelong learning and civic engagement, disability and aging, behavioral and social aspects of aging, and health service delivery systems. It also conducts community education programs, assists faculty in pursuing research activities in the field of aging, conducts conferences on adulthood and aging-related topics, provides on- and off-campus technical assistance to practitioners who serve older adults and sponsors the University of Maryland Osher Lifelong Learning Institute, Legacy Leadership Institutes, the University of Maryland Retirees Association, and Retired and Senior Volunteer Programs International (RSVPI).

Herschel S. Horowitz Center for Health Literacy

The Herschel S. Horowitz Center for Health Literacy has been established to address the major public health problem of poor health literacy and its effect on health outcomes. This is the nation's first academic based health literacy center and is devoted to improving health through the lifespan with emphasis on closing the health disparities gap. Research is needed to establish the nature of the casual relationships between and among the various factors including culture and society, education systems, health systems and health outcomes and costs to develop effective interventions and health policy. The Center was established with a generous gift from Alice Horowitz and her family.

Maryland Center for Health Equity

The Maryland Center for Health Equity is designed to address issues connected with health disparities. The emphasis is on creating effective change from the level of the individual to issues at the macro policy level. The Director is Dr. Stephen Thomas. For more information, please contact the Center at 3302E, School of Public Health Building, 301 405-8859.

The University of Maryland Prevention Research Center

Bradley O. Boekeloo, ScM, PhD
Professor, Department of Public and Community Health
Director, Prevention Research Center
University of Maryland School of Public Health
College Park, MD 20742
Office: 301-405-8546
Cell: 202-841-8546

Student Engagement and Service Units

Center for Academic Success and Achievement

0222 School of Public Health Building, 301-405-2753
www.sph.umd.edu/advising

The Center for Academic Success and Achievement provides advising on admissions, orientation, academic policy, 4-year planning, career information, and required advising for students on academic probation or dismissal and all college athletes. The Center collaborates with the departments in recruitment, retention and graduation initiatives. The Center is open from 8:00 a.m. - 4:30 p.m. week days for use by students for studying and group meetings. There are twelve computers available for student use.

Gymkana Troupe

1120 SPH Building, 301-405-2566
www.gymkana.umd.edu

Director: Scott Welsh

For over 60 years, the University of Maryland Gymkana Troupe has been influencing young people to live healthy lifestyles. Founded at the University of Maryland College Park campus in 1946, the troupe has traveled throughout Maryland and neighboring states

promoting drug-free living. Each of its 60+ members pledges themselves to be drug-free. Through their role-modeling and unique gymnastic performances, they have influenced hundreds of thousands of people to join them in living a drug-free life. The troupe, which is open to all University of Maryland students of all abilities, is considered a one-of-a-kind organization and is believed to be the only collegiate exhibitional gymnastic troupe actively touring the United States. As an outreach program of the School of Public Health, Pubthe Gymkana Troupe uses peer role models who share their experiences and their message of healthy living with others. Students influencing students to avoid drugs is the heart of Gymkana's program.

Public Health Without Borders

Director: Dr. Elisabeth Maring

Website: <http://sph.umd.edu/content/public-health-without-borders>

Half the Sky Movement

Director: Dr. Elisabeth Maring

SCHOOL OF PUBLIC POLICY (PUAF)

2101 Van Munching Hall, 301-405-6330

www.publicpolicy.umd.edu/

Dean: Robert Orr

Assistant Dean(s): Nina P. Harris

The school currently offers both courses and co-curricular programs at the undergraduate level, as well as minors in Sustainability Studies and Public Leadership. Courses may be found under PUAF. These courses are suggested for students wishing to develop knowledge and experience in public policy and leadership. The school also offers a 5-year bachelor's/master of public policy program for selected students. For additional information on the wide range of undergraduate opportunities see www.publicpolicy.umd.edu/current-students/undergraduate-programs.

Minors

Minor in Sustainability Studies

The minor in Sustainability Studies provides students the opportunity to learn how natural resources, human relationships, policies, economics, and the environment are related. The minor encourages critical thinking to creatively and positively address global challenges that affect future human populations, cultures, and the environment. It will complement any major on campus, and provide both intellectual breadth and depth in a challenging area of inquiry that is gaining interest in businesses, government agencies, and non-governmental organizations. Together with a major, the Sustainable Studies Minor will provide students with the critical thinking and problem-solving skills necessary to work on sustainability issues as citizens, employees, or graduate students.

The minor includes (a) one required course, AGNR/PUAF301: Sustainability; (b) one course from each of three approved course lists (for a total of 3 courses); and (c) and 3 credits comprised of an additional approved course, an internship, or an approved study abroad experience.

For more information, visit www.publicpolicy.umd.edu/sust or e-mail susminor@umd.edu.

Minor in Public Leadership

The minor in Public Leadership will allow students to examine pressing issues (the global environment, democratization and human rights, crime and the penal system, diversity and affirmative action, poverty and inequality, and the quality of public education) facing leaders and will direct students to think critically about the viable solutions needed to solve problems which require effective leadership for the public good. In order to meet this need, the School proposes a minor to engage students in learning about leadership for the public good and effective citizenship. Additionally, the minor will serve as a feeder for the School's graduate program.

For more information, visit www.publicpolicy.umd.edu/plminor or e-mail plminor@umd.edu.

Living-Learning Programs

Public Leadership Program in College Park Scholars

Public Leadership explores the theory and practice of leadership, empowering students to become social change agents through hands-on public service projects and examination of pressing social, political, and economic issues. Public Leadership is defined as "the inspiration and mobilization of others to undertake collective action in pursuit of the common good."

Students become informed citizens able to reason critically and persuasively about public matters and to apply diverse approaches to leadership and citizenship in a multicultural society. Students learn to form an ethical vision and develop their own leadership potential as they explore and assess personal values, beliefs, and purpose.

Public Leadership is a community of students from all majors who are committed to developing their leadership skills for the common good. Through small classes and discussions, active learning, and living together in the shared community of Cumberland Hall, the Public Leadership program prepares students with a set of skills that will serve them in every aspect of their adult lives.

For more information see: <http://www.publicpolicy.umd.edu/pl>.

iGive: Carillon Community

The iGIVE program gives first year students an opportunity to learn about philanthropy, innovation, and social change through rigorous class work and hands-on experience. Through iGIVE, part of the Carillon Community, students live together in Easton Hall and develop camaraderie through hard work, shared interests, and common academic experiences. Over the course of the year, students study theories of philanthropy, design a philanthropic fund, award \$10,000 to an area nonprofit, and design their own social action projects. The iGIVE courses are team-based, interactive, and provide an opportunity for students to work on issues they are passionate about. Students complete the year with an understanding of some of the world's most pressing problems and the actions being taken to address them. Most importantly, students will finish their freshman year having practiced social change and energized to use their talents to continue doing good. For more information see: <http://carillon.umd.edu>.

Specialized Academic Programs

Rawlins Undergraduate Leadership Fellows Program

The prestigious Rawlings Undergraduate Leadership Fellows Program honors the legacy of Howard Peters "Pete" Rawlings and the work he did as a Maryland Delegate. Participants in the Fellows program are provided specialized opportunities to develop as leaders and become champions for those whose voices may otherwise go unheard in the leadership and decision-making process. Maintaining a commitment to those historically underrepresented in leadership positions is central to this program.

Fellows develop community action projects, take courses on leadership, serve at an internship in government or the non-profit sector, and meet both elected officials and non-profit leaders.

For more information: www.publicpolicy.umd.edu/rulff

Financial Assistance

Senator John A. Cade Public Leadership Scholarship

Senator John A. Cade was one of Maryland's most extraordinary and exemplary public servants. As a member of the Maryland Senate from 1975-1996, his dedication to government, public service and education helped enhance the lives of his constituents.

"As much as any legislator, Jack Cade understood that it was education that made a difference. He was a champion for higher education funding throughout his career."

--Senator Thomas V. Mike Miller, Jr.

This \$2,000 scholarship was created to honor the memory of Senator John A. Cade by enabling students to carry on his legacy of public service and leadership.

Eligible candidates must:

- be a current Maryland resident
- be an undergraduate student
- have a 3.0 GPA or higher
- have an interest in public service, government involvement, or political leadership.

For more information: www.publicpolicy.umd.edu/current-students/undergraduate-programs/awards/cade

Rosalie Reilly Gubernatorial Fellowship

Rosalie Reilly was one of Maryland's most extraordinary and exemplary public servants who was a role model for young leaders as they prepared to enter public life.

This \$2,500 fellowship was created to honor the memory of Ms. Reilly by enabling female students to carry on her legacy of public service and leadership. As a part of the fellowship, students commit to completing a project of significant impact to the community during their fellowship year.

Eligible candidates must:

- be available to serve at least 135 fellowship hours
- have an interest in public service, government involvement, or political leadership
- be a female undergraduate or graduate student
- have a 3.0 GPA or higher

For more information: www.publicpolicy.umd.edu/reilly

The Office of Student Financial Aid (OFSA) administers all types of federal, state, and institutional financial assistance programs and, in cooperation with other University offices, participates in the awarding of scholarships to deserving students. For more information, visit: www.financialaid.umd.edu.

THE UNIVERSITIES AT SHADY GROVE

Room 1100 Camille Kendall Academic Center Building III, 301-738-6000
www.shadygrove.umd.edu
shadygrove@umd.edu

9636 Gudelsky Drive Rockville MD 20850
 301-738-6000
www.shadygrove.umd.edu

USG Executive Director and Associate Vice Chancellor for Academic Affairs, USM:
 Dr. Stewart L. Edelstein

The Universities at Shady Grove (USG) is part of the University System of Maryland and a partner campus of nine Maryland universities that collaborate to offer their top degree programs, as well as certificate and continuing education programs, at one convenient location in Montgomery County. USG currently serves more than 4,000 graduate and undergraduate students, with more than 1,400 undergraduates enrolled in daytime programs.

With coursework beginning at the junior level, USG provides all the prestige and benefits of a Maryland education during a student's final two years of undergraduate study. Most credit earned at Maryland community colleges will transfer, and students can choose from a variety of majors, with classes offered at times that meet their schedules. At the Universities at Shady Grove campus, students work closely with professors from nationally ranked academic programs. Everything you need to be successful as a student can be found on USG's campus, including advising, financial aid assistance, career and internship opportunities, academic support, a library, fitness center, and cafe. Students can also take advantage of a growing number of social events, community service activities and student leadership opportunities.

The University of Maryland, College Park is one of the powerful partners that make up USG. **Students can earn a University of Maryland, College Park degree** at USG and celebrate Terrapin traditions no matter which campus they call home. The University of Maryland, College Park offers eight undergraduate degrees within five different academic departments at Shady Grove.

B.S. Biological Sciences Program (BSCI)

The Robert H. Smith School of Business

B.S. Accounting

B.S. Management with Specialization in Entrepreneurship

B.S. International Business

B.S. Marketing

B.A. Criminology and Criminal Justice

B.S. Public Health Science

Biological Sciences

The Universities at Shady Grove, Building 2, room 4082, 301-738-6007
<http://bsci.umd.edu/shady-grove/>

The Major

Biological Sciences at the University of Maryland at the Universities at Shady Grove

The Biological Sciences Program at the University of Maryland offers a degree program in Physiology and Neurobiology (PHNB) at the Universities at Shady Grove. The Biological Sciences Program at Shady Grove offers the Advanced Program courses normally taken in the junior and senior years.

All Biological Sciences majors complete a common sequence of introductory and supporting courses referred to as the Basic Program. For students matriculating at the Universities at Shady Grove most of these introductory and supporting courses are taken at a community college or at another four-year institution prior to admission to the Biological Sciences Program. Depending on space available, students who matriculated at College Park may transfer to the Shady Grove Program in their junior year, where they may complete the Advanced Program in Physiology and Neurobiology.

Requirements for the Biological Sciences Major in Physiology and Neurobiology (PHNB) at Shady Grove

Courses equivalent to these to be taken at an institution that offers lower level course work

I. General Education Program Requirements

II. Basic Program in Biological Sciences

BSCI170&171	Principles of Molecular and Cellular Biology and Lab	4
BSCI160&161	Principles of Ecology and Evolution and Lab	4
BSCI223	General Microbiology	4
BSCI222	Principles of Genetics	4
MATH130 or	Calculus for Life Sciences I or	
MATH140	Calculus I	4
MATH131 or	Calculus for Life Sciences II or	
MATH141	Calculus II	4
CHEM131/132	General Chemistry I w/Lab	4
CHEM231/232	General Chemistry II w/Lab	4
CHEM241/242	Organic Chemistry II w/ Lab	4
CHEM271/272*	General Chemistry II w/ Lab	4

* CHEM272 Bioanalytical Chemistry Lab is not offered at most institutions. Students accepted into the UMCP Shady Grove Biological Sciences may substitute a General Chemistry II Lab for this course

III. Courses taken at the Universities at Shady Grove

PHYS131	Fundamentals of Physics for Life Sciences I	4
PHYS132	Fundamentals of Physics for Life Sciences II	4
PHNB	Advanced Program in Physiology and Neurobiology	27 minimum
ELECT	Electives	20-25
Total credits required to graduate		120

Advising

Advising is mandatory during each pre-registration period for all Biological Sciences majors. Advising for students interested in or enrolled in the Shady Grove Program is available from the Director. Call 301-738-6007 for an advising appointment.

The Robert H. Smith School of Business

Suite 2022 Building II, 9630 Gudelsky Dr., Rockville, MD, 301-738-6079
<http://www.rhsmith.umd.edu/programs/undergraduate-programs/shady-grove>

Director of Programs at Shady Grove: Luke Glasgow

College Park Location: 1570 Van Munching Hall, 301-405-2286

Dean: Dr. Alex Triantis

Associate Dean: Dr. Victor Mullins

Assistant Dean of Academic Affairs: Dr. Rebecca Ratner

Assistant Dean: Brian Horick

The Robert H. Smith School of Business is an internationally recognized leader in management education and research for the digital economy. The faculty are scholars, teachers, and professional leaders with a commitment to superior education in business and management, specializing in accounting, finance, information systems, operations management, management and organization, marketing, logistics, transportation and supply chain management. The Smith School is accredited by AACSB International - The Association to Advance Collegiate Schools of Business, the premier accrediting agency for bachelor's, master's and doctoral degree

programs in business administration and accounting, <http://www.aacsb.edu>.

The Smith School of Business offers students the opportunity to complete the junior-senior curriculum in four majors at the Shady Grove campus in Rockville, MD including (1) Accounting; (2) International Business; (3) Management - Entrepreneurship Track; and (4) Marketing. For details on the majors offered at Shady Grove visit <http://www.rhsmith.umd.edu/programs/undergraduate-programs/shady-grove>.

Admission Requirements

All students applying for admission to the Robert H. Smith School of Business as transfer students, whether internal transfers already enrolled at UMCP or external transfer students entering the university for the first time, will be subject to competitive admission for a limited number of spaces in the Smith School at either the College Park or Shady Grove location. For complete details on admission to the Smith School at Shady Grove visit <http://www.rhsmith.umd.edu/programs/undergraduate-programs/shady-grove>.

Statement of Policy on Transfer of Credit from Community Colleges

It is the practice of the Smith School of Business to consider for transfer from a regionally accredited community college only the following courses in business administration: an introductory business course, business statistics, or elementary accounting. Thus, it is anticipated that students transferring from another regionally accredited institution to Shady Grove will have devoted the major share of their academic effort below the junior year to the completion of basic requirements in the liberal arts. A total of 60 semester hours from a community college may be applied toward a degree from the Smith School of Business.

Other Institutions

The Smith School of Business normally accepts transfer credits from regionally accredited four-year institutions. Junior- and senior-level business courses are accepted from colleges accredited by the Association to Advance Collegiate Schools of Business (AACSB). Junior- and senior- level business courses from other than AACSB-accredited schools are evaluated on a course-by-course basis to determine transferability.

The Smith School of Business requires that at least 50 percent of the business and management credit hours required for a business degree be earned at the University of Maryland, College Park.

Undergraduate Degree Requirements/Degree Options

Upon completion of all degree requirements, students at the Smith School at Shady Grove will earn a Bachelor of Science (B.S.) degree from the Robert H. Smith School of Business at the University of Maryland College Park. In addition, the Smith School of Business awards Master of Business Administration (M.B.A.), Master of Science (M.S.), and Doctor of Philosophy (Ph.D.). Information concerning admission to the M.B.A. or M.S. program is available at www.rhsmith.umd.edu.

Summary of Bachelor of Science Degree Requirements (all curricula)

At least 45 hours of the 120 semester hours of academic work required for graduation must be in business and management subjects. A minimum of 58 hours of the required 120 hours must be in 300- or 400-level courses. Fifty percent of the required BMGT credit hours must be completed at the Smith School of Business (College Park or Shady Grove campus). A "C-" or higher is required in all Smith School required courses, and students must have an overall combined 2.000 GPA in Smith required courses. In addition, students are required to have an overall cumulative grade point average of 2.000 (C average) in all university course work.

Freshman-Sophomore School Requirements

BMGT110¹ Introduction to the Business Value Chain (3 credits)

BMGT220 Principles of Accounting I (3 credits)

BMGT221 Principles of Accounting II (3 credits)

ECON200 Principles of Microeconomics (3/4 credits)

ECON201 Principles of Macroeconomics (3/4 credits)

One from: 3/4 credits

MATH120 or MATH220 Elementary Calculus I

MATH130 Calculus I for the Life Sciences

MATH140 Calculus I

One from: 3 credits

BMGT230² Business Statistics

BMGT231³ Statistical Models for Business

One from: 3 credits

COMM100⁴ Foundations of Speech Communication

COMM107⁴ Speech Communication

COMM200⁴ Critical Thinking and Speaking

Total: 24-27

¹ BMGT110 provides a useful introduction to business as an academic program and exposes students to potential career opportunities. As a result, this course best serves students early in their college careers. However, this particular course is redundant for students who have already begun their upper level BMGT coursework and thus, have already received more in-depth exposure to business functions. Therefore this course is only required for students who enter the Smith School as freshmen. Students who transfer to the Smith School and have not completed BMGT110 will not be required to complete this course for graduation.

² The following courses are approved substitutes for BMGT230: BIOM301, CCJS200, ECON230, ECON321, EDMS451, GEOG305, PSYC200, and SOCY201.

³ The following courses are approved substitutes for BMGT231: ENEE324, ENME392, or STAT400.

⁴ Any course that fulfills the University's Oral Communication General Education requirement will also satisfy the Smith School's public speaking requirement.

Junior-Senior School Requirements

BMGT301 Introduction to Information Systems (3 credits)

BMGT340 Business Finance (3 credits)

BMGT350 Marketing Principles and Organization (3 credits)

BMGT364 Management and Organizational Theory (3 credits)

BMGT367 Career Search Strategies in Business (1 credit)

BMGT380 Business Law (3 credits)

BMGT495 Business Policies (3 credits)

Total: 19

Economics Requirements 3-6 credits

0-3 credits of approved upper-level economics courses are required by the Smith School of Business.

Visit <http://www.rhsmith.umd.edu/programs/undergraduate-programs/shady-grove> to view the specific requirements for each major offered at the Smith School at Shady Grove.

Major Requirements

In addition to the Smith School of Business Bachelor of Science requirements listed above, generally another 18-24 credits are required for each major. See <http://www.rhsmith.umd.edu/programs/undergraduate-programs/shady-grove> to view the specific requirements for each major offered at the Smith School at Shady Grove.

Additional Information

For more information on the Smith School of Business undergraduate program at Shady Grove visit <http://www.rhsmith.umd.edu/programs/undergraduate-programs/shady-grove>.

The Major at Shady Grove

The department offers an exciting curriculum that prepares students for academic and professional careers in business, government, health, education, social and human services, and related fields. Courses offered by the department include persuasion and social influence, rhetoric and the analysis of messages, communication and new media, digital communication, organizational communication, public relations strategies, and intercultural communication. All students in the program at Shady Grove are required to complete mandatory advising each semester.

Program Learning Outcomes

Upon completion of the degree program in Communication, students should be able to demonstrate the following knowledge and skills:

1. An ability to distinguish among a variety of theoretical approaches in the communication discipline and use them appropriately and effectively in academic work.
2. An ability to conduct research and write research reports employing social scientific and/or humanistic approaches in the communication discipline.
3. An ability to argue clearly and effectively in a speech.

Academic Programs and Departmental Facilities

The Center for Political Communication and Civic Leadership unites research, education, and public engagement to foster democratic communication by a diverse people. See: www.comm.center.umd.edu.

The Center for Risk Communication Research (CRCR) advances dialogue and understanding about communication's role in controlling and preventing risk, how publics perceive risk communication, and about the political, economic and social contexts for risk communication. Scholars associated with the CRCR examine health, food safety, security, and environmental risks.

See: www.riskcenter.umd.edu.

The department's Media Center at College Park is designed to provide one-on-one tutoring and instructional support to further students' oral communication skills and confidence. The Media Center is equipped with cameras and recording equipment to tape speeches and presentations for practice and critique. Students may also utilize resources available at Shady Grove through the Office of Information Technology.

Admission to the Major

Students interested in Communication should have an overall GPA of 2.7 or better, and a grade of "C-" or better in each of the three courses specifically required by the major (COMM250, COMM107, Statistics, or their equivalents). Applicants should also attain junior standing (56 or more transferable college credits) by the time of enrollment. For more information on admission and lower-level coursework requirements, please visit the Communication web site at <http://www.shadygrove.umd.edu/academics/undergraduate/communication/umcp> or the Transfer Credit Services website at www.transfercredit.umd.edu. Requirements for the major are as follows:

- a. Complete one of the following courses with a grade of "C-" or better: BMGT230, CCJS200, EDMS451, PSYC200, SOCY201, STAT100 or equivalent.
- b. Complete COMM107, COMM200, COMM230, or equivalent with a grade of "C-" or better
- c. Complete COMM250 or equivalent with a grade of "C-" or better
- d. A cumulative GPA of 2.7 or better

Students may repeat only one of the Gateway courses and that may be repeated only once in their attempt to meet the requirements.

Transfer Students

Internal and external transfer students who meet the Gateway requirements specified above and have a cumulative GPA of 2.7 in all college-level coursework may apply to the program.

Appeals

All students may appeal admission decisions. Those students denied admission may appeal to the University's Office of Undergraduate Admissions.

Requirements for the Major

The course of study for a Communication major must satisfy all of the following requirements:

		Credits
COMM107	Oral Communication: Principles and Practices, OR	3
COMM200	Critical Thinking and Speaking, OR	3
COMM230	Argumentation and Debate	3
COMM250	Introduction to Communication Inquiry	3
COMM400	Research Methods in Communication	3
COMM401	Interpreting Strategic Discourse	3
Communication Studies Track		
COMM402	Communication Theory and Process	3
	<i>One from:</i>	3
COMM420	Theories of Group Discussion	
COMM424	Communication in Complex Organizations	
COMM425	Negotiation and Conflict Management	
COMM426	Conflict Management	
COMM435	Theories of Interpersonal Communication	
COMM470	Listening	
COMM475	Persuasion	
COMM477	Discourse Analysis	
COMM482	Intercultural Communications	
	<i>One from:</i>	3
COMM330	Argumentation and Public Policy	
COMM360	The Rhetoric of Black America	
COMM450	Ancient and Medieval Rhetorical Theory	
COMM451	Renaissance & Modern Rhetoric Theory	
COMM453	The Power of Discourse in American Life	
COMM455	Speechwriting	
COMM460	Public Life in American Communities, 1634-1900	
COMM461	Voices of Public Leadership in the Twentieth Century	
COMM469	The Discourse of Social Movements	

COMM471	Public Communication Campaigns	
COMM476	Language, Communication, and Action	
COMM	COMM Elective	
COMM300/400	Upper Level COMM Electives	12
	<i>One Statistical Analysis from:</i>	3 - 4
STAT100	Elementary Statistics and Probability	
SOCY201	Introductory Statistics for Sociology	
BMGT230	Business Statistics	
EDMS451	Introduction to Educational Statistics or an equivalent course - see advisor	
	<i>One Structural Analysis of Language from:</i>	3
LING200	Introductory Linguistics	
HESP120	Introduction to Linguistics	
ANTH380	Culture and Discourse or an equivalent course - see advisor	
COURSES	<i>Communications Studies:</i> Courses related to Communication Studies in one department other than COMM	9

Notes:

- Because the department's curriculum changes over time, the department's Undergraduate Director may approve other appropriate Communication courses to meet the requirements for each track.
- Courses required for the Communication major, but taken outside COMM, may be used to satisfy general education requirements.
- Only 3 credits of COMM386 may apply toward the major.
- No course grade below the grade of "C-" may count toward the major.
- An overall GPA of 2.0 in the major is required for graduation.

Advising

Advising is available throughout the year in the Camille Kendall Academic Center, Suite 5119. Students should check Testudo (<http://testudo.umd.edu/>) for their registration date and for any mandatory advising blocks.

Undergraduate Research Experiences

Research experiences include assisting on faculty research projects, participating in special team research projects, and working with the department's Center for Political Communication and Civic Leadership and/or Center for Risk Communication Research.

Fieldwork Opportunities

To further enhance learning and career training, the department incorporates special hands-on classes such as Health Communication Campaigns, Visual Communication, Web Design, and PR Event Planning. The department also strongly promotes internship and service learning opportunities with local and state businesses and institutions, and encourages students' participation in student-run clubs.

Internships

The department's internship program helps communication majors gain professional experience, build a professional portfolio, and take the first steps toward a career. The department structures its internship program around a course, COMM386: *Experiential Learning*, offered each school term.

Student Societies and Professional Organizations

Social and academic activities are available to students by participating in the following student organizations: the Undergraduate Communication Association, the Lambda Pi Eta Honor Society, and the Maryland chapter of the Public Relations Student Society of America.

Scholarships and Financial Assistance

The department offers the Chaim and Miriam Bentzlovitch Scholarship to students who exhibit academic excellence. Each year the department distributes a call for applications through e-mail.

Criminology and Criminal Justice

5105 Camille Kendall Academic Center, 301-738-6307
<http://www.shadygrove.umd.edu/academics/undergraduate/criminology>
ccjsusg@umd.edu
 Director: Wendy Stickle, Ph.D.

9630 Gudelsky Drive, Room 5105
www.shadygrove.umd.edu/academics/undergraduate/criminology
 Chair: J. Lynch

Shady Grove Program Director: W. Stickle, Ph.D.

Lecturers: N. Romeiser, S. Eastman, T. Jordan, T. Alexander, M. Janney, L. Morlier, A. Drew, R. Shusko, J. Conroy, H. Bresee

The Major

Criminology and criminal justice encompasses the study of both the causes of, and responses to crime. It involves studying individual, group, and mass behavior, as well as the institutions, professions, and laws that exist to detect, control, and ameliorate the effects of crime. As a discipline, criminology and criminal justice is situated at the nexus of other social science disciplines such as sociology, psychology, and government, in addition to public policy and legal studies.

The University of Maryland, College Park offers its Bachelor of Arts in Criminology & Criminal Justice at the Universities at Shady Grove. Students transfer into this Program after completing their freshman and sophomore years elsewhere, typically at a junior college. Through this Program, students complete their junior- and senior-year coursework at USG with the option to attend full- or part-time. Upon completion of this Program, students are awarded a University of Maryland, College Park B.A. degree.

Program Learning Outcomes

Having completed the CCJS degree program, students should have acquired the following knowledge and skills:

- Students will demonstrate basic knowledge of major criminology and criminal justice content areas.
- Students will demonstrate a basic knowledge of descriptive and inferential statistics appropriate to the social sciences.
- Students will demonstrate competence in basic social science research methods.

These requirements are for students who have matriculated to the University prior to Fall 2015 and transfer students from the University System of Maryland and Maryland community colleges prior to Fall 2015.

The Criminology and Criminal Justice (CCJS) major is comprised of 33 credit hours of coursework in the CCJS department, either MATH111 or STAT100, and 18 credit hours of supporting sequence coursework from outside of the CCJS department.

Required CCJS Courses:

CCJS100 - Introduction to Criminal Justice

CCJS105 - Introduction to Criminology

CCJS200 - Statistics for Criminology & Criminal Justice

CCJS230 - Criminal Law in Action

CCJS300 - Criminological and Criminal Justice Research Methods

CCJS340 - Policing

CCJS350 - Juvenile Delinquency

CCJS451, 452, 454 (Choose one):

CCJS451 - Crime and Delinquency Prevention

CCJS452 - Treatment of Criminals and Delinquents

CCJS454 - Contemporary Criminological Theory

3 CCJS Courses of Choice

(Completed using one or a combination of the followings ways)

- Complete additional CCJS courses that are not required (i.e., CCJS352, 360, 370)
- Complete an Independent Study (CCJS399)
- Complete an Internship (CCJS359 & 398)

Total CCJS Credits: 33 Credits

Additionally students must complete one of the following math courses:

Choose one of the following:

MATH111 - Introduction to Probability

STAT100 - Elementary Statistics and Probability

*A calculus class (MATH120, 220, 140 or 130) with a grade of "C-" or higher may be substituted

Supporting Sequence

(Supporting Sequence courses must be taken off the approved Supporting Sequence list):

3 lower level courses from the approved supporting sequence list

3 upper level courses from the approved supporting sequence list

Total Supporting Sequence credits: 18 Credits

Total Credits for the CCJS Major: 54 Credits

Please keep the following information in mind:

- No grade lower than a "C-" may be used toward the major
- Students must achieve a combined grade point average of a 2.0 in supporting sequence courses
- A minimum of 9 hours of Supporting Sequence must be at the 300/400 level
- Students must achieve a combined grade point average of a 2.0 in the CCJS major

New CCJS Major Requirements (Fall 2015)

For students enrolled as freshmen in Fall 2015 or later, or new transfer students outside of the University System of Maryland and Maryland community colleges. All students, regardless of matriculation date or place, will be subject to the new Fall 2015 CCJS major requirements in Fall 2017.

Required CCJS Courses:

CCJS100 - Introduction to Criminal Justice

CCJS105 - Introduction to Criminology

CCJS200 - Statistics for Criminology & Criminal Justice

CCJS230 - Criminal Law in Action

CCJS300 - Criminological and Criminal Justice Research Methods

2 CCJS Criminal Justice Courses

(Select two from the following three classes)

CCJS340 – Policing

CCJS345– Courts and Sentencing

CCJS342– Corrections

1 CCJS Criminology/Theory Course

(Select one from the following three classes)

CCJS450 – Advanced Juvenile Delinquency

CCJS451 - Crime and Delinquency Prevention

CCJS454 - Contemporary Criminological Theory

4 CCJS Courses of Choice

Two CCJS Courses of Choice must be at the 400-level

(Completed using one or a combination of the followings ways)

- Complete additional CCJS courses that are not required (i.e., CCJS352, 360, 370)
- Complete a 1 Independent Study for credit (max 3 credits)
- Complete a 1 Internship for credit (max 3 credits)

Total CCJS Credits: 36 Credits

Additionally students must complete one of the following math courses:

Choose one of the following:

MATH111 - Introduction to Probability

STAT100 - Elementary Statistics and Probability

*A calculus class (MATH120, 220, 140 or 130) with a grade of "C-" or higher may be substituted

Total Credits for the CCJS Major: 39 Credits

Please keep the following information in mind:

- No grade lower than a "C-" may be used toward the major
- Students must achieve a combined grade point average of a 2.0 in the CCJS major

Other Requirements for the Major

The CCJS Department enforces all prerequisites and does not oversubscribe students to courses that are closed.

Advising

All majors are strongly encouraged to see an advisor at least once each semester. Advising is available by appointment in the Camille Kendall Academic Center (Building III), room 5105. Students must complete all course prerequisites and obtain department permission from the Program Director to enroll in most CCJS classes. Call 301-738-6307 or email ccjsusg@umd.edu.

Internships

The internship must be a learning experience involving work in a criminal justice or criminological setting. Interns are expected to gain valuable information which will add to their overall understanding of the field of criminology and criminal justice. Internship positions must center around gaining new material over the course of the semester and are expected to involve some degree of ongoing training/learning for the intern. Internship placements are subject to the approval of the Internship Director.

Internship Eligibility

Interns must meet the following criteria:

- Interns must be CCJS majors
- Interns must have completed a minimum of 56 credits at the time of application
- Interns must have a cumulative GPA of at least 2.5 at the time of application
- Interns must work 45 hours per credit over the course of the semester
- A maximum of 6 internship credits per semester and a total of 12 internship credits overall will be permitted
- Internship credit will not be approved for current or previously held jobs

Interns must register themselves for the internship prior to the end of the semester's schedule adjustment period. Obtaining Departmental approval for the internship does NOT register the student for the class. Additional information about internships can be picked up from the CCJS advising office in Building III, room 5105.

Student Societies and Professional Organizations

There are two Student Societies available for membership for CCJS majors: the Criminal Justice Student Association (CRIMSA) and Alpha Phi Sigma Honor Society (APS).

The Criminal Justice Student Association (CRIMSA) is dedicated to supplementing our members' academic experience by providing extracurricular opportunities to further explore critical issues involving criminology and criminal justice. Through a regular program of speakers, agency demonstrations, and community service projects, the CRIMSA provides students with valuable information for making decisions about career choices, further graduate level study, and law school. CRIMSA provides students with opportunities for academic and social interaction, and access to criminology and criminal justice researchers, teachers, and practitioners representing a variety of government, academic and commercial corporate and non-profit organizations. All Universities at Shady Grove students, regardless of home institution or major, are eligible for CRIMSA membership. CRIMSA meetings and programs are held at least monthly during the Fall and Spring semesters.

Alpha Phi Sigma (APS) is a National Criminal Justice Honor Society founded 1942 and membership is open to CCJS majors who have completed at least 40 total credits with at least 12 credits in CCJS courses. Undergraduate Applicants must have an overall GPA of at least a 3.2 and a major GPA of at least 3.4. Graduate student applicants must have a 3.4 overall GPA. Applicants must fill out an application, submit an official or unofficial transcript, and a check (personal check is fine) made out to Alpha Phi Sigma for \$55. The local chapter's name is Omega Iota. Completed applications, check, and transcripts should be submitted to Dr. Stickle in Building III, room 5105. Applications are processed throughout the academic year. You will be notified when you have been officially accepted. Applications are available from Dr. Stickle or at www.ccjs.umd.edu.

Awards and Recognition

Each year the department selects the outstanding graduating senior for the Peter J. Lejins award. A graduating senior is also selected for the Shady Grove Academic Achievement Award and is eligible to receive the USG Student Leadership Award.

Public Health Science

5127 Building III, 301-738-6181
<http://sph.umd.edu/department/phs>
 mapeter@umd.edu

School of Public Health

Universities at Shady Grove
 9630 Gudelsky Drive, Bldg III Room 5127
<http://sph.umd.edu/department/phs>
 301-738-6181

Director: Barbara Alving, MD

Assistant Director: Lynn Cook, MHS, CHES

Assistant Director of Curriculum Development: Jessica O'Hara, PhD

Program Coordinator: Monique Peterson, MEd

The Major

Public Health Science combines a robust curriculum in the natural sciences with training in the basic fields of public health. The Public Health Science major provides students with interdisciplinary training that is essential to recognizing and addressing public health issues at the state, national and global levels.

With a degree in Public Health Science, students can follow many career paths, from allied health professions to medical school. More specifically, graduates can:

- Pursue degrees in medicine, dentistry, pharmacy, nursing, and allied health professions, such as occupational and physical therapy.
- Continue with graduate work to earn Masters, Ph.D., or MPH degrees in such disciplines as biostatistics and epidemiology, environmental health, health services and policy, as well as behavioral sciences.
- Work in interdisciplinary teams, both governmental and nongovernmental, at the local, state, national, and international levels in disease prevention, environmental protection, and health promotion.

The BS in Public Health Science is offered on both the College Park and Shady Grove campus. At College Park students can enter the program at any time during the college career, while at Shady Grove, students begin their studies with us in their junior year.

Shady Grove Curriculum

The Bachelor of Science in Public Health Science at the Universities at Shady Grove (USG) (<http://www.shadygrove.umd.edu/>) consists of 120 credit hours, of which 60 are transferred from either a community college or another accredited 4-year institution. The remaining 60 credits are completed at USG and can be completed in 4 full-time semesters or on a part-time basis. Classes are offered Monday through Thursday including some evening classes. All undergraduate coursework at USG begins at the junior level.

Admissions Requirements

To be admitted to the Public Health Science program at USG, students must have

-A cumulative GPA of 2.5 or better for all college level work

-Earned a C- or better in all 100- and 200-level Public Health Science Prerequisite courses (see below.)

It is also strongly recommended that students either earn an Associate of Arts or Science degree from a Maryland state institution OR complete all University of Maryland General Education (<http://www.gened.umd.edu/>) requirements prior to transfer.

Degree Requirements

For full details of degree requirements, please view the Shady Grove curriculum online at:

<http://sph.umd.edu/department/phssg/shady-grove-curriculum>.

Prerequisite Courses (31 credits)

Certain mathematical techniques and scientific principles serve as a foundation for future study in Public Health Science. These

courses cover the scientific concepts essential to advanced study in the field and are **prerequisites for admission** to the Public Health Science program at USG. Transfer credit is given based on a review of the syllabus and a determination of its equivalence to the following UMCP courses. To determine the equivalent course at your current institution please visit the UMD Transfer Credit Database (<https://ntst.umd.edu/tce/>).

COURSE ID	COURSE TITLE	COURSE CREDIT
*	Foundation in Behavioral and Social Science	3
MATH120 or MATH220	Elementary Calculus I	3
BSCI170&171	Principles of Molecular and Cellular Biology and Lab	4
BSCI201	Human Anatomy and Physiology I	4
BSCI202	Human Anatomy and Physiology II	4
CHEM131/132	Chemistry I - Fundamentals of General Chemistry/General Chemistry I Lab	3 / 1
CHEM231/232 OR CHEM105	Organic Chemistry I/Organic Chemistry I Lab OR Essentials of Organic and Biochemistry	3 / 1
BSCI222	Principles of Genetics	4
BSCI223	General Microbiology	4

*Courses that satisfy the Foundation in Behavioral and Social Science include: Introduction to Public and Community Health (HLTH130), Introduction to Health Behaviors (HLTH230), Anthropology (ANTH260), Sociology (SOCY100 or SOCY105), or Psychology (PSYC100).

Public Health Science Foundation Courses (31 credits)

In addition to the scientific foundation courses, the major also studies discipline specific courses that lead to advanced study in the field. These courses include, but are not limited to, the five core disciplines of public health (behavioral science, biostatistics, epidemiology, environmental health, and health services administration) as well as kinesiology and are instructed through the following:

COURSE ID	COURSE TITLE	COURSE CREDIT
HLTH366	Behavioral and Community Issues in Public Health	3
PHSC401	History of Public Health	3
MIEH300	Introduction to Environmental Health	3
MIEH400	Introduction to Global Health	3
KNES360	Exercise Physiology of Exercise	4
HLSA300	Introduction to Health Policy and Services	3
EPHB300	Biostatistics for Public Health Practice	3
EPHB301	Epidemiology for Public Health Practice	3
PHSC415	Essentials of Public Health Biology: The Cell, The Individual, and Disease	3
SPHL409	Social, Political, and Ethical Issues in Public Health	3

Public Health Science Options (12 Credits)

The Public Health Science option courses build upon the Scientific and Public Health Science Foundation courses. The option courses are 300 and 400 level courses offered within the major. By choosing from these courses, students have an opportunity to customize their program. Students are encouraged to specifically choose courses that best align with a particular career goal.

OFFICE OF UNDERGRADUATE STUDIES

2110 Marie Mount Hall, 301-405-9363
www.ugst.umd.edu

Associate Provost and Dean: William A. Cohen
Director of Administration and External Relations: Ashley Adkins
Director of Development and Alumni Relations: Lyn K. Culver (interim)
Associate Dean for General Education: Douglas Roberts
Associate Dean: Cynthia Kay Stevens
Assistant Deans: Deborah Reid Bryant, Lisa Kiely, Kathryn Robinson, Ann Smith
Assistant to the Dean: Mark Kuhn

Through its many programs, the Office of Undergraduate Studies serves all undergraduate students at the university, and the faculty and staff that support the undergraduate mission of the campus. The Office of Undergraduate Studies is the primary division at the University of Maryland responsible for leadership and oversight of undergraduate curricular and co-curricular education. The responsibilities of Undergraduate Studies include:

- Living-learning programs

- Academic enrichment programs
- Interdisciplinary and individual studies programs
- Academic advising policy and assessment
- General Education
- Academic planning and policy
- Enrollment management
- University learning outcomes assessment

Listings for programs that report to the Office of Undergraduate Studies:

Academic Achievement Programs

2204 Marie Mount Hall, 301-405-4736

www.aap.umd.edu

Executive Director: Dr. Jerry L. Lewis

The Academic Achievement Programs (AAP) primarily serves traditionally under-represented and low-income and first-generation college students. Academic support, skill enhancement, academic advising and counseling, and tutoring are provided for these populations and for students with disabilities. Academic Achievement Programs include the Intensive Educational Development (IED), Educational Opportunity Center (EOC), the Ronald E. McNair Post-Baccalaureate Achievement Program (McNair), the Summer Transitional Program, and Student Support Services (SSS). EOC, McNair, and SSS, are part of the Federal TRIO programs and are funded by the U.S. Department of Education to promote access, provide support services, motivate, and prepare students from disadvantaged backgrounds for retention in and graduation from undergraduate programs and to prepare for doctoral programs.

Educational Opportunity Center (EOC)

Dr. Marcal Graham, Associate Director

301-429-5933

UM-EOC is supported by a U.S. Department of Education grant designed to assist persons 19 and older, low-income, and first-generation in pursuing post-secondary educational opportunities. UM-EOC serves primarily Inner-Beltway communities in Prince George's County and provides assistance in the application process for admission to and financial aid for post-secondary education. Specific guidance is given in selecting colleges, completing the FAFSA, and promoting post-secondary education for target populations. EOC also works with high school seniors in some Prince George's County High Schools.

Summer Transitional Program (STP)

Dr. Tilahun Beyene, Director, IED and Associate Director, AAP

301-405-4739

The Summer Transitional Program (STP) assists students in both their academic and personal adjustment to the University. It includes very intensive skills enhancement in math, English, and college study strategies, coupled with enrollment in a selected three-credit university course with tutoring to facilitate students' academic adjustment. In addition, students enroll in a one-credit orientation course and participate in weekly individual and/or group counseling sessions. The six-week STP is required of all students admitted to the University through SSS/IED.

Intensive Educational Development (IED)

Dr. Tilahun Beyene, Director, IED and Associate Director, AAP

301-405-4739

IED provides an array of intensive academic and tutorial services to first-year and second-year students who participate in the Summer Transitional Program (STP), eligible first- and second-year transfer students, and other eligible students who seek academic support. The IED program begins with the STP; prospective students who are admitted to the University through the IED program are required to attend this six-week transitional program. Successful completion of the STP is required for admission to the University. Admitted students continue to receive program services throughout their undergraduate career at the University.

Student Support Services (SSS)

Dr. Stacey M. Brown, Associate Director

301-405-4739

SSS is a U.S. Department of Education grant supported program geared toward low-income and first-generation college students. It works in conjunction with the IED Program focusing much of its support to first- and second- year students. SSS provides academic and career advising, tutoring, stress management, and study-skill and test-taking support to eligible low-income and first-generation undergraduate students throughout their time at the University. The SSS program also provides financial aid workshops and assistance, individual and group counseling, and leadership development workshops. In limited cases, SSS provides supplemental grant aid to eligible participants in the program.

Ronald E. McNair Post-Baccalaureate Achievement Program

Dr. Rhea Roper Nedd, Associate Director

301-405-4749

The McNair Post-Baccalaureate Achievement Program (McNair Program) is funded and designed principally to prepare low-income, first-generation college juniors and seniors and/or students from traditionally underrepresented groups to matriculate and retain in graduate programs and earn doctoral degrees. The McNair Program is a year round commitment that consists of monthly workshops during the academic year and a six-week summer research experience that affords McNair Scholars the opportunity to work intimately with faculty mentors on specific research projects. McNair Scholars are required to complete a research abstract/paper for publication, and receive financial support towards presenting their research at conferences. The McNair Program offers instructional courses and workshops, as well as expert training and advice on written and oral communication skills, research methodologies, the preparation of compelling personal statements, admission and financial aid applications, and graduate school admission tests. "Whether or not you reach your goals in life depends entirely on how well you prepare for them and how badly you want them" and the McNair Program is committed to providing services to best equip students with a skill set that leads to the successful completion of doctoral degrees (Dr. Ronald E. McNair).

Academic Common Market

2110 Marie Mount Hall, 301-405-9363

<http://www.ugst.umd.edu/acmnotice.pdf>

Esther Park, Coordinator

SPECIAL NOTICE

**August 23, 2012
(Updated April 12, 2014)**

The University of Maryland, College Park has discontinued participation in the Academic Common Market.

The last ACM certifications the University of Maryland, College Park accepted were those specifying spring 2013 as the first term of enrollment in the certified major. The University of Maryland, College Park will not accept ACM certifications for later semesters. Only students with ACM certifications for spring 2013 or earlier semesters and who enroll in the certified program at UMD in their ACM certified semester may continue to receive the ACM in-state tuition benefit.

Transition Plans***Fall 2012 and earlier:***

Undergraduate students approved for participation in an Academic Common Market (ACM) major and enrolled in their certified majors as of fall 2012 or earlier may continue to receive benefits as long as they are continuously enrolled full time in the ACM approved major, maintain permanent residency in their certifying state, a 2.0 overall grade point average, and satisfactory progress toward the degree. Benefits will not exceed six (6) years beginning in the first term of enrollment in the ACM certified major.

Undergraduate students admitted for fall 2012 who deferred their admission to spring 2013 or fall 2013 will be treated according to the rules for undergraduate students admitted fall 2012. They must be approved for participation in an Academic Common Market (ACM) major and enrolled in their certified majors as of the semester to which they deferred. They may continue to receive benefits as long as they are continuously enrolled full time in the ACM approved major, maintain permanent residency in their certifying state, a 2.0 overall grade point average, and satisfactory progress toward the degree. Benefits will not exceed six (6) years beginning in the first term of enrollment in the ACM certified major.

Graduate students approved for participation in an Academic Common Market (ACM) major and enrolled in their certified majors as of fall 2012 or earlier may continue to receive benefits as long as they are continuously enrolled full time in the ACM approved major, maintain permanent residency in their certifying state, a 3.0 overall grade point average, and satisfactory progress toward the graduate degree. Benefits will not exceed six (6) years beginning in the first term of enrollment in the ACM certified program.

Graduate students admitted for fall 2012 who deferred their admission to spring 2013 or fall 2013 will be treated according to the rules for graduate students admitted fall 2012. They must be approved for participation in an Academic Common Market (ACM) major and enrolled in their certified majors as of the semester to which they deferred. They may continue to receive benefits as long as they are continuously enrolled full time in the ACM approved major, maintain permanent residency in their certifying state, a 3.0 overall grade point average, and satisfactory progress toward the degree. Benefits will not exceed six (6) years beginning in the first term of enrollment in the ACM certified major.

Spring 2013:

Undergraduate students, who receive ACM certification for spring 2013 and who are admitted to and enrolled in their approved ACM inventory majors for spring 2013, may receive benefits as long as they are continuously enrolled full time in the ACM approved major, maintain permanent residency in their certifying state, a 2.0 overall grade point average, and satisfactory progress toward the degree. Students may not pursue multiple degrees while receiving ACM benefits. Benefits will not exceed six (6) years beginning in the first term of enrollment in the ACM certified major.

Undergraduate students admitted for spring 2013 who deferred their admission to fall 2013 or spring 2014 will be treated according to the rules for undergraduate students admitted spring 2013. They must be approved for participation in an Academic Common Market (ACM) major and enrolled in their certified majors as of the semester to which they deferred. They may continue to receive benefits as long as they are continuously enrolled full time in the ACM approved major, maintain permanent residency in their certifying state, a 2.0 overall grade point average, and satisfactory progress toward the degree. Students may not pursue multiple degrees while receiving ACM benefits. Benefits will not exceed six (6) years beginning in the first term of enrollment in the ACM certified major.

Graduate students, who receive ACM certification for spring 2013 and who are admitted to and enrolled in their approved ACM inventory majors for spring 2013, may receive benefits as long as they are continuously enrolled full time in the ACM approved major, maintain permanent residency in their certifying state, a 3.0 overall grade point average, and satisfactory progress toward the graduate degree. Students may not pursue multiple degrees while receiving ACM benefits. Benefits will not exceed six (6) years beginning in the first term of enrollment in the ACM certified program.

Graduate students admitted for spring 2013 who deferred their admission to fall 2013 or spring 2014 will be treated according to the rules for undergraduate students admitted spring 2013. They must be approved for participation in an Academic Common Market (ACM) major and enrolled in their certified majors as of the semester to which they deferred. They may continue to receive benefits as long as they are continuously enrolled full time in the ACM approved major, maintain permanent residency in their certifying state, a 3.0 overall grade point average, and satisfactory progress toward the degree. Students may not pursue multiple degrees while receiving ACM benefits. Benefits will not exceed six (6) years beginning in the first term of enrollment in the ACM certified major.

Air Force Reserve Officer Training Corps (AFROTC) Program

2126 Cole Student Activities Building, 301-314-3242
www.afrotc.umd.edu
afrotcnet330@umd.edu
Director: Colonel David Morrissey

The Air Force Reserve Officer Training Corps (AFROTC) provides students the opportunity to earn a commission as a second lieutenant in the United States Air Force while completing their undergraduate or graduate degree. It is highly recommended that students seeking a commission contact the AFROTC department for full program details before registering for classes.

Program Requirements

AFROTC is designed to be a 4-year experience, but the schedule can be compressed (minimum of 3 years) for qualified candidates. A full four-year program is composed of the two-year General Military Course (GMC) and the two-year Professional Officer Course (POC). GMC students receive an introduction to the Air Force and various career fields, and may have a chance to compete for scholarships. Non-scholarship GMC students incur no military service obligation and may elect to discontinue the program at any time. Students wishing to continue in the POC must pass all cadet standards by their last semester in the GMC, successfully compete for acceptance into summer field training course, and complete field training. POC students concentrate on the development of leadership skills and the study of United States defense policy. Additionally, all POC students receive a monthly allowance of \$450-\$500.

Scholarships and Incentives

If the Air Force is offering scholarships, members of AFROTC in all degree programs are eligible to compete for scholarships based on a competitive selection process. Scholarship recipients receive money for tuition up to \$18,000 per year, a book allowance (currently \$600/year), and a monthly allowance from \$300 to \$500, depending on the student's AFROTC year.

Army Reserve Officer Training Corps (ROTC)

1150 Cole Student Activities Building, 301-314-9939
 www.armyrotc.umd.edu
 armyrotc@umd.edu
 Director: Lieutenant Colonel Curtis Burrell

The Army Reserve Officer Training Corps offers students the opportunity to develop leadership skills plus earn a commission as a Second Lieutenant in the United States Army (Active, Reserve, or National Guard) while completing their undergraduate degree.

Four-Year Program

The four-year program is composed of the Basic Leadership Course and the Advanced Leadership Course. The first two years (Basic Course) consists of a general introduction to military customs and courtesy, soldier skills, communication skills, personal development, and introductory leadership skills. Students enrolled in the basic course *incur no obligation* and *may discontinue the program at any time*. In the final two years (Advanced Course), students concentrate on developing leadership skills in organizations. Students must have permission of the Director of Army ROTC to enroll in the advanced course. The Advanced Course requires four weeks of field training at Fort Knox, Kentucky the summer after their junior year.

Two-Year Program

The two-year program is available to students with two years remaining in their university studies. The academic requirements for this program are identical to the Advanced Course in the four-year program, and students are eligible to receive the same benefits. Prerequisites for the Advanced Course must be fulfilled prior to enrollment. The following options exist to help students fulfill Basic Course requirements before enrolling in the Advanced Course:

1. Leadership Training Course (LTC): Students may attend a five week adventure challenge course at Fort Knox, Kentucky. Students should start the application process for this option no later than January of their sophomore year.
2. Veterans: Students with prior military service.
3. Basic Training: Constructive credit will be awarded for students who have completed Basic Training prior to starting their junior year.
4. Reserve Duty: Students serving in the Reserves or National Guard Training prior to entering their junior year or starting a graduate program.
5. JROTC: Students who completed 3-4 years of JROTC in High School.
6. Service Academy or Senior ROTC: Two year attendance at a service academy or successful completion of two years in a sister service Senior ROTC training can qualify for constructive credit.

Scholarships and Incentives

Army ROTC Scholarships are available for four, three or two years on a competitive basis. The scholarships are based solely on merit, not financial need. Scholarship awardees may apply benefits for either Room and Board or Tuition and Mandatory Fees. An additional book allowance (\$1,200 a year) and a non-taxable monthly stipend ranging from \$300-\$500 based on academic year is extended to students.

Army ROTC students/cadets may compete for summer training opportunities to include Airborne, Air Assault, Sapper School, Combat Diver Qualification, or Northern Warfare Training during the summer and winter breaks. Additionally, students/cadets may compete for summer abroad opportunities. Previous Army ROTC cadets have completed summer abroad in Brazil, Greece, India, Morocco, Panama, Slovakia, and Estonia (to name a few).

Curriculum

Basic Leadership Course

Freshman Year: ARMY106 (Fall) ARMY105 (Spring)
 Sophomore Year: ARMY201 (Fall) ARMY202 (Spring)

Advanced Leadership Course

Junior Year: ARMY301 (Fall) ARMY302 (Spring)
 Senior Year: ARMY401 (Fall) ARMY402 (Spring)

The Freshman and Sophomore level classes are *open to any student* for credit: ARMY106, 105, 201, 202, whether or not he or she is considered a cadet in the Army ROTC program. The Junior and Senior levels are restricted to "Cadet" status only (ARMY301, 302, 401 and 402). Contact Army ROTC for further information.

Asian American Studies Program (AAS)

2117 Susquehanna Hall, 301-405-0996
 www.aast.umd.edu
 aast@umd.edu
 Director: Janelle Wong, Ph.D.

In the Asian American Studies Program (AAS), students undertake an interdisciplinary and critical study of race, immigration, and political and social representation through examination of the experiences of Asian Americans. Students study the experiences of Asian Americans compared to and connected with other groups in the United States, as well as situated within a global and transnational context. Through this approach, students examine the histories, communities and cultures of Asian Americans as both distinctive and connected to the broader themes for diversity, ethnicity, race, gender, sexual orientation and migration in the Americas. AAS offers a 15 credit-hour minor. For the minor, courses may be cross-listed in other departments and some may satisfy general education requirements.

Minor Requirements:**A. AAST FOUNDATIONAL COURSE (3 credits)**

1. Introduction to Asian American Studies (AAST200/AMST298C)

OR

2. Asian American History (AAST201/HIST221/HIST219M/HIST219G)

B. ELECTIVE COURSES (9 credits)

Three (3) additional AAST or other approved courses, two of which must be upper division and one of which must be comparative ethnic or global/transnational/international (see courses below with an asterisk*). Students may take a course not on this list with approval of the AAST Director. The following list of regular and special topics include:

AAST200 Introduction to Asian American Studies

AAST201 Asian American History

AAST223 Introduction to Asian American Literature

AAST222/HIST222 Immigration and Ethnicity in the United States

AAST443 Asian American Politics

AAST378 Experiential Learning

AAST388 Independent Research

AAST498M Asian American Public Policy

AAST498I Asian American Leadership

AAST498G Asian American Women and Gender

AAST498O Asian American Health

*THET498D Special Topics in Theatre History from 1800 to Present: Asian American Theatre

*AAST498B Confucius' Many Lives in East Asia and Asian America

*AASP499T Advanced Topics in Public Policy and the Black Community: Race, Poverty, Violence, and the Juvenile Justice System: A Theoretical and Contextual Analysis of Social Capital

*AASP202H Black Culture in the United States

*USLT498B Special Topics: Latinas/os and US Popular Culture

*USLT498B Special Topics: Latinas/os and Racial Formation

*EALL300 The Languages of East Asia

*ARTH290 Art and Society in Asia

*AAST498W/AMST498R Selected Topics in American Studies: Transnational American Studies

*ARTH489F Special Topics in Art History: Modern Chinese Film and Visual Culture

*ENGL428Y Seminar in Language and Literature: Authors of the Early Black Atlantic

*USLT202 Overview US Latino/a Studies

*PSYC354 Cross-Cultural Psychology

*300-Level Asian language course (only 1 language class can count toward AAST minor)

C. UPPER DIVISION COURSES (3 credits)

AAST 499 Senior Thesis. Prerequisite: AAST200 or AAST201. This advanced colloquium in Asian American Studies is designed as a senior seminar. The course offers an intensive learning experience and students are required to complete a thesis, applied research project, or take part in and write about a sustained community experience.

OR

One additional 400-level AAST course

Beyond the Classroom

1104 South Campus Commons, Building 1, 301-314-6622

www.BeyondTheClassroom.umd.edu

btinfo@umd.edu

Director: James V. Riker

Beyond the Classroom (BTC) is an interdisciplinary living-learning program that prepares students to be active and responsible citizens and leaders in a complex, multi-cultural, and global society. Students develop the educational and professional leadership skills to understand and to contribute constructively to civic engagement and social change in a global context. Students address significant civic and social issues through exciting internship, community service, and civic learning experiences with nonprofit, nongovernmental and civil society organizations in the greater Washington, D.C. metropolitan area. Through its integrated academic, experiential, and service components that offer students real-world learning opportunities outside the classroom, BTC enables students from all disciplines and majors to develop and to realize their potential for civic leadership at the local, national and global levels. BTC is a three-semester program open to all sophomores, juniors, and seniors.

Carillon Communities

2405 Marie Mount Hall, 301-405-9360
www.carillon.umd.edu
carillon@umd.edu
 Coordinator: Melissa Del Rios

Carillon Communities is a one year living and learning option for freshmen who enroll in Letters and Sciences. Each of the communities is anchored by a 3 credit I-Series course and a 1 credit Carillon Seminar course. Students invited into the program have the opportunity to choose from among three options under the Carillon Communities umbrella: iGive, Novel Humans, and Once and Future Planet. The admission process for this opportunity is managed by the Admissions Office.

College Park Scholars Program (CPSP)

1125 Cumberland Hall, 301-314-2777
www.scholars.umd.edu
askcpscholars@umd.edu
 Executive Director: Marilee Lindemann, PhD

College Park Scholars is a nationally acclaimed living and learning program that offers outstanding students the interpersonal benefits of a small college paired with the intellectual advantages of a major research university. Each of its 12, two-year programs for freshmen and sophomores provides a close-knit community and a challenging, interdisciplinary academic experience. Students attend weekly, faculty-led colloquia that encourage active discussion and debate. Other courses in the curriculum satisfy General Education requirements. In the second semester of their sophomore year, students choose from independent research, service-learning projects, or internships -- both on- and off-campus -- to satisfy their Scholars practicum requirement.

The Programs' focus on community offers many advantages. Program faculty maintain offices in Cambridge Community residence halls which facilitates meeting with students. Several program faculty lead study-abroad experiences during the winter term or summer semester. Living together in the residence halls helps students form study groups for common courses. Scholars also engage with guest speakers and have the opportunity to continue conversations outside the classroom. Program directors encourage students to pursue leadership opportunities in co-curricular activities, design and implement community service and social events, participate in mentoring programs (<http://scholars.umd.edu/student-life/student-groups/peer-mentors>), recruitment activities (<http://scholars.umd.edu/student-life/student-groups/scholars-ambassadors>) or serve on the Student Advisory Board (<http://scholars.umd.edu/student-life/student-groups/student-advisory-board>).

Upon successful completion of the program, students earn an academic Citation (requirements vary by program, <http://scholars.umd.edu/citation-requirements>). In their junior year, students are encouraged to build on their Scholars experiences by participating in departmental honors programs and other research and internship opportunities.

Admission to College Park Scholars is selective and by invitation. Upon invitation to College Park Scholars, students indicate their preference from the following programs:

Arts (<http://www.scholars.umd.edu/programs/arts>)

Business, Society and the Economy (<http://www.scholars.umd.edu/programs/bse>)

Environment, Technology and Economy (<http://www.scholars.umd.edu/programs/ete>)

Global Public Health (<http://www.scholars.umd.edu/programs/gph>)

International Studies (<http://www.scholars.umd.edu/programs/is>)

Justice and Legal Thought (<http://www.scholars.umd.edu/programs/jlt>)

Life Sciences (<http://www.scholars.umd.edu/programs/lis>)

Media, Self and Society (<http://www.scholars.umd.edu/programs/mss>)

Public Leadership (<http://www.scholars.umd.edu/programs/pl>)

Science and Global Change (<http://www.scholars.umd.edu/programs/sgc>)

Science, Discovery and the Universe (<http://www.scholars.umd.edu/programs/sdu>)

Science, Technology and Society (<http://www.scholars.umd.edu/programs/sts>)

Federal Fellows Program

2407 Marie Mount Hall, 301-314-0261
www.federalsemester.umd.edu
federalsemester@umd.edu
 Director: Dr. Joan Burton

The Federal Fellows Program is a selective, yearlong program offered within the Office of Undergraduate Studies, in conjunction with other colleges, programs and campus initiatives. The program brings together students from all disciplines to learn, discuss, and explore issues related to federal policy, and galvanizes them toward public service careers. Rising sophomores, juniors, and seniors with strong academic backgrounds and an interest in exploring the possibility of public service are encouraged to apply.

Students who successfully complete all program requirements will earn a "Federal Semester Fellow" notation on their transcript.

The Federal Fellows Program consists of three primary components:

1. The Federal Fellows Seminar: FGSM320, 330, or 340 (3 credits, fall semester). A choice of several seminar courses, each focused on a specific theme (for example, health policy, homeland security policy, or energy and environmental policy). The seminars benefit from the diversity of students who participate in the program. The small setting allows students to bring knowledge from their disciplinary focus into the discussion. Taught by an expert practitioner, the seminars examine the policy-making process and discuss vital current issues within each theme. Guest speakers offer real-world perspectives on how governments and other actors implement policy.
2. The Internship: FGSM398 (3-9 credits, spring semester). The Federal Fellows experiential learning course offers credit for an internship with a federal agency or related organization. In class, students work on professional development and reflect on their internship experiences through journal assignments. With permission, students may instead complete the internship under the course number for internships in the student's major or in other programs in which the student is participating.

3. Supporting course work: Two regular UM courses, approved by the program, that complement the Federal Fellows mission (6 credits). With permission, students may apply courses completed prior to the Federal Fellows year.

In addition, students participate in Federal Fellows Program activities including visits to Capitol Hill and federal agencies, conversations with leaders in public policy, professional development workshops, one-on-one advising check-ins, and an end-of-the-year reception. The program provides a lively, engaged community of students and supportive alumni. Students in the program must have completed 45 credits by the end of the semester in which they apply and have a grade point average of 3.0 or higher. For details and application please see www.federalsemester.umd.edu.

First Year Book Program

Office of the Dean for Undergraduate Studies

2110 Marie Mount Hall
www.firstyearbook.umd.edu
 Director: Lisa Kiely

Each year since 1993, the University has selected a book for all first year students. The goal of the First Year Book Program (FYB) is to provide a shared intellectual experience for all new students along with the opportunity to discuss the book from a variety of disciplines. Courses, departmental lectures, living/learning programs, and student groups all sponsor events that complement a major address by the author and/or other important visitors to campus.

General Education

2100 Marie Mount Hall, 301-405-9363
 Contact: Douglas Roberts, Associate Dean for General Education

General Education

To earn a baccalaureate at the University of Maryland all students complete both a major course of study and a campus-wide general education program. For more information, see Chapter 5, General Education.

www.gened.umd.edu
gened@umd.edu

CORE Liberal Arts and Sciences Program
www.ugst.umd.edu/core

Global Fellows in Washington DC Program

2407 Marie Mount Hall, 301-314-0261
www.globalsemesterdc.umd.edu
globalsemesterdc@umd.edu
 Director: Dr. Joan Burton

The Global Fellows in Washington, D.C. Program is an innovative internship program designed to equip undergraduate students with the knowledge, skills, and experience to become leaders in an increasingly globalized society. The program is a collaborative academic initiative between the Office of Undergraduate Studies and the Office of International Affairs, with stakeholders across the University. The program aims to increase student involvement in and access to opportunities within the global arena. The program combines a fall academic seminar on global leadership and policy related to a specific theme, supported by additional coursework, and a spring semester internship experience in the Washington, D.C. area. Classes bring students in contact with professionals who share their knowledge, expertise, and perspectives. The spring internship placements are with international organizations, federal agencies, foreign embassies, and NGOs. The program is open to students from all majors. Rising sophomores, juniors, and seniors with strong academic backgrounds and an interest in the global arena are encouraged to apply. The Program provides a lively, engaged community of students and supportive alumni.

Students who successfully complete all program requirements will earn a "Global Semester DC Fellow" notation on their transcript.

The Global Fellows in Washington, D.C. Program consists of four primary components:

1. The Global Fellows in Washington, D.C. Seminar: FGSM360, 370, or 380 (3 credits, fall semester). Students in the program choose from two seminar courses based in global leadership and policy and designed especially for program participants. The courses are taught by expert practitioners and provide a deep understanding of global leadership and policy related to a specific theme. Guest speakers offer additional real-world perspectives.
2. The Internship: FGSM398 (3-6 credits, spring semester). The experiential internship course offered by the Global Fellows in Washington, D.C. Program enables students to earn credits for their professional experience in the global arena. Students registering for FGSM398 will provide signed confirmation of an internship position, submit guided journal entries, and complete a final reflective report on their internship experience. (Important note: Students may substitute another departmental internship course, offered in the student's major or elsewhere at the University, for FGSM398 in the Global Fellows in Washington, D.C. Program.)
3. Supporting course work: To round out the Global Fellows experience, two additional UMD courses, approved by the program, are required of students participating in the program. These courses complement the fall seminar and spring internship by providing greater depth and context to the academic experience (6 credits). With permission, courses completed prior to beginning the program may be used to satisfy this requirement.
4. Supplemental Activities: Throughout the year, students attend workshops and roundtable discussions and participate in off-campus activities, including visits to Capitol Hill and federal agencies, to learn more about real-world applications. Program staff offer one-on-one consultations regarding cover letters, resumes, and interviews.

Minimum requirements: Students in the program must have completed 45 credits by the end of the semester in which they apply and have a cumulative grade point average of 3.0 or higher. For further details and application see www.globalsemesterdc.umd.edu.

Global Studies

The Global Studies Minor Program provides opportunities for students from any discipline or major to study how evolving global connections affect the well-being of people throughout the world. Students in this interdisciplinary program develop an understanding and appreciation of how and why interactions across national and ethnic borders are shaped by language, culture, politics, economic development, and conflict.

The program is comprised of a number of specialization tracks which address issues from the perspective of different disciplines. The tracks are:

- International Development and Conflict Management (<http://www.cidcm.umd.edu/minor/>)
- International Engineering (<http://www.ilp.umd.edu/coursework>)
- Global Poverty (<http://arec.umd.edu/undergraduate/minors/global-poverty>)
- Global Terrorism (<http://www.start.umd.edu/>)

All students choose one course from a set of "signature" courses outside of their chosen track for exposure to major global issues addressed by the other Global Studies Minors. The minors provide an opportunity for an experiential component within a student's elective courses, including a study abroad experience. The Global Studies Minor Program includes special activities that involve students across the minors, such as special speaker forums, participation in major events, and experiences in Washington, D.C.

Honors College

Anne Arundel Hall, 301-405-6771
www.honors.umd.edu
honors@umd.edu
 Executive Director: Susan Dwyer

The Honors College (<http://www.honors.umd.edu/>), a vibrant and diverse intellectual community on the doorstep of the nation's capital, engages the University of Maryland's highest achieving undergraduates by providing academic challenges and boundless opportunities for discovery, setting them on paths to extraordinary futures. Small classes and outstanding teachers encourage discussion and foster innovative thinking across academic disciplines. Honors students have exclusive access to Honors living-learning program courses, Honors seminars, and Honors versions of courses offered by the academic departments on campus.

Students in the Honors College may earn an Honors College Citation on the transcript by completing coursework and satisfying all requirements in an Honors Living-Learning Program (<http://www.honors.umd.edu/ProgramOverview.pdf>). Honors Living-Learning Programs include: University Honors (<http://www.universityhonors.umd.edu/>), Gemstone (<http://www.gemstone.umd.edu/>), ACES (<http://www.aces.umd.edu/>), Design, Cultures and Creativity (<http://dcc.umd.edu/>), Entrepreneurship and Innovation (<http://www.eip.umd.edu/>), Honors Humanities (<http://www.honorshumanities.umd.edu/>), and Integrated Life Sciences (<http://www.ils.umd.edu/>). Acceptance of first-year students into the Honors College is competitive and by invitation based on the standard application to the University of Maryland (by November 1st for best consideration for Honors College and merit scholarships). In addition to joining an Honors College Living-Learning Program, Honors students may apply to one of 40 Departmental Honors Programs (<http://www.honors.umd.edu/departmenalhonors.php>) offered by the academic departments and colleges on campus to take full advantage of advanced, discipline-based Honors coursework and research opportunities in their major area of study. Most departmental honors programs begin in the sophomore or junior year. Students in a Departmental Honors Program may earn departmental honors on the transcript and diploma.

Individual Studies Program

2407 Marie Mount Hall, 301-314-0023
www.ivsp.umd.edu
individualstudies@umd.edu
 Director: Dr. Joan Burton

The Individual Studies Program (IVSP) is a degree-granting academic program administered through the Office of Undergraduate Studies. The program enables students to design their own interdisciplinary majors leading to the Bachelor of Arts or Bachelor of Science degree. Students draw primarily from the University of Maryland's course offerings to form an academic concentration not otherwise available to them at the institution. A written proposal that defines the student's major and outlines the curriculum is required to apply to the program. Individually created student majors have recently included such titles as International Relations and Diplomacy, Peace Building and Social Change, Global Health, 3D Environment Modeling and Design, Environmental Sustainability, Education and Social Change in Latin America, Healthcare Management for Diverse Communities, Global Development, Middle Eastern Studies, Asian American Policy and Advocacy, International Relations and East Asia, Women's Health and Global Communication, Renaissance Studies, and Urban Design and Studies. The program provides a supportive community of engaged and self-motivated students, alumni, and staff.

Students must seek the guidance and approval of a Faculty Mentor prior to having their proposal reviewed by the Individual Studies Faculty Review Board. If approved, the courses agreed upon by the Faculty Review Board become the basis for the student's major requirements. These listed requirements from numerous academic departments, along with the general education requirements, are analogous in most ways to the academic requirements given to students who select from the University's traditional majors. However, each student is required to design a unique program of study and defend it in order to be a part of IVSP. Individual Studies students must complete a senior capstone project and are encouraged to engage in internships, research projects, independent studies, and study abroad to supplement their work in the classroom. Drawing from real-life experience as a supplement to the academic curriculum is generally encouraged. These projects often serve as a way for the students to develop academic connections among the multiple disciplines involved in their programs.

While IVSP gives students the opportunity to create a unique academic program focused on a specific area of study, using courses from multiple academic departments, it does not substitute for or replicate the educational goals of existing University programs, including the Limited Enrollment Programs (LEPs). IVSP programs may not include substantial numbers of courses from LEP departments. Developing a successful IVSP proposal takes time and involves several meetings to review and edit the draft proposal. Interested students should contact the IVSP staff and begin the application process early in their academic career. Working closely with the IVSP staff and their prospective Faculty Mentor, students should plan to complete and submit their IVSP proposal, preferably during their sophomore year, or in their junior year, before reaching 90 credits.

To be admitted into the Individual Studies Program, the student must:

1. Have a clearly defined academic goal that cannot be reasonably satisfied in an existing curriculum at the University of Maryland, College Park.
2. Have at least 30 earned college credits with at least 12 credits completed at College Park.
3. Have a minimum of a 2.5 GPA in each of their previous two semesters of college and at least a 2.0 GPA overall.
4. Complete at least 30 additional credits beginning the term following admission to IVSP.
5. Identify an appropriate faculty mentor, preferably tenured or tenure track, with significant undergraduate education experience related to the field of study.
6. Complete a detailed plan of study (proposal) that is approved by their Faculty Mentor and then approved by the Individual Studies Faculty Review Board. This proposal will include:
 - a. A clear statement of the central academic purpose for their major.
 - b. Specific course requirements including at least 27 credits of upper-division major coursework (300- and 400-level) beyond the IVSP courses (IVSP317, IVSP318, and IVSP420).
 - c. The list of courses must include at least one Writing Craft course (in addition to the CORE Fundamental Studies Academic Writing

and the Professional Writing requirements) selected from an approved list that is available from the Individual Studies staff.

d. A semester-by-semester plan for the completion of their undergraduate degree within a reasonable period of time.

Following admission, students must:

1. Earn a grade of "C-" or better in all courses required in their IVSP program of study, including IVSP420 as well as a satisfactory grade in IVSP317.
2. Complete mandatory advising sessions with their Faculty Mentor and the IVSP staff every semester, including a review of their semester-by-semester academic plan for completion of their IVSP program.
3. If not already completed, work towards immediate completion of the Fundamental Studies requirements.

For details and further information, visit the IVSP website at www.ivsp.umd.edu or visit the program office at 2407 Marie Mount Hall.

Letters and Sciences

1117 Hornbake Library, 301-314-8418

www.ltsc.umd.edu

askltsc@umd.edu

Assistant Dean/Director: Deborah Reid Bryant, Ph. D.

Letters and Sciences is the academic home for students exploring a variety of fields before selecting a major, for post-baccalaureate students taking additional course work, and for non-degree seeking students taking undergraduate courses. Letters and Sciences may also serve as the academic home for students completing requirements for entry into a Limited Enrollment Program. Letters and Sciences advisors help students to select and schedule courses, plan academic programs, and learn about campus-wide resources. Letters and Sciences collaborates closely with college advising offices, academic departments, and programs across campus and provides a coordinated advising network that features:

Choosing a Major

Letters and Sciences students receive information about and referral to a wide range of academic programs and services including specialized workshop sessions. Letters and Sciences staff specialize in assisting students to develop strategies and plans for entering Limited Enrollment Programs.

Business Exploration Series

The Letters and Sciences *Business Exploration Series* (BES) is a multidimensional advising resource that provides LTSC students with an opportunity to explore the world of business through: exploratory seminars; business focused introduction to the University courses; valuable leadership opportunities; and access to guidance and support from knowledgeable advisors.

S.T.E.M. Exploration Series

The Letters and Sciences *S.T.E.M. Exploration Series* (SES) is a multidimensional advising resource that provides LTSC students with an opportunity to explore the world of Science, Technology, Engineering, and Mathematics through: exploratory seminars; S.T.E.M. focused introduction to the University courses; valuable research and leadership opportunities; and access to guidance and support from knowledgeable advisors.

Interim Advising Program

Newly admitted transfer students with more than 60 credits, who were unsuccessful in gaining admission to a Limited Enrollment Program, receive advising and assistance from a Letters and Sciences professional staff member during their first two semesters on campus. For this group of students, the University waives the requirement that all students must declare a major by 60 credits.

Transitional Advising Program

Currently enrolled students with more than 60 credits, who are moving between colleges due to change of interest, inability to meet benchmarks, or lack of sufficient GPA, receive advising and academic support. For this group of students, the University waives the requirement that all students must be in a declared major after 60 credits, for one semester.

Pre-Law Advising

Letters and Sciences offers specialized advising for students interested in law. For further information, see the section on Pre-Law Advising in this catalog, visit www.prelaw.umd.edu, or email prelaw@umd.edu.

Credit by Exam

Any University of Maryland student interested in Credit by Exam can pick up the form at the Letters and Sciences office.

Maryland Center for Undergraduate Research (MCUR)

1201 (first floor) Marie Mount Hall, 301-314-6786

www.ugresearch.umd.edu

ugresearch@umd.edu

Director: Francis DuVinage

The Maryland Center for Undergraduate Research (MCUR) is an initiative of the Office of the Dean of Undergraduate Studies. Created as a resource for students and faculty, the Center serves as a clearinghouse for information about both on-campus and off-campus research opportunities for undergraduates.

Major programs of the MCUR include Maryland Student Researchers, which permits faculty to list research opportunities open to undergraduates during the academic year, and Maryland Summer Scholars, which provides funding for students to conduct summer research (on campus or elsewhere in the US or abroad as needed) under the mentorship of Maryland faculty members. Students new to research as well as students with previous research experience participate in these programs. MCUR also sponsors Undergraduate Research Day, the University's largest and broadest undergraduate research event, every spring.

Naval Reserve Officer Training Corps Program (Naval ROTC)

0110 Reckord Armory, <http://navalrotc.umd.edu/>

navalrotc@umd.edu

Director: Captain Troy Mong

The Naval Reserve Officers Training Corps (NROTC) Program was established to educate and train qualified young men and women for service as commissioned officers in the US Navy (unrestricted line), or in the Marine Corps while completing their undergraduate degree. The NROTC Scholarship Program fills a vital need in preparing mature young men and women for leadership and management positions in an increasingly technical Navy and Marine Corps. It is highly recommended that students seeking a commission contact the Department of Naval Science/NROTC unit for full program details before registering for classes.

Program Requirements

The UMD NROTC Program was established to educate and train qualified young men and women for service as commissioned officers in the United States Navy and Marine Corps. The NROTC Scholarship Program plays an important role in preparing mature young men and women for leadership and management positions in an increasingly technical military environment. NROTC midshipmen are required to complete the naval science courses and attend weekly professional seminars. During the summer, NROTC midshipmen participate in active duty at sea or shore-based training cruises for approximately four weeks. Upon receiving their Baccalaureate Degree and completing the NROTC program, qualified midshipmen are commissioned as ensigns in the U.S. Navy or second lieutenants in the Marine Corps. Commissioned naval officers go on to training in various warfare specialties and serve as surface or submarine officers, naval aviators, explosive ordnance disposal officers or SEALs. Marine Corps officers attend "The Basic School" in Quantico, Virginia, and serve in fields such as infantry, artillery, combat engineers, and aviation. Staff positions (intelligence, law, medicine) are not normally offered through NROTC.

The NROTC Program was established to develop midshipmen mentally, morally and physically and to imbue them with the highest ideals of duty, and loyalty, and with the core values of honor, courage and commitment in order to commission college graduates as naval officers who possess a basic professional background, are motivated toward careers in the naval service, and have a potential for future development in mind and character so as to assume the highest responsibilities of command, citizenship and government.

Academic requirements

The Naval Science curriculum includes courses on topics such as Navy and Marine Corps organization, at-sea navigation, leadership, naval history, amphibious warfare, engineering, and weapons systems. Courses emphasize development of professional knowledge and leadership skills, which are placed in the context of military service immediately following graduation from University of Maryland.

Students in the NROTC program enroll in one Naval Science course per term. Some courses are required for both Navy and Marine option students, while others are specific to the branch of service. All NROTC students must also enroll in the Naval Science Laboratory (NAVY108) each term.

Navy option students must complete eight core curriculum courses offered by University of Maryland, including two term courses in calculus to be completed by the sophomore year, two term courses in calculus-based physics, with laboratory, to be completed by the junior year, two term courses in English or equivalent writing courses, one term course in history or national security policy, and one term course in world culture or regional studies.

Curriculum

Navy Option students typically will take:

Freshman Year: Navy100 (Fall), NAVY101 (Spring)

Sophomore Year: Navy200 (Fall), NAVY201 (Spring)

Junior Year: Navy300 (Fall), NAVY301 (Spring)

Senior Year: Navy400 (Fall), NAVY401 (Spring)

Marine Option typically will take:

Freshman Year: Navy100 (Fall), NAVY101 (Spring)

Sophomore Year: Navy200 (Fall)

Junior Year: Navy302 (Fall), NAVY402 (Spring)

Senior Year: NAVY401 (Spring)

Scholarships and Incentives

Recipients of National Scholarships are selected from applicants to a national competition (<https://www.nrotc.navy.mil/>). Additionally, through the NROTC 3 year and 2 year scholarship process, freshmen and sophomore members of NROTC in all degree programs are eligible to compete for scholarships also based on a competitive NROTC selection process. Scholarship recipients receive money for full tuition and fees, a book allowance (currently \$700/year), and a monthly allowance from \$250 to \$400, depending on the student's NROTC year. If unqualified for a scholarship but recommended for "advanced standing", a student will have the ability to commission in the U.S. Navy and will receive a book stipend and monthly allowance. There are no scholarship opportunities for juniors or seniors.

Campus Involvement

The NROTC unit values well-rounded future officers and encourages battalion members to get involved with numerous activities on campus. With participation in an internship, a semester abroad, intramural and varsity sports teams, fraternities or sororities, music or performance groups and countless clubs and groups, many members find outside activities an enjoyable aspect of their college experience.

Orientation

1102 Cole Student Activities Building, 301-314-8217

www.orientation.umd.edu

askorientation@umd.edu

Director: Dr. Gerry Strumpf

The goal of New Student Orientation is to introduce new students to the University of Maryland community. The Orientation Office offers a wide range of transitional programming and services for students and their families as they prepare to attend the University of Maryland.

New Student Orientation

Held prior to the semester a student enrolls at the University of Maryland, New Student Orientation for first-time freshmen traditionally covers two days; New Student Orientation for new transfer students covers one day. During New Student Orientation, individuals meet with representatives from their academic college for advising and course scheduling. Undergraduate Orientation Advisors (OA) introduce students to academic and student life at the University of Maryland, including student campus services and resources, and opportunities for involvement on campus.

Parent and Family Orientation

Parents and family members of new University of Maryland students are strongly encouraged to attend a one-day Parent and Family Orientation program specifically designed to introduce them to the academic, social, and cultural opportunities of the university, to better prepare them for the issues that are likely to affect their son(s) or daughter(s) throughout their matriculation at the University of

Maryland, and provide them with numerous resources and information to help their student succeed inside and outside the classroom.

Terp Trips

Terp Trips focus on the continuing transition of parents and family members. Offered to parents and family members on the second day of summer first year freshmen New Student Orientation programs *only*, these one-day programs combine a trip to an area attraction with a small group of other parents/family members and a campus faculty or staff host.

Introduction to the University (UNIV) Seminars

The Orientation Office coordinates new student seminar courses, UNIV100 and UNIV101. These courses introduce students to the world of higher education and, more specifically, to the University of Maryland. Course topics include career/major exploration, successful studying/test-taking strategies, diversity, time management, and involvement within the University of Maryland. UNIV seminar courses are led by a faculty or staff member and often an undergraduate TA.

Pre-College Programs

4111 John S. Toll Physics Building, 301-405-6776

www.precollege.umd.edu

pre-college@umd.edu

Executive Director: Georgette Hardy DeJesus

Upward Bound Programs: 301-405-6776

Upward Bound-Math and Science Program (UB-MS): 301-405-1224

The University of Maryland Pre-College Programs in Undergraduate Studies is comprised of three federally and state supported programs:

Two Upward Bound Programs (UB) and

Upward Bound-Math and Science Program (UB-MS)

These programs generate the skills and motivation necessary for success in post-secondary education. They immerse high school participants in rigorous academic instruction, tutoring, counseling, and innovative educational experiences throughout the school year and during the six-week summer residential program. Pre-College Programs are part of the Federal TRIO Programs that provide educational opportunity outreach programs designed to motivate and support students from disadvantaged backgrounds.

The UB Programs are open to low-income and/or first-generation college bound high school students in grades 9 through 12, who demonstrate an academic need and want to pursue a four-year postsecondary education. Eligible students must attend target high schools in Prince George's and Montgomery Counties. High school principals, teachers, and counselors recommend students to the program.

Eligibility for the Upward Bound Programs require that students attend Northwood High School in Montgomery County. Bladensburg, Central, High Point, Parkdale, or Northwestern High Schools in Prince George's County.

The UB-MS is open to students in grades 9 through 12, who demonstrate an academic need and want to pursue post-secondary education programs in fields related to mathematics and science. UB-MS recruits high school students who have successfully completed Algebra I, and attend Potomac and Fairmont Heights High Schools in Prince George's County, MD; Watkins Mill High School in Montgomery County, MD; and Bell High School in Washington, DC.

Pre-Transfer Advising

0110 Hornbake, 301.405.9449 or 9448

www.transferadvising.umd.edu

transferadvising@umd.edu

Assistant Dean: Lisa Kiely

The Pre-Transfer Advising Program promotes academic success and excellence by assessing the readiness of students who wish to transfer to UM. Pre-Transfer Advising assists students in estimating time to degree completion and advises on which courses to take prior to transfer. Advisors also serve as a resource for community college staff.

National Scholarship Office

2403 Marie Mount Hall, 301-314-1289

www.scholarships.umd.edu

scholarships@umd.edu

Director: Francis DuVinage, Ph.D.

The National Scholarships Office at the University of Maryland, College Park aims to provide undergraduates with the best possible information, guidance and support as they learn about and apply for national scholarships.

National scholarships are competitive, prestigious awards that provide opportunities and support for a wide range of enriching experiences, including study abroad, graduate study (and sometimes undergraduate study also), federal employment, teaching, research, and public service. National scholarships are looking for students (with or without financial need) who are developing strong interests and goals - academic and extracurricular - and who want to take advantage of every constructive opportunity that will help them reach their objectives. Just as each national scholarship offers a different kind of opportunity, each is also looking for a different range of strengths and interests in its applicants. If you develop a strong academic record, are thoughtful about your choices and devote yourself to activities you care about, you may well find one or more scholarship opportunities of interest to you.

The National Scholarships Office strives to make learning about and applying for national scholarships an enlightening experience. In addition to providing information about national scholarships through our website, through group presentations and through individual advising, we also provide individualized guidance and support at every stage of the application process. We invite you to visit our website and to make an appointment with us to learn more about national scholarships that may help you attain your goals.

Student Success Office

0110C Hornbake, www.studentsuccess.umd.edu

rr-admit@umd.edu

Coordinator: Paulanne Walker; Assistant Dean: Lisa Kiely

The Student Success Office is a clearinghouse for services and resources to assist students in the completion of their undergraduate degrees. This includes:

- Coordinating reenrollment

- Centralizing tutoring resources
- Managing data from exiting students
- Providing leadership on other retention initiatives

For more information, please see www.studentsuccess.umd.edu.

ACCOUNTING (BMGT)

The Robert H. Smith School of Business

1570 Van Munching Hall, 301-405-2286

www.rhsmith.umd.edu/undergrad

undergradinfo@rhsmith.umd.edu

Chair: M. Loeb

Professors: L. Gordon, O. Kim, M. Loeb, S. Loeb

Associate Professors: S. Cheng, R. Hann, M. Kimbrough

Assistant Professors: H. Lee, N. Seybert, J. Staihar (Asst Prof), M. Subasi (Asst Prof), E. Zur

Lecturers: P. Basu (Clinical), S. Brown (Clinical), G. Bulmash (Clinical), E. Cantor (Lecturer, Assoc Clin Prof), M. Finch, E. Folsom (Lecturer), P. Ford (Lecturer),

M. Gagnon (Lecturer), S. Handwerker, M. Keim, R. Martin (Lecturer), E. Martinez (Lecturer), J. McKinney (Clinical), J. Milton (Lecturer), L. Mostow (Lecturer), A.

Ramirez (Lecturer), S. Rose (Lecturer), A. Siegfried (Lecturer), D. Sites (Lecturer), D. Weber (Lecturer), H. Weiner (Lecturer)

Visiting Faculty: S. Demirkan (Visit Asst Prof), L. Zhou

The Major

Accounting, in a limited sense, is the analysis, classification, and recording of financial events and the reporting of the results of such events for an organization. In a broader sense, accounting consists of all financial systems for planning, controlling, and appraising performance of an organization. Accounting includes among its many facets: financial planning, budgeting, accounting systems, financial management controls, financial analysis of performance, financial reporting, internal and external auditing, and taxation. The accounting curriculum provides an educational foundation for careers in public accounting and management, whether in private business organizations, government or nonprofit agencies, or consulting. Two tracks are provided: The Public Accounting Track leading to the CPA (Certified Public Accounting) and the Management Accounting/Consulting Track. **Please note:** Currently, only the Public Accounting track is available.

Admission to the Major

See Robert H. Smith School of Business entry in chapter 6 for admission requirements.

Requirements for the Major

	All Accounting Majors:	Credits
BMGT310	Intermediate Accounting I	3
BMGT311	Intermediate Accounting II	3
BMGT321	Managerial Accounting	3
BMGT326	Accounting Systems	3

Accounting Majors must complete an additional 12 credits from one of the following tracks.

	Public Accounting Track:	
BMGT323	Taxation of Individuals*	3
BMGT411	Ethics and Professionalism in Accounting*	3
BMGT422	Auditing Theory & Practice*	3

One of the following: 3

BMGT410	Government Accounting
BMGT417	Taxation of Corporations, Partnerships and Estates
BMGT423	Fraud Examination
BMGT424	Advanced Accounting
BMGT427	Advanced Auditing Theory & Practice
BMGT428	Special Topics in Accounting

	Management Accounting/Consulting Track:	
BMGT426	Advanced Managerial Accounting	3
	<i>Three of the following:</i>	9

BMGT305	Survey of Business Information Systems and Technology
BMGT323	Taxation of Individuals*
BMGT332	Operations Research for Management Decisions
BMGT385	Operations Management
BMGT402	Database Systems
BMGT403	Systems Analysis and Design
BMGT410	Government Accounting
BMGT411	Ethics and Professionalism in Accounting*
BMGT417	Taxation of Corporations, Partnerships and Estates
BMGT423	Fraud Examination
BMGT424	Advanced Accounting
BMGT428	Special Topics in Accounting
BMGT430	Linear Statistical Models in Business
BMGT434	Introduction to Optimization
BMGT440	Advanced Financial Management
BMGT446	International Finance

Upper Level Economics Requirement 3
One of the following courses:

ECON305	Intermediate Macroeconomic Theory and Policy
ECON306	Intermediate Microeconomic Theory
ECON330	Money and Banking
ECON340	International Economics

Total Credits for Accounting and Economics

27

** Required for CPA in Maryland*

In addition to the major requirements listed above, please consult Chapter 6 or www.rhsmith.umd.edu for a listing of additional Smith School degree requirements that apply to all Smith School majors.

The basic educational requirements of the Maryland State Board of Public Accountancy to sit for the CPA examination are a baccalaureate or higher degree with a major in Accounting or with a non-accounting degree supplemented by course work the Board determines to be substantially the equivalent of an Accounting major. Students planning to take the CPA examination for certification and licensing outside Maryland should determine the educational requirements for that state and arrange their program accordingly.

120 credits are required to complete a degree in Accounting; however, students seeking to become a Certified Public Accountant (CPA) must meet the certification requirements for the state in which they wish to practice. Most states, including Maryland, require a minimum of 150 credit hours of college education to fulfill the education requirements to obtain a CPA license. However many of these states, including Maryland, will allow applicants to take the CPA exam prior to earning 150 credits if they have accumulated 120 credits, earned a degree, and meet specified education requirements. In addition, do not assume the course and credit requirements for the accounting major are sufficient for all states. For details on various states' CPA requirements visit www.nasba.org.

Advising

General advising for students admitted to the Smith School of Business is available Monday through Friday in the Office of Undergraduate Programs, 1570 Van Munching Hall, 301-405-2286, undergradinfo@rhsmith.umd.edu. It is recommended that students visit this office each semester to ensure that they are informed about current requirements and procedures. Transfer students entering the university can be advised during spring, summer, and fall transfer orientation programs. Contact the Orientation Office for further information, 301-314-8217.

Aerospace Engineering (ENAE)**A. James Clark School of Engineering**

3179 Glenn L. Martin Hall, 301-405-2376

www.aero.umd.eduaero_undergrad@umd.edu

Chair: N. Wereley (Minta Martin Professor of Aerospace Engineering)

Director: J. Barlow (Director of Glenn L. Martin Wind Tunnel), R. Sanner (Assoc Prof & Director of Undergraduate Studies), R. Sedwick (Assoc Prof & Director of Honors Program)

Professors: J. Baeder, O. Bauchau, R. Celi, I. Chopra (Alfred Gessow Professor of Rotorcraft Engineering), A. Flatau, W. Fourney (Professor, Associate Dean of Engineering), J. Hubbard (Samuel P. Langley Distinguished Professor), S. Lee, M. Lewis, E. Oran (Glenn L. Martin Institute Professor), D. Pines (Dean, Clark School of Engineering)

Associate Professors: D. Akin, C. Cadou, A. Datta (Assoc Res Sci, Visit Assoc Prof), P. Martin, D. Paley (Willis H. Young Jr. Professor of Aerospace Engineering Education), R. Sanner, R. Sedwick, A. Jones, S. Laurence, H. Xu

Assistant Professors: C. Hartzell, A. Jones, S. Laurence, H. Xu

Lecturers: B. Barbee, A. Becnel (Lecturer), C. Carignan, Y. Choi (Assoc Res Sci), L. Healy, D. Israel, K. Lewy, J. Mitchell, E. Morelli, V. Nagaraj (Sr Res Sci), D. Palumbo

Affiliate Professors: A. Trouve

Affiliate Associate Professors: M. Gollner, J. Humbert, A. Marshall

Professors Emeriti: J. Anderson, E. Jones, J. Leishman (Prof Emeritus)

Visiting Faculty: M. Bowden, F. Schmitz

The Major

Aerospace engineering concerns processes involved in design, manufacture and operation of aerospace vehicles within and beyond planetary atmospheres. Vehicles range from helicopters and other vertical takeoff aircraft at the low-speed end of the flight spectrum, to spacecraft traveling thousands of miles per hour during launch, orbit, trans-planetary flight or re-entry at the high-speed end. Between are general aviation and commercial transport aircraft flying at speeds well below and close to the speed of sound, and supersonic transports, fighters and missiles. Although each speed regime and each vehicle poses its special problems, all aerospace vehicles can be addressed by a common set of technical specialties or disciplines.

Sub-disciplines of Aerospace Engineering are: aerodynamics, flight dynamics, propulsion, structures, and "design". Aerodynamics addresses the flow of air and associated forces, moments, pressures, and temperature changes. Flight-dynamics addresses the motion of vehicles including trajectories, rotational dynamics, sensors, and control laws required for successful accomplishment of missions. Propulsion addresses the engines which have been devised to convert chemical (and occasionally other forms) energy into useful work to produce the thrust needed to propel aerospace vehicles. Structures addresses material properties, stresses, strains, deflection, and vibration along with manufacturing processes required to produce very light weight and rugged elements needed in aerospace vehicles. Aerospace "design" addresses the process of synthesizing vehicles and systems to meet defined missions and more general needs. This process draws on information from other sub-disciplines while embodying its own unique elements. The Aerospace Engineering program is designed to provide a firm foundation in various sub-disciplines.

Courses offered by this department may be found under the acronym: ENAE

The Bachelor of Science in Aerospace Engineering is accredited by the Engineering Accreditation Commission of ABET, www.abet.org, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: (410) 347-7700.

Program Objectives

- (1) Our graduates will be successful in their professional careers, including industry, government service, and academia, in the State of Maryland and beyond.
- (2) Our graduates will contribute to the creation of useful new products, or the generation of original research, by analyzing and implementing solutions to relevant problems in the component disciplines of Aerospace Engineering.
- (3) Our graduates will contribute effectively when part of an integrated team, clearly communicating with team members, supervisors, and clients.
- (4) Our graduates will understand the societal context in which their profession is practiced, and will successfully adapt to future developments in both technology and the employment market.

Program Learning Outcomes

As a result of completing our undergraduate program, our students should have developed the following skills:

- 1) Ability to apply knowledge of mathematics
- 2) Ability to apply knowledge of basic science (chemistry, physics)
- 3) Ability to apply knowledge of engineering principles
- 4) Ability to use computers to solve engineering problems
- 5) Ability to identify, formulate, and solve engineering problems
- 6) Ability to design and conduct experiments
- 7) Ability to analyze and interpret data
- 8) Ability to design a component, system, or process to meet desired needs under realistic constraints
- 9) Ability to use the techniques, skills, and tools of modern engineering practice
- 10) Ability to write effectively
- 11) Ability to speak effectively
- 12) Ability to function effectively as part of a multidisciplinary team
- 13) Understanding of professional and ethical responsibility
- 14) Knowledge of contemporary issues in engineering
- 15) Understanding of the impact of engineering solutions in a global and societal context

16) Awareness of the need to continually upgrade my technical knowledge base and skills

Academic Programs and Departmental Facilities

The Aerospace Engineering Department has a number of facilities to support education and research across a range of special areas. The department has subsonic wind tunnels with test sections ranging from a few inches up to 7.75 feet by 11.00 feet as well as a supersonic tunnel with a 6 inch by 6 inch test section. There are a number of structural test machines with capabilities up to 220,000 pounds for static loads and 50,000 pounds for dynamic loads. The department also has experimental facilities to test helicopter rotors in hover, in forward flight, and in vacuum to isolate inertial loads from aerodynamic loads. There is an anechoic chamber for the investigation of noise generated by helicopters, and an autoclave and other facilities for manufacturing and inspecting composite structures. The neutral buoyancy facility, which investigates the assembly of space structures in a simulated zero gravity environment, is supported by robots and associated controllers. There are also many computers and workstations that provide local computing capability and extensive network access to campus mainframes, supercomputing centers, and all the resources of the Internet.

Admission to the Major

Admission requirements are the same as those of other Engineering Departments. For admission information please see A. James Clark School of Engineering under The Colleges and School section of this site.

Requirements for the Major

		Credits First Sem	Credits Second Sem
	Freshman Year		
ENES100	Introduction to Engineering Design (**can be taken first or second semester)	3**	
ENAE100	The Aerospace Engineering Profession	1	
CHEM135	General Chemistry for Engineers	3	
MATH140/141	Calculus I, II	4	4
PHYS161	General Physics I		3
ENES102	Mechanics I (**can be taken first or second semester)		3**
ENAE202	Aerospace Computing		3
	General Education Program Requirements	3	3
	Total Credits	14	16

		Credits First Sem	Credits Second Sem
	Sophomore Year		
ENES220	Mechanics II	3	
ENAE283	Introduction to Aerospace Systems	3	
MATH241	Calculus III	4	
ENAE200	The Aerospace Engineering Profession II		1
ENES232	Thermodynamics		3
MATH246	Differential Equations		3
MATH461	Linear Algebra for Scientists and Engineers or		3 - 4
MATH 240	Introduction to Linear Algebra		
PHYS260/261	General Physics II	4	
PHYS270/271	General Physics III		4
	General Education Program Requirements	3	3
	Total Credits	17	17-18

		Credits First Sem	Credits Second Sem
	Junior Year		
ENAE311	Aerodynamics I	3	
ENAE301	Dynamics of Aerospace Systems	3	
ENAE362	Aerospace Instrumentation and Experimentation	3	
ENAE324	Aerospace Structures		4
ENAE432	Control of Aerospace Systems		3
ENAE380	Flight Software Systems	3	
ENGL393	Technical Writing		3
	General Education Program Requirements	3	3

ENAE414	<i>Aeronautical Track:</i> Aerodynamics II		3
---------	---	--	---

ENAE404	<i>Space System Track:</i> Space Flight Dynamics		3
	Total Credits	15	16

		Credits First Sem	Credits Second Sem
	Senior Year		
ENAE464	Aerospace Engineering Lab		3
ENAE423	Vibration & Aeroelasticity	3	
ENAE398*	Honors Research Project, or		3
ENAE 400s*	one 400 level ENAE course		
ELECTIVE+	Technical Elective; see note below		3
	General Education Program Requirements	3	3

Aeronautical Track:

ENAE403	Aircraft Flight Dynamics	3	
ENAE455	Aircraft Propulsion & Power	3	
ENAE481	Principles of Aircraft Design	3	
ENAE482	Aeronautical Systems Designs		3
<i>Space System Track:</i>			
ENAE441	Space Navigation & Guidance	3	
ENAE457	Space Propulsion & Power	3	
ENAE483	Principles of Space Systems Design	3	
ENAE484	Space Systems Design		3
	Total Credits	15	15

* Only one of ENAE 398, 488 or 499 may be used for these electives.

+ One 300/400 level course in Engineering, Mathematics, or Physical Sciences that has been approved for this purpose by the Undergraduate Program Director.

Minimum Degree Requirements: The fulfillment of all department, school, and university requirements. A minimum of 124 credits are required for an Aerospace Engineering degree.

Students must select a track. All courses in either the Aeronautical or Astronautical track must be completed. Students in either track who wish to gain a broader education across the aeronautical or space application areas can take courses required in the other track as electives.

Academic Benchmarks: Students pursuing the major should review the academic benchmarks established for this program. See: www.4yearplans.umd.edu. Students will be periodically reviewed to insure they are meeting benchmarks and progressing to the degree. Students who fall behind program benchmarks are subject to special advising requirements and other interventions.

Aerospace Electives

The department offers a range of electives. The following courses have recently been offered as electives for the undergraduate degree:

ENAE398H	Honors Research	
ENAE415	Helicopter Theory	3
ENAE416	Viscous Flow & Aerodynamic Heating	3
ENAE424	Design & Manufacture of Composite Prototypes	
ENAE425	Mechanics of Composite Structures	3
ENAE426	Computer-Aided Structural Analysis and Design	3
ENAE471	Aircraft Flight Testing	3
ENAE488B	Intro to Computational Structural Dynamics	3
ENAE488M	High Speed Aerodynamics	3
ENAE488P	Product Design	3
ENAE488R	Hybrid Rocket Design	3
ENAE488W	Design of Remotely Piloted Vehicles	3
ENAE499	Elective Research (<i>Repeatable to 6 credits</i>)	3

Other Requirements for the Major

See Chapter 6 for minimum grade requirements in key prerequisite courses for engineering students. Students should follow the sequence of courses as outlined in the aerospace engineering degree requirements and four-year plan.

Advising

Advising is mandatory each semester. First year students are primarily advised by the Assistant Director of Undergraduate Studies. After the first year, students are assigned to a faculty advisor whose permission is required for course registration each semester. The list of advisor assignments is available on the department's website.

Undergraduate Research Experiences

Students can be employed and perform research in any of the department's research labs, centers, or facilities. Participation in an on or off campus internship, co-op, or other experiential learning opportunity is strongly encouraged. See the aerospace engineering undergraduate studies staff for information on performing research in a department lab and contact the Engineering Co-op and Career Services office for assistance in obtaining off campus positions or experiences.

Honors Program

The Aerospace Engineering Honors Program at the University of Maryland provides a rigorous and comprehensive education for a career in technical leadership and scientific or engineering research. Honors coursework encompasses the required curriculum for all University of Maryland Aerospace Engineering students at an advanced level.

At the end of their first academic year, each aerospace student is evaluated and students are invited to join the program based on their University of Maryland cumulative grade point average and progress toward their degree in Aerospace Engineering. Honors sections of ENAE283, ENAE311, and ENAE423 (designated by an 'H' following the course number) are offered as part of this program, in addition to an honors research project, ENAE398H, which culminates in a scholarly paper and presentation at a professional conference. Students who complete the honors curriculum graduate with Aerospace Honors at the time of commencement.

Student Societies and Professional Organizations

The Department is home to student chapters of the American Institute of Aeronautics and Astronautics, American Helicopter Society - International, and the Sigma Gamma Tau aerospace engineering honors society. Aerospace Engineering students are also frequent participants in student activities of the Society for Advancement of Materials and Process Engineering.

Scholarships and Financial Assistance

The Department offers academic scholarships, and recipients are chosen based on merit. All admitted and current students in the department are automatically considered for these awards. No separate application is required. The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

The Department offers the following awards: Gessow Academic Achievement Awards for the seniors with the highest overall academic average at graduation; R.M. Rivello Scholarship Award and the Joseph Guthrie Memorial Award for highest overall academic average through the junior year; Chair Award for leadership and service to the department; Sigma Gamma Tau Outstanding Achievement Award for scholarship and service to the student chapter and the department; American Institute of Aeronautics and Astronautics Outstanding Achievement Award for scholarship and service to the student chapter and the department; John Anderson Scholarship in Aerospace Engineering for the best paper and poster presentation based on research performed at the University of Maryland.

African American Studies (AASP)

College of Behavioral and Social Sciences

1119 Taliaferro Hall, 301-405-1158

www.bsos.umd.edu/aasdp

Chair: O. Barbarin (Prof & Chair, Prof)

Director: V. Skeeter (Dir Admin Srv)

Associate Professors: S. Harley, S. Madhavan, J. Richardson

Assistant Professors: G. Dinwiddie

Lecturers: L. Batties, J. Clark, T. Clarke (Lecturer), J. England, R. Hall (Lecturer), I. Kargbo, J. Nichols, J. Semper

Adjunct Professors: A. Williams (Res Prof)

The Major

The African American Studies Department offers a Bachelor of Arts degree with two highly-regarded options: a Cultural and Social Analysis Concentration with emphasis on culture and history; or the Public Policy Concentration with an emphasis on problem-solving, analytical decision-making, and practical applications of policy analysis and management skills. In addition, students who elect majors in other departments can earn a Certificate in African American Studies. In September 2004, we introduced a minor in Black Women's Studies which is a collaborative program with the University's Department of Women's Studies.

Courses offered in this department may be found under the acronym AASP.

Program Objectives

The African American Studies Department (AASD) fosters an intellectual environment in which majors learn to critically examine, analyze, interpret and discuss the experiences, culture, traditions, and dynamics of people of the African Diaspora. A primary goal of the program is to develop strong critical thinking, analytical skills, research and writing skills, through our curriculum, such that AASD majors learn the interdisciplinary methods used in examining the socio-economic, historical, and political experiences and contributions of people of African descent. Our curriculum is organized and structured to introduce AASD majors to African American Studies and to ensure that they receive appropriate grounding in the major themes of the field and can place these themes in the historical context of the African Diaspora such that they are better prepared to address the social scientific issues of race, racism, and inequality. The program provides preparation in fundamental research methodology so that AASD majors are able to explore research questions with sufficient rigor.

Relevance of goals to the mission statements and/or strategic plans of the university, college, or program as applicable:

The University of Maryland's stated goals for undergraduates include the ability to learn and develop critical reasoning and research skills; written and oral communications skills; science and quantitative reasoning, and technological fluency. AASD majors are well prepared upon graduation in these areas through the department's curriculum and extensive one-on-one mentoring by the AASD faculty.

Program Learning Outcomes

A primary goal of the African American Studies Department is to develop strong critical thinking, research and writing skills, through our curriculum, such that AASD majors learn the interdisciplinary methods used in examining the socio-economic, historical, and political experiences and contributions of people of African descent. Students should acquire the following knowledge and skills:

Goal 1: Competency in critical analysis:

AASD students will be able to demonstrate critical reading and analytical skills, including understanding an argument's major assertions and assumptions and how to evaluate its supporting evidence.

Students will be able to articulate how historical change shapes ideas and social and political structures.

Students will be able to analyze forms and traditions of thought or expression in relation to cultural, historical, political, and social context, as, for example, dance, literature, music, and philosophical and religious traditions.

Goal 2: Competency in written communications:

AASD majors will be able to demonstrate research skills, integrate their own ideas with those of others and apply the conventions of attribution and citation correctly.

Students will be able to demonstrate the ability to formulate a thesis related to a specific topic and to support the thesis with evidence and argumentation.

Goal 3: Technological competency and critical analysis:

AASD majors will be able to demonstrate an understanding of the differences among appropriate and inappropriate methods for drawing conclusions through the use of formal analytical, or computational techniques to address real-world problems.

Goal 4: Critical/Analytical Reasoning:

AASD majors will be able to distinguish between premises and conclusions, or between data and inferences from data.

Goal 5: Competency in oral communications:

AASD majors will be able to demonstrate an understanding of the connection between writing and thinking and will be able to utilize writing and reading for inquiry, learning, thinking and communicating in an academic setting. They will use effective presentation techniques drawn from interdisciplinary research methods.

Admission to the Major

Students wishing to major in African American Studies must make an advising appointment for an orientation to the major. Students must complete an application and attend a BSOS academic plan workshop.

Please call the AASD office at 301-405-1158 to make an advising appointment.

Requirements for the Major

Students must earn a grade of "C-" or better in each course that is to be counted toward completion of degree requirements. Students must have a minimum 2.0 cumulative grade point average across all courses used to satisfy major degree requirements. All related or supporting courses in other departments must be approved by an AASP faculty advisor.

Foundation courses required for all majors:

		Credits
AASP100	Introduction to African American Studies	3
AASP101	Public Policy and the Black Community (Formerly AASP300)	3

AASP200	African Civilization	3
AASP202	Black Culture in the United States	3
AASP297	Research Methods in African American Studies <i>(Formerly AASP299R)</i>	3
	General Education	40-46

Cultural and Social Analysis Concentration Requirements:

ELECT 300/400	Upper-Division Electives in African American Studies	18
	Seminars	
	<i>One from:</i>	3 - 6
AASP397	Senior Thesis	
AASP386/396	Experiential Learning/Independent Study Non-Thesis Option	
AASP395	Fundamentals of Quantitative Research	3
	<i>One from:</i>	3
AASP400	Directed Readings in African American Studies	
AASP402	Classic Readings in African American Studies	

Public Policy Concentration Requirements:

	Analytic Component	
AASP301	Applied Policy Analysis and the Black Community <i>(Formerly AASP428J)</i>	3
AASP303	Computer Applications in African American Studies <i>(Formerly AASP428P)</i>	3
AASP305	Theoretical, Methodological, and Policy Research Issues in African American Studies <i>(Formerly AASP401)</i>	3
ECON200	Principles of Microeconomics	4
ECON201	Principles of Macroeconomics	4
	One additional analytical skills course outside of AASP, with AASP approval	3
	<i>One from:</i>	3
STAT100	Elementary Statistics and Probability	
SOCY201	Introductory Statistics for Sociology	
	Equivalent Statistics Course <i>(Sophomore Year)</i>	
AASP*	Policy Electives in African American Studies*	6
	Final Option	3 - 6
	<i>One from:</i>	
AASP397	Senior Thesis	
AASP386/396	Experiential Learning / Independent Study Non-Thesis	

Total Credits**90-93**

*Upper-division AASP electives in the policy area (AASP numbers 499A-Z) or, with approval, elective courses outside of AASP

Requirements for the Minor**Black Women's Studies****Joint Minor in Black Women's Studies**

College of Arts and Humanities
2101 Woods Hall, 301-405-6877

www.umd.edu/wmst

College of Behavioral and Social Sciences
2169 Lefrak Hall

www.bsos.umd.edu/aasp

The joint minor in Black Women's Studies focuses on the lives and experiences of women of Africa and the African Diaspora. As a specialty in the fields of Women's Studies and African American Studies, it will provide students with tools for understanding the social and cultural contexts in which race, gender, class, sexuality, ethnicity, nation and other dimensions of difference intersect to influence the lives and experiences of Black women.

Fifteen (15) credits of coursework are required, distributed below. A number of courses may count in more than one category. No course with a grade less than "C-" may be used to satisfy the minor. Students will design their program in consultation with the Women's Studies or African American Studies advisor. No more than two courses may count toward a major in African American Studies or Women's Studies.

Foundation courses (6 credits)

WMST263/AASP203 Introduction to Black Women's Studies or
WMST265/AASP213 Constructions of Manhood and Womanhood in the Black Community
AASP313/WMST314 Black Women in U.S. History

Distributive Requirements (9 credits)

Area I - Comparative or Non-US Course - indicated by a * below (3 credits)

Area II - Humanities (3 credits)

WMST263/AASP203 Introduction to Black Women's Studies

THET240 African Americans in Film and Theater

*ENGL362 Caribbean Literature in English

*FREN478B Themes and Movements of French Literature in Translation: Francophone Women Writers

Area III - Social Sciences (3 credits)

WMST265/AASP213 Constructions of Manhood and Womanhood in the Black Community

HIST319 Women and the Civil Rights Movement

*WMST360 Caribbean Women

*WMST410 Women of the African Diaspora

WMST488 Senior Seminar: Black Women in the Public Eye

AASP493 Feminist and Nationalist Thought in the Black Community

WMST498 Black Feminist Thought WMST498 Womanisms and Feminisms: Theories and Methods

AASP483 Gender, Sexuality and the Black Family

No course grade below the grade of "C-" may count toward the minor. An overall GPA of 2.0 in the minor is required for graduation.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/undergraduate/academics/minors

Certificate

The Certificate in African American Studies offers undergraduate students an excellent opportunity to develop a specialization in African American issues while pursuing a major in another field. Certificate students learn about the social, economic, political and cultural history of the African American people through a concentration of courses they plan with the AASD Academic Advisor. Courses taken toward the certificate also may be used to satisfy General Education requirements and electives.

Earning a Certificate in African American Studies gives students a competitive advantage in the job market by adding greater focus to their undergraduate experience.

Please see catalog section on "Certificate Programs" for more information and requirements for a Certificate in African American Studies.

Advising

The African American Studies Department has mandatory advising for all AASD majors.

Undergraduates in good academic standing may enroll in the African American Studies Department or obtain more information about available options and services by contacting the Undergraduate Academic Advisor, African American Studies Department, 1119 Taliaferro Hall, University of Maryland, College Park, MD 20742, 301-405-1158.

Undergraduate Research Experiences

African American Studies majors and certificate students are welcome and encouraged to apply for undergraduate research assistantships as part of AASP386, Experiential Learning. The student must be in good standing and have at least 56 cumulative credit hours to apply.

Additionally, AASD majors with an overall GPA of 3.0 or above may enroll, with department permission, in the AASP397, Senior Thesis, working with one or more core AASD faculty members. The student must have successfully completed AASP297, Research Methods in African American Studies.

For more information and details, please call the AASD Academic Advisor at 301-405-1158.

Fieldwork Opportunities

Experiential Learning, AASP386, in African American Studies is an academic seminar for majors and certificate students who are working at internship or service sites and organizations whose mission and goals related to the African American experience. Through course work and class discussions, students are challenged to integrate their experiential experiences with the interdisciplinary study of past and present African American communities. To successfully earn credit for experiential learning students must fulfill the requirements at the internship or service site, participate in a weekly seminar, and complete the assigned projects aimed at bringing together academic research, reflective work, and professional development.

The internship or service portion of the course requires students to work closely with their site supervisors. Students are required to fulfill the job responsibilities and work the number of hours per week that is outlined in their learning proposals. Site supervisors define specific job responsibilities and assignments, monitor their training, and evaluate their performance at the end of the semester by completing an evaluation form and submitting a letter of recommendation to be included in their portfolios.

Students are also required to participate in a weekly seminar and complete assignments that examine the relationship between classroom, work, and service experiences. The seminar will give students the opportunity to discuss their internships and how their experiences are enhanced by their understanding of African American studies. During the seminar, students will share information about assignments and give each other feedback. Students will evaluate their internship sites and the roles the sites play in black communities and in promoting social change.

Internships

AASP386 - Experiential Learning in African American Studies was developed to enable majors and certificate students to formally link their academic studies to experiences as undergraduate teaching assistants, undergraduate research assistants, and through external internships, while doing so in a structured learning context.

Undergraduate teaching assistants and undergraduate research assistants work directly with an AASD faculty member who provides supervision and mentoring to the student in all aspects of their undergraduate assistantship.

Student participating in external internships work closely with their site supervisors. Students are required to fulfill the job responsibilities and work the number of hours per week that is outlined in their learning proposals. Site supervisors define specific job responsibilities and assignments, monitor their training, and evaluate their performance at the end of the semester by completing an evaluation form and submitting a letter of recommendation to be included in their portfolios.

All students must participate in a weekly seminar, and complete assigned projects aimed at bringing together academic research, reflective work, and professional development.

Honors Program

AASD offers honors sections for many of our General Education and upper-level elective courses.

AASP397, Senior Thesis, is a capstone course that offers AASD majors who have a cumulative GPA of 3.0 or higher and who complete AASP297, Research Methods in African American Studies, with a "B+" or better, the opportunity to work with a tenured or tenured-track AASD faculty member in an independent study to complete a senior thesis project.

Senior thesis students have the opportunity to research, write, and orally defend their thesis project before a panel of AASD faculty.

Please make an appointment to see the AASD Academic Advisor about the honors sequence by calling 301-405-1158.

Student Societies and Professional Organizations

AASD majors have the opportunity of being well prepared for leadership positions in campus organizations. AASD majors have historically held notable positions at the University of Maryland in such organizations as the NAACP, Alpha Nu Omega Sorority, Incorporated and The Black Student Union.

The Society of African American Studies is the student-run organization associated with and supported by the department. The Society provides community service in local schools, hosts on-campus programs and events, and annually has supported a local family through its "Adopt-a-Family" program.

The Society annually sponsors a "Saturday Freedom School" program which brings middle school children from a local Prince George's County Public School to campus for seven consecutive Saturdays. The program provides mentoring and academic support that seeks to foster the development of positive Black identities in the student participants, while strengthening their academic performance.

Students are recruited from across the UMD campus to serve as mentors to Saturday Freedom School participants.

Please call 301-405-1158 to inquire about the Society of African American Studies.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, please visit www.financialaid.umd.edu.

Awards and Recognition

Graduating seniors with an overall GPA of a 3.2 who have earned a 3.5 GPA within the major are recognized with departmental honors.

Graduating seniors with an overall GPA of a 3.5 who have earned a 3.7 GPA within the major are recognized with departmental high honors.

Agricultural and Resource Economics (AREC)

College of Agriculture and Natural Resources

Chair: J. Hanson

Professors: A. Alberini, R. Chambers, J. Hanson, R. Just, E. Lichtenberg, L. Lynch, M. Nerlove, L. Olson, S. Salant (Res Prof), R. Williams

Associate Professors: H. Leathers, K. Leonard

Assistant Professors: S. Gunnsteinsson, J. Holzer Bilbao, S. Houde, P. Jakiela, D. Newburn, M. Zaki

Instructors: A. Ellixson (Extension Legal Specialist), P. Goeringer (Extension Legal Specialist), D. Johnson (Farm Management Specialist)

Affiliate Professors: P. Cramton, M. Cropper

Adjunct Professors: J. Chavas, R. Fare, J. Hoddinott, A. Lange, J. List, J. Quiggin

Adjunct Associate Professors: K. McNew

Professors Emeriti: N. Bockstael, E. Brown, J. Cain, I. Hardie, D. Hueth, D. Lipton, J. Moore, I. Strand, D. Tuthill

The Major

Agricultural and Resource Economics majors complete a set of prerequisite courses, a core of classes offered by the Agricultural and Resource Economics Department, and one or more fields comprised of selected courses from outside the department. The core includes courses in economic reasoning, agribusiness management, environmental and resource policy, agricultural policy, economic development, and analytical methods. The program permits students flexibility in choosing fields to fit their career interests. Majors must complete one and are strongly encouraged to complete two fields. The curriculum balances breadth and depth, and lets students develop academic skills in two or more areas. The program provides a good foundation for careers in economics, resource or environmental policy, agribusiness, and international agriculture. Students are also able to minor in Agricultural and Resource Economics.

Double Majors

The department features a double major with Spanish for students interested in careers in multinational agribusiness firms or international agencies. It features a double major with Government and Politics for students interested in law school. Both can be completed within 120 credits. Other double majors are possible in consultation with an advisor.

Program Learning Outcomes

Upon completion of the degree program, students should have acquired the following knowledge and skills:

- An understanding of economic terms and concepts.
- An ability to draw inferences from data.
- A knowledge of relevant laws, institutions, and policies.

Requirements for the Major

	Prerequisite Courses	Credits
ECON200	Principles of Microeconomics	4
ECON201	Principles of Macroeconomics	4
AREC326	Intermediate Microeconomic Theory 3	3
ECON321	Economic Statistics, OR	3
BMGT230	Business Statistics	
MATH120 or MATH220	Elementary Calculus I, OR	3
MATH140	Calculus I	
STAT100	Elementary Statistics and Probability, OR	3
MATH111	Introduction to Probability	
	Major Core Courses	
	<i>Seven of these courses must be successfully completed.</i>	
AREC404	Applied Price Analysis	3
AREC405	Economics of Production	3
AREC422	Econometric Applications in Agriculture	3
AREC425	Economics of the Food Sector	3
AREC427	Economics of Commodity Marketing Systems	3
AREC430	Introduction to Agriculture and Resource Law	3
AREC433	Food and Agricultural Policy	3
AREC435	Commodity Futures and Options	3
AREC445	Agricultural Development in the Third World	3
AREC446	Sustainable Economic Development	3
AREC453	Economics of Natural Resource Use	3
AREC455	Economics of Land Use	3
AREC456	Energy and Environmental Economics	3
AREC484	Introduction to Econometrics in Agriculture	3
AREC306	Farm Management	3
AREC382	Computer-Based Analysis in Agricultural and Resource Economics	3
AREC400s	any other 3 credit 400-level AREC course may be substituted with permission of advisor	
	Fields	
	All majors must complete one of the following fields. Two are strongly encouraged.	
	Business Management	
BMGT220	Principles of Accounting I	3
BMGT221	Principles of Accounting II	3
BMGT340	Business Finance	3

BMGT350	Marketing Principles	3
BMGT364	Management and Organization	3
BMGT380	Business Law I	3
	<i>Other 300-level BMGT courses may be substituted, with permission of advisor. (The AREC department cannot authorize students to take BMGT courses that are restricted to business majors.)</i>	
BMGT300s		
	Total Credits	18
	Agricultural Science	
	<i>Six (or more) courses in agricultural science, including:</i>	
PLSC204	Fundamentals of Agricultural Mechanics	3
PLSC100	Introduction to Horticulture, OR	4
PLSC101	Introduction to Crop Science	
ENST105	Soil and Environmental Quality	3
ANSC101	Principles of Animal Science	3
	<i>Other courses in agricultural science, chosen in consultation with an advisor. Substitutions to the above listed courses may be made with the permission of advisor.</i>	
AGRI SCI		4
	Total Credits	18
	Food Production	
	<i>Six courses from the following list:</i>	
PHYS117	Introduction to Physics, OR	4
PHYS121	Fundamentals of Physics	
BSCI170&171	Principles of Molecular and Cellular Biology and Lab	4
BSCI223	General Microbiology	4
NFSC100	Elements of Nutrition	3
NFSC112	Food Science and Technology	3
NFSC430	Food Microbiology	3
NFSC431	Food Quality Control	4
	<i>Other courses related to food science can be substituted with permission of advisor.</i>	
	Total Credits	18
	Environmental and Resource Policy	
	<i>Six courses from the following list:</i>	
ECON481	Environmental Economics	3
ANTH450	Theory and Practice of Environmental Anthropology	3
HIST405	Environmental History	3
GEOG372	Remote Sensing	3
GEOG373	Geographic Information Systems	3
GVPT273	Introduction to Environmental Politics	3
GVPT306	Global Ecopolitics	3
	<i>Other courses related to environmental policies or sciences can be substituted with permission of advisor.</i>	
	Total Credits	18
	International Agriculture	
	<i>Six courses from the following list:</i>	
ECON305	Intermediate Macroeconomics	3
ECON315	Economic Development of Underdeveloped Areas	3
ECON340	International Economics	3
GEOG422	Population Geography	3
GVPT200	International Political Relations	3
GVPT350	International Relations in the Third World	3
ENST440	Crops, Soils and Civilization	3
PLSC303	International Crop Production	3
	<i>Other courses related to international economics, business, politics, or agriculture can be substituted with permission of advisor.</i>	
	Total Credits	18
	Political Process	
GVPT	Any six courses in government and politics, chosen with permission of the advisor.	18
	Total Credits	18
	Advanced Degree Preparation	
	<i>Six (or more) courses from the following list:</i>	
ECON407	Advanced Macroeconomics	3
ECON414	Game Theory	3
ECON415	Strategic Behavior and Incentives	3
ECON422	Econometrics I	3

ECON423	Econometrics II	3
ECON425	Mathematical Economics	3
MATH141	Calculus II	4
MATH240	Introduction to Linear Algebra	4
MATH241	Calculus III	4
	<i>Other courses in mathematics, statistics, or econometrics may be substituted with permission of advisor.</i>	
	Total Credits	18
	Student Designed Field	
	This field requires a written proposal listing at least six courses totaling at least 18 credits. The proposal must be submitted to the Undergraduate Committee of the AREC department. Committee approval must be obtained 30 or more credit hours before graduation. A student designed field may be used to study a foreign language as part of the AREC curriculum.	18
	Total Credits	18

Other Requirements for the Major

All courses must be passed with a grade of "C-" or better to count towards prerequisite courses, major core courses, or field requirements. "C- or better" means any grade for which the University awards 1.7 or more quality points in calculating GPA. Beginning with students matriculating Fall 2012, to be awarded a baccalaureate degree, students must have a minimum "C" (2.00) cumulative grade point average across all courses used to satisfy major degree requirements.

Requirements for the Minor

Four minors exist in AREC, Agribusiness Economics, Resource and Agricultural Policy in Economic Development, Environmental Economics and Policy, and Global Poverty. Requirements are listed below:

Agribusiness Economics

Choose five courses from the following list. Nine credits must be at the 300-400 level.

AREC240 Introduction to Economics and the Environment
 AREC250 Elements of Agricultural and Resource Economics
 AREC306 Farm Management and Sustainable Food Production
 AREC404 Applied Price Analysis
 AREC405 Economics of Production
 AREC425 Economics of Food Sector
 AREC427 Economics of Commodity Marketing Systems
 AREC433 Food and Agricultural Policy
 AREC435 Commodity Futures and Options
 AREC422 Econometric Applications in Agricultural and Natural Resource Economics

Another AREC course can be substituted for one of the courses listed with permission of the AREC Undergraduate Coordinator.

15 Total Credits

Resource and Agricultural Policy in Economic Development

Choose five courses from the following list. Nine credits must be at the 300-400 level.

AREC240 Introduction to Economics and the Environment
 AREC250 Elements of Agricultural and Resource Economics
 AREC345 Global Poverty and Economic Development
 AREC365 World Hunger, Population and Food Supplies
 AREC433 Food and Agricultural Policy
 AREC445 Agricultural Development, Population Growth, and Environment
 AREC453 Natural Resources and Public Policy
 AREC422 Econometric Applications in Agricultural and Natural Resource Economics

AREC446 Sustainable Economic Development
Another AREC course can be substituted for one of the courses listed with permission of the AREC Undergraduate Coordinator.

15 Total Credits

Environmental Economics and Policy

Choose five courses from the following list. Nine credits must be at the 300-400 level.

AREC200 The Chesapeake Bay Ecosystem: Intersection of Science, Economics, and Policy
 AREC240 Introduction to Economics and the Environment
 AREC250 Elements of Agricultural and Resource Economics
 AREC382 Economics (Prerequisites: AREC 240 and MATH 111, STAT 100, or equivalent)
 AREC445 Agricultural Development, Population Growth, and Environment
 AREC453 Natural Resources and Public Policy
 AREC454 The Economics of Climate Change
 AREC455 Economics of Land Use
 AREC422 Econometric Applications in Agricultural and Natural Resource Economics

Another AREC course can be substituted for one of the courses listed with permission of the AREC Undergraduate Coordinator.

15 Total Credits

Global Poverty

Students must complete at least 15 credits in the Minor including at least one of the following Signature courses in the Global Poverty Minor:

AREC345 Global Poverty and Economic Development (3 credits)
AREC365 World Hunger, Population, and Food Supplies (3 credits)

and at least one signature course from another track in the Global Studies Minor Program:

BSST330 Terrorist Motivations and Behaviors (3 credits)
ENES472 International Business Cultures in Engineering and Technology (3 credits)
GEOG130 Developing Countries (3 credits)
GEOG330 As the World Turns: Society and Sustainability in a Time of Great Change (3 credits)
GVPT306 Global Ecopolitics (3 credits)

The remaining credits must be completed from the following:

AREC445 Agricultural Development, Population Growth and the Environment (3 credits)
ANTH265 Anthropology of Global Health (3 credits)
GVPT282 Politics and the Developing World (3 credits)
GVPT350 International Relations of the Third World (3 credits)
GEOG423 Latin America (3 credits)
ECON314 Economic History, Development and Policy (3 credits)
ECON315 Economic Development of Underdeveloped Areas (3 credits)
ECON317 Global Economic Policies (3 credits)
ECON375 Economics of Poverty and Discrimination (3 credits)
ECON416 Theory of Economic Development (3 credits)
ECON418 Economic Development of Selected Areas (3 credits)
ENST100 International Crop Production-Issues and Challenges in the 21st Century (3 credits)
FMSC381 Poverty, Affluence, and Families (3 credits)
GEOG130 Developing Countries (3 credits)
HIST496 Africa Since Independence (3 credits)
HONR228N Evaluating Global Development Assistance (3 credits)
HONR228R Parenting and Poverty: The Effects of Growing Up Poor on Children's Development (3 credits)
NFSC425 International Nutrition (3 credits)

3 credits of study abroad or 3 credits of an internship or experiential learning related to poverty and approved by advisor.

A second Global Poverty signature course and additional signature courses from another Global Studies Minor may serve as electives provided they are not being used to satisfy the requirements of a different minor. Students may also propose other courses to meet the elective requirement. No course may be used to satisfy the requirements of more than one minor.

At least 9 credits must be at the 300-400 level.

All courses presented for the minor must be passed with a grade of "C-" or better. Beginning with students matriculating in Fall 2012, to be awarded a baccalaureate degree, students must have a minimum "C" (2.00) cumulative grade point average across all courses used to satisfy minor requirements.

Advising

Because the program is flexible, advising is mandatory every semester. Appointments may be made by visiting the link below:

<http://www.arec.umd.edu/undergraduate/advising>

Undergraduate Research Experiences

Because it is part of a land grant university, the Department also has responsibility for research and technology transfer. During undergraduate study, students are encouraged to conduct independent research in faculty laboratories on campus or at the nearby U.S. Department of Agriculture Beltsville Agricultural Research Center and other area locations.

AREC faculty members provide a unique and rewarding research experience for undergraduates through the UMD First-Year Innovation & Research Experience (FIRE) program. The research agenda is continually updated and is designed to engage multiple focus areas in the department's advanced computational collaborative learning center. Current examples include how species characteristics, ecosystems, markets, technology and trade influence the conservation or overexploitation of natural resources, the impact of renewable energy systems and vehicle ownership on environmental quality and interventions that encourage households and small businesses to invest in cost-effective, energy-saving technologies. Students develop quantitative research skills including: framing research questions for quantitative policy analysis, preparing large data sets for analysis, data analytics and visualization techniques, and preparing research results for presentation, publication and outreach. This opportunity is available to first-year students of all majors. For more information please visit: <http://fire.umd.edu/>

Internships

Internship Program

This internship experience is open to current AREC undergraduate students and students in the Global Poverty minor.

Internship Program Description

Students will identify an internship and start the process of getting approval from the Assistant Director. If students need help with identifying an internship, the Assistant Director can provide assistance. Once approval is given and all paperwork is signed, the student will register for the internship course, AREC386. A student must complete the internship in the same semester he/she registers for the course.

Please visit this link for additional information:

<http://www.arec.umd.edu/undergraduate/undergraduate-programs/internship-program>

Scholarships and Financial Assistance

AREC offers scholarships to AREC undergrads. These awards are based on merit and are in addition to any funding received from the campus or from the college. Currently, scholarship awards are available to the full-time AREC majors with the highest GPAs. They are determined on a semester basis and

depend on the availability of funds. Scholarship awardees are required to conduct themselves in accordance with the rules and regulations of the University.

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

The Major

The Major

Agricultural Science and Technology is an interdisciplinary major about sustainable crop production. Students can choose either agronomy or environmental horticulture. This major is a science based curriculum that allows students to obtain technological skills in a broad area of agricultural studies.

Agronomy

Agronomy students will be educated in a broad range of agricultural disciplines providing them with a comprehensive education in crop, soil and animal sciences. Students will take courses in Animal Science, Crop Science, Soil Science, Agricultural Economics and Pest Management. This specialization has electives that allows students to design their curriculum and develop knowledge in areas that meet their future goals. Graduates will be prepared to work in the agricultural industry in agricultural extension, management, marketing, regulatory, support services, teaching, etc. Students in this specialization may take coursework in a program designed to prepare them to teach high school agriculture.

Environmental Horticulture

The Environmental Horticulture specialization focuses on the science, technology and management of fruit, vegetable, flower and woody ornamental plant production. The applied aspects of the curriculum include training in plant propagation, greenhouse crop production systems, containerized nursery production, and the application of high tunnels for extending the fruit and vegetable crop production season. Courses are taken in plant science, soil science, plant protection and food safety practices. Graduates of this program pursue careers in urban agriculture, horticultural enterprises and public education programs. Students can prepare for plant science graduate programs by taking additional courses.

The Department of Plant Science and Landscape Architecture offers two other undergraduate degrees: the Bachelor of Science (B.S.) in Plant Sciences and the Bachelor of Landscape Architecture (BLA).

Courses offered by this department are under: PLSC and LARC.

Program Learning Outcomes

- Students will develop technical and knowledge-based skills in the required areas of study.
- Students will use technical and basic learned knowledge to collaborate, solve problems, and then articulate conclusions.
- Students shall develop effective communication skills and demonstrate the ability to present ideas with clarity to an appropriate audience.
- Students will connect and build relationships with external groups in the appropriate fields of study.

Requirements for the Major

Both specializations:

		Credits
ANSC101	Principles of Animal Science	3
ANSC103	Principles of Animal Science Laboratory	1
AREC250	Elements of Agricultural and Resource Economics	3
AREC**	Restrictive Elective	3
BSCI337 or	Biology of Insects	4
BSCI497	Insects of Ornamentals and Turf	4
CHEM131/132	Chemistry I – Fundamentals of General Chemistry and Laboratory	4
ENST200	Fundamentals of Soil Science	4
MATH113	College Algebra with Applications	3
PLSC201	Plant Structure and Function	4
PLSC204	Fundamentals of Agricultural Mechanics	3
PLSC275 or	Agricultural Chemistry	3 - 4
CHEM231/232	Organic Chemistry and Laboratory	3 - 4
PLSC389	Internship	3
PLSC420	Plant Pathology	4
PLSC453	Weed Science	3
PLSC460	Application of Knowledge in Plant Sciences	3
Total		48-49

***Students may take any course having the required hours in the area indicated.*

Agronomy Specialization:

		Credits
Accounting, Education, Computer Science or Policy	Restrictive Elective	3
ANSC	Elective	3
ANSC220	Livestock Management	3
ANSC/PLSC/LARC	Elective	3
BSCI160&161	Principles of Ecology and Evolution and Laboratory	4
ENST	Elective	3
PLSC101	Introduction to Crop Science	4
PLSC	Elective	3
Agronomy Specialization Requirements		26

Core Major Requirements	48-49
Additional General Education Requirements	24-30
Electives	15-22
Total	120

Environmental Horticulture Specialization:

		Credits
BSCI170&171	Principles of Molecular and Cellular Biology and Laboratory	4
ENST411 or	Principles of Soil Fertility	
	Cultural Management of Nursery and Greenhouse Systems	3/4
PLSC461,462,463,464	(Substrates, Irrigation, Surface Water, Nutrients)	
PLSC203	Plants, Genes and Biotechnology	3
PLSC100	Introduction to Horticulture	4
PLSC271	Plant Propagation	3
PLSC303	International Crop Production	3
PLSC400	Environmental Plant Physiology	4
PLSC432	Greenhouse Crop Production	3
PLSC433	Technology of Fruit and Vegetable Crop Production	4
Environmental Horticulture Specialization		31-32
Core Major Requirements		48-49
Additional General Education Requirements		24-30
Electives		9-17
Total		120

Advising

The Department has mandatory faculty advising for each of its major and minor programs. Students are required to meet with their faculty advisor at least twice a year. See the Director, Dr. B. Phillips (301-405-1061), or the Coordinator of Academic Programs in 2139 Plant Sciences Building (301-405-4359) for additional information.

Undergraduate Research Experiences

Students are encouraged to take part in faculty mentored research. Please contact an advisor for more information.

Internships

Internships are a part of the required curriculum and can be readily arranged for students interested in private or government sector employment.

Student Societies and Professional Organizations

The department sponsors student teams that participate in regional and national contests. These teams participate in competitions in the following areas: turf, weed and crop science, and landscape contracting.

Students enrolled in this major enjoy taking part in one or more of these teams.

Scholarships and Financial Assistance

Several scholarships and awards are available to AGST students. Contact the Associate Dean's office at 301-405-2078 for additional information. The Department also maintains a listing of scholarships. For more information regarding these scholarships contact Jessica Trotta in 2102 Plant Sciences, 301-405-4356.

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Professors Emeriti: J. Caghey (Prof Emeritus), R. Kelly (Prof Emeritus), M. Lounsbury (Assoc Prof Emeritus), L. Mintz (Assoc Prof Emeritus)

The Major

American Studies provides students with a flexible, coherent, and interdisciplinary program of study. We focus on the cultures of everyday lives and cultural constructions of identity and difference in Americans' lives, past and present, in a transnational and global framework. The B. A. degree prepares students for graduate work or careers in fields such as law, government and social policy, media, non-profit and social justice organizations, cultural institutions, education, and business. The department provides opportunities for internships, research, study abroad, and departmental honors. Each student meets every semester with a faculty advisor to plan an individualized course of study tailored to each student's interests and goals. American studies is a small department with a friendly atmosphere, faculty dedicated to teaching, and an excellent national academic reputation. Courses offered by the Department of American Studies may be found under the acronym AMST.

Program Learning Outcomes

Students are expected to engage fully with the curriculum, faculty, their fellow students, and the opportunities available for learning and research. Upon completion of the degree program, students will have demonstrated an understanding of multiple dimensions of diversity, possess the ability to answer research questions by using appropriate American Studies methodologies, and have acquired the following knowledge and skills:

- Understanding and applying interdisciplinary theories and methods.
- Understanding American Studies as a field, including current and emerging issues.
- Understanding of cultural literacy, including visual, textual and cybercultural literacies.
- Understanding the political and historical dimensions of culture.
- Understanding the importance of cultural diversity in American society.
- An ability to connect classroom and extracurricular learning in fostering active, engaged citizenship.

Admission to the Major

Students interested in declaring the American Studies major should make an appointment with the Undergraduate Program Director.

Requirements for the Major

The major in American Studies requires a minimum of 42 credits distributed as follows:

- AMST101 (required of all majors) - 3 credits
- One AMST lower level course, e.g. AMST202, 203, 204, 205, 207, 212, 260, 298 - 3 credits
- Two Americanist Foundation courses from a list of approved choices. Americanist Foundation courses are lower level courses in departments such as AASP, ARTH, ENGL, HIST, SOCX, and WMST. (The current list of courses approved for the requirement is posted on the department's web site: www.amst.umd.edu) - 6 credits

Some or all of the 200-level courses may also fulfill General Education Requirements.

- Four upper level AMST courses - 12 credits
- AMST340 - History, Theory and Methods in American Studies (required) - 3 credits
- AMST450 - Seminar in American Studies (required) - 3 credits

AMST340 and AMST450 constitute a sequence emphasizing independent research based on original sources and culminating in a senior thesis. AMST340 is a prerequisite for AMST450 and must be completed before enrollment in the senior seminar. The sequence is usually taken in the student's senior year.

- A Focus Area consisting of four upper level courses in another department or university approved minor. (A list of suggested Focus Areas can be found on the department's web site: www.amst.umd.edu) - 12 credits

At least twelve of the upper level credits must be at the 400-level. A grade of "C-" or better is required in every course submitted in fulfillment of major requirements. An overall GPA of 2.0 in the major is required for graduation.

Total credits: 42

Requirements for the Minor

Minor in U.S. Latina/o Studies

College of Arts and Humanities
4114 Susquehanna, 301-405-1354
www.uslt.umd.edu

The minor, which requires a total of 15 credits, is intended for students who wish to develop a specialization in U.S. Latina/o Studies alongside their degree pursuits. It is optimal for students engaged in work with U.S. Latina/o communities in a variety of professions and academic fields including history, literature, education, urban studies and planning, health care, social services, business, government, public policy, among others.

Requirements (15 credits)

A. Two Lower-Level Foundation Courses (6 credits) - All students are required to take the two foundational courses:

USLT201 - U.S. Latina/o Studies I: An Historical Overview to 1960s
USLT202 - U.S. Latina/o Studies II: A Contemporary Overview, 1960s-Present.

B. One Upper-Level Course (3 credits)

All students are required to take the upper-level course: USLT 488/Senior Seminar in U.S. Latina/o Studies

C. Two Upper Level Elective Courses (6 credits)

In addition to the three required foundational courses, students will select two elective courses in consultation with the USLT advisor.

The elective courses will come from two of the following categories: Humanities, Social Sciences, Languages, and Education.

For these electives, students can choose USLT498/Special Topics in U.S. Latina/o Studies and from a list of pre-approved courses offered through other departments or programs. Elective courses will explore the historical, cultural, political, economic, and sociological dimensions of U.S. Latina/o experiences. These courses will be approved by the faculty advisory committee. Additional courses that include comparative U.S. Latino content, such as in LASC or GVPT, would be eligible for inclusion in the minor with the approval of the USLT advisor.

No course grade below the grade of "C-" may count toward the minor. An overall GPA of 2.0 in the minor is required for graduation.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/undergraduate/academics/minors

Advising

Advising in American Studies is mandatory every semester for all majors. Students pursuing the major should review the academic benchmarks established for this program. See: www.4yearplans.umd.edu. Students will be periodically reviewed to insure they are meeting benchmarks and progressing to the degree. Students who fall behind program benchmarks are subject to special advising requirements and other interventions.

Undergraduate Research Experiences

Majors in American Studies complete a research project for the senior seminars, AMST340 and 450. They are encouraged to gain additional research experience by working with individual faculty members and advanced graduate students or participating in one of the Department's Working Groups. See the Department website for more information about research: www.amst.umd.edu.

Internships

Juniors and seniors with a 2.5 GPA or better may apply 3 credits of internship (AMST386) to the 42 credits required for the major. Students must consult with a faculty advisor about a prospective internship prior to registration and complete and sign an internship contract. All internships must have an approved academic component. For further information, contact the Undergraduate Studies Director.

Honors Program

The departmental honors program offers outstanding students an opportunity to add distinction to their academic records by undertaking an independent research project in an area of particular interest to them.

The program is intended to allow students preparing for graduate study or a professional career to apply and further develop their research, analytic, and writing skills in an independent project of their own design, in consultation with a faculty mentor. Students are encouraged to make use of the rich resources of the Washington-Baltimore area, including major research institutions such as the Smithsonian Institution, the Library of Congress, and the National Archives.

Students in the honors program take two honors-designated courses and two semesters of AMST388 Honors Thesis, a total of twelve credits. Students enrolled in honors are excused from AMST450 Senior Seminar. These requirements fit within the 42 credits required to complete the major. Participation in honors does not require additional coursework beyond the required 42 credits.

Eligibility: Students must have at least a 3.0 cumulative GPA at the time of entry into the program, and must maintain a minimum 3.0 GPA overall to remain in good standing. To graduate with honors in American Studies, students must have a 3.0 cumulative GPA and a GPA of 3.2 or higher in their major coursework.

Application: Students who wish to pursue Honors work should contact the Director of Undergraduate Studies at (301) 405.1354 during their junior year to discuss the program and application procedures.

Scholarships and Financial Assistance

The department awards the David Ellis Memorial Scholarship annually. For information and requirements, contact the American Studies office (301-405-1354).

In addition, the Office of Student Financial Aid (OFSA) administers all types of federal, state, and institutional financial assistance programs and, in cooperation with other University offices, participates in the awarding of scholarships to deserving students. For more information, visit: www.financialaid.umd.edu.

Awards and Recognition

The department recognizes outstanding accomplishments by undergraduates at its commencement ceremony. Monetary prizes are awarded to the graduate with the highest cumulative GPA, to the author of the best Honors thesis, and to a graduate who has provided exceptional service to the campus or the community. The department also awards the Savneet Talwar Best Senior Paper Prize to an undergraduate who has authored an outstanding senior paper.

ANIMAL SCIENCES (ANSC)

College of Agriculture and Natural Resources

1415 Animal Sciences Center, 301-405-1373

<http://ansc.umd.edu/>

ansc@umd.edu

Chair: C. Stahl

Professors: C. Angel, R. Erdman, I. Hamza, C. Keefer, R. Kohn, R. Peters, T. Porter

Associate Professors: A. Burk, J. Song, W. Stricklin, L. Taneyhill, L. Woods, Z. Xiao, L. Yu, N. Zimmermann

Assistant Professors: D. Biswas, R. Dennis (Asst Prof), B. Kim, L. Ma (Asst Prof), K. Moyes, E. Orlando, B. Telugu

Lecturers: R. Apter, S. Balcom, A. Black (Coordinator), C. Hakenkamp

Affiliate Professors: S. Schoenian

Professors Emeriti: J. Doerr, L. Douglass, T. Hartsock, J. Heath, J. Majeskie, I. Mather, M. Ottinger, J. Soares, J. Vandersall, M. Varner, I. Vijay, D. Westhoff, W. Williams

The Major

The Department of Animal and Avian Sciences provides a challenging program for academically talented students interested in the application of biology and technology to the care, management and study of domestic and aquatic animals. In addition to emphasizing the traditional farm species of dairy and beef cattle, sheep, swine and poultry, our program includes options in equine studies, animal biotechnology, and sciences which prepare students for veterinary or graduate school. Animal sciences majors explore a wide range of subjects - from fundamental biology to animal nutrition, physiology and genetics - while integrating science and economics into animal management. Courses offered by this department may be found under the following acronym: ANSC

Our department offers B.S., M.S., and Ph.D. degrees. Roughly one-third of our animal sciences seniors enter veterinary school, while others go on to graduate school. Our graduates also pursue a variety of careers such as research technicians, sales or marketing representatives, or animal producers.

Program Objectives

The Department of Animal and Avian Sciences was formed in 1997 through the merger of the Animal Science, Dairy Science and Poultry Science Departments. Animal science is the study of domesticated animals used for food, biomedical research, and leisure. Our department fulfills a tripartite mission of research, teaching, and extension.

Program Learning Outcomes

Graduates of the ANSC undergraduate program will be able to:

- Articulate the basic housing, husbandry, dietary, and behavioral needs of the common domestic species.
- Safely handle horses, sheep, cows, pigs, and chickens.
- Select, understand, and critically evaluate scientific studies in animal sciences disciplines.
- Apply animal science knowledge to the creation of animal management programs (husbandry, health, reproduction, nutrition, etc).

Academic Programs and Departmental Facilities

Our facilities in the Animal Sciences Center include classrooms, an inviting lecture hall, and a large social area for students. The entire building is Wi-Fi accessible, and numerous charging outlets are available for student use. Our teaching facilities also includes two fully-equipped teaching labs and an aquaculture lab, while our animal wing contains animal rooms and a surgery suite.

The Campus Farm (<http://ansc.umd.edu/undergraduate/campus-farm>) has been described as a “jewel” to the ANSC undergraduate program activities. It is used extensively in teaching laboratories in undergraduate courses, and includes three barns separately used for horses, sheep, and dairy cows with temporary occupancy for pigs and beef heifers during short parts of the year. We are one of the few animal science departments with the presence of animals directly on campus. Three student organizations, the Institute for Applied Agriculture, and many “Ag Day” visitors use the farm as well, making it a focal point of our teaching facilities.

Admission to the Major

The Animal Science curriculum for all options is a rigorous and science-based programs. Students receive a solid foundation in basic biological sciences and ANSC courses are largely taught on a comparative basis, where students can then apply the knowledge they gain to a variety of species and situations.

Requirements for the Major

Animal Sciences prepares students for veterinary school, graduate school, and careers in research, sales and marketing, biotechnology, aquaculture, and animal production. The curricula apply the principles of biology and technology to the care, management, and study of dairy and beef cattle, horses, fish, sheep, swine, and poultry. Students complete the Animal Sciences core courses and choose a specialization area: Animal Biotechnology, Animal Care and Management, Equine Studies, or Sciences/Professional Option to prepare for admission to graduate, veterinary, pharmacy, nursing or medical school.

Students pursuing the major should review the academic benchmarks established for this program. See www.4yearplans.umd.edu or visit the ANSC Program Requirements (<https://ansc.umd.edu/undergraduate/program-requirements>) website. Students will be periodically reviewed to insure they are meeting benchmarks and progressing to the degree. Students who fall behind program benchmarks are subject to special advising requirements and other interventions.

Please note: there is a \$50 per course fee for Animal Science Laboratory courses.

ANIMAL SCIENCES CORE

All undergraduates majoring in Animal Sciences must complete the following course requirements:

		Credits
ANSC101	Principles of Animal Sciences	3
ANSC103	Principles of Animal Sciences Laboratory	1
ANSC211	Animal Anatomy	4

ANSC212	Animal Physiology	3
ANSC214	Animal Physiology Laboratory	1
ANSC314	Comparative Animal Nutrition	3
ANSC327	Molecular and Quantitative Animal Genetics	3
BSCI170&171	Principles of Molecular and Cellular Biology and Lab	4
BSCI223	General Microbiology	4
CHEM131/132	General Chemistry I/Laboratory	4
<i>One from:</i>		
MATH120 or	Elementary Calculus I	3
MATH220		
MATH140	Calculus I	4
<i>One from:</i>		
AREC250	Elements of Agricultural and Resource Economics	3
ECON200	Principles of Micro-Economics	3
ADDITIONAL COURSE WORK		
<i>All students must complete 30-40 credits in one of the following six options.</i>		
1. ANIMAL CARE AND MANAGEMENT (0104A) Required Courses		
ANSC315	Applied Animal Nutrition	3
ANSC340	Health Management of Animal Populations	3
ANSC446	Physiology of Mammalian Reproduction	3
ANSC447	Physiology of Mammalian Reproduction Laboratory	1
AREC306	Farm Management	3
BSCI160&161	Principles of Ecology and Evolution and Lab	4
CHEM231	Organic Chemistry	3
<i>Plus take 9 credits from the following courses (Advanced ANSC Electives):</i>		
ANSC330	Equine Science	3
ANSC435	Experimental Embryology	3
ANSC437	Animal Biotechnology	3
ANSC440	Zoonotic Diseases and Control	3
ANSC443	Physiology of Lactation	3
ANSC444	Domestic Animal Endocrinology	3
ANSC450	Animal Breeding Plans	3
ANSC452	Avian Physiology	3
ANSC453	Animal Welfare and Bioethics	3
ANSC455	Applied Animal Behavior	3
ANSC460	Comparative Vertebrate Immunology	3
ANSC497	Animal Biotechnology Recombinant DNA Laboratory	3
<i>Plus take 9 credits from the following courses (Management Courses):</i>		
ANSC220	Livestock Management	3
ANSC232	Horse Management	3
ANSC242	Dairy Cattle Management	3
ANSC250	Companion Animal Management	3
ANSC255	Introduction to Aquaculture	3
ANSC260	Laboratory Animal Management	3
ANSC262	Commercial Poultry Management	3
2. EQUINE STUDIES (0104C) Required Courses		
ANSC220	Livestock Management	3
ANSC232	Horse Management	3
ANSC330	Equine Science	3
ANSC315	Applied Animal Nutrition	3
ANSC446	Physiology of Mammalian Reproduction	3
ANSC447	Physiology of Mammalian Reproduction Laboratory	1
AREC306	Farm Management	3
BSCI160&161	Principles of Ecology and Evolution and Lab	4
CHEM231	Organic Chemistry	3
<i>Plus take 9 credits from the following courses (Advanced ANSC Electives):</i>		
ANSC340	Health Management of Animal Populations	3
ANSC435	Experimental Embryology	3
ANSC437	Animal Biotechnology	3
ANSC440	Zoonotic Diseases and Control	3
ANSC443	Physiology of Lactation	3
ANSC444	Domestic Animal Endocrinology	3
ANSC450	Animal Breeding Plans	3
ANSC452	Avian Physiology	3
ANSC453	Animal Welfare and Bioethics	3
ANSC455	Applied Animal Behavior	3
ANSC460	Comparative Vertebrate Immunology	3
ANSC497	Animal Biotechnology Recombinant DNA Laboratory	3
<i>Plus take ONE COURSE from the following courses:</i>		
ANSC110	Hay and Pasture Management	2
ANSC233	Equine Behavior	2
ANSC236	Equine Business Management	3
ANSC237	Equine Reproduction	3
3. & 4. SCIENCES & COMBINED AG AND VET SCI (0104E and 1299D) Required Courses		
ANSC315	Applied Animal Nutrition	3
BSCI160&161	Principles of Ecology and Evolution and Lab	4
<i>One from:</i>		
BCHM463	Biochemistry of Physiology	3
BSCI330	Cell Biology and Physiology	4
CHEM231/232	Organic Chemistry I/Laboratory	4
CHEM241/242	Organic Chemistry II/Laboratory	4
CHEM271/272	General Chemistry and Energetics/ Laboratory	4

PHYS121	Fundamentals of Physics I	4
PHYS122	Fundamentals of Physics II	4
	<i>Plus take 9 credits from the following courses (Advanced ANSC Electives):</i>	
ANSC340	Health Management of Animal Populations	3
ANSC437	Animal Biotechnology	3
ANSC420	Critical Thinking in Animal Sciences	3
ANSC443	Physiology of Lactation	3
ANSC444	Domestic Animal Endocrinology	3
ANSC446	Physiology of Mammalian Reproduction	3
ANSC447	Physiology of Mammalian Reproduction Laboratory	1
ANSC450	Animal Breeding Plans	3
ANSC452	Avian Physiology	3
ANSC453	Animal Welfare and Bioethics	3
ANSC455	Applied Animal Behavior	3
ANSC497	Animal Biotechnology Recombinant DNA Laboratory	3
	<i>Plus take 3 credits from the following courses (Management Courses):</i>	
ANSC220	Livestock Management	3
ANSC232	Horse Management	3
ANSC242	Dairy Cattle Management	3
ANSC250	Companion Animal Management	3
ANSC255	Introduction to Aquaculture	3
ANSC260	Laboratory Animal Management	3
	5. ANIMAL BIOTECHNOLOGY (0104F) Required Courses	
ANSC437	Animal Biotechnology	3
ANSC446	Physiology of Mammalian Reproduction	3
ANSC497	Animal Biotechnology Recombinant DNA Laboratory	3
BCHM463	Biochemistry of Physiology	3
BSCI330	Cell Biology and Physiology	4
CHEM231/232	Organic Chemistry I/Laboratory	4
CHEM241/242	Organic Chemistry II/Laboratory	4
CHEM271/272	General Chemistry and Energetics/ Laboratory	4
	<i>Plus take 3 credits from the following course Management Courses):</i>	
ANSC220	Livestock Management	3
ANSC242	Dairy Cattle Management	3
ANSC255	Introduction to Aquaculture	3
ANSC260	Laboratory Animal Management	3
ANSC262	Commercial Poultry Management	3
	<i>Plus take 6 credits from the following courses (Advanced ANSC Electives):</i>	
ANSC330	Equine Science	3
ANSC340	Health Management of Animal Populations	3
ANSC435	Experimental Embryology	3
ANSC440	Zoonotic Diseases and Control	3
ANSC443	Physiology of Lactation	3
ANSC444	Domestic Animal Endocrinology	3
ANSC447	Physiology of Mammalian Reproduction Laboratory	1
ANSC450	Animal Breeding Plans	3
ANSC452	Avian Physiology	3
ANSC453	Animal Welfare and Bioethics	3
ANSC455	Applied Animal Behavior	3
ANSC460	Comparative Vertebrate Immunology	3
ANSC330	Equine Science	3
ANSC340	Health Management of Animal Populations	3
ANSC435	Experimental Embryology	3
ANSC437	Animal Biotechnology	3
ANSC440	Zoonotic Diseases and Control	3

*A complete listing of all Management and Advanced ANSC Elective courses is available online:

<http://ansc.umd.edu/undergraduate/course-listing/approved-mgmt-and-adv-ansc-courses>

Other Requirements for the Major

Animal sciences majors select one of five options as an area of specialization. Program requirements

(<http://ansc.umd.edu/undergraduate/program-requirements>) for all options are available on our website, along with a list of ANSC courses

(<http://ansc.umd.edu/undergraduate/course-listing>) and when they are offered.

Science/Professional (0104E) - Prepares students for admission to veterinary or medical schools and/or graduate school. Graduate school study can open the door to an exciting research career in specialty areas of animal or biological sciences such as genetics, nutrition, physiology or cell biology. The curriculum emphasizes advanced courses in the biological and physical sciences and includes all the pre-veterinary and pre-medicine requirements.

Combined Ag & Vet Sci (1299D) - A combined degree program is available to students who gain admission to veterinary school prior to completing their bachelor's degree. College of Agriculture and Natural Resources students who have completed at least ninety hours, including all college and university requirements, are awarded a bachelor of science degree upon successful completion of at least thirty semester hours in an accredited college of veterinary medicine. Early planning with your advisor is encouraged if you choose this option.

Equine Studies (0104C) - Offers hands-on learning opportunities in the area of equine science and management. The Department of Animal and Avian Sciences at the University of Maryland offers undergraduate students the opportunity to emphasize on horses while pursuing a Bachelor of Science degree in Animal Science. Students may take equine courses that explore a wide range of topics including anatomy and physiology, nutrition, reproduction, exercise, law, insurance, facilities, health and disease, pasture management, and more. Our courses are designed to provide valuable hands-on learning experiences to better prepare students to be future leaders in the horse industry as well as other industries. In addition, ANSC students may take one or more equine courses within the Institute of Applied Agriculture.

Animal Biotechnology (0104F) - The Animal Biotechnology option is a relatively new addition to our program. It combines the basic required animal science courses with a focus on biology and technology. This option has a heavy emphasis on science courses, to prepare students for a professional career. Some of the career options with this track include: an industry career in animal biotechnology; a graduate degree in biotechnology (either MS and/or PHD); or a professional degree and career (Veterinary or Human Medicine, Nursing, Pharmacy.)

Animal Care & Management (0104A) - Is designed for students whose career plans include animal management, production and the marketing of animal products. The curriculum provides basic courses in genetics, nutrition, physiology and reproduction while allowing students to focus on the management of one particular livestock species. You will be encouraged to supplement academic work with practical experience by completing an internship. Dairy science students, for example, intern at local farms where they participate in decisions about breeding, feeding, health practices, milk production and

other aspects of herd management. This option will prepare you for ownership or management positions with dairy, livestock or poultry production enterprises; positions with marketing and processing organizations; breed associations; and positions in agribusiness fields such as sales of feed, pharmaceutical products and agricultural equipment. Graduates also work with state and federal agencies.

Minimum Grade Policy:

ANSC has a minimum grade policy which states that **ANSC students must earn a “C-“ or better in all major required courses, including ANSC courses and required supporting courses in other departments.** More information on this policy is available on the ANSC website (<http://ansc.umd.edu/undergraduate/program-requirements/minimum-grade-policy>).

Advising

The Animal Science Department has mandatory advising, which means that a student must fulfill their advising requirement every semester prior to being allowed to register. Students in ANSC currently progress through advising in a system determined to help them explore their goals and get the most accurate information possible in their early advising. We want to help students transition from a typical high school model of advising being about school counselors helping them choose courses to students learning to make their own, independent education, career, and life choices under the mentorship of faculty. We refer to this as a program of “structured independence.” For more information on Advising in ANSC (<http://ansc.umd.edu/undergraduate/advising>), including a detailed Advising Guide FAQ (<http://ansc.umd.edu/undergraduate/advising/advising-guide>), please visit our website.

Undergraduate Research Experiences

Because it is part of a land grant university, the Department of Animal and Avian Sciences also has responsibility for research and technology transfer to the animal industry throughout Maryland. During undergraduate study, students are encouraged to conduct independent research in faculty laboratories on campus or at the nearby U.S. Department of Agriculture Beltsville Agricultural Research Center. Students interested in a faculty member's research should directly contact that faculty member. Research jobs and opportunities are also frequently posted on the ANSC Undergraduate listserv, to which all ANSC students are subscribed.

Internships

Students are encouraged to gain practical hands-on and career experience by pursuing internships. Students have completed internships in locations ranging from the area around the University, to cattle farms in the Midwest, agribusiness firms in California, and places like the National Zoo in DC and the National Aquarium in Baltimore. Many animal sciences students use the summer to gain additional applied experience in animal sciences, veterinary medicine or agribusiness. Students can find information about internships, including the process for gaining academic credit for an internship, on the ANSC website (<http://ansc.umd.edu/undergraduate/internships-careers>). Internship opportunities are also frequently posted on the ANSC Undergraduate listserv, to which all ANSC students are subscribed.

Honors Program

Students admitted to the AGNR Honors Program are eligible to take 3 - 6 credits of Honors Thesis Research within the ANSC Department (ANSC388). Undergraduate honors thesis research is conducted under the direction of an AGNR faculty member in partial fulfillment of the requirements of the College of AGNR Honors Program. The thesis will be defended before a faculty committee.

Student Societies and Professional Organizations

The clubs and organizations affiliated with the Animal Science department allow ample opportunities for leadership, development, hands-on animal experience, and fun!

ALPHA GAMMA RHO

Alpha Gamma Rho is a social/professional fraternity that has been a training ground for leaders in the agriculture and life sciences community since it was established at College Park in 1928. AGR has a rich tradition of alumni contacts with over 50,000 brothers nationwide, including over 700 brothers in the Washington area alone. AGR men are leaders in various clubs within the college and the fraternity is an active member of both the Inter-fraternity Council (IFC) and the Ag Student Council. Alpha Gamma Rho stresses scholarship, leadership and fellowship, and it is well respected among Greek organizations because of their no pledging, substance free, scholars environment. In addition, the chapter house on Princeton Avenue offers the opportunity to live with brothers who are taking the same classes and share many of the same interests which makes it much easier to find a niche on such a large campus.

Website: <http://www.marylandagr.com/home>

ALPHA ZETA

Alpha Zeta is an agricultural professional honor society whose membership is selected from undergraduate and graduate students excelling in scholarship, leadership, character, and service. Organizational events include coordinating the Partners in Education program with the USDA Agriculture Research Service, Beltsville Area, fund raising activities, community service projects, awards and recognition programs, and an annual student/faculty/alumni banquet. A popular annual event is coordinating a Field Day for young children at the nearby National Agricultural Research Visitor Center at Beltsville.

BLOCK AND BRIDLE CLUB

The Animal Husbandry Club at The University of Maryland, provides opportunities for students to gain animal handling experience, build interpersonal relationship skills, and students are given the encouragement to excel! Activities and experiences specifically designed for students of diversified interests in animal agriculture are provided, including experiences with many different domestic species. Membership is open to all undergraduate students interested in getting hands-on experience working with dairy, beef, sheep or swine, and learning more about general animal sciences. Activities include the Ag Day Dairy and Livestock Shows, Harvest Stomp/Fall Festival, fitting of animals for the annual Wye Angus Sale, and other activities working with dairy animals. One can gain further leadership skills by holding an office. Each Spring, elections are held for President, Vice-President, Secretary, Treasurer, and Historian.

Visit the Web Site: <http://umdblockandbridle.wix.com/blockandbridle>

COLLEGIATE 4-H

Many colleges and universities have Collegiate 4-H clubs. Collegiate 4-H is an organization that provides its members with a sense of identity on campus, enriches their lives through group projects and recreation, and develops confidence and leadership skills. Clubs provide service and support to their local and state 4-H programs, such as serving as judges and conducting training workshops. They are also a service and social group for campus students.

Collegiate 4-H is open to all college students who wish to support youth and the 4-H program. It is not necessary to have prior 4-H experience, only to have an interest in the 4-H ideals and in serving your community.

UMCP Chapter Contact Info: umdcolligate4h@yahoo.com

Visit the Web Site: <http://northeastregion.collegiate4h.org>

MANRRS (Minorities in Agriculture, Natural Resources and Related Sciences)

MANRRS Missions:

This club was reinstated on University of Maryland's campus to provide academic and professional advancement by empowering minorities in agriculture, natural resources and related sciences.

MANRRS Activities:

MANRRS' purpose is to promote exposure to agricultural related professions including veterinarians, lab animal techs, and jobs in the USDA, along with others to minorities. It lists internship opportunities, and holds annual conferences for its members from all chapters. It also serves as a networking tool for students interested in agriculture and related science professions.

Activities include: Club Meetings once a month; Fundraisers to provide funding for field trips to meetings at possibly University of Maryland at Eastern Shore; annual MANRRS conferences and job fairs; Volunteer Opportunities at SPCA; Guest Speakers in the veterinary medicine, agriculture, and lab animal medicine field.

Visit the Web Site: <http://www.manrrs.org>

MARYLAND EQUESTRIAN CLUB

The Maryland Equestrian Club provides on-campus horseback riding lessons and equine learning opportunities for campus students and faculty at beginner through advanced levels. The ANSC department provides the barn, equipment, riding arenas and horses while the students provide care for the horses. There is a riding fee of \$200 per semester for 1 riding lesson a week for the entire semester. Large deductions are easily earned for help with feeding, cleaning stalls or teaching. Club members not riding are strongly encouraged to participate in other club activities, such as educational and fun seminars, field trips and monthly meetings. In the past, MEC members have attended the Columbia Grand Prix and the Washington International Horse Show and taken field trips to the DuPont Veterinary Medical Center in Leesburg, Va. and Days End Horse Rescue Farm in Maryland. Members have also participated in clinics on tack fitting and identifying lameness in horses. Club members, under the leadership of the Executive Board and Directors, make most MEC club decisions. We offer a great opportunity to all students and we're always open to suggestions. We also try to have something for everyone including basic English equitation, Western equitation, dressage, bareback and trail riding, horse and farm management, veterinary care, teaching skills and much more. The MEC is located at the campus horse barn, and our office is in the Shack, right next to the paddocks. There is very limited space in the riding lessons, so e-mail us right away to reserve yourself a spot in the most educational equine club provided by the University of Maryland.

The Pre-Veterinary Society

The primary objectives of the The Pre-Veterinary Society are to: Promote a deeper understanding of the numerous opportunities in veterinary medicine; exchange information on veterinary and animal experiences, and keep students updated on the latest veterinary school information.

What does the The Pre-Veterinary Society do?

- A variety of guest speakers are invited to club meetings to talk about their specialties or field of interest. A sample of topic include wildlife rehabilitation, laboratory animal medicine, exotic pet care and veterinary ethics.
- Each year, faculty from the Virginia-Maryland Regional College of Veterinary Medicine speak to club members about veterinary medical school. Mock interviews are held in January to prepare our club members for the admissions process.
- Club sponsored trips offer our members the ability to tour various veterinary medical facilities and talk to veterinary students and faculty and to visit local zoos and animal care facilities.
- Each year we participate in the APVMA National Symposium which is held at different veterinary schools annually. This is an excellent opportunity to visit a vet school, plus hear over 30 speakers on numerous topics and participate in a variety of wet and dry lab.
- Volunteer with the Prince George's County Animal Shelter in partnership with PetSmart to help find homes for abandoned animals

Website: <http://umd.orgsvnc.com/org/prevetumd/home>

SIGMA ALPHA

Sigma Alpha is a national professional agricultural sorority. The objective of the sorority is to promote its members in all facets of agriculture and to strengthen the friendships among them. Members strive for achievement in scholarship, leadership, service, and to further the development of women pursuing careers in agriculture. Sigma Alpha works to promote agriculture, and women's role, on our campus, in our community and throughout the state. Activities include: attending regional and national conferences/conventions; participating in college events (Fall Bash, ANSC orientation, Cook-Offs); service activities - including teaching agriculture to local elementary students and judging contests for the Maryland FFA; professional Guest speakers, and participating in MD day/Ag day Membership rush is held on a semester basis. To be eligible, potential members must have: 2.25 cumulative GPA, Agriculture major or sincere interest in agriculture, be a member of 1 other group or Enrolled in 18 credits or working 10 hours a week.

Visit the Web Site: <http://www.sigmaalphaumd.org/home>

UNIVERSITY OF MARYLAND EQUESTRIAN TEAM

The University of Maryland Equestrian Team is a sports club that competes in intercollegiate competition through the Intercollegiate Horse Show Association (hsainc.com). Throughout the year we compete against area schools such as Goucher, UMW, American, and many others. Though showing is available to all team members, it is not required. Our team rides once a week at Oatland Stables in Gaithersburg, MD. Additionally, our members have the opportunity to participate in clinics and other horse-related events. Riders ranging from the levels of walk/trot to open jumping (3' courses) are welcome to join our team. Please feel free to send any questions to the email below. Also, like our page "Terps Equestrian Team" on Facebook (<https://www.facebook.com/pages/Terps-Equestrian-Team/112106182178428>)!

Contact: Equiterps@gmail.com

Terps Roots and Shoots

Our club is based on the belief that no world issue can be solved by only helping animals or people or the environment. Therefore, our mission is to create programs each semester, which will help benefit all three. Members will be involved in volunteer work such as organizing food packages for the homeless, cleaning the Chesapeake Bay, and working at animal rescues. We look forward to seeing the impact our club will have on the community through its diverse volunteering experiences.

Contact: terpsrns@gmail.com

Website: <http://www.facebook.com/pages/Terps-Roots-Shoots/162513503778223?v=info>

Scholarships and Financial Assistance

The ANSC program administers several scholarships, including:

Judith E. Brocksmith Pre-Veterinary Scholarship, Dodson Memorial Scholarship, C.W. England, Tom Hartsock Animal Management Scholarship, the Kinghorne Fund Fellowship, and the Lillian Hildebrandt Rummel Scholarship. For eligibility criteria, visit the ANSC website: <https://ansc.umd.edu/undergraduate/scholarships>

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu

Awards and Recognition

ANSC Faculty and students have been the recipients of numerous prestigious awards and honors. To read more about our exceptional community, visit the ANSC website <https://ansc.umd.edu/about/awards-and-honors/>

Anthropology (ANTH)

College of Behavioral and Social Sciences

1111 Woods Hall, 301-405-1423

www.bsos.umd.edu/anth

Chair: P. Shackel

Professors: J. Chernela, J. Freidenberg, M. Leone, M. Paolisso, T. Whitehead

Associate Professors: S. Brighton, B. Pavao-Zuckerman (Assoc Prof)

Assistant Professors: S. Downey, C. Getrich (Asst Prof), G. Hambrecht, K. Lafrenz Samuels (Asst Prof), T. Sangaramoorthy, L. Shaffer

Lecturers: M. London, J. Messing

Affiliate Professors: A. Bolles (WMST), L. Frederik Meer (THET), J. Hanna, R. Harrison (CMLT, LASC), S. Kim (WMST), D. Linebaugh (HISP)

Adjunct Professors: S. Abbott-Jamieson (NOAA), M. Butler, T. Cederstrom, C. Crain (LTG Associates), S. Fiske (NOAA), A. Froment, S. Huertin-Roberts, J.

Kunen (USAID), B. Little (National Park Service), F. McManamon (National Park Service), M. Mieri (Smithsonian), C. Puentes-Markides, D. Russell (USAID), J.

Schablitsky (MD SHA), J. Schneider, R. Sobel (Smithsonian), N. Tashima (LTG Associates), R. Winthrop (BLM)

Professors Emeriti: M. Agar, S. Bushrui, N. Gonzalez (Emerita), F. Jackson

The Major

Anthropology, the study of culture, seeks to understand humans as a whole - as social beings who are capable of symbolic communication through which they produce a rich cultural record. Anthropologists try to explain differences among cultures - differences in physical characteristics as well as in customary behavior. Anthropologists study how culture has changed through time as the human genus has spread over the earth. Anthropology is the science of the biological evolution of human species, and the disciplined scholarship of the cultural development of human beings' knowledge and customary behavior.

Anthropology at the University of Maryland offers rigorous training for many career options. A strong background in anthropology is a definite asset in preparing for a variety of academic and professional fields, ranging from the law and business, to comparative literature, philosophy and the fine arts. Whether one goes on to a Master's or a Ph.D., the anthropology B.A. prepares one for a wide range of non-academic employment, such as city and public health planning, development consulting, program evaluation, and public archaeology. Courses offered by this department may be found under the acronym ANTH.

Program Learning Outcomes

Having completed the degree program, students should have acquired the following knowledge and skills:

- Students shall have an integrated knowledge, awareness and understanding of a culturally and biologically diverse world.
- Students shall demonstrate an understanding of culture and society.
- Students shall demonstrate the ability to understand complex research problems, and articulate appropriate methods and theory.

Academic Programs and Departmental Facilities

The Anthropology department offers beginning and advanced course work in three principal subdivisions of the discipline: cultural anthropology, archaeology, and ecological anthropology. Within each area, the department offers some degree of specialization and provides a variety of opportunities for research and independent study. Laboratory courses are offered in biological anthropology and archaeology. Field schools are offered in archaeology. The interrelationship of all branches of anthropology is emphasized.

The Anthropology department has a total of five laboratories, which are divided into teaching labs and research labs. The department's four archaeology labs, containing materials collected from field schools and research projects of the past several years, serve both teaching and research purposes. The other laboratory is a teaching laboratory in ecological anthropology. The Center for Heritage Research Studies, located in the Department of Anthropology, focuses on research devoted to understanding the cultural characteristics of heritage and its uses.

The undergraduate curriculum is tied to the department's Master in Applied Anthropology (M.A.A.) program; accordingly, preparation for non-academic employment upon graduation is a primary educational goal of the department's undergraduate course work and internship and research components. The department has also recently implemented a Doctor of Philosophy (PhD) program. Students at the graduate level are asked to focus in one of three areas of faculty expertise: Health, Heritage, and Environment.

Requirements for the Major

Students seeking an undergraduate degree are required to complete at least 31 credits of anthropology coursework in addition to the supporting coursework sequence. Every course being used to satisfy anthropology major requirements must be completed with a grade of "C-" or higher. Students must have a minimum 2.0 cumulative grade point average across all courses used to satisfy major degree requirements.

Required Courses

	I. Foundation Courses	Credits
ANTH220	Introduction to Biological Anthropology	4
ANTH240	Introduction to Archaeology	3
ANTH260	Introduction to Socio-cultural Anthropology and Linguistics	3
	II. Method and Theory courses (2 courses)	6
ANTH320*	Method and Theory in Biological Anthropology	
ANTH340*	Method and Theory in Archaeology	
ANTH360*	Method and Theory in Sociocultural Anthropology	
	*Two of the upper level method and theory courses (ANTH320, 340, 360) are required. Students must complete the method and theory course associated with their chosen focus area - sociocultural anthropology, archaeology, biological anthropology. Students may not take a method and theory course unless they have completed the associated foundation course. If a student completes all three of the method and theory courses, one course can be used as an anthropology elective.	
	III. Anthropology Electives	
	Minimum of 12 credits. 6 of the 12 credits must be taken at the 300-400 level.	
ANTHxx	Anthropology electives	6
ANTH300/400	Upper level Anthropology courses	6
	IV. Applied Field Methods	
	Minimum of 3 credits selected from the following. Other courses can be used with approval of UG Director. Courses 3 or more used to fulfill the Applied Field Methods requirement may not be used to fulfill any other anthropology requirement.	
ANTH386	Experiential Learning Internship (3-6 credits)	
ANTH496	Field Methods in Archaeology (6 credits)	
ANTH498	Advanced Field Training in Ethnography (1-6)	
ANTH468B	Applied Urban Ethnography (3 credits)	
ANTH493	Anthropological Fieldwork and Experience in Argentina (3 credits)	
ANTH498C	Advanced Field Training in Ethnography: Brazil (6 credits)	
ANTH498N	Ethnology of the Immigrant Life (4 credits)	
ANTH498W	Jamaica: Connections, Celebration and Identity (6 credits)	
ANTH498Z	Jamaica: Adolescent Sexual and Reproductive Health (6 credits)	
ANTH499	Fieldwork in Biological Anthropology (3-8 credits)	
	V. Skills Requirement	
	Quantitative course (chosen from list below and required for all students entering the major Fall 2008 and after)	3 or more

SKILLSxx BIOM301, MATH111, STAT100, ECON201,
ECON321, EDMS451, GEOG306, MATH112 or
higher (excluding MATH113), PSYC200, SOC200

VI. Supporting Course Work:

18

ELECT

Minimum of 18 credits of supporting electives; at least 10 credit hours must be outside of the department (with your academic advisor's approval). 8 hours may be anthropology course work, but then cannot 'double count' as Anthropology electives.

Advising

The primary advisor for students in the Anthropology major is the Undergraduate Advisor. The advisor is available to students during appointments, walk-in hours, and by phone and email. The advisor is responsible for helping students plan their successful completion of the Anthropology major. Students will work with the advisor for an orientation to the department, status on degree progress, administrative approval for special course enrollment, academic audits, and graduation clearance. In addition, students should consider the Undergraduate Advisor a resource for general academic and career advice during their time at Maryland.

The office of the Undergraduate Advisor is supervised and supported by the Director of Undergraduate Studies (a faculty member) in the Department of Anthropology. In addition, all faculty members in the department serve as faculty advisors to students. Students are expected to select and request a faculty member who works within their area of focus to be their faculty advisor (i.e. Archaeology, Ecological Anthropology or Cultural Anthropology). For more information, or to contact the Director of Undergraduate Studies or Undergraduate Advisor, please call 301-405-1423 or go to www.bsos.umd.edu/anth.

Undergraduate Research Experiences

There are several undergraduate research experiences available for students:

1. Archaeology laboratories
2. Biological anthropology lab
3. Chesapeake heritage program
4. Immigrant Life Course
5. Cultural Systems Analysis Group
6. Center for Heritage Resource Studies

For more information, please see our website: www.bsos.umd.edu/anth.

Fieldwork Opportunities

The Department of Anthropology encourages students to explore its field school and study abroad opportunities which include, summer archaeology field schools including field schools in Iceland and Ireland, and an ethnographic field school in the Brazilian Amazon.

For more information, see our website: www.bsos.umd.edu/anth.

Internships

All undergraduate students are encouraged to do an internship. There are many non-profit and government agencies in the Baltimore-Washington area that are willing to support Anthropology interns. For more information, please contact the Director of Undergraduate Studies or the Undergraduate Advisor.

Co-op Programs

The Department has a cooperative agreement with the National Park Service. When available, students have opportunities to work on various archeology and museum projects in the National Capital Region. For more information, please contact the Director of Undergraduate Studies or the Undergraduate Advisor.

Honors Program

The Anthropology department also offers an Honors Program that provides the student an opportunity to pursue in-depth study of his or her interests. Acceptance is contingent upon a 3.5 GPA in anthropology courses and a 3.0 overall average. The Honors Citation is awarded upon completion and review of a thesis to be done within the field of anthropology. For additional information, students should contact the Director of Departmental Honors Program, Dr. Stephen Brighton, 301-405-3700; E-mail: sbrighto@umd.edu.

Student Societies and Professional Organizations

Anthropology Student Association (ASA): An anthropology student association that meets regularly to plan student events and to help coordinate various student and faculty activities. For meeting times contact the Undergraduate Advisor.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Arabic Studies (ARAB)

College of Arts and Humanities

3125 Jiménez Hall, 301-405-4025

<http://slhc.umd.edu/arabic/>

Associate Professors: V. Anishchenkova

Assistant Professors: S. Elsis, P. Glanville

Lecturers: L. Alkebsi, Z. El Amine, D. El-Hefnawy, H. Salem

The Major

This 42-credit major in Arabic Studies provides students with a solid background in linguistic, literary, and cultural aspects of the modern Arab World, including the cultural domains of North Africa, Egypt, Arab Middle East, Arab diasporas in the U.S. and Europe, and minority communities in Arab countries (Armenian, Kurdish, Berber, Copts, etc.). The B.A. in Arabic Studies (ARAB) prepares students for a range of professional opportunities, including careers in government, education, business, and international development and communication. Students work toward competence in speaking, reading, writing, and listening. The Arabic Program offers extensive linguistic training in both literary Arabic (*fuṣḥa*) and Arabic dialects (Egyptian and Levantine). Students will achieve cultural fluency by exploring diverse Arab societies and cultural zones and will learn to approach them from a global perspective. Many undergraduates will choose to double major or do a double degree in Arabic and another subject, including arts and humanities majors, business, computer science, and journalism.

Placement in Courses

<http://www.arhu.umd.edu/undergraduate/flpa>

Requirements for the Major

Prerequisites (12 credits)

Students must take the prerequisite courses or satisfy these requirements by placement:*

ARAB104 Elementary Modern Standard Arabic I-II (6 credits)

ARAB105 Elementary Modern Standard Arabic III-IV (6 credits)

Core Sequence: 24 credits

ARAB204	Intermediate Modern Standard Arabic I	(6 credits; prereq ARAB105)*
ARAB205	Intermediate Modern Standard Arabic II	(6 credits; prereq ARAB204)
ARAB304	Advanced Modern Standard Arabic I	(prereq ARAB205)
ARAB305	Advanced Modern Standard Arabic II	(prereq ARAB304)
ARAB206	Intermediate Egyptian Colloquial Arabic III	(prereq ARAB205)*
ARAB207	Intermediate Egyptian Colloquial Arabic IV	(prereq ARAB206)
ARAB210	Intermediate Levantine Colloquial Arabic III	(prereq ARAB205)*
ARAB211	Intermediate Levantine Colloquial Arabic IV	(prereq ARAB210)

*Modern Standard Arabic is the formal variety of Arabic used throughout the Arab world, particularly for reading and writing. Egyptian Colloquial Arabic and Levantine Colloquial Arabic are among the major spoken varieties in the Middle East. All Arabic language courses implement the integrated method where Modern Standard Arabic and colloquial Arabic are taught simultaneously, as two registers of the Arabic linguistic discourse. Upon completing four semesters of Arabic (104, 105, 204, 205), students may choose to take either the Egyptian dialect sequence (206, 207) or the Levantine dialect sequence (210, 211) to deepen their knowledge of the dialect and culture.

Once credits have been received for a higher-level language focus course, a lower-level course in the same strand (written or spoken) may not be taken for credit. (ARAB204 may not be taken after ARAB205, for example. ARAB107 may not be taken after ARAB206, etc.)

The Arabic language curriculum is designed for second language acquisition and targets non-native speakers. None of the Arabic language courses are open to fluent and native speakers of Arabic.

Electives: a minimum of 18 credits

A. Required Upper-level electives in Arabic (a minimum of 9 credits)

ARAB311	The Arab World Today	(pre-coreq ARAB304)
ARAB312	Islamic Culture	(pre-coreq ARAB304)
ARAB321	Arab Media	(pre-coreq ARAB304)
ARAB322	Commercial Arabic	(pre-coreq ARAB304)
ARAB401	Readings in Arabic Literature	(prereq ARAB305)
ARAB402	Arabic Translation	(prereq ARAB305)
ARAB411	U.S. - Arab Relations	(prereq ARAB305)
ARAB412	Modern Arabic Literature: A Survey	(prereq ARAB305)
ARAB499	Special Topics in Arabic Studies	

- Other ARAB courses may be included on written approval of UG advisor.
- All pre-requisites imply "or equivalent knowledge." In cases of equivalent knowledge, required language-focus credits are replaced in consultation with, and with the written approval of, the undergraduate advisor.
- The majority of content courses taught in Arabic are not open to fluent and native speakers of Arabic.

B. Optional Electives in English: a maximum of 9 credits (no prereqs)

ARAB251	Arabic Cinema
ARAB252	Arabic Literature in Translation
ARAB298	The Arabian Nights and the Art of Storytelling
ARAB351	Arab Culture and Civilization
ARAB499	Special Topics in Arabic Studies

Certain courses in Middle Eastern Studies taught in English in other departments (depending on the content of the courses) can be substituted with the approval of the Undergraduate advisor and Program Director.

Students must earn a grade of "C-" or higher in each course applied toward a major or minor in the School of Languages, Literatures, and Cultures. Additionally, an overall GPA of 2.0 in a major or minor is required for graduation.

For information on study abroad programs see the program advisor and/or the Education Abroad website: www.international.umd.edu/studyabroad.

Requirements for the Minor

Arabic

School of Languages, Literatures, and Cultures (SLLC)

www.arabic.umd.edu

The minor in Arabic (21 credits) provides a solid grounding in Modern Standard Arabic and colloquial Arabic. Students who satisfy the requirements of the minor in Arabic can expect to be able to read and write and communicate orally in Modern Standard Arabic and one of the Arabic dialects at a level that would allow them to interact with native speakers and perform effectively in a daily environment, watch TV and films in Arabic, engage with authentic texts, write short papers in Arabic, and perform other tasks expected from an Advanced Level learner.

The materials used to further language acquisition are culturally rich resources, and students completing the minor will have become familiar with many of the cultural patterns, social issues, historical events, artistic traditions, and elements of daily life of the people whose cultures are rooted in Arabic. Students interested in pursuing the minor in Arabic should contact the undergraduate advisor, who will be responsible for oversight and record keeping.

Students should declare the minor in Arabic at least one year prior to graduation.

Prerequisites (12 credits):

	Credits
ARAB104 Elementary Modern Standard Arabic I-II	6
ARAB105 Elementary Modern Standard Arabic III-IV	6

No prerequisites are required for students with equivalent knowledge. Placement testing is mandatory.

Courses required for Minor (21 credits):

All prerequisites imply "or equivalent knowledge."

	Prerequisite	Credits
ARAB204 Intermediate Modern Standard Arabic I	ARAB105	6
ARAB205 Intermediate Modern Standard Arabic II	ARAB204	6
ARAB304 Advanced Modern Standard Arabic	ARAB205	3
ARAB305 Advanced Modern Standard Arabic	ARAB304	3
ARABXXX Additional upper level course taught in Arabic*		3
*Contact the minor advisor for approved courses		
		21

Notes:

- Once credits have been received for a higher-level language focus course, a lower-level course in the same strand may not be taken for credit. (For example, ARAB204 may not be taken after ARAB205).
- In cases where a student has equivalent knowledge, required courses are replaced in consultation with minor advisor. All courses applied to the minor must be taught in Arabic.
- Students who begin their study as heritage speakers must seek the advice and written permission of the advisor before choosing the courses they will use to replace any required minor courses.
- A maximum of 6 credits can be applied to the minor from courses taken at other institutions. No more than 6 credits of the minor may be used to satisfy the requirements of a major. No courses in the minor may count toward another minor.
- All courses presented for the minor must be passed with a grade of "C-" or better.
- An overall GPA of 2.0 in the minor is required for graduation.

To make an appointment to explore or declare a minor, go to: www.arhu.umd.edu/undergraduate/academics/minors

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state, and institutional financial assistance programs, and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

The UG Committee organizes an annual awards ceremony to celebrate SLLC students who have earned SLLC, campus and/or national scholarships, and academic achievement awards. The awards ceremony takes place in conjunction with the annual SLLC UG Research Forum.

Architecture (ARCH)**School of Architecture, Planning and Preservation**

1200 Architecture Building, 301-405-8000

The Major

The undergraduate program in architecture develops critical thinkers, problem solvers and skilled professionals ready to take on the challenges of sustainable design. Our prime location between Washington, D.C., and Baltimore offers many advantages: a faculty of highly respected scholars and practitioners; alumni connections and careers at countless architectural firms; and rich architectural diversity. Begin your journey to a more sustainable and environmentally balanced world right here.

The first two years of the curriculum focus on developing a broad-based and well-rounded liberal education, complemented by courses that introduce you to architecture. You'll be exposed to the many resources and opportunities of the university while refining your academic and career interests. We offer you two degree options that are tailored to fit your particular academic and career interests. The **Bachelor of Science** curriculum is centered on design studios, with complementary coursework in architectural history, theory, technology and visual media. The studio courses offer unique experiences where you'll not only have the opportunity to show your design skills but also work with communities to help solve real-world problems.

One unique feature of the **Bachelor of Arts** program is your ability to pursue an academic path that reflect your passions and interests. It's not uncommon for students to discover that their interest in architecture reveals other career aspirations. Earning a bachelor of arts in architecture allows you to build a foundation in architecture while preparing for careers in business, urban planning, real estate development or historic preservation, just to name a few.

Students receive rigorous and comprehensive instruction from a faculty whose members are active in professional practice and research. Their individual areas of expertise include architectural design and theory, history, technology, urban design and planning, and historic preservation.

Courses offered by this department may be found under the following acronym: ARCH

Program Objectives

The School's mission is to educate Architects, Planners, Preservationists, Developers and the many allied stakeholders whose work and scholarship focuses on the quality of the built environment and promotes social justice, cultural value, resource conservation and economic opportunity.

We take advantage of our unique location—in a region that features the nation's capital and the post-industrial City of Baltimore, and links the Appalachian Mountains to the Atlantic Ocean while surrounding the Chesapeake Bay. Maryland's opportunities and challenges are found in its diverse communities, explosive growth and extensive historic resources.

Our faculty, students and alumni collaboratively advance their vision and commitment through research, teaching, colloquia, writing, creative design, planning, policy formation and professional work. Our mission is historically rooted in our land grant mandate and enhanced by our regional and international activities.

Academic Programs and Departmental Facilities

Architecture Library

Located on the second floor of the Architecture Building, the Architecture library has planning and architecture books and periodicals, as well as Urban Studies and Planning studio reports. There is also a slide collection available in the Elizabeth D. Alley Visual Resources Collection on the same floor. Librarians are available by appointment to assist with your research needs.

Visual Resources Center

The VRC consists of more than 400,000 digital images documenting architecture and the urban scene from pre-historic times to the present. Related topics include urban design, historic preservation, real estate development, art, landscape architecture, as well as events around the School. Other visual materials include over 400 DVDs and videotapes, along with lantern slides and photographs. Images are acquired through site photography, scanning materials, commercial vendors, and donations from faculty and students.

Images and other materials may be used for presentations in school classes and for research.

Fabrication Lab

The FabLab at the School of Architecture Planning and Preservation emphasizes the notion of learning to design through the process of making. Our students learn to influence the form and meaning of the built environment by working directly with its material and physical nature. We stress the integration of digital and hand fabrication methods, and explore how traditional technology is affected and transformed by new materials and technique.

Admission to the Major

Freshman applicants:

<http://www.admissions.umd.edu/apply/freshmanapplication.cfm>

Transfer applicants:

<http://www.admissions.umd.edu/requirements/TransferStudents.php>

Advising

Advising appointments and school tours are conducted by the Office of Student Services, who can help you navigate admissions, course registration, degree planning and other issues.

Contact Advising by E-mail

Undergraduate Architecture students

Contact archadvise@umd.edu with advising questions.

To schedule an appointment with the advisors, please visit: <http://arch.umd.edu/arch/student-services-arch>

Advising for undergraduates in the School is mandatory each semester.

Internships

A career fair is organized annually and all internship/career opportunities are handled by the Director of Career Services within the School itself and in conjunction with the University Career Center.

Student Societies and Professional Organizations

The Architecture Student Assembly represents the student body. Assembly members are elected from undergraduate and graduate classes. Representatives attend Faculty Meetings, serve on committees, and organize the Architecture Program Retrospective at the end of each semester.

The School of Architecture, Planning, and Preservation sponsors a chapter of the American Institute of Architecture Students (AIAS), the national association for architecture students. The AIAS chapter sponsors a variety of activities including an annual Career Fair, Beaux Arts Ball, field trips, conferences, workshops, and other events throughout the academic year.

The University of Maryland chapter of NOMAS is affiliated with the national professional organization NOMA. NOMAS is a group of students from a variety of backgrounds pursuing architecture degrees at the undergraduate and graduate levels, interested in contributing to the UMD School of Architecture, Planning and Preservation by building a sense of community based on shared experiences unique to our diverse student body.

USGBC Students – University of Maryland Chapter of the United States Green Building Council is a coalition of undergraduate and graduate students intent on learning about and promoting sustainable design and building practices. Formed in 2007, the group hosts monthly meetings in the Architecture Building.

Alpha Rho Chi (APX) is the national co-ed fraternity for architecture and the allied arts. Its brotherhood unites men and women for the purpose of fellowship and lifelong friendships, as well as professional development. This is exemplified by the fraternity's motto: Fidelitas, Amor et Artes or "Fidelity and Love of the Arts."

Scholarships and Financial Assistance

Please visit our website for scholarship opportunities for current students: <http://arch.umd.edu/arch/scholarships>

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Art (ARTT)

College of Arts and Humanities

artdept@umd.edu

Chair: W.C. Richardson - Painting/Drawing

Professors: J. Ruppert - Sculpture, F. Sham - Sculpture

Associate Professors: A. Buck-Coleman - Graphic Design/Social Practice, P. Craig - Painting/Drawing, H. Elahi - New Genres/Art Theory/Social Practice, M. Humphrey - Printmaking/Drawing, P. Kehoe - Painting/Drawing, R. Klank - Painting/Art Theory, B. Morse - Digital Media, J. Strom - Printmaking, J.

Thorpe - 2D Foundation/Graphic Design

Assistant Professors: S. Collis - Digital Media/Printmaking, L. Zahabi (Asst Prof)

Lecturers: M. Azarm - Graphic Design, L. Berns - 2D Foundation/Drawing/Art Theory, E. Conover - Painting/Drawing, A. Georgievska-Shine - Art Theory,

L. Hoover - Painting/Drawing/Theory, W. Jacobs - 2D Foundation (Assoc Dean/Senior Lecturer)/, S. Jones - Sculpture/Foundation, M. McLaughlin - 2D

Foundation/Printmaking, N. Ratnapala - Digital Media/Video, R. Weil - Art Theory/Senior Lecturer

Professors Emeriti: C. Demonte (Distinguished Scholar-Teacher), D. Driskell (Distinguished University Professor), T. Lapinski, R. Lozner - Graphic Design

The Major

The Department of Art provides its students with the technical and conceptual tools needed to make innovative contributions to a visual culture in which traditional boundaries between the visual arts, design, film, video, and architecture have become increasingly blurred. The accomplished faculty members bring their professional experiences to the studio, providing a contemporary context for the development of skills and ideas. The department's creative environment encourages creative problem solving, interdisciplinary experimentation, and the production of images, objects, and experiences that reflect a sophisticated visual literacy. From a shared foundation emphasizing traditional fundamentals of art and design, students move into media concentrations that encourage interdisciplinary interaction, particularly in developing digital technologies. This flexible interaction between traditional and new media is

central to the department's vision and the success of its mission.

In a society that increasingly defines itself in visual terms, artists and designers are critical in shaping its future. The creative atmosphere of the Department of Art's studios is a fertile ground for the development of the complex skills and ideas needed to navigate and contribute to an evolving visual culture. Our location, just outside Washington, DC, and less than an hour away from Baltimore provides access to numerous museums, galleries, embassies and international institutions, which brings important real-world experience to students in our program.

Program Objectives

Please go to Department of Art website for more information: www.art.umd.edu.

Program Learning Outcomes

Academic Programs and Departmental Facilities

Please go to Department of Art website for more information: www.art.umd.edu.

Admission to the Major

The Department of Art offers three tracks to the B.A. degree. Track 1 is an open major, which requires no portfolio review, and requires 48 total credits for completion. All majors enter the department in Track 1.

Tracks 2 and 3 are specialized tracks with portfolio reviews for admission in Junior and Senior years, and require 60 total credits for completion. Track 2 is for a B.A. with an Advanced Specialization in Digital Media, Painting, Printmaking, Sculpture, or Intermedia. Track 3 is for a B.A. with a concentration in Graphic Design.

See the department website for more information: www.art.umd.edu

Placement in Courses

With appropriate AP credit, students may receive credit for ARTT100, ARTT110, or both. Students can receive placement in more advanced courses with portfolio review. Contact Department advisors for more information.

Requirements for the Major

The Department of Art offers three tracks to a Bachelor of Arts degree (B.A.). All majors enter the Department in Track 1, the open B.A., and take a required group of six Foundation courses (18 credits). After completion of the Foundation courses, students may continue in Track 1 without portfolio review, or choose to submit a portfolio of work completed in Track 1 courses for admission into Track 2 or Track 3. Portfolio reviews for both specializations will take place during the Spring semester, usually during late March.

- **Track 1: B.A. in Studio Art.** This is an open program with no portfolio admission requirement. This track provides ample space for outside electives, encourages interdisciplinary interaction, and provides double major or double degree possibilities. The Art Education Curriculum works with Track 1. Credit requirements: 36 credits in Studio Art, and 12 credits in supporting courses in Art History and/or Art Theory, for a total of 48 credits.
- **Track 2: B.A. in Studio Art with Advanced Specialization.** This track is restricted to students admitted by competitive portfolio review, and is aimed at students who envision graduate study or professional careers in art. Students accepted into this track will complete, in addition to the requirements for Track 1, a 12 credit advanced specialization in specific media areas, including ARTT481: Advanced Specialization Seminar. Areas of specialization include: Digital Media, Painting, Printmaking, Sculpture, and Intermedia. Credit requirements: 48 credits listed in Track 1 plus 12 credits in Advanced Specializations, for a total of 60 credits.
- **Track 3: B.A. in Studio Art with a concentration in Graphic Design.** This track is restricted to students admitted into the Graphic Design concentration through a competitive portfolio review. This program provides a pre-professional orientation emphasizing interactive design, graphic design theory, and interdisciplinary research. Students accepted into the Graphic Design program must complete a specific sequence of courses at both the 300- and 400-level. Graphic Design courses are only available to students who have been admitted to the Graphic Design concentration. Credit requirements: 21 credits in Foundation and studio art electives, and 12 credits in supporting courses in Art History and/or Theory (ARTT361 Design Literacy: Decoding Our Visual Culture, a Graphic Design Concentration requirement, satisfies 3 credits of the supporting area for Graphic Design students) for a total of 60 credits.

Students interested in Track 2 may apply after the completion of at least two 300-level courses, plus completion or enrollment in ARTT418. Students may re-apply one time.

Students interested in Track 3 must have completed or be enrolled in the required Foundation courses to apply to the specialization. The strict course requirements in Graphic Design make early application to Track 3 optimal. Students may re-apply one time.

Transfer students who have completed courses equivalent to the Foundation and intermediate courses at UMCP may apply immediately to Tracks 2 or 3 if they choose.

These are competitive programs with a limit of approximately 20 new students per year in the combined Art areas, and approximately 20 students per year in Graphic Design. For information about the Portfolio review process for Tracks 2 and 3 please see the Department of Art website.

No course grade below the grade of C- may count toward the major. An overall GPA of 2.0 in the major is required for graduation.

Track 1: BA in Studio Art - 48 total credits required to complete major

Foundation Courses: 18 Credits

- ARTT100: Two Dimensional Design Fundamentals
- ARTT110: Elements of Drawing I
- ARTT150: Introduction to Art Theory
- ARTT200: Three Dimensional Art Fundamentals
- ARTT210: Elements of Drawing II
- ARTT255: Introduction to Digital Art and Design Processes

Intermediate Courses: 9 Credits

Choose three courses total from at least two areas on this list:

- Painting (ARTT320)
- Sculpture (ARTT330, 331, 332, 333)
- Printmaking (ARTT340, 341, 343, 344)
- Digital Media (ARTT370)

Advanced Courses: 9 Credits

- ARTT418: Advanced Drawing Studio
- One 300-/400-level ARTT elective
- One 400-level ARTT or Art Theory elective

Supporting Area: 12 Credits

- ARTH200, ARTH201, plus two 300-/400-level ARTH or Art Theory electives
- (Department recommends ARTH351: Twentieth Century 1945 to present)

Track 2: B.A. in Studio Art with an Advanced Specialization:

12 credits in addition to 48 credits required in Track 1; 60 total credits required to complete major.

Course Requirements for Areas of Advanced Specialization in Studio Art: Advanced media courses ending in 8 or 9 are repeatable up to 12 credits.

Digital Media:

- ARTT479: Advanced Digital Media Studio (2 repeatable 3 cr. courses) - 6 credits
- Option: ARTT479 or ARTT353/449 (Photo) or 34x/448 (Printmaking) - courses that emphasize digital processes. (3 cr. of ARTT 498 Directed Studies may be substituted for ARTT479 cr.) - 3 credits
- ARTT481: Advanced Specialization Seminar. Track 2 students only. Students in Department Honors Program may substitute the Honors Seminar for this course. - 3 credits

Painting:

- ARTT428: Advanced Painting Studio (Three repeatable 3 cr. courses) (3 cr. of ARTT498 Directed Studies in Art may be substituted for ARTT428) - 9 credits
- ARTT481: Advanced Specialization Seminar. Track 2 students only. Students in Department Honors Program may substitute the Honors Seminar for this course. - 3 credits

Printmaking:

- Option: ARTT34x or ARTT448 - 3 credits
- ARTT448: Advanced Printmaking Studio (Two repeatable 3 cr. courses) (3 cr. of 498 Directed Studies may be substituted for 448 credit) - 6 credits
- ARTT481: Advanced Specialization Seminar. Track 2 students only. Students in Department Honors Program may substitute the Honors Seminar for this course. - 3 credits

Sculpture:

- Option: ARTT33x or ARTT418* or ARTT438 - 3 credits
- ARTT438: Advanced Sculpture Studio (Two repeatable 3cr. Courses) (3 cr. of ARTT498 Directed Studies in Art may be substituted for 438 credit.) - 6 credits
- ARTT481: Advanced Specialization Seminar. Track 2 students only. Students in Department Honors Program may substitute the Honors Seminar for this course. - 3 credits

Intermedia:

- ARTT4xx Advanced Studios (combination of inter-related courses) (3 cr. of ARTT498 Directed Studies in Art may be used for 4xx credit.) - 9 credits
- ARTT481: Advanced Specialization Seminar. Track 2 students only. Students in Department Honors Program may substitute the Honors Seminar for this course. - 3 credits

Track 3: B.A. in Studio Art w/ Concentration in Graphic Design**60 total credits required to complete major.**

Intermediate and Advanced Graphic Design courses are restricted to students who have been accepted into the Design Concentration by an application process and competitive portfolio review. All Track 3 students must satisfy the following requirements:

Requirements

- Foundation and Supporting Area courses listed in Track 1 BA (see ARTT361 below) - 27 credits
- ARTT386 or 45x Graphic Design Electives - 6 credits
- ARTT3xx / 4xx Art Electives - 6 credits
- Required Graphic Design Area of Concentration Courses - 21 credits

Graphic Design required courses - 21 credits

- ARTT355: Intermediate Graphic Design Principles
- ARTT356: Graphic Design Processes
- ARTT357: Interactive Graphic Design
- ARTT454: Advanced Graphic Design Principles
- ARTT455: Three-Dimensional Graphic Design
- ARTT458: Graphic Design Portfolio
- ARTT361: Design Literacy: Decoding Visual Culture. Satisfies 3cr. of the Art History or Theory supporting area.

Graphic Design elective courses: Student choice – 6 credits.

Not all courses are offered every semester. Some are offered during Summer and Winter terms.

- ARTT386: Experiential Learning (Graphic Design Internship only)
- ARTT456: Motion Design
- ARTT457: Advanced Interactive Design
- ARTT459: Advanced Graphic Design Studio
- ARTT488: Special Topics in Graphic Design
- ARTT499: Directed Studies in Graphic Design

Other Requirements for the Major

Please go to Department of Art Website for more information: www.art.umd.edu

Certificate

The Department of Art offers no formal Certificate programs.

Advising

The department assigns advisors to its majors by class/credit hours completed. The name of the advisor for each class/credit hours is available in the department office or on the website. Each second-semester sophomore and first-semester senior is required to meet with their advisor.

Students are strongly encouraged to see their advisors in the department annually.

Undergraduate Research Experiences

A variety of undergraduate research and/or internship experiences are available. Please go to Department of Art Website for more information: www.art.umd.edu

Fieldwork Opportunities

A variety of undergraduate fieldwork and/or internship opportunities are available. Please go to Department of Art website for more information: www.art.umd.edu

Internships

Students have worked in a variety of internship settings. These have included assisting professionals with public commissions, commercial or cooperative gallery and exhibition duties, and working in professional artists' workshops in the Baltimore and Washington, D.C. metropolitan areas. The Graphic Design concentration maintains a variety of internship connections with the professional design communities from Baltimore to Washington, DC. Additional information is available in the Department of Art office or on the website www.art.umd.edu.

Honors Program

The Honors Program provides Art majors with opportunities for in-depth study and enrichment in areas of special and creative interest. Students are admitted to this program by competitive portfolio review. To qualify, students must be Art majors with junior or senior status, a major GPA of 3.2, and an overall GPA of 3.0. The program requires a total of 12 credits in Honors course work, and is completed over the student's senior year. Two courses (3 credits each) may be taken at the 300- or 400-level, and two courses (3 credits each) at the 400-level. There is a thesis component in one of the 400-level

courses and includes a Thesis Exhibition in the Herman Maril Gallery.

Please consult the department website and/or the Honors Director for additional information.

Student Societies and Professional Organizations

The Student Art League is an active student organization that encourages membership and participation for all majors. Art majors participate in many campus-wide organizations.

Scholarships and Financial Assistance

The Department of Art administers eight Creative and Performing Arts Scholarships (CAPAs) that are available to continuing students as well as entering freshman or transfer students. This is a merit-based scholarship that is awarded on a one-year basis and may be renewed. Additional information is available in the main office of the department. The Van Crews Scholarships and Clarvit Scholarships are designated for outstanding Art majors concentrating in Graphic Design. Further details are available on the department website: www.art.umd.edu

Awards and Recognition

Each semester the faculty votes for students to receive 1st, 2nd, and 3rd place cash prizes for the James P. Wharton Award, given at graduation. Students are given the awards based on works exhibited in the Graduating Seniors Exhibition in the Herman Maril Gallery.

When funds are available, the department holds a competition for the John Dorsey Prize for Curatorial Excellence. The winner receives a cash award and funds towards the production of a curated exhibition in the Herman Maril Gallery.

Other awards are given on an intermittent basis, depending on the funding.

For more information, go to the department website: www.art.umd.edu

Art Education (TLPL)

For more information see Teaching and Learning, Policy and Leadership in Chapter 7.

ART HISTORY AND ARCHAEOLOGY (ARTH)

College of Arts and Humanities

1211-B Parren J. Mitchell Art-Sociology Building, 301-405-1479

www.arthistory.umd.edu

awaller@umd.edu

Chair: M. Gill

Professors: A. Colantuono, M. Gill, J. Hargrove, J. Kuo, S. Mansbach, A. Wheelock

Associate Professors: R. Ater, J. Shannon, Y. Suzuki, A. Volk

Assistant Professors: M. Gensheimer, A. McEwen

Lecturers: B. Bland, A. Georgievsk-Shine, L. Martinez, G. Metcalf

Affiliate Professors: F. Kelly, R. Spear

Professors Emeriti: D. Denny (Prof Emeritus), W. Pressly (Prof Emeritus), M. Spiro (Assoc Prof Emerita), M. Venit (Prof Emeritus), J. Withers (Assoc Prof Emerita)

The Major

The goal of the Department is to develop the student's critical understanding of visual culture in both art historical and archaeological contexts. The program provides a diverse selection of courses in the art and archaeology of Africa, the Americas, Asia, and Europe.

The location of the University between Washington and Baltimore gives students the opportunity to use some of the finest museum and archival collections in the world for their coursework and independent research. Curator/professors, exhibitions in the Art Gallery and Stamp Gallery at the University of Maryland, and the extensive use of study collections bring regional and distant museums into the classroom.

Courses offered by this department may be found under the following acronym: ARTH.

Program Objectives

The Department of Art History and Archaeology's B.A. program equips its majors with critical knowledge of art history and visual culture. The program promotes visual literacy in the history of art from around the world and from prehistoric times to the present. It cultivates strong research, written, and critical thinking skills; and develops students' abilities to synthesize cultural, historical, political, and social information as it bears upon the visual arts.

Program Learning Outcomes

Students are expected to fully engage with the curriculum and the opportunities presented for learning and research. Having completed the B.A. in Art History, students should have acquired the following abilities:

1. An ability to demonstrate knowledge of a large set of artistic monuments, objects, and performances in their cultural, historical, political, and/or social contexts.
2. An ability to communicate effectively about art in writing, using clear and concise prose to advance logical arguments supported by adequate and appropriately cited research materials.
3. An ability to employ the appropriate technologies for conducting research in the history of art, including print sources and/or electronic information.
4. An ability to recognize the methods and theories used to ask and address significant questions about works of art, and understand the values informing them.
5. An ability to demonstrate skills in visual and critical analysis and sensitivity to diversity in comparing works of art across time, geography, and/or culture.

Academic Programs and Departmental Facilities

The location of the university between Washington and Baltimore gives students the opportunity to use some of the finest museum and archival collections in the world for their course work and independent research. The department encourages students to hold internships at a number of these institutions. Curator/professors, exhibitions in galleries at the University of Maryland, interactive technologies, and the extensive use of study collections complement traditional classroom learning.

The department is in the forefront of exploring digital imaging technologies for art historical and archaeological teaching, research, and publication. The Michelle Smith Collaboratory for Visual Culture, located in the department on the fourth floor of the Art-Sociology Building, is central in creating a nurturing environment for academic research and creative learning. This new space permits ample workspace for meetings, workshops, forums, and the execution of large-scale technical projects.

Admission to the Major

Students must meet either with the departmental Advisor or Director of Undergraduate Studies for admission to the Major. The advisor and student will complete the departmental portion of the *College of Arts and Humanities and Art History Academic Plan Checklist*. The student must take the form to the College and meet with the ARHU advisor. The ARHU advisor will make the official change in the university records.

Requirements for the Major

Requirements for the major in Art History are as follows:

		Credits
	One from:	3
ARTT100	Two Dimensional Art Fundamentals	
ARTT110	Elements of Drawing I	
	ARTH required courses:	
ARTH2xx	three ARTH courses at the 200 level seven ARTH courses at the 300-400 level	9
	Of those seven courses, at least one must be ARTH488 (Colloquium in Art History).	
ARTH300/400	Enrollment for ARTH488 is limited to (a) majors with at least 75 total credits and at least 9 credits in ARTH at the 300 level, or (b) those given permission by the faculty/department.	21
	Supporting Area:	12
	A supporting area of four courses outside the department of Art History and Archaeology at the 300-400 level. Course should cohere around a broad area of study, and must be related to the student's studies in the department. All supporting courses must be approved by an ARTH advisor.	

No credit toward the major can be received for ARTH 100 or 355.

No course with a grade lower than "C-" may be used to satisfy major or supporting area requirements.

An overall GPA of 2.0 in the major is required for graduation.

Other Requirements for the Major

In the Department of Art History and Archaeology, 300-level and 400-level courses are differentiated. 300-level courses focus on period or topical surveys and 400-level courses highlight content- or theme-based material. Majors should complete the 200-level surveys before they enroll in 300- or 400-level courses. Students are strongly encouraged to take supporting area courses that complement the art history major. No course with a grade lower than "C-" may be used to satisfy major or supporting area requirements.

Requirements for the Minor

The minor in Art History introduces students to a range of art-historical periods, problems, and methodologies and is intended at once to broaden and deepen the student's knowledge of arts and humanities. A total of 18 credits is required.

1. Nine (9) credits of 200-level surveys in the history of art are required. Choose any three (3) broad surveys from among the following 3-credit courses:

- ARTH200: Art and Society in Ancient and Medieval Europe and the Mediterranean
- ARTH201: Art and Society in the West from the Renaissance to the Present
- ARTH250: Art and Society in the Ancient American World
- ARTH255: Art and Society in the Modern American World
- ARTH275: Art and Society in Africa
- ARTH290: Art and Society in Asia

2. In addition, nine (9) credits of upper-level art history courses are required. Choose any three (3) upper-division (300- or 400-level) 3-credit courses in Art History (ARTH prefix).

A total of six (6) credits may be transferred into the minor from other institutions or programs. These transferred credits include those from study-abroad programs. Study-abroad credit requires the prior approval of the Director of Undergraduate Studies.

All courses presented for the minor must be passed with a grade of "C-" or better. Beginning with students matriculating in Fall 2012, to be awarded a baccalaureate degree, students must have a minimum C (2.00) cumulative grade point average across all courses used to satisfy minor requirements.

To make an appointment to explore or declare a minor,

go to <http://www.arhu.umd.edu/undergraduate/academics/minors>

Advising

Departmental advising is mandatory for all majors. Once registration begins, students must come in for departmental advising before the department can remove their registration block. Students should check for registration blocks and advising hours.

For ARTH advising hours, go to: <http://arthistory.umd.edu/undergraduate-advising>

Internships

Students may receive academic credit for museum/gallery internships via ARTH386. This course may count as one of the seven 300/400-level ARTH courses required for completion of the ARTH major. Prerequisites: permission of department and 60 credit hours completed. All students are required to complete an ARTH Internship Contract, available from the Undergraduate Advisor. Qualified majors should consult with the Director of Undergraduate Studies for internship opportunities.

For details outlining the process for securing such credit and for museum internship information, go to: <http://arthistory.umd.edu/internships>

Students must complete all of the required steps outlined on the website and register for ARTH 386 before the end of the schedule adjustment period for that semester. The department does not give credit for museum and gallery internships that have already been completed.

Honors Program

If you have completed at least 12 credits in Art History and Archaeology courses and if you have an overall GPA of 3.5 or higher (in all course work, not just ARTH courses) you are qualified to work toward departmental honors at graduation. Such honors will be noted on your official transcript. Consult the Director of Undergraduate Studies for details. Among your seven 300/400-level ARTH courses required for the major, you must take at least one colloquium (ARTH488) and you also must take Methods of Art History (ARTH496). In addition to the regular requirements for the major, you must research

and write an Honors Thesis (ARTH499), normally in the year when you will graduate. Before registering for this course you must identify and gain the support of a faculty supervisor. The faculty supervisor must be a regular member of the ARTH department faculty. Adjunct faculty members do not supervise honors theses.

Student Societies and Professional Organizations

The Department of Art History and Archaeology has an active Undergraduate Art History Association (AHA). Interested students should contact the Director of Undergraduate Studies for more information or go to <http://www.arthistory.umd.edu/art-history-association-aha> and <https://www.facebook.com/UmdAHA>

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu

Awards and Recognition

The Department of Art History and Archaeology offers four undergraduate awards each year: the Judith K. Reed Scholarship to an ARTH major of junior standing; the Judith K. Reed Commencement Award, and the George Levitine and Frank DiFederico Book Awards to graduating ARTH seniors.

Asian American Studies Program

Office of Undergraduate Studies

1145 Cole Student Activities Building, 301-405-0996
www.aast.umd.edu
aast@umd.edu

Note: The Certificate in Asian American Studies is suspended. Information on the Certificate is for reference only.

The Certificate in Asian American Studies involves students in critical study of the experiences of Asian Americans. Through an interdisciplinary approach, students examine the histories, communities, and cultures of Asian Americans as both distinctive from and connected to the broader themes for diversity, ethnicity, race, gender and migration in the Americas.

Requirements for Certificate:

The Certificate in Asian American Studies requires at least 21 credits: 6 credits in core courses (AAS200 and AAS201); 12 credits in elective courses (from among AAS offerings or, with program approval, from among courses offered outside AAS); and a capstone course of 3 credits (AAS378 or AAS388). Students must earn a grade of "C-" or better in any course that counts toward the Certificate in Asian American Studies.

Note: The Certificate in Asian American Studies was suspended beginning fall 2009. The Asian American Studies Program currently offers a 15-credit academic minor; see Chapter 6 for details on the Asian American Studies Minor.

Astronomy (ASTR)

College of Computer, Mathematical & Natural Sciences

1208 Physical Sciences Complex, 301-405-3001

www.astro.umd.edu

astr-grad@deans.umd.edu

Chair: S. Vogel

Director: E. McKenzie

Professors: M. C. Miller, L. D. Deming, D. Hamilton, A. Harris, L. Mundy, R. Mushotzky, K. Papadopoulos, C. Reynolds, D. Richardson, J. Sunshine, S. Veilleux

Associate Professors: A. Bolatto, M. Ricotti

Assistant Professors: M. Boylan-Kolchin, S. Gezari

Lecturers: M. Hayes-Gehrke (Senior Lect), A. Peel

Adjunct Professors: S. Cenko (Adjunct Asst Prof), E. Dwek, N. Gehrels (College Park Prof), M. Mumma

Professors Emeriti: M. A'Hearn, J. Earl, J. Harrington, M. Leventhal

Visiting Faculty: D. Neufeld

The Major

The Astronomy Department offers courses leading to a Bachelor of Science in Astronomy as well as a series of courses of general interest to non-majors. Astronomy majors are given a strong undergraduate preparation in Astronomy, Mathematics, and Physics. The degree program is designed to prepare students for positions in government and industry laboratories or for graduate work in Astronomy or related fields. Courses offered by this department may be found under the following acronym: ASTR.

Program Learning Outcomes

The Department of Astronomy B.S. program educates majors toward achieving an understanding of modern astronomical concepts, applying physics and mathematics to astrophysical situations, and gaining experience in gathering and reducing data using astronomical instrumentation and computational tools. Completion of this program provides the opportunity for majors to acquire the knowledge and skills necessary for graduate school or employment after graduation.

- Identify basic concepts from the many areas of astronomy, including motions in the sky, gravity, electromagnetic radiation, solar system, stars, and galaxies.
- Develop mathematical skills, acquire physics knowledge, and practice applying these skills and knowledge in astrophysical situations.
- Use astronomical telescopes/instruments and reduce astronomical data using modern computational methods.
- Demonstrate advanced level knowledge in several different areas of astronomy.

For further details, see the department's assessment plan: <http://www.astro.umd.edu/academics/astronomyBS.pdf>

Academic Programs and Departmental Facilities

The Department of Astronomy is a full partner in the 4.3m Discovery Channel Telescope (DCT)

(<https://lowell.edu/research/research-facilities/4-3-meter-dct/>), one of the largest and most technologically advanced telescopes in the continental U.S.

We have joined Caltech and other partners in the Zwicky Transient Facility (<http://www.ptf.caltech.edu/ztf/>), a time-domain survey for studying rare and exotic transient phenomena with first light at Palomar Observatory in 2017. The Department is involved with major space missions, such as NASA's Deep Impact, EPOXI, and Rosetta missions which have explored comets. Additionally, the Department operates a small observatory

(<http://www.astro.umd.edu/openhouse/>) on campus which has four fixed telescopes ranging in aperture from 20" to 7" and six portable 8" telescopes.

This facility is used for undergraduate majors' classes and for small-scale research projects, as well as for an Open House Program for the public. The Department operates a modern computer cluster (<http://www.astro.umd.edu/rareas/etc/#ctcfacilities>) for computation-intensive science projects, and we have a new visualization laboratory for state-of-the-art simulations and displays of large datasets. Opportunities are available for undergraduates to become involved in research with all of these facilities. A number of our students also conduct research and instrumentation projects with distinguished scientists at the nearby NASA Goddard Space Flight Center and other sites.

Requirements for the Major

Required Basic Astronomy Courses (14 credits):

ASTR120 - Astrophysics I: The Solar System (3 credits)

ASTR121 - Astrophysics II: Stars and Beyond (4 credits)

ASTR310 - Observational Astronomy (4 credits)

ASTR320 - Theoretical Astrophysics (3 credits)

Advanced Astronomy Courses (6 credits):

Any two 400 level Astronomy courses are required:

ASTR410 - Radio Astronomy Techniques (3 credits)

ASTR415 - Computational Astrophysics (3 credits)

ASTR421 - Galaxies (3 credits)

ASTR422 - Cosmology (3 credits)

ASTR430 - The Solar System (3 credits)

ASTR450 - Orbital Dynamics (3 credits)

ASTR480 - High Energy Astrophysics (3 credits)

ASTR498N - Stellar Evolution (3 credits)

Optional Astronomy Seminars

ASTR288C - Astronomy Research Techniques (2 credits)

ASTR288M - Current Events in Astronomy Research (1 credit)

Required Introductory Physics Courses (17 credits)

PHYS165 - Introduction to Programming for the Physical Sciences (3 credits)

For students with experience with computer programming this course can be replaced by PHYS474 Computational Physics or ASTR415 Computational Astrophysics. *If students complete ASTR415 for this requirement, it cannot be counted as an advanced astronomy course (400-level course) requirement.*

PHYS171 - Mechanics and Thermal Physics (3 credits)

PHYS174 - Laboratory Introduction (1 credit)

PHYS272 - Fields (3 credits)

PHYS273 - Waves (3 credits)

PHYS275 - Experimental Physics I: Mechanics, Heat and Fields (2 credits)

PHYS276 - Experimental Physics II: Electricity and Magnetism (2 credits)

Also accepted with consent of advisor: PHYS161, 165, 260, 261, 270, 271 (14 credits)

Advanced Physics Courses (13 credits):

PHYS371 - Modern Physics (3 credits)

PHYS373 - Mathematical Methods for Physics II (3 credits)

PHYS401 - Quantum Mechanics I (4 credits)

PHYS404 - Statistical Thermodynamics (3 credits)

Supporting Mathematics/Mathematical Methods Courses (15 credits):

MATH140 - Calculus I (4 credits)

MATH141 - Calculus II (4 credits)

MATH241 - Calculus III (4 credits)

PHYS274 - Mathematical Methods for Physics I (3 credits)

Completion of both MATH246 and either 240 or 461 will be accepted in place of PHYS274.

Total Credits required for the Astronomy Major = 65 credits

Grades in all of the above required courses must be "C-" or better.

Requirements for the Minor

Astronomy

A minor in Astronomy may be earned by completing the following with grades of "C-" or better. Beginning with students matriculating in Fall 2012, to be awarded a baccalaureate degree, students must have a minimum "C" (2.0) cumulative grade point average across all courses used to satisfy minor requirements. An appointment must be made to register for the minor before final 30 credits are taken. Please contact Department for complete rules and procedures.

<i>One from:</i>	Credits
ASTR100 Introduction to Astronomy	3
ASTR101 General Astronomy	4
ASTR1-- any other Introductory sequence in Astronomy	

<i>One from:</i>	
ASTR220 Collisions in Space - The Threat of Asteroid Impact	3
ASTR230 The Science and Fiction of Planetary Systems	3

<i>Three from:</i>	
ASTR300 Stars and Stellar Systems	3
ASTR305 Astronomy and the Media	3
ASTR330 Solar System Astronomy	3
ASTR340 Origin of the Universe	3
ASTR380 Life in the Universe - Astrobiology	3
ASTR498 Special Problems in Astronomy	3

CRSxx Or a course approved by the department 3

Planetary Sciences

The Departments of Astronomy and Geology jointly sponsor a minor program in Planetary Science. Details about this minor and its course requirements are provided in Chapter 8.

Advising

Further information about the program can be obtained by calling the Department of Astronomy office at 301-405-3001.

Students who have been away more than two years may find that due to curriculum changes the courses they have taken may no longer be adequate preparation for the courses required to complete the major. Students in this situation must meet with the Departmental Advisor to make appropriate plans.

Undergraduate Research Experiences

Undergraduates have many research opportunities both on and off campus. More information is available on the department website under 'Undergraduate Research' (<http://www.astro.umd.edu/undergrad/ugresearch.html>).

Internships

Many undergraduate students do astronomy research internships at the NASA/Goddard Space Flight Center. See the department website under 'Undergraduate Research' (<http://www.astro.umd.edu/undergrad/ugresearch.html>).

Honors Program

The Honors Program offers students of exceptional ability and interest in Astronomy opportunities for research participation. Honors students work with a faculty advisor on a research project for which academic credit is earned. Certain graduate courses are open for credit toward the bachelor's degree. (Students are accepted into the Honors Program by the Department's Honors Committee on the basis of grade point average or recommendation of faculty.) Honors candidates enroll in ASTR399, complete a research project, write a thesis and do an oral presentation before a committee. Satisfactory grades lead to graduation With Honors (or High Honors) in Astronomy. Further information about the Honors Program can be obtained by calling the Department of Astronomy office at 301-405-3001.

Student Societies and Professional Organizations

AstroTerps is a student club open to all undergraduates with an interest in astronomy. The club invites guest speakers and coordinates many outreach activities, field trips, and special events.

AGN is a group of astronomy undergraduates, graduate students, and postdoctoral researchers. Their goals include facilitating community among astronomy undergraduates, discussing the challenges that women in science face, and giving graduate students a chance to share their experiences with undergraduates through this mentoring opportunity.

Awards and Recognition

For information about external and university awards which our undergraduate students have won, see the department's Fellowships and Prizes webpage (<http://www.astro.umd.edu/undergrad/fellowships.html#PreviousWinners>).

Atmospheric and Oceanic Science (AOSC)

College of Computer, Mathematical, & Natural Sciences

3417 Computer and Space Sciences Building, 301-405-5391

www.atmos.umd.edu

Chair: J. Carton

Professors: A. Busalacchi, J. Carton, R. Dickerson, E. Kalnay, Z. Li, X. Liang, F. Miralles-Wilhelm, R. Murtugudde, S. Nigam, R. Pinker, R. Salawitch, N. Zeng, D. Zhang

Associate Professors: K. Ide

Assistant Professors: D. Kleist (Asst Prof), D. Lampkin (Asst Prof)

Affiliate Professors: E. Berbery (Res Prof, Aff Res Prof)

Affiliate Associate Professors: M. Tzortziou (Asst Res Sci, Affiliate Asst. Rsch Scientist)

Adjunct Professors: E. Berbery, C. Brown, R. Colwell (Dist Univ Prof Emerita, Affiliate Prof), P. Decola (Visit Asst Res Sci, Adjunct Prof), B. Doddridge, M.

Evans, R. Higgins, M. King, D. Kirk-Davidoff, V. Kousky, I. Laszlo (Adjunct Prof), M. McGill (Visit Sr Res Sci), L. Miller (Adjunct Prof), K. Pickering, A.

Thompson, L. Uccellini, H. Van Den Dool, F. Weng (Visit Sr Res Sci), R. Zhang

Adjunct Assistant Professors: N. Nidzieko (Asst Prof, Visit Asst Prof)

Professors Emeriti: F. Baer, R. Ellingson, R. Hudson, E. Rasmusson (Sr Res Sci Emeritus), A. Vernekar

The Major

Fundamental concepts from mathematics, chemistry, physics, and computer science are applied to understand the basic principles that control our weather and climate, from extreme events like tornadoes to the millennial changes of ice ages and the results of human modification of our environment. Coursework in the first two years emphasizes mastery of these fundamentals. Coursework in the last two years provides a comprehensive survey of atmospheric and oceanic science, while specialty courses and guided research allow the student to develop expertise in an area of concentration. The Department has particular strengths in computer modeling and remote sensing of the atmosphere and ocean, atmospheric chemistry, and climate studies. In addition to the Department, nearby research laboratories such as the NOAA National Centers for Environmental Prediction and NASA Goddard Space Flight Center offer the student many research opportunities. Courses offered by this department may be found under the following acronyms: AOSC

Program Objectives

The Atmospheric and Oceanic Science B.S. program seeks to educate majors in the basic principles that control our weather and the interactions between atmosphere and ocean that regulate Earth's climate. Students will be provided with practical experience as researchers and creators of knowledge, and equipped with the requirements for a full range of careers in Atmospheric and Oceanic Science, as well as for related areas in secondary education, graduate school, industry, and public service.

Academic Programs and Departmental Facilities

Our department hosts an undergraduate major, three undergraduate minors, a professional masters and a full academic graduate program. The overlap between the professional masters program and the undergraduate program allows incoming freshman to earn both a bachelors and a masters degree in five years. We believe that research is an essential part of an undergraduate experience, and require all our majors to complete a senior thesis as part of their education!

We maintain computer labs for the use of our students in addition to the computer facilities provided by the university, with all major operating systems represented. Several of our research groups also have their own compute clusters, and those who need to access still more powerful computing resources can use NASA, NOAA and NCAR machines. The department hosts several large disk arrays for local data storage and general-use compute clusters for student use in classes and on small projects. All are accessible from our laboratories. We are in the process of completing and advance forecasting/data visualization lab for students to prepare forecasts, analyze data, and general classroom use.

We have a state of the art rooftop meteorological laboratory, which currently houses standard meteorological instruments and more than a dozen atmospheric chemistry measurements. This facility also frequently hosts instruments from nearby research laboratories such as NASA and NOAA. A short distance away, our department runs an atmospheric chemistry, precipitation and deposition field site at the Beltsville Agricultural Research Center.

Closely affiliated departments and programs, the Earth System Science Interdisciplinary Center (ESSIC) and the Joint Global Change Research Institute

(JGCRI) are in the MSquare development immediately east of the main campus, and numerous world-class federal facilities are a short walk or drive away. The new NOAA Center for Weather and Climate Prediction with 700 NOAA researchers is housed next to ESSIC and JGCRI in the MSquare development just east of US Route 1. NASA's Goddard Space Flight Center is five miles down the road, and the National Institute of Standards and Technology, Naval Research Labs, Environmental Protection Agency, and many more are also located in the Washington, D.C. Metro area. All have hired our graduates and host frequent collaborations with our faculty and students.

Admission to the Major

The major in Atmospheric and Oceanic Science is not a limited enrollment program (LEP), so there are no formal requirements for entry into the major. Successful students generally have a solid background, earning good grades in mathematics, physics and chemistry.

Requirements for the Major

AOSC200*	Weather and Climate	3 credits
AOSC201	Weather and Climate Laboratory	1 credit
AOSC431	Atmospheric Thermodynamics	3 credits
AOSC432	Dynamics of the Atmosphere and Oceans	3 credits
AOSC494	Seminar	1 credit
AOSC493	Senior Research Project I	3 credits
AOSC498	Senior Research Project II	3 credits
AOSC358L	Computing and Data Analysis: Deciphering Climate Change Clues	3 credits
AOSC4XX**	Upper Level Major Electives	6 credits

Four of the following five classes:

AOSC400	Physical Meteorology of the Atmosphere	3 credits
AOSC401	Climate Dynamics and Earth System Science	3 credits
AOSC424	Remote sensing	3 credits
AOSC433	Atmospheric Chemistry and Climate	3 credits
AOSC470	Synoptic Meteorology	3 credits

CHEM135	General Chemistry for Engineers	3 credits
CHEM136	General Chemistry Laboratory for Engineers	1 credit
MATH140	Calculus I	4 credits
MATH141	Calculus II	4 credits
MATH241†	Calculus III	4 credits
MATH246†	Differential Equations	3 credits
PHYS161††	General Physics: Mechanics and Particle Dynamics	3 credits
PHYS174††	Physics Laboratory Introduction	1 credit
PHYS260††	General Physics: Vibration, Waves, Heat, Electricity and Magnetism	3 credits
PHYS 261††	General Physics: Vibrations, Waves, Heat, Electricity and Magnetism (Laboratory)	1 credit
PHYS270††	General Physics: Electrodynamics, Light, Relativity and Modern Physics	3 credits
PHYS271††	General Physics: Electrodynamics, Light, Relativity and Modern Physics Laboratory	1 credit

**Or another AOSC course at the 200-level*

***For a detailed list, see our website for AOSC majors*

†The sequence for math majors may also be used: MATH340, 341

††The sequence for physics majors may also be used: PHYS171, PHYS174, PHYS272, PHYS275, PHYS273

The program requires that a grade of "C-" or better be obtained in all courses required for the major. Beginning with students matriculating in Fall 2012, to be awarded a baccalaureate degree, students must have a minimum C (2.0) cumulative grade point average across all courses used to satisfy major degree requirements.

Detailed information on the major can be obtained by consulting our major website and making an appointment with an AOSC advisor.

Advising

Advising for Atmospheric and Oceanic Science majors is mandatory every semester. Students who need to make an advising appointment should contact the Associate Director of the undergraduate program in Atmospheric and Oceanic Science (Tim Cauty: tcauty@atmos.umd.edu).

Undergraduate Research Experiences

Many of our present undergraduate students have sought out and obtained productive internships in the Washington, D.C. area. These experiences (whether at NASA, NOAA, EPA, DOE or other federal or state agencies) are important both to our students' academic careers, as they provide context and generate ideas for independent research projects, and to their professional careers. In light of this importance, we have made an undergraduate senior thesis mandatory for all AOSC majors (see the courses AOSC493 and AOSC498). Our majors have the opportunity and are required to perform research! Non-majors may also participate in undergraduate research through AOSC499 or informally with individual professors and research scientists.

Honors Program

Each year, the AOSC Honors Program Committee reviews the academic records of AOSC majors. Students with a minimum 3.00 overall GPA and a minimum 3.30 major GPA will be added to the AOSC Honors List. For students on the AOSC Honors list certain graduate courses are open. To receive a citation of "with honors in atmospheric and oceanic science" the student must:

- Have earned a 3.00 or higher overall GPA and a 3.30 or higher GPA for all AOSC major required courses at graduation time
- Pass two approved AOSC graduate level classes with a grade of "B-" or better.
- Pass an Honors Oral Examination in his or her senior year.

To receive a citation of "with high honors in atmospheric and oceanic science" he or she must complete the requirements for honors and receive a high pass for the thesis.

Student Societies and Professional Organizations

The undergraduate program features an active student chapter of the American Meteorological Society.

Scholarships and Financial Assistance

The department maintains awards for highly qualified undergraduate students. Please contact the department for details.

In addition, the Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

BEHAVIORAL AND COMMUNITY HEALTH (HLTH)

School of Public Health

2387 School of Public Health Building, 301-405-2463

www.bch.umd.edu

bmonis@umd.edu

Chair: B. Curbow

Professors: K. Beck, B. Boekeloo, P. Clark (Res Prof), R. Feldman, R. Gold, M. Wang

Associate Professors: L. Aldoori (Affil Assoc Prof, Assoc Prof & Dir), A. Arria (Assoc Prof), D. Borzekowski (Res Assoc Prof, Res Prof), S. Desmond, K. Green, C. Holt, D. Howard, R. Sawyer, F. Zanjani (Assoc Prof)

Assistant Professors: D. Bernat (Res Prof), J. Butler, C. Fryer, M. Garza

Instructors: A. Anderson-Sawyer, J. Hodgson, S. La Touche-Howard (Lecturer), M. Reynolds, K. Sharp, T. Zeeger

Professors Emeriti: J. Greenberg

The Major

Students graduate with a Bachelor of Science degree in Community Health which prepares students for entry-level health education positions in a variety of community health settings: worksite health promotion, research and development, hospitals, and health agencies.

Program Objectives

The Department of Behavioral and Community Health promotes the development of behavioral and community health educators who understand the science, theory, and practice of public health and can apply this knowledge toward the enhancement of population health status.

Program Learning Outcomes

As a result of the undergraduate program in community health, students will be able to:

1. Identify individual and community level needs for health promotion and disease prevention.
2. Identify principles of community health that are needed for the development of effective health promotion and disease prevention strategies.
3. Apply statistics and research methods to accurately describe the distribution and examine the determinants of population health.
4. Apply statistics and research methods to community health program evaluations.
5. Describe how to plan, implement and administer short and long term community health interventions.
6. Communicate and disseminate the results of community health program evaluations.
7. Describe how to advocate for effective community health initiatives at the local, state and federal levels.
8. Identify strategies that effectively incorporate cultural competence within health promotion and community health initiatives.
9. Demonstrate competency in planning, preparing, and delivering effective community health presentations.

Requirements for the Major

In addition to the University's general education requirements, students must fulfill four other general sets of requirements: General Electives, Supportive Requirements, Health Electives, and Professional Preparation. HLTH491, the Community Health Internship, is completed during the student's final semester and after all other course work has been successfully completed.

	Community Health Major	Credits
	120	
	Supportive Requirements	21
HLTH130	Introduction to Public & Community Health	3
HLTH140	Personal and Community Health	3
HLTH230	Introduction to Health Behavior	3
BSCI170&171	Principles of Molecular and Cellular Biology and Lab	4
BSCI201	Anatomy and Physiology I	4
BSCI202	Anatomy and Physiology II	4
	Health Electives	18
HLTH106	Drug Use and Abuse	
HLTH285	Controlling Stress and Tension	
HLTH371	Communicating Health and Safety	
HLTH377	Human Sexuality	
HLTH38x	Peer Education	
HLTH430	Health Education in the Workplace	
HLTH437	Consumer Behavior	
HLTH460	Minority Health(summer only)	
HLTH471	Women's Health	
HLTH476	Death Education	
HLTH498T	Medical Terminology (Summer & Winter)	
KNES360	Physiology of Exercise	
NFSC100	Elements of Nutrition	
SPHL		
	Professional Preparation	30
HLTH200	Introduction to Research in Community Health	3
HLTH300	Introduction to Biostatistics	3
HLTH301	Introduction to Epidemiology	3
HLTH391	Principles of Community Health I	3
HLTH420	Methods and Materials in Health	3
HLTH490	Principles of Community Health II	3
HLTH491	Community Health Internship	12

Advising

Advising is not mandatory, but it is recommended that students periodically schedule an appointment via departmental website to appropriately track their progress in the major. The Community Health major has two advisors:

1. Jennifer Hodgson: jhodgson@umd.edu, 301-405-2523
2. Dr. Nancy Smith: nsmith10@umd.edu, 301-405-9146

Internships

The final semester of the program is dedicated to a full-time, 16-week internship that the student will have identified in the previous semester's required course HLTH490. The internship coordinator is Anne Anderson-Sawyer, MA, aasawver@umd.edu.

Honors Program

The Department's Honors program began in Fall 2015. Interested students should check the departmental web site or contact Dr. Kerry Green for details.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

DBCH Undergraduate Award Descriptions

The Department of Behavioral and Community Health has evolved significantly over the past few years, and is currently comprised of faculty, staff and hundreds of students who share in a passion to improve health outcomes of individuals and communities. Each year, our Department recognizes some exceptional students by honoring them with awards in recognition of their achievements. A listing of all Behavioral and Community Health sponsored awards follows.

Please note that students may apply for only one award.

Sharon M. Desmond Community Service Award

This award honors Dr. Sharon Desmond's more than 20-year involvement and commitment to improving health within the local community. Serving as a professor within the Department of Behavioral and Community Health since 1989, she teaches about public health from a social justice perspective, addressing health disparities that result from racism and lack of access to care. Dr. Desmond has worked diligently with communities surrounding the University to empower them through health education. In 1999, she was instrumental in founding a health partnership between the city of Seat Pleasant, MD and the university. Since its birth, she has served as secretary, chairperson, and co-chairperson of the Seat Pleasant-University of Maryland Health Partnership (SP-UMHP) and has been actively involved in all partnership programs and activities.

Each spring, the Department of Behavioral and Community Health presents this award to an undergraduate who has demonstrated dedication to his or her community in a health-related capacity. The award will be given to a student with a cumulative GPA of 3.0 or higher, who has completed at least 2 semesters in the Community Health major, and who has regularly participated in community service activities. To apply, please email your full name and university ID, as well as a 1-2 page (maximum) narrative about why you deserve this award, to Beverly Monis at bmonis@umd.edu by February 1st. The subject line of your email should read, "Desmond Community Service Award."

Robin G. Sawyer Health Teaching/Communication Award

This award honors Dr. Robin Sawyer's more than 25-year commitment to a high standard of teaching excellence and health communication. Dr. Sawyer has received numerous awards for his exciting and effective classroom teaching methods, including the most prestigious University of Maryland Regent's Award for Teaching Excellence, which identifies the most outstanding teacher among 5,000 faculty in the University of Maryland System. His unwavering commitment to teaching has led to over 450 presentations at schools, colleges, and universities throughout the United States, and his innovative approach to education has made his Human Sexuality course one of the most popular classes on our campus. Dr. Sawyer has also written and produced 5 sexuality films that have garnered 14 national and international film awards. Through his Methods and Materials in Health course, Dr. Sawyer continues to teach our majors how to become effective communicators of health information.

Each spring, the Department of Behavioral and Community Health presents this award to an undergraduate who demonstrates promise and involvement in public/community health presentations and teaching. The award will be given to a student with a cumulative GPA of 3.0 or higher, who has completed at least 2 semesters in the Community Health major, and who has effectively taught or presented on a health-related topic. To apply, please email your full name and university ID, as well as a 1-2 page (maximum) narrative of why you deserve this award, to Beverly Monis at bmonis@umd.edu by February 1st. The subject line of your email should read, "Sawyer Health Teaching/Communication Award."

Beck-Feldman Public Health Research Award

This award honors Drs. Kenneth Beck and Robert Feldman's more than 30-year commitment to public health research. Both serve as full professors within the Department of Behavioral and Community Health. Dr. Beck has worked with numerous federal, state, and local agencies to research issues surrounding injury prevention, traffic safety, graduated licensing and risk-taking behaviors. He has focused specifically on the effectiveness of breath alcohol ignition locks at preventing impaired driving, and the effects of parental monitoring on teen alcohol involvement. Dr. Feldman's major areas of research have focused on investigating worksite smoking cessation among government workers in Costa Rica and Latino immigrant construction workers in Maryland. He has also examined the effectiveness of interventions to encourage healthier eating among low income women in the Women, Infant and Children (WIC) program and infant nutrition programs for Latina mothers.

Each spring, the Department of Behavioral and Community Health presents this award to an undergraduate who has a demonstrated involvement in health research projects. The award will be given to a student with a cumulative GPA of 3.0 or higher, who has completed at least 2 semesters in the Community Health major, and who has had some involvement in research. To apply, please email your full name and university ID, as well as a 1-2 page (maximum) narrative of why you deserve this award, to Beverly Monis at bmonis@umd.edu by February 1st. The subject line of your email should read, "Beck-Feldman Public Health Research Award."

David Hyde Award

This award honors Dr. David Hyde's more than 20 year involvement with the Department of Behavioral and Community Health. As the former Undergraduate Program Director, Dr. Hyde advised literally hundreds of students, assisting them in reaching their academic, professional, and personal goals. His open door policy, personable demeanor, and realistic approach to problem solving made him popular among Community Health students. Dr. Hyde also taught courses in stress management and was passionate about helping students cope with and control stress in their academic and personal lives. Retiring in 2010, Dr. Hyde has had the opportunity to pursue his long time interest in photography.

Each spring, the Department of Behavioral and Community Health presents this award to an undergraduate who has demonstrated strength in the face of adversity. The award will be given to a student with a cumulative GPA of 3.0 or higher, who has completed at least 2 semesters in the Community Health major, and who has experienced adversity during his or her undergraduate career. To apply, please email your full name and university ID, as well as a 1-2 page (maximum) narrative of why you deserve this award, to Beverly Monis at bmonis@umd.edu by February 1st. The subject line of your email should read, "David Hyde Award."

Doris Sands Award

This award honors Dr. Doris Sands, a renowned sexuality educator who was recognized for her tremendous teaching skills and ability to reach thousands of students during her time at the University of Maryland (1964-1986). Dr. Sands began her career as a school nurse and happened to identify and diagnose a serious illness in a young high school student. This early intervention saved the young man's life, and many years later, in honor of this action, the grateful man set up a scholarship in the name of Dr. Sands. Throughout her teaching career here at Maryland, Dr. Sands was well known for her direct manner and fearlessness regarding education around human sexuality. She was a trailblazer in this regard, and helped to normalize issues of sexual health in her immensely popular Human Sexuality course.

Each spring, the Department of Behavioral and Community Health's Undergraduate Program Committee selects (no application) a student to receive this award based on strong motivation and promise in the field.

FISCHELL DEPARTMENT OF BIOENGINEERING (BIOE)

A. James Clark School of Engineering

2330 Jeong H. Kim Engineering Building, 301-405-8268

www.bioe.umd.edu

bioe-undergrad@umd.edu

Chair: J. Fisher (Prof, Chair)

Director: Y. Chen (Assoc Prof, Assoc Chair, Graduate Program Director), I. White (Assoc Prof, Assoc Chair, Undergraduate Program Director)

Professors: W. Bentley, J. Fisher, P. Kofinas, G. Payne, B. Shapiro, Y. Tao

Associate Professors: J. Aranda-Espinoza, Y. Chen, E. Eisenstein, K. Herold, A. Hsieh, H. Montas, S. Muro, I. White

Assistant Professors: S. Jay, C. Jewell, S. Matysiak, G. Scarcelli, K. Stroka

Lecturers: A. Jones, L. Ma

Professors Emeriti: A. Johnson

The Major

Bioengineering is a field rooted in physics, chemistry, mathematics, and the life sciences. These areas are applied in quantitative and integrative way to approach problems in the biological systems, medical research, and clinical practice. The objective is to advance fundamental concepts, create knowledge from the molecular to organ to system levels, and develop innovative processes for the prevention, diagnosis, and treatment of disease. In short, bioengineering seeks to improve the health and life of humankind on many levels.

Bioengineers specialize in those products and processes made from, used with, or applied to biological organisms. In addition to engineering science and design, bioengineers study cell biology, physiology, bioinformatics, bioimaging, and biomechanics. The synthesis of engineering and biology gives bioengineers unique capabilities in our modern world.

For more information about the Bioengineering major, please visit www.bioe.umd.edu/undergraduate.

The Bachelor of Science degree in Bioengineering is accredited by the Engineering Accreditation Commission of ABET, www.abet.org, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: (410) 347-7700.

Program Objectives

The undergraduate program in the Fischell Department of Bioengineering provides students with a broad and fundamental education relating engineering with the biological sciences. The program has focuses in biomedical devices, human health, biotechnology, and ecosystems. These focuses all contain components of fundamental sciences, design, and communications skills. The students' educational achievements all contribute to enabling a wide range of career paths after graduation.

Our graduates are grounded in fundamentals that will serve them throughout their professional careers. They will have an understanding of human behavior, societal needs and forces, and the dynamics of human efforts and their effects on human health and that of our environment. With these underpinnings and abilities, we have defined several Program Educational Objectives we expect our graduates to attain in 3-5 years after graduation:

1. Prepare our graduates for continuing their education and for gaining employment in a bioengineering or related profession;
2. Instill in our graduates a desire to participate in lifelong learning activities that will further their careers and their impact on society;
3. Encourage our graduates to serve their profession and community.

Program Learning Outcomes

Maryland bioengineers gain a broad-based education in which engineering approaches are used to understand and improve living systems and their environments. We educate students to excel in the field of bioengineering and carry out research, development, and commercialization of bioscience systems and tools that will improve the lives of people throughout the world. The specific Student Outcomes detailed by the Bioengineering Program are detailed below.

- a. An ability to apply knowledge of mathematics, science, and engineering.
- b. An ability to design and conduct experiments, as well as to analyze and interpret data.
- c. An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
- d. An ability to function on multidisciplinary teams.
- e. An ability to identify, formulate, and solve engineering problems.
- f. An understanding of professional and ethical responsibility.
- g. An ability to communicate effectively.
- h. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context.
- i. A recognition of the need for, and an ability to engage in lifelong learning.
- j. A knowledge of contemporary issues.
- k. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Additional Bioengineering Objectives:

1. An ability to perform measurements on and to interpret data from living systems.
2. Background knowledge to support understanding of interactions between living and non-living materials and systems.
3. An ability to apply statistics to bioengineering applications.

Admission to the Major

Students who wish to study at the A. James Clark School of Engineering apply for admission to the University of Maryland; there is no separate application for engineering. When filling out the university application, you may choose bioengineering as your intended major. You may also apply as an undecided engineering major.

All Bioengineering majors must meet admission, progress, and retention standards of the A. James Clark School of Engineering.

Please note: If you are applying to Bioengineering as a transfer student (whether you are an internal Clark School transfer, external UMD transfer, or transferring from an outside institution), then you must complete BIOE120 with a "B-" or better before you will be admitted into the department. If you wish to enroll, please send an e-mail with your UID to bioe-undergrad@umd.edu. You will be notified by e-mail when permission has been granted.

Requirements for the Major

Following is the list of the course requirements for the Bioengineering Undergraduate Program. Each student following the course template should be able to graduate in four years. Each student will meet with his/her Faculty Advisor every semester to plan the schedule of courses for the subsequent semester. Some of the students in the bioengineering program may elect to pursue professional degrees such as Medical, Dental, Law, etc., thus they may need certain courses that those professional schools require and should discuss their plans with their Faculty Advisor. Some of these courses may count as electives towards the major. Students interested in health professions may also view the requirements at www.prehealth.umd.edu.

Year 1

ENES100 - Introduction to Engineering Design

MATH140 - Calculus I

CHEM135 - Chemistry for Engineers

CHEM136 - Chemistry for Engineers Laboratory

BIOE120 - Biology for Engineers

BIOE121 - Biology for Engineers Laboratory

ENES102 - Mechanics I

MATH141 - Calculus II
 PHYS161 - General Physics I
 ENGL101 - Introduction to Writing
 General Education Requirement I
Year 2
 CHEM231 - Organic Chemistry I
 CHEM232 - Organic Chemistry I, Lab
 MATH241 - Calculus III
 BIOE241 - Biocomputational Methods
 PHYS260 - General Physics II
 PHYS261 - General Physics II, Lab
 General Education Requirement II
 MATH246 - Differential Equations
 BIOE232 - Thermodynamics
 BIOE371 Linear Algebra and ODEs for Bioengineering Applications
 Biological Science Elective I (BSCI 2xx)
 General Education Requirement III
 BIOE221 - Intro to Bioengineering Major

Year 3

BIOE331 - Biofluids
 BIOE372 - Biostatistics for experimental design and data analysis
 BSCI330 - Cell Biology and Physiology
 BIOE Foundational I
 BIOE Elective I
 BIOE340 - Modeling Physiological Systems and Laboratory
 BIOE457 - Biomedical Electronics & Instrumentation
 BIOE Foundational II
 BIOE Elective II
 General Education Requirement IV

Year 4

BIOE485 - Capstone I
 BIOE Elective III
 Breadth Elective
 General Education Requirement V
 General Education Requirement VI
 ENGL393 - Technical Writing
 BIOE486 - Capstone II
 BIOE Elective IV spring
 Biological Science Elective II
 General Education Requirement VII*
 Oral Communications Requirement

*see <http://bioe.umd.edu/undergraduate> for details on courses approved for BIOE Foundational courses and for BIOE, Biological Science, and Breadth electives

*Students are advised to take advantage of Gen Ed courses that double-count for more than one distributive studies requirement

*Please visit <http://bioe.umd.edu/undergraduate/electives> for a list of approved technical electives.

**Second benchmark requirements must be completed one year after students are reviewed for the gateway requirements and include: All 100- and 200-level MATH, PHYS and ENES courses; BIOE120, BIOE121, CHEM231, CHEM232 and BSCI330. Third benchmark requirements must be completed one year after students are reviewed for the second benchmark and include: At least one 300 level or above BIOE course; an approved biological science or engineering science technical elective; BIOE232, BIOE241 and BIOE331.

***All students must complete two Distributive Studies courses that are approved for I-series courses. The Understanding Plural Societies (UP) and Cultural Competence (CC) courses may also fulfill Distributive Studies categories.

Advising

The Fischell Department of Bioengineering is committed to student advising and aims to provide comprehensive curricular support to all of its students towards their academic success. Students will find that at various points during their academic careers, they may need a certain kind of guidance. Students may always begin by addressing their questions to bioe-undergrad@umd.edu, and we will point you in the right direction. Generally, advising is handled by one or a combination of the following: faculty advisor, departmental advisor, and/or college advisor.

Faculty Advising

All bioengineering majors are assigned to a faculty advisor. Students are required to meet with their faculty advisors at least once per semester. For currently enrolled majors, the mandatory advising period occurs in the weeks prior to registration for the next semester. The advising meeting with the faculty member generally covers the following: course selection for upcoming semester, four-year planning, and career goals. Students should prepare for every advising meeting by completing and updating the BIOE Advising Worksheet.

Freshmen will be assigned to faculty advisors and notified during their first semesters. All other students may contact bioe-undergrad@umd.edu if they are not sure who their advisor is. For faculty contact information, please see the faculty list (<http://www.bioe.umd.edu/faculty>).

Departmental Advising

Bioengineering majors and prospective transfer students may also need to meet with a departmental (staff) advisor. Some examples of departmental advising include: Benchmarks (academic progress), planning for study abroad, C.A.R.E (academic probation), double-major/double-degree planning, graduation audit (seniors), and additional help with four-year planning.

For departmental advising, please send an email including your name, UID, and general question to bioe-undergrad@umd.edu. All students seeking advising should read and make sure that they understand the policies and requirements stated in the BIOE Undergraduate Handbook (<http://www.bioe.umd.edu/undergraduate/advising/references>).

College Advising

The Clark School of Engineering's [Office of Undergraduate Advising and Academic Support \(UA&AS\)](http://www.eng.umd.edu/advising) (<http://www.eng.umd.edu/advising>) also provides a broad range of services and support for engineering students. Some policies are the oversight of the College, so your faculty or departmental advisor may at times refer you to a Clark School advisor. For example, transfer admission/transfer credit, 45-credit benchmark review, and permission to enroll at another institution are handled by the College.

Undergraduate Research Experiences

The Bioengineering Department offers a two-year research based **Bioengineering Undergraduate Honors program**. Interested students should apply to the honors program in the spring of their sophomore year. Those accepted into the program will begin research in their junior year. For more information please see: <http://www.bioe.umd.edu/undergraduate/honors>

The Maryland Center for Undergraduate Research also assists students in finding on and off campus research opportunities www.ugresearch.umd.edu.

Honors Program

The Fischell Department of Bioengineering Undergraduate Honors Program is a research-oriented, thesis-based enrichment experience that serves to augment the curriculum by providing practical, hands-on learning opportunities. The primary goal of the Honors program is to develop BIOE graduates who will be among the most competitive applicants for graduate and medical school programs, as well as industry jobs. Toward this end, the program provides exceptional undergraduate students with training in academic and professional pursuits while offering a formal mechanism to be recognized for scholarly achievements.

For more information, see <http://bioe.umd.edu/undergraduate/honors>

Applications for the Bioengineering Honors Program are accepted each spring. Students with two years remaining in their undergraduate matriculation will receive the strongest consideration, though other exceptional cases may be considered. Applications are reviewed and voted upon by the Fischell Department Undergraduate Education Committee.

- Deadline: April 30 of each year.
- Academic standing: Students with a GPA of 3.5 and higher will receive the strongest consideration, though all students with a 3.0 or higher are invited to apply.
- Application contents: Applicants must submit a personal statement (one page), a research proposal (one page), an up-to-date unofficial transcript, and a Faculty Mentor Evaluation Worksheet.

Student Societies and Professional Organizations

BMES-UMD is the University of Maryland, College Park chapter of the Biomedical Engineering Society (BMES). BMES-UMD's mission is to unite and promote the future of the biomedical engineering profession; and to offer rising biomedical engineers the chance to establish leadership, publish their work, and participate in a wide range of activities that will enhance their careers. For more information, visit <http://umd.orgsvnc.com/org/bmesumd>.

Alpha Eta Mu Beta (AEMB) is the National Biomedical Engineering Honor Society, and the University of Maryland Fischell Department of Bioengineering established its chapter in spring 2015.

Scholarships and Financial Assistance

The University and the A. James Clark School of Engineering offer a range of financial support to talented undergraduate students enrolled at the School. Offerings include the A. James Clark Endowed Scholarship fund and the Benjamin T. Rome Scholarship. Our program is competitive, with awards made on the basis of merit, financial need, and other factors. For more information on a variety of scholarships, please visit www.ursp.umd.edu

In addition, the Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, please visit www.financialaid.umd.edu

We also have several departmental annual awards and scholarships for which students may apply and be selected based on their scholastic achievements, service to the department and the profession. These award are open to juniors and seniors in the program. Information on these annual awards and scholarship may be obtained from the faculty advisors in the department.

Awards and Recognition

Fischell Dept of Bioengineering Outstanding Junior Award
 Fischell Dept of Bioengineering Outstanding Senior Award
 Fischell Dept of Bioengineering Outstanding Research Award
 Fischell Dept of Bioengineering Outstanding Leadership Award
 Fischell Dept of Bioengineering Outstanding Citizen Award
 Seymour & Faye Wolfe Scholarship: Bioengineering student
 Jeffrey C. and Sandra W. Huskamp Scholarship: Bioengineering student

Biological Sciences Program (BSCI)

College of Computer, Mathematical and Natural Sciences

1322 Symons Hall, 301-405-6892
 bsci.umd.edu
 ldalo@umd.edu

The Major

The Biological Sciences major is jointly offered by the Departments of Biology, Cell Biology & Molecular Genetics, and Entomology in the College of Computer, Mathematical, and Natural Sciences. The central Biological Sciences Program office in 1322 Symons Hall is staffed by:

Dr. Joelle Presson, Assistant Dean. jpresson@umd.edu
 Dr. Francisca Saavedra, Assistant Director. saavedra@umd.edu

Ms. Linda Dalo, ldalo@umd.edu

Departmental contacts for Biological Sciences are:

Dr. Reid Compton, Undergraduate Director Biology. compton@umd.edu
 Dr. Dave Straney, Undergraduate Director Cell Biology & Molecule Genetics. straney@umd.edu
 Dr. Brett Kent, Undergraduate Director Entomology. kent@umd.edu

All Biological Sciences majors complete a common sequence of introductory and supporting courses referred to as the Basic Program. In addition, students must complete an Advanced Program within one of the following specialization areas:

- Cell Biology & Genetics (CEBG)
- Ecology & Evolution (ECEV)
- General Biology (GENB)
- Microbiology (MICB)
- Physiology & Neurobiology (PHNB)
- Individualized Studies (BIVS)

A complete list of specialization area requirements can be found on our website, bsci.umd.edu. Note that the Individualized Studies specialization (BIVS) requires permission of the Assistant Dean of Undergraduate Academic Programs, and involves an approved proposal to do coursework in the College and in other disciplines. Further questions about Biological Sciences can be directed to the Undergraduate Academic Program Office at 301-405-6892.

Biological Sciences at the University of Maryland at Shady Grove

The Biological Sciences Program at the University of Maryland offers a degree program at Universities at Shady Grove. The Biological Sciences Program at Shady Grove offers the Advanced Program courses normally taken in the junior and senior years. More information is available at: bsci.umd.edu/shady-grove/.

Program Learning Outcomes

1. Students should have mastered the critical knowledge at each level in the curriculum that is necessary to move on to the next level in the curriculum.
2. Students should demonstrate an ability to use and apply quantitative methods, especially: interpretation of graphical or tabular data; expression of physical, chemical, or biological process in mathematical form; solving equations to determine the value of physical, chemical, or biological variables.
3. Students at the lower level should demonstrate an ability to carry out key experimental techniques used in the chemical and life sciences disciplines.
4. Students at the lower level should have a basic understanding of how to express questions as a hypothesis, how to design a test of a hypothesis, and how to gather and analyze simple data.
5. Students at the upper level should be able to integrate and apply a relevant body of basic knowledge to the evaluation of existing scientific studies and to design studies to test specific hypotheses that includes design elements typically found in a specific field of the chemical and life sciences.
6. Students should effectively communicate in writing the processes of science and the results of scientific inquiry.

Academic Programs and Departmental Facilities

In addition to offering high quality undergraduate specializations in the Biological Sciences, the BSCI program participates in the collaborative program in secondary teaching, Terrapin Teachers, terrapinteachers.umd.edu. This program allows students to develop their expertise at communicating science to diverse audiences and provides a path toward certification to teach secondary school science or math.

Admission to the Major

The Biological Sciences major is a Limited Enrollment Program. Please see the admission requirements and procedures at: lep.umd.edu.

Placement in Courses

Enrollment in BSCI170&171 and BSCI160&161 requires placement into MATH130, 120, 220 or 140 (i.e. completion of MATH113 or 115).

Students who earn Advanced Placement or International Baccalaureate Placement which grants equivalency for BSCI170&171 and/or BSCI161&161 are encouraged not to repeat these courses at UMD, but can continue to courses for which BSCI170&171 and/or 160&161 satisfy prerequisite requirements.

Requirements for the Major

		Credits
	General Education Program Requirements	
	Basic Program in Biological Sciences	15
BSCI170&171	Principles of Molecular and Cellular Biology and Lab	4
BSCI160&161	Principles of Ecology and Evolution and Lab	4
BSCI207	Principles of Biology III	3
BSCI222	Principles of Genetics	4
	Supporting courses	30-32
MATH130 or	Calculus I	3
MATH140		4
MATH131 or	Calculus II	3
MATH141		4
CHEM131/132	Fundamentals of General Chemistry /Lab	4
CHEM231/232	Organic Chemistry I / Lab	4
CHEM241/242	Organic Chemistry II / Lab	4
CHEM271/272	Gen Chem & Energetics / Gen Bioanalytical Lab	4
PHYS131 or	Fundamentals of Physics I, or	4
PHYS141	Principles of Physics	4
PHYS132 or	Fundamentals of Physics II, or	4
PHYS142	Principles of Physics	4
	Advanced Program in Specialization Area	27
	See website for details of specialization Area requirements.	
ELECT	Electives	15-18

Advising

Advising is mandatory during each pre-registration period for all Biological Sciences majors. All freshmen and new transfer students will be assigned an advisor from the College of Computer, Mathematical, and Natural Sciences Student Services advising staff. Students will be assigned to a departmental faculty advisor once a basic sequence of courses has been successfully completed. The departmental faculty advisors are coordinated by the following persons for the indicated specialization areas. These coordinating advising offices can be contacted for making appointments with an advisor or for any other information regarding that specialization area.

Straney	1225 H.J. Patterson	301-405-2766	CEBG,GENB,MICB
Compton	2227 Biology-Psychology	301-405-6904	ECEV, PHNB
Kent	3142 Plant Sciences	301-405-3911	GENB
Presson	1322 Symons Hall	301-405-6892	BIVS, Secondary Education Terrapin Teachers, Science in the Evening

Undergraduate Research Experiences

Laboratory research, fieldwork, and internships are valuable co-curricular experiences which add value to a student's academic experience in CMNS disciplines. We encourage students to pursue one or more of these experiences during their undergraduate studies. Please see the College website (<http://cmns.umd.edu/undergraduate/research-internships>) for more information about experiential learning for CMNS undergraduates.

Internships

See <http://cmns.umd.edu/undergraduate/research-internships>.

Honors Program

Outstanding students are encouraged to apply to departmental Honors Programs. Through the Honors Programs students will become actively involved in the ongoing scientific research at the university. Information about these honors programs may be obtained from the Undergraduate Academic Programs Office, 1322 Symons Hall, 301-405-6892.

Student Societies and Professional Organizations

Biological Sciences student representatives serve on the CMNS Student Advisory Board. For more information see <http://cmns.umd.edu/sab>.

Biology (BIOL)

College of Computer, Mathematical, & Natural Sciences

2227 Biology-Psychology Building, 301.405.6904

<http://biology.umd.edu/>

bioundergrad@umd.edu

Chair: W. Fagan (Prof)

Professors: G. Borgia, C. Carr, M. Colombini, M. Dudash, C. Fenster, W. Jeffery, T. Kocher, K. Lips, R. Payne, E. Quinlan, M. Rankin, M. Reaka, J. Simon, S. Sukharev, S. Via, G. Wilkinson

Associate Professors: I. Ades, R. Araneda, A. Bely, D. Butts, K. Carleton, M. Cummings, E. Haag, P. Kanold, C. Machado, J. Singer, N. Swenson

Assistant Professors: H. Fisher, Q. Gaudry, P. Johnson

Lecturers: H. Bierman, R. Compton (Senior Lecturer), R. Infantino (Senior Lecturer), S. Lombardi, J. Opoku-Edusei (Senior Lecturer), B. Parent (Senior Lecturer), D. Sandstrom, H. Woodham

Professors Emeriti: G. Anastos, A. Cohen, D. Gill, W. Higgins (Assoc. Prof. Emeritus), R. Highton, D. Inouye, S. Pierce, A. Popper

The Major

The Department of Biology is committed to an integrative understanding of organisms ranging from processes occurring at the level of molecules to human impacts on global ecological scales. This integrative approach is evident in the variety of courses we offer. Courses offered by Biology focus on the function of molecules or cells (e.g., Membrane Biophysics, Mammalian Histology, Neurophysiology), on the integration of organ systems (e.g., Vertebrate Form and Function, Mammalian Physiology), on the interaction of organisms with each other and their environment (e.g. Animal Behavior, Plant Ecology, Population Ecology), on evolutionary process and diversification (e.g., Principles of Evolution), and/or on the relationship between humans and their environment (e.g., Biology of Conservation and Extinction).

In addition to a strong foundation in basic biology, our faculty provide students interested in medical careers with courses that discuss medical applications (Biology of Cancer, Diseases of the Nervous System) and evolutionary considerations. Our program has particular strengths in neuroscience, evolutionary developmental biology, and ecology. Our diverse faculty and our linkages with other institutions, such as the National Institutes of Health and the Smithsonian Institution, provide students with a wealth of research opportunities to prepare them for careers in medicine, conservation biology, public policy, education, and more.

Courses offered by this department may be found under the following acronym(s): BSCI, BIOL, CONS, NACS, and BISI.

Program Learning Outcomes

- Students will master the critical knowledge in biology relevant to the next stage in their career.
- Students will demonstrate an ability to use and apply appropriate quantitative methods in the biological sciences.
- Students will be able to critically evaluate and integrate scientific findings in the biological sciences and apply this understanding to areas of professional and public interest.
- Students will be able to effectively communicate through speaking and writing the processes of science and the results of scientific inquiry.
- Students will master experimental design and laboratory skills relevant to the next stage in their career.

Admission to the Major

The Biology Department offers undergraduate courses in the Biological Sciences Program. Biological Sciences is a limited-enrollment program. Specific information about admission requirements for the major can be found at the following link: <http://www.lep.umd.edu/cmns-lep.pdf>.

Requirements for the Major

See Biological Sciences Program elsewhere in this chapter, or contact the Department of Biology Undergraduate Office.

Other Requirements for the Major

Students receiving a degree in the Biological Sciences from the University of Maryland must earn at least 120 credits with a cumulative minimum GPA of 2.000 in all courses being counted toward the degree as well as in all courses associated with the major. Additionally, all Biological Sciences major courses must have a grade of "C-" or better.

A list of required and optional courses for both the Physiology and Neurobiology and for the Ecology and Evolution specializations, as well as model four-year plans to graduation, can be found at the following link: <http://bsci.umd.edu/major-requirements>.

Advising

Students are assigned an academic advisor on the basis of their area of specialization. The Department of Biology faculty coordinate and advise students who specialize in Physiology and Neurobiology (PHNB), Ecology and Evolution (ECEV), and the Environmental Science and Policy-Biodiversity & Conservation Biology concentration (ENSP-BIOD). Contact the Department of Biology Undergraduate Office, 301-405-6904, for information about advising or to schedule an appointment. For advising in other Biological Sciences Specialization areas, see the Biological Sciences Program listing in this catalog.

Undergraduate Research Experiences

The Biology Department offers a wealth of undergraduate research opportunities. Students doing undergraduate research with a Biology Department faculty member serving as advisor or co-advisor may sign up for credit under BSCI399 or BSCI399H or may do research on a volunteer basis. More general information on research opportunities in the Biological Sciences may be found at: <http://cmns.umd.edu/undergraduate/research-internships>.

Honors Program

The Department of Biology Honors Program offers highly motivated and academically qualified students the opportunity to work closely with a faculty mentor on an original, independent, research project. Students are required to participate in the program for at least three semesters and need not have been previously admitted to the Honors College to participate. Contact the Biology Undergraduate Office (301-405-6904) for more information.

CELL BIOLOGY AND MOLECULAR GENETICS (CEBG)

College of Computer, Mathematical, & Natural Sciences

1109 Microbiology Building, 301-405-5435

www.cbmg.umd.edu

Chair: J. Dinman (Chair)

Director: D. Straney (Assoc. Prof)

Professors: N. Allewell, N. Andrews, C. Chang, T. Cooke, J. DeStefano, C. Delwiche, N. El-Sayed, J. Feijo, T. Fuerst (Prof & Dir IBBR), S. Hutcheson, Z. Liu, R. Mariuzza (IBBR), K. McIver, D. Mosser, J. Moulton (IBBR), D. Nuss (IBBR), A. Simon, W. Song, D. Stein, H. Sze

Associate Professors: V. Briken, K. Cao, S. Hannenhalli (CBCB), V. Lee, S. Mount, R. Stewart, W. Winkler, L. Wu (IBBR)

Assistant Professors: D. Dwyer, A. Jose, S. Roy, S. Walsh (IBBR)

Senior Lecturer: P. Shields

Lecturers: J. Buchner, K. Frauworth, M. Keller, E. Moctezuma

Affiliate Professors: M. Colombini (Biol), J. Culver (AGNR), I. Hamza (AGNR), W. Jeffery (Biol), I. Mather (ANGR), D. Perez (AGNR)

Affiliate Associate Professors: I. Ades (Biol), D. Perez (AGNR), L. Pick (Ent), M. Pop (CBCB), L. Taneyhill (AGNR), S. Xiao (IBBR)

Affiliate Assistant Professors: Y. Li (BSOS)

Adjunct Professors: P. Hobart (USAMRIID), A. McBride (Adjunct Prof), B. Moss (NIH), V. Vakharia (UMBI), O. White (TIGR), R. Wickner (NIH)

Adjunct Associate Professors: E. Freed (NCI), K. Green (NIH)

Professors Emeriti: G. Bean, T. Cook (Prof Emeritus), R. Doetsch, E. Gantt (Dist Univ Prof), F. Hetrick, S. Joseph, G. Patterson, M. Pelczar, J. Reveal, B. Roberson, R. Weiner, R. Yuan

The Major

The department participates in the teaching and advising of students in the Biological Sciences Program, specifically in the Specialization Areas of Cell Biology & Genetics (CEBG), Microbiology (MICB), and General Biology (GENB). Our courses are taught in four basic areas that represent faculty research interests and expertise including:

- Cell and Developmental Biology
- Genetics and Genomics
- Microbiology, Microbial Pathogenesis and Immunology
- Plant Biology

Requirements for the Specialization Areas

See Biological Sciences Program catalog entry for more information on the degree requirements.

Admission to the Major

The BSCI major is a limited enrollment program. Please refer to the limited enrollment programs page at <http://www.lep.umd.edu/> for further information.

Requirements for the Major

See Biological Sciences Program catalog entry for more information on the degree requirements.

Advising

Advising is mandatory for certain students (freshmen, change in major, GPA of 2.5 or below). The Department in coordination with the Student Affairs Office of the College of Chemical and Life Sciences administers the advising of students in the Biological Sciences specialization areas of Microbiology, Cell Biology and Genetics, and General Biology (N-Z). Advising assignments can be found by contacting the Cell Biology and Molecular Genetics Undergraduate Program Office, 1212 H.J. Patterson Hall (301-405-2766).

Undergraduate Research Experiences

Students may participate in Department hosted research experiences in faculty laboratories or laboratories at off campus locations. Please contact the Cell Biology and Molecular Genetics Undergraduate Office (301-405-2766) for more information or see the site: <http://bsci.umd.edu/> under "Research and Internships".

Specific courses in the department that offer credit for the research are described at: <http://cbmg.umd.edu/undergraduate/undergrad-research/>
Areas of research in the CBMG department are described at: <http://cbmg.umd.edu/research-areas/> with listing of faculty and their research.

Honors Program

The Departmental Honors Program involves a long term (three semester) independent research project undertaken with a faculty advisor. Students register for BSCI378H (research) and BSCI379H (seminar) each semester. Admission is based upon GPA. Students must arrange the research opportunity prior to application. Please contact the Cell Biology and Molecular Genetics Undergraduate Office for more information or see the site: <http://cbmg.umd.edu/undergraduate/undergrad-research/undergrad-honors/>.

Student Societies and Professional Organizations

All students interested in microbiology are encouraged to join the University of Maryland Student Chapter of the American Society for Microbiology. Sigma Alpha Omicron is the honors chapter of this group. The groups meet regularly on campus. Information is available through the Undergraduate Program Office.

Awards and Recognition

The department recognizes graduating seniors with awards funded by generous donors. These are listed at <http://cbmg.umd.edu/cbmg-home/scholarships-awards/>.

Central European, Russian and Eurasian Studies (CERE)

College of Arts and Humanities

2115 Francis Scott Key Hall, 301-405-4284

www.ceres.umd.edu

dolbilov@umd.edu

Director: M. Dolbilov

Professors: J. Herf, J. Lampe, S. Mansbach, P. Murrell, J. Robinson, V. Tismaneanu

Associate Professors: M. Dolbilov, J. Kaminski, M. Lekic, C. Martin, E. Papazian, C. Schuler

Assistant Professors: E. Adler (Visit Asst Prof), S. Cameron (Asst Prof), P. Kosicki (Asst Prof), M. Landa (Asst Prof)

Lecturers: Z. Gerus-Vernola (Lecturer)

The Major

The CERES program fosters in-depth knowledge of the region stretching from Prague in the West to Vladivostok in the East. This includes three main areas: Central and Eastern Europe, Russia, and Eurasia (the newly independent states of the former Soviet Union). Our majors prepare for careers and graduate programs in which an in-depth knowledge of Russia, Central Europe, and Eurasia can be applied with great benefit, such as journalism, government service, diplomacy, business, a variety of professional schools, and M.A. and Ph.D. programs in the humanities and social sciences. Our majors take courses in a range of different departments, gaining a firm grounding in the languages, literatures, history, politics, and economics of their area of study. They have the flexibility to do coursework in other fields related to the area as well. Students learn to examine our area of study with the tools of many scholarly fields. Courses that count toward this major may be found under the following acronyms: ARTH, ECON, GEOG, GERM, GVPT, HIST, PHIL, RUSS, SOCY, THET.

Program Learning Outcomes

Having completed the multi-disciplinary degree program, students are expected to attain the following learning outcomes: 1. Students will demonstrate the ability to communicate effectively in writing in either Russian, German, or a Central/East European language (including Czech, Polish, Hungarian, Serbian and Croatian, Bulgarian, and Romanian); or in a Eurasian language (i.e., a language from a country formerly part of the Soviet Union). 2. Students will demonstrate the ability to conduct research using primary and secondary sources including archival, print and non-print, and web-based texts. 3. Students will demonstrate understanding of and sensitivity to cultural diversity by studying a variety of cultures and societies within the CERE region.

Admission to the Major

Admission is open to all interested students but should be approved in a meeting with the Director.

Placement in Courses

Placement in language courses is determined by the advisor for a given language. Before you enroll in a Russian or German language class, you must take the on-line "Foreign Language Placement Test": http://www.arhu.umd.edu/sites/default/files/arhu/undergraduate/pdf/FLPT_ONLINE.pdf. However, final

placement into the correct level will be determined by the advisor for the language you wish to study.

Requirements for the Major

Requirements for the CERES major include the College of Arts and Humanities' mandated completion of 45 upper-level credits. The College's Global Engagement Requirement will be automatically fulfilled in the process of fulfilling the CERES requirement of taking either Russian, German, or a Central/East European language (including Czech, Polish, Hungarian, Serbian and Croatian, Bulgarian, and Romanian). The language requirement may also be fulfilled by a Eurasian language (i.e., a language from a country formerly part of the Soviet Union). Those interested in fulfilling the CERES language requirement through a Central/East European or Eurasian language should consult the director upon entering the program. Students who elect the Russian language track must complete a minimum of 24 credit hours in Russian language and literature selected from among the following courses (or their equivalents):

	Credits
RUSS101 Intensive Elementary Russian I	6
RUSS102 Intensive Elementary Russian II	6
RUSS201 Intermediate Russian I	5
RUSS202 Intermediate Russian II	5
RUSS301 Advanced Russian I	3
RUSS302 Advanced Russian II	3
RUSS303 Russian Conversation: Functional Skills	3
RUSS321 Survey of Russian Literature I	3
RUSS322 Survey of Russian Literature II	3
RUSS401 Advanced Russian Composition	3
RUSS402 Practicum in Written Russian	3
RUSS403 Russian Conversation: Advanced Skills	3
RUISS404 Practicum in Spoken Russian	3

Students interested in specializing primarily on Central/Eastern Europe may opt for the German language track, and must complete a minimum of 24 credit hours in the Department of Germanic Studies from among the following courses (or their equivalents):

	Credits
GERM103 Intensive Elementary German	4
GERM203 Intensive Intermediate German	4
GERM301 Conversation and Composition I	3
GERM302 Conversation and Composition II	3

- Also accepted will be 16 credit hours of Russian or German and the equivalent of 8 credit hours of a Central/East European language.
- Fulfilling the language requirement through a Eurasian language will be decided on a case-by-case basis in consultation with the director.
- In addition to language courses, students must complete 24 hours of CERES approved courses at the 300-level or above. These 24 hours must be taken in at least four different departments (with the School of Languages, Literatures and Cultures counting as a single department), and may include language-literature courses beyond the required 24 hours. Of the 24 hours, at least 9 hours must be in courses with substantial or specific focus on Central/East Europe (for example, ARTH350 or 488C, GVPT359, 409, HIST319, 340, 443 and other special courses offered in the CERES area with the approval of the director) and at least 9 hours must be in those CERES courses with substantial or specific Russian/Eurasian focus (for example, GEOG325, GVPT445, 451, 459A, 481, HIST344, 424, 425, 442, SOCY474, THET499, and other special courses offered in the CERES area with the approval of the director).

For a full listing of this year's CERES courses, see the website www.ceres.umd.edu, and click on "Requirements."

The various cooperating departments also offer special (i.e. non-permanent) seminars and courses in the Russian, East European, and Eurasian fields. HIST237-Russian Civilization is recommended as a general introduction to the program but does not count toward the fulfillment of the program's requirements.

No course grade below the grade of "C-" may count toward the major. An overall GPA of 2.0 in the major is required for graduation.

Advising

Course selection and progress toward programmatic requirements are to be discussed individually through meetings with the CERES director.

Undergraduate Research Experiences

Students are encouraged to pursue research, internship and study abroad experiences. Such opportunities should be discussed individually with the Director.

Internships

Students are encouraged to seek off-campus internships that may be available in the greater DC-Baltimore area. Earning academic credit for such experiences should be discussed individually with the Director.

Student Societies and Professional Organizations

CERES majors are eligible for nomination to national honor societies related to their studies, including Dobro Slovo, the National Slavic Honor Society.

CHEMICAL AND BIOMOLECULAR ENGINEERING (CHBE)

A. James Clark School of Engineering

2113 Chemical and Nuclear Engineering Building, 301-405-1935

www.chbe.umd.edu

Chair: S. Ehrman

Professors: R. Adomaitis, M. Anisimov, R. Calabrese, K. Choi, S. Raghavan, E. Wachsman, W. Weigand, M. Zachariah

Associate Professors: P. Dimitrakopoulos, J. Klauda, G. Sriram, C. Wang, N. Wang

Assistant Professors: A. Karlsson, D. Liu

Affiliate Professors: M. Al-Sheikhly, W. Bentley, D. DeVoe, J. Fisher, G. Jackson, P. Kofinas, S. Lee

Adjunct Professors: V. Dwivedi (Adjunct Asst Prof), M. Klapa, C. Peters (Adjunct Prof)

Professors Emeriti: S. Greer (Affiliate Prof, Prof Emerita), T. McAvoy, T. Regan, J. Sengers, T. Smith

Visiting Faculty: G. Mulholland

The Major

Students in the Department of Chemical and Biomolecular Engineering at the University of Maryland learn to use a combination of mathematical, physical, chemical, and biological science concepts within a rigorous engineering design framework, graduating with a unique set of skills highly valued by a wide range of employers in industry, academia, and the government. The wide breadth of this profession and the Department's unique strengths in nanotechnology and biotechnology prepare our students for outstanding careers.

Because of the wide range of ultimate applications, the chemical engineer finds interesting and diverse career opportunities in such varied fields as chemical (inorganic and organic), food processing and manufacturing, metallurgical, polymer, energy conversion, environmental engineering, petroleum (refining, production, or petrochemical), and pharmaceutical industries. Additional opportunities are presented by the research and development activities of many public and private research institutes and all government agencies. Our graduates have taken jobs with companies like DuPont, ExxonMobil,

Proctor & Gamble, the Food and Drug Administration, and the Department of Defense.

On top of all the options and opportunities, chemical and biomolecular engineers have traditionally ranked at or near the top of starting salaries among all of the engineering professions!

Courses offered by this department may be found under the following acronyms: ENCH & CHBE

The Bachelor of Science degree in Chemical Engineering is accredited by the Engineering Accreditation Commission of ABET, www.abet.org, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: (410) 347-7700.

Program Objectives

- Graduates with a solid foundation in chemical engineering science fundamentals as well as a broad background in science and mathematics to equip them to enter professional and chemical engineering practice and to enter graduate study at leading universities.
- Graduates who will excel in traditional chemical engineering careers and diverse careers in areas such as biotechnology, nanotechnology, medicine, law or business.
- Graduates who are equipped with solid quantitative problem solving, teamwork, communication skills, adaptability to new technologies and a strong ethical foundation that will serve them throughout their careers.

Program Learning Outcomes

Students are expected to fully engage with the curriculum and the opportunities presented for learning and research. Having completed the degree program, students should have acquired the following knowledge and skills:

- An ability to apply knowledge of chemical engineering fundamentals to identify and solve chemical engineering problems.
- An ability to identify and solve problems in specialized areas related to chemical engineering.
- An ability to apply mathematics relevant to engineering and the physical and chemical sciences to identify and solve technical problems.
- A broad knowledge necessary to understand the impact of engineering solutions in a global and societal context.
- An ability to identify engineering problems and propose appropriate solutions.
- An ability to perform step-by-step design of engineered systems and chemical processes.
- An ability to design and conduct experiments, as well as to analyze and interpret data.
- The knowledge of computers and information technology necessary to function effectively as chemical engineers
- An awareness of safety and environmental issues as an integral part of the chemical engineering profession.
- An ability to successfully participate in teams.
- An ability to communicate effectively through oral presentations and written reports.
- An understanding of professional and ethical responsibilities
- Skills necessary for employment in a variety of positions in industry or government or for continued study in graduate or professional schools.
- An understanding of current technological issues related to chemical engineering.
- An ability to engage in structured research.
- An appreciation for excellence and diversity.
- An ability and the motivation to engage in life-long learning, and the ability to conduct research using resources beyond the undergraduate curriculum.

Requirements for the Major

IMPORTANT: This section contains requirements for incoming freshman or transfer students entering the B.S. program in Chemical and Biomolecular Engineering Fall 2010 and later. For students entering the program before Fall 2010 [see requirements here](http://www.chbe.umd.edu/undergraduate/fall2010tospring2011) (<http://www.chbe.umd.edu/undergraduate/fall2010tospring2011>).

The undergraduate program is designed to be completed in four years. It is important to follow the sample program as closely as possible, as nearly all CHBE classes are offered only once a year. All Chemical and Biomolecular Engineering students must participate in an advising session prior to registering each semester. Students are assigned a faculty advisor at the start of their first semester in the major. Questions about the undergraduate program may be sent to Kathy Lopresti at lopresti@umd.edu.

Courses appearing in bold are offered by the Department of Chemical and Biomolecular Engineering.

Freshmen Year: Fall semester

<i>Course</i>	<i>Credits</i>
ENES100 Introduction to Engineering Design	3
MATH140 Calculus I	4
CHEM135 General Chemistry for Engineers	3
CHEM136 General Chemistry for Engineers Laboratory	1
General Education	3
Total Credits	14

Freshmen Year: Spring semester

<i>Course</i>	<i>Credits</i>
ENGL101 Introduction to Writing	3
MATH141 Calculus II	4
PHYS161 General Physics: Mechanics and Particle Dynamics	3
BIOE120 Biology for Engineers	3
CHBE101 Introduction to Chemistry & Biomolecular Engineering	3
Total Credits	16

Sophomore Year: Fall semester

<i>Course</i>	<i>Credits</i>
MATH241 Calculus III	4
PHYS260 General Physics II	3
PHYS261 General Physics II Laboratory	1
CHEM231 Organic Chemistry I	3
CHEM232 Organic Chemistry Laboratory I	1

CHBE250	Computer Methods in Chemical Engineering	3
CHBE301	Chemical and Biomolecular Engineering Thermodynamics I	3
Total Credits		18

Sophomore Year: Spring semester

<i>Course</i>		<i>Credits</i>
MATH246	Differential Equations for Scientists and Engineers	3
PHYS270	General Physics III	3
PHYS271	General Physics III Laboratory	1
CHEM241	Organic Chemistry II	3
CHEM242	Organic Chemistry II Laboratory	1
CHBE302	Chemical and Biomolecular Engineering Thermodynamics II	3
	General Education	3
Total Credits		17

Junior Year: Fall Semester

<i>Course</i>		<i>Credit</i>
CHBE410	Statistics and Experimental Design	3
CHBE422	Chemical and Biomolecular Transport Phenomena I	3
CHBE440	Chemical Kinetics & Reactor Design	3
CHEM272	General Bioanalytical Chemistry Laboratory	2
ENGL393	Technical Writing	3
	General Education	3
Total Credits		17

Junior Year: Spring Semester

<i>Course</i>		<i>Credit</i>
BCHM461 or BCHM463	Biochemistry I or Biochemistry of Physiology	3
ENMA300 or ENMA425 or BIOE453	Intro to Materials and Their Applications or Introduction to Biomaterials or Biomaterials	3
CHBE424	Chemical and Biomolecular Transport Phenomena II	3
CHBE426	Chemical and Biomolecular Separation Processes	3
CHBE333	Communication Skills for Engineers	1
	General Education	3
Total Credits		16

Senior Year: Fall Semester

<i>Course</i>		<i>Credit</i>
CHBE437	Chemical & Biomolecular Engineering Lab	3
CHBE442	Chemical & Biomolecular Systems Analysis	3
CHBE444	Process Engineering Economics and Design I	3
TECH ELECT	Technical Elective*	3
	General Education	3
Total Credits		15

Senior Year: Spring Semester

<i>Course</i>		<i>Credits</i>
CHBE446	Process Engineering Economics & Design II	3
TECH ELECT	Technical Elective*	3
TECH ELECT	Technical Elective*	3

General Education	3
General Education	3
Total Credits	15

Technical Elective list of approved courses: <http://www.chbe.umd.edu/undergraduate/current>

Degree Credits: 128 credits and fulfillment of all departmental, college, and university requirements with a cumulative grade point average of 2.

Advising

All students choosing Chemical and Biomolecular Engineering as their primary field must see their assigned undergraduate advisor each semester. Please contact Kathy Gardinier (Lopresti) at 301-405-5888 or lopresti@umd.edu for your assigned advisor information.

Undergraduate Research Experiences

A unique aspect of the Department's undergraduate program is its high level of students' participation in cutting-edge research. Approximately half of our students graduate with significant lab experience and most find it to be one of the high points of their undergraduate education.

Honors Program

The A. James Clark School of Engineering hosts a chapter of the Omega Chi Epsilon National Honor Society for chemical engineering, as well as a chapter of the engineering honor society, Tau Beta Pi.

Student Societies and Professional Organizations

Students operate a campus student chapter of the professional organization, the American Institute of Chemical Engineers. Omega Chi Epsilon is the honorary Chemical Engineering Society. OXE is our Honors Society.

Scholarships and Financial Assistance

Financial aid based upon need is available through the Office of Student Financial Aid. A number of scholarships are available through the A. James Clark School of Engineering. The department offers opportunities for research and other part-time employment.

Awards and Recognition

Annual awards are given to recognize scholarship and outstanding service to the Department, College, and University.

CHEMISTRY AND BIOCHEMISTRY (CHEM, BCHM)

College of Computer, Mathematical & Natural Sciences

0107H Chemistry Building, 301-405-1788

www.chem.umd.edu

chem-web@umd.edu

Chair: J. Reutt-Robey

Professors: M. Alexander, D. Beckett, N. Blough, J. Davis, P. DeShong, B. Eichhorn, D. Falvey, C. Fenselau, J. Fourkas, D. Fushman, O. Herzberg, L. Isaacs, C. Jarzynski, S. Lee, G. Lorimer, A. Mignerey, A. Mullin, J. Ondov, J. Orban, G. Papoian, R. Salawitch, L. Sita, A. Vedernikov, W. Walters, L. Wang, J. Weeks, M. Zachariah

Associate Professors: T. Dayie, D. Julin, J. Kahn, N. LaRonde-LeBlanc, C. Lee, Y. Wang

Assistant Professors: Z. Nie, P. Paukstelis, E. Rodriguez

Senior Lecturer: B. Dixon, M. Montague-Smith

Lecturers: C. Addei-Maanu, C. Capp, L. Friedman, E. Griffith, M. Koppel, L. Stocker, E. Stone, B. Walters, N. White

Affiliate Professors: N. Allewell, M. Colombini, R. Dickerson, J. Dinman, W. McDonough, S. Raghavan, E. Williams, W. Winkler

Adjunct Professors: P. Dagdigan, M. Doyle, L. Locascio, J. Marino, E. Mazzola, B. Nikoobakht, S. Rokita

Associate Research Scientist: K. Gaskell

Assistant Research Scientist: R. Singh

Assistant Research Professor: J. Klos

Professors Emeriti: J. Bellama, H. DeVoe, D. Freeman, S. Greer, S. Grim, J. Hansen, G. Helz, J. Huheey, B. Jarvis, P. Mazzocchi, G. Miller, T. O'Haver, J. Tossell

The Major

The study of molecular and atomic properties and interactions that encompass Chemistry and Biochemistry are central to many scientific disciplines including biology, geology, astronomy, environmental science, materials science and numerous others. Chemistry and Biochemistry majors continue to graduate or professional school, and obtain employment as educators and technical scientists. Courses offered by this department may be found under the following acronyms: BCHM, CHEM

Admission to the Major

Chemistry and Biochemistry are part of a Limited Enrollment program (LEP) within the College of Computer, Mathematical, and Natural Sciences (CMNS).

Current UMCP students who wish to declare in CHEM or BCHM must complete a series of gateway courses (CHEM146/177 (or CHEM131/132), CHEM237 (or CHEM231/232), and MATH140 and MATH141) prior to applying to the program. Information is available at: <http://www.lep.umd.edu>

Placement in Courses

Enrollment in CHEM131/132 or CHEM146/177 requires placement in calculus (MATH120 or MATH220 or MATH130 or MATH140).

Requirements for the Major

Note: The lower-level courses offered by the Department of Chemistry and Biochemistry changed starting in the Fall 2013 semester. The lower-level requirements for chemistry and biochemistry majors are reflected in the requirements listed below. For details, contact the Undergraduate Office or visit the undergraduate section of the Department's website.

Chemistry Majors

All required chemistry and biochemistry courses must be passed with a minimum grade of "C-". Required supporting courses, including BSCI170&171, must be passed with a 2.0 grade point average.

	Required Courses	Credits
	Principles of General Chemistry /	
CHEM146/177	Introduction to Laboratory Practices and	5
	Research in the Chemical Sciences	
CHEM237	Principles of Organic Chemistry I	4
CHEM247	Principles of Organic Chemistry II	4
CHEM276/277	General Chemistry and Energetics(Majors)	5
	/ Lab	

CHEM395	Professional Issues in Chemistry and Biochemistry	1
CHEM425	Instrumental Methods of Analysis	4
CHEM481/483	Physical Chemistry I / Lab	5
ENGL101	Introduction to Writing	3
UNIV100	The Student in the University	1
Supporting Courses		
BSCI170&171	Principles of Molecular and Cellular Biology and Lab	4
PHYS141/142	Principles of Physics	8
MATH140	Calculus I	4
MATH141	Calculus II	4
<i>NOTE: All majors and potential majors are encouraged to take MATH241-Calculus III (4) prior to beginning Physical Chemistry.</i>		

Departmental Requirements		
	Lower level courses	18
	Supporting courses	20
	Upper level courses	24
	<i>must include:</i>	
CHEM401	Inorganic Chemistry	3
CHEM482/484	Physical Chemistry II / Lab	5
ELECT UL	approved upper level CHEM/BCHM courses	6

In order to meet requirements for a degree approved by the American Chemical Society (ACS), students must complete a specific set of courses in addition to this curriculum. Information about ACS certification can be obtained in the undergraduate office.

Biochemistry Majors

All required chemistry, biochemistry, and upper-level biological sciences courses must be passed with a minimum grade of "C-". Required supporting courses, including BSCI170&171, must be passed with a 2.0 grade point average.

		Credits
Required Courses		
CHEM146/177	Principles of General Chemistry / Introduction to Laboratory Practices and Research in the Chemical Sciences	5
CHEM237	Principles of Organic Chemistry I	4
CHEM247	Principles of Organic Chemistry II	4
CHEM276/277	General Chemistry and Energetics - Majors / Lab	5
CHEM395	Professional Issues in Chemistry and Biochemistry	1
CHEM425	Instrumental Methods of Analysis	4
CHEM481/483	Physical Chemistry I / Lab	5
ENGL101	Introduction to Writing	3
UNIV100	The Student in the University	1
Supporting Courses		
BSCI170&171	Principles of Molecular and Cellular Biology and Lab	4
PHYS141/142	Principles of Physics	8
MATH140	Calculus I	4
MATH141	Calculus II	4
<i>NOTE: All majors and potential majors are encouraged to take MATH241-Calculus III (4) prior to beginning Physical Chemistry.</i>		
Departmental Requirements		
	Lower level courses	18
	Supporting courses	20
	Upper level courses	25
	<i>must include:</i>	
BCHM461	Biochemistry I	3
BCHM462	Biochemistry II	3
BCHM464	Biochemistry Laboratory	3
BCHM465	Biochemistry III	3
BCHM485	Physical Biochemistry	3
	approved biological science courses	6

* Specific information about course requirements can be obtained in the undergraduate office.

* Students who enroll in the chemistry or biochemistry program at any time following the first semester of study typically will complete all or part of the non-majors introductory sequence (CHEM131,132, 231/232, 241/242 and 271/272; CHEM132, 232, 242 and 272 are co-requisite laboratory courses). In this situation, completion of an additional approved upper level CHEM or BCHM course may be required to fulfill the lower-level departmental major requirements. Transfer students who wish to pursue chemistry or biochemistry majors will have their previous chemistry course work carefully evaluated for placement in the appropriate courses.

Other Requirements for the Major

Information about and requirements of the CHEM and BCHM majors can be found

at: <http://www.chem.umd.edu/undergraduateprogram/currentstudents/program-information-for-chemistry-and-biochemistry-majors/>.

Advising

There is mandatory advising for all Chemistry and Biochemistry majors each semester. Advising appointments can be made by contacting the undergraduate office, 1206 Chemistry Building, 301-405-1791.

Honors Program

Students with a GPA of 3.0 or better who have completed at least two semesters of CHEM399 (Introduction to Chemical Research) have an opportunity to sign up for CHEM398 (Honors Research) in their senior year and be considered for departmental honors. After successful completion of a senior honors thesis and seminar, graduation with honors or with high honors in chemistry or biochemistry can be attained.

Student Societies and Professional Organizations

Alpha Chi Sigma Chemistry Fraternity is a professional fraternity which recruits men and women students from chemistry, biochemistry, and related science majors during each fall and spring semester. The fraternity holds weekly meetings and provides tutoring for students in lower-level chemistry courses. The office is in Room 2106A Chemistry Building. Dr. Joseph Houck is the faculty advisor (Room 1102 Chemistry Building, 301-405-9289).

The student affiliate program of the American Chemical Society (SA-ACS) is designed to introduce students in chemistry, biochemistry and related fields to a variety of professional activities. Student affiliates will gain skills and make contacts aimed at launching a successful career in science. Activities include networking and meeting with professionals, attending national meetings, and participating in public outreach programs. Affiliates also receive subscriptions to Chemical & Engineering News, the undergraduate career magazine, *in Chemistry*, as well as gaining on-line access to announcements regarding job and intern opportunities. The student affiliate office is located in Room 2112A of the Chemistry Building.

Scholarships and Financial Assistance

The Department awards several scholarships to undergraduate majors with financial need and outstanding academic records, including the Isidore and Annie Adler Scholarship, the Leidy Foundation Scholarship, the G. Forrest Woods Scholarship, the James H. & Patricia H. Rich Scholarship, the Bruce Jarvis Scholarship, the Francesco Barone Scholarship, and the James Stewart Scholarship. Scholarship amounts are contingent on available funds and some may be divided among multiple awardees. Any given scholarship is not necessarily awarded every year. There is no application process; all declared chemistry and biochemistry majors are automatically reviewed annually by the Departmental Awards Committee. The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Chinese (CHIN)

College of Arts and Humanities

2106 Jiménez Hall, 301-405-4025

www.chinese.umd.edu

Associate Professors: A. Schonebaum, M. Zhou

Assistant Professors: S. Hashimoto

Lecturers: M. Kong (Senior Lecturer), J. Lee-Heitz (Senior Lecturer), Y. Wang

Visiting Faculty: G. Hu (Visiting Assistant Professor)

The Major

The Chinese major (CHIN) provides the training and cultural background needed for entering East Asia-related careers in such fields as higher education, the arts, business, government, international relations, agriculture, or the media. Students may also consider a double major in Chinese and another discipline such as business, government and politics, economics, or journalism. Chinese students have the option of applying to live in St. Mary's Hall (Language House) and participating in a study abroad program.

Placement in Courses

<http://www.arhu.umd.edu/undergraduate/flpa>

Requirements for the Major

As of Fall 2007, the Chinese major requires 39 credits: 18 of language and 18 of non-language electives, as described below.

I. Language requirements. 18 credits of Chinese language at the 200 level or above. Students placing into the program at higher levels should reach at least the level of CHIN302 or CHIN306 but may substitute non-language courses on China-related subjects for some of these 18 credits. (The final decision on what substitute courses may be used for the major rests with the Chinese Program and Chinese Advisor.) Language courses accepted for the major include:

CHIN201/202	Intermediate Spoken Chinese I and Intermediate Written Chinese I (must be taken and passed together)
CHIN203/204	Intermediate Spoken Chinese II and Intermediate Written Chinese II (must be taken together and passed together)
CHIN301	Advanced Chinese I
CHIN302	Advanced Chinese II
CHIN305	Life in China through TV Plays I
CHIN306	Life in China through TV Plays II
CHIN401	Readings in Modern Chinese I
CHIN402	Readings in Modern Chinese II
CHIN418A	Special Topics in Contemporary Chinese Fiction and Film: Sex and the City: Literary and Filmic Representations of Women (taught in Chinese)
CHIN418B	Special Topics in Contemporary Chinese Fiction and Film: The Representation of Youth (taught in Chinese)
CHIN441	Traditional Chinese Fiction (taught in Chinese)
CHIN442	Modern Chinese Fiction (taught in Chinese)

II. Literature. 3 credits of Chinese literature at 300 level or above. Courses accepted include:

CHIN314	Chinese Fiction and Drama in Translation
CHIN315	Modern Chinese Literature in Translation
CHIN316	Traditional Chinese Values

CHIN418A	Special Topics in Contemporary Chinese Fiction and Film: Sex and the City: Literary and Filmic Representations of Women (taught in Chinese)
CHIN418B	Special Topics in Contemporary Chinese Fiction and Film: The Representation of Youth (taught in Chinese)
CHIN442	Modern Chinese Fiction

III. Linguistics. CHIN307 and 3 credits of Chinese linguistics at 300 level or above. Courses accepted include:

CHIN421	Sounds and Transcriptions of Mandarin Chinese
CHIN422	Advanced Chinese Grammar
CHIN423	Chinese Historical Phonology
CHIN424	Linguistics of the Chinese Writing System
CHIN428	Selected Topics in Chinese Linguistics
EALL300	The Languages of East Asia

IV. History/Civilization. 6 credits of Chinese history/civilization offered by other departments. Courses accepted include, but are not limited to:

EALL310	Asian Culture and the Sinosphere
HIST284	East Asian Civilization I
HIST285	East Asian Civilization II
HIST480	History of Traditional China
HIST481	A History of Modern China

"Special Topics" and "Colloquium" courses (those with variable numbers, ending in 8 or 9 and followed by a letter) may be acceptable depending on the actual title and content of the course at the time it is offered. The final determination is in the hands of the Chinese Program and the Chinese advisor.

Electives. 6 credits of electives at 300 level or above, subject to the advisor's approval. In addition to all the specific courses listed under "Non-language Requirements" above, language courses and independent study may also be used toward this requirement.

Students must earn a grade of "C-" or higher in each course applied toward a major or minor in the School of Languages, Literatures, and Cultures. Additionally, an overall GPA of 2.0 in a major or minor is required for graduation.

Study Abroad

For information on study abroad programs see the program advisor and/or the Education Abroad website www.international.umd.edu/studyabroad.

Requirements for the Minor

Chinese Language

School of Languages, Literatures, and Cultures (SLLC)

www.chinese.umd.edu

The 15-credit minor in Chinese language will provide students with a sophisticated understanding of Chinese linguistic knowledge and an upper-level Chinese language skill. Students attempting this minor will need a strong background in Chinese at the level of Chinese 101 and CHIN102/103, which are prerequisites for some of the required courses. This minor will be of particular relevance to students with broad interest in learning Chinese language. Students interested in taking this minor program should contact the Chinese advisor in the Department of Asian and East European Languages and Literatures of the School of Languages, Literatures, and Cultures.

Requirements

A: Four 3-credit language courses from among the following - **12 credits**

CHIN201	Intermediate Spoken Chinese I
CHIN202	Intermediate Written Chinese I
CHIN203	Intermediate Spoken Chinese II
CHIN204	Intermediate Written Chinese II
CHIN205	Intermediate Chinese - Accelerated Track
CHIN207	Linguistic Resources for Students of Chinese
CHIN301	Advanced Chinese I
CHIN302	Advanced Chinese II
CHIN305	Life in China through TV Plays I
CHIN306	Life in China through TV Plays II
CHIN321	Classical Chinese I
CHIN322	Classical Chinese II
CHIN401	Readings in Modern Chinese I
CHIN402	Readings in Modern Chinese II
CHIN408	Classical Chinese II
CHIN411	Business Chinese I
CHIN412	Business Chinese II
CHIN413	Advanced Conversation and Composition
CHIN415	Readings in Current Newspapers and Periodicals
CHIN431	Translation and Interpretation I
CHIN432	Translation and Interpretation II
CHIN441	Traditional Chinese Fiction
CHIN442	Modern Chinese Fiction

B: One 3-credit linguistics-oriented course from the following - **3 credits**

CHIN421	Sounds and Transcriptions of Mandarin Chinese
CHIN422	Advanced Chinese Grammar
CHIN423	Chinese Historical Phonology
CHIN424	Linguistics of the Chinese Writing System
CHIN428	Selected Topics in Chinese Linguistics

- The course CHIN 331 "Chinese Calligraphy: Theory and Practice" may not be used for the Chinese major or minor.
- Students must receive a "C-" or better in all courses used for the minor. 9 of the 15 credits must be upper-level courses.
- An overall GPA of 2.0 in the minor is required for graduation.
- No more than six of the fifteen credits toward the minor may be taken at an institution other than UMCP.

To make an appointment to explore or declare a minor, go to <http://www.arhu.umd.edu/undergraduate/academics/minors>

Undergraduate Research Experiences

The School of Languages, Literatures, and Cultures has implemented an Annual SLLC Undergraduate Research Forum which allows its outstanding Juniors

and/or Seniors to display their research projects. The Forum takes place in late April in the Language House (St. Mary's).

Internships

Annual Language Career and Internship Fair

Each fall semester, SLLC organizes a Language Career and Internship Fair in conjunction with the UMD Career Center. For more information see the SLLC website: <http://www.sllc.umd.edu/>.

Co-op Programs

Language Partner Program (LPP)

The Language Partner Program is a joint venture between the School of Languages, Literatures, and Cultures, the Office of International Services, and Education Abroad. International students are paired with SLLC majors to meet weekly on a one-on-one basis outside the classroom and work in an informal, yet structured, way on the listening, speaking, and cultural acquisition skills of SLLC majors. SLLC students in good academic standing (3.0 GPA) and at the intermediate to advanced level sign up for a 1cr SLLC309 - Language Partner Program.

Student Societies and Professional Organizations

Individual SLLC departments hold annual induction ceremonies for students who are eligible for honor society membership.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state, and institutional financial assistance programs, and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

The UG Committee organizes an annual awards ceremony to celebrate SLLC students who have earned SLLC, campus and/or national scholarships, and academic achievement awards. The awards ceremony takes place in conjunction with the annual SLLC UG Research Forum.

Civil and Environmental Engineering (ENCE)

A. James Clark School of Engineering

1173 Engineering Classroom Building, 301-405-7768

www.cee.umd.edu

Chair: C. Schwartz

Professors: M. Aggour, A. Amde, A. Aydilek, B. Ayyub, G. Baecher, G. Chang, A. Davis, S. Gabriel, A. Haghani, R. McCuen, E. Miller-Hooks, P. Schonfeld, M.

Skibniewski, A. Torrents, Y. Zhang

Associate Professors: M. Austin, K. Brubaker, P. Chang, C. Cirillo, Q. Cui, D. Goulias, D. Lovell, L. Zhang

Assistant Professors: B. Forman, B. Kjellerup, B. Phillips

Instructors: N. Andrade

Affiliate Professors: J. Gansler, B. Golden, E. Kalnay, M. Ruth

Professors Emeriti: P. Albrecht, F. Birkner, J. Colville, B. Donaldson, O. Hao, R. Ragan, D. Schelling, Y. Sternberg, D. Vannoy, M. Witzak

The Major

The B.S. degree requires a total of 122 credit hours with emphasis in basic science (mathematics, chemistry, and physics), engineering science (mechanics of materials, statics, and dynamics), and basic civil and environmental engineering core courses (computations, materials, fluid mechanics, probability & statistics, and Geographic Information Systems). By the Junior year, each student chooses one of three tracks: Geotechnical and Structural Engineering, Environmental and Water Resources, or Transportation/ Project Management. Each track specifies junior- and senior-level requirements. All three tracks include technical electives that may be selected from a combination of the six Civil Engineering specialties and other approved courses (the six specialty areas are: Environmental, Geotechnical, Project Management, Structural, Transportation, and Water Resources). The curriculum provides a sensible blend of required courses and electives, permitting students to pursue their interests without the risk of overspecialization.

The Bachelor of Science degree in Civil and Environmental Engineering is accredited by the Engineering Accreditation Commission of ABET, www.abet.org, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: (410) 347-7700.

Program Objectives

The mission of the Department is threefold:

1. Provide a high quality, challenging education that encompasses breadth and depth; and prepare graduates to be proficient in both analysis and synthesis facets of civil engineering design;
2. Maintain a strong research program that is recognized for excellence in major areas of civil and environmental engineering;
3. Provide service to the University, the civil engineering profession, and the community at large.

The Department provides an educational program of basic and specialized engineering knowledge necessary for its graduates to be proficient in recognized specialties of civil engineering. This preparation provides graduates with the tools needed for successful practice in the period following graduation. In addition to general and technical education, the educational program stresses professional and ethical responsibilities, an awareness of societal issues, and the need for life-long learning.

The Department contributes to the advancement of knowledge through research on important engineering problems. The research results are communicated through recognized channels of knowledge dissemination.

The Department serves the needs of the community by emphasizing global and societal issues. The Department addresses these issues through University and professional channels and contributes to their solutions.

The Department, building upon the above mission, established three program educational objectives:

1. Prepare our graduates for competent professional practice within civil engineering related industries of Maryland and the mid-Atlantic region.
2. Create a cadre of graduates with the breadth of interests and skills to take on challenging new areas of engineering practice.
3. Instill in our graduates a recognition of the importance of continuing professional development.

Program Education Objectives

The faculty of the Department of Civil Engineering has established the following Program Educational Objectives:

- To understand, apply and develop fundamental knowledge in science, technology, engineering and mathematics.
- To attain advanced qualification in both specialization and breadth.
- To understand and apply business sensitive criteria in meeting professional responsibilities.
- To incorporate societally sensitive criteria into professional decisions.
- To develop forward-thinking attitudes that enhance communication and exemplary practice.

Decisions are to be based on assessments of the quality of our graduates and alumni, feedback from employers of our graduates, and self- assessment of the faculty and program in meeting our objectives and learning outcomes goals.

Program Learning Outcomes

Student Outcomes

In addition to ensuring technical competency of all graduates in the broad discipline areas of civil engineering, the Department must encourage the development of skills and abilities that will enhance the marketability of its graduates and provide them with the best possible opportunity for success in the work place. As a result, the faculty has agreed to develop the following abilities and skills within each graduate and has approved the following Student Outcomes:

- Technical competence in mathematics, physical science, and engineering science
- Technical competence in basic civil engineering sciences
- Technical competence in at least one major area of specialization within civil and environmental engineering
- Ability to use computers, software, and experimentation as tools to solve engineering problems
- Ability to communicate and defend ideas effectively, including oral, written, and technical reports writing skills
- Ability to identify engineering problems and propose alternate solutions, including the step-by-step analysis and design of a system, component, or process
- Teamwork skills as applied to interdisciplinary design projects
- Understanding and appreciation of both the societal context of the civil engineering profession, and the ethical responsibilities of practicing engineers
- Appreciation of the need to seek further specialization within civil engineering and commit to life-long learning
- Awareness of the impact of technology and engineering on society, including life safety and environmental issues
- Interest in contemporary issues, both nationally and internationally, and the awareness of the impact of engineering in these areas
- Understanding of the importance of active participation in professional societies and the organizations in professional practice

Admission to the Major

See the entrance requirements for the A. James Clark School of Engineering in the Colleges and Schools section of this site.

Requirements for the Major

The Department offers a program of study leading to an ABET-accredited Bachelor of Science in Civil Engineering (BSCE) degree. Each student specializes in one of three tracks: Infrastructure Engineering (Structural and Geotechnical), Environmental and Water Resources Engineering, or Transportation Systems and Project Management. A total of 122 credit hours (123 for the Environmental and Water Resources Track) are required for a BSCE degree with emphasis in basic science (mathematics, chemistry, and physics), engineering science (mechanics of materials, statics, and dynamics), basic civil and environmental engineering courses; required courses in the selected track; technical electives; and a senior capstone design course. The curriculum provides a sensible blend of required courses and electives, permitting students to pursue their interests without the risk of overspecialization.

		Credits	
		First Semester	Second Semester
Freshman Year (All Civil & Environmental Engineering)			
MATH140	Calculus I	4	
MATH141	Calculus II		4
CHEM135	General Chemistry for Engineers	3	
ENES100	Introduction to Engineering Design (**can be taken first or second semester)	**3	
ENES102	Mechanics I (**can be taken first or second semester)		**3
ENGL101	Introduction to Writing	3	
PHYS161	General Physics		3
ENCE100	Introduction to Civil & Environmental Engineering	1	
	General Education Program Requirements		6
	Total	14	16

		Credits	
		First Semester	Second Semester
Sophomore Year (All Civil & Environmental Engineering)			
MATH241	Calculus III	4

Minimum Degree Requirements: 122 credits and the fulfillment of all departmental, school, and university requirements with a cumulative grade point average of at least 2.0. Additional semester credits will be involved to the extent that courses carrying more than three credits are selected.

+**ENCE 466**, Design of Civil Engineering Systems, may only be taken in the semester in which the student graduates.E

ENCE ELECTIVES*For all tracts:**

- 3XX, 4XX or 6XX. At least two must be ENCE courses
- No more than one ENCE489
- No more than 3 total ENCE with the same first two numbers

Breadth Electives

Geotechnical/Structure Track will include two electives from:

ENCE370,402,422,423,470,472 -- **OR**--
ENCE310,411,412,431,432

Transportation/Project Management Track will include two electives from:

ENCE340, 353, 441, 444, 454 -- **OR** --
ENCE 310, 411, 412, 431, 432

Environmental/Water Resources Track will include two electives from:

ENCE 340, 353, 441, 444, 454 -- **OR** --
 ENCE 320, 370, 402, 423, 470, 472

Advising

Advising

All Civil and Environmental Engineering majors are advised by the following department faculty and staff:

1. Dr. Dimitrios Goulias, Director Undergraduate Program (0147A Glenn L. Martin Hall, dgoulias@umd.edu, 301-405-2624).

Professor Goulias, i) advises juniors and seniors in the Geotechnical & Structural Engineering track, and/or Infrastructure track, and ii) addresses key academic and curriculum issues for all civil engineering students.

2. Alan Santos, Director of Undergraduate Student Services, 1173A Glenn L. Martin Hall, asantos@umd.edu, 301-405-1977.

Mr. Santos, advises i) all freshmen and sophomore, and ii) juniors and seniors in the Environmental & Water Resource and Transportation / Project Management Tracks.

Undergraduate Research Experiences

Department faculty frequently have research opportunities for undergraduate students. Students are encouraged to contact faculty members whose research specialties are of interest. For further information, students are encouraged to contact the Department advisors.

Internships

Career fairs are organized regularly throughout the academic years by the American Society of Civil Engineers (ASCE) (<http://www.ascemaryland.org/>) and the Chi Epsilon student chapters, and the Engineering Co-op & Career Services office.

Co-op Programs

Several excellent co-op opportunities are available for Civil and Environmental Engineering students. See the A. James Clark School of Engineering entry in Chapter 6 of this catalog for a full description of the Engineering co-op program.

Honors Program

See the A. James Clark School of Engineering Honors Program.

Student Societies and Professional Organizations

- American Society of Civil Engineers
- Chi Epsilon Civil Engineering Honor Society (by invitation)
- Engineers Without Borders
- ITS Student Chapter

Scholarships and Financial Assistance

The Department of Civil and Environmental Engineering awards a number of academic scholarships. These awards are designated primarily for junior and senior students and are listed on the Department web site <http://www.cee.umd.edu/undergrad/awards>. The Department evaluates applications each year. See the School of Engineering web site for further information and application instructions.

Awards and Recognition

The Department of Civil and Environmental Engineering assigns awards to students for excellence in academics, leadership and service. The awards are listed in the Department web site: <http://www.cee.umd.edu/undergrad/awards>.

Classical Languages and Literature (CLAS)

College of Arts and Humanities

1210 Marie Mount Hall, 301-405-2013 or -2014

www.classics.umd.edu

Chair: L. Doherty

Professors: L. Doherty, J. Hallett (Distinguished Scholar-Teacher), G. Staley

Associate Professors: E. Adler

Assistant Professors: F. Barrenechea, J. Bravo

Lecturers: M. Pittas-Herschbach

Affiliate Professors: J. Burton

Affiliate Associate Professors: J. Scholten

Professors Emeriti: H. Lee, S. Rutledge (Assoc Prof Emeritus), E. Stehle

Visiting Faculty: P. Parara (Visit Asst Prof)

The Major

Courses offered by this department may be found under the following acronym(s): CLAS, LATN, and GREK.

Classics is the study of ancient Greek and Roman culture in all its aspects. Greek and Roman culture provided the foundation of western culture, including its literature, ideas, art, politics, and conceptions of the individual. Greek myth is still a shared fund of images and narratives that express human experience. Latin is a major source of English vocabulary, and Greek provides technical language in many fields. Classics explores all of these aspects through over fifteen hundred years of history. It helps us understand the relationship of western culture to other cultural systems and situate ourselves better in the world.

Classics is an intellectually rich and versatile liberal arts major which teaches core skills, including effective communication, critical thinking, and an appreciation of diversity. Because it is interdisciplinary and holistic, a student of classics gets a three-dimensional view of cultures and literatures that are still major forces today. Studying Athenian democracy and the Roman Republic sharpens understanding of competing philosophical and political ideas.

Studying Latin not only develops English vocabulary, but makes English grammar comprehensible. Both languages provide excellent analytic training and Classics students score among the top in the Analytic Writing section of the GRE exams.

Classics is a pre-professional major for law school or for graduate school in any aspect of the ancient world. Classics majors have also gone on to medical school and library school. Latin teachers are in demand and numerous students have found rewarding jobs teaching secondary school, with continued involvement in the Classics community. Others have gone into business or gotten jobs in (among other fields) professional writing or editing, archival work, academic administration, information technology, or social services.

Program Objectives

Classics provides students with a liberal arts education: skills in written and oral use of language, close reading, critical thinking, and the appreciation of art, literature, and culture. The core subject matter of Classics consists of the Greek and Latin languages, the texts originally written in these languages, and the art and material culture of the peoples who spoke them. The program also studies the reception of these works in modern times and their relevance to us today.

Program Learning Outcomes

Having completed the degree program, students should have acquired the following knowledge and skills:

1. Students must demonstrate the ability to interpret the cultural context of primary sources through a variety of methodological approaches.
2. Majors who take Latin and Greek are expected to demonstrate some level of language proficiency.
 - Latin majors must be able to read and translate Latin at the advanced level.
 - Latin and Greek majors must be able to read and translate either Latin or Greek at the advanced level and the other language at the intermediate level.
 - Classical Humanities majors must be able to demonstrate the ability to assess Classical texts in translation, or primary evidence, through a variety of methodological approaches at the advanced level.

Academic Programs and Departmental Facilities

The Classics Department has its own Classics library as well as a Classics Club for its undergraduate students. It conducts annual study abroad programs in Italy, Greece, and France. These programs abroad are open to non-majors as well as to Classics majors and minors. We also host a chapter of the national Classics honor society, Eta Sigma Phi; students are invited to join when they reach the 300 level in either Latin or Greek with a B+ average in the language courses and a B average overall.

Admission to the Major

Admission to the major simply requires a meeting with the undergraduate advisor. No prior knowledge of Latin or Greek is required.

Placement in Courses

Students with a score of 4 or 5 in the AP Latin test receive credit for LATN201 (4 credits) and may not take LATN201 or lower for credit. For further information, and for placement in Latin or Greek courses, contact the department's undergraduate advisor. We do not yet have online placement exams for these languages but can place you based on our assessment of your previous course work. We offer four partial tuition scholarships each year to students who took Latin in high school and who continue their studies at UMCP.

Requirements for the Major

Requirements for the Classics major include the College of Arts and Humanities requirement of 45 upper-level credits completed.

The College's Global Engagement Requirement will be automatically fulfilled in the process of taking language courses in the Latin, Greek, and Latin and Greek tracks of the major. Students in the Classical Humanities track who elect to study Latin or Greek to the intermediate level (LATN201 or GREK201) will also satisfy the Global Engagement Requirement.

No course grade below the grade of "C-" may count toward the major. An overall GPA of 2.0 in the major is required for graduation.

Credits		
Option A: Latin		
LATN	Courses at the 200/300 level	18
LATN	Courses at the 400 level or higher	12
	Supporting courses	9-12
<i>Any level CLAS, GREK, or related fields such as HIST and ARTH</i>		
Option B: Greek		
GREK	Courses at the 200/300 level	18
GREK	Courses at the 400 level or higher	12
	Supporting courses	9-12
<i>Any level CLAS, LATN, or related fields such as HIST and ARTH</i>		
Option C: Latin and Greek		
LATN	Latin courses	18
GREK	Greek courses*	12
OR		
GREK	Greek courses	18
LATN	Latin courses*	12
AND		
	Supporting Courses	9

For example, CLAS170, HIST110, and a 300- or 400-level course in Greek or Roman history

**Students with no previous training in the second language may count introductory level courses as part of the 12-hour requirement.*

Option D: Classics in Translation (Classical Humanities)

I. Foundation Courses - 12 credits at the 100-200 level, at least 6 of which must be in Classics (CLAS courses).*

*The introductory Latin or Greek sequence (101, 102, and 201), if taken at College Park, fulfills this requirement. If LATN120 and 201 are taken at College Park, only one additional course at the 100-200 level is required. If no language is taken, four courses in English translation, including at least two in Classics, are required. Students who are capable of working at a higher level may request departmental approval to substitute upper-level courses for some of the introductory credits.

II. Advanced Courses - eight courses at the 300-level or above, of which four must be in Classics and one must be CLAS409X (capstone seminar), to be taken in the junior or senior year. As a special exception, either LATN201 or GREK201, intermediate Latin or Greek, may be counted as one of the advanced courses. Students are still required to fulfill the ARHU requirement of 45 300-400 level credits.

Other Requirements for the Major

Students in the Classical Humanities track should work with their advisor to craft a meaningful set of courses with a focus on some particular aspect of the classical world, such as myth and religion, literature in its historical context, visual and material culture, or classical reception.

Requirements for the Minor

No course grade below the grade of "C-" may count toward the minor. An overall GPA of 2.0 in the minor is required for graduation.

Archaeology

The interdisciplinary minor in Archaeology is intended to introduce students to the global importance of archaeology and its value as a mode of scholarly inquiry.

The minor requires a minimum of 15 credits and consists of three elements:

1. A required 3-credit, 300-level course, Archaeological Methods and Practice, cross-listed as ANTH305, CLAS305, and ARTH305, to be offered once each year. There is a one-course prerequisite, to be chosen from among the following: ANTH240, CLAS180, ARTH200.
2. 3 to 6 credits in approved courses offering fieldwork experience. There are many options at UMCP, including historical archaeology courses in ANTH that do not require travel abroad. Study-abroad programs at other institutions must be approved in advance by a UMCP faculty member with the appropriate specialization.
3. 6 to 9 credits in supporting courses involving subject matter that includes a significant focus on archaeology (in, e.g., ARCH, ANTH, ARTH, CLAS, HIST, JWST, LARC, RELS). A list of approved courses will be made available to students interested in the minor. The list will be updated as course offerings change.

Advising will be coordinated in any given year by the faculty member who is teaching the required, cross-listed course. Contact Prof. Lillian Doherty in the Classics Department for information.

As required for all minors, at least 9 credits overall must be in courses at the 300- or 400-level. The grade point average in the minor must be at least 2.0 and no grade below "C-" can be counted toward the minor. A maximum of 6 credits may be counted toward both the minor and the student's major. A maximum of 6 credits earned at other institutions may be counted toward the minor.

Classical Mythology

This minor will introduce students to classical mythology, its uses within ancient Greek and Roman culture, and its subsequent influence on art and literature. The minor requires 15 credits.

Required courses:

CLAS170 Greek and Roman Mythology (3)
CLAS470 Approaches to Greek Myth (3)

In addition, the student must choose three courses from the following list, two of which must be at the 300- or 400-level:

CLAS270 Greek Literature in Translation (3)
CLAS271 Roman Literature in Translation (3)
CLAS320 Women in Classical Antiquity (3)
CLAS330 Ancient Greek Religion: Gods, Myths, Temples (3)
CLAS331 Ancient Roman Religion: From Jupiter to Jesus (3)
CLAS370 Classical Myths in America (3)
CLAS374 Greek Tragedy in Translation (3)
CLAS419 The Classical Tradition (3)

Students interested in pursuing this minor should consult with the Undergraduate Advisor in the Department of Classics.

Latin

This minor introduces students to the Latin language and enables them to read, in Latin, important works of Latin literature. For students with no prior experience of Latin, the minor requires 21 credits, consisting of the following courses:

Latin101 Elementary Latin I (4)
Latin102 Elementary Latin II (4)
Latin201 Intermediate Latin (4)
Latin3xx Two reading courses chosen from the following: Plautus, Petronius, Ovid or Horace and Catullus (6)
Latin4xx A reading course in a major Latin author (3)

Students who enter with advanced standing in Latin can complete the minor by taking a total of five courses in Latin at the 200-level and beyond.

Students interested in pursuing this minor should consult with the Undergraduate Advisor in the Department of Classics.

Greek Language and Culture

This minor may be earned in EITHER the ancient or the modern Greek language (not a combination). In completing it, the student will reach an

intermediate or advanced level of proficiency in the language and will also be introduced to the history and culture of Greece.

The minor requires 9 to 15 credits in ancient OR modern Greek language courses, i.e., courses with the GREK prefix; at least one language course must be at the 300- or 400-level. All the language courses counted toward the minor must be in either ancient OR modern Greek, not a combination.

The minor also requires 3 to 6 credits in courses taught in English; these may focus on either ancient or modern Greek literature, history, and culture.

As required for all minors, at least 9 credits overall must be in courses at the 300- or 400-level. The grade point average in the minor must be at least 2.0 and no grade below "C-" can be counted toward the minor. A maximum of 6 credits may be counted toward both the minor and the student's major. A maximum of 6 credits earned at other institutions may be counted toward the minor.

To make an appointment to explore or declare a minor, contact the department chair, Dr. Lillian Doherty (ldoherty@umd.edu). She will put you in touch with the undergraduate director in Classics.

Advising

Departmental advising is mandatory for all majors every semester and is recommended for those seeking minors.

Undergraduate Research Experiences

The major culminates in a Capstone Course, in which students develop and present research which has grown out of their work in the field. Majors are encouraged to participate in undergraduate research conferences locally and nationally. The Department enables students to become involved in summer research opportunities and encourages all majors to seek internships.

Fieldwork Opportunities

Classics students have the opportunity to participate in summer archaeological fieldwork through our department and others in the university. Students may also pursue an interdisciplinary minor in archaeology. Contact Prof. Jorge Bravo (jbravo@umd.edu) or Prof. Lillian Doherty (L.Doherty@umd.edu) for further information.

Internships

All Classics majors are encouraged to seek internships and there are many opportunities to do so in the Washington area.

Honors Program

Many Classics majors participate in the Honors Humanities program at the university.

Student Societies and Professional Organizations

Eta Sigma Phi is the national undergraduate Honor Society in Classics founded in 1914 at the University of Chicago. The University of Maryland's chapter, Zeta Nu, was established in 1994. Students are invited to join in the spring semester. To qualify, a student must be registered in a 300- or 400-level Greek or Latin course, must have at least a "B+" average in all language courses, and an overall GPA of "B" or better. Students can submit abstracts for papers to be presented at regional and national Classics conferences. They can also join the Society for Classical Studies, which is the national classics professional organization, and the Classical Association of the Atlantic States, which is our regional classical organization.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state, and institutional financial assistance programs, and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

The Classics Department awards a number of special scholarships and awards, some reserved for Classics majors and others awarded to them in preference.

For Classics majors only: The Avery Prize is awarded annually to a Latin student of special merit and the Hubbe Prize to a Greek student of special merit.

The Mildred Steyer Undergraduate Scholarship is awarded to an outstanding major in Classics. The Odyssey scholarships support students who study abroad and other student needs. To honor the memory of Sylvia Gerber, who taught Latin for many years in the Washington, DC public schools, her son Louis has provided the department with funding to support the training of Latin teachers and Latin pedagogical studies, including an undergraduate award for an aspiring Latin teacher.

Thanks to a generous grant from the National Italian American Foundation, the department now offers a number of full or partial scholarships for its winter term and early summer study abroad programs in Italy. These scholarships are awarded by preference to students majoring in Classics and related fields. Summer scholarship money is also available through this grant for student research on the influence of ancient Roman culture in America.

Awards and Recognition

Outstanding students in Greek and Latin are invited to join Eta Sigma Phi, the national undergraduate Honor Society in Classics (see Student Societies and Professional Organizations above).

The department also annually awards the Avery Prize for excellence in Latin, the Hubbe Prize for excellence in Greek, and the Steyer and Gerber Scholarships (see Scholarships and Financial Assistance above).

Communication (COMM)

College of Arts and Humanities

Chair: S. Parry-Giles

Director: L. Waks (Director, Senior Lecturer)

Professors: S. Parry-Giles, T. Parry-Giles, A. Wolvin

Associate Professors: D. Hample, S. Khamis, B. Liu, K. Maddux, X. Nan

Assistant Professors: L. Anderson, N. Joyce, A. Seate, E. Sommerfeldt, A. Westcott-Baker, M. Yang

Lecturers: S. Bae, R. Coleman, L. Edelstein, L. Gordon, J. Gowin, P. Grant, J. Hoffman, S. Hubbard, K. Lamb, S. Rubin, S. Simon, J. Tenney, J. Vandenbosch

Affiliate Professors: L. Aldoorj, J. Fahnestock (ENGL), M. Gelfand (PSYC), A. Kruglanski (PSYC), Y. Peri (Prof & Dir), D. Rosenfelt (WMST)

Affiliate Associate Professors: S. McDaniel (KNES)

Professors Emeriti: E. Fink, R. Gaines, J. Grunig, L. Grunig, J. Klumpp

Visiting Faculty: K. Kendall (Res Prof, Visit Prof)

The Major

Communication takes as its subject matter the history, processes, and effects of human communication through speech and its extensions. The departmental curriculum is designed to provide a liberal education in the arts and sciences of human communication as well as preparation for career opportunities in business, government, education, law, and related fields. Students pursue academic programs that emphasize many disciplinary areas, including intercultural communication, political communication, public relations, negotiation and conflict management, cognition and persuasion, rhetorical theory, risk communication, history of rhetoric, and criticism of public discourse. Departmental advising is mandatory for new majors, second semester sophomores, and seniors.

Program Learning Outcomes

Upon completion of the degree program in Communication, students should be able to demonstrate the following knowledge and skills:

1. An ability to distinguish among a variety of theoretical approaches in the communication discipline and use them appropriately and effectively in academic and professional work.
2. An ability to conduct research and write research reports employing social scientific and/or humanistic approaches in the communication discipline.
3. An ability to argue clearly and effectively in a speech.

Academic Programs and Departmental Facilities

The Center for Political Communication and Civic Leadership unites research, education, and public engagement to foster democratic communication by a diverse people. See: www.comm.center.umd.edu. The Center for Health and Risk Communication (CHRC) advances dialogue and understanding about communication's role in controlling and preventing risk, how publics perceive risk communication, and about the political, economic, and social contexts for risk communication. Scholars associated with the CHRC examine health, food safety, security, and environmental risks. See: www.healthriskcenter.umd.edu. The Department's Oral Communication Center is designed to provide one-on-one tutoring and instructional support to further students' oral communication skills and confidence. The Oral Communication Center is equipped with cameras and recording equipment to tape speeches and presentations for practice and critique.

Admission to the Major

First-time Freshman

All first-time freshmen who designate Communication as a major prior to the end of the final exam period of their first semester will be admitted directly to the program. They must sign a Memorandum of Understanding that states that they understand that by the semester in which they attain 45 University of Maryland credits (excluding AP), they must meet the following Gateway requirements:

- a. Complete one of the following courses with a grade of "C-" or better: BMGT230, CCJS200, EDMS451, PSYC200, SOCY201, STAT100, or equivalent.
- b. Complete COMM107, COMM 200, or COMM230 with a grade of "C-" or better
- c. Complete COMM250 with a grade of "C-" or better and
- d. A GPA of 2.0 or better

Students may repeat only one of the Gateway requirements and that requirement may be repeated only once in their attempt to meet the requirements. Students who fail to meet the Gateway requirements by the semester in which they attain 45 credits will be dismissed from the program and cannot reapply.

Transfer Students

Internal and external transfer students who meet the Gateway requirements specified above must also have a cumulative GPA of 2.70 in all college-level coursework to apply to the program.

Appeals

All students may appeal admission decisions. Students directly admitted as freshmen, who are dismissed because of failure to meet Gateway requirements or a failure to be in good academic standing at 45 credits, may appeal directly to the Undergraduate Director in the Department of Communication. All other students who are denied admission may appeal to the University's Office of Undergraduate Admissions.

Requirements for the Major

The course of study for a Communication major must satisfy all of the following requirements:

		Credits
COMM107	Oral Communication: Principles and Practices, OR	3
COMM200	Critical Thinking and Speaking, OR	3
COMM230	Argumentation and Debate	3
COMM250	Introduction to Communication Inquiry	3
COMM400	Research Methods in Communication	3
COMM401	Interpreting Strategic Discourse	3
Completion of one of the following tracks:		
Social Influence Track		
COMM402	Communication Theory and Process	3
	<i>Five from:</i>	15
COMM420	Theories of Group Discussion	
COMM424	Communication in Complex Organizations	
COMM425	Negotiation and Conflict Management	
COMM426	Conflict Management	
COMM435	Theories of Interpersonal Communication	
COMM470	Listening	
COMM475	Persuasion	
COMM477	Discourse Analysis	
COMM482	Intercultural Communications	
COMM	COMM Elective	3
COMM UL	Upper Level COMM Elective	3
	<i>One Statistical Analysis from:</i>	3 - 4
PSYC200	Statistical Methods in Psychology	
SOCY201	Introductory Statistics for Sociology	
BMGT230	Business Statistics	
EDMS451	Introduction to Educational Statistics	
STAT100	Elementary Statistics and Probability (or an equivalent course - see advisor)	
	<i>One Structural Analysis of Language from:</i>	3
LING200	Introductory Linguistics	
HESP120	Introduction to Linguistics	
ANTH380	Culture and Discourse (or an equivalent course - see advisor)	

COURSESXX	Courses related to Social Influence in one department other than COMM	9
Communication Studies Track		
COMM402	Communication Theory and Process	3
	<i>One from:</i>	3
COMM420	Theories of Group Discussion	
COMM424	Communication in Complex Organizations	
COMM425	Negotiation and Conflict Management	
COMM426	Conflict Management	
COMM435	Theories of Interpersonal Communication	
COMM470	Listening	
COMM475	Persuasion	
COMM477	Discourse Analysis	
COMM482	Intercultural Communications	
	<i>One from:</i>	3
COMM330	Argumentation and Public Policy	
COMM360	The Rhetoric of Black America	
COMM450	Ancient and Medieval Rhetorical Theory	
COMM451	Renaissance & Modern Rhetoric Theory	
COMM453	The Power of Discourse in American Life	
COMM455	Speechwriting	
COMM460	Public Life in American Communities, 1634-1900	
COMM461	Voices of Public Leadership in the Twentieth Century	
COMM469	The Discourse of Social Movements	
COMM471	Public Communication Campaigns	
COMM476	Language, Communication, and Action	
COMM	COMM Elective	3
COMM300/400	Upper Level COMM Electives	12
	<i>One Statistical Analysis from:</i>	3-4

COURSEXXX	Courses related to Rhetoric and Political Culture in one department other than COMM	9

Notes:

- Because the Department's curriculum changes over time, the Department's Undergraduate Director may approve other appropriate Communication courses to meet the requirements for each track.
- Courses required for the Communication major, but taken outside COMM, may be used to satisfy general education requirements.
- Only 3 credits of COMM386 may apply toward the major.
- No course grade below the grade of "C-" may count toward the major.
- An overall GPA of 2.0 in the major is required for graduation.

Requirements for the Minor

Rhetoric is the theory of persuasive communication, both written and spoken. The minor in Rhetoric has been designed for students who want to know the principles and skills of practical persuasion in its varied contexts. The program will be of value for all students wishing to improve their writing and speaking skills and especially useful for those students who plan careers in business, management, law, government, and education. The minor in Rhetoric is an interdisciplinary program offered through the cooperation of the Department of English and the Department of Communication.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/undergraduate/academics/minors.

Fifteen semester hours of coursework are required:

- Six semester hours from the course list in Rhetorical Theory and Analysis of Discourse
- Six semester hours from the course list in Writing and Speaking Skills
- Three semester hours in electives from either section of the Rhetoric Course List
- At least nine of the fifteen semester hours must be at the 300-level or higher (including at least six hours at the University of Maryland, College Park)
- No more than six of the fifteen semester hours may be taken at an institution other than the University of Maryland, College Park
- No more than six of the fifteen semester hours may count toward the student's major, supporting courses, and college requirements
- No course from the student's major department may count toward the minor
- No course used to satisfy a Fundamental Studies requirement may count toward the minor
- No course used to satisfy the requirements of another minor may count toward the rhetoric minor.
- No course grade below the grade of "C-" may count toward the minor
- An overall GPA of 2.0 in the minor is required for graduation.

Entering the Minor:

Students wishing to pursue the minor should review the requirements above, make tentative selections of courses below to satisfy these requirements, and meet with one of the advisers below. The earliest possible meeting to draft a list of courses is recommended. Students must then officially declare the minor in Rhetoric.

Current course lists for the minor in Rhetoric can be found at:

www.comm.umd.edu/rhetoricminor.html

Minor Advisors:

Michelle Murray Yang
Department of Communication
2114 Skinner Building
mmurray@umd.edu
301-405-0873

Michael Israel
Department of English
3126 Tawes Hall
israel@umd.edu
301-405-2816

Advising

Advising is available throughout the year in 2101D Skinner Building. Students should check Testudo (<http://testudo.umd.edu/>) for their registration date and for any mandatory advising blocks. Advising questions can be sent to commadvising@umd.edu or you may call 301-405-0862.

Undergraduate Research Experiences

Research experiences include assisting on faculty research projects, participating in special team research projects, and working with the department's Center for Political Communication and Civic Leadership and/or the Center for Health and Risk Communication.

Internships

The department's internship program helps communication majors gain professional experience, build a professional portfolio, and take the first steps toward a career. The department structures its internship program around a course, COMM386: *Experiential Learning*, which is offered each school term.

Honors Program

The Honors Program provides students with an opportunity for intensive study of Communication. The program provides participants with opportunities to deepen their understanding of the discipline through supervised research with faculty, graduate-level coursework, and involvement in the intellectual life of the department.

Students interested in the Honors Program apply for the program, ordinarily during the second semester of the sophomore year, or, the first semester of the junior year. The application is filed with the Undergraduate Director. Students should have the following qualifications:

- An overall GPA of 3.3 or above.
-

- Completion of nine semester hours in Communication including COMM250.
- GPA of 3.5 or above in Communication.

Student Societies and Professional Organizations

Social and academic activities are available to students by participating in the following student organizations: the Undergraduate Communication Association, the Lambda Pi Eta Honor Society, and the Maryland chapter of the Public Relations Student Society of America.

Scholarships and Financial Assistance

The department offers the June Dowler Buteau Scholarship to a freshman student who exhibits academic excellence.

Computer Engineering (ENCP)

Affiliate Assistant Professors: Y. Chen

Professors Emeriti: D. Barbe, L. Davisson, N. De Claris, F. Emad, N. Farvardin, R. Harger, P. Ho, C. Lee, P. Ligomenides, J. Melngailis, J. Orloff, M. Peckerar, J.

Pugsley, M. Reiser, M. Rhee, C. Striffler, L. Taylor, S. Tretter, K. Zaki

The Major

The computer engineering major combines the strengths of both the Department of Electrical and Computer Engineering and the Department of Computer Science to prepare students for careers in the computer industry. The program encompasses the study of hardware, software, and systems questions that arise in the design, development, and application of computers and embedded systems. Specifically, computer engineering students will have a knowledge of hardware systems (electrical networks, electronics, and VLSI); a knowledge of software systems (algorithms, data structures, and operating systems); and a knowledge of how these two domains interact (digital logic, signal and system theory, computer architectural and performance analysis). Computer Engineering students will learn about everything that goes into digital and computing systems, from solid state physics to CMOS VLSI design, to computer architecture to programming, and from operating systems to compiler and language theory. Courses offered by this department may be found under the following acronym: ENEE and CMSC.

The Bachelor of Science degree in Computer Engineering is accredited by the Engineering Accreditation Commission of ABET, www.abet.org, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: (410) 347-7700.

Program Objectives

Broadly stated, the Program Objectives (PEOs) for the undergraduate major in computer engineering pertain to the accomplishments and performance of our students 3-5 years after graduation. These objectives are determined in consultation with the various constituencies of the computer engineering program and agreed upon and approved by a consensus of the faculty.

1. Technical Accomplishments

Have our graduates establish a reputation for technical expertise and excellence among colleagues and achieve professional recognition for their work, in graduate or professional school and/or the technical workforce.

2. Invention, Innovation & Creativity

Have our graduates utilize their skills and resourcefulness to invent, design and realize novel technology; to find creative and innovative solutions to engineering problems; and to identify, research and solve new technical challenges in computer engineering and related fields.

3. Professional Development

Have our graduates stay abreast of emerging technologies, continually learn new skills, and actively participate in professional communities to nourish ever-developing careers.

4. Professionalism & Citizenship

Have our graduates embrace cultural, societal, environmental, and ethical issues in their work to help fulfill their professional responsibilities to themselves, employers, employees, co-workers, and the local and global communities.

5. Communication & Teamwork

Have our graduates excel on multidisciplinary and multicultural teams, demonstrate leadership, and effectively employ their oral and written communication skills to resolve problems and inform, educate and persuade diverse audiences.

Program Learning Outcomes

A comprehensive set of Student Learning Outcomes (SLOs) has been derived from the Program Educational Objectives (PEOs). These SLOs comprise the knowledge and skills all Computer Engineering students are expected to possess by the time they graduate so the PEOs can be accomplished. The SLOs are:

1. Broad Foundation

Ability to apply relevant mathematical, scientific, and basic engineering knowledge.

2. Disciplinary Foundation

Ability to apply core electrical engineering technical knowledge.

3. Laboratory

Ability to employ standard experimental techniques to generate and analyze data as well as use state-of-the-art software and instrumentation to solve electrical engineering problems.

4. Design

Ability to engage in the creative design process through the integration and application of diverse technical knowledge and expertise to meet customer needs and address social issues.

5. Communication Skills

Ability to communicate effectively both through oral presentations and the written word.

6. Interpersonal Skills

Ability to interact professionally with others in the workplace, to engage effectively in teamwork, and to function productively on multidisciplinary group projects.

7. Engineering Ethics

Ability to explain an engineer's responsibilities to employers, society, and their fellow engineers as well as an ability to recognize potential and actual ethical problems, analyze critically those situations, and formulate sound ethical decisions.

8. Engineering Society

Ability to explain the symbiotic relationship between engineering and society specifically, how engineering artifacts are shaped by and incorporate human values as well as the ways in which engineering solutions impact society and the larger social obligations this entails for engineers.

9. Life-long Learning

Skills necessary to engage in life-long learning and an understanding of the need to continually exploit those skills in refining and updating one's knowledge base.

Educational Opportunities

In addition to the Student Learning Outcomes which apply to all CP students, there exist various other educational opportunities which qualified and motivated students may choose to take advantage of. The most important of these include:

10. Research

Ability to formulate and answer empirical and theoretical questions through participation in undergraduate research projects for interested and qualified students.

11. Leadership

Awareness of the need for engineering leaders both within the profession and the larger community, as well as some preparation to assume those leadership roles.

12. Entrepreneurship

Knowledge of the technology entrepreneurship process and business skills to be able to work effectively as employers of leaders of technology startup ventures, industrial firms, or government.

Admission to the Major

Admission requirements for the Computer Engineering major are determined by the A. James Clark School of Engineering. See Chapter 6 for the Clark School admission requirements. For details on the University's requirements and general admission procedures, please see Chapter 1.

Requirements for the Major

As in all engineering degrees, the student starts out with a core curriculum in mathematics and basic science. Subsequent years of study involve courses covering a balanced mixture of hardware, software, hardware-software trade-offs, and basic modeling techniques used to represent the computing process. Courses covering algorithms, data structures, digital systems, computer organization and architecture, software and hardware design and testing, operating systems, and programming languages will be included. Elective courses must include electrical engineering and computer science courses and technical courses outside the departments. *Students must earn a grade of "C-" or higher in all engineering, mathematics, and science courses as well as the prerequisites for these courses.* A sample program is shown below.

		Credits	Credits
	Freshman Year	First Sem	Second Sem
	General Education**	3	3
CHEM135	General Chemistry for Engineers	3	
PHYS161	General Physics		3
MATH140/141	Calculus I / Calculus II	4	4
CMSC132*	Object Oriented Programming II		4
ENES100	Intro. to Engineering Design	3	
	Total Credits	13	14

	Sophomore Year++		
	General Education**		3
MATH246	Differential Equations		3
CMSC216	Introduction to Computer Systems	4	
CMSC250	Discrete Structure	4	
CMSC330	Organization of Programming Languages		3
PHYS260/261	General Physics II with Lab	4	
ENEE222	Elements of Discrete Signal Analysis		4
ENEE200**	Social & Ethical Dimensions of ECE Technology	3	
ENEE205	Electric Circuits		4
ENEE245	Fund. Digital Circuits & Systems Lab	2	
	Total Credits	17	17

	Junior Year		
	General Education**	3	
CMSC351	Algorithms		3
CMSC412	Operating Systems		4
ENEE303	Analog and Digital Electronics	3	
ENEE307	Electronics Circuits Design Lab	2	
ENEE322	Signal and System Theory	3	
ENEE324	Engineering Probability		3
ENEE350	Computer Organization	3	
ENEE446	Computer Design		3
	Total Credits	14	13

Senior Year			
ELECTIVE	General Education**	3	3
	Computer Engineering Technical Electives	12	10
	ENGL393 Technical Writing		3
Total Credits		15	16

++ Effective with the Fall 2010 freshmen admit class, students will be required to follow the new curriculum above. Students enrolled prior to Fall 2010 or students enrolled in parallel programs at other 2 and 4 year institutions should follow the old requirements. However, records will be reviewed when necessary on an individual basis during the phase in/out period, and adjustments made in degree requirements.

* Students may need to take CMSC131, Object Oriented Programming I, or the computer science exemption exam before taking CMSC132.

** Note: Please see www.4yearplans.umd.edu

Technical Elective Requirements

Effective Spring 2010, all BSCP graduates must distribute their 22 credits of technical electives among the following course categories:

	Credits
Category A Mathematics and Basic Science Electives	minimum of 6
Category B Computer Science Theory and Applications	minimum of 3
Category C Electrical Engineering Theory and Applications	minimum of 3
Category D Advanced Laboratory	minimum of 2
Category E Capstone Design	minimum of 3
Category F General Technical Electives	minimum of 3

Please read carefully, and make a note of the following special cases and other items:

1. General Technical Electives. They may be any upper-level course (300 level or higher) from the math, engineering, and basic science disciplines whose courses start with the following prefixes and who do not appear on the list of unacceptable courses available from the Undergraduate Studies Office: AMSC, BCHM, BIOE, BSCI, CHEM, CMSC, ENAE, ENCE, ENCH, ENEE, ENES, ENFP, ENMA, ENME, ENNU, ENRE, MATH, PHYS, and STAT. Students may use upper level course (300 level or higher) whose prefix is not given in the list above, assuming they received approval to use such courses and the following conditions are met: (i) a student selects two or more such courses which are closely related by a theme and (ii) the student demonstrates how these courses complement their professional goals. The most up-to-date list of approved and unacceptable courses will always be available from the Undergraduate Studies Office and on the ECE website.
2. Two credits of ENEE499, Senior Projects in Electrical and Computer Engineering, may be used to satisfy the Advanced Laboratory requirement subject to approval by the faculty supervisor and the Associate Chair. The maximum number of ENEE499 credits that may be applied towards EE technical elective requirements is five.
3. Additional Capstone Design courses can be used as substitutes for the required Electrical Engineering Theory and Applications course, and/or the required Advanced Laboratory course, provided one of the following is completed: ENEE408A, 408B or 408C.
4. If you have any questions on how these requirements affect your current selection of technical electives, please contact an advisor.

Advising

All ECE faculty members provide mentoring for undergraduate students and every student is assigned a mentor starting their first semester in the major. Additional advising is provided by the Associate Chair for Undergraduate Education and the professional advising staff of ECE Undergraduate Studies Office. Departmental permission is required in order for students to register and for all courses in the major. The Department's Undergraduate Studies Office (2426 A.V. Williams Building, 301-405-3685) is the primary point of contact for undergraduates with advising questions and detailed curriculum requirements, registration information, and advising and mentoring procedures can be found on the ECE Undergraduate Advising website: <http://www.ece.umd.edu/undergrad/advising>.

Undergraduate Research Experiences

The Department of Electrical and Computer Engineering is affiliated with more than 40 specialized laboratories, supporting activities including: speech and image processing, high performance systems, mobile computing and multimedia, communication networks, robotics, control systems, neural systems, systems integration, VLSI design and testing, experimental software engineering, semiconductor materials and devices, photonics, fiber optics, ion beam lithography, real-time systems, human-computer interaction, and virtual reality. Undergraduate students are encouraged to engage in research at some point during their education. Active participation in research not only allows students to apply what they have learned in class, it also gives them greater insight into a specific area within ECE and an appreciation for the subtleties and difficulties associated with the production of knowledge and fundamental new applications. Research experience also prepares students for the demands of graduate school and the work force. Information on participating in undergraduate research can be found at <http://www.ece.umd.edu/undergrad/courses/400-level/enee499>. The ECE department also offers unique summer research programs. The Maryland Engineering Research Internship Team program offers research opportunities for top undergraduates from across the country interested in using computer engineering skills and tools to address important biosystems applications. The Transportation Electrification (<http://reu.ece.umd.edu/>) program offers research opportunities for students interested in sustainable transportation systems, particularly in power electronics, energy storage (battery, ultracapacitor and fuel cell), optimization and mathematical modeling of grid-integrated vehicles, and sustainable transportation.

Internships

Information on internships can be found at www.coop.eng.umd.edu. Other internships are advertised through the ECE Department's Office of External Relations and Office of Undergraduate Studies.

Co-op Programs

Participation in a Cooperative Education Program or internship with private industry or a government agency is strongly encouraged. See the A. James Clark School of Engineering catalog entry for details.

Honors Program

The Electrical and Computer Engineering Honors Program (<http://www.ece.umd.edu/undergrad/honors>) is intended to provide a more challenging and rewarding undergraduate experience for students pursuing the baccalaureate in Electrical or Computer Engineering. The program requires students to complete honors versions of four junior level electrical engineering courses and a research project during the senior year. Students completing all program requirements with a "B" average (3.0 on a 4.0 scale) and a cumulative GPA of 3.0 for all undergraduate work will have their participation noted on their B.S. diploma. Students with the necessary academic qualifications are invited to enroll typically after the completion of their sophomore year.

Student Societies and Professional Organizations

The ECE Department has an active student chapter of the Institute of Electrical and Electronics Engineers (IEEE). Information and instructions for joining can be found on their website (<http://umd.orgsync.com/org/ieee/home>). Equally active is the Gamma Xi chapter of Eta Kappa Nu honor society which is dedicated to recognizing excellence in electrical and computer engineering. Information on eligibility can be obtained by visiting their website (<http://ece.umd.edu/hkn/>). The ECE Undergraduate Student Council (USC) represents the entire ECE undergraduate student body. The ECE-USC hosts undergraduate social events, provides feedback to the Department, and oversees the ECE undergraduate student lounge. For more details visit the ECE-USC website (www.ece.umd.edu/eceusc/). Additionally, there is also a program for Women in Electrical and Computer Engineering (WECE) and a group called the Leaders in ECE, who serve as our ambassadors, give insight to new and prospective students, and participate in departmental events such as our "International Day" when we celebrate the cultural diversity of the students and faculty in our department.

Scholarships and Financial Assistance

Several scholarships are administered through the department and many others through the Clark School of Engineering. To be considered for these awards, students must submit an application by May 31st of each year for the following academic year. For more information visit: www.ursp.umd.edu/scholarships/index.html.

In addition, the Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

The Department of Electrical and Computer Engineering offers the following awards: 1. Outstanding academic performance award presented to a junior for academic excellence; 2. Service Award to the graduating senior who has shown a commitment of service to fellow students; and 3. Chair's Award for outstanding academic performance to a graduating senior.

Job Opportunities

Computer engineers were primarily responsible for the recent revolutions in the music, telecommunications and medical device industries. They remain at the forefront of cutting edge developments and innovations in nanotechnology, robotics, and other technologies. Electrical engineers also have wide ranging employment opportunities in other fields including electronics, microelectronics, communications and signal processing, power systems, electrophysics, computer architecture, circuits, and control systems. Specific jobs include developing fiber optic technology, lasers for biomedical applications, software for robots, electronic weapons systems, advanced wireless networks, and neuron-like sensors for various applications.

Comparative Literature Program (CMLT)

College of Arts and Humanities

2116 Tawes Hall, 301-405-3839

www.cmlt.umd.edu

Chair: A. Bailey

Director: S. Jelen

Professors: M. Collins (English), S. Ray (English), B. Richardson (English), O. Wang (English)

Associate Professors: H. Baer (German), R. Bauer (English), C. Eades (French), S. Jelen (English and Jewish Studies), Z. Nunes (English), R. Ontiveros (English),

E. Papazian (Russian), G. Passanante (English), V. Valiavitcharska (English), E. Zakim (Jewish Studies)

Assistant Professors: L. Arsenjuk (Film), S. Balachandran Orihuela (English), O. Gaycken (English)

Lecturers: E. Robinson (English)

Affiliate Professors: W. Cohen (English), L. Doherty (Classics), J. Hallett (Classics), R. Igel (Spanish), F. Keshavarz-Karamustafa (Arabic Studies), J. Levinson (Philosophy), V. Orlando (French)

Affiliate Associate Professors: F. Carpenter (Theater), A. Frisch (French), R. Long (Spanish), M. Mason (East Asian Studies)

Affiliate Assistant Professors: V. Anisichenkova (Arabic Studies), F. Barrenechea (Classics), A. Schonebaum (Chinese)

Professors Emeriti: A. Berlin, R. Harrison, C. Peterson

Program Objectives

Courses in Comparative Literature offer students the opportunity to engage in literary and film studies outside of a single national or linguistic range. Students with expertise in/or interest in multiple languages and cultures may take courses that help them to contextualize different literary and artistic traditions within a global rubric. Courses on Literature and Global Change, World Literature by Women, Black Diaspora, Literature of the Americas, and Film Art in a Global Society, among other courses, cultivate a sense of the transnational nature of cultural production and consumption. Knowledge of a language other than English is not required.

Computer Science (CMSC)

College of Computer, Mathematical and Physical Sciences

1119 A.V. Williams Building, 301-405-2672

www.cs.umd.edu

ugrad@cs.umd.edu

Chair: S. Khuller

Professors: A. Agrawala, J. Aloimonos, B. Bederson, S. Bhattacharjee, W. Cleaveland, L. Davis, R. Duraiswami, H. Elman, J. Foster (Assoc Chair), W. Gasarch, M. Hicks, J. Hollingsworth, D. Jacobs, J. Katz, A. Memon, D. Mount, D. Nau, D. Perlis, A. Porter, J. Reggia, N. Roussopoulos, E. Ruppini, H. Samet (Distinguished University Professor), A. Shankar, B. Shneiderman (Distinguished University Professor), A. Srinivasan, V. Subrahmanian, A. Sussman (Assoc Chair), A. Varshney

Associate Professors: A. Childs, H. Corrada Bravo, H. Daume, A. Deshpande, M. Hajiaghayi, P. Keleher, C. Kruskal, M. Pop, J. Purtilo, N. Spring

Assistant Professors: M. Carpuat, J. Froehlich, T. Goldstein, Z. Khan, M. Mazurek, E. Shi, D. Van Horn

Senior Lecturer: E. Golub, J. Plane

Lecturers: F. Emad, L. Herman, M. Hugue, A. Mamat, N. Padua-Perez, T. Reinhardt, P. Sadeghian, V. Sazawal

Professors Emeriti: W. Arbaugh, V. Basili, B. Dorr, L. Kanal, R. Miller, J. Minker, D. O'Leary (Distinguished University Professor Emerita), W. Pugh, G. Stewart (Distinguished University Professor Emeritus), M. Zelkowitz

The Major

Computer science is the study of computers and computational systems: their application, design, development and theory. Principal areas within computer science include artificial intelligence, computer systems, database systems, human factors, numerical analysis, programming languages, software engineering, and theories of computing. A computer scientist is concerned with problem solving. Problems range from abstract questions of what

problems can be solved with computers to practical matters such design of computer systems which are easy for people to use. Computer scientists build computational models of systems including physical phenomena (weather forecasting), human behavior (expert systems, robotics), and computer systems themselves (performance evaluation). Such models often require extensive numeric or symbolic computation.

Admission to the Major

Students who are accepted to the university and list Computer Science as the preferred major will start directly in our program. Students who wish to add Computer Science as a major must attend a workshop. More details can be found at <http://undergrad.cs.umd.edu/future>.

Placement in Courses

Much of the knowledge at the early stage of the degree program is cumulative. To ensure that transfer and new students start with the appropriate courses, the department offers exemption exams for CMSC131, 132, 216, and 250. Students who have had CS courses prior to starting at Maryland can visit <http://undergrad.cs.umd.edu/exemption-exams> for more information.

Requirements for the Major

Much of the knowledge at the early stage of the degree program is cumulative. To ensure that transfer students start with the appropriate courses, the department offers exemption exams for CMSC131, 132, 216, and 250. Students who have had CS courses prior to starting at Maryland should schedule and take exemption exams.

A "C-" or better must be earned in all major requirements.

Required Lower Level Courses (Unless Exempt)

MATH140 (4) Calculus I
 MATH141 (4) Calculus II
 CMSC131 (4) Object-Oriented Programming I
 CMSC132 (4) Object-Oriented Programming II
 CMSC216 (4) Introduction to Computer Systems
 CMSC250 (4) Discrete Structures

**Students may fulfill CMSC131, 132, 216 or 250 course requirements by passing proficiency exams before they start the sequence of classes.

Additional Required Courses

CMSC330 (3) Organization of Programming Languages
 CMSC351 (3) Algorithms
 STAT4xx (3) This course must have prerequisite of MATH141 or higher; cannot be cross-listed with CMSC
 MATH/AMSC/STAT xxx (3/4) This course must have prerequisite of MATH141 or higher; cannot be cross-listed with CMSC

Upper Level Computer Science Courses

At the upper level, students take five (5) 400 level courses from at least three different areas with no more than two courses in a given area. An additional two (2) electives, totaling 6 credits, for the general computer science degree are also required. If students take more than two courses from an area, they will be counted as electives. Students can count one credit winter courses towards the elective requirement, as well as independent research or study with a faculty member, and other courses at the 300 or 400 level.

Area 1: Systems (No more than two courses not counting electives)

CMSC411 (3) Computer Systems Architecture
 CMSC412 (4) Operating Systems
 CMSC414 (3) Computer and Network Security
 CMSC417 (3) Computer Networks

Area 2: Information Processing (No more than two courses not counting electives)

CMSC420 (3) Data Structures
 CMSC421 (3) Introduction to Artificial Intelligence
 CMSC422 (3) Machine Learning
 CMSC423 (3) Bioinformatic Algorithms, Databases, and Tools
 CMSC424 (3) Database Design
 CMSC426 (3) Image Processing
 CMSC427 (3) Computer Graphics

Area 3: Software Engineering and Programming Languages (No more than two courses not counting electives)

CMSC430 (3) Introduction to Compilers
 CMSC433 (3) Programming Language Technologies and Paradigms
 CMSC434 (3) Introduction to Human-Computer Interaction
 CMSC435 (3) Software Engineering
 CMSC436 (3) Hand Held Programming Devices

Area 4: Theory (No more than two courses not counting electives)

CMSC451 (3) Design and Analysis of Computer Algorithms
 CMSC452 (3) Elementary Theory of Computation
 CMSC456 (3) Cryptology

Area 5: Numerical Analysis (choose one)

CMSC460 (3) Computational Methods (Credit will only be given for CMSC460 or CMSC466)
 CMSC466 (3) Introduction to Numerical Analysis (Credit will only be given for CMSC466 or CMSC460)

Upper Level Concentration Requirement

Students must also take at least 12 credits of 300-400 level courses from one discipline outside of CMSC. No course in or cross-listed with CMSC can be counted. An overall 2.0 average must be earned in these courses. Each course must be a minimum of 3 credits. Only 1 special topics or independent study course may be used.

Cybersecurity Specialization

Students looking to pursue the cybersecurity specialization are required to complete the lower level courses (MATH140, MATH141, CMSC131, CMSC132, CMSC216, CMSC250), the additional required courses (CMSC330, CMSC351, MATH/STATXXX and STAT4xx beyond MATH141), and the upper level concentration requirements as detailed above. The difference in the specialization is the upper level computer science courses.

Students are required to take:

CMSC412
 CMSC414
 CMSC417
 CMSC433
 CMSC456

Students must choose:

CMSC411 OR CMSC430 (may not take both to complete requirements)
 and
 CMSC420 OR CMSC451 (may not take both to complete requirements)

Data Science Specialization

Students looking to pursue the data science specialization are required to complete the lower level courses (MATH140, MATH141, CMSC131, CMSC132, CMSC216, CMSC250), the additional required courses (CMSC330, CMSC351, MATH/STATXXX beyond MATH141), and the upper level concentration requirements as detailed above. The difference in the specialization is the upper level computer science courses.

Students are required to take:

CMSC320
 CMSC422

CMSC424
STAT400

Students must choose one course from:

CMSC402
CMSC420
CMSC421
CMSC423
CMSC425
CMSC426
CMSC427

Students must choose one course from:

CMSC451
CMSC460

Students must choose two courses from:

CMSC411
CMSC412
CMSC414
CMSC417
CMSC430
CMSC433
CMSC434
CMSC435

Requirements for the Minor

The purpose of the minor in Computer Science is not only to give students a strong foundation in, and understanding of, algorithmic reasoning, problem solving methods involving computers and computation, and a solid base to help students adapt to future changes in technology, but to complement and enhance any student's major program of study. The computer science minor may be earned by students not majoring in computer science and computer engineering. A grade of "C-" or better must be earned in all courses required for the minor. See <http://undergrad.cs.umd.edu/cs-minor> for detailed information. The award of a minor will be noted on the student's transcript at the time of graduation.

Advising

All advising for CS students is done in the Computer Science Department. All CS majors must attend an advising session each semester prior to registering for classes. Advising appointments may be scheduled at <https://webapps.cs.umd.edu/ugrad/advising/login.php>.

Honors Program

Students looking for opportunities to enhance their computer science education are encouraged to participate in the Computer Science Undergraduate Honors Program. The program is open to students in the CS major who have earned a GPA of 3.5 in computer science courses and a GPA of 3.25 overall. Some of the benefits of the program include the following: (1) learning how to conduct research properly, (2) working closely with faculty members, and (3) increasing preparedness for graduate school.

For more information about the honors program, please visit the CS Honors website: <http://undergrad.cs.umd.edu/computer-science-honors>

Scholarships and Financial Assistance

There are multiple endowed scholarships available to students majoring in computer science. Additional details can be found at <http://undergrad.cs.umd.edu/scholarships>.

Students may find employment as tutors, as undergraduate teaching assistants, or as members of the department's laboratory staff. Professors may also have funds to hire undergraduates to assist in research. Many students also participate in internship experiences, working in the computer industry during the summer after their sophomore and/or junior years.

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Counseling, Higher Education and Special Education (CHSE)

Special Education (CHSE)

College of Education

3214 Benjamin, 301-405-6515/4

http://www.education.umd.edu/CHSE/SE_overview.html

Director: F. Kohl (Associate Prof & Program Director)

Professors: P. Beckman, P. Burke, P. Leone, J. Lieber, D. Neubert

Associate Professors: S. De La Paz, F. Kohl, R. Silverman, A. Taboada Barber

Assistant Professors: K. Cummings, J. Wexler

Professors Emeriti: A. Egel, J. Hebler, S. Moon, D. Speece (Prof Emerita)

The Major

Special Education offers a rigorous undergraduate program that prepares teachers of children or young adults with disabilities with the necessary skills to assess, plan, teach, and evaluate the education of persons with disabilities. The program has been routinely nationally ranked and recognized as one of the top preparation programs in the country. Teacher preparation focuses on students with high incidence disabilities (autism spectrum disorders, learning and developmental disabilities, behavior disorders, intellectual disabilities, ADHD/ADD, etc.) and low incidence disabilities (autism, physical disabilities, intellectual disabilities, etc.). It is a four year professional certification program which graduates teacher candidates with a Bachelor of Science in special education, leading to special education teacher certification in the State of Maryland and certification reciprocity in most states throughout the country. Teacher candidates enroll in special education course work that meet state, university, and college requirements and take supporting course work designed to provide an understanding of human development including basic psychological and sociological principles of human behavior. A two-semester internship is required in the senior year that focuses on the application of teaching skills. Special Education majors receive preparation in the following areas: universal design of learning/assistive technology; academic, language, motor, and cognitive development; social and educational needs of individuals with disabilities; diagnostic and educational assessment; evidenced based instructional procedures and materials; national standards and curriculum development; classroom and behavior management; effective communication and partnership with parents and families of children with disabilities; community resource planning; and local, state, and federal laws and policies concerning children and youth with disabilities. Courses offered in the special education program may be found under the acronym EDSP.

NOTE: Contact an advisor in the Office of Student Services (1204 Benjamin) for additional information.

Program Learning Outcomes

1. Special Education teacher candidates have in-depth knowledge of the subject matter they teach as described in professional (Council for Exceptional Children), state (MSDE), and University standards.
2. Special Education teacher candidates practice evidence-based instruction and decision-making through the use of assessment as well as the critical interpretation of research and inquiry to improve educational practice. They accurately assess, plan, and analyze student learning, make appropriate modifications to instruction, monitor student learning, and have a positive effect on learning for all students.
3. Special Education teacher candidates demonstrate understanding of learners and their social and cultural contexts with a global perspective and

intentional sensitivity to other cultures. They are able to work with students, families, and communities in ways that reflect the dispositions expected of professional educators as delineated in professional (CEC), state (MSDE), and University standards.

4. Special Education teacher candidates competently integrate technology and universal design in learning in instruction to support student learning and develop data-driven solutions for instructional and school improvement. They demonstrate proficiency in the *Maryland Teacher Technology Standards*.

Admission to the Major

Prior to formal acceptance as a special education major, undergraduates are required to enroll in a special education introductory course (EDSP210), which provides a survey of the history and current issues in special education. Upon successful completion of the introductory course and 45 semester hours of requirements, teacher candidates apply for formal admission to the professional program by submitting an application with a statement of intent specifying their professional goals. To be accepted as a full special education major, teacher candidates must fulfill the College of Education requirements for admission to Teacher Education, as well as the following program requirements:

1. Completion of course work indicated below:
HIST200 or 201, STAT100, Lab Science, ENGL Literature, PSYC100, SOCY100 or 105, HESP202, MATH212, EDHD411, and EDSP210.
2. Admission is competitive beyond the minimum 2.75 grade point average required for consideration.
3. Submission of an application together with a statement of intent specifying the applicant's professional goals.
4. Submission of three letters of recommendation.
5. Completion of College of Education Foundational Competencies Acknowledgment Form.

Admittance will be based on a variety of criteria, including completion of the required courses, the grade point average, the applicant's experience with persons with disabilities, and the appropriateness and clarity of the professional goal statement. For more information, see the admission section of the College of Education entry.

Placement in Courses

The Special Education program includes both pre-professional and professional education course work. Before teacher candidates may enroll in courses identified as part of the professional sequence, they must complete the selective admissions requirements and be fully admitted to the College of Education's Teacher Education program.

Requirements for the Major

Undergraduates who are interested in majoring in Special Education must consult a program advisor as early as possible after matriculation at the university since the curriculum requires an extensive and sequenced program of studies. Individuals accepted as Special Education majors take a two-semester sequence of foundation special education courses and practicum experiences during the third year (Semesters V and VI). These courses provide the teacher candidate with a solid foundation in theory and practice related to the education of all children with disabilities across a wide range of ages.

Teacher candidates work directly with children or youth with disabilities during each semester, leading up to the teaching internship during the last semester.

Other Requirements for the Major

A minimum overall grade point average of 2.75 must be maintained after admission to Teacher Education. All teacher candidates are required to obtain satisfactory evaluations on the College of Education Foundational Competencies and to attain qualifying scores for the State of Maryland on a Test of Basic Skills assessment (http://www.msde.maryland.gov/MSDE/divisions/certification/certification_branch/testing_information/). A Test of Basic Skills assessment is required for admission, and Praxis II Special Education is required for the teaching internship and graduation. The culminating experience of the program is the yearlong internship, which takes place in a partner school or a professional development school (PDS).

Requirements for the Minor

NOTE: The minor in Special Education is under review. For further information, please contact the Office of Student Services, 1204 Benjamin Bldg, 301-405-2364 or ed-advising@umd.edu.

The minor in Special Education provides opportunities for undergraduates to enroll in a sequence of education courses to determine if working with students with disabilities is a viable career option. For individuals interested in pursuing this career option, a one-year M.Ed. program, leading to certification as a special educator, is also available.

- 18 credits are required for this minor
- Two courses (6 credits) may overlap with a student's major
- Individuals pursuing the minor must select one of three age-based specializations: Early Childhood, Elementary, or Secondary Special Education.
- The minor incorporates coursework to meet the *Maryland State Department of Education (MSDE) reading requirements* that are part of the special education teacher certification requirements.
- A cumulative 2.75 GPA and junior status (60 credits) is required for enrollment in all professional education courses (i.e., all courses required for the minor except EDSP 210/470).
- All courses for the minor must be passed with a grade of "C-" or better.
- No more than two courses (6 credits) may be taken at an institution other than the University of Maryland.

Core Courses required for the Minor:

EDSP210/470 Introduction to Special Education
EDSP413 Behavior & Classroom Management in Special Education
EDSP415 Assessment in Special Education
EDSP416 Reading & Writing Instruction in Special Education I

Additional Courses Required for Early Childhood Special Education:

EDHD425 Language Development & Reading Acquisition
EDSP423 Assessment in Early Childhood Special Education

Additional Courses Required for Elementary Special Education:

EDHD425 Language Development & Reading Acquisition
EDSP485 Assessment & Instruction in Mathematics in Special Education

Additional Courses Required for Secondary Special Education:

EDHD426 **or** EDCI463 Cognition & Motivation in Reading: Reading in Content Areas **or** Reading in the Secondary School
EDSP485 Assessment & Instruction in Mathematics in Special Education

Minor and M.Ed. Teacher Certification Program

For individuals interested in pursuing special education teacher certification, a one year M.Ed. program is available after completing the 18-hour minor in special education and an undergraduate degree. To be admitted to this M.Ed. Special Education program, program applicants must apply to the graduate school (www.gradschool.umd.edu) during their senior year and pass the Praxis CORE at scores established by the Maryland State Department of Education www.education.umd.edu/studentinfo/teacher_education/praxisinfo.html. All teacher candidates at the University of Maryland must pass **Praxis II** prior to the teaching internship.

For further information, please contact Office of Student Services, 1204 Benjamin Bldg, 301-405-2364 or ed-advising@umd.edu.

Advising

Advising is mandatory for all special education majors. For more information or to schedule an advising appointment, contact the Office of Student Services (301-405-2364).

Fieldwork Opportunities

A two-semester internship is arranged for teacher candidates in their senior year. The internship and other field experiences allow teacher candidates to apply concepts and techniques presented in university-based courses.

Internships

The yearlong, two-semester internship, which is the culminating experience in the teacher preparation program, takes place in a partner school or a Professional Development School (PDS) during the senior year of the program.

Student Societies and Professional Organizations

The Special Education program encourages student participation in extracurricular activities within and outside of the University. Opportunities include the Council for Exceptional Children. For more information, stop by the Office of Student Services, 1204 Benjamin Building.

Scholarships and Financial Assistance

The Special Education Endowed Fund in honor of Jean R. Hebler is devoted to support candidates preparing to work with individuals with disabilities. Awards are competitive. Applications are accepted in the spring semester for the following academic year.

In addition, the College of Education offers a number of scholarships. Please visit <http://www.education.umd.edu/studentinfo/scholarships.html> for more information.

In addition, the Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

NOTE: The Minor in Special Education is under review. For further information, please contact the Office of Student Services, 1204 Benjamin Bldg, 301-405-2364 or ed-advising@umd.edu.

The minor in Special Education provides opportunities for undergraduates to enroll in a sequence of education courses to determine if working with students with disabilities is a viable career option. For individuals interested in pursuing this career option, a one-year M.Ed. program, leading to certification as a special educator, is also available. 18 credits are required for this minor.

- Two courses (6 credits) may overlap with a student's major.
- Individuals pursuing the minor must select one of three age-based specializations: Early Childhood, Elementary, or Secondary Special Education.
- The minor incorporates coursework to meet the *Maryland State Department of Education (MSDE) reading requirements* that are part of the special education teacher certification requirements.
- A cumulative 2.75 GPA and junior status (60 credits) is required for enrollment in all professional education courses (i.e., all courses required for the minor except EDSP210/470).
- All courses for the minor must be passed with a grade of "C-" or better.
- No more than two courses (6 credits) may be taken at an institution other than the University of Maryland.

Core Courses required for the Minor:

EDSP210/470	Introduction to Special Education
EDSP413	Behavior & Classroom Management in Special Education
EDSP415	Assessment in Special Education
EDSP416	Reading & Writing Instruction in Special Education I

Additional Courses Required for Early Childhood Special Education:

EDHD425	Language Development & Reading Acquisition
EDSP423	Assessment in Early Childhood Special Education

Additional Courses Required for Elementary Special Education:

EDHD425	Language Development & Reading Acquisition
EDSP485	Assessment & Instruction in Mathematics in Special Education

Additional Courses Required for Secondary Special Education:

EDHD426 or EDCI463	Cognition & Motivation in Reading: Reading in Content Areas or Reading in the Secondary School
EDSP485	Assessment & Instruction in Mathematics in Special Education

Minor and M.Ed. Teacher Certification Program

For individuals interested in pursuing special education teacher certification, a one year M.Ed. program is available after completing the 18-hour minor in special education and an undergraduate degree. To be admitted to this M.Ed. Special Education program, program applicants must apply to the graduate school (www.gradschool.umd.edu) during their senior year and pass the Praxis CORE test at scores established by the Maryland State Department of Education (http://www.education.umd.edu/studentinfo/teacher_education/praxisinfo.html). All teacher candidates at the University of Maryland must pass **Praxis II** prior to the teaching internship.

Leadership Studies

Leadership Studies

Counseling, Higher Education and Special Education (CHSE)

<http://umddepartments.orgsync.com/org/leadershipstudies/>
3214 Benjamin Building, 301-405-8627
leadershipstudies@umd.edu

Description

The Leadership Studies program promotes college student leadership development by educating undergraduate students *for* and *about* leadership in a complex world. The goal of the Minor is to prepare students to serve effectively in formal and informal leadership roles in campus, local, national, and global contexts. The Minor also encourages students to identify a working philosophy of leadership that can advance students' thinking around ethics, civic engagement, and the importance of working within diverse and multicultural environments. These areas are critical aspects of leadership that require faculty and students to build and critically evaluate existing theoretical, research-based, and practical knowledge of leadership. Students in the Minor can use their knowledge, skills, and competencies gained from this academic program to enhance their sense of self, engagement with others, and better identify their values in future aspirations. Core courses in the Minor are sequenced to meet increasingly complex sets of learning outcomes across cognitive, personal development, and group/organizational domains.

Eligibility

In order to apply for the Certificate or Minor in Leadership Studies, students must:

1. You have completed at least 30 credit hours of college credit
2. You are in good academic standing
3. You are enrolled in HESI 217 or have completed EDCP 217/HESI 217 with a C- or better.
4. You have completed no more than 9 credits of the Leadership Studies program coursework
5. You have more than one full academic year before you graduate

Application Procedures and Forms:

Applications will be made available as an online form, during select times each semester, for a period of two weeks. The application will ask eligible students to identify demographic information, a list of (on and off-campus) involvements (if any), and respond to three short-essay questions. Applicants must also provide a resume and an unofficial University transcript.

After the closing application date, applications will be reviewed and applicants will be notified within two to three weeks by email.

Selection Criteria:

- Demonstrates a commitment or experience in leadership, either in studying or practicing leadership
- Contributes to the diversity of students in the Minor
- Illustrates capacity to utilize leadership theories and skills
- Exhibits a commitment to intrapersonal and interpersonal growth and development through the study of leadership

Minor Completion Requirements

The CHSE Minor in Leadership Studies consists of **15 credit hours**. No more than six credits can also be applied to a student's major, and no more than six credits may be taken at an institution other than the University of Maryland College Park. No course with an earned grade below "C-" may count towards the Minor.

Requirements for the Minor (15 total hours)*

- HESI217 - Introduction to Leadership (3 credits)
- HESI315 - Leadership in Groups and Organizations (3 credits)
- HESI318 - Applied Contextual Leadership OR HESI418 - Special Topics in Leadership (3 credits)
- HESI417 - Advanced Leadership Seminar (3 credits)
- ONE elective course, from our pre-approved elective list (total 3 credits)

Contact Leadership Studies at leadershipstudies@umd.edu with questions and interests in the Minor.

The Leadership Studies program is a partnership between the College of Education and the Adele H. Stamp Student Union, Center for Campus Life. More information is also listed at: <http://umddepartments.orgsync.com/org/leadershipstudies/>.

Criminology & Criminal Justice (CCJS)

College of Behavioral and Social Sciences

2220 LeFrak Hall, 301-405-4699

www.ccjs.umd.edu

Chair: J. Lynch (Prof & Chair)

Director: L. Brooks (Undergraduate Director)

Professors: D. Gottfredson, G. LaFree (Distinguished Scholar Teacher), J. Laub (Distinguished University Professor), R. Paternoster (Distinguished Scholar Teacher), P. Reuter, L. Sherman (Distinguished University Professor), S. Simpson, T. Thornberry (Distinguished University Professor)

Associate Professors: L. Dugan, B. Johnson (Graduate Director), T. Loughran (Honors Director), J. McGloin (Assoc. Chair), E. Wish, M. Xie

Assistant Professors: D. Maimon, K. Nakamura, L. Porter

Lecturers: R. Hamill, A. Lehman, J. Madoo, S. Malm, T. Mauriello, D. Mitchell, C. Roberts White, D. Salem

Professors Emeriti: C. Wellford

The Major

The mission of the Department of Criminal Justice & Criminology is to provide a supportive academic and professional environment for faculty and students. The Department promotes study and teaching concerning crime and delinquency and their prevention and control. The University of Maryland's Department of Criminology and Criminal Justice is a national and international leader in research and criminal justice education, and its Graduate Program is ranked number one in the field. Courses offered by this department may be found under the following acronym: CCJS. Both UMD and Shady Grove offer the CCJS Bachelor of Arts degree.

Program Learning Outcomes

Having completed the CCJS degree program, students should acquire the following knowledge and skills:

1. Students will demonstrate basic knowledge of major criminology and criminal justice content areas.
2. Students will demonstrate a basic knowledge of descriptive and inferential statistics appropriate to the social sciences.
3. Students will demonstrate competence in basic social science research methods.

Admission to the Major

In accordance with University policy, the Department of Criminology and Criminal Justice at UMD has been designated a Limited Enrollment Program (LEP). All first-time freshmen admits who request Criminology and Criminal Justice will be directly admitted into the major. Other first-time freshman that wish to declare Criminology and Criminal Justice as a major prior to the last day of classes of the first semester in residence will be allowed to do so. The LEP does not apply to the CCJS Shady Grove program.

In order to remain a Criminology and Criminal Justice major, newly admitted freshman will be required to complete the following gateway/entrance requirements on or before the end of the semester in which they attempt 45 University of Maryland credits:

- a. Completion of CCJS100 with a grade of "C-" or higher
- b. Completion of CCJS105 with a grade of "C-" or higher
- c. Completion of MATH111 or STAT100 with a grade of "C-" or higher. A calculus class (MATH120 or MATH220, MATH130, MATH140 with a grade of "C-" or higher may be substituted.
- d. A minimum cumulative GPA of 2.00

All other students, including both internal and external transfer students, will not be admitted to the program until they have met the following requirements:

- a. Completion of CCJS100 with a grade of "C-" or higher
- b. Completion of CCJS105 with a grade of "C-" or higher
- c. Completion of MATH111 or STAT100 with a grade of "C-" or higher. A calculus class (MATH120 or MATH220, MATH130, MATH140) with a grade of "C-" or higher may be substituted.
- d. A minimum cumulative GPA based on all previous college-level coursework of 2.50 or higher

Policies for Limited Enrollment Programs:

- Only one gateway or entrance requirement course may be repeated to earn the required grade, and that course may be repeated only once.
- A grade of W (Withdrawn) in a course is counted as an attempt.
- Students may apply only once to a Limited Enrollment Program. Students who have been dismissed from the major may not reapply.
- Students must maintain a cumulative GPA of 2.00. Failure to do so will result in dismissal from the major.

Any student denied admission or dismissed from the major may appeal. Dismissed students appeal directly to the Director of Undergraduate Studies in Criminology and Criminal Justice. Internal transfer students appeal to the Office of the Dean for Behavioral and Social Sciences. External transfer students appeal to the Office of Admissions.

Requirements for the Major

These requirements are for students who have matriculated to the University prior to Fall 2015 and transfer students from the University System of Maryland and Maryland community colleges prior to Fall 2015.

The Criminology and Criminal Justice (CCJS) major is comprised of 33 credit hours of coursework in the CCJS department, either MATH111 or STAT100, and 18 credit hours of supporting sequence coursework from outside of the CCJS department.

Required CCJS Courses:

CCJS100 - Introduction to Criminal Justice
 CCJS105 - Introduction to Criminology
 CCJS200 - Statistics for Criminology & Criminal Justice
 CCJS230 - Criminal Law in Action
 CCJS300 - Criminological and Criminal Justice Research Methods
 CCJS340 - Policing
 CCJS350 - Juvenile Delinquency
 CCJS451, 452, 454 (Choose one):

CCJS451 - Crime and Delinquency Prevention
 CCJS452 - Treatment of Criminals and Delinquents
 CCJS454 - Contemporary Criminological Theory

3 CCJS Courses of Choice

(Completed using one or a combination of the followings ways)

- Complete additional CCJS courses that are not required (i.e., CCJS352, 360, 370)
- Complete an Independent Study (CCJS399)
- Complete an Internship (CCJS359 & 398)

Total CCJS Credits: 33 Credits

Additionally students must complete one of the following math courses for the CCJS LEP gateway requirements:

Choose one of the following:

MATH111- Introduction to Probability
 STAT100 - Elementary Statistics and Probability
 *A calculus class (MATH120, MATH220, 140 or 130) with a grade of "C-" or higher may be substituted

Supporting Sequence

(Supporting Sequence courses must be taken off the approved Supporting Sequence list):

- 3 lower level courses from the approved supporting sequence list
- 3 upper level courses from the approved supporting sequence list

Total Supporting Sequence credits: 18 Credits

Total Credits for the CCJS Major: 54 Credits

Please keep the following information in mind:

- No grade lower than a "C-" may be used toward the major
- Students must achieve a combined grade point average of a 2.0 in supporting sequence courses
- A minimum of 9 hours of Supporting Sequence must be at the 300/400 level
- Students must achieve a combined grade point average of a 2.0 in the CCJS major

New CCJS Major Requirements (Fall 2015)

For students enrolled as freshmen in Fall 2015 or later, or new transfer students outside of the University System of Maryland and Maryland community colleges. All students, regardless of matriculation date or place, will be subject to the new Fall 2015 CCJS major requirements in Fall 2017.

Required CCJS Courses:

CCJS100 - Introduction to Criminal Justice
 CCJS105 - Introduction to Criminology
 CCJS200 - Statistics for Criminology & Criminal Justice
 CCJS230 - Criminal Law in Action
 CCJS300 - Criminological and Criminal Justice Research Methods

2 CCJS Criminal Justice Courses

(Select two from the following three classes)

CCJS340 - Policing
 CCJS345 - Courts and Sentencing
 CCJS342 - Corrections

1 CCJS Criminology/Theory Course

(Select one from the following three classes)

CCJS450 - Advanced Juvenile Delinquency
 CCJS451 - Crime and Delinquency Prevention
 CCJS454 - Contemporary Criminological Theory

4 CCJS Courses of Choice

Two CCJS Courses of Choice must be at the 400-level

(Completed using one or a combination of the followings ways)

- Complete additional CCJS courses that are not required (i.e., CCJS352, 360, 370)
- Complete an 1 Independent Study for credit (max 3 credits)
- Complete an 1 Internship for credit (max 3 credits)

Total CCJS Credits: 36 Credits

Additionally students must complete one of the following math courses for the CCJS LEP gateway requirements:

Choose one of the following:

MATH111 - Introduction to Probability
 STAT100 - Elementary Statistics and Probability
 *A calculus class (MATH120, MATH220, 140 or 130) with a grade of "C-" or higher may be substituted

Total Credits for the CCJS Major: 39 Credits

Please keep the following information in mind:

- No grade lower than a "C-" may be used toward the major
- Students must achieve a combined grade point average of a 2.0 in the CCJS major

Other Requirements for the Major

The CCJS Department enforces all prerequisites and does not oversubscribe students to courses that are closed.

Advising

All majors are strongly encouraged to see an advisor at least once each semester. Advising is available on a walk-in basis between 10 am and 4 pm weekdays in 2201 Lefrak Hall. Students must complete all course prerequisites and obtain department permission from CCJS Advising to enroll in most CCJS classes. Call 301-405-4729 or email ccjsadvising@umd.edu.

Internships

Requirements for Internship Placements

The internship must be a learning experience involving work in a criminal justice or criminological setting. Interns are expected to gain valuable information which will add to their overall understanding of the field of criminology and criminal justice. Internship positions must center around gaining new material over the course of the semester and are expected to involve some degree of ongoing training/learning for the intern. Internship placements are subject to the approval of the Internship Director.

Internship Eligibility

Interns must meet the following criteria:

- Interns must be CCJS majors
- Interns must have completed a minimum of 56 credits at the time of application
- Interns must have a cumulative GPA of at least 2.5 at the time of application
- Interns must work 45 hours per credit over the course of the semester
- A maximum of 6 internship credits per semester and a total of 12 internship credits overall will be permitted
- Internship credit will not be approved for current or previously held jobs

Interns must register themselves for the internship prior to the end of the semester's schedule adjustment period. Obtaining Departmental approval for the internship does NOT register the student for the class. Additional information about internships can be picked up from the CCJS advising office in 2201 Lefrak Hall or online.

Honors Program

The Honors Program is a four-semester (9 required credit hours) sequence, which a student begins in the fall semester of his or her junior year. CCJS388H, the first course in the sequence, will provide an in-depth understanding of the production of criminological research and prepare students for writing their honors thesis. CCJS388H will only be offered in the fall semester. Students will have the spring semester of their junior year off to pursue outside interests such as study abroad and internships. In the fall semester of the senior year, students will complete CCJS389H, where students will solidify their honors thesis topic and begin preliminary research. In the spring semester of the senior year, students will complete CCJS489H, a writing intensive course during which the student will complete their honors thesis. At the end of the semester, each student must orally defend his or her honors thesis. Honors students may count their honors courses toward completion of the CCJS Course of Choice major curriculum requirement.

Student Societies and Professional Organizations

There are two Student Societies available for membership for CCJS majors: the Criminal Justice Student Association (CJSA) and Alpha Phi Sigma Honor Society (APS).

The Criminal Justice Student Association (CJSA) is dedicated to supplementing our members' academic experience by providing extracurricular opportunities to further explore critical issues involving criminology and criminal justice. Through a regular program of speakers, agency demonstrations, community service projects and career fairs, the CJSA provides students with valuable information for making decisions about career choices, further graduate level study, and law school. The CJSA provides students with opportunities for academic and social interaction, and access to criminology and criminal justice researchers, teachers, and practitioners representing a variety of government, academic and commercial corporate and non-profit organizations. All graduate and undergraduate students, regardless of major, are eligible for membership in the CJSA. CJSA meetings and programs are held at least monthly during the Fall and Spring semesters. CJSA does not assess membership dues or fees.

Alpha Phi Sigma (APS) is a National Criminal Justice Honor Society founded 1942 and membership is open to CCJS majors who have completed at least 40 total credits with at least 12 credits in CCJS courses. Undergraduate Applicants must have an overall GPA of at least a 3.2 and a major GPA of at least 3.4. Graduate student applicants must have a 3.4 overall GPA. Applicants must fill out and print the application available at <http://www.alphaphisigma.org/resources.html>. Choose Student Member Application (US chapters), submit an official or unofficial transcript, and a check (personal is fine) made out to Alpha Phi Sigma for \$55 (\$50 of which goes to the National fee and \$5 goes to the local chapter). The CCJS degree is a Bachelor of Arts. The name of the local chapter is Omega Iota. Put the completed application, check, and transcript in Dr. Brooks' mailbox inside 2220 Lefrak Hall. Applications are processed once at the beginning of the Fall semester and once at the beginning of the Spring semester each year, and it generally takes a few months to get official acceptance. Dr. Brooks will notify you when your certificate and pin have been received.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu. Multiple scholarships (\$1,000-\$2,000 each) will be awarded to high achieving CCJS rising juniors and seniors. Recipients will be chosen on the basis of demonstrated strength in CCJS coursework, merit, financial need, and leadership ability. Preference will be given to students who have an interest in and are eligible for law enforcement careers.

Awards and Recognition

Each semester the department selects the outstanding graduating senior for the Peter J. Lejins award.

DECISION, OPERATIONS AND INFORMATION TECHNOLOGIES (BMGT)

The Robert H. Smith School of Business

Professors Emeriti: L. Bodin

The Major

The Department of Decision, Operations, and Information Technologies offers two majors: Information Systems - Specialization: Business and Operations Management & Business Analytics.

Information Systems - Specialization: Business

The Business Area of Concentration in the Information Systems (IS) program prepares students to be effective planners, users, and managers of information technologies and systems in the current environment of the technology-enabled business firm. The IS major focuses on the system design and implementation skills including database and web design, analytical skills for both strategic planning of IT and performance evaluation, and the managerial plus organizational knowledge required to manage information systems and applications based on business and customer requirements. The major's core emphasizes the concepts of systems analysis and design, and the strategic use of information systems. In addition to a broad grounding in the key functional areas of marketing, operations, accounting, and finance, this major develops in-depth knowledge of information systems design and implementation, evaluation and planning of information technology investments, and managing dynamic technology projects.

Operations Management & Business Analytics

The Operations Management & Business Analytics major will provide students with the knowledge and skills necessary to successfully apply quantitative and statistically based modeling techniques to data and advantageously use the information in the data to drive decision making and improve performance in an era with massive amounts of data. Students with these skills are in high demand and career opportunities exist in the public and private sectors in a

variety of industries including energy, finance, insurance, health care, logistics and marketing.

Admission to the Major

See Robert H. Smith School of Business entry in chapter 6 for admission requirements.

Requirements for the Major

Information Systems - Specialization: Business

Major Requirements		Credits
BMGT302	Designing Business Applications <i>Note: CMSC132 Object-Oriented Programming II is approved substitute</i>	3
BMGT402	Database Systems <i>Note: CMSC424 Database Design is approved substitute</i>	3
BMGT403	Systems Analysis and Design	3
BMGT407	Information Systems Projects	3
	<i>Two courses from list 'A' or one course from 'A' and one course from list 'B':</i>	6
	List A	
BMGT405	Business Telecommunications	
BMGT406	Electronic Commerce Application Development	
BMGT408	Selected Topics in Decision & Info. Tech. <i>(repeatable if content differs)</i>	
BMGT476	Applied Computer Models in Supply Chain Management	
BMGT485	Project Management	
BMGT404	Developing Applications for Decision Analytics	
	List B	
BMGT326	Accounting Systems	
BMGT332	Operations Research for Management Decisions	
BMGT385	Operations Management	
BMGT430	Linear Statistical Models in Business	
BMGT461	Entrepreneurship	
BMGT484	Electronic Marketing	
Total credits required		18

Upper Level Economics Requirements

	<i>One of the following courses:</i>	3
ECON305	Intermediate Macroeconomic Theory and Policy	
ECON306	Intermediate Microeconomic Theory	
ECON330	Money and Banking	
ECON340	International Economics	
	Total Economics Requirement	3

Note: Students who have completed either ECON325 or ECON326 can substitute these courses for ECON305 or ECON306 respectively.

Operations Management & Business Analytics

Students interested in graduate work in Operations Management & Business Analytics are strongly advised to complete MATH141, MATH240 and 241 in addition to the lower level courses required of all Smith School students.

The course requirements for the junior-senior curriculum concentration in Operations Management & Business Analytics are as follows:

		Credits
Major Requirements		
BMGT332	Operations Research for Management Decisions	3
BMGT385	Operations Management	3
BMGT430	Linear Statistical Models in Business	3
BMGT431	Data Analytics <i>One of the following courses (check prerequisites):</i>	3
BMGT434	Introduction to Optimization	
BMGT435	Business Process Simulation <i>One of the following courses (check prerequisites):</i>	3
BMGT434	Introduction to Optimization (if not selected in the above requirement)	
BMGT435	Business Process Simulation (if not selected in the above requirement)	
BMGT372	Introduction to Logistics and Supply Chain Management	
BMGT403	Systems Analysis and Design	
BMGT404	Developing Applications for Decision Analytics	
BMGT485	Project Management	
BMGT487	Six Sigma Innovation	
BMGT490H	The Total Quality Practicum <i>(Open only to QUEST students)</i>	
	Total BMGT	18

Upper Level ECON Requirements*One of the following courses:*

3

ECON305 Intermediate Macroeconomic Theory & Policy

ECON306 Intermediate Microeconomic Theory

ECON330 Money and Banking

ECON340 International Economics

Total ECON

3

Note: Students who have completed either ECON325 Intermediate Macroeconomic Analysis or ECON326 Intermediate Microeconomic Analysis can substitute these courses for ECON305 or ECON306, respectively. BMGT341 Financial Markets is an approved substitute for ECON330.

In addition to the major requirements listed above, please consult Chapter 6 or www.rhsmith.umd.edu for a listing of additional Smith School degree requirements that apply to all Smith School majors.

Advising

General advising for students admitted to the Smith School of Business is available Monday through Friday in the Office of Undergraduate Programs, 1570 Van Munching Hall, 301-405-2286, undergradinfo@rhsmith.umd.edu. It is recommended that students visit this office each semester to ensure that they are informed about current requirements and procedures. Transfer students entering the university can be advised during spring, summer, and fall transfer orientation programs. Contact the Orientation Office for further information, 301-314-8217.

Dietetics

For more information see Nutrition and Food Science in Chapter 7.

Early Childhood/Early Childhood Special Education

For more information, see Human Development/Institute for Child Study (HDQM) under Human Development and Quantitative Methodology (HDQM) section in Chapter 7 of the Catalog.

Economics (ECON)**College of Behavioral and Social Sciences**

S. Verma

Professors Emeriti: C. Almon, R. Bennett, R. Betancourt, F. Brechling, C. Clague, J. Cumberland, R. Dardis, C. Harris, C. Hulten, H. Kelejian, M. McGuire, P.

Meyer, M. Polakoff, T. Schelling (Distinguished University Professor), R. Schwab, P. Wonnacott

The Major

Economists study a wide range of phenomena using analytical methods which describe how people and collections of people behave and interact. Many economists define their profession as the analysis of decisions made in the context of scarcity. Economics can also be described as the study of the production, pricing, and distribution of goods and services within societies. Economists study such issues as inflation, unemployment, poverty, environmental quality, financial markets, and international trade. Economists also apply their methods of analysis to such diverse areas as crime, health care, discrimination, and the problems of developing countries.

Courses offered by this department may be found under the following acronym: ECON. As a large, diverse department, courses are offered in many of the major fields of economic study. Several courses analyze the role of the government policies impacting economic outcomes, while others focus on developing advanced applications of economic theories and methodologies.

Students can learn about the methods of analysis that economists use and about the various fields of inquiry where economists have been most productive. Undergraduate economics majors choose between two curriculums, one leading to a Bachelor of Arts degree and the other to a Bachelor of Science. In the BA track, students learn how to apply economic analysis to a variety of social issues, as well as, the fundamental methodological tools. In the BS track, students focus more attention on the methodology of economic analysis, which requires more emphasis on quantitative skills.

Economics majors have a wide variety of career options, including positions in state and local government, federal and international agencies, business, finance and banking, journalism, teaching, politics and law. Many economics majors pursue graduate work in economics or another social science, law, business or public policy.

Program Learning Outcomes

Students are expected to fully utilize the opportunities presented for learning and research. Having completed the degree program, students should have acquired the following knowledge and skills:

- Understanding of the key terminology used within the discipline.
- Ability to use the fundamental methods and tools of the discipline to model economic behavior and to describe and analyze relationships between economic variables.
- Ability to interpret and apply descriptive and inferential statistics.
- Ability to analyze the effect of government policies on the economy using both conceptual and quantitative tools.
- BA track: Ability to articulate how economic analysis can be used to improve decision-making in various situations.
- BS track: Ability to carry out various techniques for evaluating hypotheses regarding economic phenomena.

Requirements for the Major

In addition to the university's general education requirements, students must earn a minimum of 39 credits via a combination of foundation and elective courses in Economics and Math as listed below. Both the Bachelor of Arts and the Bachelor of Science tracks require a sequence of courses starting with introductory micro and macroeconomics, as well as, calculus. Students then proceed to intermediate level courses in theory and statistics. Finally, students take at least one upper-level course focused on quantitative analysis plus several upper-level courses where you explore specific topics in more depth. Both tracks require the same number of courses.

All courses must be passed with a grade of "C-" or better to count towards the foundation and elective requirements. Students must have a minimum 2.0 cumulative grade point average across all courses used to satisfy major degree requirements. A course used to fulfill one requirement for the major may not count towards any other economics major requirement.

Bachelor of Arts

Foundation Courses		Credits
ECON200	Principles of Microeconomics	3
ECON201	Principles of Macroeconomics	3
MATH120 or MATH220 or MATH140	Elementary Calculus I or Calculus I	3/4
ECON230 BMGT230	Applied Economic Statistics or Business Statistics	3
ECON305	Intermediate Macroeconomic Theory & Policy	3
ECON306	Intermediate Microeconomic Theory & Policy	3

Economics Electives Courses

*One from**

ECON300	Methods & Tools for Economic Analysis	3
ECON402	Macroeconomic Models and Forecasting	
ECON424	Applied Econometrics	
ECON426	Economics of Cost-Benefit Analysis	

Two from

ECON3xx/4xx	Any 300/400 level ECON courses designated for the BA	6
-------------	--	---

Three from

ECON4xx	Any 400 level ECON courses designated for the BA	9
---------	--	---

One from

ECON386	Economics Experiential Learning or other experiential learning course(s) or a 300/400 level ECON course designated for the BA	3
---------	---	---

Bachelor of Science

Foundation Courses		Credits
ECON200	Principles of Microeconomics	3
ECON201	Principles of Macroeconomics	3
MATH140	Calculus I	4
MATH141	Calculus II	4
ECON321	Economic Statistics or	3
STAT400	Applied Probability and Statistics	
ECON325	Intermediate Macroeconomic Analysis	3
ECON326	Intermediate Microeconomic Analysis	3

ECON423	Econometrics II	3

ECON406	Advanced Microeconomics or	3
ECON407	Advanced Macroeconomics	

Economics Electives Courses

Three from

ECON4xx	Any 400 level ECON courses designated for the BS	9
---------	--	---

**The Economics curriculum may be updated over time, given college and campus approval. Students will be notified as other appropriate courses are approved that fulfill the requirements for the major.*

Other Requirements for the Major

Study Sequences and Plans of Study

Those students planning to pursue graduate study in economics must begin to prepare themselves analytically for graduate work by focusing on theory, statistics, and mathematics in their undergraduate curriculum. These students should consider the full econometrics sequence of ECON422 and 423. Mastery of advanced calculus and linear algebra is essential for entrance into graduate schools, and therefore students must take MATH140, MATH141, MATH240, MATH241 and MATH246. Students should also plan on taking MATH410 and 411.

Benchmarks

In accordance with the University's policies, the Department of Economics expects students to make timely progress towards graduation. To help measure progress during the early stages of a student's studies in economics, students will have to complete courses designated as benchmarks within a specified number of semesters in order to continue in their major.

Bachelor of Arts - Students must complete the following five courses within two semesters of entering the major:

- ECON200, ECON201, and MATH120 or MATH220 or MATH140 with grades of C- or higher
- One additional GenEd course with a D- or higher
- Academic Writing with a D- or higher

Bachelor of Science - Students must complete the following six courses within two semesters of entering the major:

- ECON200, ECON201, MATH140, and MATH141 with grades of C- or higher
- One additional GenEd course with a D- or higher
- Academic Writing with a D- or higher

These benchmark deadlines may not be appropriate for all incoming students (depending upon credit earned prior to entering the major and math placement). All students complete an individualized benchmark contract with an ECON advisor, either at orientation or in the process of declaring the major. Freshmen wishing to declare an Economics major should see an advisor as soon as possible in order to set appropriate benchmarks and establish a coherent graduation plan.

Advising

Departmental academic advisors work with current and prospective majors on a walk-in basis, Monday - Friday from 10:00 a.m. - 4:30 p.m. Majors are encouraged to see an advisor at least once an academic year to verify progress in their program requirements. Further information on courses, internships, the department honors program, careers, and graduate schools may be obtained from the advisors.

Location: 3108 Tydings Hall
Phone: 301-405-8367

Honors Program

The Economics Honors Program provides economics majors with the opportunity for advanced study in a seminar format, with faculty supervision of an honors thesis. The Honors Program is designed for students planning to attend graduate school or those seeking an in-depth study of economic theory and its application to economic problems.

For detailed information on the Honors Program, including eligibility requirements, visit the ECON website at <http://www.econ.umd.edu/undergraduate/departamental-honors-program>.

Student Societies and Professional Organizations

The Economics Association of Maryland is an undergraduate club that meets regularly to discuss graduate study in economics and other fields, employment opportunities, and recent economic trends. Please see the Undergraduate Economics Advisors in 3108 Tydings for more information.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

The Dudley and Louisa Dillard Award is given to an outstanding economics honors student with one of the best honors thesis.

The Sujon Guha Memorial Award for Academic Excellence and Outstanding Leadership is awarded to an economics honors student with one of the best honors thesis.

The Martin Moskowitz Award is presented to a graduating senior based on academic excellence and a demonstrated commitment to and philosophy of public service.

The Moskowitz Family Scholarship is awarded to an academically successful economics major with demonstrated financial need.

The Mark C. Sullivan Economics Scholarship is awarded to an economics major who came from the eastern part of the state and has high academic performance.

The Honorable Idamae Garrott Memorial Scholarship supports academically talented majors who demonstrate financial need.

The Mark D. Turner and Tracey C. Turner Scholarship in Economics is awarded to an economics major who shows commitment to using their degree to assist minority communities.

The Melanie E. (Lee) Easley Memorial Scholarship supports an economics major with demonstrated financial need and a solid academic standing.

The John Cumberland Award in Environmental Economics is given to support the research and scholarship of an academically talented economics major in the fields of environmental economics.

The Peggy Rae and John Sapienza Scholarship is awarded to a junior or senior economics major and is intended to facilitate the education of a hardworking student and encourage him/her toward graduation.

Electrical Engineering (ENEE)

The Major

Electrical engineers create innovative technology solutions in a wide range of areas, from handheld communications to solar panels; from cardiac pace makers to autonomous robots; from wireless networks to bio-engineered sensors that detect dangerous pathogens; and intelligent surveillance systems that perform face and motion recognition. Employers visiting campus seek out electrical engineering students for recruitment more than any other major at the University of Maryland.

Electrical engineers have been uniquely responsible for developing many of the innovations that have brought us modern life and are urgently needed today to help solve a variety of global problems, including challenges related to energy, communications, health care, global warming, and national security. Electrical engineering underpins all other engineering disciplines, encompassing biomedical devices technology, micro- and nanoelectronics, information systems, wireless communications and signal processing, power systems, lasers and optics, electronic devices, computer software-hardware integration, and control systems. Electrical engineers led revolutions in the music and telecommunications industries, and are poised to lead the next revolutionary innovations in nanotechnology, robotics, and other advanced technologies.

The Bachelor of Science degree in Electrical Engineering is accredited by the Engineering Accreditation Commission of ABET, www.abet.org, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone (410) 347-7700.

Program Objectives

Broadly stated, the Program Educational Objectives (PEOs) for the undergraduate major in electrical engineering pertain to the accomplishments and performance of our students 3-5 years after graduation. These objectives are determined in consultation with the various constituencies of the electrical engineering program and agreed upon and approved by a consensus of the faculty.

1. Technical Accomplishments

Have our graduates establish a reputation for technical expertise and excellence among colleagues and achieve professional recognition for their work, in graduate or professional school and/or the technical workforce.

2. Invention, Innovation & Creativity

Have our graduates utilize their skills and resourcefulness to invent, design and realize novel technology; to find creative and innovative solutions to engineering problems; and to identify, research and solve new technical challenges in electrical engineering and related fields.

3. Professional Development

Have our graduates stay abreast of emerging technologies, continually learn new skills, and actively participate in professional communities to nourish ever-developing careers.

4. Professionalism & Citizenship

Have our graduates embrace cultural, societal, environmental, and ethical issues in their work to help fulfill their professional responsibilities to themselves, employers, employees, co-workers, and the local and global communities.

5. Communication & Teamwork

Have our graduates excel on multidisciplinary and multicultural teams, demonstrate leadership, and effectively employ their oral and written communication skills to resolve problems and inform, educate and persuade diverse audiences.

Program Learning Outcomes

A comprehensive set of Student Learning Outcomes (SLOs) has been derived from the Program Educational Objectives (PEOs). These SLOs comprise the knowledge and skills all Electrical Engineering students are expected to possess by the time they graduate so the PEOs can be accomplished. The SLOs are:

1. Broad Foundation

Ability to apply relevant mathematical, scientific, and basic engineering knowledge.

2. Disciplinary Foundation

Ability to apply core electrical engineering technical knowledge.

3. Laboratory

Ability to employ standard experimental techniques to generate and analyze data as well as use state-of-the-art software and instrumentation to solve electrical engineering problems.

4. Design

Ability to engage in the creative design process through the integration and application of diverse technical knowledge and expertise to meet customer needs and address social issues.

5. Communication Skills

Ability to communicate effectively both through oral presentations and the written word.

6. Interpersonal Skills

Ability to interact professionally with others in the workplace, to engage effectively in teamwork, and to function productively on multidisciplinary group projects.

7. Engineering Ethics

Ability to explain an engineer's responsibilities to employers, society, and their fellow engineers as well as an ability to recognize potential and actual ethical problems, analyze critically those situations, and formulate sound ethical decisions.

8. Engineering Society

Ability to explain the symbiotic relationship between engineering and society specifically, how engineering artifacts are shaped by and incorporate human values as well as the ways in which engineering solutions impact society and the larger social obligations this entails for engineers.

9. Life-long Learning

Skills necessary to engage in life-long learning and an understanding of the need to continually exploit those skills in refining and updating one's knowledge base.

Educational Opportunities

In addition to the Student Learning Outcomes which apply to all EE students, there exist various other educational opportunities which qualified and motivated students may choose to take advantage of. The most important of these include:

10. Research

Ability to formulate and answer empirical and theoretical questions through participation in undergraduate research projects for interested and qualified students.

11 Leadership

Awareness of the need for engineering leaders both within the profession and the larger community, as well as some preparation to assume those leadership roles.

12. Entrepreneurship

Knowledge of the technology entrepreneurship process and business skills to be able to work effectively as employers of leaders of technology startup ventures, industrial firms, or government.

Admission to the Major

Admission requirements for the Electrical Engineering major are determined by the A. James Clark School of Engineering. See Chapter 6 for the Clark School admission requirements. For details on the University's requirements and general admission procedures please see Chapter 1.

Requirements for the Major

Requirements for the Electrical Engineering major include thorough preparation in mathematics, physics, chemistry, and engineering science. Elective courses must include both Electrical Engineering courses and technical courses outside the department. Students must earn a grade of "C-" or higher in all engineering, mathematics, and science courses, as well as the prerequisites for these courses. A sample program is shown below.

++ Effective with the Fall 2009 freshmen admit class, students will be required to follow the new curriculum above. Students enrolled prior to Fall 2009 or students enrolled in parallel programs at other 2 and 4 year institutions should follow the old requirements. However, records will be reviewed when necessary on an individual basis during the phase in/out period, and adjustments made in degree requirements.

*Students must complete ENEE140 or pass the exemption exam or AP CS exam before taking ENEE150.

** Note: Please see www.4yearplans.umd.edu.

***Must come from list of approved Math courses within free technical elective list.

****Must come from list of courses approved for free technical electives with at least two elective EE courses taken from the same specialty area.

Technical Elective Requirements

Effective Fall 2008, all entering BSEE students must:

1. Distribute their 13 credits of EE technical electives among the following course categories:

Category A. Advanced Theory and Applications: minimum of 3 credits

Category B. Advanced Laboratory: minimum of 2 credits

Category C. Capstone Design: minimum of 3 credits

Note: ENEE499, Senior Projects in Electrical and Computer Engineering, may be used to satisfy either the Category A or the Category B requirement subject to approval by the faculty supervisor and the Associate Chair; it cannot be used as a Category C course. The maximum number of ENEE499 credits that may be applied towards EE technical elective requirements is five.

2. Distribute their 9 credits of free technical electives as follows:

a. They may be any upper-level course (300 level or higher) from the math, engineering, and basic science disciplines whose courses start with the following prefixes and who do not appear on the list of unacceptable courses available from the Undergraduate Studies Office: AMSC, BCHM, BIOE, BSCI, CHEM, CMSC, ENAE, ENCE, ENCH, ENEE, ENES, ENFP, ENMA, ENME, ENNU, ENRE, MATH, PHYS, and STAT. The most up-to-date list of approved and unacceptable courses will always be available from the Undergraduate Studies Office and on the ECE website.

b. They may be any upper-level course (300 level or higher) whose prefix is not given in the list above, assuming that the student: (i) completes the application to allow the course to count as a free elective, (ii) demonstrates how this course complements the student's professional goals, and (iii) receives the signed approval of the Associate Chair for Undergraduate Education. If more than one course is taken via this option, all of those courses must have a closely-related theme.

3. Have two courses from the same ENEE specialty area. A list of courses grouped according to specialty area is available from the Undergraduate Studies Office and on the ECE website.

If you have any questions about how these requirements affect your current selection of senior EE electives, please contact an advisor.

Technical electives for students admitted Spring 2001 - Spring 2008:

The 13 credits of EE technical electives among the following course categories:

		Credits
Category A	Advanced Theory and Applications	minimum of 3
Category B	Advanced Laboratory	minimum of 2
Category C	Capstone Design	minimum of 3

Please read carefully, and make a note of, the following special cases and other items:

1. Two credits of ENEE499, Senior Projects in Electrical and Computer Engineering, may be used to satisfy the Advanced Laboratory requirement subject to approval by the faculty supervisor and the Associate Chair. The maximum number of ENEE499 credits that may be applied towards EE technical elective requirements is five.

2. Additional Capstone Design courses can be used as substitutes for

- the required Advanced Theory and Applications course; and/or
- the required Advanced Laboratory course, provided one of the following is completed: ENEE408A, 408B, 408C, or 408F.

3. Completion of ENEE408A and ENEE459A satisfies both the Capstone Design and Advanced Laboratory requirements.

4. If you have any questions on how these requirements affect your current selection of senior EE electives, please contact an advisor.

Advising

All ECE faculty members provide mentoring for undergraduate students and every student is assigned a mentor starting their first semester in the major. Additional advising is provided by the Associate Chair for Undergraduate Education and the professional advising staff of ECE Undergraduate Studies Office. Departmental permission is required in order for students to register and for all courses in the major. The Department's Undergraduate Studies Office (2426 A.V. Williams Building, 301-405-3685) is the primary point of contact for undergraduates with advising questions and detailed curriculum requirements, registration information, and advising and mentoring procedures can be found on the ECE Undergraduate Advising website:

<http://www.ece.umd.edu/undergrad/advising>.

Undergraduate Research Experiences

The Department of Electrical and Computer Engineering is affiliated with more than 40 specialized laboratories, supporting activities including: speech and image processing, high performance systems, mobile computing and multimedia, communication networks, robotics, control systems, neural systems, systems integration, VLSI design and testing, experimental software engineering, semiconductor materials and devices, photonics, fiber optics, ion beam lithography, real-time systems, human-computer interaction, and virtual reality. Undergraduate students are encouraged to engage in research at some point during their education. Active participation in research not only allows students to apply what they have learned in class, it also gives them greater insight into a specific area within ECE and an appreciation for the subtleties and difficulties associated with the production of knowledge and fundamental new applications. Research experience also prepares students for the demands of graduate school and the work force. Information on participating in undergraduate research can be found at <http://www.ece.umd.edu/undergrad/courses/400-level/enee499>.

The ECE department also offers unique summer research programs. The Maryland Engineering Research Internship Team program offers research opportunities for top undergraduates from across the country interested in using computer engineering skills and tools to address important biosystems applications. The Transportation Electrification program (<http://reu.ece.umd.edu/>) offers research opportunities for students interested in sustainable transportation systems, particularly in power electronics, energy storage (battery, ultracapacitor and fuel cell), optimization and mathematical modeling of grid-integrated vehicles, and sustainable transportation.

Internships

Information on internships can be found at www.coop.eng.umd.edu. Other internships are advertised by the ECE Department's Office of External Relations, and Undergraduate Studies Office.

Co-op Programs

Participation in a Cooperative Education Program or internship with private industry or a government agency is strongly encouraged. See the A. James Clark School of Engineering catalog entry for details.

Honors Program

The Electrical and Computer Engineering Honors Program (<http://www.ece.umd.edu/undergrad/honors>) is intended to provide a more challenging and rewarding undergraduate experience for students pursuing the baccalaureate in Electrical or Computer Engineering. The program requires students to complete honors versions of four junior level electrical engineering courses and a research project during the senior year. Students completing all program requirements with a "B" average (3.0 on a 4.0 scale) and a cumulative GPA of 3.0 for all undergraduate work will have their participation noted on their B.S. diploma. Students with the necessary academic qualifications are invited to enroll typically after the completion of their sophomore year.

Student Societies and Professional Organizations

The ECE Department has an active student chapter of the Institute of Electrical and Electronics Engineers (IEEE). Information and instructions for joining can be found on their website (<http://umd.orgsync.com/org/ieee/home>). Equally active is the Gamma Xi chapter of Eta Kappa Nu honor society which is dedicated to recognizing excellence in electrical and computer engineering. Information on eligibility can be obtained by visiting their website (<http://ece.umd.edu/hkn/>). The ECE Undergraduate Student Council (USC) represents the entire ECE undergraduate student body. The ECE-USC hosts undergraduate social events, provides feedback to the Department, and oversees the ECE undergraduate student lounge. For more details visit the ECE-USC website (www.ece.umd.edu/eceusc/). Additionally, there is also a program for Women in Electrical and Computer Engineering (WECE) and a group called the Leaders in ECE, who serve as our ambassadors, give insight to new and prospective students, and participate in departmental events such as our

"International Day" when we celebrate the cultural diversity of the students and faculty in our department.

Scholarships and Financial Assistance

Several scholarships are administered through the department and many others through the Clark School of Engineering. To be considered for these awards, students must submit an application by May 1st of each year for the following academic year. For more information visit: www.ursp.umd.edu/scholarships/index.html.

In addition, the Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

The Department of Electrical and Computer Engineering offers the following awards: 1. Outstanding academic performance award to a junior for academic excellence; 2. Service award to the graduating senior who has shown a commitment of service to fellow students; and 3. Chair's Award for outstanding academic performance to a graduating senior.

Job Opportunities

Electrical engineers were primarily responsible for the recent revolutions in the music, telecommunications and medical device industries. They remain at the forefront of cutting edge developments and innovations in nanotechnology, robotics, and other technologies. Electrical engineers also have wide ranging employment opportunities in other fields including electronics, microelectronics, communications and signal processing, power systems, electrophysics, computer architecture, circuits, and control systems. Specific jobs include developing fiber optic technology, lasers for biomedical applications, software for robots, electronic weapons systems, advanced wireless networks, and neuron-like sensors for various applications.

Elementary Education (TLPL)

english@umd.edu

Chair: A. Bailey

Director: C. Walter

Professors: E. Arnold, J. Auerbach, C. Caramello, K. Cartwright, M. Casey, W. Cohen, T. Coletti, M. Collier, M. Collins, J. Donawerth, N. Fraistat, D. Hamilton, L. Kauffman, T. Leinwand, R. Levine, H. Norman, M. Olmert, B. Pearson, S. Plumly, S. Ray, B. Richardson, L. Rosenthal, M. Smith, O. Wang, M. Washington, J. Weiner, D. Wyatt

Associate Professors: A. Bailey, R. Bauer, T. Chico, L. Coleman, K. Coles, J. Enoch, O. Gaycken, M. Israel, S. Jelen, M. Kirschenbaum, K. Kraus, M. Lindemann, P. Mallios, T. Moser, Z. Nunes, R. Ontiveros, G. Passannante, K. Robertson, J. Rudy, V. Valiavitcharska, C. Walter, S. Wible, E. Wong

Assistant Professors: C. Adsanatham, S. Balachandran Orihuela, J. Fleming, M. Kill, L. Konstantinou, E. Mitchell, S. Trudell

Lecturers: E. Robinson

Professors Emeriti: J. Auchard, V. Beauchamp, A. Berlin, J. Bryer, V. Carretta, R. Coogan, S. Cooper, R. Cross, J. Fahnestock, V. Flieger, G. Hamilton, E. Hammond, R. Harrison, H. Herman, N. Isaacs, R. Jellema, R. Kolker, L. Lawson, S. Leonardi, S. Logan, M. Mack, M. Marcuse, C. Peterson, W. Peterson, L. Ryan, M. Trousdale, R. Vitzthum, C. Winton

The Major

The English major has four parts: English 301, Group I Requirements, Group II Requirements, and Emphasis/Elective Requirements. English 301 is a required course and should usually be taken in the first semester after a student becomes an English major. Group I Requirements provide a broad foundation in literary history and an awareness of questions an inquiring reader might ask of a text. Group II Requirements explore in greater depth both literary periods and literary themes across periods, and develop skills in reading, criticism, writing, and research. The Emphasis/Elective Requirements allows students to focus on their personal interests within the major.

- The major requires 36 credits beyond the University's Fundamental Studies requirements. At least 30 of the 36 credits must be at the 300- or 400-level; at least 12 credits must be 400-level.
- A "C-" or better is required in each course making up the 36 credits of the major.
- An overall GPA of 2.0 in the major is required for graduation.
- Three credits of ENGL388 (Internship) may be included in the 36 credits of the major.
- Only 6 credits of ENGL429 (Independent Study) may be included in the 36 credits of the major.
- Only 9 credits of ENGL379 (Special Topics) may be included in the 36 credits of the major.
- Only 9 credits of ENGL428 (Seminars) may be included in the 36 credits of the major.

Program Objectives

The English major has been designed to give students an overview of the history and variety of literature written in English; to use the critical study of language and literature to help students think carefully and express themselves well; and to introduce students to the debates about literature and culture that shape our intellectual lives and our national and global conversations. Our hope is that our graduates will enter the world with the sophistication, critical acumen, and sympathy born of wide reading and with the skills needed to carry their convictions into action, no matter what line of work they pursue.

Program Learning Outcomes

- Students will be able to analyze texts critically.
- Students will be able to write persuasively.
- Students will be able to conduct research in English studies.
- Students will be able to communicate the importance of studying literature, rhetoric, and writing across time and from various perspectives.

Requirements for the Major

The English major requires 36 credits distributed as follows:

	Credits
ENGL301: Critical Methods in the Study of Literature	3

English majors must take ENGL 301 before they take other 300- or 400-level English courses. We strongly recommend it be taken during the sophomore year.

GROUP I REQUIREMENTS (<i>One course to be taken in each area</i>)	9
Literary and Cultural History	3
Literary, Linguistic, or Rhetorical Analysis	3
Literature of African-Americans, Peoples of Color, Women, and/or Lesbians, Gays, Bisexuals, and Transgendered	3

GROUP II REQUIREMENTS	12
<i>All courses to be taken at the 300- and 400-level. At least 12 credits within Group II and the Emphasis/Elective Requirements must be at the 400-level.</i>	
Writing before 1800 (two courses)	6
Modern British, Anglophone, and/or Postcolonial Writing after 1800 (one course)	3
American, African American, and/or U.S. Ethnic Writing (one course)	3

EMPHASIS/ELECTIVE REQUIREMENTS	12
<i>All course to be taken at the 300- and 400- level. At least 12 credits within Group II and the Emphasis/Elective Requirements must be at the 400-level.</i>	

Four English emphasis courses which may follow a designated pathway if the student desires. Students may also count one 300- or 400-level literature course in a literary tradition other than English, either in the original language or in translation, as an elective.

Students pursuing the major should review the academic benchmarks established for this program. See: www.4yearplans.umd.edu. Students will be periodically reviewed to insure they are meeting benchmarks and progressing to the degree. Students who fall behind program benchmarks are subject to special advising requirements and other interventions.

English and English Education Double Major

In conjunction with the College of Education, the English Department offers a special 125-credit program for students wishing to double major in English and English Education, allowing them to earn a certificate to teach English at the secondary level. For a list of requirements, contact the English Undergraduate Studies Office (1128 TWS, 301-405-3825).

All courses presented for the major must be passed with a grade of "C-" or better. An overall GPA of 2.0 in the major is required for graduation.

Requirements for the Minor

Requirements for the Creative Writing Minor

The minor in Creative Writing offers students the opportunity to engage deeply with their own writing and that of their peers in a graduated series of workshops led by professional writers of poetry and prose.

The Creative Writing minor's 15 credits consist of the following:

- Three credits at the 200-level (ENGL271 or ENGL272 or ENGL273 or AASP274/ENGL274)
- Three credits at the 300-level (ENGL352 or ENGL353)
- Six credits at the 400-level (two sections of ENGL498 or of ENGL499)
- Three credits in any upper-level English literature course

After admission to the minor, students choose to specialize in either prose (352, 498) or poetry (353, 499). Students admitted directly to a 300-level workshop must take three workshops (9 credits) at the 400-level.

No course grade below the grade of C- may count toward the minor. An overall GPA of 2.0 in the minor is required for graduation.

Requirements for the Professional Writing Minor

1220 Tawes Hall
301-405-3763
pwminor@umd.edu

For students who wish to specialize in public and professional writing as an area of expertise and for students who wish to communicate their discipline through writing, the Professional Writing minor offers opportunities to engage deeply with the theory and practice of writing, editing, and designing both print and digital documents for professional workplaces, civic organizations, and community deliberations. Students will develop electronic portfolios throughout their minor coursework as a means to showcase their professional writing knowledge and skills. Writing-focused internships will be encouraged, although not required, in the later stages of coursework.

Successful completion of the Professional Writing minor requires the following:

A. Fifteen credit hours of coursework consisting of:

- 1) Three credits in ENGL 297: Introduction to Professional Writing
- 2) Twelve credits from the following courses, including at least nine credits at the 300 or 400 level and three credits at the 400 level:

ENGL281: Standard English Grammar, Usage, and Diction (See Note 1)

ENGL282: Introduction to Rhetorical Theory

ENGL291: Intermediate Writing

ENGL292: Writing for Change

ENGL293: Writing in the Wireless World

ENGL381: MGA Legislative Seminar (See Note 2)

ENGL384: Concepts of Grammar (See Note 1)

ENGL388M: Writing Internship: Maryland General Assembly Pre-Professional Writing Internship (See Note 2)

ENGL388P: Writing Internship: Pre-Professional Writing Skills Internship

ENGL388V: Undergraduate Teaching Assistant (UTA) Internship in Academic Writing or Professional Writing

ENGL388W: Writing Internship: Writing Center Internship

Professional Writing Program Courses:

ENGL390: Science Writing
 ENGL391: Advanced Composition: Argumentation
 ENGL392: Legal Writing
 ENGL393: Technical Writing
 ENGL394: Business Writing
 ENGL395: Writing for the Health Professions
 ENGL398A: Writing for the Arts
 ENGL398B: Writing for Social Entrepreneurship
 ENGL398C: Writing Case Studies and Investigative Reports
 ENGL398E: Writing for Economics
 ENGL398L: Scholarly Writing in the Humanities
 ENGL398N: Writing for Non-Profit Organizations
 ENGL398R: Writing Non-Fiction Narratives
 ENGL398V: Writing for the Environment

ENGL487: Foundations of Rhetoric

ENGL488: Topics in Advanced Writing

ENGL493: Advanced Writing Theory and Practice

ENGL494: Editing and Document Design

B. Submission of an electronic professional writing portfolio

Successful completion of the Professional Writing minor also requires the submission of a writing portfolio during a student's final semester. This portfolio must be submitted to the minor advisor by November 1 for fall semester graduation or April 1 for spring semester graduation. The electronic portfolio must contain, at a minimum, the following material: 1. A welcome page; 2. Six finished, polished texts written by the student in Professional Writing minor courses; and 3. A reflective essay that analyzes how these documents demonstrate the student's achievement of the minor's learning outcomes. The minor advisor will confirm that each portfolio meets these minimum requirements.

Notes:

1. Credit toward the minor will be granted for only one of these two courses: ENGL281 or ENGL384.
2. ENGL381 is a prerequisite for ENGL388M.
3. A student cannot count toward the Professional Writing minor the PWP course that he or she takes to fulfill the Fundamental Studies Professional Writing requirement for the University of Maryland General Education Program. Only a second PWP course can be used to fulfill the Professional Writing minor requirement. Advisors will encourage students to select a second PWP course only if it complements the students' academic or professional goals.
4. Students may satisfy up to three credits of the nine-credit 300- or 400-level coursework requirement through documented writing-intensive professional or internship experience. Students must submit an acceptable portfolio of workplace writing to the Professional Writing minor advisor in order to have these three credits count toward their minor.
5. Following university policy, English majors may count two Professional Writing minor courses toward both the requirements for the English major and the Professional Writing Minor.

Students must be accepted into the minor no later than the start of the semester before the semester in which they plan to graduate.

All courses presented for the minor must be passed with a grade of "C-" or better.

An overall GPA of 2.0 in the minor is required for graduation.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/undergraduate/academics/minors.

Requirements for the Rhetoric Minor

The minor in Rhetoric is an interdisciplinary program offered through the cooperation of the Department of English and the Department of Communication. Requirements are listed in the Communication section of the catalog.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/undergraduate/academics/minors.

Advising**Advising**

Academic advising is available throughout the year in 1128 Tawes Hall. Departmental academic advising is mandatory for all majors each semester. Students should check One.UMD (<https://one.umd.edu/>) for their registration date and schedule an advising appointment for at least one week in advance of that date. The English Department also offers internship and career advising. Advising appointments can be made by calling 301-405-3825 or by visiting the English Undergraduate Studies Office in 1128 Tawes Hall. For information, visit: www.english.umd.edu/academics/undergraduate/advising.

The Writing Center

The Writing Center, 1205 Tawes Hall, 301-405-3785, provides free tutoring to undergraduate students with writing assignments. Appointments are recommended, but walk-ins are welcome based on availability of tutors. Appointments can be made by calling the Writing Center or visiting its website. Students, faculty, and staff with questions about punctuation, sentence structure, word choice, or documentation can call the Writing Center's Grammar Hotline at 301-405-3785. For information, visit: www.english.umd.edu/academics/writingcenter.

Internships

The department both sponsors internships and offers credit for outside pre-professional internships. Departmental internships include: Maryland General Assembly Internship, Dickinson Electronic Archives Digital Humanities Internship, Romantic Circles Internship, Maryland Institute for Technology in the Humanities (MITH) Internship, Writing Center Internship, Undergraduate Teaching Assistants in Writing Programs Internship, and Pre-Professional Writing Skills Internship. Students must have completed their Professional Writing requirement and have a 2.5 overall GPA to be eligible for English Department internship credit. For more information, please make an appointment with our Internship Advisor by calling (301) 405-3825. For information, visit: www.english.umd.edu/academics/undergraduate/internships.

Honors Program

The English Honors Program offers lively and challenging seminars, the opportunity to do a long-term project in an area of special interest, and the sort of intellectual and literary community that you might find at a small liberal arts college. Students work closely with faculty members and peers in seminars and on a senior project. Interested students should ask for details from an English Department advisor as early as possible in their college careers. For information, visit: www.english.umd.edu/academics/undergraduate/honors.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

Academic Excellence in English

The English Department Academic Excellence Awards are presented each term to students graduating in English with the most outstanding academic records in their coursework in the major. Winners receive a certificate and a signed book from the department.

Henrietta Spiegel Creative Writing Award

This award is bestowed each spring to honor undergraduate work in creative writing judged by the Creative Writing faculty to be the most outstanding. It is named for the oldest person ever to complete an undergraduate degree at the University of Maryland (B.A. in English, 1989, at age 92).

Joseph W. Houppert Memorial Prize

This prize, named for a distinguished member of the department who served from 1963 until his death in 1979, is awarded each spring to the undergraduate who has written the best essay on Shakespeare during the academic year.

Joyce Tayloe Horrell Award

This award, in memory of a master teacher in the English Department from 1960 to 1967, is conferred annually on the English major who has demonstrated the highest academic achievement among the graduating class.

Sandy Mack Award for Outstanding Work in English Honors

This prize, which is given each spring to the student with the most outstanding overall record in English Honors, is named for the faculty member who developed the English Honors Program and guided it for many years.

Sara Ann Soper Undergraduate Service Award

This award honors a graduating senior who has volunteered time, energy, and commitment to community service. It memorializes the mother of a 1989 English graduate, Shannon Altman, who endowed it.

English Education (TLPL)

For more information see Teaching and Learning, Policy and Leadership in [Chapter 7](#).

Entomology (ENTM)

College of Computer, Mathematical, & Natural Sciences

4112 Plant Sciences Building, 301-405-3911

www.entm.umd.edu

Chair: L. Pick (Prof & Chair)

Director: B. Kent (Inst & Dir)

Professors: A. Brown, M. Ma, C. Mitter, D. O'Brochta, M. Palmer, M. Raupp, R. StLeger, S. Via

Associate Professors: D. Gruner, D. Hawthorne, C. Hooks, W. Lamp, M. Neel, P. Shrewsbury, J. Shultz, J. Wang

Assistant Professors: K. Hamby, D. Vanengelsdorp

Senior Lecturer: T. O'Brien (Lecturer)

Lecturers: L. Shapiro (Lecturer), M. Shofner (Lecturer)

Affiliate Professors: G. Brust

Affiliate Associate Professors: U. Pal, L. Wu

Adjunct Professors: D. Davis, C. Labandeira, W. Mathis, D. Miller, J. Pettis, R. Robbins, M. Schauff, T. Schultz

Adjunct Associate Professors: J. Lill, S. Lingafelter, S. Scheffer

The Major

See Biological Sciences Program.

Program Objectives

See Biological Sciences Program.

Program Learning Outcomes

See Biological Sciences Program.

Admission to the Major

See Biological Sciences Program.

Placement in Courses

See Biological Sciences Program.

Requirements for the Major

Undergraduate students interested in Entomology should declare the General Biology specialization within the Biological Sciences Program (see separate listing). Students should also contact the Entomology Director of Undergraduate Studies for information on pursuing a career in Entomology.

Requirements for Specialization

See the Biological Sciences Program listing in this catalog, or contact the Entomology Director of Undergraduate Studies for the General Biology requirements.

Advising

Advising is non-mandatory, but recommended in the Biological Sciences Program. The Department of Entomology faculty coordinate and advise students in the General Biology (GENB) specialization whose last names begin with the letters A through M. Contact the Department of Entomology (301-405-3911) for information about advising or to schedule an appointment with the Entomology Director of Undergraduate Studies. For advising on other Biological Sciences Program specializations, see the Biological Sciences Program listing in this catalog.

Undergraduate Research Experiences

Students in the Biological Sciences Program can engage in research with Entomology faculty either in either departmental or off-campus facilities. Contact the Entomology Director of Undergraduate Studies for more information.

Fieldwork Opportunities

Students in the Biological Sciences Program can engage in fieldwork related to either basic or applied research with Entomology faculty. Contact the Entomology Director of Undergraduate Studies for more information.

Honors Program

The Entomology Honors Program provides the opportunity for highly motivated and academically qualified undergraduates to engage in original, independent research under the guidance of an Entomology faculty mentor. The program is open to all Biological Science Program students who have (1) junior standing (including at least twelve credits within the major), (2) a minimum overall GPA and major courses GPA of 3.2, and (3) a Department of Entomology faculty member who has agreed to serve as their mentor. Contact the Entomology Honors Director, Dr. William Lamp (lamp@umd.edu) for more information. Participants in the Entomology Honors Program are eligible for the Ernest N. Cory Undergraduate Scholarship.

Environmental Science and Policy (ENSP)

College of Agriculture and Natural Resources

0220 Symons Hall, 301-405-8571

www.ensp.umd.edu

jsull@umd.edu

Director: J. Sullivan (Interim Director)

Lecturers: J. Goger (Lecturer), J. Murrow (Lecturer), G. Schnaar (Lecturer)

The Major

Environmental Science and Policy is a broadly multi-disciplinary, undergraduate major, drawing courses and faculty from 8 departments and three Colleges (the Colleges of Agriculture and Natural Resources; Behavioral and Social Sciences; Computer, Mathematical, and Natural Sciences). New ENSP students begin in the College of Agriculture and Natural Resources, where they will be guided through a structured, exploratory advising process. ENSP students are expected to declare a concentration by the end of their third semester in the program and, once they declare their concentration, will move administratively to the College and department sponsoring the concentration. There, they are advised by a faculty member in their discipline. The ENSP faculty and staff aspire to provide a strong identity for the students enrolled in this major, and we encourage students to take advantage of the rich resources available at a Research I Public University. Experiential learning through research, internships, and study abroad is strongly encouraged.

Program Objectives

The curriculum of Environmental Science and Policy comprises an introductory core of lower-level courses in environmental science, environmental policy, biology, chemistry, earth sciences, geography, economics, calculus, and statistics. This is followed by in-depth and focused training in one of eleven areas of concentration in biological resources, earth systems, or the human dimensions of the field; and two upper-level courses in applied science and policy. The educational philosophy of the program is to train students broadly using a multi-disciplinary approach at the introductory level so that they are exposed to the myriad ways there are to learn about environmental systems and to address human-environment issues. This introductory approach precedes the concentration in which the students are prepared for post-graduate study or work in a discipline-based field. The combination of the lower-level core courses and upper-level depth in a concentration prepares graduates to work and study independently or as members of teams in which they will be asked to be experts in one area, while understanding and using effectively other natural and social science knowledge and investigative approaches.

Admission to the Major

Incoming students who wish to enter ENSP may do so by selecting ENSP-Undeclared (Science) or ENSP-Undeclared (Policy) on their application for admission. On-campus students may declare ENSP during a meeting with the Assistant Director. Please review the ENSP website at www.ensp.umd.edu to learn about the program and its requirements prior to your first advising meeting.

Requirements for the Major

ENSP Core

1. Two introductory courses and three credits each semester, emphasizing Environmental Science in ENSP101 and Environmental Policy in ENSP102.
2. At least one course each from **four** of the following **five** groups:
 - a. Biology (BSCI160&161)
 - b. Chemistry (CHEM131/132)
 - c. Earth Sciences (AOSC200/201, ENST200, GEOG201/211, GEOL100/110, GEOL120/110)
 - d. Economics (AREC240, AREC241, ECON200)
 - e. Geography (GEOG130, 140, 170, 202)
3. One semester of Calculus (MATH130, MATH140 or MATH120 or MATH220)
4. One semester of Statistics (BIOM301, ECON321, PSYC200, SOCY201, STAT400)
5. One course in Applied Environmental Science and Policy (ENSP305, ENSP330, ENSP340, ENSP342, ENSP350), to be taken in the junior or senior year.
6. The Capstone course (ENSP400 in the senior year)

Areas of Concentration

Biodiversity and Conservation Biology; Environment and Agriculture; Environmental Economics; Environmental Geosciences and Restoration; Environmental Politics and Policy; Global Environmental Change; Land Use; Marine and Coastal Management; Society and Environmental Issues; Soil, Water, and Land Resources; Wildlife Ecology and Management. *Changes may occur in concentrations. Students should consult the program office or visit the ENSP web site (www.ensp.umd.edu) for updated information.*

Grading Policy

Students who entered the Environmental Science and Policy Program (ENSP) in spring 2002, and thereafter, are required to earn grades of "C-" or higher in all courses taken within the ENSP core, in all required courses, and restricted electives of the selected area of concentration.

Advising

Advising is mandatory for all ENSP students in all areas of concentration, regardless of GPA, concentration, or credit level. We want to help you meet program requirements while achieving your academic and career goals. Refer to the ENSP webpage at www.ensp.umd.edu to find advisor assignments.

Undergraduate Research Experiences

We encourage all interested students to gain research experience. Many beginning ENSP students gain their first research experience by participating in the Maryland Student Researchers Program, which is coordinated by the Maryland Center for Undergraduate Research. More advanced students gain research experience working with their faculty members; in a field assistantship at the USDA - Beltsville Agricultural Research Center or the US FWS - Patuxent Wildlife Research Refuge; or by participating in an NSF-sponsored Research Experience for Undergraduates (REU). Additionally, highly motivated and capable students are encouraged to enroll in Honors-in-ENSP to pursue a self-directed, individual project. Details about all of these opportunities are available on our website.

Internships

Practical experience is an important part of learning. Whether gained by volunteering, clubs, internships, and/or research -- all experience contributes to students' professional development, helps determine what they enjoy doing, and makes classwork more meaningful. ENSP maintains an extensive list of internship opportunities on its website (www.ensp.umd.edu) and students receive weekly listserv announcements generated from the Advising Blog (<http://www.enspadvisingnews.blogspot.com>). Six of ENSP's concentrations require an internship; and most ENSP students complete at least two such experiences. To earn credit for an internship, review program requirements on the program webpage and contact the Assistant Director at (301)405-8571 regarding ENSP386 - Internship in Environmental Science and Policy.

Honors Program

The Honors Program in Environmental Science and Policy provides energetic and capable undergraduates the opportunity to engage in independent study. Interested students must have 45-75 credits at the time of application; a cumulative GPA of 3.25 or higher; and a 3.5 or higher in all courses required for ENSP. Transfer students with equivalent academic records are also encouraged to apply. All students who meet the application requirements are eligible to apply; they need not have been a member of University Honors Program. The research will be conducted under the supervision of a faculty mentor, usually in the student's area of concentration, and will result in an Honors thesis. More information about admission, program requirements, and academic resources is available on the website www.ensp.umd.edu.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu

Associate Research Scientist: J. Riter (Res Assoc), P. Steinhilber (Ext Assoc)

Assistant Research Professor: J. Li (Post-Doc Assoc)

Professors Emeriti: D. Fanning (Prof Emeritus), R. Weismiller

The Major

The Environmental Science and Technology major prepares students for graduate study and careers focusing on understanding the natural and built environments and resolving environmental problems and concerns for the benefit of humans and ecosystems. Specifically, the program encompasses impacts of human society on the natural environment, the effects of environmental conditions on humans and ecosystems, science-based management of ecosystems, watershed and soil-related processes related to environmental quality, and designing solutions to sustainably improve environmental quality of air, water, soil, and biological communities. The ENST major is a science- and math-based curriculum leading to a B.S. degree in Environmental Science and Technology with concentrations in Ecological Technology Design, Environmental Health, Soil and Watershed Science, or Natural Resources Management. These concentrations share a foundation in science and mathematics and offer specialization through restricted and free electives. The group of courses required for the concentrations are designed to provide students with a fundamental understanding of environmental systems and issues and the multidisciplinary quantitative design and analytical tools necessary to solve complex environmental problems. Requirements for the four concentrations are listed separately under the main ENST entry. Additionally, a minor in Soil Science is also available in the Department of Environmental Science and Technology. These requirements are listed below.

For future updates and exciting changes, please visit our website at www.enst.umd.edu.

Requirements for the Minor

Soil Science

The minor will provide students with a sophisticated understanding of the soil resources, its development, characteristics, and principles for its use and management. Building on a basic introduction to the broad field of soil science, the program is completed by adding four or five upper division soils courses balanced between underlying principles and field applications.

All courses presented for the minor must be passed with a grade of "C-" or better. Declared majors in the Soil and Watershed concentration of ENST, Conservation of Soil, Water and Environment Area of Concentration of NRSC or the Land and Water option in ENSP may not also minor in Soil Sciences.

Advising system for the minor:

The ENST Department has mandatory advising for each of its major and minor programs. Students are required to meet with their advisor at least twice a year.

Curriculum:

ENST 200 Fundamentals of Soil Science	4
---------------------------------------	---

Select 13 credits from the ten courses listed below. At least two courses must be from Group A.

Group A - Underlying Principles

ENST411 Principles of Soil Fertility	3
ENST414 Soil Morphology, Genesis & Classification	4
ENST417 Soil Hydrology and Physics	3
ENST421 Soil Chemistry	4
ENST422 Soil Biochemistry and Microbial Ecology	3

Group B - Applications

ENST308 Field Soil Morphology	1
ENST423 Soil-Water Pollution	3
ENST430 Wetland Soils	3

Total Credits: A minimum of 17 credits are required to complete this minor.

Students attempting this minor will need MATH113 or higher. There are a total of 17 required credits in ENST classes, plus a 4 credit CHEM prerequisite. Depending on the pre-requisites needed, and the optional courses selected and pre-requisites, students will take between 17 and 24 credits.

This minor is particularly relevant to students majoring in Agricultural and Resource Economics, Geology, Geography, Environmental Science and Policy, Biology, Biochemistry, Chemistry, Anthropology, Architecture, Agriculture Science and Technology, Horticulture and Crop Production, Animal Science, Landscape Architecture, Parks and Planning, Bioengineering, Civil Engineering, Environmental Engineering, Environmental Science and Technology, Natural Resources Management.

Advising

The ENST Department has mandatory advising for each of its concentrations. Students are required to meet with their advisor at least once per semester. Please contact Shannon Pederson at 301-405-1193 or shannonp@umd.edu for more information.

Internships

The ENST curricula consist of a broad set of background courses in environmental science, electives in applications, and upper-level field courses that synthesize the major. Students gain hands-on learning experience during their **required** internship.

Student Societies and Professional Organizations

RESTORE, the ENST student-run club, provides members with the opportunity to participate in educational, service, recreational, and social activities. They gain information that better prepares them for the work force, while making a positive contribution to the field of Environmental Science and Technology as well as the community.

Certifications & Professional Societies

An important aspect of professional development is earning and maintaining certification in your field. The ENST department strives to provide courses and degrees that prepare you for certification exams and aid in satisfying other requirements for professional certifications. Some relevant certifications are listed below and details can be found at www.enst.umd.edu. Membership in professional societies is an excellent method to develop a professional network and stay up to date on developments in your field.

- OSHA HAZWOPER (<https://www.osha.gov/html/faq-hazwoper.html>)
- LEED Certifications (<http://www.usgbc.org/credentials>)
- Soils Field and Laboratory Technician (<http://wacel.org/fmi/xsl/wacel/techcert.xml>)
- Certified Professional Soil Scientist (<https://www.soils.org/certifications/become-certified>)
- Certified Professional Agronomist (<https://agronomy.org/certifications>)
- Certified Crop Advisor (<https://www.certifiedcropadvisor.org/>)
- Certified Ecological Designer (<http://www.ecoeng.org/certification/certification.html>)
- Professional Wetland Scientist (<http://www.wetlandcert.org/overview.html>)
- Ecologist (http://www.esa.org/esa/?page_id=181)
- Certified Wildlife Biologist (<http://wildlife.org/>)
- Certified Fisheries Professional (<http://fisheries.org/>)
- Certified Forester (<http://www.safnet.org/certifiedforester/becomecertifiedforester.cfm>)
- Certified Natural Resources Manager (<http://www.safnet.org/certifiedforester/becomecertifiedforester.cfm>)
- Erosion and Sediment Control Certification (<http://www.sha.maryland.gov/Index.aspx?PagelD=56>)

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Additionally, ENST students are encouraged to apply for internships available to them through the College of Agriculture & Natural Resources. More details can be found here: <http://agmr.umd.edu/students/scholarships/current-student-transfer-scholarship-application>

Environmental Science and Technology: Concentration in Ecological Technology Design (ENST)

College of Agriculture and Natural Resources
1457 Animal Sciences Building, 301-405-1193
www.enst.umd.edu
shannonp@umd.edu

The Major

The ENST concentration in Ecological Technology Design prepares students for integrating natural systems with the built environment to solve environmental problems while achieving economic, ecological and social sustainability. The science and applications of using natural systems, processes and organisms to address environmental issues has evolved during the last few decades to a mature level whereby there are strong employment opportunities for graduates that are cross-educated in ecology and technology. Examples of eco-technological applications include restoration of urban and rural streams, creation of wastewater treatment wetlands, design of raingardens and bioretention systems for low-impact stormwater management, design of eco-industrial parks, life cycle assessment of products for improved environmental performance, bioremediation and phytoremediation of contaminated groundwater, ecological systems for by-product recovery, and filtration of contaminated air with bioreactors. The curriculum consists of a broad set of background courses in environmental science, electives in applications of Ecological Technology Design, and upper-level courses that synthesize the major. Hands-on design experience is included in required internship and practicum courses.

Requirements for the Major

This program requires a total of 120 credit for a Bachelor of Science, including the general education program course credits, required major credits; Technology and Ecosystem elective credits, and free elective credits.

Science and Math Fundamentals Required (50 credits):

ENST200	Fundamentals of Soil Science	4
ENST233	Introduction to Environmental Health	3
ENST360	Ecosystem Ecology	4
ENST389	Internship in Environmental Science & Technology	3
ENST471	Capstone I	2
ENST472	Capstone II	3
BSCI170&171	Principles of Molecular and Cellular Biology and Lab	4
BSCI160&161	Principles of Ecology and Evolution and Lab	4
CHEM131/132	Fund. General Chemistry & Lab	4
CHEM231/232	Organic Chemistry I & Lab	4
MATH140 or	Calculus I or	4
MATH120 or	Elementary Calculus I	4
MATH220		
MATH141or	Calculus II or	4
MATH121 or	Elementary Calculus II	4
MATH221		
PHYS121	Fundamentals of Physics I	4
BIOM301	Introduction to Biometrics	3

Depth (9 credits):

ENST405	Energy and Environment	3
ENST481	Ecological Design	3
ENST410	Ecosystem Services: An Integrated Analysis	3

Computational Techniques (2 courses - 6 credits):

GEOG373	Geographic Information Systems	3
ENST281	Computer Aided Design in Ecology	3

Applications (2 courses - 6 credits):*Choose 2 courses from the list below:*

ENST415	Renewable Energy	3
ENST452	Wetland Creation and Restoration	3
ENST443	Industrial Ecology	3
ENST452	Wetland Creation and Restoration	3
ENST477	Design for Urban Water and Energy	3
GEOL453	Ecosystem Restoration	3

Technology and Ecosystem Electives**Technology Electives (at least 6 credits¹):**

ARCH450	Introduction to Urban Planning	3
ENST415	Renewable Energy	3
ENST417	Soil Hydrology and Physics	3
ENST421	Soil Chemistry	3
ENST423	Soil-Water Pollution	3
ENST441	Sustainable Agriculture	3
ENST443	Industrial Ecology	3
ENST452	Wetland Creation and Restoration	3
ENST453	Watershed Science: Water balance, Open Channel Flow, and Near Surface Hydrology	3
ENST489Z	Water management in Urban Environment	3
GEOG372	Remote Sensing	3
GEOG473	Geographic Information Systems and Spatial Analysis	3
ENST499	Special Topics in Environmental Science and Technology	3
GEOL451	Groundwater	3
GEOL452	Watershed and Wetland Hydrology	3

Ecosystem Electives (at least 6 credits¹):

BSCI363	The Biology of Conservation and Extinction	3
BSCI373	Natural History of the Chesapeake Bay	3
BSCI464	Microbial Ecology	3
BSCI460/461	Plant Ecology & Lab	5
BSCI467	Freshwater Biology	3
ENST314	Fisheries Sustainability and Management	4
ENST334	Environmental Toxicology	3
ENST422	Soil Biochemistry and Microbial Ecology	3
ENST423	Soil-Water Pollution	3
ENST430	Wetland Soils	3
ENST432	Environmental Microbiology	3
ENST450	Wetland Ecology	3
ENST451	Water Quality: Field and Lab Analysis Methods	3
ENST453	Watershed Science	3
ENST460	Principles of Wildlife Management	3
ENST461	Urban Wildlife Management	3
ENST462	Field Techniques in Wildlife Management	2
ENST479	Tropical Ecology and Resource Management	1-6
ENST499	Special Topics in Environmental Science and Technology	1-4
ENST452	Wetland Creation and Restoration	3
GEOG331	Introduction to Human Dimensions of Global Change	3
GEOL453	Ecosystem Restoration	3
LARC450	Environmental Resources	3
ENST407/PLSC400	Plant Physiology	3
PLSC471	Forest Ecology	3

¹Courses satisfying restricted elective requirements can NOT count for Technology or Ecosystem electives. Also, Technology electives cannot be double-counted as Ecosystem electives, and vice-versa.

Advising

The ENST Department has mandatory advising for each of its concentration. Students are required to meet with their advisor at least once each semester. If you have any questions, please contact Shannon Pederson at shannonp@umd.edu.

Environmental Science and Technology: Environmental Health (ENST)

College of Agriculture and Natural Resources
 1457 Animal Sciences Building, 301-405-1193
www.enst.umd.edu

shannonp@umd.edu

The Major

Environmental health is a broad and increasingly important field with wide ranging applications in the environmental science and public health fields. The field encompasses environmental factors and ecosystem functions that affect human health and the effects of human activities on the ecosystem products and services we depend on. Example topics within the field include ecological risk analysis, environmental toxicology, environmental impact assessment, chemical fate and transport, human health risk assessment, industrial hygiene, air quality, environmental microbiology, food safety and security, biodiversity and human health, and children's environmental health. The Environmental Health concentration within the Department of Environmental Science and Technology offers a science-based curriculum that includes advanced studies in ecosystem health and environmental protection and the impacts of environmental degradation on human health.

Requirements for the Major

This program requires a total of 120 credits for a Bachelor of Science, including the general education program course credits, required major credits, and free elective credits.

Science and Math Fundamentals Required (56-57 credits)

ENST200	Fundamentals of Soil Science	4
ENST233	Introduction to Environmental Health	3
ENST360	Ecosystem Ecology	4
ENST389	Internship	3
ENST471	Capstone I	2
ENST472	Capstone II	3
BSCI170&171	Principles of Molecular and Cellular Biology and Lab	4
BSCI160&161	Principles of Ecology and Evolution and Lab	4
BSCI207	Principles of Biology III	3
BSCI223	General Microbiology	4
CHEM131/132	Fund. General Chemistry & Lab	4
CHEM231/232	Organic Chemistry I & Lab	4
CHEM241/242	Organic Chemistry II & Lab	4
MATH140 or	Calculus I or	4
MATH120 or	Elementary Calculus I	3
MATH220		
PHYS121 or	Fundamentals of Physics I or	4
PHYS117	Introduction to Physics	4
BIOM 301	Introduction to Biometrics	3

Concentration Depth (12 credits):

ENST333	Ecosystem Health and Protection	3
ENST334	Environmental Toxicology	3
ENST434 or	Toxic Contaminants: Sources, Fate & Effects or	3
ENST436	Emerging Environmental Threats	
ENST445	Ecological Risk Assessment	3

Ecosystem Health and Human Health Electives

Students will take approximately 6 credits each of Ecosystem Health and Human Health electives to tailor their program to their specific interests (total = 12 credits). Ecosystem Health electives cannot be double-counted as Human Health Electives, and vice-versa.

Ecosystem Health Electives (at least 6 credits):

ANSC252	Introduction to the Diseases of Wildlife	3
AOSC200/201	Weather and Climate & Lab	4
AOSC434	Air Pollution	3
BSCI222	Principles of Genetics	4
BSCI330	Cell Biology and Physiology	4
BSCI447	General Endocrinology	3
BSCI467	Freshwater Biology	4
BSCI473	Marine Ecology	3
CHEM271/272	General Chemistry and Energetics & Bioanalytical Lab	4
ENST314	Fisheries Sustainability and Management	4
ENST405	Energy and Environment	3
ENST415	Renewable Energy	3
ENST421	Soil Chemistry	4
ENST422	Soil Biochemistry and Microbial Ecology	3
ENST423	Soil-Water Pollution	3
ENST430	Wetland Soils	3
ENST440	Crops, Soils and Civilization	3
ENST441	Sustainable Agriculture	3
ENST443	Industrial Ecology	3
ENST450	Wetland Ecology	3
ENST451	Water Quality: Field and Lab Analysis Methods	3
ENST460	Principles of Wildlife Management	3
ENST461	Urban Wildlife Management	3

ENST462	Field Techniques in Wildlife Management	2
ENST463	Wildlife Habitat and Population Modeling	3
ENST479	Tropical Ecology and Resource Management	1 - 6
ENST499	Special Topics in Environmental Science and Technology	1 - 4
GEOG372	Remote Sensing	3
GEOG373	Geographic Information Systems	3
GEOG415	Land Use, Climate Change, and Sustainability	3
GEOL452	Watershed and Wetland Hydrology	3
LARC450	Environmental Resources	3

Human Health Electives (at least 6 credits):

BSCI201	Human Anatomy and Physiology I	4
BSCI202	Human Anatomy and Physiology II	4
BSCI330	Cell Biology and Physiology	4
BSCI417	Microbial Pathogenesis	3
BSCI422	Principles of Immunology	3
BSCI424	Pathogenic Microbiology	3
BSCI425	Epidemiology and Public Health	3
BSCI437	General Virology	3
BSCI440	Mammalian Physiology	4
ENST432	Environmental Microbiology	4
ENST436	Emerging Environmental Threats	3
ENST499	Special Topics in Environmental Science and Technology	1-4
GEOG331	Introduction to Human Dimensions of Global Change	3
GEOG431	Culture and Natural Resource Management	3
HLTH140	Personal and Community Health	3
HLTH230	Introduction to Health Behavior	3
HLTH371	Communicating Safety and Health	3
HLTH430	Health Education in the Workplace	3
NFSC430/434	Food Microbiology & Lab	6

Human Dimensions Area (at least 3 credits):

AREC240	Introduction to Economics and Environment
AREC332	Introduction to Natural Resource Policy
AREC365	World Hunger, Population, and Food Supplies
ANTH410	Theory of Practice of Health and Community Development
ANTH450	Theory and Practice of Environmental Anthropology
ENST410	Ecosystem Services: An Integrated Analysis
ENSP102	Introduction to Environmental Policy
ENSP330	Introduction to Environmental Law
ENSP340	Water: Science, Ethics, and Law
GEOG331	Introduction to Human Dimensions of Global Change
GEOG341	Culture and Natural Resource Management
LARC450	Environmental Resources
PHIL261	Philosophy of the Environment
PUAF300	Introduction to Sustainability
SOCY305	Scarcity and Modern Society
SOCY406	Globalization
SPHL400	Introduction to Global Health
SPHL401	History of Public Health
URSP250	The Sustainable City: Exploring Opportunities and Challenges

Advising

The ENST Department has mandatory advising for each of its concentration. Students are required to meet with their advisor at least once each semester. If you have any questions, please contact Shannon Pederson at shannonp@umd.edu.

Environmental Science and Technology: Natural Resources Management (ENST)

College of Agriculture and Natural Resources
 1457 Animal Sciences Building, 301-405-1193
www.enst.umd.edu
shannonp@umd.edu

The Major

The goal of the Natural Resources Management Program is to teach students concepts of the environmentally sound use and management of natural resources. Ecosystems and human societies are linked in complex cycles and relationships between vegetation and wildlife, forests and cities, conservation and development. By learning to participate effectively within these cycles, we will help sustain a harmonious relationship between the environment and human activities. This concentration provides students with the knowledge and skills they need to work in such positions as wildlife biologists, environmental consultants, wetland scientists, forest managers, fisheries biologists, aquatic biologists, and nature interpreters.

Requirements for the Major

This program requires a total of 120 credits for a Bachelor of Science, including the general education program course credits, required major credits, and

free elective credits.

Science and Math Fundamentals Required (56-58 credits):

ENST200	Fundamentals of Soil Science	4
ENST233	Introduction to Environmental Health	3
ENST360	Ecosystem Ecology	4
ENST389	Internship in Environmental Science & Technology	3
ENST471	Capstone I	2
ENST472	Capstone II	3
BSCI170&171	Principles of Molecular and Cellular Biology and Lab	4
BSCI160&161	Principles of Ecology and Evolution and Lab	4
CHEM131/132	Fund. General Chemistry & Lab	4
CHEM231/232	Organic Chemistry I & Lab	4
MATH140 or MATH120 or MATH220	Calculus I or Elementary Calculus I	3 - 4
PHYS121 or PHYS117	Fundamentals of Physics I or Introduction to Physics	4
BIOM301	Introduction to Biometrics	3

Natural Resources Breadth (15-16 credits):

GEOG373	Geographic Information Systems	3
ENST214	Introduction to Fish and Wildlife	3
ENST406	Applied Forestry Practices	3
ENST450 or ENST453	Wetland Ecology (3) or Watershed Science: Water Balance, Open Channel Flow, and Near Surface Hydrology (3)	3
AREC240 or SOCY305	Introduction to Economics and the Environment (4) or Scarcity and Modern Society (3)	

Ecosystem Services (3 credits):

ENST410	Ecosystem Services: An Integrated Analysis	3
---------	--	---

Human Dimensions (5 credits):

ENST404	Natural Resources and Environmental Ethics	3
ENST487	Environmental Conflicts and Decision Making	2

Resource Management and Science Electives

Students will take approximately 6 credits each of Resource Management and Resource Science electives to tailor their program to their specific interests for a total of 12 credits. Resource Management electives cannot be double-counted as Resource Science Electives, and vice-versa. This is not an exhaustive list of electives; other science and management courses can be substituted with advisor approval.

Resource Management Electives (6 credits):

ANSC453	Animal Welfare and Bioethics	3
ANTH450	Theory and Practice of Environmental Anthropology	3
AREC365	World Hunger, Population, and Food Supplies	3
AREC445	Ag. Development, Population Growth and the Environment	3
BSCI207	Principles of Biology III	3
BSCI334/BSCI335	Mammalogy & Mammalogy Laboratory	4
BSCI363	The Biology of Conservation and Extinction	3
BSCI366	Biodiversity Issues in Conservation Management	3
ECON315	Economic Development of Underdeveloped Areas	3
ENST314	Fisheries Sustainability and Management	3
ENST405	Energy and Environment	3
ENST423	Soil-Water Pollution	3
ENST440	Crops, Soils and Civilization	3
ENST441	Sustainable Agriculture	3
ENST444	Restoration Ecology	3
ENST460	Principles of Wildlife Management	3
ENST461	Urban Wildlife Management	3
ENST462	Field Techniques in Wildlife Management	2
ENST463	Wildlife Habitat and Resource Modeling	3
ENST479	Tropical Ecology and Resource Management	3
GEOG340	Geomorphology	3
GEOG372	Remote Sensing	3
GEOG472	Remote Sensing: Digital Processing and Analysis	3

GEOG473	Geographic Information Systems and Spatial Analysis	3
GEOL437	Global Climate Change: Past and Present	3
LARC450	Environmental Resources	3
LARC451***	Sustainable Communities	1-6
PLSC171	Introduction to Urban Forestry	3
PLSC201	Plant Structure and Function	4
PLSC253	Woody Plants for Mid-Atlantic Landscapes	3
PLSC471	Forest Ecology	3

Resource Science Electives (6 credits):

ANSC252	Introduction to the Diseases of Wildlife	3
ANSC452	Avian Physiology	3
BSCI360	Principles of Animal Behavior	3
BSCI362	Ecology of Marsh and Dune Vegetation	2
BSCI373	Natural History of the Chesapeake Bay	3
BSCI374	Chesapeake Bay Laboratory	2
BSCI375	Biological Oceanography	3
BSCI440	Mammalian Physiology	4
BSCI441	Mammalian Physiology Laboratory	2
BSCI442	Plant Physiology	4
BSCI462	Population Ecology	3
BSCI463	Laboratory and Field Ecology	2
BSCI464	Microbial Ecology	3
BSCI467	Freshwater Biology	4
BSCI473	Marine Ecology	3
BSCI481	Insect Diversity and Classification	4
BSCI493	Medicinal and Poisonous Plants	3
ENST301-3	Field Soil Morphology	1-3
ENST414	Soil Morphology, Genesis and Classification	4
ENST421	Soil Chemistry	4
ENST422	Soil Biochemistry and Microbial Ecology	3
ENST430	Wetland Soils	3
ENST450	Wetland Ecology	3
ENST451	Water Quality: Field and Lab Analysis Methods	3
GEOG345	Introduction to Climatology	3
GEOG440	Advanced Geomorphology	3
GEOL444	Low Temperature Geochemistry	4
GEOL451	Groundwater	3
GEOL452	Watershed and Wetland Hydrology	3
PLSC453	Weed Science	3

***Must take at least one other additional course, 6 credits of LARC 451 does not fulfill requirement.

Advising

The ENST Department has mandatory advising for each of its concentration. Students are required to meet with their advisor at least once each semester. If you have any questions, please contact Shannon Pederson at shannonp@umd.edu.

Environmental Science and Technology: Concentration in Soil and Watershed Science (ENST)

College of Agriculture and Natural Resources
 1457 Animal Sciences Building, 301-405-1193
www.enst.umd.edu
shannonp@umd.edu

The Major

The Soil and Watershed Science concentration enables students to understand the complex ways in which aquatic and terrestrial ecosystems are influenced by soil properties and processes and land management decisions. The soil performs such critical ecological functions as supplying and purifying water, recycling wastes, nurturing plants, modifying the atmosphere by emitting or sequestering gases and particulates, providing habitat for the most diverse biological communities on Earth, and serving as a medium for human engineering projects.

The concentration in Soil and Watershed Science in ENST provides students with one of the top soil science programs in the nation. The curriculum prepares graduates for work in variety of careers addressing natural resource and environmental issues and provides a rigorous science background for those planning to pursue post-graduate degrees in environmental sciences, soil science, watershed processes, and related fields. Students graduating from this program will make valuable contributions to society as they pursue challenging careers critical to the protection of the environment. In addition to pursuing advanced degrees, graduates may work in both the private and public sectors performing such services as soil mapping, wetland delineation, land conservation planning, forestry, waste management, farm advising, international development, and consulting in environmental, construction, and landscape architecture areas. Graduates from the Soil and Watershed Science concentration will be qualified to take the national exam to become a Certified Professional Soil Scientist (CPSS).

Requirements for the Major

This program requires a total of 120 credits for a Bachelor of Science, including the general education program course credits, required major credits, and free elective credits.

Science and Math Fundamentals Required (53-54 credits):

ENST200	Fundamentals of Soil Science	4
ENST233	Introduction to Environmental Health	3
ENST360	Ecosystem Ecology	4
ENST389	Internship in Environmental Science & Technology	3
ENST471	Capstone I	2
ENST472	Capstone II	3
BSCI170&171	Principles of Molecular and Cellular Biology and Lab	4
BSCI160&161	Principles of Ecology and Evolution and Lab	4
CHEM131/132	Fund. General Chemistry & Lab	4
CHEM231/232	Organic Chemistry I & Lab	4
MATH140 <i>or</i>	Calculus I <i>or</i>	3-4
MATH120 <i>or</i> MATH220	Elementary Calculus I	
PHYS121 <i>or</i> PHYS117	Fundamentals of Physics I <i>or</i>	4
	Introduction to Physics	
BIOM301	Introduction to Biometrics	3
PLSC100 <i>or</i> PLSC101	Introduction to Horticulture <i>or</i>	4
	Introductory Crop Science	
GEOL100/110	Physical Geology and Lab	4

Fundamental Soil Science Required (14 credits):

ENST414	Soil Morphology, Genesis and Classification	4
ENST417	Soil Hydrology and Physics	3
ENST421	Soil Chemistry	4
ENST422	Soil Biochemistry and Microbial Ecology	3

Technical Electives (3-4 courses-9 credits):

ENST301	Field Soil Morphology I	1
ENST302	Field Soil Morphology II	1
ENST303	Field Soil Morphology III	1
ENST309	Advanced Field Soil Morphology	1
ENST411	Principles of Soil Fertility	3
ENST423	Soil-Water Pollution	3
ENST424	Field Study in Soil Morphology	4
ENST427	Nonpoint Source Pollution Assessment Techniques	
ENST430	Wetland Soils	3
ENST453	Watershed Science	3
GEOG373	Geographic Information Systems	3

Breadth Electives (2 courses-6-7 credits):

AREC365	World Hunger, Population, and Food Supply	3
ENST407/PLSC400	Environmental Plant Physiology	3
ENST410	Ecosystem Services: An Integrated Analysis	3
ENST432	Environmental Microbiology	3
ENST440	Crops, Soils and Civilization	3
ENST441	Sustainable Agriculture	3
ENST450	Wetland Ecology	3
ENST451	Water Quality: Field and Lab Analysis Methods	3
GEOL340	Geomorphology	3
GEOL451	Groundwater	3
GEOL452	Watershed and Wetland Hydrology	3
GEOL453	Ecosystem Restoration	3

Advising

The ENST Department has mandatory advising for each of its concentration. Students are required to meet with their advisor at least once each semester. If you have any questions, please contact Shannon Pederson at shannonp@umd.edu.

Family Science (FMSC)**School of Public Health**

1142 School of Public Health, Bldg. 255, 301-405-3672

www.sph.umd.edu/fmsc

fmsc@umd.edu

Chair: E. Anderson (Prof & Chair)

Director: C. Werlinich (Instructor, FMSC & Director, Center for Healthy Families)

Professors: N. Epstein, S. Hofferth, S. Koblinksky, S. Quinn (Prof, FMSC & Assoc Dean, SPHL)

Associate Professors: J. Kim (Assoc Prof & Family Finance Specialist, Maryland Extension), L. Leslie, M. Mokhtari, K. Roy, E. Shenassa, M. Smith Bynum, J. Wallen

Assistant Professors: M. Jones, A. Lewin, M. Mittal, J. Steinberg

Lecturers: L. Hoskins, W. Knight, K. Van Putten-Gardner, C. Schull, K. Tripp, R. Zeiger

Affiliate Professors: R. Dagher (Asst Prof, HLSA), X. He (Asst Prof, EPIB), E. Maring (Research Asst Prof, Director of Global Health Initiatives, Applied Environmental Health, MIAEH)

Adjunct Associate Professors: K. Schoendorf (Adjunct Assoc Prof)

Adjunct Assistant Professors: K. Grantz (Adjunct Asst Prof)

Professors Emeriti: B. Braun (Prof Emeritus), N. Gaylin (Prof Emeritus), N. Myricks (Prof Emeritus), S. Randolph (Assoc Prof Emeritus), R. Rubin (Assoc Prof Emeritus), J. Wallen (Assoc Prof)

Visiting Faculty: F. Goldscheider (College Park Professor), S. Kessel (Professor of the Practice)

The Major

The Family Science major focuses on the study of families and the problems they face in contemporary society. The major offers excellent training in scientific methods to understand family development, behavior, strengths and challenges. Students learn to describe, explain, and improve the quality of family life through education, applied research, policy analysis, and human services program management. Majors acquire skills in writing, speaking, and computing across the Family Science curriculum and complete an empirical research project prior to graduation.

The Family Science major prepares students for careers in social work, human services, family therapy, family life education, public health, policy analysis, and family mediation. A wide variety of employment opportunities exist for Family Science graduates in direct service and management positions in government, non-profit, and private agencies. The major also provides excellent preparation for graduate study in family science, marriage and family

therapy, social work, law, public health, psychology, human resource management, and other social science disciplines.

Courses offered by this department may be found under the following acronym: FMSC.

Program Learning Outcomes

1. Students will evaluate policy and programmatic interventions to address social and behavioral factors that influence family well-being.
2. Students will demonstrate the principles of cultural competence that shape the experiences and disparities of vulnerable families and populations.
3. Students will present a research project that addresses a significant issue of family well-being.
4. Student will demonstrate basic knowledge of family theories and apply the knowledge to diverse contexts.
5. Students will analyze and critique the range of social structures and systems such as health, legal, and economic that affect family well-being.

Academic Programs and Departmental Facilities

Our Department's excellent facilities create an ideal environment for the work of our students and faculty. Our classrooms are equipped with wireless internet and high tech equipment. All department facilities are accessible to persons with disabilities. The main office is located in 1142 School of Public Health Building. It is open year-round (except university holidays), Monday through Friday, from 8:30 am to 4:30 pm. Students are encouraged to come to the main office for information about the Family Science undergraduate programs, department courses, and ways to get involved in departmental research and student activities. All faculty offices are located in the 1142 School of Public Health office suite, facilitating faculty interaction and collaboration. Please come to the main office in 1142 School of Public Health if you are looking for a faculty member.

Admission to the Major

Students who wish to change or declare a major in Family Science can only do so through a 'Change of Major Workshop.'

To register for a workshop, visit <https://sph.umd.edu/content/become-sph-major>. Change of Major workshops are held in the SPH building (room 1142). Students must register in advance in order to attend a 'Change of Major Workshop'.

Requirements for the Major

	Credits
Required Courses - Major subject area	
<i>A grade of C- or better is required in these courses.</i>	
FMSC302 Research Methods	3
FMSC330 Family Theories and Patterns	3
FMSC332 Children in Families	3
FMSC381 Poverty, Affluence, and Families	3
FMSC383 Delivery of Human Services to Families	3
FMSC432 Adult Development and Aging in Families	3
FMSC477 Internship and Analysis in Family Science	3
FMSC487 Legal Aspects of Family Problems	3

Required Courses - Department Electives

A grade of "C-" or better is required in these courses.

Six additional FMSC departmental credits*+ 6

* With the exception of independent study (FMSC399, FMSC498) and field work (FMSC386, FMSC387).

+ FMSC105 and FMSC298F cannot be used to meet this requirement unless they are taken before the student completes 60 credits.

Additional Courses Required of all majors

All students must earn a grade of "C-" or better in all courses applied toward completion of the major.

PSYC100 Introduction to Psychology	3
One from:	3-4
FMSC290 Family Economics	
ECON200 Principles of Microeconomics	
ECON201 Principles of Macroeconomics	
One from:	3
EDMS451 Introduction to Educational Statistics	
STAT100 Elementary Statistics and Probability	
One from:	3
SOCY100 Introduction to Sociology	
SOCY105 Introduction to Contemporary Social Problems	
One from:	3
COMM100 Foundations of Speech Communication	
COMM107 Speech Communication: Principles and Practices	
COMM125 Introduction to Interpersonal Communication	

Advising

The Family Science Department provides a multi-tier advising system that will help you design and carry out a program of study best suited to your interests and needs. Several advisors are available, depending on your need: the Family Science Undergraduate Coordinator, Faculty Advisors, and the Director of Student Services in the School of Public Health.

For general questions and consultation about degree requirements, the Department Undergraduate Director, Zainab Okolo, is available in the main office (1142KK School of Public Health) as a first point of contact. The Undergraduate Coordinator also conducts orientations for students in the major.

For more information, or to schedule an appointment with the Undergraduate Coordinator, visit <http://sph.umd.edu/department/fmssc/advising>.

Undergraduate Research Experiences

The Department has an active Undergraduate Research Assistant Program, which enables students to learn from and work with world-class scholars on family issues. Family Science undergraduates volunteer to assist Department faculty with their ongoing research projects on such topics as:

- Child care
- Fathering
- Work and family issues
- Family and community violence
- Homeless families
- Interracial marriages
- Family financial education
- AIDS education
- Adolescent depression
- Couple relationships
- Military families
- Marital standards in China

Undergraduate students who participate in Family Science research may also participate in the University's Undergraduate Research Assistance Program, which provides a transcript notation documenting their research experience. This notation particularly benefits those students who apply to graduate school. The Department also participates in several other undergraduate research programs, such as the Senior Summer Scholars Program and the Ronald E. McNair Post-Baccalaureate Achievement Program.

You may also set an appointment with Undergraduate Coordinator Zainab Okolo to answer questions and help connect you with current undergraduate research projects in Family Science.

Please visit our department website for more information about current undergraduate research opportunities.

Internships

All Family Science majors are required to complete an internship experience during their senior year. The internship program is designed to integrate department and other coursework with a real-time work experience. In addition to a 120-hour semester-long field placement, students are required to attend a weekly capstone seminar (FMSC477). Students in the seminar integrate classroom theory with their field placement and share work-related activities, broadening their exposure to work in the discipline of Family Science and their knowledge of specific career opportunities for FMSC graduates. The internship course is open to all FMSC majors who have completed FMSC330 and FMSC383 plus a minimum of six additional credits of FMSC coursework.

Each approved internship must have a significant focus on the family unit, incorporating the needs and concerns of the family in addition to those of the individual. Interns will be expected to utilize Family Science theories and concepts throughout the accompanying seminar to evaluate their internship experience; therefore, it is essential that the internship responsibilities relate directly to family.

Students who need help deciding on an internship have access to the **FMSC Internship Database**, which contains listings of organizations that have requested our students along with those where Family Science students have completed internships.

Students can pick up internship contracts in the main office, 1142 School of Public Health Building, or online at http://sph.umd.edu/sites/default/files//files/Internshippacket_10_10_11_update.pdf

There are strict deadlines for turning in completed contracts:

Spring Internship contract: Due December 1

Summer & Fall Internship contracts: Due the preceding May 1

Honors Program

The FMSC Honors Program is designed to provide academically talented students with a more advanced and enriching educational experience in Family Sciences. The Honors Program gives students an opportunity to participate in scholarly independent study, interact with FMSC faculty, and examine a range of intellectual topics in greater depth than is possible in the traditional Family Science program. Students enroll in special Honors courses, Honors option work in regular courses, and independent research. The program culminates with the presentation of a Senior Honors thesis. Students are recognized at graduation for their superior achievement in Family Science.

Any FMSC major who meets the following criteria is eligible for the Honors Program:

- An overall GPA of 3.0 with at least 45 credits completed
- Completion of two 200-level or higher FMSC courses with grades of "B" or above
 - FMSC290 with a grade of "B" or better and an additional three credits in FMSC OR
 - ECON200 with a grade of "B" or better and an additional 6 credits in FMSC
- A GPA of 3.3 in all FMSC courses

Students meeting the criteria and wishing to participate in the Honors Program must apply three semesters (not including summer) prior to graduation.

Students must maintain a 3.0 overall GPA and a 3.3 FMSC GPA to remain in the program. If a student falls below either of these standards, he or she will have one semester to meet the standard or be dropped from the program.

Completion of the FMSC Honors Program Requires:

- Six credits of FMSC Honors courses (either Honors section or Honors option)
- Six credits of Honors thesis under the direction of an FMSC faculty advisor, culminating in a thesis and satisfactory oral defense of the thesis to a committee of at least two full-time UMCP faculty (including the advisor)

Application forms are available on the FMSC web site or from the FMSC Honors Program Coordinator, Dr. Mia Smith Bynum.

Student Societies and Professional Organizations

Maryland Council on Family Relations (MCFR) is a student chapter of the National Council on Family Relations, a professional organization for family researchers, educators, and practitioners. The organization provides an opportunity for students to explore family issues, meet fellow students, and prepare for careers in teaching, research, policy analysis, or direct service to families. MCFR is open to all undergraduate and graduate Family Science students. For more information, please contact the MCFR Faculty Advisor, Kevin Roy

Phi Upsilon Omicron is a nationally recognized honor society focused toward observing academic excellence, enhancing qualities of leadership by providing opportunities for service, and encouraging lifelong learning and commitment in order to advance family and consumer sciences and related areas. Members participate in monthly community service activities on campus and in the surrounding Metropolitan DC areas. They also conduct informative workshops for members and other Family Science students on academic skills development, stress management, graduate school, and potential career paths with a Family Science degree. The Gamma Lambda Chapter has a local alumni chapter which provides our members with many resources. Other membership benefits include networking opportunities through regional and national meetings, scholarship and fellowship awards, honor cords at graduation, and leadership opportunities at the chapter, regional, and national levels. For more information please contact the FMSC Undergraduate Coordinator, Zainab Okolo.

Scholarships and Financial Assistance

Our Department's goal is to provide an affordable education to the most talented undergraduate and graduate students who are pursuing degrees in family studies. Scholarships often make the difference in whether or not a student is able to remain at the University of Maryland.

For information about the current state and federal scholarship and financial aid opportunities, visit <http://sph.umd.edu/departments/fmsc/tuition-and-financial-support-0>.

The Department of Family Science has several endowed scholarships that enable us to provide some assistance to the best and brightest students in our

Family Science Program. Awards are announced early Spring semester and recipients are announced by May of each year. For more information visit <http://sph.umd.edu/department/fmsc/department-family-science-scholarships>.

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

Annually, the Department selects outstanding undergraduates based upon academic and service performance who are recognized at the annual Dean's Scholars Awards Banquet each spring.

Film Studies (FILM)

College of Arts and Humanities

3215 Jimenez Hall, 301-405-4025

Assistant Professors: V. Anishchenkova (SLLC), L. Arsenjuk (SLLC), M. Resmini (SLLC)

Instructors: E. Robinson (CMLT)

Affiliate Professors: M. Collins (ENGL and CMLT), A. Eckstein (HIST), J. Hallett (CLAS), R. Igel (SLLC), A. Karimi-Hakkak (SLLC), R. Oster (SLLC), T.

Parry-Giles (COMM), O. Wang (ENGL), J. Witzleben (MUSC)

Affiliate Associate Professors: M. Mason (SLLC), E. Merediz (SLLC), J. Naharro-Calderon (SLLC), Z. Nunes (ENGL and CMLT), J. Shannon (ARTH)

Affiliate Assistant Professors: M. Baillargeon (SLLC)

Professors Emeriti: R. Harrison (SLLC and CMLT), M. Lounsbury (AMST), P. Verdaguer (SLLC)

The Major

Film Studies is an interdisciplinary program in the Humanities that enables students to explore an influential global art form in its aesthetic, cultural, economic, historical, and technological dimensions. The major takes a critical, textual approach to film, emphasizing scholarly viewing, interpreting, and writing about moving images. It provides students with a solid background in theoretical, critical, and aesthetic aspects of the study of film, including the history of the medium and the analysis of national cinemas, always keeping in view questions of how new media have changed both cinema itself and the study of cinema. The Film Studies major brings together courses in cinema from varied nations, languages, and cultures and challenges students to understand the systems of transnational exchange that have characterized this medium from its inception. Courses offered by this program may be found under the following acronyms: FILM, ENGL, SLLC.

Program Objectives

The Major in Film Studies teaches the fundamental skills required for a range of professional careers: critical thinking, historical awareness, research, information management, cogent development of ideas, and strong written and oral communication. Students will work toward competence in film analysis, critical viewing and writing, and visual literacy at a time when our culture is becoming increasingly dependent upon visual communication.

Program Learning Outcomes

- Students will be able to analyze and interpret film aesthetics and technical structures of editing, cinematography, and mise-en-scene.
- Students will be able to identify and analyze diverse genres and movements in the history of film.
- Students will be able to situate films produced in various parts of the world in relation to larger historical and cultural developments.
- Students will understand the various uses of the moving image in its relation to the political, economic, and social history of the world over the past century.
- Students will be able to conduct research in Film Studies and to write persuasively.

Requirements for the Major

The Film Studies major has four parts: a prerequisite course in Film Form (ENGL/FILM245), a two-course Film History and Theory Foundation (ENGL/FILM301 and 302), a six-course Film Criticism Core, and four Film Electives. The first two parts of the program assure that students have the necessary analytical tools and historical background to interpret diverse global cinematic traditions. The Film Criticism Core and Film Electives offer students the opportunity to explore genres, themes, and movements across different historical periods and to develop their skills in analysis, writing, and research.

GENERAL POLICIES

- The Film Studies major requires 39 credits (13 courses).
- A grade of "C-" or better is required in each of the courses making up the 39 credits of the major.
- Up to nine (9) credits may be taken at the 200-level.
- At least 6 of the 39 credits must be at the 400-level.

THE FILM STUDIES MAJOR REQUIRES 39 CREDITS, DISTRIBUTED AS FOLLOWS:

Film Form (3 credits)

- ENGL245/FILM245 Film Form and Culture (fulfills Gen Ed req. in Humanities)
 - Or SLLC283/FILM283: Introduction to Cinema Studies
 - Or equivalent by permission of department
- Film Studies majors must take FILM/ENGL245 before they take other 300- or 400-level Film Studies courses. We recommend that it be taken no later than sophomore year.

Film History and Theory Foundation (6 credits)

- Prerequisite for both courses: ENGL245/FILM245 or SLLC283/FILM283.
- FILM301 Cinema History I: The Silent Era
- FILM302 Cinema History II: The Sound Era
- Students may take the two courses in any order.

Film Criticism Core Requirement (18 credits), distributed as follows:

- At least one course in this category must be taken at the 400-level.
- One course (3 credits) in Film Theories
- Two courses (6 credits) in Genres/Auteurs/Movements
- Two courses (6 credits) in National and International Cinemas
- One course (3 credits) in Documentary, Animation, Experimental Cinema or other Visual Media

For a list of courses that will satisfy each sub-category, please see <http://www.film.umd.edu/major/courses.html>.

Film Electives (12 credits)

Up to two courses in this category may be taken at the 200-level. At least one must be taken at the 400-level. Please consult the full list of courses accepted for the major: <http://www.film.umd.edu/major/courses.html>.

Option One: 12 credits, distributed as follows:

- Two courses (6 credits) from the Film Criticism category, any rubric
- Two courses (6 credits) from the Film Electives category

Option Two: 12 credits

Four courses (12 credits) in Film Electives, selected to create a coherent emphasis. The four courses should be selected in consultation with the Film Studies Advisor to allow students to explore a specific area of interest or an area related to their future academic or professional plans.

Advising

Academic advising is available throughout the year. Departmental academic advising is mandatory for all Film Studies majors each semester. Students should check Testudo (<http://testudo.umd.edu/>) for their registration date and schedule an advising appointment for at least one week in advance of their date. Advising appointments can be made via email: film-advising@umd.edu.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

FINANCE (BMGT)

The Robert H. Smith School of Business

1570 Van Munching Hall, 301-405-2286

www.rhsmith.umd.edu/undergrad

undergradinfo@rhsmith.umd.edu

Chair: V. Maksimovic

Professors: G. Bakshi, S. Heston, A. Kyle, D. Madan, V. Maksimovic, L. Senbet, A. Triantis, H. Unal, R. Wermers

Associate Professors: M. Faulkender, M. Loewenstein, R. Mathews, N. Prabhala

Assistant Professors: M. Bustamante (Asst Prof), J. Cujean (Asst Prof), L. Fresard, W. Mullins (Asst Prof), A. Rossi (Asst Prof), Y. Wang, L. Yang (Asst Prof)

Lecturers: K. Hallows, D. Kass, E. Kiss, S. Kroncke, J. Pavlovsky (Lecturer), C. Rossi (Lecturer), M. Taranto, S. Wallenstein (Lecturer), S. White

Adjunct Professors: C. Baiju (Lecturer), K. Brodtkowitz (Lecturer), J. Campbell (Lecturer), M. Canzater (Lecturer), J. Colantuoni (Lecturer), D. Donovan

(Lecturer), M. Grovic (Lecturer), U. Hewer (Lecturer, Adjunct Prof), B. Jain (Lecturer), C. Krosinsky (Lecturer), M. Lee (Lecturer), D. Malmquist (Adjunct Prof), J.

Perfetti, J. Rinaldi (Lecturer), A. Sherman, K. Snow (Lecturer), G. Thoumi (Lecturer)

Professors Emeriti: J. Haslem (Prof Emeritus)

Visiting Faculty: X. Gao (Visit Asst Prof), M. Padhi (Visit Asst Prof)

The Major

Finance encompasses:

1. Corporate finance: The financial management of corporations
2. Investments: The management of securities and portfolios
3. Financial institutions and markets: The management of financial institutions and the study of their role in the economy

The Finance curriculum is designed to familiarize the student with the institutions, theory, and practice involved in the allocation of financial resources within the private sector. It provides an educational foundation for careers involving corporate financial analysis and management, investment analysis and portfolio management, investment banking, risk management, commercial banking, and international finance; it also provides a foundation for graduate study in business administration, economics, and law.

Admission to the Major

See Robert H. Smith School of Business entry in chapter 6 for admission requirements.

Requirements for the Major

BMGT343 Investments 3

BMGT440 Advanced Financial Management 3

Four of the following courses: 12 credits

BMGT342 Wall Street Finance

BMGT441 Fixed Income

BMGT442 Advanced Portfolio Management

BMGT443 Applied Equity Analysis and Portfolio Management

BMGT444 Futures and Options Contracts

BMGT445 Banking and Financial Institutions

BMGT446 International Finance

BMGT447 Computational Finance

1 of ECON 305/ECON 325 Intermediate Macroeconomic Theory & Policy or ECON306/ECON 326 Intermediate Microeconomic Theory

In addition, students can apply a maximum of one course (3cr) toward this requirement from:

BMGT349 Investment Fund Management: Lemma Senbet Fund

BMGT448 Special Topics in Finance

BMGT449 Investment Fund Management

One of the following courses: 3 credits

BMGT310 Intermediate Accounting I

BMGT313 Financial Statement Analysis

BMGT332 Operations Research For Management Decisions

BMGT430 Linear Statistical Models in Business

BMGT434 Introduction to Optimization

Total Finance Major Requirements 18 credits

Upper Level Economics Requirements for the Finance major

ECON330 Money and Banking **OR** BMGT341 Financial Markets 3 credits

Advising

General advising for students admitted to the Smith School of Business is available Monday through Friday in the Office of Undergraduate Programs, 1570 Van Munching Hall, 301-405-2286, undergradinfo@rhsmith.umd.edu. It is recommended that students visit this office each semester to ensure that they are informed about current requirements and procedures. Transfer students entering the university can be advised during spring, summer, and fall transfer orientation programs. Contact the Orientation Office for further information, 301-314-8217.

Fire Protection Engineering (ENFP)

A. James Clark School of Engineering

3106 JM Patterson Building, 301-405-3992

www.fpe.umd.edu

Chair: J. Milke

Professors: H. Baum (Res Prof), K. Isman (Clin Prof), A.C. Trouve, M. di Marzo

Associate Professors: A.W. Marshall, S.I. Stoliarov, P.B. Sunderland
 Assistant Professors: M. Gollner
 Lecturers: A. Kohout (Lecturer), N. Ryder
 Affiliate Professors: E. Oran (Prof, Affiliate Prof), R. Roby, J. Torero
 Professors Emeriti: V. Brannigan, F. Mowrer (Assoc Prof Emeritus), J.G. Quintiere, S. Spivak

The Major

Fire Protection Engineering is concerned with the applications of scientific and technical principles to the dynamics, mitigation, and suppression of fire. This includes the effects of fire on people, on structures, on commodities, and on operations. The identification of fire hazards and their risk, relative to the cost of protection, is an important aspect of fire safety design.

The fire protection engineering student receives a fundamental engineering education involving the subjects of mathematics, physics, and chemistry. The program builds on other core engineering subjects of materials, fluid mechanics, thermodynamics and heat transfer with emphasis on principles and phenomena related to fire. Fluid mechanics includes applications to sprinkler design, suppression systems, and smoke movement. Heat transfer introduces the student to principles of evaporation for liquid fuels. The subject of combustion is introduced involving premixed and diffusion flames, ignition and flame spread, and burning processes. Laboratory experience is gained by being exposed to standard fire tests and measurements. Design procedures are emphasized for systems involving suppression, detection, alarm, and building safety requirements. The background and application of codes and standards are studied to prepare the student for practice in the field. System concepts of fire safety and methods of analysis are presented. A senior design or research project is required which gives the student an opportunity to explore issues beyond the normal classroom environment.

The Bachelor of Science in Fire Protection Engineering is accredited by the Engineering Accreditation Commission of ABET, www.abet.org, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: (410) 347-7700.

Program Objectives

The educational objectives of the undergraduate program in Fire Protection Engineering are to produce graduates who:

1. Practice fire protection engineering regionally, nationally and internationally in a broad range of modern professional settings;
2. Pursue advanced studies in fire protection engineering or related fields;
3. Actively participate in the development of engineering decisions on societal, environmental, economic and safety issues at the local or global levels;
4. Achieve professional certification and licensure; and
5. Maintain continual professional competency and practice ethically.

The practice of fire protection engineering has developed from the implementation and interpretation of codes and standards directed at fire safety. These safety codes contain technical information and prescriptions derived from experience and research. Research has also led to quantitative methods to assess aspects of fire and fire safety. Thus, fire protection engineers need to be versed in the current technical requirements for fire safety and in the scientific principles that underlie fire and its interactions.

Program Learning Outcomes

1. Demonstrated ability to apply knowledge of math, engineering and science in addressing fire protection engineering issues making use of modern techniques, skills and engineering tools available in the professional practice.
2. Demonstrated ability to design experimental apparatus, experimental procedures and data analysis generating novel information and knowledge in fire science and engineering.
3. Demonstrated ability to design systems, processes and components relevant to the fire protection engineering practice or enhancing the performance and safety of the fire service personnel.
4. Demonstrated ability to perform in multi-disciplinary or multi-tasking teams.
5. Demonstrated ability to identify, formulate and solve engineering problems representative of those commonly encountered in the fire protection engineering practice.
6. Demonstrated understanding of the professional and ethical responsibilities associated with the practice of fire protection engineering.
7. Demonstrated ability to communicate effectively through written reports and technical presentations with fire protection engineers and with other relevant professional constituencies (AHJ, architectural firms, etc.).
8. Demonstrated knowledge of contemporary issues relevant to the fire engineering profession and broad understanding of the relevant societal issues impacted by the engineering solutions.
9. Demonstrated recognition of the need to engage in life-long learning and ability to maintain state of the art fire protection engineering knowledge and skills.

Academic Programs and Departmental Facilities

Our laboratories provide hands-on experience with standardized ASTM test procedures, more fundamental experiments, and large scale burn tests. Our computer laboratory has workstations enabled with the latest software for modeling fires, structures, and human behavior. Our student lounge is frequently used for student meetings and study sessions.

Admission to the Major

Admission requirements are identical to those set by the A. James Clark School of Engineering. (See A. James Clark School of Engineering section under the Colleges and Schools section of this site).

Requirements for the Major

In general, the curriculum is designed to give the student a grounding in the science and practice of fire safety. The field touches on many disciplines and its scientific basis is expanding. It is an engineering discipline that is still growing, and offers a variety of excellent career opportunities. These cover a wide spectrum involving safety assessment reviews, hazards analysis and research, loss prevention and regulatory issues.

		Credits	
		First Sem	Second Sem
Freshman Year			
Gen Ed	General Education Requirements		6
ENGL101	English Composition	3	
CHEM135	General Chemistry for Engineers	3	
MATH140/141	Calculus I / Calculus II	4	4
ENES100	Introduction to Engineering Design	3	
ENES102	Mechanics I		3
PHYS161	General Physics I: Mechanics and Particle Dynamics		3
ENFP101	Hot Topics in Fire (optional)	(1)	

Total		14	16
		Credits	Credits
		First Sem	Second Sem
Sophomore Year			
Gen Ed	General Education Requirements	3	
Gen Ed	Oral Communication		3
MATH206	Introduction to MATLAB	1	
MATH240	Linear Algebra, or		4
MATH241	Calculus III		
MATH246	Differential Equations	3	
PHYS260/261	General Physics II	4	
ENES220	Mechanics II		3
ENES221	Dynamics	3	
ENES232	Thermodynamics		3
ENFP250	Introduction to Life Safety Analysis	3	
ENFP300	Fire Protection Fluid Mechanics		3
Total		17	16
		Credits	Credits
		First Sem	Second Sem
Junior Year			
Gen Ed	General Education Requirements	3	3
Elective	Approved Electives (STAT, ENFP, ENXX)	3	3
Elective	General Elective	3	
ENFP310	Water Based Fire Protection Systems Design	3	
ENFP312	Heat and Mass Transfer	3	
ENFP320	Fire Assessment Methods and Laboratory		4
ENFP350	Professional Development Seminar		1
ENFP440/627	Smoke Management and Fire Alarm Systems		3
Total		15	14
		Credits	Credits
		First Sem	Second Sem
Senior Year			
Elective	Approved Electives (STAT, ENFP, ENXX)		6
ENGL393	Technical Writing	3	
ENFP405/621	Structural Fire Protection	3	
ENFP410/629L	Advanced Fire Suppression		3
ENFP411	Risk-Informed Performance Based Design		3
ENFP413/613	Advanced Life Safety Analysis	3	
ENFP415/651	Fire Dynamics	3	
ENFP425	Enclosure Fire Modeling	3	
ENFP426	Computational Methods in Fire Protection		3
Total		15	15
Total Credit Hours		121	

Approved electives must include the following:

- One MATH or STAT 300+
- One ENFP 400+, and two ENXX 300+
- Two ENXX 3xx+ courses

Advising

Advising is required for all undergraduate students each semester prior to registering for classes. Please refer to <http://www.fpe.umd.edu/undergrad/advising> for more information.

Undergraduate Research Experiences

Many FPE undergraduates perform original research under the direction of a faculty member. These include analytical, experimental, and computational studies. The topics are chosen in discussions between the student and a faculty member. Students can perform research as a volunteer, for pay, or for credit (e.g., ENFP429 or ENFP489).

Fieldwork Opportunities

Information about fieldwork and summer employment is available in the department office, or visit <http://www.enfp.umd.edu/employment/jobs>.

Internships

Information about internships is available in the department office, or visit <http://www.enfp.umd.edu/employment/jobs>.

Co-op Programs

Information about co-op employment is available in the department office, or visit <http://www.enfp.umd.edu/employment/jobs>.

Honors Program

Qualified students in the department are eligible for participation in the A. James Clark School of Engineering honors program and may be invited to the Salamander Honorary Society of the Department of Fire Protection Engineering.

Student Societies and Professional Organizations

The University of Maryland student chapter of the Society of Fire Protection Engineers is an active professional society open to all interested FPE students. The department honor society, Salamander, is open to academically eligible juniors and seniors. Student membership in the National Fire Protection Association is also available. Information on these organizations may be obtained from the department office or at <http://www.enfp.umd.edu/student-societies>.

Scholarships and Financial Assistance

Numerous scholarships and grants are available to students in the department from organizational and corporate sponsors. Information is available on eligibility, financial terms, and retention criteria in the department office. The majority of the scholarships are for junior and senior students, but some scholarships are available for first- and second-year students. Additional information is available at <http://www.enfp.umd.edu/undergrad/scholarships>.

In addition, the Office of Student Financial Aid (OFSA) administers all types of federal, state, and institutional financial assistance programs and, in cooperation with other University offices, participates in the awarding of scholarships to deserving students. For more information, visit: www.financialaid.umd.edu.

Awards and Recognition

Academic achievement awards are sponsored by the department and the student professional-honor societies. These awards are presented at the annual A. James Clark School of Engineering Honors and Awards ceremony. Eligibility criteria for these awards are available in the department office.

French Language and Literature (FREN)

College of Arts and Humanities

3106 Jiménez Hall, 301-405-4025

www.french.umd.edu

Professors: J. Bami, H. Campagne, C. Mossman, V. Orlando

Associate Professors: S. Benharrech, A. Frisch, M. Scullen

Assistant Professors: M. Baillargeon

Lecturers: E. Cefalo

Professors Emeriti: B. Fink, M. Hage, R. Tarica, P. Verdagner

The Major

The undergraduate major in French (FREN) is centered on the study of the French language and the literatures and cultures of the French and Francophone people. Our faculty members teach a wide variety of courses in culture, literature, linguistics, stylistics, cinema, civilization, the contemporary French and Francophone world, and women's studies.

Students who complete the requirements for the major can expect to be able to speak, read, write, and understand French at a level that would allow them to communicate with native speakers, to recognize and interpret the diverse cultural perspectives and products of the French-speaking world, and to be culturally sensitive members of society.

Students of French have the option of living in the Language House. University faculty-led programs in Nice (semester or year-long) and Montpellier (summer) are offered by the Department, and all students majoring in French are encouraged to participate in either, or both, of these programs as an integral part of their curriculum. Students may also consider a double major in French and another discipline, such as College of Arts and Humanities majors, Business, International relations, Economics, or Journalism.

Students can satisfy the ARHU Global Engagement Requirement by taking the appropriate French language course sequence (103>203), or by taking a higher level French course.

Students must take language acquisition courses sequentially, i.e., 103, 203, 204, 250, etc. Once credit has been received in a higher-level language acquisition or grammar course, a lower-level course may not be taken for credit.

Advanced students of French may substitute 300- or 400-level electives for FREN204, 250, or 301, in consultation with the Advisor.

Placement in Courses

Please see: <http://www.arhu.umd.edu/undergraduate/flpa>.

Requirements for the Major

Required courses (36 credits):

FREN204	French Grammar and Composition	3
FREN250	Introduction to Cultural and Textual Analysis	3
FREN301	Composition and Style	3
FREN401	Writing with Style	3
	<i>One from:</i>	
FREN302	Translation: French to English	3
FREN303	Translation: English to French	3
	<i>One from:</i>	
FREN311	Advanced Oral Expression	3
FREN312	France Today	3
FREN399	Resident Director in Nice/Montpellier Course	3
	<i>Also required:</i>	
FREN351	From Romanticism to the Age of Modernism and Beyond	3
FREN352	From the Age of Epic and Romance to the Enlightenment	3
FREN4xx	four additional 400-level courses in literature, linguistics, film, and culture, of which only one may be in English	12

Students must earn a grade of "C-" or higher in each course applied toward a major or minor in the School of Languages, Literatures, and Cultures. Additionally, an overall GPA of 2.0 in a major or minor is required for graduation.

Study Abroad

The Maryland-in-Nice program is one of the University of Maryland's oldest study abroad programs. Depending on placement, students studying for a semester in the program Maryland-in-Nice may earn up to 18 credits toward the completion of the major; students studying in Nice for the academic year may earn up to 33 credits. The department also administers a three-week intensive course in Montpellier (France). For information on study abroad programs see the program advisor and/or the Education Abroad website www.international.umd.edu/studyabroad.

Requirements for the Minor

French Studies

School of Languages, Literatures, and Cultures (SLLC)
www.french.umd.edu

This 18-credit minor will provide students with a solid overview of linguistic, cultural and literary aspects of the study of French.

Courses required for the minor, in this order, are:

FREN204, FREN250, FREN301

Following completion of this core sequence, students will choose two courses from the following:

FREN302 or FREN303

FREN311 or 312

FREN351, 352, and any 4xx-level course/s*

***Starting in Fall 2013 one 4xx-level elective is now required for completion of the minor in French studies.**

- All courses must be taught in French
- A maximum of six (6) credits can be applied to the minor from courses taken at other institutions, with the exception of Maryland in Nice, which allows the transfer of nine (9) credits
- All courses presented for the minor must be passed with a grade of "C-" or better
- An overall GPA of 2.0 in the minor is required for graduation
- **Students who matriculated in Fall 2012 or later must earn a cumulative GPA of 2.0 within their minor in order to graduate.**
- Students who begin their study as native/fluent speakers should seek the advice of the advisor before choosing the courses they will use to replace the core minor courses.

To make an appointment to explore or declare a minor, go to
www.arhu.umd.edu/undergraduate/academics/minors

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state, and institutional financial assistance programs, and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

The UG Committee organizes an annual awards ceremony to celebrate SLLC students who have earned SLLC, campus and/or national scholarships, and academic achievement awards. The awards ceremony takes place in conjunction with the annual SLLC UG Research Forum.

Geology (GEOL)

College of Computer, Mathematical & Natural Sciences

1120 Geology Building, 301-405-4082

www.geol.umd.edu

Chair: R. Walker

Professors: M. Brown, P. Candela, J. Farquhar, A. Kaufman, D. Lathrop (Prof & Dir), W. McDonough, A. Wylie (Distinguished Scholar Teacher)

Associate Professors: M. Evans, S. Kaushal, L. Montesi, S. Penniston-Dorland, K. Prestegard, W. Zhu

Assistant Professors: V. Lekic (Asst Prof), N. Schmerr (Asst Prof)

Senior Lecturer: T. Holtz (Senior Lecturer), J. Merck (Senior Lecturer)

Lecturers: T. Centorbi

Affiliate Professors: A. Busalacchi (Prof & Dir), G. Helz (Res Prof), B. James (Prof & Dir, Affiliate Prof), M. Kearney (Affil Assoc Prof, Prof), F. Miralles-Wilhelm

(Prof, Prof & Dir), R. Murtugudde, J. Sunshine (Prof, Affiliate Prof)

Affiliate Associate Professors: N. Zeng

Affiliate Assistant Professors: D. Lampkin (Asst Prof, Aff Asst Prof)

Adjunct Professors: J. Bohlke, Y. Fei, R. Rudnick, S. Shirey, D. Smith (Adjunct Prof), S. Sorensen, A. Steele

Adjunct Associate Professors: A. Campbell, E. Cottrell (Adjunct Assoc Prof), W. Jiao (Adjunct Assoc Prof)

Adjunct Assistant Professors: R. Arevalo, J. Roberts, A. Shahar (Adjunct Asst Prof)

Research Scientist: P. Piccoli (Res Sci), I. Puchtel (Res Sci)

Associate Research Scientist: R. Ash (Assoc Res Sci)

Research Professor: R. Tucker (Res Prof)

Professors Emeriti: P. Stifel (Assoc Prof Emeritus)

Visiting Faculty: H. Becker (Visit Res Prof), J. Day (Visit Asst Prof), S. Hier-Majumder, T. Johnson (Visit Res Assoc), M. Le Voyer (Visit Asst Res Sci), X. Liu

(Fac Res Asst), W. Minarik (Visit Asst Res Sci), P. Tomascek (Visit Asst Res Sci), Z. Zajacz (Visit Res Assoc)

The Major

Geology is the science of the Earth. In its broadest sense, geology concerns itself with planetary formation and subsequent modification, with emphasis on the study of planet Earth. Geologists study Earth's internal and surficial structure and materials, the chemical and physical processes acting within and on Earth, and utilize the principles of mathematics, physics, chemistry, and biology to understand our planet and its environments.

Geological sciences encompass all the physical, chemical, and biological aspects of Earth. Increasingly, geologists are taking a holistic approach in the collection and interpretation of data about Earth, which means that the wider context of the geological sciences is broad and diverse. In studying Earth as a system, we are concerned with geology and geophysics, hydrology, oceanography and marine science, meteorology and atmospheric science, planetary science, and soil science. A major in any relevant discipline can lead to a satisfying career within the geological sciences. In general, graduate training is expected for advancement to the most rewarding positions and for academic employment.

Program Objectives

Geologists are employed by governmental, industrial, and academic organizations. Geologists work in exploration for new mineral and hydrocarbon resources, as consultants on engineering and environmental projects, as teachers and researchers in universities, and in many other challenging positions. For many, the attraction of a career in geology is the ability to divide time between work in the field, the laboratory, and the office. Although the employment outlook within geology varies with the global economic climate, the long-range outlook is good. This is because our dwindling energy, mineral, and water resources, along with increasing concerns about natural hazards and environmental issues, present new challenges for geologists.

Program Learning Outcomes

The Geology program at Maryland includes a broad range of undergraduate courses to accommodate both Geology majors and students within the Environmental Science and Policy program. Within the Geology major, a requirement exists for a senior undergraduate research project to be performed under the direction of a faculty advisor. This requirement provides invaluable experience in writing proposals and reports, gathering, analyzing and evaluating data, and delivering scientific talks. In addition, a Departmental Honors Program and a combined B.S./M.S. Program are available.

Requirements for the Major

Requirements for the Geology Major, Professional Track

The geology curriculum is designed to meet the requirements of industry, graduate school, and government. For the B.S. degree, the students are required to complete departmental requirements, capstones, core discipline options, and elective (58 - 62 credits) and the supporting requirements (16 credits) in addition to the General Education Program requirements and the completion of at least 120 credits. The department requires that to receive a degree in Geology, students must have a grade of C- or better in the required geology courses, and an average of C- or better in the supporting courses.

Courses required for the B.S. in Geology are listed below. Some courses require field trips for which the students are expected to pay for room (if required) and board. Field camp is taken during the summer at institutions other than the University of Maryland, College Park, that offer camps approved by the department.

Required Geology Courses

One of the following:

- GEOL100—Physical Geology (3)
- GEOL120—Environmental Geology (3)

GEOL110—Introductory Geology Lab (1)

GEOL102—Historical Geology (4)

GEOL322—Mineralogy (4)

GEOL341—Structural Geology (4)

GEOL342—Stratigraphy and Sedimentation (4)

GEOL423—Optical Mineralogy (4)

GEOL443—Petrology (4)

Total credits: 28

Geology Capstones:

GEOL393—Senior Thesis I - Proposal (3)

GEOL394—Senior Thesis II - Research (3)

GEOL490—Field Camp (6)

Total credits: 12

Geologic Core Discipline options: Choose one course from each of the following groups.*

Quantitative Reasoning:

- GEOL351— Statistics for Geoscientists (3)
- Geoscientific Modeling (3)
- GEOL447— Observational Geophysics (3)

Surface Processes:

- GEOL340— Geomorphology (4)
- GEOL451— Groundwater (3)

Geophysics:

- GEOL412 – Geology of the Terrestrial Planets (3)
- GEOL446— Geophysics (3)
- GEOL455— Marine Geophysics (3)
- GEOL457— Seismology (3)

Geochemistry:

- GEOL444— Low-Temperature Geochemistry (4)
- GEOL445— High-Temperature Geochemistry (4)
- GEOL463— Economic Geology (3)

Geobiology:

- GEOL331— Principles of Paleontology (4)
- GEOL435— Environmental Geochemistry (3)
- GEOL436— Biogeochemistry (3)
- GEOL437— Global Climate Change, Past and Present (3)

Total credits: 15 – 18

Geology Elective:

- Any 3-4 credit 300 – 400 level GEOL course not taken to satisfy the above requirements or appropriate substitution with the approval of the department.

Total credits: 3 – 4

Supporting Courses:

One of the following:

- CHEM131—Fundamentals of General Chemistry (3) and CHEM132— Fundamentals of General Chemistry Laboratory (1)
- CHEM135—Chemistry for Engineers and CHEM136 (3) — Chemistry for Engineers Laboratory (1)

MATH140—Calculus I (4)

MATH141—Calculus II (4)

One of the following:

- PHYS161—General Physics: Mechanics and Particle Dynamics (3) and PHYS174—Physics Laboratory Introduction (1)
- PHYS171—Introductory Physics: Mechanics and Relativity (3) and PHYS174 —Physics Laboratory Introduction (1)

Total credits: 16

Overall total credits: 74 – 78

Matriculated Geology majors are expected to take all courses on campus unless specific departmental permission is given.

* Or appropriate substitutions with the approval of the department.

Requirements for the Geology Major, Secondary Education Track

The Secondary Education Track in Geology leads to a B. S. degree in Geology with special emphasis on course work that helps prepare the student for

teaching at the secondary school level in a manner consistent with the UTeach Initiative and Common Core standards. Further coursework and student teaching are required for an education certification. This track also prepares the student for work as a geologist in government or industry, or for further graduate study, although students primarily intending to attend graduate school in geology are advised to choose the Professional Track. Students seeking professional opportunities in secondary education are urged, also, to consult with advisors in the College of Education.

Compared to the professional geology track, the secondary education track, reduces by three the number of upper-level geology requirements, and adds eight credits of education courses along with requirements for an atmospheric and oceanic science and an astronomy course. Further coursework in education (including student teaching) will be required in order to obtain a Maryland State Teaching Certification. The department requires that to receive a degree in Geology, students must have a grade of C- or better in the required geology courses, and a C- average or better in the supporting courses.

• **Geology Courses**

One of the following:

- GEOL100 - Physical Geology and Laboratory (3)
- GEOL120 - Environmental Geology and Laboratory (1)

GEOL102—Historical Geology (4)

GEOL322—Mineralogy (4)

GEOL341—Structural Geology (4)

GEOL342—Stratigraphy and Sedimentation (4)

GEOL393—Sr. Thesis I - Proposal (3)

GEOL394—Sr. Thesis II – Research (3)

GEOL423—Optical Mineralogy (4)

GEOL443—Petrology (4)

GEOL490—Field Camp (6)

• Two of the following:

- GEOL212 – Planetary Geology (3)
- GEOL331 – Principles of Paleontology (4)
- GEOL340 – Geomorphology (4)
- GEOL/AOSC375 - Introduction to the Blue Oceans (3)
- GEOL444 - Low-Temperature Geochemistry (4)
- GEOL445 - High-Temperature Geochemistry (4)
- GEOL446 – Geophysics (3)
- GEOL451 – Groundwater (3)

Total credits: 46 – 48

• **Supporting Courses**

One of the following:

- ASTR100—Introduction to Astronomy (3)
- ASTR101 – General Astronomy (4)

One of the following:

- AOSC123– Causes and Implications of Global Change (3)
- AOSC200 – Weather and Climate (3)

One of the following:

- CHEM131—Fundamentals of General Chemistry (3) and CHEM132— Fundamentals of General Chemistry Laboratory (1)
- CHEM135—Chemistry for Engineers (3) and CHEM 136— Chemistry for Engineers Laboratory (1)

MATH 140—Calculus I (4)

MATH 141—Calculus II (4)

One of the following

- PHYS 161— General Physics: Mechanics (3) and Particle Dynamics and PHYS 174—Physics Laboratory Introduction (1)
- PHYS 171— Introductory Physics: Mechanics (3) and Relativity and PHYS 174—Physics Laboratory Introduction (1)

Total credits: 22 – 23

• **Introductory teaching seminars (3 credits)**

- TLPL 101 – Introduction to Teaching Seminar (1)
- TLPL 102—Introduction to Teaching seminar (2)

• **Education Courses (6 credits from among the following)**

- EDCI 488M—Knowing and Learning (3)
- EDCI 488P—Project Based Instruction (3)
- Classroom Interactions (3)
- Reading (3)
- Perspectives Science and Math (3)

Total credits: 6

Cumulative total credits: 77 - 80

Requirements for the Geology Major, Geophysics Track

The geophysics curriculum is designed to meet the requirements of industry, graduate school, and government. For the B.S. degree, the students are required to complete introductory geology and physics requirements (39 credits) and upper-level requirements including depth options, context options, and breadth options (30 - 35 credits) in addition to the General Education Program requirements and the completion of at least 120 credits in total. In order to receive a degree in Geophysics, the department requires that students must have a grade of C- or better in the required geology courses.

Courses required for the B.S. in Geology are listed below. Some courses require field trips for which the students are expected to pay for room (if

required) and board.

Required Introductory Physics and Geology:

One of the following:

- GEOL100 – Physical Geology (3)
- GEOL120 – Environmental Geology (3)

GEOL110 – Introductory Geology Lab (1)

MATH140 – Calculus I (4)

MATH141 – Calculus II (4)

MATH241 – Calculus III (4)

One of the following:

- PHYS 161 – General Physics: Mechanics and Particle Dynamics (3)
- PHYS 171 – Introductory Physics: Mechanics and Relativity (3)

PHYS 165 – Introduction to Programming for the Physical Sciences (3)

PHYS 174 – Introductory Physics Laboratory (1)

PHYS 272 – Fields (3)

PHYS 273 – Waves (3)

PHYS 275 – Experimental Physics I: Mechanics, Heat, and Fields (2)

PHYS 276 – Experimental Physics II: Electricity and Magnetism (2)

One of the following:

- PHYS274 – Mathematical Methods for Physics I (3) and GEOL351 – Statistics for Geoscientists (3)
- MATH 240 – Linear Algebra (3) and MATH 246 – Differential Equations for Scientists and Engineers (3)

Total credits: 39

Geophysics Upper Level Requirements:

GEOL393 – Senior Thesis I - Proposal (3)

GEOL394 – Senior Thesis II - Research (3)

GEOL446 – Geophysics (3)

Total credits: 9

Depth Requirements: Choose three of the following:

GEOL412 – Geology of Terrestrial Planets (3)

GEOL447 – Observational Geophysics (3)

GEOL455 – Marine Geophysics (3)

GEOL456 – Engineering Geology (3)

GEOL457 – Seismology (3)

GEOL460 – Field Geophysics (3)

Total credits: 9

Context Requirement: Choose two of the following:

AOSC400 – Physical Meteorology of the Atmosphere (3)

AOSC424 – Remote Sensing of the Atmosphere and Ocean (3)

AOSC431 – Atmospheric Thermodynamics (3)

AOSC432 – Dynamics of the Atmosphere and Ocean (3)

GEOL322 – Mineralogy (4)

GEOL340 – Geomorphology (4)

GEOL341 – Structural Geology (4)

GEOL342 – Sedimentation and Stratigraphy (4)

GEOL423 – Optical Mineralogy (4)

GEOL443 – Petrology (4)

GEOL451 – Groundwater (3)

GEOL463 – Economic Geology (3)

GEOL472 – Tectonics (3)

Any upper level (300 or higher) Geology course with the approval of the undergraduate director not used to satisfy above requirements.

Total credits: 6 - 8

Breadth requirement: Choose two of the following:

PHYS373 – Mathematical Methods for Physics II (3)

PHYS371 – Modern Physics (3)

PHYS401 – Quantum Physics I (4)

PHYS402 – Quantum Physics II (4)

PHYS410 – Classical Mechanics (4)

PHYS411 – Intermediate Electricity and Magnetism (4)

Total credits: 6 - 8

Recommended courses: One of the following:

- CHEM131– Chemistry I – Fundamentals of General Chemistry (3) and CHEM132 –General Chemistry I Laboratory (1)
- CHEM135 – General Chemistry for Engineers (3) and CHEM136 – General Chemistry Laboratory for Engineers (1)

Overall total credits: 69 – 73

Matriculated Geology majors are expected to take all courses on campus unless specific departmental permission is given.

Other Requirements for the Major

Combined B.S./M.S. in Geology

The Combined B.S./M.S. program is designed to permit a superior student to earn both the Bachelor's and the Master's degrees in as few as five years of study. Although designed to provide an integrated experience of undergraduate and graduate work, the combined B.S./M.S. program is not a course of study separate and distinct from the traditional B.S. and M.S. Students in the combined B.S./M.S. program will, at any given time, be either undergraduate or graduate students. The program provides the opportunity for a superior student to telescope these degrees by taking up to nine graduate credits (600-level or higher) while still an undergraduate and counting them toward both degrees. A grade of "B" or better must be earned in each of these courses. Under optimal circumstances, one might complete both degrees in five years. Actual completion time will vary depending on one's individual circumstances. The master's thesis may be a continuation of work begun as part of the undergraduate senior thesis.

Acceptance into the combined B.S./M.S. normally would occur after the end of the sophomore year. The minimum requirements for acceptance into this program are similar to those for the geology honors program, namely an overall GPA of at least 3.0 at the end of the sophomore year and a GPA of 3.0 or better in all courses required for the major. Interested eligible students must provide the following material to be considered:

1. At least three letters of recommendation. At least one of these must be from a prospective graduate advisor, who must outline the applicant's sources of potential funding.
2. An essay or statement of purpose.
3. An interview with the undergraduate Honors Director and the Graduate Director.

Based on this, students may be provisionally accepted into the program. Students so accepted will be permitted to enroll in appropriate graduate-level courses. The combined B.S./M.S. program allows 9 credits of graduate courses (600-level or above) to be counted towards both the B.S. and M.S. degrees. A grade of "B" or better must be earned in each of these courses. Acceptance is provisional pending satisfaction of the following:

1. Completion of the undergraduate curriculum.
2. A GPA of 3.5 or better in GEOL393 and GEOL394.
3. Maintenance of a 3.0 overall GPA and a GPA of 3.0 or better in all courses required for the major.
4. Successful completion of the General GRE exam, usually taken during the fall term of the senior year.
5. Formal application and admission to the Graduate School. Your application for graduate admission is completely separate from your application to the combined B.S./M.S. Your participation in the combined BS/MS as an undergraduate does not give you priority over other graduate applicants.

Upon enrollment as a graduate student, the participant may designate the graduate courses that should be counted toward both degrees.

Requirements for the Minor

Earth History Minor

Geology (GEOL)

1115 Geology Building, 301-405-4365

www.geol.umd.edu

The undergraduate minor in Earth History recognizes concentrated study in this designated field in the College of Computer, Mathematical, and Natural Sciences. The award of a minor will be noted on the student's transcript at the time of graduation.

This minor may be earned by students not majoring in Geology and is administered by the Geology Undergraduate Studies Director. A grade of "C-" or better must be earned in all courses required for the minor. See www.geol.umd.edu for more information.

Required:

- One of the following:
 - GEOL 100/110 Physical Geology/Physical Geology Lab (4)
 - GEOL 120/110 Environmental Geology/Physical Geology Lab (4)
- GEOL 102 Historical Geology (4)

Plus three from:

- GEOL 331 Principles of Paleontology (4)
- GEOL 341 Structural Geology (4)
- GEOL 342 Sedimentation and Stratigraphy (4)
- GEOL 436 Principles of Biogeochemistry (3)
- GEOL 437 Global Climate Change: Past and Present (3)
- GEOL 499 Special Problems in Geology (3)

Earth Material Properties Minor

Geology (GEOL)

1115 Geology Building, 301-405-4365

www.geol.umd.edu

The undergraduate minor in Earth Material Properties recognizes concentrated study in this designated field in the College of Computer, Mathematical, and Natural Sciences. The award of a minor will be noted on the student's transcript at the time of graduation.

This minor may be earned by students not majoring in Geology and is administered by the Geology Undergraduate Studies Director. A grade of "C-" or better must be earned in all courses required for the minor. See www.geol.umd.edu for more information.

Required:

- One of the following:
 - GEOL100/110 Physical Geology/Physical Geology Lab (4)
 - GEOL120/110 Environmental Geology/Physical Geology Lab (4)
- GEOL322 Mineralogy (4)

Plus three from:

- GEOL341 Structural Geology (4)
- GEOL423 Optical Mineralogy (4)
- GEOL443 Petrology (4)
- GEOL445 High Temperature Geochemistry (3)
- GEOL456 Engineering Geology (3), or

- GEOL457 Seismology (3)
- GEOL499 Special Problems in Geology (3)

Geochemistry Minor

Geology (GEOL)

1115 Geology Building, 301-405-4365
www.geol.umd.edu

The undergraduate minor in Geochemistry recognizes concentrated study in this designated field in the College of Computer, Mathematical, and Natural Sciences. The award of a minor will be noted on the student's transcript at the time of graduation.

This minor may be earned by students not majoring in Geology and is administered by the Geology Undergraduate Studies Director. A grade of "C-" or better must be earned in all courses required for the minor. See www.geol.umd.edu for more information.

Required:

- One of the following:
 - GEOL100/110 Physical Geology/Physical Geology Lab (4)
 - GEOL120/110 Environmental Geology/Physical Geology Lab (4)
- GEOL322 Mineralogy (4)
- One of the following:
 - GEOL444 Low Temperature Geochemistry (4)
 - GEOL445 High Temperature Geochemistry (4)

Plus two from:

- GEOL435 Environmental Geochemistry (3)
- GEOL436 Biogeochemistry (3)
- GEOL443 Petrology (4)
- GEOL444 Low Temperature Geochemistry (4) (if not used to satisfy requirement above)
- GEOL445 High Temperature Geochemistry (4) (if not used to satisfy requirement above)
- GEOL471 Geochemical Methods of Analysis (3)
- GEOL499 Special Problems in Geology (3)

Geophysics Minor

Geology (GEOL)

1115 Geology Building, 301-405-4365
www.geol.umd.edu

Depending on the courses taken, there are a total of 16-18 credits required for the minor in Geophysics (also see prerequisites.)

Required:

- One of the following:
 - GEOL 100/110 Physical Geology/Physical Geology lab (4)
 - GEOL 120/110 Environmental Geology/Physical Geology Lab (4)
- Any two of the following:
 - GEOL 446 Geophysics (3)
 - GEOL 447 Observational Geophysics (3)
 - GEOL 457 Seismology (3)

Plus two from:

- GEOL 341 Structural Geology (4)
- GEOL 446 Geophysics (3) (If not used to satisfy requirement above)
- GEOL 447 Observational Geophysics (3) (If not used to satisfy requirement above)
- GEOL 455 Marine Geophysics (3)
- GEOL 456 Engineering Geology (3)
- GEOL 457 Seismology (3) (If not used to satisfy requirement above)
- GEOL 412 Geology of the Terrestrial Planets (3)
- GEOL 499 Special Problems in Geology (3)

All Geology minors are an appropriate disciplinary combination with Astronomy, Computer Science, Mathematics, or Physics majors within CMNS. The minors are also appropriate for majors outside the college with appropriate matches including, but not limited to:

Geography/Remote Sensing (Surficial Geology)
 Engineering and Material Sciences (Earth Material Properties)
 Evolutionary Biology and Physical Anthropology (Earth History)
 Biology, Biological Diversity, and Ecology (Earth History, Hydrology)

Hydrology Minor

Geology (GEOL)

1115 Geology Building, 301-405-4365
www.geol.umd.edu

An undergraduate minor in Hydrology recognizes concentrated study in a designated field in the College of Computer, Mathematical, and Natural Sciences. The award of a minor will be noted on the student's transcript at the time of graduation.

This minor may be earned by students not majoring in Geology and is administered by the Geology Undergraduate Studies Director.

A grade of "C-" or better must be earned in all courses required for the minor. See www.geol.umd.edu for more information.

Minor Requirements

Required:

- One of the following:
 - GEOL 100/110 Physical Geology/Physical Geology Lab (4)
 - GEOL 120/110 Environmental Geology/Physical Geology Lab (4)
- GEOL 451 Groundwater (3)
- GEOL 452 Watershed and Wetlands Hydrology (3)

Plus two from:

- GEOL 436 Principles of Biogeochemistry (3)
- GEOL 444 Low-Temperature Geochemistry (4)
- One of the following:
 - GEOL 453 Ecosystem Restoration (3)
 - GEOL 435 Environmental Geochemistry (3)
- GEOL 499 Special Problems in Geology (3)

Planetary Sciences Minor

The minor in Planetary Sciences will provide students with a broad understanding of the application of the methods of astronomy and geology to the study of the Solar System, and develop the students' appreciation of how issues in the study of planets connect with larger issues in those sciences. It is intended for all students with an interest in the study of the Solar System, be it professional or avocational. In addition to Astronomy and Geology majors, it dovetails with the professional goals of Environmental Science and Policy, Environmental Science and Technology, Chemistry, Physics, Physical Sciences, and Secondary Education majors.

Building on a three-course base of fundamental knowledge of astronomy, geology and an introduction to the Solar System, the program is completed by three advanced courses addressing specific topics adding depth to the student's knowledge of planetary astronomy and to the geologic tools of the planetary scientist. Students are required to sample from optional courses from both departments. The Joint Minor in Planetary Sciences does not require significant prerequisite knowledge, however some optional courses may require prerequisites of 100-level courses in chemistry, mathematics, or geology. Courses required for the proposed minor are:

REQUIRED:

One of the following:

- ASTR100 Introduction to Astronomy (3)
- ASTR101 General Astronomy (4)
- ASTR120 Introductory Astrophysics - Solar System (3)

One of the following:

- GEOL100/110 Physical Geology/Physical Geology Lab (4)
- GEOL120/110 Environmental Geology/Physical Geology Lab (4)

One of the following:

- ASTR330 Solar System Astronomy (3)
- ASTR430 The Solar System (3)
- GEOL212 Planetary Geology (3)

Plus three from the following:

At least one choice must be from Geology and one from Astronomy. At least six credits must be at the 300-400 level.

- ASTR220 Collisions in Space - The Threat of Asteroid Impacts (3)
- ASTR230 The Science and Fiction of Planetary Systems (3)
- ASTR380 Life in the Universe - Astrobiology (3)
- ASTR498 Special Problems in Astronomy (3)
- GEOL322 Mineralogy (4)
- GEOL340 Geomorphology (4)
- GEOL412 Geology of Terrestrial Planets (3)
- GEOL437 Global Climate Change, Past and Present (3)
- GEOL499 Special Problems in Geology (3)
- Or another appropriate astronomy or geology course approved in advance by the Astronomy or Geology advisor (3-4)

Depending on the optional course taken, there is a total of 19-22 required credits (see prerequisites). All courses presented for the minor must be passed with a grade of "C-" or better.

Surficial Geology Minor

Geology (GEOL)

1115 Geology Building, 301-405-4365

www.geol.umd.edu

This undergraduate minor recognizes concentrated study in Surficial Geology, a designated field in the College of Computer, Mathematical, and Natural Sciences. The award of a minor will be noted on the student's transcript at the time of graduation.

This minor may be earned by students not majoring in Geology and are administered by the Geology Undergraduate Studies Director. A grade of "C-" or better must be earned in all courses required for the minor.

Required:

- One of the following:
 - GEOL 100/110 Physical Geology/Physical Geology Lab (4)
 - GEOL 120/110 Environmental Geology/Physical Geology Lab (4)
- GEOL 123 Causes and Implications of Global Change (3)
- GEOL 340 Geomorphology (4)

Plus two from:

- GEOL 331 Principles of Paleontology (4)
- GEOL 342 Sedimentation and Stratigraphy (4)
- GEOL 444 Low Temperature Geochemistry (4)
- GEOL 435 Environmental Geochemistry (3)
- GEOL 437 Global Climate Change - Past and Present (3)
- One of the following:
 - GEOL 451 Groundwater (3)
 - GEOL 452 Watershed and Wetland Hydrology (3)
- GEOL 499 Special Problems in Geology (3)

Advising

The Geology Undergraduate Studies Director serves as the advisor for the geology majors, 1119 Geology Building, 301-405-4379. Students who have been away more than two years may find that due to curriculum changes the courses they have taken may no longer be adequate preparation for the courses required to complete the major. Students in this situation must meet with the Undergraduate Studies Director to make appropriate plans.

Undergraduate Research Experiences

The Professional, Secondary Education, and Geophysics tracks of the Geology major require students to complete a two-semester, six credit senior research thesis (GEOL393 and GEOL394), involving independent original geosciences research under the mentorship of a member of the faculty. Senior thesis students give presentations of proposals, progress, and final results to the entire department.

Honors Program

Admission to the Program will be by invitation of the Honors Committee, normally at the end of the sophomore year and normally will be extended to students with an overall GPA of 3.0 or better and a GPA of 3.0 or better in all courses required for the major.

Graduation with Honors normally requires completion of the curriculum, grades of B- and A- or better in GEOL393 and GEOL394 (i.e., grades for one semester must be at least an A-, and the second semester grade cannot fall below a B-), and maintenance of a 3.0 overall GPA and a GPA of 3.0 or better in all courses required for the major. Maintenance of a general GPA and GPA in geology major courses of 3.5 or above and a grade of A in both GEOL393 and GEOL394 will earn the distinction of Graduation with High Honors.

The curriculum for Honors in Geology follows the University Honors Program Track I: Thesis Option with a 15 credit minimum.

1. The requirement for upper division Honors courses will be met by a minimum of 9 hours as follows:

- a. GEOL497H - Recent Advances in Geology (3 credit hours), and
- b. 6 credit hours from the following:

- i) a 3 credit hour graduate-level course approved by the Departmental Honors Committee
- ii) Honors Option project in a three or four credit hour upper-level course from the offerings in the Geology Department
- iii) no more than one Honors College seminar (3 credit hours) addressing a relevant topic in natural sciences. (Typically, this would include seminars offered by faculty in the College of Computer Mathematical and Natural Sciences). The Honors College seminar must be approved in advance by the departmental honors committee.

The Honors Option Proposal must be approved by the departmental honors committee, the professor teaching the course and the Honors College. A proposal must be approved by the Department and submitted to the Honors College by the 10th day of class in the semester in which the course will be taken and the project completed.

2. The research and thesis requirement will be met by completion of GEOL393 and GEOL394 with grades meeting the criteria outlined above (6 credit hours).

Student Societies and Professional Organizations

Sigma Gamma Epsilon, National Honor Society for Earth Sciences, and the Geology Club.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

- Washington Gems & Mineral Scholarship
- Green Scholarship in Environmental Science and Policy
- Marc Lipella Memorial Scholarship

Geographical Sciences (GEOG)

College of Behavioral and Social Sciences

2181M LeFrak Hall, 301-405-4073

www.geog.umd.edu

geog-advise@umd.edu

Chair: C. Justice

Professors: R. Dubayah (Graduate Director), M. Hansen, K. Hubacek, G. Hurtt, C. Justice, E. Kasischke, S. Liang, S. Prince, J. Townsend

Associate Professors: M. Geores, P. Torrens

Assistant Professors: T. Loboda, J. Silva

Lecturers: E. Ellicott (Res Asst Prof), A. Eney, L. Giglio (Res Assoc Prof, Lecturer), R. Luna (Undergraduate Director), J. Ma (MPSGIS Program Director), R.

Sohlberg (Fac Res Asst), J. Trocino, K. Yearwood (Physical Lecturer), N. Zhou (GIS Lecturer), M. Zlatić

Adjunct Professors: N. Rosenberg, C. Tucker, D. Williams

Adjunct Associate Professors: S. Goetz, C. Walthall

Professors Emeriti: H. Brodsky (Assoc), J. Cirrincione (Assoc), S. Goward, D. Thompson, J. Wiedel

The Major

How do you see the future? More of everything: food, parks, leisure, personal electronic devices, peace between the nations? Or more people, new diseases, traffic gridlock, and starvation? Will there still be crabs and oysters from the Chesapeake Bay?

The world is changing at unprecedented rates, primarily as a result of human actions. Opportunities for increased well-being of humans and the environment abound. On the other hand, competition for resources such as fresh water and oil is reaching crisis proportions.

The future of humanity depends on skillful management of our environment by planning the social, urban, suburban and rural settings where we work, live and play. Expert care of the environment is needed to maintain supplies of food, natural products, water, and the other resources on which life depends. New insights into the social, economic and urban environment can help control poverty and crime.

Geographical Sciences concerns the relations between people and the natural world, the effects of ecosystems on human beings and vice versa, the choices people make, the effects of past actions on people today, and the effects of today's choices on future generations. Courses offered by this department may be found under the acronym GEOG.

Program Learning Outcomes

Having completed the degree program, students should have acquired the following knowledge and skills:

- Possess an understanding of the nature of the physical systems and processes of the Earth's environment and their interactions.
- Understand the nature of the geographical approach and its value in understanding human-environment relationships.
- Know the methods and techniques of data collection, display and analysis used in the study of environmental systems.

Academic Programs and Departmental Facilities

The Geographical Science Department has two 25-seat computer teaching laboratories that are used in undergraduate coursework, particularly in GIS/Remote Sensing courses. There are different types of equipment for field research and remote sensing, and Global Positioning Systems (GPS) are also available.

Requirements for the Major

Within any of the specializations available in the geographical sciences program it is possible for students to adjust their programs to fit their individual interests. The geographical sciences major totals 35 semester hours. In addition to the 35 semester hours, the geographical sciences major is required to take an additional 15 semester hours of supporting course work outside of the department. The hours can be either in one department or in an area of specialization. An area of specialization requires that a written program of courses be reviewed and placed on file by the department advisor. Visit or call the Advising Office, LeFrak 2108, 301-405-4073, e-mail geog-advise@umd.edu, or see the web page at www.geog.umd.edu. Supporting courses generally are related to the area of specialty in geographical sciences. The pass-fail option is not applicable to major or supporting courses. A minimum grade of "C-" in each course is required for major and supporting courses. Students must have a minimum 2.0 cumulative grade point average across all courses, including the supporting sequence, used to satisfy the major degree requirements.

Geographical Sciences Major

The required courses for geography majors are as follows:

Required Courses

GEOG201	Geography of Environmental Systems	3
GEOG202	The World in Cultural Perspective	3
GEOG211	Geography of Environmental Systems Laboratory	1
GEOG212	The World in Cultural Perspective Lab	1
PHYSICAL	Upper-level physical geography course	3

HUMAN	Upper-level physical human course	3
TECHNIQUE	Upper-level geographic technique course	3
	<i>At least one upper-level course in physical geography, human geography and geographic technique is required regardless of the specialty of the individual student's program. These courses build on the initial base provided by the Primary Courses, and also serve as the basis for selection of upper-level geography courses.</i>	
ELECT 300/400	Upper-level geography electives	15
GEOG306	Introduction to Geographic Methods for the Geographic Environmental Sciences	3
	Total Credits:	35

Supporting Courses

MATH120 or MATH220	Elementary Calculus I	3
SUPPORT	Supporting courses approved by GEOG advisor	12

Introduction to Geography

The 100-level geography courses are general education courses for persons who have had no previous contact with the discipline in high school or for persons planning to take only one course in geography. They provide general overviews of the field or in one of its major topics. Credit for these courses is not applied to the major.

Related Programs**Geographic Information Science/Computer Cartography Major**

The Geographical Sciences Department offers an important area of specialization: GIS and Computer Cartography. The Bachelor of Science degree program in Geographic Information Science and Computer Cartography is designed to give students the technical skills needed to acquire, manage and analyze very large amounts of geographic data. Students will get extensive computer training in digital processing of remote sensing observations and cartographic vector data, spatial analysis, and the display of information products. Almost everything we do involves geographic information, from deciding where to live and travel, to environmental monitoring and urban planning. Influenced by computer technology, the academic disciplines of geographic information science such as remote sensing, geographic information systems (GIS), and computer cartography have evolved dramatically in the past few decades. Remote sensing is the science of obtaining geographic information from aircraft and satellites. GIS technology manages and analyzes different forms of digital geographic data, and this field has been growing at an extraordinary rate. Computer cartography has revolutionized traditional cartography to vastly improve map making and visualization of geographic information in a multimedia environment.

The required courses for GIS majors are as follows:

Required Courses

GEOG201	Geography of Environmental Systems	3
GEOG202	The World in Cultural Perspective	3
GEOG211	Geography of Environmental Systems Laboratory	1
GEOG212	The World in Cultural Perspective Lab	1
PHYSICAL	Upper-level physical geography course	3
HUMAN	Upper-level physical human geography course	3
GEOG306	Introduction to Geographic Methods for the Geographic Environmental Sciences	3
ELECT 300.400	Upper-level geography electives	3
GEOG372	Remote Sensing	3
GEOG373	Geographic Information Systems	3
GEOG375	Computer Cartography	3
GEOG472	Remote Sensing: Digital Processing and Analysis	3
GEOG473	Geographic Information Systems and Spatial Analysis	3
	Total Credits	35

Supporting Courses

	Supporting courses approved by GEOG advisor	12
	One from	
MATH120 or MATH220	Elementary Calculus I	3
MATH140	Calculus I	4
	<i>Supporting area courses must be taken from a list provided by the department. All math programs should be approved by a departmental advisor.</i>	

Geographical Science and Social Studies Education Double Major

In conjunction with the College of Education/Curriculum and Instruction, the Geographical Sciences Department offers a special 121 credit hours program for students wishing to double major in Geographical Sciences and Social Studies Education - Geography Concentration, allowing them to teach geography at the secondary level. Early examination of requirements is encouraged to reduce the number of additional hours required. In addition to the Geographical Sciences Department's required credits, the program requires 28 credit hours of course work in history and the social sciences. For a list of requirements, contact the Geography Undergraduate Advising Office. Requirements are also listed under the Curriculum and Instruction Social Studies Education - Geography Concentration double major option.

Requirements for the Minor**Minor in Geographic Information Science (GIS)**

See undergraduate advising office for more information: LeFrak Hall 2108, 301-405-4073.

Non-Geography Major Required Courses

GEOG201/211	Geography of Environmental Systems/Lab or	3 or 4
or GEOG202	The World in Cultural Perspective	
GEOG306	Introduction to Geographic Methods for the	3
	Geographic Environmental Sciences	
GEOG372	Remote Sensing	3
GEOG373	Geographic Information Systems	3
One from:		
GEOG472	Remote Sensing: Digital Processing and Analysis	
GEOG473	Geographic Information Systems and Spatial	3
	Analysis	
GEOG475	Computer Cartography	
Total Credits		15/16

Geography Major Required Courses

GEOG306	Introduction to Quantitative Methods for the	3
	Geographic Environment Sciences	
GEOG372	Remote Sensing	3
GEOG373	Geographic Information Systems	3
GEOG476	Programming for Geographers	3
One from		
GEOG472	Remote Sensing: Digital Processing and Analysis	
GEOG473	Geographic Information Systems and Spatial	3
	Analysis	
GEOG475	Computer Cartography	
Total Credits		15

Student must achieve a "C-" or better in each course applied to the minor in Geographic Information Systems. Students must have a minimum 2.0 cumulative grade point average across all courses, including the supporting sequence, used to satisfy the minor requirements.

Minor in Remote Sensing of Environmental Change (RSEC)

Description:

The Remote Sensing of Environmental Change minor program (RSEC) is designed to build students' understanding global environmental change in order to assess their impacts on the physical and human landscapes, and to use remote sensing as an analytical tool for identifying the impacts. Students in the minor program will receive technical training in remote sensing to examine how extreme environmental events shape human society and ecosystems from the interdisciplinary perspective afforded by the field of Geography.

Admission to the Program:

There are no special requirements for the Minor Program in Remote Sensing of Environmental Change. The Department of Geographical Sciences welcomes students from every area of study. GIS and ENSP students are also welcome to enroll in this minor.

Requirements:

- All credits for the minor must be taken in the Department of Geographical Sciences at the University of Maryland, College Park.
- All courses must be completed with a grade of "C-" or better.
- No more than **six credits** are to be included in the Minor and student's major, supporting courses, and college requirements.

The Required Curriculum: (18 credits)

Foundation Course (3 credits)

- **Natural Disasters:** GEOG 140 (3 credits)

Or

- **Introduction to Methods of Geospatial Intelligence and Analysis:** GEOG170 (3 credits)

Technical Geography Courses (6 credits)

- **Introduction to Remote Sensing:** GEOG372 (3 credits)
- **Advanced Remote Sensing:** GEOG472 (3 credits)

Choose one Physical Geography Course (3 credits)

- **Geomorphology:** GEOG340 (3 credits)
- **Biogeography:** GEOG342 (3 credits)
- **Climatology:** GEOG345 (3 credits)

Choose one Human Dimension of Global Change Course (3 credits)

- **Regional Geography: China** GEOG328B (3 credits)
- **Regional: Sub-Saharan Africa:** GEOG328C (3 credits)
- **Regional: Latin America:** GEOG313 (3 credits)
- **Society and Sustainability:** GEOG330 (3 credits)
- **Intro to Human Dimensions of Global Change:** GEOG331 (3 credits)
- **Economic Geography:** GEOG332 (3 credits)

Choose one Advanced Integrated Course (3 credits)

- **Land Use, Climate Change, and Sustainability:** GEOG415 (3 credits)

- **Modeling Human-Environment Interactions:** GEOG416 (3 credits)
- **Cultural and Natural Resource Management:** GEOG431 (3 credits)
- **Coastal Oceans:** GEOG441 (3 credits)
- **Biogeography & Environmental Change:** GEOG442 (3 credits)

Advising

Advising is Mandatory for students each semester. The advising office is located at 2181M LeFrak Hall. If you can, please email before you visit us since the schedule can change day to day. We can always be reached via email ateog-advise@umd.edu or voice mail at 301-405-4073.

Fieldwork Opportunities

GEOG328 (Winter): The Geography of the Southern Caribbean

This course offers an unique and challenging "hands-on" study of Grenada and the Grenadines during the Winter term. The best way to study the Grenadines is by sailing vessel. The Grenadines are the "land of eternal summer," making them one of the most exclusive sailing grounds in the world. Students will be able to visit not only Grenada, but St. Lucia, St. Vincent, and Tobago Cays.

GEOG358A Croatia (Summer): country in transition emerging from the war and communism. This course is a geographical survey of Croatia, focusing on its natural and built environment, human and economic resources, and recent emergence from war and communism into a modern democratic state.

<http://www.geog.umd.edu/content/study-abroad>

Internships

The Department of Geographical Sciences offers a one-semester internship program for undergraduates. Students can earn a total of three credits. Students are responsible for finding their own internships and can pursue a wide variety of opportunities in the public private and non-profit sectors. Internships may be on-or off-campus, paid or unpaid. <http://www.geog.umd.edu/content/internship-program>

Internship Requirements

- Junior or senior with a minimum of 70 credits
- 2.5 GPA overall

Internship partners

- NASA Develop
- USDA
- Mitre Corporation
- NOAA
- ESRI
- The Maryland National Capital Park and Planning Commission

Honors Program

Students admitted to the Honors program engage in independent research under the guidance of an individual faculty member. Students are eligible upon completion of 30 credits of geography courses including the required courses. Honors students will need to register for 12 credits of which they can substitute for formal coursework. Students must have a 3.2 overall GPA and a 3.5 GPA in Geographical Sciences.

<http://www.geog.umd.edu/content/honors-geography>

Student Societies and Professional Organizations

Geography Club

Geography Club is back and better than ever! Join undergrads and grad students for cultural potlucks, international movies, charity events and exploratory trips around the DC metropolitan area!

- Contact the Geography Club at geogclubumd@gmail.com for more information.
- Geography T-Shirts are now in! Come by 2181M LeFrak Hall to get yours today! Shirts are \$15 and proceeds will go do the Geography Club.

Gamma Theta Upsilon: The Geography Honor Society

GTU is an international honor society in geography that aims to further professional interest in Geography, strengthen student and professional training and encourage student research. Membership is earned through superior scholarship and therefore it is an honor and a professional distinction.

Members must be in their 4th semester of study, working towards a Geographical Sciences or related degree, have a minimum 3.3 GPA cumulative and in all Geographical Sciences classes and attend meetings and events.

Contact Kevin Mathew at geogclubumd@gmail.com for more information

Check us out in Facebook at [Facebook.com/umdgeographyclub](https://www.facebook.com/umdgeographyclub)

The Association of American Geographers

The Association of American Geographers (AAG) is a nonprofit scientific and educational society founded in 1904. For 100 years the AAG has contributed to the advancement of geography. Its members from more than 60 countries share interests in the theory, methods, and practice of geography, which they cultivate through the AAG's Annual Meeting, two scholarly journals (Annals of the Association of American Geographers and The Professional Geographer), and the monthly AAG Newsletter.

<http://www.aag.org/>

The Sustainability Club

The Department of Geographical Sciences' sustainability club, otherwise known as the Geography Sustainability Task Force (GSTF), seeks to improve the efficiency of our consumption and improve working conditions while at the same time reducing our environmental footprint. We have made small strides such as changing paper usage and reducing power consumption in computer labs, but continue to work on large issues of departmental and building-wide lighting, water, and waste. Through increased education, awareness, and involvement we look forward to big changes in 2012 and beyond. The GSTF has, and continues to, consult and work with the University of Maryland Office of Sustainability (www.sustainability.umd.edu). Future meetings will be posted here and announced through internal departmental emails.

- Additional information can be obtained from Evan Ellicott (ellicott@umd.edu).

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu

Germanic Studies (GERM)

College of Arts and Humanities

3215 Jiménez Hall, 301-405-4025

www.german.umd.edu

Professors: P. Beicken (Distinguished Scholar Teacher), E. Frederiksen (Distinguished Scholar Teacher), A. Moyer, R. Oster

Associate Professors: H. Baer, J. Koser

Professors Emeriti: O. Best, G. Jones, G. Pfister, G. Strauch, R. Walker

The Major

The 36-credit BA in Germanic Studies is centered on the study of the German language as well as the literatures and cultures of Germanic peoples. Students who complete the requirements for the major can expect to be able to speak, read, write, and understand German at a level that would allow them to communicate with native speakers. Additionally, students will be able to recognize and interpret the diverse cultural perspectives and products of the German-speaking world, in order to be culturally sensitive members of society.

Placement in CoursesPlease see: <http://www.arhu.umd.edu/undergraduate/flpa>**Requirements for the Major****Prerequisite: 8 credits:** GERM103 and GERM203 or equivalent**Course Requirements: 36 credits****A. Core Language Sequence: 9 credits**

GERM204	German Grammar Review (prereq GERM203 or Foreign Language Placement Testing)
GERM301	Conversation/Composition I: Germany and its People (prereq GERM204)
GERM302	Conversation/Composition II: Current Topics in German Society (prereq GERM301)

B. Area Requirements: 27 credits

A minimum of 2 upper level courses in each of three areas: language, literature, and culture.

Language Courses: 6 credits upper level minimum

GERM401	Advanced Conversation: Germany within Europe (prereq GERM302)
GERM403	Advanced Composition: German Culture & Social Issues (prereq GERM302)
GERM315	Practicum in Translation I (prereq GERM204)
GERM316	Practicum in Translation II (prereq GERM315)
GERM319	Selected Topics in Germanic Language Studies (prereq GERM203)
GERM419	Selected Topics in German Language Study (prereq GERM302)
GERM473	Variation in Contemporary German Language (prereq GERM302 or by permission)
GERM479	Selected Topics in Germanic Philology

Literature Courses: 6 credits upper level minimum

GERM320	Survey of German Studies (prereq GERM301)
GERM321	Highlights of German Literature I (prereq GERM301)
GERM322	Highlights of German Literature II (prereq GERM301)
GERM421	Literature of the Middle Ages (prereq: one course from the GERM320 series)
GERM422	From the Reformation through the Baroque (prereq: one course from the GERM320 series)
GERM424	Classicism (prereq: one course from the GERM320 series)
GERM431	Romanticism and Biedermeier (prereq: one course from the GERM320 series)
GERM432	From Enlightenment to Storm and Stress (prereq: one course from the GERM320 series)
GERM433	Naturalism and its Countercurrents (prereq: one course from the GERM320 series)
GERM434	Expressionism to 1945 (prereq: one course from the GERM320 series)
GERM435	From 1945 to the Present (prereq: one course from the GERM320 series)
GERM436	The Usual Suspects: Criminals in German Literature and Film (prereq: one course from the GERM320 series)
GERM439	Selected Topics in German Literature (prereq: one course from the GERM320 series)

Culture Courses: 6 credits upper level minimum

Courses marked with * are taught in English; no prerequisite unless specified.

*GERM280	German-American Cultural Contrasts
*GERM281	Women in German Literature & Society
*GERM282	Germanic Mythology
*GERM283	Viking Culture and Civilization

*GERM285	German Film and Literature
*GERM287	Ancient Celtic Culture and Civilization
GERM289	Selected Topics in the Cultures of the Germanic Speaking Countries
GERM299	Special Topics in Germanic Studies
*GERM368	Scandinavian Civilization
*GERM381	German Civilization I
*GERM382	German Civilization II
*GERM389	Topics in Germanic Culture
GERM399	Selected Topics in Germanic Studies (dept permission)
GERM449	Selected Topics in Germanic Studies (dept permission)
*GERM463	The Icelandic Family Saga
*GERM475	Old Norse
GERM489	Selected Topics in Area Studies (prereq GERM302)

Students must earn a grade of "C-" or higher in each course applied toward a major or minor in the School of Languages, Literatures, and Cultures. Additionally, an overall GPA of 2.0 in a major or minor is required for graduation.

Language of Instruction

No more than 9 credits of the 36 total required may be satisfied by courses taught in English. With the approval of the Germanic Studies advisor, up to 6 credits of these courses may be taken outside the department.

Study Abroad

For information on study abroad programs see the program advisor and/or the Education Abroad website www.international.umd.edu/studyabroad.

Internships

Internships (GERM386) are also encouraged (no more than 3 credits may be applied to the major). GERM386 may not replace the required 6 credits of upper-level courses in any of the three categories.

Requirements for the Minor

Germanic Studies

School of Languages, Literatures and Cultures (SLLC)

www.german.umd.edu

This minor will provide students with an in-depth understanding of German Language and Literature as a source of Culture. Building on these essentials, students can concentrate on Language, Literature or Culture, or a combination of these fields. This will be accomplished by taking 5 courses beyond GERM 203 or its equivalent. Students will determine, in close consultation with the German undergraduate advisor, how to constitute their own concentration.

Minor Requirements:

15 credits - 5 courses beyond GERM203 or its equivalent

- Courses taught in German beyond 203 or its equivalent
- 3 of these 5 courses (9 hours) must be upper division level: one language, one literature, and one culture
- Prerequisites: GERM103 and 203 are required, or their equivalents as determined through departmental advising
- All courses must be passed with a grade of "C-" or higher.
- An overall GPA of 2.0 in the minor is required for graduation.

To make an appointment to explore or declare a minor, go to

www.arhu.umd.edu/undergraduate/academics/minors

Undergraduate Research Experiences

The School of Languages, Literatures, and Cultures has implemented an Annual SLLC Undergraduate Research Forum which allows its outstanding Juniors and/or Seniors to display their research projects. The Forum takes place in late April in the Language House (St. Mary's).

Internships

Annual Language Career and Internship Fair

Each fall semester, SLLC organizes a Language Career and Internship Fair in conjunction with the UMD Career Center. For more information, see the SLLC website: <http://www.sllc.umd.edu/>.

Co-op Programs

Language Partner Program (LPP)

The Language Partner Program is a joint venture between the School of Languages, Literatures, and Cultures, the Office of International Services, and Education Abroad. International students are paired with SLLC majors and meet weekly on a one-on-one basis outside the classroom to work in an informal, yet structured, way on the listening, speaking, and cultural acquisition skills of SLLC majors. SLLC students in good academic standing (3.0 GPA), and at the intermediate to advanced level, sign up for a 1cr SLLC309 - Language Partner Program.

Student Societies and Professional Organizations

Individual SLLC departments hold annual induction ceremonies for students who are eligible for honor society membership.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state, and institutional financial assistance programs, and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

The UG Committee organizes an annual awards ceremony to celebrate SLLC students who have earned SLLC, campus and/or national scholarships, and academic achievement awards. The awards ceremony takes place in conjunction with the annual SLLC UG Research Forum.

Government and Politics (GVPT)

College of Behavioral and Social Sciences

3140 Tydings Hall, 301-405-4156

www.gvpt.umd.edu

Chair: I. Morris (Prof & Chair)

Director: E. Calvo (Assoc Chair & Assoc Prof), M. Hanmer (Graduate Director & Assoc Prof), S. Kastner (Undergraduate Director & Assoc Prof)
 Professors: C. Alford, J. Gimpel, J. Glass, P. Huth, F. Lee, M. Lichbach, W. McIntosh (Assoc Dean), M. Pearson, S. Telhami, V. Tismaneanu, E. Uslander
 Associate Professors: A. Banks, J. Birnir, D. Cunningham, K. Cunningham, V. Haufler, D. Karol, S. Kastner, W. Reed, S. Rouse, K. Soltan, P. Swistak
 Assistant Professors: I. Alcaniz, T. Allee, K. Bond, S. Croco, J. Hadden, C. Jones (Asst Prof), L. Mason (Asst Prof), J. McCauley, K. Miler, J. Simmons, I. Ward, P. Wohlfarth
 Professors Emeriti: C. Butterworth, R. Davidson, S. Elkin, M. Franda, T. Gurr (Dist. Univ. Prof.), G. Hathorn, M. Heisler, C. Hsueh, V. Marando, J. Oppenheimer, W. Phillips, D. Piper, G. Quester, C. Stone, R. Terchek, L. Vietri, J. Wilkenfeld

The Major

Government and Politics is one of the largest majors on campus with approximately 1,000 students taking courses in American politics, international relations, comparative politics, political theory, political philosophy, law, public policy, and environmental policy. Its large and diverse group of students are mentored by faculty through a variety of in and out of classroom experiences and have been extremely successful in garnering campus and national awards, acceptance to competitive law and graduate programs, and exciting careers in all levels of government and the private sector. Students also benefit from a large and active group of local alumni who have reached the highest levels of their respective careers and who actively meet, recruit, and mentor current students. Courses offered by this department may be found under the acronym GVPT.

Program Objectives

The Department of Government and Politics offers programs for the general student as well as for students who are interested in careers in government, the public sector, foreign assignment, teaching, a variety of graduate programs, and law schools. Satisfactory completion of requirements leads to a Bachelor of Arts degree in Government and Politics.

The study of politics is both an ancient discipline and a modern social science. The origin of the discipline can be traced back to the earliest times when philosophers, statesmen, and citizens studied the nature of government, justice, responsibility, and the consequences of political action. More recently, the study of politics has also emphasized scientific analysis and methods of observations about politics. Today, the discipline reflects a broad effort to collect data about politics and governments utilizing relatively new techniques developed by all of the social sciences.

The Department of Government and Politics combines philosophical and scientific concerns in its overall program as well as in specific courses. It emphasizes such broad areas as political development, policy analysis, social justice, political economy, conflict, and human rights. These broad conceptual areas are integral components of study in the discipline. The areas are commonly referred to as American government and politics; comparative government; political theory; international relations; public administration; public law; public policy and political behavior.

Program Learning Outcomes

Having completed the degree program, students should have acquired the following knowledge and skills:

- An understanding of basic political science concepts including power, institutions, political systems, theories of the state, political conflict, citizenship, and contending analytical and theoretical approaches
- Proficiency in research and analytical skills using either quantitative methods and or library skills
- A basic knowledge of the methods, approaches, or theories used in accumulating and interpreting information applicable to the discipline of political science
- Effective oral and written communication skills to clearly and coherently present information in the discipline of political science

Admission to the Major

Government and Politics is a Limited Enrollment Program that has special requirements for admission, such as minimum GPA guidelines and required courses. Students planning to transfer into the major should contact the department for details on Limited Enrollment requirements. Students admitted as incoming freshmen will have their academic review after 45 credits.

Requirements for the Major

Government and Politics students must complete a minimum 36 credit hours within GVPT, but may take no more than 42 credit hours total within the major. A minimum grade of "C-" is required in each course, and at least 18 of the 36 credits must be in upper-level courses. Students exceeding the 42 credit limit will not be allowed to count additional GVPT credits within the 120 needed to graduate. For every additional GVPT credit, students must complete an additional credit outside of the GVPT major to graduate. (AP and IB credits are included in this calculation).

	Required Courses	Credits
GVPT100	Principles of Government and Politics	3
GVPT241	The Study of Political Philosophy: Ancient and Modern	3
ECON200	Principles of Microeconomics	4
	<i>One from:</i>	3
GVPT170	OR American Government	
GVPT171	American Government	
	<i>One from:</i>	3 - 4
MATH111	Introduction to Probability	
MATH120	Elementary Calculus	
or MATH220		
MATH140	Calculus	
STAT100	Introduction to Statistics	
GVPT	Total of 27 GVPT credits, 18 credits	27
Electives	of which must be at the 300-400 level	
	Completion of a foreign language through the entire elementary level	
	AND a quantitative course from an approved list AND Another foreign language or quantitative skills course from an approved list. See GVPT website for more details.	minimum of 9
Skills Requirement		
	Five courses in another major outside of Government & Politics, with at least two courses at the 300-400 level. Approved by GVPT Advisor.	15
Supporting Sequence		

All majors must complete a secondary area of concentration in another department or approved disciplinary area. All courses used to satisfy these requirements must be completed with a minimum grade of "C-". Students must have a minimum 2.0 cumulative grade point average across all courses used to satisfy major degree requirements. Students should consult with an advisor.

Requirements for the Minor

Minor in International Development and Conflict Management

The minor in International Development and Conflict Management is a 19-credit, undergraduate program of instruction for students aspiring to a profession in the fields of conflict resolution, international development, and humanitarian relief.

Applications are accepted in the Spring and accepted students begin the program the following Fall. Students applying for the program must be entering their sophomore, junior, or senior year of undergraduate work. Applicants must be full-time students in good standing, with a cumulative GPA of 2.5 or better. Up to 35 students are accepted into the program each year.

Advising for the minor is conducted through the Center for International Development and Conflict Management directly, not the Department of Government and Politics. For more information about the minor and for application materials, please visit: www.cidcm.umd.edu/minor/. Requirements for the minor include the following coursework:

	Required Courses	Credits
GVPT354	Peacebuilding, Post-Conflict Reconstruction, and International Development	3
STAT	One statistics course from approved list	3
GVPT355	Capstone I: International Development and Conflict Management	3
GVPT356	Capstone II: International Development and Conflict Management	3
ELECT	Elective courses from approved list (2 courses)	6
BSOS388E	Behavioral and Social Sciences Special Topics: CIDCM Minor Practicum	1
	Total Credits	19

Note: Six credits (or two courses) can be double counted for your major and the minor. All classes must be completed after acceptance into the minor program, with the exception of the statistics requirement.

All courses used to satisfy the requirements of the minor must be completed with a grade of "C-" or better. Students must have a minimum 2.0 cumulative grade point average across all courses used to satisfy the minor requirements.

Advising

Academic advisors are available to assist students in finding internships, learning about academic opportunities, clarifying post-graduation plans, and general questions.

Academic advising is available daily on a walk-in or appointment basis in the Undergraduate Advising Office located in 3104 Tydings Hall. Walk-in schedules are posted on-line at <http://gvpt.umd.edu/undergraduate/undergraduate-advisingprospective-students>. Students are encouraged to see an advisor each semester to ensure understanding of major requirements and to review students' progress within the major. All students are required to see an advisor before they register for their senior year of classes, typically between 75 and 89 credits earned.

Undergraduate Research Experiences

Undergraduate GVPT majors are strongly encouraged to participate in independent research with GVPT faculty members. The independent study option provides students opportunities to work one-on-one with a faculty member doing research on a topic of the student's choosing. Students should expect to devote approximately 12 hours per week for 16 weeks to the independent study. Students should also expect to write a final research paper no less than 40 pages in length. GVPT Advisors are available to assist students in identifying appropriate research topics and in selecting the GVPT faculty mentor.

Only six hours of graded GVPT independent study credit will apply toward the 36 hours needed in the major. Independent study opportunities are generally open only to GVPT majors with junior standing and a 3.0 GPA.

Internships

Undergraduate GVPT majors are strongly encouraged to take advantage of the university's close proximity to Washington D.C. and Annapolis by completing at least one internship experience. The GVPT Advising Office advertises internship opportunities weekly on the undergraduate blog, and advisors can assist students in identifying other internship opportunities.

The department offers three programs through which students can receive academic credit for their internship - the Public Policy Internship Program, the Capitol Hill Internship Program, and the Maryland Internship Program. Information on these programs is available on the GVPT website, www.gvpt.umd.edu/undergraduate/internships.

Only six hours of graded GVPT internship credit will apply toward the 36 hours needed in the major. Internship credit graded on a pass/fail basis may not be used to satisfy the GVPT major requirements. In no cases may more than 12 internship credits be counted towards the 120 credits needed to graduate. Internships are generally open only to GVPT majors with junior standing and a 3.0 cumulative GPA.

Honors Program

The aim of the Government and Politics Honors Program is to encourage students with outstanding abilities to accelerate their development and intellectual growth under conditions of greater freedom, greater responsibility, and more individual supervision from their instructors. The program also seeks to provide a community within which students can meet one another and further develop their interests in political science and public affairs.

All students majoring in government and politics may apply for admission to the GVPT Honors Program once they have completed the first semester of their sophomore year. Additional information concerning the Honors Program may be obtained online at <http://bsosundergrad.umd.edu/academics/departamental-honors-programs>.

Student Societies and Professional Organizations

Pi Sigma Alpha, the National Political Science Honor Society, is the only honor society for college students of political science and government in the United States. The Alpha Zeta chapter of Pi Sigma Alpha was founded in 1938 at the University of Maryland, College Park. Since then, the chapter has hosted a variety of activities and worked closely with the Department of Government & Politics. For more information, please visit <http://bsos.umd.edu/students/honor-societies>.

Black Political Student Association was founded in 2008 at the University of Maryland, College Park. The goal of the Black Political Student Association (BPSA) is to unite political-minded university students and discuss issues going on in the world. BPSA aims to build solidarity between Black Government & Politics majors, ignite interest in community involvement, provide opportunities for professional development, and get more Black students involved in the Government & Politics program at UMD.

Scholarships and Financial Assistance

GVPT students are encouraged to apply for Government and Politics Departmental Scholarships and outside scholarship opportunities. For more information on these scholarships, please visit www.gvpt.umd.edu/undergraduate/scholarships.

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, please visit www.financialaid.umd.edu.

Awards and Recognition

Government and Politics students have had great success in winning campus and national awards. Our students have been chosen as university commencement speaker and university medal winner. Many students are regularly selected for national undergraduate conferences and have won national scholarships for graduate and law school. The Undergraduate Director nominates deserving students for departmental and university awards and recognition, and students are informed through the advising office of new opportunities to apply.

Asst Prof), P. Schauer (Clin Asst Prof), K. Slawson (Clin Asst Prof)

Research Professor: P. Fitzgibbons (Res Prof)

Professors Emeriti: F. Roth, G. Yeni-Komshian

The Major

Hearing and speech sciences is an inherently interdisciplinary field, integrating knowledge from the physical and biological sciences, medicine, psychology, linguistics, and education in order to understand human communication and its disorders. The department curriculum leads to the Bachelor of Arts degree. An undergraduate major in this field provides appropriate background for graduate training in Speech-Language Pathology or Audiology, as well as for graduate work in other disciplines requiring a knowledge of normal or disordered speech, language, or hearing. The student who wishes to work professionally as a speech-language pathologist or audiologist must obtain a graduate degree in order to meet national certification requirements, and most state licensure laws.

The hearing and speech sciences curriculum is designed in part to provide supporting course work for majors in related fields, so most course offerings are available to both departmental majors and non-majors. Courses offered by this department may be found under the following acronym: HESP. Permission of an instructor may be obtained to waive course prerequisites for non-majors wishing to take hearing and speech courses of interest.

Program Objectives

The Department of Hearing and Speech Sciences strives to provide state-of-the-art teaching, research, and clinical services in the areas of Audiology and Speech-Language Pathology.

Program Learning Outcomes

The undergraduate curriculum in Hearing and Speech Sciences is structured to provide a strong background for graduate training in Speech-Language Pathology, Audiology and Hearing, Language or Speech Sciences. Although required courses at the undergraduate level are identical for all undergraduate majors, emphasis can be given to individual curricula through the selection of elective courses. Having completed the degree program, students should have acquired the following knowledge and skills:

- Students will demonstrate application of fundamental concepts of basic sciences (i.e., biological, physical, mathematics/statistics, behavioral and social sciences) to the hearing and speech sciences discipline.
- Students will demonstrate knowledge of basic communication processes.
- Students will demonstrate knowledge of speech, language, and hearing disorders and differences, including etiologies and characteristics, prevention, assessment, and intervention.

Academic Programs and Departmental Facilities

The Department of Hearing and Speech Sciences offers students numerous opportunities to interact with faculty in teaching, research and clinical experiences. Faculty welcome the participation of undergraduates in their research laboratories. The Hearing and Speech Clinic as well as the Language Learning Early Advantage Program (LEAP preschool) in LeFrak Hall allow students to observe the interaction between clinical and research efforts.

Admission to the Major

The undergraduate curriculum in HESP is not a limited enrollment major. The program is structured to provide adequate background for graduate training in Speech-Language Pathology, Audiology and Speech, and Language or Hearing Sciences. It is considered to be a pre-professional program. It is important for HESP students to understand that **this major requires a graduate degree in order to pursue a career in this field**. Students should be advised that graduate school admissions are **highly competitive**; therefore students must perform to the best of their ability throughout the entire undergraduate curriculum in order to be considered for admittance into a graduate program. Due to the nature of the coursework, students who change their major or transfer to the University made not be able to complete this major in just two years.

Requirements for the Major

Students majoring in hearing and speech sciences must complete 33 semester hours of required courses satisfy major course requirements. No course with a grade less than "C-" may count toward major course requirements. In addition to the 33 semester hours needed for a major, 12 semester hours of supporting courses in statistics and other related fields are required. For these 12 hours, a "C-" average is required. In addition, when a HESP course has a listed pre-requisite, this pre-requisite must have been completed with a grade of "C-" or better before registration in the subsequent course will be approved.

A guide to the major is available through the department office in room 0100 LeFrak Hall or on the departmental website at www.bsos.umd.edu/hesp/

Course sequencing is extremely important within this major. Advising for majors is mandatory.

Required Courses	Credits
HESP120 Introduction to Linguistics	3
HESP202 Introduction to Hearing and Speech Sciences	3
HESP300 Introduction to Psycholinguistics	3
HESP305 Anatomy and Physiology of the Speech Mechanism	3
HESP311 Anatomy, Physiology, and Pathology of the Auditory System	3

HESP400	Speech and Language Development in Children	3
HESP403	Introduction to Phonetic Science	3
HESPxx	Any one of: HESP 402, 404, 406, 410	3
HESP407	Bases of Hearing Science	3
HESP411	Introduction to Audiology	3

Electives

Students must take one course from the following offerings:

HESP386	Experiential Learning	3
HESP388	Undergraduate Research Internship	
HESP389	LEAP Classroom Internship	
HESP402	Speech Pathology I: Language Disorders in Children	3
HESP404	Speech Pathology II: Voice and Fluency Disorders	3
HESP406	Speech Pathology III: Aphasia and Neuromotor Disorders	3
HESP410	Organic Speech Disorders	3
HESP413	Aural Rehabilitation/Habilitation	3
HESP417	Principles and Methods in Speech Language Pathology and Audiology	3
HESP418	Clinical Practice in Speech Language Pathology and Audiology	3
HESP420	Deafness and sign language	3
HESP422	Neurological bases of human communication	3
HESP469	Honors thesis research	3
HESP498	Seminar in Hearing and Speech Sciences (topics vary)	3
HESP499	Independent Study	3

Allied/Related Fields (12 credits)

In addition to a required statistics course, the student will take nine credits from course offerings in Allied/Related Fields and PSYC 100. A more complete list of these courses can be found on the Hearing and Speech Department website.

PSYC100	Introduction to Psychology	3
STAT	one Statistics course from EDMS451, PSYC200, or BIOM301	3
ELECT	two courses from Allied/Related Fields	6

Finally, HESP majors must complete BOTH a biological and a physical science to satisfy national certification standards for speech-language pathologists and audiologists. Specifically, to meet the general education requirements of the university and the requirements for the major, HESP majors must complete PHYS102/103 lab as the physical science requirement and a life science course that is based on the biology of the human system and not plants or insects.

Other Requirements for the Major

It is important for students to understand that coursework in Hearing and Speech Sciences requires careful sequencing. The material in early courses provides the foundation for later courses. For this reason most HESP courses have required pre-requisites and academic advising is crucial. Students are also required to earn a grade of "C-" or higher in each course required for the major. Students will not be allowed to take any course until they have earned a "C-" or higher in the pre-requisite for that course. All HESP students are required to meet with the department advisor prior to enrolling for the following semester.

Requirements for the Minor**Requirements for the HESP minor include the following coursework:**

HESP202-Introduction to Hearing and Speech Sciences

HESP300-Introduction to Psycholinguistics

HESP400-Child Language Acquisition

HESP403-Phonetics

HESP407-Hearing Science

PLUS 2 courses in one of the two elective areas:

Elective option 1 (Speech-Language Pathology Focus)

HESP305-Anatomy/Physiology of the Speech Mechanism, and

HESP402, 404, 406, 410

Elective option 2 (Audiology focus)

HESP311-Anatomy/Physiology/Pathology of the Auditory Mechanism, and

HESP411-Introduction to Audiology

TOTAL CREDITS: 21**Notes:**

All classes must be completed with a grade of "C-" or better; as with HESP majors, students must obtain a grade of "C-" or better in a class in order to enroll in any courses that require that class as a pre-requisite.

This course sequence acquaints the student with the primary basic science background in the speech, language and hearing sciences, and permits the student to select two courses in the specific professional areas of speech, language or hearing, based on the student's primary interest area.

This minor is designed for the student in other majors (such as Psychology, Education, Linguistics, FOLA, etc.) who may have plans to attend graduate school in the fields of Speech-Language Pathology or Audiology. These courses are widely viewed as pre-requisite for admission to such programs and constitute a proportion (but not the full extent) of classwork required for eventual post M.A. or post-Au. D. certification by the American

Speech-Language-Hearing Association (ASHA) as either a Speech-Language Pathologist or Audiologist. Because both graduate programs and ASHA may require additional coursework, the student pursuing the HESP minor is strongly encouraged to meet with a HESP academic advisor to ensure that eventual educational goals are properly addressed. The HESP minor does not qualify an individual to work professionally as a Speech-Language Pathologist or Audiologist, but does provide a proportion of the coursework required to practice in the State of Maryland as a Speech-Language Pathology Assistant.

Advising

Advising for HESP undergraduate majors is MANDATORY before registration each semester. Students will be notified by e-mail of their registration date or they may check their registration status by going to Testudo and clicking on "Appointment and Registration status". Students should schedule an advising meeting no sooner than one week prior to their registration date as this prevents students from having to return for another appointment due to closed classes. Advising appointments may be made by going to <http://hespadvisingcalendar.umd.edu/>. Advising is always available to students regarding academic and major choices, career planning, and/or academic concerns.

Undergraduate Research Experiences

Undergraduates are encouraged to work with a faculty member in the Hearing and Speech Sciences Department. This can be facilitated through the Maryland Center for Undergraduate Research, the Emerging Behavioral and Social Science Scholars Program or by exploring research topics listed by faculty members on the HESP website. Students may work with faculty members on a one-to-one basis as a volunteer research assistant or receive credit for their experience. The number of credits that a student may earn is determined by the faculty researcher. Typically the student is expected to work 3 hours for each credit received in a semester. Unless the student is involved in true independent research, they should enroll in HESP499 with the Pass/Fail grade option. Please note that individual professors may have special requirements for participation in the program. You will need to contact the professor that you wish to work with before enrolling in HESP499 to obtain their permission and their individual section number needed to register. The University limit for 499 credits is six.

Internships

Internships (even if they are not directly related to Hearing and Speech) are an excellent way to obtain experience in the workplace. Although internships are not typically a part of the HESP curriculum, students are encouraged to explore related experiences through the BSOS Social Science Internship Practicum or BSOS Experiential Learning programs.

Honors Program

The objective of the HESP Honors program is to encourage and recognize superior academic achievement and scholarship by providing opportunities for interested, capable, and energetic undergraduates to engage in independent study. A research project will be conducted under the supervision of a faculty mentor and will result in an Honors thesis.

Program Goals

The goals of the HESP Honors program are as follows:

- Educate students to think independently on a broad range of ideas and issues related to the study of Hearing and Speech Sciences.
- Provide opportunities for in depth, scholarly and scientific analysis of significant and current topics in the Hearing and Speech Sciences.
- Provide students with the experience of undertaking a research project.

Benefits of the Program

Honors students get the opportunity to work closely with faculty and participate in outside-the-classroom learning experiences.

Graduating from the Honors program is an excellent way to stand out as an exceptional candidate for graduate school, and thesis-writing experience will help you once you get there!

Additionally, Honors students may take graduate courses and apply the credits toward their undergraduate degree.

Program Overview

1. The HESP Honors program is a three semester sequence, typically spanning from the Fall of Junior year until the Fall of Senior year.
2. Interested students must apply to be considered for the HESP Honors Program by the deadline posted.
3. Students must complete 9 credits of HONR seminars or HESP graduate courses in a subject that supports the proposed course of study or some combination of the two. One of the required HONR seminars towards these 9 credits is HESP499H (3 credits).
4. Students will be expected to complete an Honors Thesis with the assistance of a thesis advisor. The thesis culminates in an oral defense. Students must complete 6 credits of HESP Honors research (HESP469A and B) for the thesis. For students under CORE requirements, three of the HESP Honors research credits may be used to fulfill the CORE Advanced Studies requirement upon successful completion of the thesis defense.

Please meet with the Director of the HESP Honors program for more information on the HESP Honors program.

Student Societies and Professional Organizations

There are two organizations that hearing and speech science majors are invited to join. They are the University of Maryland's Chapter of the National Student Speech-Language and Hearing Association (NSSLHA) and the Student Academy of Audiology (SAA). Both organizations are involved in fund raising, sponsoring educational speakers and participating in community service activities. Further information may be obtained on the department website, www.hesp.umd.edu.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu. Unfortunately, there is no undergraduate financial assistance given by the department.

Ross (Prof), M. Rozenblit (Prof and Director of Graduate Studies), J. Sumida, D. Sutherland, M. Zilfi

Associate Professors: E. Barkley Brown, R. Bell, J. Bianchini, A. Borrut, H. Brewer, A. Caneque, B. Cooperman, M. Dolbilov, D. Freund (Assoc Prof & Director of Undergraduate Studies), J. Gao, S. Giovacchini, C. Lyons, R. Muncy, W. Ridgway, K. Roseblatt, L. Rowland, D. Sartorius, D. Sicilia, S. Villani, P. Wien (Assoc Prof & Assoc Chair), D. Williams, T. Zeller

Assistant Professors: C. Bonner, M. Bradbury, S. Cameron, P. Kosicki, C. Rodriguez, C. Woods, T. Zhang

Lecturers: R. Chiles (Lecturer), C. Ho, K. Keane, E. Landau, C. Lilley, B. Mendelsohn, A. Rush, E. Smead

Affiliate Associate Professors: J. Taddeo (Visit Assoc Prof)

Affiliate Assistant Professors: S. Baron (Visit Asst Prof)

Professors Emeriti: H. Belz (Prof Emeritus), M. Breslow (Assoc Prof Emeritus), S. Brush (Distinguished University Professor Emeritus), G. Callcott (Prof Emeritus), C. Foust (Prof Emeritus), J. Gilbert (Distinguished University Professor Emeritus), D. Grimsted (Assoc Prof Emeritus), G. Gullickson (Prof Emeritus), J. Harris (Prof Emeritus), J. Henretta (Prof Emeritus), K. Holum (Prof Emeritus), J. Lampe (Prof Emeritus), G. Majeska (Assoc Prof Emeritus), M. Mayo (Assoc Prof Emerita), S. Michel (Prof Emerita), A. Moss (Assoc Prof Emeritus), A. Olson (Prof Emerita), K. Olson (Prof Emeritus), M. Vaughan (Prof Emerita), J. Warren (Prof Emeritus), W. Wright (Prof Emeritus), G. Yaney (Prof Emeritus)

The Major

The Department of History seeks to broaden the student's cultural background through the study of history and to provide preparation for those interested in publishing, teaching, museum work, law, journalism, civil service, military, archival and library work, diplomacy, business school, and graduate study.

Undergraduate advisors assist each major in planning a curriculum to meet his or her personal interests. We expect students to meet with a history undergraduate advisor once every semester.

Courses offered by the Department of History may be found under the acronym HIST.

Program Learning Outcomes

Students will be able to distinguish among a variety of genres of primary and secondary historical texts (e.g. documents, monographs, letters, novels, film, political cartoons, essays) and use them appropriately and effectively in academic work. Students will demonstrate the ability to conduct research using primary and secondary sources including archival, print and non-print, and web-based texts. Students will demonstrate the ability to define and defend a historical thesis.

Academic Programs and Departmental Facilities

Courses in Immigration and Migration Studies (IMMR) examine how migration shapes the United States and the world from historical, political, cultural, and social perspectives and from multiple disciplines. The Immigration and Migration Studies notation is geared toward students interested in studying migration's impact on global society and institutions.

The transcript notation is ideal for students considering careers in law, public policy, social work, and related fields.

Requirements for the Major

Requirements for the History major are 39 hours of history course work distributed as follows: 12 hours in 100-200 level introductory courses selected from at least two general geographical fields of history and including HIST208; 15 hours in one major area of concentration (see below); nine hours of history in at least two major areas other than the area of concentration; HIST408. All courses for the major must be completed with a minimum grade of "C-", and 21 hours of the 39 total hours must be at the junior-senior (300-400) level. An overall GPA of 2.0 in the major is required for graduation.

At least one course (three credits), must be taken from an approved list of courses on regions outside both Europe and the U.S. The list may be obtained from the History Undergraduate Advisor's Office.

AP and IB credits are accepted.

	Credits
Introductory Courses	12
1. To be taken at the 100-200 level taken in at least two geographical fields.	
2. One of these must be HIST208.	
3. In considering courses that will fulfill this requirement, students are encouraged to:	
• select at least two courses in a sequence	
• select at least one course before 1500 and one course after 1500	
• sample both regional and topical course offerings.	
Students will normally take one or more introductory courses within their major area of concentration	
Major Area of Concentration	15
Students may choose an area of concentration that is either geographic, chronological, or thematic. Areas include:	
<i>Geographic regions:</i> Africa, Britain and Western Europe, East Asia, Eastern Europe and Russia, Latin and South America, Middle East, United States;	
<i>Chronological periods:</i> Ancient, Medieval and Early Modern Europe, 20th Century World;	
<i>Themes:</i> African-American, Economic and Business, Jewish, Military, Religious, Science and Technology, Social and Cultural, Women and Gender.	
Nine Hours of History in at Least Two Areas Outside the Area of Concentration	9
1. Students are encouraged to select mainly upper-level courses.	
2. Students are encouraged to consider regional diversity.	
Capstone	3
HIST408 will be taken in the senior year and may be inside or outside the area of concentration.	
Supporting Courses Outside History	9
To be taken at the 300-400 level in appropriate supporting courses; the courses do not all have to be in the same department. Supporting courses should study some aspect of culture and society as taught by other disciplines. A minimum grade of "C-" is required.	

Other Requirements for the Major

HIST208 is a prerequisite for HIST408.

Requirements for the Minor

Minor in History

The History Minor is designed to introduce students to the broad field of historical study, both by deepening their knowledge and understanding of the past and by developing their ability to do critical, historically-minded analysis. In working with both primary and secondary texts, students will hone their skills in research methods, critical thinking, and expository/analytical writing. The requirement that courses are distributed across geographic fields and chronological periods ensures that students consider the variety and range of historical experiences. History courses must be completed with a grade of C- or better to count toward the minor. Additionally, a minimum GPA of 2.0 is required across all courses counted toward the minor.

Participating students must complete 18 credits (6 courses) in History.

- The courses must be distributed in at least 2 geographic fields (Asia, Europe, United States, Middle East, etc.).
- The courses must include at least one course in each of two chronological periods (pre-1750/post-1750).
- At minimum of 9 credits (3 courses) must be taken at the 300 or 400 level.
- No more than 3 credits (1 course) may be taken at the 100 level.
- No more than 3 credits (1 course) may be fulfilled by AP, IB, or transfer credit.
- A student may use a maximum of 6 credits (2 courses) to satisfy requirements for both a major and a minor. Courses completed for one minor may not be used to satisfy the requirements for another minor.
- Any student is eligible to pursue the minor, with the exception of a student majoring in History.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/undergraduate/academics/minors

Minor in Middle Eastern Studies

2115 Francis Scott Key Hall, 301-405-4265

<http://history.umd.edu/undergraduate/programs/middleeast>

Advisor: Antoine Borrut (aborrut@umd.edu); 301-405-7448

Requirements: 15-18 credits (5 courses; some language courses carry more than 3 credit hours per course) towards the Minor in Middle Eastern Studies. Coursework must be distributed to meet the overlapping requirements below. (For example, HIST120: Islamic Civilization can be used to meet both the pre-modern requirement and the Arab world requirement, but does not count doubly in terms of credit.)

6 credits (2 courses) in Area distribution: At least one course in each of two of the following Area categories: (a) the Arab world; (b) Iran and the Persian/Iranian world; (c) (Middle Eastern) Jewish and Israel; (d) Turkish and Ottoman; and (e) Middle Eastern Diasporas and All Middle East. Other areas of concentration may be considered and require the director's approval.

6 credits (2 courses) in Pre-Modern: At least two courses (6 credits) must focus on the pre-modern period (the 7th century through the 19th century). Students may fulfill this requirement through their area distribution or elective courses.

3 credits (1 course) in Electives: The fifth course may be chosen from the list of approved Middle East Studies courses. A language course of 3 or more credits may be used to satisfy this requirement. Advanced Arabic, Persian, Hebrew, or Turkish language courses that are content courses rather than grammar-based can be used for the Elective category or count toward Area Distribution and/or Pre-Modern, depending on subject matter.

Additional requirements:

- A minimum of 3 courses (9 credits) must be at the upper level (300- or 400-level).
- All credits must be earned with a grade of "C-" or above (no Pass/Fail option).
- An overall GPA of 2.0 in the minor is required for graduation.
- A list of qualifying courses in each category is available from the academic advisor of the minor and on the MESM's webpage.
- Only one lower-level or grammar based course in Arabic, Hebrew, Persian, or Turkish may be credited toward the Minor.
- At least six credits of upper-level credit must be taken at the University of Maryland.
- No more than six credits may be taken at an institution other than Maryland.
- A maximum of two courses can count towards both the major and the minor.
- Courses cannot count towards multiple minors.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/undergraduate/academics/minors

Advising

Academic advising is available daily on a walk-in basis in the History Undergraduate Advising Office, 2131C Key Hall.

Internships

Juniors and seniors may take up to 6 hours of credit in historically-related internships, of which three hours may be counted toward the 39 hours in history required for graduation. All internships must have a direct relationship to the work of understanding, interpreting, presenting or preserving history and/or historical evidence. Students must have both a site supervisor at the place of the internship and a history faculty mentor for their internship project. Student internships must be approved by the History Department Internship Coordinator. Internships are generally only open to students who have an overall GPA of 2.5 or better.

Honors Program

The purpose of the Honors Program in History is to allow promising undergraduates to develop historical and historiographical skills, in an atmosphere that guarantees personal attention and that encourages hard work and excellence. The Program is a four-semester sequence, the culmination of which is a senior thesis--a major research paper written under the close supervision of a faculty mentor. There are two phases to the program: in the junior year, students are introduced to the problems of history-writing at a sophisticated level, via two seminars on problems of historiography; in the senior year they complete two supervised courses in the writing of the senior thesis.

Student Societies and Professional Organizations

History majors and other interested students are encouraged to join the History Undergraduate Association (HUA), which sponsors events such as an annual Film Festival and special seminars and activities. History majors edit and publish a web-based journal, *Janus: The University of Maryland Undergraduate History Journal* (<http://www.janus.umd.edu/>), which features student writing relevant to history. *Janus* also sponsors an annual conference where undergraduates present their research and are awarded prizes. The department also hosts the Beta-Omega chapter of Phi Alpha Theta, the national history honors society. Information on these organizations can be obtained from the History Undergraduate Office, 2131 Francis Scott Key Hall.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu

Human Development and Quantitative Methodology (HDQM)

The core mission of the Department of Human Development, Learning and Quantitative Methodology (HDQM) is to advance knowledge and practice through teaching and research related to human development and learning, and to quantitative methodologies critical to measurement, statistics, and evaluation in the educational, behavioral, and social sciences. The Department offers an undergraduate major in early childhood/early childhood special education, a minor in human development, and courses in development across the lifespan, learning and educational psychology, and quantitative methods. For more information about the undergraduate major and minor programs, see the Human Development/Institute for Child Study section of the catalog.

Early Childhood/Early Childhood Special Education

For more information, see Human Development/Institute for Child Study (HDQM) in Chapter 7 of the Catalog.

Human Development/Institute for Child Study (HDQM)

College of Education

3304 Benjamin Building, 301-405-2827

www.education.umd.edu/HDQM

hdqm@umd.edu

Chair: N. Fox, Prof. & Interim Chair, Director

Director: A. Battle (Director, Academic Services/Outreach)
 Professors: P. Alexander, N. Cabrera, K. Dunbar, M. Killen, K. Rubin, M. Wang, K. Wentzel, A. Wigfield
 Associate Professors: D. Bolger, C. Corbin (Clinical Associate Prof), B. Jones Harden, E. Klein, R. Marcus, G. Ramani
 Assistant Professors: L. Butler, R. Prather
 Professors Emeriti: J. Eliot, C. Flatter, A. Gardner, J. Goering, J. Guthrie, A. Hatfield, R. Huebner, S. Porges, J. Torney-Purta, B. Tyler

The Major

The Human Development program offers a major in Early Childhood/Early Childhood Special Education (EC/ECSE) (in collaboration with the Department of Counseling, Higher Education and Special Education) and a minor in Human Development. Faculty in the Human Development program also teach courses designed for pre-service and in-service teachers in the College of Education, as well as students from other departments across campus who are seeking an education minor or who desire to work with children and adolescents in school settings. These courses focus on child and adolescent development, language acquisition, cognition, motivation, and reading. In addition, the Human Development program offers undergraduate courses that help students meet other degree requirements. Courses offered by the Human Development program may be found under the following acronym: EDHD.

Faculty in Human Development provide undergraduates with research experiences in their individual laboratories.

The Center for Young Children provides developmentally appropriate education and care for children aged three through kindergarten. The Center provides research opportunities that involve observing children in their classrooms as part of course requirements in various EDHD undergraduate courses.

Graduates of the Early Childhood/Early Childhood Special Education (EC/ECSE) program receive a Bachelor of Science degree and meet the Maryland certification requirements for teaching early childhood special education (birth through grade three) and early childhood general education (preschool through grade three).

Program Learning Outcomes

Program learning outcomes for the Early Childhood/Early Childhood Special Education (EC/ECSE) Major are driven by the standards of the Council for Exceptional Children (CEC), National Association for the Education of Young Children (NAEYC), Council for the Accreditation of Educator Preparation (CAEP), as well as the Initial certification requirements of the Maryland State Department of Education and the UM College of Education Conceptual Framework.

1. EC/ECSE teacher candidates have in-depth knowledge of the subject matter that they teach as described in professional (National Association for the Education of Young Children – NAEYC; Council for Exceptional Children - CEC), state (MSDE), and institutional standards. They demonstrate their knowledge through inquiry, critical analysis, and synthesis of the subject.
2. EC/ECSE teacher candidates can effectively plan classroom-based instruction or activities for their roles as early childhood educators. Candidates' knowledge, skills, and dispositions are applied effectively in practice.
3. EC/ECSE teacher candidates accurately assess and analyze student learning, make appropriate adjustments to instruction, monitor student learning, and have a positive effect on learning for all students.
4. EC/ECSE teacher candidates are able to work with students, families, and communities in ways that reflect the dispositions expected of professional educators as delineated in professional (NAEYC and CEC), state (MSDE), and institutional standards.
5. EC/ECSE teacher candidates demonstrate fluency in each of the seven *Maryland Teacher Technology Standards* (<http://www.mtsonline.org/standards/>).

Academic Programs and Departmental Facilities

Human Development houses the Center for Children, Relationships and Culture, which provides research opportunities for undergraduate students. Faculty in Human Development often provide undergraduates with research experiences in their individual laboratories.

The Center for Young Children provides developmentally appropriate education and care for children aged three through kindergarten. The Center provides research opportunities that involve observing children in their classrooms as part of course requirements in various EDHD undergraduate courses.

Admission to the Major

Application to the Early Childhood/Early Childhood Special Education Professional Teacher Education Program must be made by May 1, prior to beginning professional courses. Admission procedures and criteria are explained in the College of Education entry in Chapter Six. The Early Childhood/Early Childhood Special Education program adheres to the College's professional education admissions requirements. In addition to the College of Education selective admissions criteria, EC/ECSE majors must meet the following gateway requirements:

- (1) Completion of a four-credit laboratory physical science, a four-credit laboratory biological science, Elements of Numbers and Operations (MATH212), and Elements of Geometry and Measurement (MATH213) with a minimum grade of "C-" in each class and a 2.7 cumulative GPA across all four courses.
- (2) Completion of Exploring Teaching in Early Childhood General and Special Education (EDHD220 or approved equivalent) with a grade of "B-" or better and EDHD210.

For additional details regarding the professional education admission requirements, see [Chapter 6](#). Detailed information regarding the gateway requirements for the EC/ECSE program is available in the Office of Student Services, Room 1204 Benjamin.

Placement in Courses

The EC/ECSE Program has designated pre-professional courses and a specified sequence of professional courses. Before teacher candidates may enroll in courses identified as part of the professional sequence, they must first gain admission to the Early Childhood/Early Childhood Special Education Program.

Requirements for the Major

The following courses are required in the program of studies for Early Childhood and may also satisfy the University's general education requirements. See departmental worksheets and advisors for additional information.

PSYC100	Introduction to Psychology	3
SOCIAL SCI	ANTH, ECON, GEOG, GVPT, HIST, SOCY	3
HIST200	Interpreting American History: Beginnings to 1877	3
BIO SCI	Biological Science with Lab	4
PHY SCI	ASTR, CHEM, GEOL, PHYS with Lab	4
EDPS210	Historical & Philosophical Perspectives on Education OR	3
EDPS301	Foundations of Education	3

Other Pre-Professional Requirements

MATH212	Elements of Numbers & Operations	3
MATH213	Elements of Geometry & Measurement	3

One of the following:

CREATIVE ART	KNES181, 182, 183, 421, THET120, EDCI301, ARTT100 or 110, MUED155	2-3
EDHD210	Foundations of ECE	3
EDHD220	Exploring Teaching in ECE	3

Professional Courses

The Early Childhood (EC)/Early Childhood Special Education (ECSE) Professional Block I starts only in the Fall semester and is a prerequisite to Professional Block II which is offered only in the Spring semester. Following Professional Block II is Professional Block III, which is taken in the Fall semester of the yearlong teaching internship. A cumulative grade point average of 2.75 must be maintained after admission to the Early Childhood/Early Childhood Special Education program. All pre-professional requirements and professional courses must be completed with a minimum grade of "C-" and must be completed prior to the yearlong internship. Teacher candidates must obtain satisfactory evaluations on the College of Education Foundational Competencies/Technical Standards. See advisor for program planning. Additional information regarding the requirements for the yearlong internship is included in the College of Education entry in Chapter 6.

Fall Junior Year Courses

EDHD419A/EDSP420: Child Development** from Birth to 3 Years (3cr.)
 EDHD425: Language Development and Reading Acquisition (3cr.)
 EDHD314: Reading in the Early Childhood Classroom (3cr.)

Spring Junior Year Courses

EDHD431: Child Development & Learning, 3 to 8 Years (3cr.)
 EDSP 423: Special Education Assessment and Instruction (3cr.)
 EDSP315: Inclusive Instruction: Reading Methods (3cr.)

Track I (Birth - 5 yrs.)

EDSP430: Intervention for Infants & Toddlers with Disabilities (3cr.)
 EDSP433: Families and Culture in Early Intervention (Birth to 5 Years) (3cr.)

OR**Track II (PreK - 3rd)**

EDHD415: Promoting the Social-Emotional Competence of Young Children in Inclusive Classrooms (3cr.)
 EDHD424: Culture, School & Community: Contexts for Learning (PreK-3rd) (3cr.)

Fall Senior Year Courses

EDSP321: The Young Child as Scientist (3cr.)
 EDHD322: The Young Child as Mathematician (3cr.)
 EDHD323: Children Study their World (3cr.)
 EDSP417: Reading Diagnosis and Assessment (3cr.)
 EDHD441: Data Driven Decision Making in EC/ECSE (1 cr.)
 EDHD442: Interventions for Children with Behavioral Challenges (1 cr.)
 EDHD443: Interventions for Children with Social Communication Challenges (1 cr.)
 EDHD444: Action Research in EC/ECSE (1 cr.)

Spring Senior Year Courses

EDHD437: EC/ECSE Teachers as Researchers and Reflective Practitioners (3 cr.)
 EDHD432: Internship in EC/ECSE (12 cr.)

Other Requirements for the Major

An overall grade point average of 2.75 must be maintained after admission to Teacher Education. All teacher candidates are required to obtain satisfactory evaluations on the College of Education Foundational Competencies/Technical Standards and to attain qualifying scores for the State of Maryland on the Praxis I and Praxis II assessments. Praxis I is required for admission, and Praxis II is required for admission to the final, culminating semester of the yearlong internship and for graduation. Students must complete five-semester of field placement, to include the yearlong internship which takes place in a Professional Development School (PDS)/collaborating partner school.

Requirements for the Minor

The Human Development Undergraduate Minor provides a rigorous foundation in Human Development for students who wish to support their major field of study with knowledge of human growth and development across multiple domains and developmental stages, as well as knowledge related to principles of teaching and learning and/or who desire active participation in human development research under the supervision of Human Development faculty in laboratory settings. Students with a 2.0 minimum grade point average may seek enrollment in the program, during which they must complete 15-24 credits of coursework. Only courses in which the student has earned a grade of "C-" or higher will count toward the minor. Students must take EDHD306 and choose other courses from at least two of the other areas of human development study, as outlined below. Students who have taken FMSC332 will be required to choose a course other than EDHD411 from the list of courses available in Area 4: Lifespan. Students who apply to the Minor and who have taken FMSC302 may substitute that course for EDHD306. At least nine credits must be at the 300 or 400 level.

Students interested in taking this minor should contact the Human Development Minor advisor, Ms. Shannon Hayes, at shayes@umd.edu, or 301-405-5612 for more information or to arrange an advising appointment. Ms. Hayes office is located in 1204 Benjamin Building.

Area 1	Area 2	Area 3	Area 4
Cognitive	Social	Research	Lifespan
EDHD201	EDHD221	EDHD306*	EDHD230
EDHD231	EDHD402	EDMS451	EDHD320
EDHD420	EDHD421		EDHD400
EDHD425	EDHD430		EDHD401
EDHD426	EDHD445		EDHD411
EDHD436	HONR219Y		EDHD412

EDHD460 HONR228R EDHD413
EDHD414
EDHD440

Course selections might include three credits of EDHD319 (Selected Topics in HD), EDHD386 (Experiential Learning), or EDHD498 (Special Problems in Education). These courses involve directed study with a faculty advisor.

**EDHD306 cannot be excluded from any course plan. It is required for all EDHD minors.*

General Education Designations: History and Social Science (EDHD 201, 221, 230, 231, 320, 400, 411, 413, 440, & 460); Analytical Reasoning (EDHD306, EDMS451); Understanding Plural Societies (EDHD230); I-Series (EDHD 221, EDHD 231).

CORE Designations: EDHD230, HONR219Y, HONR228R

Advising

Advising is mandatory for all undergraduates desiring acceptance into the Early Childhood/Early Childhood Special Education Teacher Education Program. For more information or to schedule an advising appointment, contact the Office of Student Services at 301-405-2364.

Undergraduate Research Experiences

There are a variety of opportunities for undergraduate students to participate in research in Human Development. Faculty's research focuses on a wide number of topics pertaining to human development and learning.

Fieldwork Opportunities

An integral component of the Early Childhood/Early Childhood Special Education program at the University of Maryland is a series of field placements (N=5) of increasing complexity/responsibility that serve to complement university coursework. Field placements contribute to the programmatic mission of preparing knowledgeable, skilled and reflective practitioners who base their practice on theory, research, and pedagogy appropriate for the developing child. Interns observe, interact and teach children ages 0 (6 weeks per child care licensing) to 8 in authentic settings.

The first of these field placements typically occurs in the sophomore year (and occasionally during spring of the freshman year) and is associated with a course entitled EDHD220, Exploring Teaching in Early Childhood/ Early Childhood Special Education. Early childhood/Early Childhood Special Education candidates experience a semester-long practicum (one half day per week) with both preschool and school age children.

During fall of the junior year, the practicum is linked to EDSP420 Human Development and Learning in School Settings: Infants-Toddlers. Candidates complete selected observations of infants in child care centers, family childcare centers and community-based institutions that care for infants. These observations are followed by an eight-week placement in a child care setting in which candidates observe and interact with toddlers. The culminating *early field placement* begins in the spring semester of the junior year. Candidates experience a semester-long placement with three, four or five year olds in a Head Start or pre-kindergarten classroom. The candidates spend six hours per week in the classroom plus a full week of half days.

Internships

The capstone experience for the program is a yearlong internship in a Professional Development School (PDS), which is a Title I school with large populations of students of color, English Language Learners and those who receive free and reduced meals. The internship is divided into two phases, approximately 110 days over the course of two consecutive semesters. For more details, contact the Early Childhood Education program advisor at 301-405-2364.

Honors Program

Human Development offers two University Honors seminars:

HONR219Y: Merging the Multiple Me's: The Developmental Origins of the Integrated Young Adult Self

HONR228R: Parenting and Poverty: The Effects of Growing Up Poor on Children's Development

Student Societies and Professional Organizations

Student Educators of Young Children (SEYC) at the University of Maryland

SEYC is a student organization sponsored by the Maryland Association for the Education of Young Children (MDAEYC), an affiliate of the National Association for the Education of Young Children (NAEYC).

Through various leadership and community service activities, this group emphasizes advocacy for high-quality early childhood education. They seek to improve the professional practice by promoting excellence in early childhood education and valuing the importance and diversity of children's families and communities.

Scholarships and Financial Assistance

The department offers the Marie Davidson scholarship to two undergraduate EC/ECSE majors each year. The department of Counseling, Higher Education and Special Education offers the Abbey scholarship to one undergraduate in EC/ECSE each year. In addition, the College of Education offers a number of other scholarships. Please visit www.education.umd.edu/studentinfo/scholarships.html for more information.

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

Early Childhood/Early Childhood Special Education majors are eligible for the Ordwein Scholarship, the Abbey Scholarship and the Marie Davidson Award. Information is available in the Office of Student Services, Room 1204 Benjamin.

MEASUREMENT, STATISTICS AND EVALUATION (EDMS)

College of Education

3304 Benjamin Building, 301-405-2827

www.education.umd.edu/HDQM

hdqm@umd.edu

Chair: N. Fox (Prof & Interim Chair)

Professors: G. Hancock, R. Lissitz

Associate Professors: J. Harring, H. Jiao, L. Stapleton

Assistant Professors: T. Sweet, J. Yang

Adjunct Associate Professors: K. Alvestad

Professors Emeriti: C. Dayton, G. Macready, R. Mislevy, W. Schafer

The Major

For Advanced Undergraduates

Measurement, Statistics and Evaluation in the College of Education offers a 5th Year MA program for undergraduates interested in quantitative methods. The purpose of this program is to allow highly motivated undergraduates the opportunity to develop their skills in quantitative methods. Students complete a BA (or BS) in their chosen major area along with an MA in Measurement, Statistics and Evaluation in just five years. Courses offered by this unit may be found under the following acronym: EDMS.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Individual Studies Program

2407 Marie Mount Hall, 301-314-0023

Director: Dr. Joan Burton

www.ivsp.umd.edu

The Individual Studies Program (IVSP) enables UM students to design their own interdisciplinary majors, subject to a proposal process, when their educational goals cannot be reasonably achieved within an existing departmental curriculum. The Individual Studies Program leads to a Bachelor of Arts or Bachelor of Science degree. IVSP degree programs focus on academic and intellectual growth through interdisciplinary study. Individually created student majors have recently included such titles as International Relations and Diplomacy, Peace Building and Social Change, Global Health, 3D Environment Modeling and Design, Environmental Sustainability, Education and Social Change in Latin America, Healthcare Management for Diverse Communities, Global Development, Middle Eastern Studies, Asian American Policy and Advocacy, International Relations and East Asia, Women's Health and Global Communication, Renaissance Studies, and Urban Design and Studies.

For more information, see Office of Undergraduate Studies section in Chapter 6.

International Agriculture and Natural Resources

College of Agriculture and Natural Resources

0108 Symons Hall, 301-405-2078

www.agnr.umd.edu

tgallman@umd.edu

The Certificate in International Agriculture and Natural Resources is designed to enrich a student's major with a global perspective. The required courses focus on: language instruction; international aspects of the environment, agricultural production, development and sustainability, nutrition, and business; an experience abroad; and a capstone course regarding the student's travel abroad. Any student in good academic standing may participate in the certificate program.

Requirements for Certificate

The certificate requires 19-21 credits that may include courses taken toward other degree and general education requirements. Upon successful completion of the courses, with a grade of "C-" or better in each course and a recommendation of the Associate Dean of the College of Agriculture and Natural Resources, a certificate will be awarded. A notation of the award of the certificate will be included on the student's transcript. In order to receive the certificate, students must have completed all requirements for a bachelor's degree. Beginning with students matriculating in Fall 2012, to be awarded a baccalaureate degree, students must have a minimum C (2.0) cumulative grade point average across all courses used to satisfy undergraduate certificate requirements.

Foreign Language

6-8 credits in a foreign language

International Courses

At least 9 credits from the following list of courses, at least 3 of these courses must be in the College of Agriculture and Natural Resources for students not majoring in a program outside of the College of Agriculture and Natural Resources:

ENST100 International Crop Production

ENST440 Crops, Soils, and Civilization

AREC365 World Hunger, Population, and Food Supplies

AREC433 Food and Agricultural Policy

BMGT392 Introduction to International Business Management

BMGT390 Competing on Quality in a Global Economy

BSCI365 International Pesticide Problems and Solutions

GEOG434 Agriculture and Rural Development

NFSC425 International Nutrition

AREC445 Agricultural Development, Population Growth, and the Environment

ECON440 International Economics

GVPT306 Global Ecopolitics

GEOG422 Population Geography

Travel Study or Travel Abroad

Three to four credits of travel study or study abroad. Prerequisite: to have completed the foreign language course work. Prerequisite or co-requisite: six credits from the International Courses List. In order to qualify for the certificate, travel study and study abroad experiences require prior approval of Associate Dean of the College of Agriculture and Natural Resources. For approval, travel experience must demonstrate significant learning opportunities in areas related to agriculture and natural resources and cultural immersion.

Travel Study Seminar

1 credit Travel Study Seminar. Prerequisite: completion of the travel study requirement.

This course will require student presentation of their travel experience including a paper, a poster presentation, as well as an oral presentation and discussion.

Director: J. Briscoe (Director of Undergraduate Student Services), V. Diker (Director of Undergraduate Programs), N. Parker (Asst Dir, Assoc Dir), L. Sarin

(Director of Academic Programs)

Professors: J. Bertot (Prof, Prof & Assoc Prov, Lecturer), B. Butler (Prof And Dean, Prof), A. Druin (Affiliate Prof, Prof), P. Jaeger (Prof), R. Marciano (Prof, Affiliate Prof), K. Marzullo (Dean, Visit Prof), D. Oard (Prof, Affiliate Prof), J. Preece (Prof)
 Associate Professors: N. Elmqvist (Assoc Prof, Affil Assoc Prof), J. Golbeck (Assoc Prof, Affil Assoc Prof), K. Kraus (Assoc Prof), K. Shilton (Asst Prof), M. Subramaniam (Assoc Prof), P. Wang (Assoc Prof)
 Assistant Professors: T. Clegg (Asst Prof), L. Findlater (Asst Prof, Aff Asst Prof), V. Frias-Martinez (Asst Prof, Aff Asst Prof), R. Punzalan (Asst Prof), B. St Jean (Asst Prof), Y. Tausczik (Asst Prof), J. Vitak (Asst Prof, Lecturer), A. Wiggins (Asst Prof)
 Senior Lecturer: V. Diker (Senior Lecturer, Lecturer)
 Lecturers: U. Gorham-Oscilowski (Lecturer), K. Heger (Lecturer), K. Lawley (Lecturer), K. Weaver (Lecturer), S. Winter (Lecturer)
 Affiliate Professors: B. Bederson (Prof, Prof & Assoc Prov), B. Shneiderman (Affiliate Prof, Dist Univ Prof)
 Affiliate Associate Professors: M. Kirschenbaum (Assoc Dir, Assoc Prof, Affil Assoc Prof), K. Norman (Assoc Prof)
 Affiliate Assistant Professors: N. Diakopoulos (Asst Prof, Aff Asst Prof)
 Professors Emeriti: J. Liesener (Prof Emeritus), C. Lowry (Prof Emeritus), M. Neuman (Assoc Prof Emerita), A. Prentice (Prof Emerita), D. Soergel (Prof Emeritus), M. White (Assoc Prof Emerita)
 Visiting Faculty: M. Kurtz (Adjunct Prof), T. Srikantaiah (Visit Prof)

The Major

The field of information science, particularly in an iSchool, is best understood as a field concerned with the intersections of information, people and technology. Information science is an interdisciplinary field, drawing from other areas of study such as computer science, management, social science, education and the humanities, but with a focus on individual and institutional users of information and their information needs. Information Science students gain the knowledge and the skills for creating information systems, resources, and services that help address society's pressing needs in a variety of contexts and in a variety of private and public sector positions, ranging from financial services to healthcare, from information technology to consulting, from education to cultural institutions.

Undergraduate courses offered by this college may be found under the acronym: INST

Program Learning Outcomes

At the completion of this program, students will be able to:

- 1) Demonstrate an understanding of information design and management: the interrelationships among information consumers or creators, information content, and the conduits through which information flows.
- 2) Apply basic principles to the design, development and management of information to meet the needs of diverse users.
- 3) Assess the impact of existing or emerging technologies on information practices and the flow of information.
- 4) Employ state-of-the-art tools and techniques to create, manage, and analyze information.
- 5) Demonstrate an understanding of critical issues including the security, privacy, authenticity, and integrity of information.

Academic Programs and Departmental Facilities

The iSchool is home to a number of research centers and labs:

The Center for the Advanced Study of Communities and Information (CASCI) is a multidisciplinary research network, based at University of Maryland. CASCI exists to facilitate research and education that advances our understanding of the technology, information, and organization approaches needed to realize the potential of 21st century communities to support learning, facilitate innovation, transform science and scholarship, promote economic development, and enhance individual and civic well-being.

The Digital Curation Innovation Center (DCIC) was founded to lead research and education in digital curation and foster interdisciplinary partnerships using Big Records and archival analytics through public / industry / government partnerships. DCIC sponsors interdisciplinary projects that explore the integration of archival research data, user-contributed data, and technology to generate new forms of analysis and historical research.

The Human-Computer Interaction Lab (HCIL) transforms the experience people have with new technologies. From understanding user needs to developing and evaluating the technologies that support users' needs, the lab's faculty, staff, and students have been leading the way in HCI research and teaching for over 30 years. It is critical to understand how the needs and dreams of people can be reflected in future technologies. To this end, the HCIL develops advanced user interfaces and design methodology. The primary activities include collaborative research, publication and the sponsorship of seminars and brown bag talks, workshops and an annual symposium. The HCIL, though referred to as a lab, is actually a research center that is jointly administered by the iSchool and UMIACS, and has multiple labs, faculty, and students associated with it.

The Information Policy & Access Center (iPAC) is a response to the pressing need for research on the processes, practices, policies, and social issues that govern access to information in our increasingly digital information society. The iPAC is committed to studying what policies and/or technologies lead to equitable and inclusive information access, a digitally-ready population, an informed and engaged public, access to Internet-enabled resources and technologies, or preservation of the cultural record, among key examples.

Admission to the Major

Students who are accepted to the university and list Information Science as the preferred major will start directly in our program. Students who wish to declare Information Science as a major must attend a workshop. Please visit infosci.umd.edu or send an email inquiry to infosci@umd.edu for details.

Requirements for the Major

Students must earn a "C-" or better in all major requirements and an overall average of 2.0.

MATH115 (3) Pre-Calculus (or higher)
 PSYC100 (3) Introduction to Psychology

STAT100 (3) Elementary Statistics and Probability

INST 201 (3) Heroes and Villains in the Age of Information (formerly INST 301))

Introduction to Programming for non-CS Majors (3-4) (Several courses exist which fulfill this requirement, including but not limited to INST 206 - Introduction to Programming for Information Science, CMSC 106 - Introduction to C Programming, and CMSC 122 - Introduction to Computer Programming Via the Web. Please check with your advisor to make sure that a particular course fulfills this requirement before registering.)

Major Core Requirements

Students must complete the following ten core courses.

INST201 (3) Heroes and Villains in the Age of Information (formerly INST301)
 INST302 (3) Information User Needs and Assessment

INST303 (3) Information Organization

INST304 (3) Statistics for Information Science

INST305 (3) User-Centered Design

INST306 (3) Object-Oriented Programming for Information Science

INST307 (3) Database Design and Modeling

INST312 (3) Teams and Organizations

Technologies, Infrastructure and Architecture (3)

Integrative Capstone (3)

Major Elective Requirements

Students must complete at least 15 credits of INST-coded major electives. Check Testudo for currently available INST elective courses.

Data Science Specialization

The following five courses make up the Data Science Specialization. By taking these five courses as a set, student will fulfill both the Data Science Specialization requirements, and the 15-credit major elective requirement.

Dynamic Web Applications (3)
 Decision Making for Information Science (3)
 Data Visualization (3)
 Data Sources and Manipulation (3)
 Advanced Data Science (3)

Advising

Students are required to meet with an advisor each semester before registration. Advisors help students choose courses, and encourage students to seek professional experiences during their college years. As in all majors, students must submit and have approved a graduation plan using the template that is available at www.4yearplans.umd.edu. The four year course plan outlines the prerequisites, benchmarks and required courses for this degree.

Students are primarily responsible for keeping track of their academic progress and strongly encouraged to contact their advisor for the correct interpretation of policies and procedures.

Undergraduate Research Experiences

Opportunities for undergraduate research experience in the iSchool's research centers become available from time to time. Participation in an on- or off-campus internship, co-op, or other experiential learning opportunity is strongly encouraged. See the Information Science program staff for information on performing research in an iSchool center and contact the Campus Career Services office for assistance in obtaining off-campus positions or experiences.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

The iSchool offers the following awards: Beyond these Walls Student Travel Awards provides financial support to allow students from any program at the College of Information Studies to attend local and national conferences, present research, and gain experience and exposure to professionals in our field; the iSchool Alumni Chapter Scholarship is awarded annually to an iSchool student with demonstrated need pursuing any degree program at the College; the Mary Edsall Choquette Study Abroad Award provides financial support to enable a student who is currently enrolled in any program at the College of Information Studies to participate in one of the iSchool's study abroad opportunities; the Dean's Award for an Outstanding iSchool Project is presented to an iSchool student for an outstanding design or development project completed for an iSchool course; the Laurence B. Heilprin Award is presented to an iSchool student or a group of students (which includes at least one iSchool student) for an outstanding paper on a topic in library and information science which has been written for an iSchool course.

Information Systems: Specialization Business

For information, see Decision, Operations, and Information Technologies elsewhere in Chapter 7.

International Business

Italian Studies (ITAL)**College of Arts and Humanities**

3106 Jiménez Hall, 301-405-4025

www.italian.umd.edu

Associate Professors: J. Falvo

Assistant Professors: M. Resmini

Senior Lecturer: S. Amodio (Distinguished Senior Lecturer), F. Deigan

Lecturers: M. Morando

Professors Emeriti: C. Russell

The Major

The language of Italy has long been known as the language of culture. Italian is the language of art, of music, and of poetry. It is also the language of a wealthy, modern industrialized nation now playing an active role in a new United Europe. It is the intent of the Italian program (ITAL) to bring its students to a linguistic and cultural level of understanding, so that they are able to participate actively in on-going events, both cultural and technological, in this dynamic country. The Italian program offers a range of courses well suited not only for students who are preparing themselves for graduate study, research or other professional development in the field of the humanities, but also for those who are specifically seeking a teaching career in education.

Placement in Courses

<http://www.arhu.umd.edu/undergraduate/flpa>

Requirements for the Major**Requirements for Italian Major: 39 credits**

Prerequisites: Successful completion of Italian language through intermediate level (ITAL203 or ITAL122)

I. Major Core Requirements (18 credits)

ITAL204	Review Grammar and Composition
ITAL207	Reading and Writing in Italian
ITAL211	Intermediate Oral Communication
ITAL301	Italian Composition
ITAL311	Advanced Oral Expression: Current Events
ITAL401	Advanced Composition and Style

II. Additional Requirements (9 credits)

A. One additional course at the 200 level in literature or culture; choose one from the following:

ITAL251	Introduction to Italian Literature
---------	------------------------------------

ITAL261	Cuisine, Culture and Society in Italy Yesterday and Today
---------	---

B. Two additional courses at the 300 level in literature or culture; choose two from the following:

ITAL351	Survey of Italian Literature I: From the Middle Ages to Renaissance
ITAL352	Survey of Italian Literature II: From the Renaissance to the Present
ITAL361	Italian Society and Culture: From Fascism to the 1970's
ITAL362	Italian Society and Culture: From the 1970's to the Present

III. Three courses at the 400 level (12 credits)

N.B. For each course at the 400 level, Italian majors must register for a 1-credit colloquium (ITAL478x)

Students must earn a grade of "C-" or higher in each course applied toward a major or minor in the School of Languages, Literatures, and Cultures. Additionally, an overall GPA of 2.0 in a major or minor is required for graduation.

Study Abroad

For information on study abroad programs see the program advisor and/or the Education Abroad website www.international.umd.edu/studyabroad.

Requirements for the Minor

Italian Language and Culture

School of Languages, Literatures, and Cultures (SLLC)
www.italian.umd.edu

The minor in Italian Language and Culture is an official recognition that a student has reached a certain level of proficiency in the target language. The minor will serve as a validation to potential employers of the student's proficiency in Italian.

18 credits are required for this minor:

Prerequisite: Successful completion of ITAL203 Intensive Intermediate Italian

Minor Requirements

ITAL204 Review Grammar and Composition

ITAL207 Reading and Writing in Italian

ITAL211 Intermediate Conversation

ITAL301 Italian Composition and Style

ITAL311 Italian Conversation: Current Events

One additional course taught in Italian at the 300/400 level

- All courses must be taught in Italian
- A maximum of six (6) credits can be applied to the minor from courses taken at other institutions, with the exception of the Study Abroad Program in Italy, which allows the transfer of nine (9) credits.
- All courses presented for the minor must be passed with a grade of "C-" or better.
- An overall GPA of 2.0 in the minor is required for graduation.
- Students who begin their study as native/fluent speakers should seek the advice of the Italian advisor before choosing the courses they will use to replace the core minor courses.

To make an appointment to explore or declare a minor, go to
www.arhu.umd.edu/undergraduate/academics/minors

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state, and institutional financial assistance programs, and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

The UG Committee organizes an annual awards ceremony to celebrate SLLC students who have earned SLLC, campus and/or national scholarships, and academic achievement awards. The awards ceremony takes place in conjunction with the annual SLLC UG Research Forum.

Lesbian, Gay, Bisexual and Transgender Studies (LGBT)

College of Arts and Humanities

2101 Woods Hall, 301-405-6877

www.lgbts.umd.edu

womensstudies@umd.edu

The Department of Women's Studies offers an interdisciplinary undergraduate certificate and a minor in Lesbian, Gay, Bisexual, and Transgender Studies (LGBT). These are designed to examine the lives, experiences, identities and representations of LGBT persons, those who are today described as having a minority sexual orientation or who are gender transgressive.

The Novak Family TerpStart Endowed Scholarship is awarded to an undergraduate student participating in the department's Lesbian, Gay, Bisexual, and Transgender Studies Program. For information and requirements, contact the Director of Undergraduate Studies (301-405-7710).

For more information, see Minors or Certificate Programs in Departments, Majors, Programs.

Japanese (JAPN)

College of Arts and Humanities

2106 Jiménez Hall, 301-405-4025

www.japanese.umd.edu

Professors: S. Ramsey

Associate Professors: M. Mason, L. Yotsukura

Lecturers: K. Akikawa, M. Inoue (Senior Lecturer), E. Yamakita (Senior Lecturer)

The Major

The Japanese major provides the training and cultural background needed for entering East Asia-related careers in such fields as higher education, the

arts, business, government, international relations, and the media. Students may also consider a double major in Japanese and another discipline, such as business, international relations, economics, or journalism. After completing the prerequisite of one year of language (12 credits - JAPN101 Elementary Japanese I, six hours per week, fall; and JAPN102 Elementary Japanese II, six hours per week, spring), students must complete 42 credits for the major course requirements (24 language, 6 civilization/history, 12 elective).

Placement in Courses

<http://www.arhu.umd.edu/undergraduate/flpa>

Requirements for the Major

Students must take language-acquisition courses sequentially. Once credit has been received in a higher level language acquisition or grammar course, a lower level course may not be taken for credit.

Language Requirements:

JAPN201	Intermediate Japanese I	6
JAPN202	Intermediate Japanese II	6
JAPN301	Advanced Japanese I	6
JAPN302	Advanced Japanese II	6

Civilization/History Requirements:

Option I:

HIST284	East Asian Civilization I	3
HIST483	History of Japan to 1800	3

Option II:

HIST285	East Asian Civilization II	3
HIST482	History of Japan to 1800	3

ELECT	Japanese Literature (300-level or above)	3
ELECT	Japanese Linguistics (300-level or above)	3
ELECT	Japanese Electives (300-level or above)	3

Note: Electives must be in Japanese language, literature, linguistics, or other East Asian subjects (one must be in the area of Japanese linguistics and one in the area of Japanese literature), and are subject to approval by the student's advisor. Courses that fulfill the literature requirement for the major include JAPN317, 414, 415, 416, 418 and 498. Courses that fulfill the linguistics requirement for the major include JAPN421, 422, 428, and 438. Courses that fulfill general elective requirements are JAPN 401, 402, 407, 411, and EALL300. Additionally, pertinent courses at the 300-400 level in History and Art History can apply toward the general elective requirements.

Students must earn a grade of "C-" or higher in each course applied toward a major or minor in the School of Languages, Literatures, and Cultures. Additionally, an overall GPA of 2.0 in a major or minor is required for graduation.

Study Abroad

For information on study abroad programs see the program advisor and/or the Education Abroad website www.international.umd.edu/studyabroad.

Requirements for the Minor

Japanese

School of Languages, Literatures and Cultures
www.japanese.umd.edu

This 15-credit minor is designed to provide a concentration in Japanese language and an introduction to the academic fields of Japanese literature and linguistics. Additionally, the minor will allow Japanese heritage speakers the opportunity to engage in language study for special purposes (such as Business Japanese, Diplomatic Translation, or Classical Japanese) as well as in the study of Japanese linguistics and literature.

Requirements for the 15 credit minor in Japanese include:

- A. 6 credits of Japanese language courses, selected from the following list, with placement based on the student's language proficiency: JAPN202(6), JAPN301(6), JAPN302(6), JAPN401(3), JAPN402(3), JAPN403(3), JAPN404(3), JAPN405(3), JAPN406(3), JAPN411(3), JAPN412(3), JAPN499 3)
- B. One 3 credit course focusing on Japanese linguistics selected from the following list: JAPN421, JAPN422, JAPN428, JAPN438
- C. One 3 credit course focusing on Japanese literature selected from the following list: JAPN217, JAPN298, JAPN317, JAPN414, JAPN415, JAPN416, JAPN418, JAPN498
- D. An additional 3 credits from one of the three lists above.
 - At least nine of the fifteen hours must be at the 300-400 level.
 - Students must receive a "C-" or better in all courses used for the minor.
 - An overall GPA of 2.0 in the minor is required for graduation.
 - No more than 6 of the 15 credits toward the minor may be taken at an institution other than UMCP.

To make an appointment to explore or declare a minor, go to
www.arhu.umd.edu/undergraduate/academics/minors

Undergraduate Research Experiences

The School of Languages, Literatures, and Cultures has implemented an Annual SLLC Undergraduate Research Forum which allows its outstanding Juniors and/or Seniors to display their research projects. The Forum takes place in late April in the Language House (St. Mary's).

Internships

Annual Language Career and Internship Fair

Each fall semester, SLLC organizes a Language Career and Internship Fair in conjunction with the UMD Career Center. For more information see the SLLC website: <http://www.sllc.umd.edu/>.

Co-op Programs

Language Partner Program (LPP)

The Language Partner Program is a joint venture between the School of Languages, Literatures, and Cultures, the Office of International Services, and

Education Abroad. International students are paired with SLLC majors to meet weekly on a one-on-one basis outside the classroom and work in an informal, yet structured, way on the listening, speaking, and cultural acquisition skills of SLLC majors. SLLC students in good academic standing (3.0 GPA) and at the intermediate to advanced level sign up for a 1cr SLLC309 - Language Partner Program.

Student Societies and Professional Organizations

Individual SLLC departments hold annual induction ceremonies for students who are eligible for honor society membership.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state, and institutional financial assistance programs, and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

The UG Committee organizes an annual awards ceremony to celebrate SLLC students who have earned SLLC, campus and/or national scholarships, and academic achievement awards. The awards ceremony takes place in conjunction with the annual SLLC UG Research Forum.

Jewish Studies (JWST)

College of Arts and Humanities

4141 Susquehanna Hall, 301-405-4975

www.jewishstudies.umd.edu

jwst-contact@umd.edu

Director: C. Manekin (Prof)

Professors: H. Lapin (HIST), C. Manekin (PHIL), Y. Peri (JWST), M. Rozenblit (HIST)

Associate Professors: B. Cooperman (HIST), A. Feuer (JWST; Research Associate Professor), M. Grossman (JWST), S. Jelen (ENGL), R. Manekin (JWST), P.

Scham (JWST; Research Associate Professor), E. Zakim (SLLC)

Assistant Professors: M. Suriano (JWST)

Affiliate Professors: J. Glass, R. Igel, A. Karamustafa, F. Keshavarz-Karamustafa, S. Selden, S. Sosnowski, S. Telhami, M. Zilfi

Affiliate Associate Professors: A. Borrut, L. Felbain, J. Freidenberg, S. Khamis, G. Strauch, P. Wien

Professors Emeriti: A. Berlin (Emerita)

Visiting Faculty: A. Mahalel (Visit Assoc Prof), P. Peri (Visit Asst Prof)

The Major

The Major in Jewish Studies provides undergraduates with a framework for the organized and interdisciplinary study of the history, philosophy, and literature of the Jews from antiquity to the present. Jewish Studies draws on a vast literature in a number of languages, especially Hebrew and Aramaic, and includes the Bible, the Talmud, and medieval and modern Hebrew literature. Yiddish language and literature compose an important sub-field. Courses offered by this department may be found under the following acronym(s): JWST, HEBR, ISRL, and RELS.

Program Objectives

The Meyerhoff Center and Program for Jewish Studies encourages research and provides instruction about the rich history and culture of the Jewish people from earliest times to the present day. Dedicated to the highest standards of scholarship, the program offers a wide array of courses in Hebrew Language and Literature, Jewish History, Bible, Rabbinics, Jewish Philosophy, and Yiddish Language and Literature. These courses form one of the largest undergraduate Jewish Studies programs in North America. In addition, the Jewish Studies program supports faculty research projects and organizes frequent academic conferences and lectures in order to bring the fruits of scholarship to a wider public. The Jewish Studies Program seeks to provide undergraduate majors with an appreciation for the interdisciplinary nature of Jewish Studies, understanding that Jewish literary texts, Jewish history, and Jewish culture and thought are, to a large degree, inseparable. Students are expected to master the Hebrew language and acquire facility in reading, understanding, analyzing, and interpreting texts both in Hebrew and in English translation. In addition, students should be able to pursue independent research and to argue coherently and persuasively in writing.

Program Learning Outcomes

The Jewish Studies Program seeks to provide undergraduate majors with an appreciation for the interdisciplinary nature of Jewish Studies (understanding that Jewish literary texts, Jewish history, and Jewish culture and thought are to a large degree inseparable). Students who complete the major should acquire the following knowledge and skills:

1. Mastery of modern Hebrew at the advanced level;
2. Mastery of the chronological development and major themes of Jewish history and culture;
3. Ability to read, analyze, and interpret texts in classical (biblical, rabbinic, medieval), and/or modern literary Hebrew; and
4. Ability to conduct independent research and analysis and represent their results in written form, showing mastery of academic tools and formal conventions.

Academic Programs and Departmental Facilities

Study Abroad

The Jewish Studies program encourages students to study internationally. In addition to programs run by the University, students study at academic programs in Israel, Europe, and elsewhere. In particular, majors studying in Israel gain the opportunity to improve their Hebrew language skills by taking ulpan, the intensive course in Hebrew offered at those universities, and by practicing their Hebrew with Israelis. In addition, students can take courses in Israeli society and politics, Middle East Studies, and other courses not usually offered at College Park. Scholarship funds are available to majors and non-majors. Please see the section on "Scholarships and Financial Assistance" for more information.

The Library

The Jewish Studies program has a large and growing Judaica collection at the University of Maryland Libraries that aims to become a major resource and repository for the entire area. The collection includes materials in Jewish history, Hebrew and Yiddish literature, the Bible, Talmud, medieval philosophy, Jewish women, theater, the Holocaust, and modern Israel. In addition to scholarly books and periodicals written in the English, German, Hebrew, Yiddish, Ladino, Arabic, French, Italian, and Slavic languages, the collection includes rare books, musical scores, video and audio recordings, facsimile copies of historical documents, and manuscripts. Students may work with Dr. Yelena Luckert, the Judaica Librarian, on their projects and assignments.

Israel Studies

The Joseph and Alma Gildenhorn Institute for Israel Studies offers a wide array of lectures, programs, courses, and study abroad opportunities, as well as an academic minor. Jewish Studies majors and minors, as well as other students in the university, can benefit from these programs.

Religious Studies

The Minor in Religious Studies is an 18-credit course of study that provides students with the opportunity to learn about religion in cross-cultural and trans-historical perspectives. A core course introduces students to the study of world religions, while other courses range widely in their focus, allowing students to learn more about sacred texts, traditions, practices, philosophies, and material culture. Courses may focus on a single religious tradition, a region or period of history, or a concentrated approach to the analysis of religion and religious culture. Courses for the minor are drawn from such departments and programs as Anthropology, Art History and Archaeology, Classics, Government and Politics, History, Honors, Jewish Studies, Philosophy, and Women's Studies.

Admission to the Major

Hebrew proficiency through Intermediate Hebrew I is a prerequisite for the major, but students can declare the major prior to fulfilling this prerequisite and can take Jewish Studies courses while building their Hebrew skills. Many students may choose to prepare for the Hebrew requirement by studying Hebrew on their own or by enrolling in the University's sequence of beginning and intermediate Hebrew courses.

Placement in Courses

The Foreign Language Placement Test in Hebrew is used to determine in which Hebrew course students should enroll. For more information, contact hebrew-advise@umd.edu.

Requirements for the Major

The undergraduate major requires 48 semester hours (27 hours minimum at the 300-level or above). Students enroll in 39 credits of Jewish Studies courses, and 9 additional credits from a field or fields outside of Jewish Studies. Jewish Studies courses for the major may include courses offered by Jewish Studies or cross-listed with other units.

By satisfying the Hebrew language requirements of the major, Jewish Studies majors will fulfill the Global Engagement Requirement of the College of Arts and Humanities. A minimum "C-" is required in all courses offered toward major requirements. An overall GPA of 2.0 or greater in the major is required for graduation.

1. Language Prerequisites

Please Note: Students can declare the major at any time and take other Jewish Studies courses while they are working to satisfy these prerequisites.

Hebrew language skills corresponding to the second-year level (HEBR211: Intermediate Hebrew I or the equivalent)

Students may meet the prerequisite through successful completion of the lower-level sequence (HEBR 111, 112, and 211, or the equivalent). Students with a background in Hebrew will be placed into the appropriate course by the Hebrew faculty. Students with a strong background may be deemed to have satisfied the Hebrew prerequisites by the Hebrew faculty.

2. General Requirements (18-21 credits)

Majors in Jewish Studies complete three core courses and fulfill an additional four requirements for a total of 19 to 22 credits in General Requirements (credit hours for Hebrew language are flexible, as discussed below).

A. History (3 Credits)

- JWST 233: Why the Jews? Historical and Cultural Investigations

B. Literature (3 Credits)

- JWST 272: Introduction to Jewish Literature

C. Thought, Religion or Culture (3 Credits)

Students may choose from:

- JWST 250: Fundamental Concepts of Judaism
- JWST 262: Hebrew Bible/Old Testament
- JWST 304: Critical Approaches to Israeli Culture
- JWST 452: Golden Age of Jewish Philosophy
- JWST 491: Judaism and the Construction of Gender
- JWST 492: Sex, Gender, and Jewish Identity
- Others by petition

D. Hebrew Language (3-6 Credits)

- HEBR 212 (6 credits) *or* HEBR313 (3 credits) *or* an upper-level course that is taught in Hebrew.

E. Hebrew Text course (3 Credits)

- Any course in which texts are read in Hebrew. Students who have a sufficient background in other Jewish languages (such as Aramaic, Judeo-Arabic, and Yiddish) may fulfill the text course requirement through one of these courses.

F. Research Seminar (3 Credits)

- Research seminars are taught on a variety of topics within the field of Jewish Studies; seminars are general and methodological in their perspective, designed to bring together interests across a variety of subfields of Jewish Studies. Whenever possible, students should take a research seminar that aligns with their chosen area of specialization (see below).
- JWST 409: Research Seminar in Jewish Studies

3. Area of Specialization/Tracks (15 credits)

In consultation with an advisor, majors select an area of specialization in addition to their general Jewish Studies coursework. Up to six credits of this area of specialization may be at the lower or upper levels, while the remaining nine credits must be at the upper level or above. Approved specializations include:

- Jewish History and Society (JH)
- Jewish Religion and Thought (JR)
- Jewish Literature and Culture (JL)
- Israeli Society, Politics, and Culture (IS)
- Hebrew Language and Texts (HL)

All Jewish Studies courses fall into at least one (and as many as three) of these areas of specializations. Students may petition to have courses count toward a particular area of specialization.

4. Electives (6 credits)

Students take two Jewish Studies courses (6 credits) as electives toward their major. 3 credits must be at the upper level.

5. Supporting Courses (9 credits)

Students take nine (9) credits in courses outside Jewish Studies, of which at least six (6) credits must be at the 300-level or above. Supporting courses are determined in consultation with the advisor. They should provide context for the area of specialization.

Note: A current listing of the Department's courses and assignment of courses to the above categories may be found on the Jewish Studies website. Students are reminded that, if there is a topic that doesn't figure in the list of courses, they are welcome to propose an independent study.

Mentoring: Students majoring in Jewish Studies will be assigned a faculty mentor from among the faculty specializing in their area of specialization. Students should consult with their faculty mentor as they plan their course of study.

Requirements for the Minor

Minor in Jewish Studies

The Minor in Jewish Studies offers a broad overview of the principal aspects of Jewish Studies as a field. Students are encouraged to take courses in a variety of areas through a combination of required fields and general electives.

Requirements: 15 credits towards the Minor in Jewish Studies are to be distributed as follows:

History	(3 credits)
---------	-------------

Literature	(3 credits)
Thought, Religion, or Culture	(3 credits)
Electives	(6 credits)

- A minimum of 9 credits must be at the upper level.
- All credits must be earned with a grade of "C-" or above.
- An overall GPA of 2.0 in the minor is required for graduation.
- A list of qualifying courses in each category is available from the Director of the Jewish Studies program.
- Up to 3 credits of lower-level Hebrew or Yiddish language study may be credited toward the minor. In exceptional cases, students may petition to have other languages included.

Restrictions:

- Students enrolled in the Jewish Studies Major are not eligible to enroll in the minor.
- At least six credits of upper-level credit must be taken at the University of Maryland.
- No more than six credits may be taken at an institution other than Maryland.
- In keeping with university policy, no more than six credits may also be applied to a major.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/undergraduate/academics/minors

Minor in Religious Studies

Religious Studies is an interdisciplinary field that enables students to study the texts, culture, history, beliefs, and practices of the religions of the world, present and past. The minor in Religious Studies draws from a wide range of departments and programs (including Anthropology, Art History, Classics, English, History, Jewish Studies, and Philosophy) and offers the opportunity for both in-depth and wide-ranging study. A required core course, RELS216, introduces students to religions of the world and to the academic study of religion (In place of this course, students may take RELS289). In addition to this course, students are required to take three courses at the upper level and another two at any level. Completion of coursework includes fulfillment of a breadth requirement, which demonstrates that students have been exposed to a variety of religious traditions, periods, and geographic regions. Selection of courses in consultation with the advisor will ensure that students complete this breadth requirement.

Many courses are now offered with the RELS prefix. Other regularly-offered courses that may be counted toward the minor are: ARTH200, ARTH201, ARTH250, ARTH290, ARTH314, ARTH376, CHIN316, CLAS170, CLAS470, ENGL262, ENGL263, ENGL277, ENGL477, GERM283, GERM287, HIST111, HIST120, HIST282, HIST284, HIST306, HIST332, HIST480, PHIL236, and many courses in JWST and HONR. Other courses may be taken with the permission of the minor advisor.

Requirements:

- RELS216 or RELS289I: Introduction to the Study of World Religions.
- Three courses at the 300-level or above. These courses can be in any of a variety of subjects, chosen in consultation with an advisor. See Breadth requirement below.
- Two additional courses at any level. Chosen in consultation with an advisor. See Breadth requirement.

Breadth requirement

The breadth requirement ensures that students are exposed to a diversity of religious phenomena. Most Religious Studies students will complete this requirement simply by selecting from the wide variety of courses available to them. Students with particular interests (in a single approach, like Art History, or a single setting, like contemporary North America) will need to take at least one course that falls outside their particular focus of interest. Students will need to demonstrate:

- Exposure to a diversity of religious traditions (understood to include African religions, Buddhism, Christianity, Hinduism, Islam, and Judaism, among others) in coursework that extends beyond a single geographic area (such as the Americas, Asia, or the Mediterranean world).
- Exposure to diverse temporal periods (including antiquity, the medieval and early modern periods, and modernity).
- Experience of multiple approaches to religious phenomena or the study of religion (for example, art history, philosophy, historical approaches, and comparative methods).
- Depth: At least one course must incorporate the focused study of a single religious tradition or cluster of traditions (see item A for traditions). Examples: A student with an academic focus in religions of the ancient Mediterranean might complete the breadth requirement with a single course on Asian religions. A student concentrating on art historical approaches to religion might take one course in philosophy or literature. A student whose interests run to comparative and cross-cultural coursework might take a course in the focused study of a single tradition.

- A minimum of 9 credits must be at the upper level.
- All courses must be passed with a grade of "C-" or above.
- An overall GPA of 2.0 in the minor is required for graduation.
- A list of qualifying courses is available from the advisor to the RELS program.
- At least six credits of upper-level credit must be taken at the University of Maryland.
- No more than six credits may be taken at an institution other than Maryland.
- In keeping with University policy, no more than six credits may also be applied to a major.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/undergraduate/academics/minors

Minor in Israel Studies

www.israelstudies.umd.edu/undergraduate-minor.html

Students doing a Minor in Israel Studies will study the history, culture and political structure of Israel and its place in the Middle East. Students from all majors are encouraged to apply.

Program Requirements

The minor consists of 15 credits, and is organized around the following requirements:

Required Core Courses (9 Credits)

ISRL342/HIST376*	History of Zionism and the State of Israel	3 credits
ISRL448	Seminar in Israel Studies – seminar topics change each semester	3 credits
Middle East Studies Course**	One course in the area of Middle East Studies (see following list)	3 credits

To fulfill the Middle East Studies requirement, students must take one of the courses listed below or a comparable course. This list is not complete; other courses may be substituted with the approval of the Advisor. Students may also take one additional course from this list as an elective for credit toward the Minor.

ARAB221	The Arab World Today through Readings in Translation	
HIST120	Islamic Civilization	
HIST314	Crisis and Change in the Middle East	<i>prereq: one prior History course</i>
HIST491	History of the Ottoman Empire	
GVPT455	Contemporary Middle Eastern Politics	<i>prereq: GVPT280 or 282</i>

*A comparable course at another university may substitute for this; consult the Minor Advisor

** Other courses in Middle East Studies at UMD or elsewhere may be substituted for those on this list in consultation with the Advisor. HIST, COMM, GVPT, and SLLC all regularly offer special topics courses on the Middle East.

Elective Courses (6 Credits)

JWST142 Introduction to Modern Israel

ISRL289I Fundamental Questions of the Israeli-Palestinian Conflict

ISRL448A: Israeli Politics and Government

ISRL448B: Israeli Society

ISRL449 Advanced Topics in Israel Studies

*HEBR111, 112, 211, 212

*ARAB104, 105, 107, 204, 205, 207, 304, 305

JWST304 Critical Approaches to Israeli Culture

HEBR313 Conversation and Composition I

HEBR314 Conversation and Composition II

HEBR381 Introduction to Hebrew Cultural Studies (taught in Hebrew)

HEBR382 Israeli Media (taught in Hebrew)

JWST478 Readings in Modern Hebrew (if topic appropriate: must be approved)

JWST471 Modern Hebrew Literature in Translation

JWST249 Special Topics in Israel Studies

JWST349 Special Topics in Israel Studies

JWST449 Advanced Special Topics in Israel Studies

JWST488 Independent Study in Israel Studies

* No more than 3 credits of language instruction below the 300 level may be credited toward the Minor.

Special Topics in Israel: (Topics change on an annual/semester basis, generally taught by distinguished visiting faculty.)

- ISRL249: Special Topics in Israel Studies
- ISRL349: Special Topics in Israel Studies
- ISRL449: Advanced Topics in Israel Studies

Special Topics in recent years have included: The Arab-Israeli Conflict through Film; Introduction to Israeli Cinema; Immigration & Ethnicity in Israel; Israel Politics and Society; Women and Gender in Israel; Public Culture in Israel; Israel Society as Seen Through Literature & Culture; Cultural Diversity and Multiple Identities in Contemporary Israeli Society; Society Politics and Mass Media in Israel; The Theater of Terror: Modern Terrorism and Mass Media; Israeli Politics for Young Leaders, and more.

Other appropriate courses may be taken as electives if approved by the Israel Studies Advisor.

Restrictions:

- Coursework must include at least 9 upper level credits, of which 6 of those credits MUST be taken at University of Maryland. These include credits earned in UM Study Abroad programs.
- A student may use a maximum of 6 credits (two courses) to satisfy requirements for both a major and a minor. Courses completed for one minor, may not be used to satisfy the requirements for another minor.
- No courses with an earned grade below "C-" may count towards the minor.
- An overall GPA of 2.0 in the minor is required for graduation.
- Up to 2 courses may be taken at another university if the courses are approved by the Israel Studies Advisor. These would include credits earned in non-UM Study Abroad Programs.

To make an appointment to explore or declare a minor go to: www.arhu.umd.edu/undergraduate/academics/minors

Students should also contact **Prof. Paul Scham, Israel Studies Advisor**

pscham@umd.edu

4141 Susquehanna Hall

College Park, MD 20742

Or visit: www.israelstudies.umd.edu

Advising

Majors in Jewish Studies have mandatory advising every semester. They must meet with the advisor before being allowed to register for classes for the next semester. You can reach the Jewish Studies advisor at jwst-advise@umd.edu or 301-405-7640.

(Students with an additional major will have additional advising requirements depending on the major and/or college of the additional major.)

Please note that Jewish Studies majors must also meet with a College of Arts and Humanities advisor:

- during their first semester
- when they complete 45-55 credits
- when they complete 86-100 credits

Students who wish to minor in Jewish Studies must meet with the advisor at least once, mainly to declare the minor.

What to expect from advising

During advising meetings, the advisor will chart a student's progress through the major or minor. The kinds of questions that the advisor will ask include "what courses are you taking," "what courses do you intend to take?," "are you interested in studying abroad?," and "how are you doing in your classes?"

The advisor will make notes and go through the Major or Minor Advising Form to ensure that the student understands the major's or minor's requirements, what courses to take, and when to take them. Every student will get a copy of his or her Major or Minor Advising Form at the end of each meeting for his or her own records.

Note that students who have not yet declared Jewish Studies as their major must meet with the Jewish Studies advisor and then meet with an ARHU advisor. During this first meeting with the Jewish Studies advisor, the student will learn about the Four-Year Plan, which is a schedule of classes developed by ARHU and Jewish Studies for the typical Jewish Studies major to follow. It outlines which courses should be taken during which semesters.

What to bring to an advising meeting.

When students come to a meeting with the Jewish Studies advisor, they should bring a list of courses they are thinking about taking, as well as any other requirements they need to fulfill for another major or minor.

Other documents, such as the requirements for another major or minor, descriptions of courses taken abroad, and previous Major or Minor Advising Forms, are also helpful to bring.

Honors Program

The Honors Program in Jewish Studies is designed to encourage Jewish Studies majors with excellent grades and strong academic interests to pursue an individual research project of their own design, in consultation with and under the direction of a faculty advisor. The Program consists of twelve credits taken in a student's Junior and Senior years, culminating in the writing of an honors thesis. Students who complete the Honors Program are deemed to have completed the research seminar requirement for the major, typically completed through JWST409.

Junior Year: Students apply for admission to the Honors Program in the Fall of their Junior year, and, upon admission, enroll in the Honors Seminar (JWST408) (3 credits) in the Spring of their Junior year. During this time students are expected to develop a general research plan to be approved by the prospective thesis advisor. Thesis advisors will generally belong to the regular or affiliate Jewish Studies faculty. Other faculty may serve as thesis advisor with the written permission of the Director of Undergraduate Studies.

Senior Year: In the Fall of their Senior year students select an upper-level course (3 credits) closely related to their research agenda in consultation with the advisor. This may include a regularly offered undergraduate course, independent study, in which case students are encouraged to apply for an Honors Option for that particular course. In addition, students may request permission to enroll in a graduate-level course to complete this part of their requirement. Students who enter the Honors Program with a clearly defined research interest may complete this requirement in their Junior year.

In addition, students take 6 credits of JWST418: Honors Thesis Research, under the direction of their thesis advisor. Typically these will be divided between the Fall and Spring semesters. Students are expected to work out with their advisors clear goals that contribute to the thesis as a whole for each semester of this research, and will be graded each semester on the basis of having met those goals. In the second semester, the principal goal will be the completed thesis.

Student Societies and Professional Organizations

Undergraduate Jewish Studies Organization

The goal of the Undergraduate Jewish Studies Organization (UJSO) is to provide non-curricular support for Jewish Studies majors and minors. Such support includes career guidance, cohort development, networking activities, social events, and other programs designed by the UJSO's members. Led by members, the UJSO responds to students' needs that extend beyond the curricula of the Jewish Studies Program.

All Jewish Studies majors and minors, as well as other students interested in Jewish Studies, are encouraged to attend meetings and get involved.

Scholarships and Financial Assistance

The Joseph and Rebecca Meyerhoff Center and Program for Jewish Studies offers scholarships for study abroad and special domestic study programs that have a clear relationship to Jewish Studies. Students wishing to study in Israel are especially encouraged to apply. Applications for scholarships are accepted once in the Fall and once in the Spring. Specific deadlines, as well as the application form, can be found at www.jewishstudies.umd.edu/scholarships. For more information, please call the Center at 301-405-4975.

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Journalism

The Philip Merrill College of Journalism offers B.A., M.A., M.J. and Ph.D degrees. For more information and undergraduate degree requirements, see the Philip Merrill College of Journalism entry under "Colleges and Schools."

Kinesiology (KNES)

School of Public Health

2351 School of Public Health Building, 301-405-2450

www.sph.umd.edu/KNES

advisingknes@umd.edu

Chair: B. Hatfield (Prof & Chair)

Professors: D. Andrews, J. Clark (Dean, SPH), J. Hagberg (Graduate Director), B. Hurley, S. Iso-Ahola, S. Roth

Associate Professors: S. McDaniel, M. Rogers, J. Shim, J. Smith

Assistant Professors: R. Gentili, S. Jette, R. Miller, J. Roberts

Instructors: E. Brown, M. Scott (Undergraduate Program Coordinator)

Lecturers: A. Beissel, E. Brody, J. Bush, D. Collier, M. Friedman, A. Ginsberg, J. Goldstein, J. Klossner, K. Klotz, R. Lindle, J. Montfort, A. Palla-Kane, J. Phillips (MPH Coordinator), L. Plotkin, A. Romeo, L. Rush, A. Shums, D. Vacante, B. Weiner, J. Zimmerman (Physical Activity Program Coordinator)

Assistant Research Professor: D. Deglau (Assistant Chair), T. Kiemel

Professors Emeriti: D. Clarke, C. Dotson, C. Ennis, B. Franks, J. Hult, J. Jeka, D. Kelley, S. Phillips, D. Steel, J. Wrenn

The Major

The Department of Kinesiology has one undergraduate major, the BS in Kinesiology. All majors in the department gain conceptual and experiential knowledge in the anatomical, physiological, psychological, sociological, and historical perspectives on physical activity, movement, exercise and sport. Today there are 1000 undergraduates majoring in Kinesiology who will go on to further study in health professions (such as physical therapy, occupational therapy, medicine), sport-related professions (sport management, sport marketing, coaching), fitness-related professions (exercise leader, personal trainer) and other health and physical activity-related careers. Others will pursue a graduate program in research in Kinesiology (MS, MPH, PHD). There are currently 20 students in the departmental Honors Program.

A brief description of the program follows. Students should obtain a current Student Handbook for the Kinesiology degree on the web at www.sph.umd.edu/KNES. The program requires a grade of "C-" or better in all required course-work.

Program Objectives

The overall mission of the Department of Kinesiology is to improve the health and wellbeing of all people through an interdisciplinary understanding of physical activity in its many forms (e.g., exercise, sport, movement activities of daily living). The Department of Kinesiology is committed to providing students with an excellent education in Kinesiology; generating empirical evidence about physical activity; and providing services to the state, nation, and world by furthering and sharing our knowledge and expertise about physical activity.

The undergraduate educational mission of the Department of Kinesiology is to enable students to develop an interdisciplinary knowledge of kinesiology, value physical activity and its integration within the discipline, and understand how kinesologists work to improve the health and well-being of individuals and society.

Program Learning Outcomes

At the completion of the B.S. degree in Kinesiology, students should demonstrate the following outcomes:

1. Students will interpret, synthesize, and critically analyze research underlying the kinesiological dimensions of physical activity and health.
2. Students will develop principled reasoning skills necessary to apply and extend kinesiology knowledge to address problems that are relevant to physical activity and the health of diverse populations.
3. Students will integrate, interrogate, and communicate the connection between the scholarship of kinesiology and the goals of public health.
4. Students will engage in a diversity of physical activities both within and outside their formal curriculum.
5. Students will integrate their physical activity experiences with kinesiology sub-disciplinary knowledge.

Requirements for the Major

Kinesiology Major

This program offers students the opportunity to study the interdisciplinary body of knowledge related to human physical activity and sport, and to pursue specific specializations so that each individual can prepare for a particular career goal within the broad discipline. There is no intent to orient all students toward a particular specialized interest, orientation or career. However, many current students are pursuing careers in medically-related fields (i.e., physical therapy, physician, chiropractor), in the fitness industry (i.e., corporate fitness, personal training, health fitness director) as well as in the sport industry (sport management, sport marketing, events management, equipment sales, athletic director). The program provides a hierarchical approach to the study of human movement. First, a broad core of knowledge is recognized as being a necessary foundation for advanced and more specific courses. Secondly, at the 'Options' level, students select from approved upper level KNES courses, which they believe will provide the knowledge to pursue whatever future goal they set for themselves. To further strengthen specific areas of interest, students should select electives carefully. The program culminates with a senior seminar class in which students write a substantial paper and discuss the implications of research.

		Credits
	Required Courses	
KNES287	Sport and American Society	3
KNES293	History of Sport in America	3
KNES300	Biomechanics of Human Motion - Prerequisite BSCI201 and MATH112, 113, 115 or placement in MATH140 with a grade of "C-" or better	4
KNES350	Psychology of Sport	3
KNES360	Exercise Physiology - Prerequisite BSCI201 and BSCI202 with a grade of "C-" or better	4
KNES370	Motor Development	3
KNES385	Motor Control and Learning	3
KNES	KNES Core requirements	27
KNES400	Foundations of Public Health in Kinesiology - Prerequisite: Minimum grade of "C-" in KNES287; and must have completed or be concurrently enrolled in KNES360	3
	KNES Upper Level Option Courses	12
	See departmental Bulletin Board, Handbook, or web page	
	NOTE: all OPTION courses have one or more KNES Core courses as a prerequisite. Prerequisites must be completed with a grade of "C-" or better.	
	Supporting Courses	18
BSCI170&171	Principles of Molecular and Cellular Biology and Lab - Prerequisite: Must have math eligibility of MATH120 or MATH220, MATH130, or MATH140.	4
BSCI201	Human Anatomy and Physiology I - Prerequisite BSCI170&171 with a grade of "C-" or better	4
BSCI202	Human Anatomy and Physiology II - Prerequisite BSCI201 with a grade of "C-" or better	4
MATH/STAT	Statistics course	3
KNES497	Kinesiology Senior Seminar - Prerequisite: A professional writing course with a grade of "C-" or better, all 7 KNES core and 2 KNES options; STAT100 or equivalent; and must have completed or be concurrently enrolled in KNES400 with a grade of "C-" or better.	3
P.ACTV	Physical Activity Courses	4
KNES200 or 201	Kinesiological Principles of Physical Activity See Handbook or webpage	
ELECT	Electives (approximately)	30

* To complete the Kinesiology degree a minimum of 120 credits is required, including the general education program.

Advising

Kinesiology students do not have an assigned advisor, rather the advisors work as a team to serve the students. Some students choose to meet with the same advisor every time and some choose the advisor based on which meeting time works for their schedule. Either way works!

We strongly encourage students meet with an advisor regularly to discuss course requirements, benchmarks, academic plans, internships, schedules, and career planning.

Advising appointments can be made online at the website at <https://sph.umd.edu/department/knes/advising>. Advisors are not assigned to individual students, although certain advisors will handle issues related to policy exceptions, academic difficulties, change of major, study abroad, internships, athletes, and other special cases.

Advisors will assist with registration procedures, program updates, University resources, career guidance, and related issues. Students are strongly encouraged to follow their approved academic plan for timely progress throughout the degree program. Changes in the academic plan should be discussed with an academic advisor.

Walk-in hours are available during the beginning of each semester and advertised through the KNES listserv. Students are encouraged to use the online advising appointment process or email an advisor at advisingknes@umd.edu.

Undergraduate Research Experiences

Undergraduate research experiences are encouraged.

Research internships are available from 1 to 3 credits and are recommended at the junior or senior level, following the completion of most Kinesiology core courses.

Additional information is available on the UMD Undergraduate Research website (www.ugresearch.umd.edu/) or by contacting Director of the Undergraduate Programs (301 405-2450).

Internships

Internships are encouraged to assist students in connecting and applying academic and conceptual knowledge to the real world. Most students consider internships during their junior and senior years following the completion of related kinesiology core and options courses.

From a practical perspective, internships are invaluable in helping students focus on career options, gain experience, establish professional contacts and, perhaps most importantly, deciding whether a particular field is truly a good fit both professionally and personally.

Additional information is available on the department website (<http://sph.umd.edu/department/knes/internships>) or by contacting a member of our advising team.

Honors Program

The Department of Kinesiology Honors Program provides an opportunity for students to engage in challenging educational experiences related to the study of human movement, sport, and exercise. Students with strong intellectual interests and the ability to pursue those interests at a high level are eligible for this program. It is the goal of the Honors Program to nurture these students and encourage them to pursue their interests in a range of intellectual topics. The Honors Program in the Department of Kinesiology is primarily designed for junior and senior level students to encourage them to engage in scholarly independent study and discussions.

Admission to the Honors Program is based on a multifaceted set of criteria and administered through the Departmental Honors Committee.

Students interested in entering the Honors Program should visit the following website: <https://sph.umd.edu/department/knes/honors-program>

Admission to the Honors Program is based on a multifaceted set of criteria and administered through the Departmental Honors Committee. Students interested in entering the Honors Program should submit a written request to the Chair of the Honors Program, described below in detail. Each application will be treated on an individual basis; therefore the Honors Committee may take work experience, leadership, motivation and maturity into consideration. Contact the Director for more information. The applicant must meet the following minimum requirements and is expected to participate in the Honors Program for a minimum of 3 semesters:

1. An overall GPA of 3.50 on a minimum of 45 credits. (Exception: Students who are close to achieving a 3.50 GPA may submit additional materials to the Honors Committee for consideration.)
2. Have a 3.50 GPA in courses taken within the Department of Kinesiology, to include at least 9 credits from the following courses: KNES287, 293, 300, 350, 360, 370, 385.

Student Societies and Professional Organizations

Kinesiology Student Organization (KSO)

The mission of this Kinesiology Student organization is to increase networking within the department (students, faculty, alumni), expose members to a variety of resources to help them succeed, and to enhance the overall sense of community through social events and community service. This is a student run organization that values opinions and ideas from everyone in the Kinesiology community.

E-mail ksound@gmail.com to subscribe to the group's list-serve.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

For information on departmental scholarships, please visit the department website: <https://sph.umd.edu/department/knes/financial-support>

Landscape Architecture (LARC)

College of Agriculture and Natural Resources

2139 Plant Sciences Building, 301-405-4359

www.larch.umd.edu/

dcortez@umd.edu

Chair: A. Murphy (Professor & Chair)

Director: D. Myers (Director, MLA Program Chair, & Assoc Prof), D. Nola (BLA Program Chair & Instructor)

Associate Professors: C. Ellis, D. Myers, J.B. Sullivan

Assistant Professors: V. Chanse, K. Cook, B. Kweon

Instructors: D. Nola

Lecturers: A. Anderson, A. Ison

The Major

Landscape Architects lead, educate, and participate in the careful stewardship, wise planning, and artful design of our built and natural environments. The Landscape Architecture curriculum is a four-year professional program.

The Bachelor of Landscape Architecture (BLA) degree is accredited by the [Landscape Architecture Accreditation Board \(LAAB\)](#). The BLA degree meets the academic requirements for licensure. LAAB standards require that first-professional degree curricula must include the core knowledge skills and applications of landscape architecture: landscape architectural history, philosophy, theory, values, ethics, practice, planning, design, implementation, and management. The program is a site-based design discipline that also deals with regional and larger-scale environmental/social issues. The curriculum, centered on a studio-based design curriculum, integrates ecological and social factors into the design and planning process. Students take a series of lecture and studio design courses, beginning with an introduction to landscape design principles in the first year and culminating in an advanced research and studio design project in the graduating year. Courses include Site Analysis and Ecological Principles, Site Design Studio, Urban Design Studio, and Professional Practice, among others. Digital design studios allow the integration of computer-aided design, GIS, and other analytical and communication tools with fundamental design and drawing skills.

The Department of Plant Science and Landscape Architecture offers two additional undergraduate curricula that students may choose: the Bachelor of Science (B.S.) in Plant Sciences or in Agricultural Sciences and Technology. Information on these majors may be found elsewhere in the catalog.

Courses offered by this department may be found under the following acronyms: PLSC and LARC.

Program Learning Outcomes

- Demonstrate an understanding of the design process used in landscape architectural practice.
- Demonstrate the ability to communicate through visual literacy using hand graphics and computer technology.
- Connect and build relationships with external groups in the appropriate fields of study.

Admission to the Major

Landscape Architecture is an open enrollment program.

Freshman Admission: The program's goal is to have the greater proportion of program majors admitted as freshmen. All entering freshmen will gain admission to the Landscape Architecture program directly from high school, as space permits. Early application is encouraged to ensure the best possible chance for admission.

Transfer Admission: Admission of transfer students is limited by space considerations. Students presenting an acceptable graphic portfolio, evaluated by the landscape architecture faculty, may be exempted from selected courses. Landscape architecture faculty will evaluate all other LARC-equivalent courses transferred from another institution.

The Studio Placement Benchmark Review: Admission into the studio sequence is contingent upon attaining a successful benchmark review of a portfolio to meet content and quality standards as outlined by the LARC program. Students must earn a minimum of 80 points out of 100. Benchmark portfolio reviews occur in the spring semester. The portfolio also requires a Letter of Application to the Landscape Architecture Program. Each student must write a one-page letter, addressed to the Landscape Architecture Program Faculty. The letter must clearly and concisely state his/her reasons for wanting to be in the Landscape Architecture Program.

Other Policies Which Determine a Student's Retention in the Landscape Architecture Program:

Appeals: Students who are unsuccessful in passing the Studio Placement Benchmark Review to the Landscape Architecture program and believe they have extenuating or special circumstances which should be considered, may appeal in writing to the Undergraduate Coordinator. The student will be notified in writing of the appeal decision.

BLA Degree Requirements. The courses and credit hours that define the curriculum leading to the degree of Bachelor of Landscape Architecture (BLA) are described in the next section. The curriculum includes required courses for the major as well as additional general education program requirements and electives. Following the successful Studio Placement Benchmark Review, students must have an overall average of a "C" (2.0) to be eligible for the BLA degree. Students must also have grades of "C-" or better in all required courses with the LARC designation.

Requirements for the Major

		Credits
ENGL393	Technical Writing	3
ENST200	Fundamentals of Soil Science	4
ENST444	Remote Sensing of Agriculture and Natural Resources, OR	
GEOG340	Geomorphology, OR	3
GEOG372	Remote Sensing	
LARC120	Digital Fundamentals	2
LARC140	Graphic Fundamentals Studio	4
LARC141	Design Fundamentals Studio	4
LARC160	Introduction to Landscape Architecture	3
LARC221	Digital Design Tools	3
LARC240	Graphic Communication and Design Studio	4
LARC263	History of Landscape Architecture	3
LARC265	Site Analysis and Ecological Principles	3
LARC320	Principles of Site Engineering	3
LARC321	Landscape Structures & Materials	3
LARC340	Site Planning and Design Studio	5
LARC341	Regional Design Studio	5
LARC389	Internship in Landscape Architecture	3
LARC420	Professional Practice	3
LARC440	Urban Design Studio	5
LARC450	Environmental Resources, OR	3
LARC451	Sustainable Communities	
LARC470	Landscape Architecture Seminar	3
LARC471	Capstone Studio: Community Design	5
MATH112	College Algebra with Applications and Trigonometry, OR	3
MATH115	Pre-calculus	
PLSC100	Introduction to Horticulture	4
PLSC253	Woody Plants for Mid-Atlantic Landscapes I	3
PLSC254	Woody Plants for Mid-Atlantic Landscapes II	3
Total Major Requirements		87

Advising

The Department has mandatory faculty advising for each of its major and minor programs. Students are required to meet with their faculty advisor at least twice a year. See the Undergraduate Coordinator of the Landscape Architecture Program in 2139 Plant Sciences Building (301-405-4359) for additional information.

Undergraduate Research Experiences

Landscape Architecture faculty members frequently have research opportunities for undergraduate students. Students are encouraged to contact faculty members for any opportunities. Students may also discuss these opportunities with their faculty advisors.

Internships

Internships are available at nearby federal, state and county agencies as well as in private landscape architecture firms. University of Maryland Landscape Architecture participates in the MDASLA Job Shadow Program. A list of participating firms can be found [here](#).

Student Societies and Professional Organizations

The Student Chapter of the American Society of Landscape Architects (SASLA) provides students with opportunities to get involved with on-campus activities. The club is chartered by ASLA.

More information can be found online at: www.larch.umd.edu/people/student-asla-sasla

Scholarships and Financial Assistance

Several scholarships are awarded each year based on merit and need through the Department of Plant Sciences and Landscape Architecture. They include:

Undergraduate Awards

- The Homeland Garden Club of Baltimore Award
- Landscape Architecture Award of Excellence
- ASLA Honor and Merit Award Nominees
- Matt Weaver Scholarship

Contact the Associate Dean's office at 301-405-5308 for additional information. The Department also maintains a listing of scholarships. Contact Jessica Trotta in 2102 Plant Sciences, 301-405-4356.

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Languages, Literatures, and Cultures, School of (SLLC)

College of Arts and Humanities

Academic Programs

The School of Languages, Literatures, and Cultures is the primary academic unit devoted to instruction and research in the world's languages, literatures, and cultures. It consists of the Departments of East Asian Languages and Cultures, French and Italian, Germanic Studies, Middle Eastern Studies, Russian, Spanish and Portuguese, as well as Second Language Acquisition programs. It offers undergraduate majors in Arabic Studies, Chinese, French Language and Literature, Germanic Studies, Italian Studies, Japanese, Persian Studies, Romance Languages, Russian Language and Literature, and Spanish Language, Literatures, and Cultures. Minors can be earned in Arabic, Chinese Language, French Studies, Germanic Language and Literatures, Italian Language and Culture, Japanese, Korean Studies, Persian Studies, Portuguese Language, Literatures, and Cultures, Russian Studies, Spanish Language and Cultures, and Spanish Language, Business, and Cultures. Language and culture instruction through the advanced level is available in Hebrew as well. The School offers study abroad programs in many countries, both short and long-term. Its Language House, a residential immersion facility for approximately 100 students, is one of the most successful living-learning programs on campus, and offers immersion experiences in Arabic, Chinese, French, German, Hebrew, Italian, Japanese, Persian, Russian, and Spanish.

+ Distinguished Scholar Teacher

In all SLLC programs, language acquisition courses must be taken sequentially. Once credit has been received in a higher-level language acquisition course, a lower-level course may not be taken for credit.

Language Majors

For information on majors in the School of Languages, Literatures, and Cultures (SLLC), please visit: www.sllc.umd.edu. Alternatively, please see chapter 7 of the undergraduate catalog.

Language Minors

For information on Minors offered within SLLC, please see: www.sllc.umd.edu.

Other Language Programs

Hebrew

The Program in Modern Hebrew provides an opportunity to develop knowledge and skills in Hebrew language, literature, and culture. Elementary and intermediate language courses introduce basic communication skills in modern Hebrew. Upper-level language courses emphasize reading comprehension, vocabulary enrichment, and writing skills. Advanced courses in literature and culture focus on the analytical study of critical topics relating to modern Hebrew texts and Israeli culture.

Students wishing to focus on Hebrew language as a primary subject may do so through a concentration in Hebrew within the Jewish Studies major (see the Meyerhoff Center for Jewish Studies at <http://www.jewishstudies.umd.edu/>) or by devising their own major through the Individual Studies Program (<http://www.ivsp.umd.edu>).

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state, and institutional financial assistance programs, and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

The UG Committee organizes an annual awards ceremony to celebrate SLLC students who have earned SLLC, campus and/or national scholarships, and academic achievement awards. The awards ceremony takes place in conjunction with the annual SLLC UG Research Forum.

Letters and Sciences

Letters and Sciences is the academic home for students exploring a variety of fields before selecting a major, for post-baccalaureate students taking additional course work, and for non-degree seeking students taking undergraduate courses. Letters and Sciences may also serve as the academic home for students completing requirements for entry into a Limited Enrollment Program. Letters and Sciences advisors help students to select and schedule courses, plan academic programs, and learn about campus-wide resources. Letters and Sciences collaborates closely with college advising offices, academic departments, and programs across campus and provides a coordinated advising network.

For information, see Office of Undergraduate Studies in Chapter 6.

Linguistics (LING)

College of Arts and Humanities

1401 Marie Mount Hall, 301-405-7002

www.ling.umd.edu

Chair: W. Idsardi (Professor and Chair)

Professors: N. Hornstein, H. Lasnik (Dist Univ Prof), J. Lidz, C. Phillips, P. Pietroski, M. Polinsky, P. Resnik, J. Uriagereka, A. Weinberg

Associate Professors: V. Hacquard, A. Williams

Assistant Professors: N. Feldman, E. Lau, O. Preminger

Senior Lecturer: M. Antonisse, T. Bleam

Assistant Research Scientist: A. Zukowski

The Major

The Linguistics Department offers courses on many aspects of the scientific study of language and an interdisciplinary major leading to a Bachelor of Arts.

Research in linguistics aims to discover how a person's linguistic capacity is represented in the mind, how that knowledge is acquired, what aspects are innate, and how language is processed in the mind and brain. Students learn how to address these questions through various sources of evidence, such as descriptions of individual languages, patterns of grammatical variation and invariance, the development of language in children, the mental processes of language in use, computational models of acquisition and processing, and patterns of physiological activity in the brain.

The major in Linguistics is designed for students who are primarily interested in human language per se, or in describing particular languages in a systematic and psychologically plausible way, or in using language as a tool to reveal some aspect of human mental capacities. Such a major provides useful preparation for further research in linguistics and cognitive science, as well as for professional programs in foreign languages, language teaching, communication, psychology, speech pathology, and artificial intelligence. Because of the emphasis placed on analytic thinking, scientific reasoning, and evidence-based argumentation, the linguistics major also prepares students for a broad range of careers outside of the language sciences.

Program Learning Outcomes

The Department of Linguistics B.A. program seeks to expose majors to fundamental questions about the nature of the human mind, using Language as a vehicle for examining this issue. The program aims to cultivate strong empirical research skills, data analysis, application of scientific methodology, and

the ability to communicate clear, logical arguments.

1. Students can analyze a sentence from English or another language, providing a syntactic parse tree and evidence for their analysis.
2. Students can provide a phonological analysis of any language given a sufficient data set (including data from non-Western languages).
3. Students understand and can reproduce arguments for the existence of mental grammar.
4. Students understand and can reproduce arguments for a genetic component of human language.
5. Students can apply the scientific method to data analysis. Specifically, they can formulate generalizations, specify the predictions of a hypothesis with respect to independent generalizations, and test predictions.

Academic Programs and Departmental Facilities

Students can become involved in a wide range of research activities including computer programming and experimental projects in language acquisition (<http://ling.umd.edu/languageacquisition/>), psycholinguistics (<http://ling.umd.edu/psycholinguistics/>) and neurolinguistics (<http://ling.umd.edu/neurolinguistics/>). Selected undergraduate students work alongside faculty and graduate students—learning to design, execute, and analyze experiments—within our Cognitive Neuroscience of Language Labs (including the Language Acquisition Lab (http://ling.umd.edu/research/acquisition_lab/), the EEG/ERP Lab (<http://ling.umd.edu/research/egg/>), the Maryland-KIT MEG Lab (<http://ling.umd.edu/research/meg/>), and the Maryland Neuroimaging Center (<http://mnc.umd.edu/>)). For more information about ongoing research, lab facilities, and opportunities for undergraduate involvement, go to the following web pages:

<http://ling.umd.edu/undergraduate/>

<http://ling.umd.edu/research/>

Requirements for the Major

A grade of at least "C-" is required in all major courses. An overall GPA of 2.0 in the major is required for graduation. The Linguistics major consists of 39 credits: 24 credits of Linguistics Core classes plus 15 credits from one of the Tracks, as specified below.

Core required of all majors: 24 credits

- LING240 Language and the Mind - 3 credits
- LING311 Syntax I - 3 credits
- LING321 Phonology I - 3 credits
- Two from: 6 credits
 - LING312 Syntax II - 3 credits
 - LING322 Phonology II - 3 credits
 - LING320 Phonetics - 3 credits
 - LING410 Grammar and Meaning - 3 credits
 - LING440 Grammars and Cognition - 3 credits
 - LING444 Child Language Acquisition - 3 credits

- Three upper level LING electives 9 credits

Choice of one Track:

Grammars and Cognition Track 15 credits

- PSYC100 Introduction to Psychology - 3 credits
- PHIL170 Introduction to Logic - 3 credits
- LING350 (or PHIL360) Philosophy of Language - 3 credits
- Two approved electives in LING, PSYC, HESP, PHIL, or CMSC 6 credits

Language Track 15 credits

- 15 credits of a single chosen language
- At least 3 of the 15 credits must be at or above the 200 level.

There are no requirements for support courses for the Linguistics major.

Students pursuing the major should review the academic benchmarks established for this program. See: www.4yearplans.umd.edu. Students will be periodically reviewed to insure they are meeting benchmarks and progressing to the degree. Students who fall behind program benchmarks are subject to special advising requirements and other interventions.

Other Requirements for the Major

- LING240 must be taken before any other courses in the major; this course serves as a gateway to the major. A grade of "C-" or better is required in this course before taking further courses in Linguistics. However, a grade of "B" or higher in LING240 is a relatively good predictor of continued success in the rest of the major (as courses become more difficult). LING 240 is offered every semester.
- A grade of "C-" or better is required in prerequisite courses.
- After LING240, students should take LING311 (Syntax I) and LING321 (Phonology I), as they are prerequisites for other required courses. These courses can be taken together in the same semester.
- No more than 1 independent study or lab course (3 credits) can be used towards the three upper-level LING electives (part of the LING core).
- LING312 (Syntax II) and LING322 (Phonology II) are generally only offered in the Spring. Note that in academic year 2016-2017, Phonology II will be offered in the Fall.
- LING410 (Grammar and Meaning) is only offered once per year, in Fall in 2016-2017.
- Optional courses for the major are not necessarily offered on a regular basis. Students should check with the undergraduate advisor to find out which courses will be offered and when.
- For the Language Track, the "15 credits of a single chosen language" must be courses that focus on language (and not, for example, history, literature or culture taught in the language).
- The "structure or history of the language" course is no longer required but such a course can be taken to count towards the 15 credits of the language.
- Note that courses cannot be double-counted for different requirements in the major. All of the "boxes" must be filled in by different courses such that you reach the required number of credits with all of the categories fulfilled.
- Electives for the Cognition Track must be approved by the linguistics advisor.

Requirements for the Minor

15 credit hours: LING200, 240, 321, 311, and one upper level linguistics elective.

All courses presented for the minor must be passed with a grade of "C-" or better. An overall GPA of 2.0 in the minor is required for graduation.

For more details about the minor, please see chapter 8 of the Undergraduate Catalog.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/undergraduate/academics/minors

Advising

Linguistics majors have a dual system of advising. The department advisor is a faculty member in the Linguistics department and advises students about major requirements and courses. For more general advising (about general education requirements, ARHU requirements, etc), students will go to their college (ARHU) advisor. Students may choose to make appointments every semester with either or both advisors, but will have mandatory advising at both the departmental and college level at three different points:

- first semester matriculated in the major
- between 45-55 credits
- between 86-100 credits

Failure to meet with both advisors for mandatory advising will result in being blocked from registering for classes for the following semester.

For more information about the major and advising, visit the Linguistics Department web page at:

<http://ling.umd.edu/undergraduate/>

Undergraduate Research Experiences

There are opportunities in the department for undergraduate students to get involved in doing research. Students interested in research in linguistics should submit a resume and/or project proposal to the undergraduate advisor or to an appropriate faculty member. Attempts will be made to match students with appropriate faculty advisors. The possibility of doing research is not guaranteed for every student, but will depend on the student's skills and the availability and willingness of a faculty member to direct the project.

In addition to opportunities during the regular semester to receive course credit for research assistantships, students can also apply for funding to work as a research assistant during the summer through the Linguistics Department Baggett Scholarship program. (More information about the Baggett summer program can be found on the website at: <http://www.ling.umd.edu/baggett/>).

Honors Program

Academically talented Linguistics majors with junior standing may petition to become honors candidates in Linguistics. Honors students work on a research project under a faculty advisor, write an honors thesis, and present the work in a public forum.

Student Societies and Professional Organizations

The UMD undergraduate linguistics club is called the Student Linguist Association at Maryland (SLAMD or SL@MD). There is an active facebook page and also an orgsync page for the organization; links for these are given below. More information can also be obtained by emailing the linguistics advisor.

<https://www.facebook.com/groups/290959187595057/>

<https://orgsync.com/78258/chapter>

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Also, students can apply for a Linguistics Department Baggett Scholarship to work (in a paid position) as a research assistant during the summer. See below.

Awards and Recognition

The Department of Linguistics offers several Baggett Summer Scholarships every year. These are paid, faculty-mentored summer research positions open to UMD undergraduate students with training in linguistics or cognitive science.

More information can be found on the website at: <http://www.ling.umd.edu/baggett/>.

LOGISTICS, BUSINESS, AND PUBLIC POLICY (BMGT)

The Robert H. Smith School of Business

1570 Van Munching Hall, 301-405-2286

www.rhsmith.umd.edu/undergrad

undergradinfo@rhsmith.umd.edu

Chair: M. Dresner

Professors: T. Corsi, M. Dresner, C. Grimm, P. Morici, R. Windle

Associate Professors: T. Anenson, W. Chung, C. Dezso, P. Evers, G. Mark, R. Sampson, B. Zelner

Lecturers: J. Boroumand, G. Cohen, W. McAdam, W. McClenahan, C. Olson, H. Turner

Adjunct Professors: R. Daniels, L. Gardner, A. Gillyard, R. Hutchins, J. Miller, G. Milsom, K. Nagata, J. Reyna, T. Wilkerson

Research Professor: S. Boyson (Res Prof, Aff Res Prof), K. Prasad (Res Prof, Lecturer)

Professors Emeriti: B. Leete

The Major

Two curriculum concentrations are offered through the Logistics, Business, and Public Policy department:

Supply Chain Management

International Business

Supply Chain Management: The predominance of business activity taking place on a global scale has increased the opportunities for integrated supply chain management to have a profound impact on value chain performance. The supply chain encompasses all organizations involved in the production of a good or service and its ultimate delivery to the end consumer. Supply chain managers oversee many varied but inter-related processes including the flows of materials and information. Within supply chain management, logistics deals primarily with the materials flow component of the supply chain, and logistics managers are responsible for fulfilling customer orders while simultaneously controlling distribution costs from a total cost perspective. Students pursuing a supply chain major will develop theoretical, analytical, and software skills designed to prepare them for careers in a variety of fields.

International Business responds to the global interest in international economic systems and their multicultural characteristics. This degree combines the college-required courses with International Business courses and provides students the opportunity to apply a specified upper level foreign language course toward this specialization's requirements. It is strongly recommended that this program be declared in combination with another major in or outside of business in order to assure that graduates will have specialized career focus.

Admission to the Major

See Robert H. Smith School of Business entry in Chapter 6 for admission requirements.

Requirements for the Major

Supply Chain Management

Course requirements for the junior-senior curriculum concentration in Supply Chain Management are as follows:

	Credits
BMGT370 Introduction to Transportation	3
BMGT372 Introduction to Logistics and Supply Chain Management	3
BMGT477 International Supply Chain Management	3
<i>Two of the following courses:</i>	6
Supply Chain Management Internship	
BMGT373 (NOTE: a maximum of 3 credits of BMGT373 can fulfill Supply Chain Management major requirements.)	
BMGT470 Carrier Management	
BMGT471 Seminar in Supply Chain Management: An Executive Perspective	
BMGT472 Purchasing and Inbound Logistics	
BMGT475 Supply Chain Strategy and Network Design	
BMGT476 Technology Applications in Supply Chain Management	
Special Topics in Supply Chain Management	
BMGT478 (NOTE: a maximum of 6 credits of BMGT478 can fulfill Supply Chain Management major requirements.)	
<i>One of the following courses:</i>	3
BMGT302 Developing Business Applications	
BMGT332 Operations Research for Management Decisions	
BMGT385 Operations Management	
BMGT455 Sales Management	
BMGT461 Entrepreneurship	
BMGT484 Electronic Marketing	
BMGT490 Quest Consulting and Innovation Practicum – option only for students in the QUEST program	
<i>Or one of the following not selected above:</i>	
BMGT373, 470, 471, 472, 475, 476 or 478	
(NOTE: a maximum of 3 credits of BMGT373 and a maximum of 6 credits of BMGT478 (if content differs) can fulfill Supply Chain Management major requirements.)	
Total Major Requirements	18
Upper Level Economics Requirement	3
<i>One of the following courses:</i>	
ECON305 Intermediate Macroeconomic Theory and Policy	
ECON306 Intermediate Microeconomic Theory	
ECON330 Money and Banking	
ECON340 International Economics	

Note: Students who have completed ECON325 and ECON326 can substitute these courses for ECON305 and ECON306 respectively.

International Business

Note: Curriculum is currently under review. Please consult <http://www.rhsmith.umd.edu/undergrad> for the most up-to-date curriculum.

Course requirements for the junior-senior curriculum concentration in International Business are:

	Credits
BMGT392 Introduction to International Business	3
BMGT454 International Marketing	3
BMGT477 International Supply Chain Management	3
BMGT446 International Finance	3
BMGT463 Cross-cultural Challenges in Business	3
BMGT466 Global Business Strategy	3
Total BMGT	18
ECON340 International Economics	3
<i>One of the following:</i>	3
ECON305, 306, 315, 316, 330, 380 or agreed upon foreign language credits which includes CHIN412, FREN406, GERM412, ITAL406, JAPAN404, RUSS407, SPAN415	
Total ECON/LANGUAGE	6

In addition to the major requirements listed above, please see the Roberts H. Smith School of Business under The Colleges and Schools or www.rhsmith.umd.edu for a listing of additional Smith School degree requirements that apply to all Smith School majors.

Advising

General advising for students admitted to the Smith School of Business is available Monday through Friday in the Office of Undergraduate Programs, 1570 Van Munching Hall, 301-405-2286, undergradinfo@rhsmith.umd.edu. It is recommended that students visit this office each semester to ensure that they are informed about current requirements and procedures. Transfer students entering the university can be advised during spring, summer, and fall transfer orientation programs. Contact the Orientation Office for further information, 301-314-8217, or visit <http://www.orientation.umd.edu/>.

Management (M&O)

The Robert H. Smith School of Business

1570 Van Munching Hall, 301-405-2286

www.rhsmith.umd.edu/undergradundergradinfo@rhsmith.umd.edu

Chair: K. Bartol, P. Dastidar (Assoc Dept Chair)

Professors: K. Bartol, C. Beckman, G. Chen, A. Gupta, H. Liao, D. Shapiro, M. Taylor, R. Tronetti

Associate Professors: S. Braguinsky (Assoc Prof), W. Ding, B. Goldfarb, D. Kirsch, M. Seo, C. Stevens, S. Tangirala, D. Waguespack

Assistant Professors: M. Pitesa, E. Starr (Asst Prof), V. Venkataramani

Lecturers: J. Aberman, H. Aelion (Lecturer), P. Cleveland, N. Coomber, P. Dastidar, M. Geppi, C. Graser, W. Knight, D. Kressler, J. Kudisch, G. Langa, N. Moye,

R. Muller, P. Prochno, J. Russell, J. Sanders, O. Schlake, A. Sherman, P. Silverman, J. Spina, L. Spina, H. Weiser (Lecturer), M. Wellman

Professors Emeriti: J.R. Baum, S. Carroll, M. Gannon, R. Lamone, E. Locke, H. Sims

The Major

The Management and Organization department offers the Management major (includes an Entrepreneurship Track). Students attending the Smith School at Shady Grove can only declare the Entrepreneurship Track of the Management major (<http://www.rhsmith.umd.edu/undergrad/shadygrove/>). The **Management** major develops students' knowledge and expertise to manage complex, established enterprises or guide start-up ventures in their formative years. The management major provides the flexibility of choosing courses across different areas of interest within the department, encompassing strategic management, entrepreneurship, organizational behavior and human resources. Consequently, students can mold a curriculum that spans issues of managing the internal processes of firms and considerations of strategic advantage— for young and growing, and established organizations. The major will serve students with a range of career objectives: (1) those who seek leadership positions focusing on employees in organizations; (2) those interested in consulting in the area of organizational effectiveness or management consulting more generally; (3) those interested in leveraging their "entrepreneurial mindset," whether in a corporate setting, a family business, or at an early stage and (4) those interested in balancing a more technical academic and business backgrounds with greater depth in understanding behavioral and management expertise.

Admission to the Major

See Robert H. Smith School of Business entry in chapter 6 for admission requirements.

Requirements for the Major

Management majors at the College Park campus are offered the Standard and Entrepreneurship major tracks, and students attending the Shady Grove campus are offered the Entrepreneurship track of the Management major. Course requirements for the junior-senior curriculum concentration of the Management major are as follows:

Common Courses of all Management Majors: (12 credits)

BMGT363 Leadership and Teamwork in Organizations 3cr

BMGT360 Strategic Management of Human Capital 3cr

One of the following (International Requirement): (3credits)

BMGT463 Cross-Cultural Challenges in Business

BMGT466 Global Business Strategy, OR

BMGT469 Management and Organization Short-term Study Aboard

One of the following (Ethics Requirement): 3credits

BMGT496 Business Ethics and Society, OR

BMGT411 Ethics and Professionalism in Accounting (for those who are double majoring in Accounting)

In addition to the 12 credits of management major requirements listed above, management majors must complete 6-9 credits in one of the tracks listed below.

STANDARD TRACK (offered only at College Park campus)*Two of the following courses (6 cr):*

BMGT461 Entrepreneurship 3cr

BMGT463 Cross-Cultural Challenges in Business (if not selected from above) 3cr

BMGT464 Organizational Change 3cr

BMGT466 Global Business Strategy (if not selected from above) 3cr

BMGT468 Special Topics in Management 3cr

BMGT469 Management and Organization Short-term Study Aboard (maximum of 3 credits, the same abroad experience cannot fulfill both the International Requirement and a Standard Track requirement, they must be unique experiences) 3cr

ENTREPRENEURSHIP TRACK - (offered at the Smith School at Shady Grove and College Park campuses)*All of the following courses (9 cr):*

BMGT 361 - Entrepreneurship: Starting and Managing the Entrepreneurial Venture (or BMGT461 Entrepreneurship) 3cr

BMGT 365 - Entrepreneurial Finance & Private Equity 3cr

BMGT 465 - Business Plan For The New Venture 3cr

Total Major Requirements 18/21 cr**Advising**

General advising for students admitted to the Smith School of Business is available Monday through Friday in the Office of Undergraduate Programs, 1570 Van Munching Hall, 301-405-2286, undergradinfo@deans.umd.edu. It is recommended that students visit this office each semester to ensure that they are informed about current requirements and procedures. Transfer students entering the university can be advised during spring, summer, and fall transfer orientation programs. Contact the Orientation Office for further information, 301-314-8217.

MARKETING (BMGT)**The Robert H. Smith School of Business**

1570 Van Munching Hall, 301-405-2286

www.rhsmith.umd.edu/undergradundergradinfo@rhsmith.umd.edu

Chair: R. Ferraro (Associate Chair), P. Kannan

Professors: P. Kannan, A. Kirmani, W. Moe, R. Ratner, R. Rust, J. Srivastava, M. Wedel

Associate Professors: R. Ferraro, D. Godes, Y. Joshi, M. Trusov, J. Wagner, J. Zhang

Assistant Professors: T. Chen, L. Ma, W. Rand, Y. Wang (Asst Prof), B. Zhou (Asst Prof)

Lecturers: M. Bonavia (Lecturer), H. Boyd, K. Boyle (Lecturer), J. Brown (Lecturer), M. Fardanesh (Lecturer), R. Fiddler, J. Frels (Clin Prof), M. Harms, R.

Lefkoff, J. Naithani (Lecturer), R. Newman (Lecturer), D. Whitney

Professors Emeriti: T. Greer (Professor Emeritus), R. Krapfel (Assoc Prof Emeritus), W. Nickels (Assoc Prof Emeritus)

The Major

The goal of marketing is to satisfy all the stakeholders of the firm - employees, dealers, stockholders, and customers - by seeing that quality goods and services are developed and provided at fair prices and in a way that benefits the community and society. World-class competition has forced businesses to develop marketing programs that are as good as the best. This means getting closer to the customer, joining other organizations to create value for the consumer, and designing integrated distribution and communication programs that provide a seamless flow from producers to consumers. Pricing, communication/promotion, product/service, and distribution activities inherent in the development of marketing programs are applicable to non-profit organizations, business-to-business organizations, and firms that sell to ultimate consumers.

Many types of careers are available to the marketing major. These include, but are not limited to: sales, advertising, retailing, product/service management,

and marketing research. Because of the many different employment opportunities in marketing, many marketing electives are offered along with three core courses required of all marketing majors - consumer analysis, marketing research, and marketing strategy.

Admission to the Major

See Robert H. Smith School of Business entry in chapter 6 for admission requirements.

Requirements for the Major

Course requirements for the junior-senior curriculum concentration in Marketing are as follows:

		Credits
BMGT451	Consumer Analysis	3
BMGT452	Marketing Research Methods	3
BMGT457	Marketing Policies and Strategies	3
	<i>Three of the following courses:</i>	9
BMGT352	Customer-Centric Innovation	
BMGT353	Retail Management	
BMGT357	Retailing and Marketing Internship (<i>3 credits only</i>)	
BMGT372	Introduction to Logistics and Supply Chain Management	
BMGT450	Integrated Marketing Communications	
BMGT454	Global Marketing	
BMGT455	Sales Management	
BMGT458	Special Topics in Marketing (<i>maximum of 6 credits if content differs</i>)	
BMGT484	Electronic Marketing	
	Total BMGT	18
	Upper Level Economic Requirements <i>One of the following:</i>	3
ECON305	Intermediate Macroeconomic Theory and Policy	
ECON306	Intermediate Microeconomic Theory	
ECON330	Money and Banking	
ECON340	International Economics	
	Total ECON	3

Note: Students who have completed ECON325 and ECON326 can substitute these courses for ECON305 and ECON306 respectively. In addition to the major requirements listed above, please consult "Colleges and Schools" on this site or www.rhsmith.umd.edu for a listing of additional Smith School degree requirements that apply to all Smith School majors.

Advising

General advising for students admitted to the Smith School of Business is available Monday through Friday in the Office of Undergraduate Programs, 1570 Van Munching Hall, 301-405-2286, undergradinfo@rhsmith.umd.edu. It is recommended that students visit this office each semester to ensure that they are informed about current requirements and procedures. Transfer students entering the university can be advised during spring, summer, and fall transfer orientation programs. Contact the Orientation Office for further information, 301-314-8217.

Materials Science and Engineering (ENMA, ENNU)

A. James Clark School of Engineering

2135 Chemical and Nuclear Engineering Building, 301-405-5240

www.mse.umd.edu

mseundergrad@umd.edu

Chair: R. Phaneuf

Professors: M. Al-Sheikhly, S. Ankem, R. Briber, A. Christou, G. Oehrlein, A. Roytburd, G. Rubloff, L. Salamanca-Riba, I. Takeuchi, E. Wachsman, M. Wuttig

Associate Professors: J. Cumings, I. Lloyd, L. Martinez-Miranda, O. Rabin

Assistant Professors: L. Hu, M. Leite (Asst Prof), Y. Mo (Asst Prof)

Affiliate Professors: B. Eichhorn, A. Flatau, R. Ghodssi, P. Kofinas, B. Shapiro, L. Sita, E. Smela, M. Zachariah

Affiliate Associate Professors: J. Aranda-Espinoza, S. Lee, M. Ouyang, E. Rodriguez, C. Wang

Affiliate Assistant Professors: Z. Nie

Adjunct Professors: A. Barkatt, R. Cook, T. Foecke, B. Hammouda, M. Kukla, R. Livingston, J. Rush

Adjunct Associate Professors: J. Slutsker, A. Talin

Adjunct Assistant Professors: J. Cui, B. Pate

Professors Emeriti: R. Arsenault (Prof Emeritus), J. Silverman

The Major

The development, production and use of novel materials has become a major issue in all fields of engineering. Materials which are strong and light at the same time are needed for space structures; faster electro-optical switching materials will result in improved mass communications; and stronger high temperature plastics would improve the efficiency of transportation systems. Students will have the opportunity to work with faculty and industry on complex problems through projects, internships, and research and co-op experiences. A wide variety of careers are open to graduates of this program ranging from production and quality control in the traditional materials industries to the molecular construction of electronic materials in ultra-clean environments, and to the applications of materials in electronic packages. The application of materials to solve environmental, biomedical, energy, and reliability problems are also career options.

Students majoring in Materials Science and Engineering will receive a Bachelor of Science upon successful completion of the program. Courses offered by this department may be found under the acronym ENMA.

The Bachelor of Science in Materials Science and Engineering is accredited by the Engineering Accreditation Commission of ABET, www.abet.org, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: (410) 347-7700.

Program Objectives

The mission of the Materials Science and Engineering Department at the University of Maryland is to provide a quality engineering education, research at the forefront of the field, and leadership to the Materials and Engineering communities. Our educational programs will have the following objectives:

- Produce high quality graduates who will be successful in their chosen careers in industry, government or academia, in the State of Maryland, the nation and the world.
- Produce graduates who demonstrate the ability define and solve engineering and science problems in the field of Materials Science and Engineering throughout their careers.
- Produce graduates who demonstrate the ability to relate basic physics, math and engineering principles to the field of Materials Science and Engineering so they can function professionally as materials engineers and scientists.
- Produce graduates who design and engineer materials and materials systems for future generations of products and demonstrate a continuous

upgrading their knowledge to address and impact the rapid pace of technological advances.

The Department will support our students with an educational program that has sufficient breadth in both fundamental and specialized engineering topics to insure our graduates meet the current and future needs of society. In the area of research, the Department conducts a range of scientific research programs and establishes partnerships with government and industry, both in Maryland and elsewhere, to accomplish this goal.

Program Learning Outcomes

The overall educational outcomes of the Materials Science and Engineering Program are to provide undergraduate engineering students:

- Ability to apply knowledge of math, engineering and science
- Ability to design and conduct experiments, analyze and interpret data
- Ability to design a system, component or process to meet desired needs
- Ability to function on multi-disciplinary teams
- Ability to identify, formulate and solve engineering problems
- Understanding of professional and ethical responsibility
- Ability to communicate effectively
- Broad education to understand the impact of engineering solutions in a global and societal context
- Recognition of need and ability to engage in life-long learning
- Knowledge of contemporary issues
- Ability to use techniques, skills, and modern engineering tools necessary for practice

Academic Programs and Departmental Facilities

The Department's research facilities are available to undergraduates interested in pursuing research opportunities. Interested undergraduates are encouraged to work with a faculty member and his or her research team. Specific information on the facilities is available on the website: www.mse.umd.edu/research/laboratories.html

A partial list of facilities available to the students in the Department include:

- The modern Engineering Materials Instructional Lab www.memil.umd.edu/
- The Keck Laboratory for Combinatorial Nanosynthesis and Multiscale Characterization www.nanocenter.umd.edu/labs/Keck/index.php
- Nanoscale Imaging, Spectroscopy, and Properties Laboratory (NispLab) www.nisplab.umd.edu/
- Laboratory for Advanced Materials Processing (LAMP) www.mse.umd.edu/LAMP/
- Laboratory for Plasma Processing of Materials
- Functional Macromolecular Laboratory fml.umd.edu/
- The FabLab Micro and Nano Fabrication Laboratory run by the University of Maryland NanoCenter www.nanocenter.umd.edu/labs/FabLab/

Admission to the Major

All Materials Science and Engineering students must meet admission, progress, and retention standards of the A. James Clark School of Engineering and the University of Maryland. See www.eng.umd.edu.

Requirements for the Major

Requirements for the Materials Science and Engineering major include thorough preparation in mathematics, chemistry, physics, and engineering science as well as the required university general education requirements. All students will be required to select an area of specialization, an upper-class science elective, and two technical electives. A minimum of 122 credits is required for a bachelor's degree. A sample program follows:

FIRST YEAR, Semester 1	Credits	FIRST YEAR, Semester 2	Credits
CHEM135, Chemistry for Engineers	3	ENES102, Mechanics I	3
ENES100, Engineering Design	3	MATH141, Calculus II	4
MATH140, Calculus I	4	PHYS161, General Physics I	3
ENGL101, Academic Writing	3	GenED	3
CHEM136, Chemistry Lab	1	GenED	3
ENMA180: Intro to MSE	1		
TOTAL CREDITS	15	TOTAL CREDITS	16
SECOND YEAR, Semester 1		SECOND YEAR, Semester 2	
PHYS260/261, General Physics II	4	PHYS270/271, General Physics III	4
MATH241, Calculus III	4	MATH246, Differential Equations	3
ENMA300, Intro to Materials Engineering	3	CHEM231/232 or 4811, Organic Chemistry I or Physical Chemistry I	4 or 3
Oral Communication	3	ENMA301, Materials for Emerging Technology	3
MATH206, Introduction to Matlab	1	GenED	3
TOTAL CREDITS	15	TOTAL CREDITS	16 or 17
THIRD YEAR+, Semester 1		THIRD YEAR, Semester 2	

ENMA312, Experimental Methods in Material Science OR Upper Level Science Elective	3	ENMA312, Experimental Methods in Material Science OR Upper Level Science Elective	3
ENMA362, Mechanical Properties	3	ENMA465, Microprocessing of Materials	3
ENMA460, Physics of Materials	3	ENMA461, Thermodynamics of Materials	3
Scholarship in Practice*	3	Specialization Elective	3
Specialization Elective	3	ENMA470, Materials Selection for Engineering Design	3
TOTAL CREDITS	15	TOTAL CREDITS	15
FOURTH YEAR, Semester 1		FOURTH YEAR, Semester 2	
ENMA441, Characterization of Materials	3	Technical Elective (\geq 300 level)	3
ENMA471, Kinetics, Diffusion, Phase Transformations	3	Specialization Elective	3
Specialization Elective	3	Specialization Elective	3
ENGL 393, Technical Writing	3	GenED*	3
Technical Elective (\geq 300 level)	3	ENMA490, Materials Design	3
TOTAL CREDITS	15	TOTAL CREDITS	15
TOTAL 4 year credits: 122 or 123			

*All students must complete two Distributive Studies courses that are approved for I-series courses. The Understanding Plural Societies (UP) and Cultural Competence (CC) courses may also fulfill Distributive Studies categories.

1CHEM 231/232 is required for students focusing on polymers.

Other Requirements for the Major

Students majoring in Materials Science and Engineering must follow the academic policies developed by the A. James Clark School of Engineering. Students must achieve a "C-" or better on all coursework in their major (including required non-engineering courses such as chemistry and physics). Students must achieve a minimum cumulative GPA of 2.0 and completion of all degree requirements to graduate. Students are encouraged to visit the Department webpage for a curriculum guideline. A multi-year academic plan will be developed in conjunction with their advisor. All Materials Science and Engineering students must be mentored by three different faculty members, preferably during their freshman and sophomore years (once per semester) to assist them in choosing their specialization area and to plan for post graduation.

Requirements for the Minor

The Department coordinates an interdisciplinary minor in Nanoscale Science and Technology through The Maryland NanoCenter.

Explosive growth in the field of nanometer scale science and technology (NS&T) has led in the past few years to many technological advances in devices and materials structured at the nanometer scale. The Interdisciplinary Minor Program of Study in Nanoscience and Technology at the University of Maryland is intended to prepare participating University of Maryland students for a career in this rapidly developing field. This program draws upon the considerable expertise in nanoscience at Maryland, in departments distributed between two schools: Engineering, and Computer, Mathematics and Natural Sciences. Students take courses in Fabrication/Synthesis and Characterization, which emphasize the experimental side of NS&T, as well as Fundamental Science and Specialization Electives, which teach the underlying principles and directions, and include underlying theory and the motivations for NS&T. The minor is open to any student majoring in Engineering, Physics or Chemistry.

Completion of the program instills in students the broad perspective needed for nano, including understanding and experience in fabrication/synthesis of nanomaterials and structures, their characterization/measurement, the fundamental science underlying them, and their applications.

For more information see <https://www.nanocenter.umd.edu/education/nano-minor/> or contact Director, Nano Minor Professor, Ray.Phanuef@umd.edu (<https://www.nanocenter.umd.edu/faculty/?u=29>), MSE, or Education Coordinator, Nano Minor, Dr. Kathleen Hart, MSE.

Advising

Students choosing Materials Science and Engineering as their major should contact Dr. Kathleen Hart, Associate Director of Student Services, Room 1111, Chemical and Nuclear Engineering Building, at 301-405-5989 or hart@umd.edu. Dr. Hart can direct students to their advisor: Professors Lloyd, Cumings, Martinez-Miranda, Rabin, Salamanca-Riba, Takeuchi, Mo or Leite. Any questions about the program should be directed to Dr. Isabel Lloyd, Undergraduate Studies Director.

Undergraduate Research Experiences

The Department strongly supports undergraduate students who wish to pursue research opportunities. The student should discuss their interest with their advisor or with Dr. Kathleen Hart (Associate Director, Student Services) or Professor Isabel Lloyd (Undergraduate Program Director). See www.mse.umd.edu/undergrad/index.html.

Internships

The Department strongly encourages students to pursue internships as part of their undergraduate experience. They should discuss an internship with their advisor as they develop their academic plan. The Department will forward information about internships to our undergraduate students. Students may also receive information on internships from the A. James Clark Co-op and Career Services Center. See www.coop.eng.umd.edu.

Co-op Programs

The Materials Science and Engineering program works with the A. James Clark School of Engineering Cooperative Engineering education Program. For more information, students should speak with their advisor regarding their interest in a co-op experience and consult the College web page at www.coop.eng.umd.edu/.

Student Societies and Professional Organizations

Undergraduate Societies The Materials Engineering Society, or MatES, is a student society primarily for Materials Science and Engineering majors at the University of Maryland College Park. MatES is the University of Maryland's Material Advantage Student Chapter. It includes recognition by several professional societies including ASM International, The Minerals, Metals, and Materials Society (TMS), and the American Ceramic Society (ACerS). More information is available on the on the student society web site at www.mse.umd.edu/mates/.

Materials Research Society (MRS)

The Materials Research Society (MRS), a professional research society for the field has a student chapter in the Department. The chapter organizes student research presentations, invites prospective employers for discussions and collectively provides a forum for student-faculty interactions. More information is available by contacting Professor Salamanca-Riba at riba@umd.edu.

Alpha Sigma Mu

Alpha Sigma Mu is the International Professional Honor Society for Materials Science and Engineering. Students with outstanding scholarship are nominated for membership and are eligible to be nominated for scholarships. If you have any questions, contact Professor Robert Briber at rbriber@umd.edu.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu. The Department holds an open house in both the fall and spring semesters. Participants in these open houses may apply for a \$2000 Top Terp scholarship. Other scholarships are available through the A. James Clark School of Engineering. There are also research internships available for students to work with faculty in the Department.

Awards and Recognition

Each year, the Department selects outstanding students for the following awards:

Chairman's Outstanding Senior Award

Outstanding Materials Student Service Award

Materials Science and Engineering Student Research Award

The professional materials oriented societies sponsor awards to recognize outstanding scholarship and undergraduate research.

ASM International www.asminternational.org/

The Minerals, Metals, and Materials Society (TMS) www.tms.org/TMSHome.html

American Ceramic Society (ACerS) www.ceramics.org/

Materials Research Society (MRS) www.mrs.org

All students enrolled in the Materials Science and Engineering program are encouraged to work with their advisor who in their junior and senior years will guide them towards nomination for these awards.

MATHEMATICS (MATH)

Fitzpatrick (Assoc Chair, Faculty Affairs), G. Forni, M. Freidlin (Dist Univ Prof), W. Goldman (Dist Scholar Teacher), M. Grillakis, D. Gulick (Assoc Chair, Course Staffing), T. Haines, S. Halperin, D. Hamilton, X. He, P. Jabin (Interim Director, CSCAMM), M. Jakobson, A. Kagan, V. Kaloshin (Brin Chair), B. Kedem, L. Koralov, M. Laskowski, C. Levermore, D. Levy (Dist Scholar Teacher), M. Machedon (Assoc Chair, Graduate Studies), D. Margetis, A. Mellet, J. Millson, R. Nochetto, S. Novikov (Dist Univ Prof), K. Okoudjou (Assoc Chair, Undergraduate Studies), J. Ren, J. Rosenberg (Davis Prof), J. Schafer (Assoc Co-Chair, Course Staffing), E. Slud, E. Tadmor (Dist Univ Prof), H. Tamvakis, K. Trivisa (Director of AMSC Program), L. Washington (Dist Scholar Teacher), R. Wentworth, S. Wolpert (Dist Scholar Teacher)

Associate Professors: K. Melnick, N. Ramachandran, Y. Rubinstein, P. Smith (Statistics Director), T. VonPetersdorff, H. Winkelkemper

Assistant Professors: J. Bedrossian (Asst Prof), M. Cameron, A. Gholampour, T. Saegusa (Asst Prof), T. Sun (Asst Prof), C. Zickert

Instructors: B. Bezejouh (Lecturer), E. Hamilton (Lecturer), S. Kcenich (Lecturer), S. Orsetti, R. Rosca (Lecturer), B. Sanders (Lecturer, General Assistant), N. Tchetcherina (Lecturer), C. Terpos, A. Wang (Lecturer)

Lecturers: S. Chadwick (Lecturer), S. Chimiak (Lecturer), C. Cremins (Senior Lecturer), J. Daberkow (Senior Lecturer), R. Ebrahimian (Lecturer), D. Franklin (Senior Lecturer), K. McLaren (Senior Lecturer), T. Pilachowski (Senior Lecturer), W. Schildknecht (Acad Prog Coord), J. Stone (Senior Lecturer), K. Truman (Acad Advisor), W. Wong (Lecturer), J. Wyss-Gallifent (Senior Lecturer)

Affiliate Professors: D. O'Leary, G. Stewart (Dist Univ Prof)

Adjunct Professors: M. Bhatia, J. Xu

Professors Emeriti: W. Adams, J. Alexander, S. Antman (Dist Univ Prof Emeritus), J. Auslander, I. Babuska (Dist Univ Prof Emeritus), C. Berenstein, K. Berg (Assoc Prof Emeritus), M. Brin, J. Cooper, E. Correl, J. Dancis (Assoc Prof Emeritus), G. Ehrlich, R. Ellis, J. Fey, H. Glaz, J. Goldhaber, R. Good, P. Green, M. Heins, G. Helzer (Assoc Prof Emeritus), R. Herb, J. Horvath, B. Hunt (Prof Emeritus), R. Johnson, R. Kellogg, H. King, W. Kirwan (Former Chancellor), A. Kleppner, D. Kueker, D. Lay (Prof Emeritus), G. Lehner, R. Lipsman, N. Markley, U. Neri, J. Owings, J. Sather (Assoc Prof Emeritus), D. Schneider (Assoc Prof Emeritus), C. Warner, P. Wolfe, G. Yang, J. Yorke (Dist Univ Prof Emeritus)

Visiting Faculty: M. Macasieb (Visit Asst Prof)

The Major

The program in Mathematics leads to a degree of Bachelor of Science in Mathematics and offers students training in preparation for graduate work, teaching, and positions in government or industry. Mathematical training is integrated with computer use in several courses. Because a strong mathematical background is important in many fields, over half of UMCP Mathematics majors are double majors. Additional information on these topics and mathematics is available from the departmental website.

Program Objectives

The Department of Mathematics educates its majors in a broad range of modern mathematics while instilling in them a strong ability to solve problems, apply mathematics to other areas, and create rigorous mathematical arguments. The program prepares the majors to further their mathematical education in graduate school, or to teach at the secondary school level, or to work in government or business.

Program Learning Outcomes

1. Students will acquire problem-solving skills in a broad range of significant mathematics.
2. Students will gain an understanding of what constitutes mathematical thinking, including the ability to produce and judge the validity of rigorous mathematical arguments.
3. Students will be able to communicate mathematical ideas and arguments.
4. Students will be prepared to use mathematics in their future endeavors, not only in the discipline of mathematics, but also in other disciplines.

Academic Programs and Departmental Facilities

Combined B.S./M.A. Program in Mathematics

The Department of Mathematics offers a combined B.S./M.A. degree program for students with exceptional ability and interest in mathematics. Students enrolled in the Combined Degree Program may count up to 9 credits of coursework taken for their undergraduate degree toward the M.A. degree as well. For further information, please see the Mathematics Department webpage: <http://www-math.umd.edu/undergraduate/math-majors.html>

Placement in Courses

The Department of Mathematics has a large offering to accommodate a great variety of background, interests, and abilities. The department permits students to take any course for which they have the appropriate background, regardless of formal course work. For example, students with a high school calculus course may be permitted to begin in the middle of the calculus sequence even if they do not have advanced standing. Students may obtain undergraduate credit for mathematics courses in any of the following ways: passing the appropriate CEEB Advanced Placement Examination, passing standardized CLEP examinations, and through the department's Credit-by-Examination. Students are urged to consult with advisors from the Department of Mathematics to assist with proper placements.

Statistics and Probability and Applied Mathematics

Courses in statistics and probability, and applied mathematics are offered by the Department of Mathematics. These courses are open to non-majors as well as majors, and carry credit in mathematics. Students wishing to concentrate in the above may do so by choosing an appropriate program under the Department of Mathematics.

Requirements for the Major

There are three tracks for the major: the traditional track, the secondary education track, and the statistics track. The secondary education track is for students seeking to become certified to teach mathematics at the secondary level. Each mathematics major must complete each required course with a grade of C- or better.

TRADITIONAL TRACK

		Credits
	Introductory Sequence*	
MATH140	Calculus I	4
MATH141	Calculus II	4
MATH240	Introduction to Linear Algebra	4
MATH241	Calculus III	4
MATH310	Introduction to Mathematical Proof	3
	One from:	
MATH246	Differential Equations for Scientists and Engineers	3
MATH341	Multivariable Calculus, Linear Algebra, Differential Equations	4
MATH414	Differential Equations	3
MATH436	Differential Geometry of Curves and Surfaces I	3
MATH462	Partial Differential Equations for Scientists and Engineers	3
	Eight MATH/AMSC/STAT courses** at the 400-level or higher; must include:	
MATH410	Advanced Calculus I	3
	One from:	
MATH401	Applications of Linear Algebra	3
MATH403	Introduction to Abstract Algebra	3
MATH405	Linear Algebra	3
	One from:	
AMSC460	Computational Methods	3
AMSC466	Introduction to Numerical Analysis I	3
	<i>Depth Requirement; a one year sequence chosen from the following:</i>	
MATH410/411	Advanced Calculus I and II	6
MATH410/412	Advanced Calculus I / Adv Calc w/Applications	6
MATH403/404	Introduction to Abstract Algebra / Field Theory	6
MATH403/405	Introduction to Abstract Algebra / Linear Algebra	6
STAT410/420	Introduction to Probability Theory / Introduction to Statistics	6

Electives +

400 level courses (may not include: MATH 400, 461, 478, 480-484, STAT 464)

One from:

(A student may be exempt from this requirement if (s)he can demonstrate adequate programming knowledge from prior course or work experience.)

CMSC106	Introduction to C Programming	4
CMSC122	Introduction to Computer Programming via the Web	3
CMSC131	Object-Oriented Programming I	4
CMSC132	Object-Oriented Programming II	4
ENAE202	Aerospace Computing	3
PHYS165	Introduction to Programming in the Physical Sciences	3
	Supporting three-course sequence	

Intended to broaden the student's mathematical experience. (Other sequences might be approved by the Undergraduate Office but they would have to make use of mathematical ideas, comparable to the sequences on this list.) Choose one sequence:

	Sequence One	
PHYS161	General Physics: Mechanics and Particle Dynamics	3
PHYS260/261	General Physics: Vibration, Waves, Heat, Electricity and Magnetism/Lab	4
PHYS270/271	General Physics: Electrodynamics, Light, Relativity and Modern/Lab	4
	Sequence Two	
PHYS171	Introductory Physics: Mechanics and Relativity	3
PHYS272	Introductory Physics: Fields	3
PHYS273	Introductory Physics: Waves	3
	Sequence Three	
ENES102	Statics	3
PHYS161	General Physics: Mechanics and Particle Dynamics	3
ENES220	Mechanics of Materials	3
	Sequence Four	

CMSC132	Object-Oriented Programming II	4
CMSC216	Introduction to Computer Systems	4
CMSC250	Discrete Structures	4
Sequence Five		
CHEM146/147	Principles of General Chemistry/Lab	4
CHEM237	Principles of Organic Chemistry I	4
CHEM247	Principles of Organic Chemistry II	4
Sequence Six		
CHEM131/132	Chemistry I - Fundamentals of General Chemistry/Lab	4
CHEM231/232	Organic Chemistry I/Lab	4
CHEM241/242	Organic Chemistry II/Lab	4
Sequence Seven		
ECON200	Principles of Micro-Economics	4
ECON201	Principles of Macro-Economics	4
ECON305	Intermediate Macroeconomic Theory and Policy, OR	3
ECON306	Intermediate Microeconomic Theory	3
Sequence Eight		
BMGT220	Principles of Accounting I	3
BMGT221	Principles of Accounting II	3
BMGT340	Business Finance	3

* Or honors sequence: MATH 340-341. Completion of MATH 340 satisfies the requirement for MATH 241; completion of MATH 340-341 satisfies the requirement for MATH 240-241-246.

** At least four courses must be taken at College Park.

+ Students with a strong interest in applied mathematics may, with the approval of the Undergraduate Office, substitute two courses (with strong mathematics content) from outside the Mathematics Department for one upper-level elective course.

CHEM146/147	Principles of General Chemistry/Lab	4
	<i>Sequence Ten</i>	
ASTR120	Introductory Astrophysics – Solar System	3
ASTR121	Introductory Astrophysics – Stars and Beyond	4
PHYS161	General Physics: Mechanics and Particle Dynamics, OR	3
PHYS171	Introductory Physics: Mechanics and Relativity	3
	<i>Sequence Eleven</i>	
GEOL100/101	Physical Geology	4
	Two From:	
GEOL322	Mineralogy	4
GEOL340	Geomorphology	4
GEOL341	Structural Geology	4
GEOL375	Introduction to the Blue Ocean	4
	<i>Sequence Twelve</i>	
AOSC200/201	Weather and Climate	4
	<i>Two additional 400-level AOSC courses</i>	6

* Or honors sequence: MATH340-341. Completion of MATH340 satisfies the requirement for MATH241; completion of MATH340-341 satisfies the requirement for MATH240-241-246.

** At least four courses must be taken at College Park.

+ With the approval of the Undergraduate Office, students may substitute two courses (with strong mathematics content) from outside the Mathematics Department for one upper-level elective course.

Secondary Education Track

		Credits
	Introductory Sequence*	
MATH140	Calculus I	4
MATH141	Calculus II	4
MATH240	Introduction to Linear Algebra	4
MATH241	Calculus III	4
MATH310	Introduction to Mathematical Proof	3
	One from:	
MATH246	Differential Equations for Scientists and Engineers	3
MATH341	Multivariable Calculus, Linear Algebra, Differential Equations	4
MATH401	Applications of Linear Algebra	3
MATH420	Mathematical Modeling	3
MATH452	Introduction to Dynamics and Chaos	3
MATH462	Partial Differential Equations for Scientists and Engineers	3
AMSC460	Computational Methods	3
AMSC466	Introduction to Numerical Analysis I	3
	Seven MATH/AMSC/STAT courses** at the 400-level or higher; must include:	
MATH410	Advanced Calculus I	3
MATH430	Euclidean and Non-Euclidean Geometries	3
	One from:	
MATH402	Algebraic Structures	3
MATH403	Introduction to Abstract Algebra	3
	One from:	
STAT400	Applied Probability and Statistics I	3

STAT410	Introduction to Probability Theory	3
	One from:	
MATH406	Introduction to Number Theory	3
MATH445	Elementary Mathematical Logic	3
MATH446	Axiomatic Set Theory	3
MATH456	Cryptology	3
MATH475	Combinatorics and Graph Theory	3
	<i>Electives</i>	
	400-level MATH/AMSC/STAT course (may not include: MATH400, 461, 478, 480-484, or STAT464)	
	One from:	
	(A student may be exempt from this requirement if (s)he can demonstrate adequate programming knowledge from prior course or work experience.)	
CMSC106	Introduction to C Programming	4
CMSC122	Introduction to Computer Programming via the Web	3
CMSC131	Object-Oriented Programming I	4
CMSC132	Object-Oriented Programming II	4
ENAE202	Aerospace Computing	3
PHYS165	Introduction to Programming in the Physical Sciences	3
	Education Requirements +	
EDCI450	Student Teaching Seminar in Secondary Education: Mathematics	1
EDCI451	Student Teaching in Secondary Schools: Mathematics	1 2
	Supporting Sequence	
	One of the following supporting two course sequences. These are intended to broaden the student's mathematical experience.	
	<i>Sequence One</i>	
CHEM131/132	Chemistry I - Fundamentals of General Chemistry/Lab	4
CHEM231/232	Organic Chemistry I/Lab	4
	<i>Sequence Two</i>	
PHYS161	General Physics: Mechanics and Particle Dynamics	3
PHYS260/261	General Physics: Vibration, Waves, Heat, Electricity and Magnetism/Lab	4
	<i>Sequence Three</i>	
BSCI170&171	Principles of Molecular and Cellular Biology and Lab	4
BSCI160&161	Principles of Ecology and Evolution and Lab	4
	<i>Sequence Four</i>	
ASTR120	Introductory Astrophysics - Solar System	3
ASTR121	Introductory Astrophysics II - Stars and Beyond	4
	<i>Sequence Five</i>	
GEOL100/110	Physical Geology/Lab	4
GEOL322	Mineralogy, or	4
GEOL340	Geomorphology, or	4
GEOL341	Structural Geology, or	4
GEOL375	Introduction to the Blue Ocean	3
	<i>Sequence Six</i>	
AOSC200/201	Weather and Climate/Lab and	4
AOSCxxx	Any 400 level AOSC course	3

*Or honors sequence: MATH 340-341. Completion of MATH 340 satisfies the requirement for MATH 241; completion of MATH 340-341 satisfies the requirement for MATH 240-241-246.

**At least four courses must be taken at College Park.

+ The student-teaching pair EDCI 450-451 is 13 credits and has further prerequisites in the College of Education. In order to take these courses the student must be admitted into the College of Education. A student in the secondary education track of the mathematics major would normally be expected to receive a double major in Mathematics and Mathematics Education.

Statistics Track

		Credits
	Introductory Sequence*	
MATH140	Calculus I	4
MATH141	Calculus II	4
MATH240	Introduction to Linear Algebra	4
MATH241	Calculus III	4
MATH310	Introduction to Mathematical Proof	3
	One from:	
MATH246	Differential Equations for Scientists and Engineers	3
MATH414	Differential Equations	3
	Eight MATH/AMSC/STAT courses**; must include:	
MATH410	Advanced Calculus I	3
STAT410	Introduction to Probability Theory	3
STAT430	Introduction to Statistical Computing and SAS	3
	<i>One from:</i>	
AMSC460	Computational Methods	3
AMSC466	Introduction to Numerical Analysis I	3
	<i>One from:</i>	
MATH401	Applications of Linear Algebra	3
MATH405	Linear Algebra	3
	<i>One from:</i>	
STAT401	Applied Probability and Statistics II	3
STAT420	Introduction to Statistics	3
	<i>Two additional courses from the following list:</i>	
STAT4xx	Any 400-level or higher STAT courses (except STAT 464)	
MATH411	Advanced Calculus II	3
MATH412	Advanced Calculus with Applications	3
MATH414	Differential Equations	3
MATH424	Introduction to the Mathematics of Finance	3

MATH464	Transform Methods for Scientists and Engineers	3
One from:		
<i>(A student may be exempt from this requirement if (s)he can demonstrate adequate programming knowledge from prior course or work experience.)</i>		
CMSC106	Introduction to C Programming	4
CMSC122	Introduction to Computer Programming via the Web	3
CMSC131	Object-Oriented Programming I	4
CMSC132	Object-Oriented Programming II	4
ENAE202	Aerospace Computing	3
PHYS165	Introduction to Programming in the Physical Sciences	3
Supporting three-course sequence		
<i>Intended to broaden the student's mathematical experience. (Other sequences might be approved by the Undergraduate Office but they would have to make use of mathematical ideas comparable to the sequences on this list.) Choose one sequence.</i>		
<i>Sequence One</i>		
PHYS161	General Physics: Mechanics and Particle Dynamics	3
PHYS260/261	General Physics: Vibration, Waves, Heat, Electricity and Magnetism/Lab	4
PHYS270/271	General Physics: Electrodynamics, Light, Relativity and Modern/Lab	4
<i>Sequence Two</i>		
PHYS171	Introductory Physics: Mechanics and Relativity	3
PHYS272	Introductory Physics: Fields	3
PHYS273	Introductory Physics: Waves	3
<i>Sequence Three</i>		
ENES102	Statics	3
PHYS161	General Physics: Mechanics and Particle Dynamics	3
ENES220	Mechanics of Materials	3
<i>Sequence Four</i>		
CMSC132	Object-Oriented Programming II	4
CMSC216	Introduction to Computer Systems	4
CMSC250	Discrete Structures	4
<i>Sequence Five</i>		
CHEM146/147	Principles of General Chemistry/Lab	4
CHEM237	Principles of Organic Chemistry I	4
CHEM247	Principles of Organic Chemistry II	4
<i>Sequence Six</i>		
CHEM131/132	Chemistry I - Fundamentals of General Chemistry/Lab	4
CHEM231/232	Organic Chemistry I/Lab	4
CHEM241/242	Organic Chemistry II/Lab	4
<i>Sequence Seven</i>		
ECON200	Principles of Micro-Economics	4
ECON201	Principles of Macro-Economics	4
ECON305	Intermediate Macroeconomic Theory and Policy, OR	3
ECON306	Intermediate Microeconomic Theory	3
<i>Sequence Eight</i>		
BMGT220	Principles of Accounting I	3
BMGT221	Principles of Accounting II	3
BMGT340	Business Finance	3

*Or honors sequence: MATH340-341. Completion of MATH340 satisfies the requirement for MATH241; completion of MATH340-341 satisfies the requirement for MATH240-241-246.

**At least four courses must be taken at College Park.

Other Requirements for the Major

Areas of Study

Within the Department of Mathematics there are a number of identifiable areas which students can pursue to suit their own goals and interests. They are briefly described below. Note that they do overlap and that students need not confine themselves to one of them.

1. Pure Mathematics: Courses that belong to this area include: MATH402, 403, 404, 405, 406, 410, 411, 430, 432, 436, 437, 445, 452, 456, and STAT410, 420. Students preparing for graduate school in mathematics should include MATH403, 405, 410, 411 and 463 (or 660) in their programs. MATH432 (or 730) is also desirable. Other courses from the above list and graduate courses are also appropriate.

2. Secondary Teaching: In addition to the courses required by the Secondary Education Track, the following courses are particularly suited for students preparing to teach: MATH401, 406, 445, 470, and 475.

Students who are interested in secondary teaching should contact also the College of Education for certification requirements and other information: www.education.umd.edu/studentinfo.

3. Statistics: For a student with a Bachelor's degree seeking work requiring some statistical background, the minimal program is STAT400-401. To work primarily as a statistician, one should combine STAT400-401 with STAT430 and at least one more statistics course, most suitably, STAT440. A deeper sequence is STAT410, 420, 430. This offers a better understanding and wider knowledge of statistics and is a general purpose program (i.e., does not specify one area of application). For economics applications, MATH424, STAT400, 401, 430, 440 should be considered. To prepare for graduate work, STAT410 and 420 give the best background, with STAT430, 440 added at some later stage.

4. Computational Mathematics: There are a number of math courses which emphasize the computational aspects of mathematics including the use of the computer. They are AMSC460, 466, MATH431, 456, 475 and STAT430. Students interested in this area should take the CMSC supporting sequence as soon as possible.

5. Applied Mathematics: The courses that lead most rapidly to applications are the courses listed above in 3 and 4 and MATH401, 416, 420, 452, 462, and 464. A student interested in applied mathematics should obtain, in addition to a solid training in mathematics, a good knowledge of at least one area in which mathematics is currently being applied. Concentration in this area is good preparation for employment in government and industry or for graduate study in applied mathematics.

Requirements for the Minor

The Department of Mathematics offers minors in the following areas:

Actuarial Mathematics
Mathematics

Statistics

A minor offers a structured program of study outside a student's major. See <http://www-math.umd.edu/minors.html>.

Advising

Advising for Math majors is mandatory. Students are required to sign up for an advising appointment online, beginning the week before early registration. Students who have been away more than two years may find that due to curriculum changes, the courses they have taken may no longer be adequate preparation for the courses required to complete the major. Students in this situation must meet with the Department Advisor to make appropriate plans.

Undergraduate Research Experiences

There are a variety of undergraduate research opportunities in mathematics at Maryland. For detailed information, see <http://www-math.umd.edu/undergraduate/opportunities.html?id=102>

Honors Program

The Mathematics Honors Program is designed for students showing exceptional ability and interest in mathematics. Its aim is to give a student the best possible mathematics education. A precise statement of the requirements may be found at <http://www-math.umd.edu/departamental-honors.html>

The department also offers a special department honors sequence MATH340-341 for promising freshmen with a strong mathematical background (including calculus). Participants in Honors College may also enroll in special honors sections of the lower-level mathematics courses (MATH140H, 141H, 240H, 241H, 246H). Students in Math340-341 and the special honors sections need not be Math majors.

The Mathematics departmental honors sequence and the Honors College program are distinct, and enrollment in one does not imply acceptance in the other.

Student Societies and Professional Organizations

There are several student-run groups within the department: the Math Club, Pi Mu Epsilon, and Women in Math.

The Math Club:

<http://mathclub.math.umd.edu/>

Women in Math:

<http://wim.math.umd.edu/>

Awards and Recognition

Aaron Strauss Scholarships: One is awarded each spring to an outstanding non-graduating math major. The recipient receives full remission of (in-state) tuition for the following academic year. Applications may be obtained early in the previous spring semester from the Mathematics Undergraduate Office, 1117 Mathematics Building.

Aziz Mathematics Scholarship: The Aziz scholarship is the department's highest award of mathematical excellence for a non-graduating math major. When eligible, the recipient receives a monetary award to cover in-state tuition in the following academic year.

Dan Shanks Award: This award is for an undergraduate student studying computational number theory and related areas, based on merit.

Dan Sweet Scholarship: A one-semester stipend awarded to a math major on the basis of merit.

Higginbotham Prize: A monetary award is made to an outstanding junior math major in the spring.

John and Sabrina Konter Endowed Scholarship: This is an award for an undergraduate math major with an interest in applications to real world problems in business and industry. Take or plan to take probability and statistics and at least 12 credits hours in one or more: economics, business, physics or computer science.

Milton Abramowitz Award: A monetary award is made to an outstanding junior or senior Math major in the spring.

Outstanding Senior Award: A monetary award is made to the outstanding graduating Math major.

Strauss Teaching Assistantship: This is an opportunity for outstanding Math majors to work as an undergraduate TA. Apply in the spring for the following year.

For further information on awards, see <http://www-math.umd.edu/undergraduate/math-majors.html?id=166>.

Mathematics Education (TLPL)

MECHANICAL ENGINEERING (ENME)

A. James Clark School of Engineering

2181 Glenn Martin Hall, 301-405-2410

www.enme.umd.edu

ENMEundergrad@umd.edu

Chair: B. Balachandran, (Minta Martin Prof and Chair), H. Bruck, (Assoc Chair Academic Affairs, Dir Graduate Studies), D. DeVoe, (Assoc Chair Research and Admin)

Director: K. Kiger (Keystone Prof)

Professors: S. Azam, A. Bar-Cohen (Dist Univ Prof), A. Baz (Minta Martin and Keystone Prof), P. Bernard, A. Christou, A. Dasgupta (Jeong Kim Prof), J. Duncan (Keystone Prof), W. Fournay (Keystone Prof & Assoc Dean), A. Gupta, (Dist Univ Prof), B. Han (Keystone Prof), J. Herrmann, J. Kim (Keystone Prof), P. McCluskey, M. Modarres (Nicole J. Kim Prof), C.D. Mote, Jr. (Glenn L. Martin Inst Prof and Regents Prof), M. Ohadi, M. Pecht (George E. Dieter Prof & Dir CALCE), R. Radermacher (Minta Martin Prof), P. Sandborn (Dir MTECH), E. Smela, J. Srebric, M. diMarzo

Associate Professors: S. Bergbreiter, D. Bigio, N. Chopra, P. Chung, M. Cukier, T. Li (Keystone Prof), G. Pertmer, L. Schmidt, B. Yang, M. Yu, G. Zhang

Assistant Professors: S. Das, M. Fuge, J.-O. Hahn, J. Larsson, A. Riaz, R. Sochol, M. Vaughn-Cooke

Lecturers: S. Arul (Lecturer), D. Burke (Lecturer), Z. Eshete (Lecturer), J. Forsythe (Lecturer), H. Haslach (Senior Lecturer), S. Mitchell (Lecturer), V. Nguyen (Res Assoc), R. Sanders (Senior Lecturer), D. Schug (Lecturer), C. Thamire (Senior Lecturer)

Affiliate Professors: E. Kalnay (Dist Univ Prof, Affiliate Prof), D. Riley (Affiliate Prof, Prof), M. Zachariah (Affiliate Prof)

Affiliate Associate Professors: A. Marshall (Assoc Prof, Affil Assoc Prof), P. Sunderland (Assoc Prof, Affil Assoc Prof)

Affiliate Assistant Professors: M. Gollner (Asst Prof, Aff Asst Prof)

Adjunct Associate Professors: D. Barrett (Adjunct Assoc Prof), D. Findlay (Adjunct Assoc Prof), L. Hamilton (Lecturer, Adjunct Assoc Prof), V. Krivtsov (Adjunct Assoc Prof), G. Schultz

Professors Emeriti: D. Anand, R. Armstrong, B. Berger, F. Buckley, P. Cunniff, J. Dally (Glenn L. Martin Inst Prof), G. Dieter (Glenn L. Martin Inst Prof), D. Holloway, J. Kirk, E. Magrab, C. Marks, A. Mosleh, U. Piomelli (Prof Emeritus), R. Sanford, C. Sayre, J. Sengers (Dist Univ Prof Emeritus), M. Talaat, W. Walston

(Assoc Prof Emeritus), J. Yang

The Major

Mechanical engineering is the broadest of the engineering disciplines. It is concerned with the design, manufacture, and operation of a wide range of components, devices, or systems. The field comfortably encompasses applications ranging from micro-mechanical surgical systems to internal combustion engines for Formula One racecars or giant turbines for renewable energy wind farms. A fitting adage for the discipline would be *turning ideas*

into reality.

Graduates of the program will possess the skills and the knowledge-base critical for success in today's marketplace, with the problem solving expertise and flexibility necessary to adapt as technology and society evolve. Students must be proficient in the traditional fundamentals of mechanical engineering such as solid and fluid mechanics, thermodynamics, transfer processes, materials engineering, electronic instrumentation and measurements, controls, and design. However, they will also explore new/emerging areas through a variety of electives such as smart structures, electronic packaging, information systems, Lean Six Sigma, reliability, and nano-electromechanical systems.

Attributes such as teamwork, ethics, and leadership are emphasized in the curriculum. The program is designed to integrate out-of-classroom experiences, helping students explore career options and apply what they are learning in the real world. Students can work with faculty on research projects, serve as teaching fellows, pursue leadership opportunities through clubs, and participate in national competitions such as the Formula SAE/Baja SAE teams or the Department of Energy Solar Decathlon. Study abroad and cooperative education opportunities are also strongly encouraged.

The Bachelor of Science degree in Mechanical Engineering is accredited by the Engineering Accreditation Commission of ABET, www.abet.org, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: (410) 347-7700.

Courses offered by this department may be found under the following acronym: ENME

Program Objectives

1. Graduates will demonstrate competency in their chosen career path having mastered the fundamental areas of study that comprise a bachelor's degree in mechanical engineering.
2. Students will utilize skills in teamwork, leadership, and communication gained in their program of study, apply critical thinking to problem solving, and act in a professional and ethical manner in the area in which they apply their degree.
3. Graduates will show a commitment to on-going professional development, whether through graduate study, research programs, training courses, or leadership opportunities thereby adapting to an evolving, competitive global work environment.

Program Learning Outcomes

- a. an ability to apply knowledge of mathematics, science, and engineering
- b. an ability to design and conduct experiments, as well as analyze and interpret data
- c. an ability to design a system, component or process to meet desired needs within realistic constraints
- d. an ability to function on multi-disciplinary teams
- e. an ability to identify, formulate, and solve engineering problems
- f. an understanding of professional and ethical responsibility
- g. an ability to communicate effectively
- h. the broad education necessary to understand the impact of engineering solutions
- i. a recognition of the need for, and an ability to engage in, life-long learning
- j. a knowledge of contemporary issues
- k. an ability to use techniques, skills, and modern engineering tools necessary for engineering practice
- l. an ability to work professionally in both thermal and mechanical systems areas

Admission to the Major

Admission requirements are identical to those set by the A. James Clark School of Engineering. See A. James Clark School of Engineering under Colleges and Schools on this site.

Requirements for the Major

		Credits	Credits
Freshman Year		First Sem	Second Sem
MATH140	Calculus I	4	
MATH141	Calculus II		4
CHEM135	General Chemistry for Engineers	3	
PHYS161	General Physics		3
ENGL101	Introduction to Writing	3	
ENES100	Introduction to Engineering Design (**can be taken 1st or 2nd semester)	3**	
ENES102	Mechanics I (**can be taken 1st or 2nd semester)		3**
	General Education Requirements		6
	Total Credits	13	16

		Credits	Credits
Sophomore Year		First Sem	Second Sem
MATH206	Intro to Matlab	1	
MATH241	Calculus III	4	
MATH246	Differential Equations		3

ENME462	Vibration, Controls, & Optimization II		3
ENME472	Integrated Product and Process Development II	3	
ENME400	Machine Design	3	
ELECTIVES	Technical Electives	6	9
	General Education Requirements	3	3
	Total Credits	15	15

A minimum of 120 credits are required for a degree.

Sample Elective Topics

Waste Technology
 Bio-Inspired Robotics
 Computer-Aided Design & Manufacturing
 Packaging of Electronic Systems
 Energy Conversion
 Engineering Management
 Environmental Engineering
 Flexible Macro-electronics
 Automotive Design
 Micro-nano Robotics
 Manufacturing
 Medical Robotics
 Fiber Optics
 Micro-Electro-Mechanical Systems
 Nuclear Reactor Engineering

Advising

Mechanical engineering students are required to meet with a departmental adviser each semester prior to registering for the following term. Mechanical Engineering has a team of faculty and staff academic advisors. Please contact the department's Undergraduate Advising Office, 2182-2188 Glenn Martin Hall, at 301-405-2199, for more information or review resources on-line at meugrad.umd.edu.

Co-op Programs

Participation in the Cooperative Education Program is encouraged. See Clark School of Engineering under Colleges and Schools on this site.

Honors Program

The Honors Program is administered through the Clark School of Engineering. Individual honors and awards are presented based on academic excellence and extracurricular activities.

Student Societies and Professional Organizations

Student chapters of professional societies include the American Society of Mechanical Engineers, the Society of Automotive Engineers, the Mechanical Contractors Association and the American Society of Heating, Refrigeration and Air Conditioning Engineers. The mechanical engineering honor society is Pi Tau Sigma. Information regarding these societies may be obtained at 2186 Glenn Martin Hall.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

A limited amount of scholarship aid is available through the Department of Mechanical Engineering. Information may be obtained in the Undergraduate Advising Office. Information about Clark School of Engineering scholarships and Department of Mechanical Engineering scholarships is also available on-line at <http://www.engrscholarships.umd.edu/scholarships>.

SCHOOL OF MUSIC (MUSC)

College of Arts and Humanities

2110 Clarice Smith Performing Arts Center, 301-405-5549

www.music.umd.edu

Chair: R. Gibson (Director)

Director: L. DeBoy (Assoc. Dir.), O. Haldey (Dir. Graduate Studies), M. Tsong (Dir. Undergraduate Studies), P. Warfield (Assoc. Dir.)

Professors: C. Balthrop, D. Cossa, T. DeLio, L. Dedova, P. Gekker, B. Haggh-Huglo, D. Hanninen, M. Hewitt, M. Hill, L. Mabbs, E. Maclary, G. Miller, C. Page, J.

Ross, D. Salness, R. Sloan, J. Stern, C. Vadala, M. Votta, J. Witzleben, D. Ziegler

Associate Professors: R. DiLutis, J. Fry, B. Gowen, R. King, J. Montgomery (Clinical Assoc. Prof.), K. Murdock, M. Tsong, G. Wilson, M. Wilson

Assistant Professors: K. Elpus, C. Kier, E. Kutz, I. Muresanu, S. Prichard, F. Rios

Lecturers: D. Alvi, F. Ames, L. Arsenault, T. Baldwin, R. Barber, P. Cigan, W. Evans, D. Fedderly, D. Foster, D. Froom, S. Fuller, J. Gilliam (Assoc Art-in-Res), A.

Goldman, D. Gram, J. Greer, M. Guilford (Assoc Art-in-Res), B. Hearn, E. Heckscher, S. Heineman (Assoc Art-In-Res), S. Hendrickson, L. Hinkle, D. Jones, P.

Kellner, G. Kunkel, R. Layton, J. Lee, A. Manzo, R. McReynolds, C. Mulcahy, P. Munds, K. Okamoto, N. Olcott, R. Oppelt, E. Osterloh, J. Ozment, B. Patterson,

L. Pilzer, T. Powell, M. Randall, C. Redd, L. Schnitker, E. Shin, K. Slowik, C. Stewart, I. Suadin, D. Teie, S. Thursby, N. Tochka, K. Trahan, M. Volchok, S. Wang,

D. Zimmerman

Professors Emeriti: H. Cohen, E. Elsing, G. Fischbach, E. Garvey, E. Head, N. Heim, E. Helm, R. Johnson, F. Loup, L. Major, L. Moss, J. Pacholczyk, R. Provine, S.

Shelley, E. Urban, J. Wakefield

Program Objectives

The objectives of the School of Music are (1) to provide professional musical training based on a foundation in the liberal arts; (2) to help the general student develop sound critical judgment and discriminating taste in the performance and literature of music; (3) to prepare the student for graduate work in the field; and (4) to prepare the student to teach music in the public schools.

Program Learning Outcomes

Students will understand, analyze, and demonstrate knowledge of fundamental concepts of aural skills.

- Students will be able to perform a variety of repertoire appropriate for their selected instrument as a soloist and member of an ensemble.
- Composition track students will compose original works in a variety of media.
- Jazz Studies track students will demonstrate in-depth knowledge and skills in improvisation in a variety of styles.
- Music teacher candidates will have in-depth knowledge of music as described by professional, state, and institutional standards. Teacher candidates can effectively plan classroom-based instruction and activities for their roles as teachers. Teacher candidates' knowledge, skills, and dispositions are applied effectively in practice.

Academic Programs and Departmental Facilities

With the above objectives in mind, the School of Music offers the following three bachelor degrees: (a) the Bachelor of Music, with majors in theory, composition, and music performance, (b) the Bachelor of Arts, with a major in music and (c) Bachelor of Music Education in conjunction with and certification from the College of Education.

The UM School of Music is located in the Clarice Smith Performing Arts Center, a 318,000 square foot campus facility dedicated to Music, Theatre, Dance and Performance Studies. Completed in 2001, the Center includes six state-of-the-art performance venues, the Michelle Smith Performing Arts Library, and specialized classroom and rehearsal spaces.

Admission to the Major

Admission to all undergraduate music degree programs (B.M., B.A., and B.M.E.) is based on a required performance audition and/or interview before a faculty committee. Audition dates and requirements are available at www.music.umd.edu.

Placement in Courses

Required music courses and private lessons are open to music majors who have completed the specified prerequisites or their equivalents. Lessons may be available for qualified non-music majors, if resources (teacher, time, funding, facilities) are available. All large performing ensembles in the School of Music are open by audition to any student at the university.

Requirements for the Major

The Bachelor of Music Degree (BM)

Designed for qualified students with extensive pre-college training and potential for successful careers in professional music. B.M. degree programs are offered in the following: Piano, Voice, Violin, Viola, Cello, Bass, Flute, Oboe, Clarinet, Bassoon, Saxophone, Horn, Trumpet, Trombone, Tuba, Euphonium, Percussion, Harp, Composition, Jazz Studies and Theory.

The College of Arts and Humanities requirements of 45 upper-level credits and the Global Engagement Requirement are waived for students majoring in B.M. Degree programs.

Bachelor of Music (BM) Requirements:

In addition to General Education courses, BM students generally complete the following:

- 8 semesters of private lessons (Senior Recital in final semester)
- 8 semesters of large ensemble participation
- 8 semesters of small ensemble participation
- 4 semesters of music theory
- 3 semesters of music history
- 2 semesters of class piano (except piano majors)
- 1 semester of form and analysis
- 1 semester of conducting
- 1 semester of music literature
- 1 semester of music pedagogy
- 1 semester of world music
- 3 credits of music electives

The BM programs vary according to instrument or emphasis. Please visit www.music.umd.edu for specific requirements.

No course grade below the grade of "C-" may count toward the major. An overall GPA of 2.0 in the major is required for graduation.

The Bachelor of Arts Degree in Music (BA)

Designed for qualified students whose interests include a broader liberal arts experience. The College of Arts and Humanities requirement of 45 upper level credits and the Global Engagement Requirement apply to all B.A. students. B.A. degree programs are offered in the following: Piano, Voice, Violin, Viola, Cello, Bass, Flute, Oboe, Clarinet, Bassoon, Saxophone, Horn, Trumpet, Trombone, Tuba, Euphonium, Percussion, Harp and Jazz Studies.

Bachelor of Arts in Music (BA) Requirements:

In addition to General Education courses, BA Music students generally complete the following:

- 5 semesters of private lessons (Senior Recital in final semester)
- 5 semesters of ensemble participation
- 4 semesters of music theory
- 3 semesters of music history
- 2 semesters of class piano (except piano majors)
- 1 semester of form and analysis
- 6 credits of music electives

The BA programs vary according to instrument or emphasis. Please visit www.music.umd.edu for specific requirements.

No course grade below the grade of "C-" may count toward the major. An overall GPA of 2.0 in the major is required for graduation.

Bachelor of Music Education (BME) Requirements

Designed for qualified students preparing for careers in PreK-12 teaching of music, the Bachelor of Music Education (BME) offered by the College of Arts and Humanities carries with it a teaching certification from the College of Education. BME degrees are offered with concentrations in either Instrumental Music Education or Choral-General Music Education. The requirements for a BME are similar to the BM program plus approximately 48 credits in music education. Please visit www.music.umd.edu for specific requirements.

In addition to General Education requirements, Music Education students generally complete the following (for a total of 134-140 credits):

- 7 semesters of private lessons (Senior Recital in final semester)
- 7 semesters of large ensemble participation
- 4 semesters of music theory
- 3 semesters of music history
- 2 semesters of class piano (except piano majors)
- 1 semester of conducting
- 1 semester of world music
- 26 credits of MUED (class instruments and field experience)
- 6 credits of EDHD (Human Development)
- 3 credits of EDPS (Education Policy Studies)
- 3 credits of EDCI463 (Curriculum and Instruction)
- 6 credits MUED484 (Elementary Student Teaching)
- 6 credits MUED494 (Secondary Student Teaching)

No course grade below the grade of "C-" may count toward the major. An overall GPA of 2.0 in the major is required for graduation.

Requirements for the Minor

Music Performance Minor

Eighteen credit hours consisting of the following:

- Four semesters of applied lessons (MUSP302, 303, 402, 403)
- Four semesters of ensemble (chosen from MUSC129, 229, 329)
- MUSC130 Survey of Music Literature
- MUSC140 Fundamentals of Music

Admission to the minor in music performance is based on a required performance audition before a faculty committee. Audition dates and requirements are available from the School of Music office.

Students who fulfill Minor requirements will receive a Minor on the official transcript. Please contact the School of Music Office for more information.

No course grade below the grade of "C-" may count toward the minor. An overall GPA of 2.0 in the minor is required for graduation.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/undergraduate/academics/minors.

Advising

Departmental advising is mandatory for all music majors every semester. Please visit www.music.umd.edu to find your appropriate advisor.

Student Societies and Professional Organizations

Sigma Alpha Iota International Music Fraternity
 Kappa Kappa Psi National Honorary Band Fraternity
 Tau Beta Sigma National Honorary Band Sorority
 The National Association for Music Education (MENC)

Scholarships and Financial Assistance

The School of Music offers merit-based scholarships upon a student's acceptance into the School. Scholarships are based on the quality of the application, which includes the audition.

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

The Presser Award is granted each May to a music student with junior standing who demonstrates both performance and scholastic excellence, as determined by the music faculty, and carries with it a significant financial award to help the recipient in his/her senior year.

The Tretter Awards are granted to students of junior standing who demonstrate scholastic and performance excellence in chamber music. It carries a significant financial award.

Nutrition and Food Science (NFSC)

College of Agriculture and Natural Resources

0112 Skinner Building, 301-405-4521

www.nfsc.umd.edu

Chair: Robert T. Jackson (Acting Chair)

Director: P. McShane (Dietetic Internship), M. Mehta-Gupta (Ext Assoc), Margaret Udahogora (Undergraduate Dietetics Program)

Professors: R. Buchanan, T. Castonguay, R. Jackson, D. Lei, J. Meng, N. Sahyoun (Prof), C. Wei (Dean of AGNR), L. Yu

Associate Professors: Q. Wang

Assistant Professors: S. Lee, A. Pradhan, S. Rahaman, H. Song, R. Tikekar

Lecturers: Margaret Udahogora (Dietetics Program Director)

Professors Emeriti: R. Ahrens, P. Moser-Veillon, R. Wiley

Admission to the Major

The major in Nutrition and Food Science is not a Limited Enrollment Program (LEP). Students may either declare a major in the department at the time of application or transfer into the majors at any time thereafter. If interested in transferring into a major in NFSC, please contact the departmental office and

ask to speak with an advisor.

Requirements for the Major

The department offers three areas of emphasis: dietetics, food science, and nutritional science. Each program provides for competencies in several areas of work; however, each option is designed specifically for certain professional careers.

The Dietetics major develops an understanding and competency in food, nutrition, dietetics management, clinical nutritional care, nutrition education, and community nutrition. The dietetics program is approved by the Commission on Accreditation for Dietetics Education, and qualifies students, after completion of a post-baccalaureate internship, to sit for the national exam to become a registered dietitian.

The Food Science major is concerned with the application of the fundamental principles of the physical, biological, and behavioral sciences and engineering to understand the complex and heterogeneous materials recognized as food. The food science program is approved by the Institute of Food Technologists and prepares students for careers in food industry and food safety.

The Nutritional Science major emphasizes the physical and biological sciences in relation to nutrition and the development of laboratory skills in these areas. Students in this major frequently elect to go on to graduate or medical school.

Grades. All students are required to earn a grade of "C-" or better in courses applied toward satisfaction of the major. This includes all required courses with a prefix of NFSC, as well as certain required courses in supporting fields. A list of these courses for each program may be obtained from the department office.

COURSE REQUIREMENTS

Base curriculum for all options (54 cr):

Course		Credits
NFSC100	Elements of Nutrition	3
NFSC112	Food: Science & Technology	3
BSCI170&170	Principles of Molecular and Cellular Biology and Lab	4
BSCI223	General Microbiology	4
CHEM131	General Chemistry I	3
CHEM132	General Chemistry I Laboratory	1
CHEM231	Organic Chemistry I	3
CHEM232	Organic Chemistry I Laboratory	1
CHEM241	Organic Chemistry II	3
CHEM242	Organic Chemistry II Laboratory	1
CHEM271	General Chemistry and Energetics	2
CHEM272	General Bioanalytical Chemistry Laboratory	2
ENGL101	Introduction to Writing	3
ENGL391 or 393	Advanced Composition, or Technical Writing	3
MATH113	College Algebra with Applications	3
	General Education: Social or Political History	3
	General Education: Literature	3
	General Education: Advanced Studies	3
	General Education: History or Theory of Art	3

Additional course requirements for option in Dietetics (66 cr):

Course		Credits
NFSC315	Nutrition During the Lifecycle	3
NFSC350	Foodservice Operations	5
NFSC380	Nutritional Assessment	3
NFSC440	Advanced Human Nutrition	4
NFSC460	Medical Nutrition Therapy	4
NFSC470	Community Nutrition	3
NFSC491	Issues and Problems in Dietetics	3
BCHM461	Biochemistry I	3
BCHM462	Biochemistry II	3
BMGT364	Management and Organization Theory	3
BSCI330	Cell Biology and Physiology	4
BSCI440	Mammalian Physiology	4
EDMS451 or BIOM301	Intro to Educational Statistics, or Biometrics	3
PSYC100 (SB)	Introduction to Psychology	3
SOCY100 (SB)	Introduction to Sociology	3
COMM200 (HL/HA/HO)	Critical Thinking and Speaking	3

Elective		3
Restricted Elective	*See list below	3
NFSC421	Food Chemistry	3
NFSC430	Food Microbiology	3

*NFSC410, NFSC425, NFSC450, BMGT220, BSCI222, BSCI422, COMM200, EDCP310, KNES360, BMGT360, AREC350, ENST333, AREC250, or alternate course by approval of advisor

Additional course requirements for option in Food Science (66 cr):

Course		Credits
NFSC398	Food Science Seminar	1
NFSC412	Food Processing Technology	4
NFSC414	Mechanics of Food Processing	4
NFSC421	Food Chemistry lecture	3
NFSC422	Food Product Research & Development	3
NFSC423	Food Chemistry lab	3
NFSC430	Food Microbiology lecture	3
NFSC431	Food Quality Control	3
NFSC434	Food Microbiology lab	3
NFSC450	Food and Nutrient Analysis	3
BCHM463	Biochemistry of Physiology	3
BIOM301	Introduction to Biometrics	3
COMM200	Critical Thinking and Speaking	3
MATH120 or MATH220	Elementary Calculus I	3
MATH121 or MATH221	Elementary Calculus II	3
PHYS121	Fundamental of Physics I	4
	General Education: Behavioral and Social Sciences	6
Elective		8
Restricted Elective	*See list below	3

*NFSC410, NFSC425, NFSC450, BMGT220, BSCI222, BSCI422, COMM200, EDCP310, KNES360, BMGT360, BMGT364, AREC350, ENST333, AREC250, or alternate course by approval of advisor

Additional course requirements for option in Nutritional Science (66cr):

Course		Credits
NFSC315	Nutrition During the Life Cycle	3
NFSC421	Food Chemistry lecture	3
NFSC440	Advanced Human Nutrition	4
NFSC450	Food and Nutrient Analysis	3
BCHM461	Biochemistry I	3
BCHM462	Biochemistry II	3
BCHM464	Biochemistry lab	2
BCHM465	Biochemistry III	3
BIOM301	Introduction to Biometrics	3
BSCI222	Principles of Genetics	4
BSCI330	Cell Biology and Physiology	4
BSCI440	Mammalian Physiology	4
MATH120 or MATH220	Elementary Calculus I	3
PHYS121	Fundamentals of Physics I	4
	General Education	6
	General Education	3
	General Education	3
Elective		5
Restricted Elective	*See list below	3

*NFSC380, NFSC410, NFSC460, NFSC470, BSCI410, BSCI422, BSCI430, BSCI447, or alternate course by approval of advisor

Advising

Department advising is mandatory each semester. When planning a course of study, students must consult the Undergraduate Catalog for the year they entered the program and also see an appropriate departmental advisor. Information on advising may be obtained by calling the department office, 301-405-8980.

Student Societies and Professional Organizations

The NFSC Department has two active undergraduate clubs: the Food and Nutrition (FAN) club and the Food Science club, which sponsor outreach activities and speakers on career-related topics, and participate in a variety of social activities. Call 301-405-8980 for more information.

Operations Management and Business Analytics

For information, see Decision, Operations and Information Technologies in Chapter 7.

Other For-Credit Programs

Air Force Reserve Officer Training Corps Program (AFROTC)

2126 Cole Student Activities Building, 301-314-3242
www.afrotc.umd.edu
afrotcdet330@umd.edu
Director: Colonel David Morrissey

The Air Force Reserve Officer Training Corps (AFROTC) provides students the opportunity to earn a commission as a second lieutenant in the United States Air Force while completing their undergraduate degree.

For information, see AFROTC under the Office of Undergraduate Studies section in Chapter 6.

Army Reserve Officer Training Corps Program (ROTC)

1150 Cole Student Activities Building, 301-314-9939
www.armyrotc.umd.edu
armyrotc@umd.edu

The Army Reserve Officer Training Corps offers students the opportunity to earn a commission as a Second Lieutenant in the United States Army (Active, Reserve, or National Guard) while completing their undergraduate degree.

For more information, see office of Undergraduate Studies section in Chapter 6.

College Park Scholars Program (CPSP)

1125 Cumberland Hall, 301-314-CPSP (2777)
www.scholars.umd.edu
askcpscholars@umd.edu
Executive Director: Marilee Lindemann, PhD

College Park Scholars is a [class of 12 interdisciplinary, two-year living and learning programs](#) in which academically and creatively talented freshmen and sophomores explore interests that enhance, or complement, their academic major. Participation in College Park Scholars provides the interpersonal benefits of a small college paired with the intellectual advantages of a major research university.

Admission to College Park Scholars is selective and by invitation. For more information, see College Park Scholars in the Office of Undergraduate Studies section of Chapter 6.

Education Abroad

3122 Susquehanna Hall, 301-314-7746
www.umd.edu/studyabroad
educationabroad@umd.edu
Director: Dr. Moira Rogers

Through Education Abroad (EA), UMD students participate in academically rigorous overseas programs designed to broaden and enrich their major fields of study, deepen their understanding of other languages and cultures, and strengthen their ability to compete for successful careers in today's global economy. These programs provide coursework in a wide range of disciplines so that participants can study abroad for a semester or academic year and still complete their degrees on schedule. A growing number of EA programs combine the concepts of global citizenship, civic engagement, and entrepreneurship by engaging students in innovative projects designed to address health, economic, and environmental issues in the communities that host them during their overseas studies.

EA collaborates with UMD faculty and staff as well as international institutions and affiliated organizations to support more than 400 international programs in over 65 countries and to integrate overseas coursework into campus curricula. Professional advisors guide students in the selection of suitable programs and the arrangement of academic credit, assist with applications for financial aid, conduct pre-departure orientations, and provide on-call support to participants overseas. Recognizing that substantive international experience is a crucial part of any undergraduate education, EA continually seeks to enable every UMD student to study abroad regardless of his or her major field of study or financial profile. EA is especially attentive to the diverse needs of the UMD campus community and is committed to developing and delivering programs and resources that facilitate access for and representation of diverse identities.

Study Abroad Process

Students interested in overseas studies should ideally visit EA one year before actually submitting an application in order to explore program options and learn more about the next steps in arranging academic credit, completing pre-requisites, and obtaining financial aid for their intended programs. When a student is prepared to begin an application, he or she should arrange to meet with an advisor by making an appointment through the on-line system at: www.international.umd.edu/studyabroad.

Types of Study Abroad Programs

Exchange programs: Exchange programs allow UMD students to study for a semester or year at leading universities throughout the world while paying little more than their regular UMD tuition, travel, and overseas living expenses. In exchange for each outgoing student, one from the overseas host university studies at the College Park campus for an equivalent period. While some exchange programs require foreign language proficiency, many are open to students who speak only English. These programs offer UMD students an outstanding opportunity to develop lasting bonds with local students.

UMD students earn transfer credit applied to their UMD degree on all exchange programs.

Maryland Semester (Maryland-in), Maryland Short Term & Freshmen Abroad programs: EA directly sponsors and administers a wide array of semester and short term opportunities in partnership with UMD academic departments. These options allow students to receive UMD resident credit. These include semester programs in Copenhagen, Florence, Perugia, London, Nice, Seville, Berlin, Barcelona, Rome and Beijing, as well as more than 70 short term courses taught by Maryland faculty during the summer, winter term, and spring break in locations ranging from Morocco to Brazil. This also includes Terrapin Takeoff and Destination programs for spring admitted freshmen. In addition to high-quality instruction, UMD programs offer cultural activities, internships, and service opportunities to help students maximize their engagement with the host-country culture.

Approved Programs and Affiliate Programs: EA administers a wide range of programs in collaboration with vetted study abroad providers and universities, including The Council on International Educational Exchange (CIEE), the Institute for the International Education of Students (IES), The Education Abroad Network (TEAN), American Councils (ACTR), and the University Studies Abroad Consortium (USAC).

Non-Approved programs: UMD students who wish to study abroad through other institutions must petition to do so. The first step in this process is to speak with an EA advisor. Petitioners must demonstrate a compelling academic reason to participate in a non-approved program and that the program in question meets the same standards required of approved programs. EA strongly encourages students to explore its extensive list of affiliated and approved programs before beginning the petition process.

More information and applications are available at the EA website: www.international.umd.edu/studyabroad.

Honors College

Anne Arundel Hall, 301-405-6771
www.honors.umd.edu
honors@umd.edu

The Honors College, a vibrant and diverse intellectual community on the doorstep of the nation's capital, engages the University of Maryland's highest achieving undergraduates by providing academic challenges and boundless opportunities for discovery, setting them on paths to extraordinary futures. Small classes and outstanding teachers encourage discussion and foster innovative thinking across academic disciplines. Honors students have exclusive access to Honors living-learning program courses, Honors seminars, and Honors versions of courses offered by the academic departments on campus.

For more information, see Office of Undergraduate Studies in Chapter 6.

Naval Reserve Officer Training Corps Program (Naval ROTC)

0110 Reckord Armory, <http://navalrotc.umd.edu/>
navalrotc@umd.edu

Director: Captain Troy Mong

The Naval Reserve Officers Training Corps (NROTC) Program was established to educate and train qualified young men and women for service as commissioned officers in the US Navy (unrestricted line), or in the Marine Corps while completing their undergraduate degree.

For information, see NROTC under the Office of Undergraduate Studies section in Chapter 6.

Persian Studies (PERS)

College of Arts and Humanities
3215 Jiménez Hall, 301-405-1891
www.persian.umd.edu
Director: F. Keshavarz-Karamustafa, Professor
Professors: A. Karimi-Hakkak
Associate Professors: A. Abasi
Instructors: N. Akbari-Saneh (Clinical Assistant Professor)
Lecturers: S. Moinfar
Visiting Faculty: I. Meftahi (Visit Asst Prof)

The Major

The 36 credit major in Persian Studies (12 courses) will provide students with a solid background in linguistic, literary, and cultural aspects of the study of Persian. This study will be inclusive of the cultures of Iran, Afghanistan, Persian-speaking Central Asia, and the Persian diaspora. Students work toward competence in speaking, reading, writing, and listening, in addition to studying the evolution of Iranian and Persianate cultures in their diverse perspectives, practices, and products. They will become conversant with the contemporary political and daily life of Persian-speaking peoples, with cultural comparison implicit throughout their 4 years.

The B.A. in Persian Studies (PERS) prepares students for a range of professional opportunities, including careers in government, education, the arts, business, and communication. Many undergraduates will choose to double major or do a double degree in Persian and another subject, including arts and humanities majors, business, computer science, engineering, and journalism.

Placement in Courses

Please see: <http://www.arhu.umd.edu/undergraduate/flpa>

Requirements for the Major

Courses Required for Majors

Note: In cases where a student has equivalent knowledge, required language-focus credits are replaced in consultation with undergraduate advisor. This may include courses in Arabic for those students who intend to study Persian literature in Persian, as Arabic is integral to the history of Persian Literature.

Requirements for the Major

All students planning to pursue the major in Persian Studies should contact the undergraduate advisor for Persian, who will be responsible for placement, oversight, and record keeping. A grade of "C-" or better is required in all courses.

A. Prerequisites - 8 credits

Note: There are no prerequisites for students with equivalent knowledge.

PERS101	Elementary Persian I	4 credits
PERS102	Elementary Persian II	4 credits

B. CORE Sequence - 18 credits

Note: All prerequisites imply "or equivalent knowledge."

PERS201	Intermediate Persian I (prereq 102)
PERS211	Intermediate Conversation (co-req 201)
PERS202	Intermediate Persian II (prereq 201/211)
PERS212	Intermediate Reading (co-req 202)
PERS301	Advanced Persian I (pre-req 202/212)

PERS302	Advanced Persian II (prereq 301)
---------	----------------------------------

C. Upper Level Electives in Persian - 6 credits

PERS311	Persian Media (pre-coreq 301)
PERS312	Iranian Culture (prereq 301)
PERS401	Persian Composition (prereq 302)
PERS402	Persian Translation (prereq 302)
PERS411	Readings in Modern Iranian History and Culture (prereq 302)
PERS412	Language and Identity (prereq 302)
PERS452	Modern Persian Literature: A Survey (prereq 302)
PERS453	Classical Persian Literature: A Survey (prereq 302)
PERS498	Special Topics in Persian Studies
PERS499	Special Topics in Persian Literature

D. Electives in English - up to 12 credits; no prerequisites

PERS250	Contemporary Iranian Arts
PERS251	Modern Iran
PERS283	Iranian Cinema
PERS353	Iranian Life in Literature and Film
PERS371	Introduction to Persian Literature in Translation
PERS372	The History of Persian
PERS441	Islam in Iran

Note: Courses in Middle Eastern Studies taught in English outside the Department may be substituted on prior approval of the Undergraduate Advisor.

E. Supporting Area - 9 credits

In addition to the required 36 credits, students must take 9 upper level credits in a single area of study outside Persian Studies as a complement to their major. Their plan should be cleared with the undergraduate advisor upon declaring a major. Double majors and minors fulfill this requirement.

Students must earn a grade of "C-" or higher in each course applied toward a major or minor in the School of Languages, Literatures, and Cultures. Additionally, an overall GPA of 2.0 in a major or minor is required for graduation.

Study Abroad

For information on study abroad programs see the program advisor and/or the Education Abroad website www.international.umd.edu/studyabroad.

Requirements for the Minor

Persian Studies

School of Languages, Literatures, and Cultures
www.persian.umd.edu

This 15-credit minor will provide students with a background in linguistic, literary, and cultural aspects of the study of Persian, including the cultures of Iran, Afghanistan, Persian-speaking Central Asia, and the Persian diaspora. Students will work toward linguistic competence in speaking, reading, writing, and listening. Additionally, students will be introduced to Iranian culture in its diverse perspectives, practices, and products. The Minor in Persian Studies complements a range of professions, including careers in education, engineering, government, journalism, the arts, business, and communication.

- A minimum of 9 credits must be earned through courses taught in Persian.
- Up to 6 may be earned from PERS courses taught in English.
- A minimum of 9 credits must be at the upper level.
- All courses presented for the minor must be passed with a grade of "C-" or better.
- An overall GPA of 2.0 in the minor is required for graduation.
- A maximum of 6 credits may be applied to the minor from courses taken at other institutions.

No courses applied to the minor may count toward another minor. All students planning to pursue the Minor in Persian Studies should contact the undergraduate advisor for Persian, who will be responsible for oversight and record keeping.

Prerequisites (14 credits):

PERS101 Elementary Persian I (4 credits)
PERS102 Elementary Persian II (4 credits)
PERS201 Intermediate Persian I
PERS211 Intermediate Conversation

There are no prerequisites for students with equivalent knowledge.

Course requirements:

A. Courses taught in Persian (at least 9 credits); All prerequisites imply "or equivalent knowledge."

PERS202 Intermediate Persian II (prereq 201/211)
PERS301 Advanced Persian I (prereq 202/212)
PERS302 Advanced Persian II (prereq 301)
PERS452 Modern Persian Literature: A Survey (prereq 302)
PERS453 Classical Persian Literature: A Survey (prereq: 6 credits Arabic)

B. Persian Studies Courses Taught in English (up to 6 credits; no prerequisites)

PERS251 Modern Iran (SH/D)
PERS283 Iranian Cinema (HA-HO/D)
PERS353 Iranian Life in Literature and Film (D)
PERS371 Introduction to Persian Literature in Translation (D)
PERS441 Islam in Iran (D)

To make an appointment to explore or declare a minor, go to
www.arhu.umd.edu/undergraduate/academics/minors

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state, and institutional financial assistance programs, and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

The UG Committee organizes an annual awards ceremony to celebrate SLLC students who have earned SLLC, campus and/or national scholarships, and academic achievement awards. The awards ceremony takes place in conjunction with the annual SLLC UG Research Forum.

PHILOSOPHY (PHIL)

College of Arts and Humanities

1128 Skinner Building, 301-405-5689

www.philosophy.umd.edu

lgilman@umd.edu

Chair: C. Morris (Chair)

Professors: J. Bub (Distinguished University Professor), P. Carruthers, L. Darden (Distinguished Scholar Teacher), P. Greenspan, J. Horty, S. Kerstein, J. Levinson (Distinguished University Professor), C. Manekin, P. Pietroski (Distinguished Scholar Teacher), G. Rey, A. Stairs (Associate Chair)

Associate Professors: S. Dwyer, D. Moller, R. Singpurwalla, A. Williams

Assistant Professors: A. Lyon, E. Pacuit

Lecturers: J. Maffie (Senior Lecturer)

Affiliate Professors: M. Frisch, J. Segal (Res Assoc)

Adjunct Professors: R. Rynasiewicz (Adjunct Prof)

Adjunct Associate Professors: J. Mattingly, M. Silberstein

Professors Emeriti: J. Brown, C. Cherniak, R. Martin, S. Odell, F. Suppe

The Major

The study of philosophy develops students' reasoning and expository skills and increases their understanding of the foundations of human knowledge and value. The department views philosophy as an activity rather than a body of doctrine and students can expect to receive training in clear thinking, inventive synthesis, and precise expression. For some, this will serve as preparation for graduate studies in philosophy. However, philosophical skills are useful in professions such as law, medicine, government, business management, and in any field that demands intellectual rigor. The department offers a wide range of courses, including several that deal with the philosophy of various disciplines outside philosophy itself.

Program Objectives

All philosophy programs aim to: (1) equip students with an understanding of a range of philosophers and philosophical problems, while encouraging as deep a critical engagement with those philosophers and problems as is feasible in the time available; (2) promote respect for the norms of: clarity; careful analysis; critical reflection; rational argument; sympathetic interpretation and understanding; and impartial pursuit of truth; (3) promote independence of thought and a critical and analytical approach, not only to theories and concepts, but also to the assumptions on which they are based; (4) equip students with the core skills involved in: careful reading, comprehension and compression of textual material; clear thinking; sound argumentation; and the clear and well-organized expression of ideas; (5) provide excellent teaching which is informed and invigorated by the research activities of faculty; (6) facilitate an awareness of the application of philosophical thought to other academic disciplines or to matters of public interest, encouraging students to apply philosophical skills more widely where appropriate.

Program Learning Outcomes

By the end of the program of study:

1. Students should be competent in formal techniques, including, but not limited to, formal logic.
2. Students should be able to present critically, yet sympathetically, philosophical views that differ from their own.
3. Students should be able to write clearly and in an organized fashion (appropriate to the content and context, and appropriate for a graduating major).
4. Students should be able to make out a reasoned case in support of their views (appropriate to the content and context, and appropriate for a graduating major).

Requirements for the Major

The requirements for a major in Philosophy are as follows:

A total of at least 36 hours (twelve courses) in philosophy, not counting internship courses (PHIL 386). For a course to count toward a student's major, the grade in the course must be "C-" or above. For students who matriculated in September 2012 or later, the average of all grades counted toward the major must be 2.0 or greater. Therefore, grades of "C-" will have to be balanced with higher grades. (C- counts as 1.7 toward the GPA.)

The twelve philosophy courses must be distributed as follows:

- at least six courses numbered 300 or above, of which at least two must be numbered 400 or above
- at least one course in logic at any level
- at least two courses numbered 200 or above in the history of pre-twentieth century philosophy
- at least two courses numbered 200 or above in value theory (including aesthetics and political philosophy as well as ethics)
- at least two courses numbered 200 or above in metaphysics or epistemology (including philosophy of science, philosophy of mind, and philosophy of religion, as well as metaphysics and theory of knowledge)

Supporting Courses

15 credits

Fifteen hours in a supporting area; the courses do not all have to be in the same department, but they should reflect a coherent program of study. The supporting area must be chosen in consultation with a departmental advisor. For further information, students should consult the undergraduate handbook on the philosophy department's website.

Requirements for the Minor

Requirements for the Minor

A total of at least 18 hours (six courses, at least three of which must be at least 300 level or above) in philosophy, not counting internship courses (PHIL 386). For a course to count toward a student's minor, the grade in the course must be "C-" or above. For students who matriculated in September 2012 or later, the average of all grades counted toward the minor must be 2.0 or greater. Therefore, grades of "C-" will have to be balanced with higher grades. ("C-" counts as 1.7 toward the GPA.) Candidates for the minor must satisfy the following distribution:

- at least one course numbered 200 or above in the history of pre-twentieth century philosophy
- at least one course numbered 200 or above in value theory (including aesthetics and political philosophy as well as ethics)
- at least one course numbered 200 or above in metaphysics or epistemology (including philosophy of science, philosophy of mind, and philosophy of religion, as well as metaphysics and theory of knowledge)

Advising

Philosophy Majors must be advised each semester before registration. philadv@umd.edu

Honors Program

The Philosophy Honors Program allows exceptional students the opportunity to work closely with a member of the Philosophy faculty on a project, typically a 30-40 page philosophical paper (i.e., "Honors Thesis"), during the final two semesters of his/her undergraduate career. The two semesters of independent study with the faculty advisor culminate in the student presenting and defending the Honors Thesis before a committee consisting of 2-3 faculty members in addition to the advisor.

Successful students will graduate with Honors in Philosophy. Requirements and Procedures

- A prospective honors student should normally have a cumulative GPA of 3.5 and a GPA of 3.75 in philosophy classes with no grade below a "C" in any philosophy course.
 - A prospective honors student should find a willing faculty advisor in the spring semester before the senior year.*
 - The student must present a proposal to the prospective advisor at the end of the spring semester.*
 - The proposal will typically include a list of proposed readings, a clear and appropriately narrow topic, and a projected position to be defended in the Honors Thesis.
 - This proposal will then be submitted to the Undergraduate Affairs Committee for approval.
- If the proposal is approved, the student will enroll in 498F (3 credits) the following semester and the student and advisor will agree on a schedule for meetings and the work expected by the end of the semester.
- At the end of the semester, the advisor will evaluate the student's progress and will decide whether the student should continue work on the Honors Thesis for another semester.
- If, at the end of the first semester, the advisor judges that the project should not continue, the student will be given a grade for 498F but will not enroll in 498G in the subsequent semester and will not receive an Honors degree.
- If, at the end of the first semester, the advisor thinks the project should continue, the student will enroll in 498G (3 credits) and the student and advisor will agree on a schedule of meetings and a timeline for completion of the Honors Thesis.
- The student, in consultation with the advisor, will arrange an examining committee of at least 2 faculty members in addition to the advisor. The student will present and defend the Honors Thesis before this examining committee. The faculty advisor determines the grade for 498G but the committee determines whether the student graduates with Honors.

*or, for students graduating in December, the semester prior to the student's next to last semester

Student Societies and Professional Organizations

The Philosophy Club holds weekly meetings during the semester to discuss philosophical topics of interest to members.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

The W.E. Schlaretzki Prize is given to the most outstanding graduating senior each year. The Joseph and Beth Duckett Scholarship is given to the most outstanding junior.

Lubkin, J. Nico, S. Nussinov, V. Rodgers, I. Rothstein, L. Schmid, R. Sinclair, J. Starr, J. Su, S. Tonwar (Lecturer), G. Yodh

The Major

Physics is an exciting and rewarding field of study. Physicists make important discoveries that often change the way we live by examining the way things work, and there are still many discoveries to be made.

At Maryland, physics majors benefit from small class-sizes, outstanding teachers and very talented classmates. However, we believe that the most important physics education occurs outside the classroom, and we encourage all of our majors to participate in cutting-edge research with our internationally recognized faculty. Through participation in research projects, our students learn what it takes to conduct world-class scientific research. Whether students decide to continue to study physics in graduate school or work in fields such as engineering, software development, law, business or education, a bachelor's degree in physics from Maryland provides an excellent foundation.

Program Learning Outcomes

Students are expected to fully engage with the curriculum and the opportunities presented for learning and research. Having completed the degree program, students should have acquired the following knowledge and skills:

1. A thorough knowledge of the core areas of physics, including mechanics, electricity and magnetism, thermal physics, and quantum mechanics at a level compatible with admission to graduate programs in physics at peer institutions.
2. The ability to analyze and interpret quantitative results, both in the core areas of physics and in complex problems that cross multiple core areas.
3. An ability to assess and solve unfamiliar problems in physics using the knowledge and skills acquired.
4. The ability to use contemporary experimental apparatus common to the study of physical phenomena, and have the ability to acquire, analyze and interpret scientific data.
5. The ability to communicate scientific results effectively, both verbally and in writing.

Requirements for the Major

Courses required for Physics Major:**Credits*****Lower-level courses for all areas of concentration:***

PHYS165*	Introduction to Programming for the Physical Sciences	3
PHYS171	Introductory Physics: Mechanics	3
PHYS174	Physics Laboratory Introduction	1
PHYS272	Introductory Physics: Fields	3
PHYS273	Introductory Physics: Waves	3
PHYS274	Mathematical Methods for Physics I	3
PHYS275	Experimental Physics I: Mechanics, Heat, and Fields	2
PHYS276	Experimental Physics II: Electricity and Magnetism	2
MATH140	Calculus I	4
MATH141	Calculus II	4
MATH241	Calculus III	4

Upper-level courses for Professional Physics area of concentration:

PHYS371	Modern Physics	3
PHYS373	Mathematical Methods for Physics II	3
PHYS375	Experimental Physics III: EM Waves, Optics, and Modern Physics	3
PHYS401	Quantum Physics I	4
PHYS402	Quantum Physics II	4
PHYS404	Introduction to Statistical Mechanics	3
PHYS405**	Advanced Experiments	3
PHYS410	Classical Mechanics	4
PHYS411	Intermediate Electricity and Magnetism	4
PHYS4xx**	Advanced Physics Elective	3
PHYS4xy	Advanced Physics Elective	3

*Students with prior programming experience may take an upper-level, computational physics course instead of PHYS165. This advanced course may be used for an Advanced Physics Elective as well.

**PHYS405 in the Professional Physics area of concentration may be replaced by the following two course sequence:

PHYS499A Special Problems in Physics 1-6

PHYS407 Professional Physics Experimental Research 3

*** Students completing a second major from a CMNS or Engineering department may use an upper-level course from that program in place of one of the Advanced Physics Electives.

Upper-level and supporting courses for Education Physics area of concentration:

EDPS301	Foundations of Education	3
EDHD413	Adolescent Development	3
EDHD426	Cognitive and Motivational Basis of Reading: Reading in Content Areas	
EDCI463	Teaching Reading in Content Area II	3
PHYS374	Intermediate Theoretical Methods	4
PHYS411	Intermediate Electricity and Magnetism	4
PHYS401	Quantum Physics I	4
PHYS375	Experimental Physics III: Electromagnetic Waves, Optics	3

In the Education Physics area of concentration: PHYS401 may be replaced by PHYS420 - Principles of Modern Physics (3). PHYS375 may be replaced by one additional non-seminar 400-level approved Physics course of 3-4 credits.

Students who are considering pursuing the Education Physics area of concentration are encouraged to enroll in EDCI280-Introduction to Teaching, for a survey of education and teaching. The Education Physics area of concentration is designed to accommodate students obtaining a teaching certificate through the College of Education. However, completing all the courses in the Education Physics area of concentration does not in itself satisfy all requirements for obtaining a teaching certificate. Students pursuing the Education Physics area of concentration who want to also obtain a teaching certificate in secondary education must first apply and be admitted to the Secondary Education Program in the College of Education and then complete additional courses in that program.

Other Requirements for the Major

Students must complete all courses required for the major with a grade of "C-" or higher.

Requirements for the Minor

This minor provides a rigorous foundation in physics for students who choose not to complete the entire physics major. The minor begins with a set of two introductory courses (6 credits) in electromagnetic fields (PHYS262 or PHYS272) and waves (PHYS263 or PHYS273). As part of this introduction to Physics, the minor also requires a one-credit introductory physics laboratory (PHYS174, PHYS261, or PHYS271) involving techniques of data gathering and analysis. To obtain a deeper understanding of physics, the minor requires three additional upper-level courses (3-4 credits each), which students can select from the list below.

- Other upper level Physics courses can be substituted only with approval from the Department's undergraduate director and the Faculty Minor Advisor.
- All courses must be completed with a grade of "C-" or better to be counted towards the minor.
- No more than 7 credits in this minor can count toward major requirements. Students with more than 7 credits of overlap must substitute non-overlapping 300 or 400 level courses from the above list to reduce the overlap to no more than 7 credits.
- Physics majors and students majoring in Astronomy are not eligible to complete the Physics Minor due to the large number of overlapping course requirements.

	Credits
Courses required for the minor	7
<i>One from:</i>	
PHYS174 Physics Laboratory Introduction	1
PHYS261 General Physics: Vibrations, Waves, Heat, Electricity and Magnetism: Laboratory	1
PHYS271 General Physics: Electrodynamics, Light, Relativity and Modern Physics: Laboratory	1
<i>One from:</i>	
PHYS272 Introductory Physics: Fields	3
PHYS260 General Physics: Vibrations, Waves, Heat, Electricity and Magnetism	3
<i>One from:</i>	
PHYS273 Introductory Physics: Waves	3
PHYS270 General Physics: Electrodynamics, Light, Relativity and Modern Physics	3
<i>Three from the following:</i>	<i>9-12</i>
PHYS373 Mathematical Methods for Physics II	3
PHYS375 Experimental Physics III: EM Waves, Optics & Modern Physics	3
PHYS401 Quantum Physics I	4
PHYS402 Quantum Physics II	4
PHYS404 Introductory Statistical Thermodynamics	3
PHYS410 Classical Mechanics	4
PHYS411 Intermediate Electricity and Magnetism	4
PHYS465 Modern Optics	3
PHYS474 Computational Physics	3

Prerequisites

MATH140 (4 credits), MATH141 (4 credits), MATH241 (4 credits), MATH240 (4 credits), MATH246 (3 credits), and Physics161 (or Physics171) (3 credits) are prerequisites for some of the courses in this program.

Contact

Students interested in earning a minor in physics should contact the undergraduate advisor for the Physics Department:

1120F John S. Toll Physics Building; 301-405-5979

email: phys-ugradinfo@physics.umd.edu

Note: At the beginning of the semester in which graduation is intended, a student should make an appointment with the Physics Department's Undergraduate Advisor to fill out the appropriate paperwork.

Advising

Advising for undergraduates is available throughout the year in Room 1120 PHY. For early registration, advising is mandatory; students should check Testudo for their early registration date and email ugrad@physics.umd.edu for information about advising appointments. Students who have been away more than two years may find that due to curriculum changes the courses they have taken may no longer be adequate preparation for the courses required to complete the major. Students in this situation must meet with the Departmental Advisor to make appropriate plans.

Honors Program**Departmental Honors in Physics**

The Departmental Honors Program in Physics was established to recognize and encourage independent and creative scholarship in physics by providing superior undergraduate physics majors the opportunity for advanced and intensive study. The central component of departmental honors in physics is participation in undergraduate research. To earn high honors in physics, students must produce and defend an honors thesis/document based on their own research. The committee's decision whether to award high honors will be based on the quality of the thesis and defense. To earn honors in physics, the student must pass an oral exam probing the depth of their understanding of physics from their courses and research involvement or complete an approved graduate level PHYS course with a grade of B or higher.

Requirements for Graduation with Departmental Honors in Physics

1. Complete at least three credit hours of a Physics Honors version course.
2. Have earned a 3.00 or higher overall GPA and a 3.30 or higher GPA for all physics major required courses at graduation time.
3. Complete one of the following research courses PHYS 386 (Physics experimental Learning), PHYS 389 (Undergraduate Thesis Research), PHYS 399 or PHYS 499 (Independent Study).
4. For High Honors, students must complete a research project with a Physics faculty member and defend a senior thesis or paper based on their original research. A student's defense committee should include the following people: the student's research mentor, the chair of the Physics Honors Program, and an additional Physics faculty member.
5. For "regular" Honors, students must either pass an oral exam given by a committee of at least two Physics faculty members or complete an approved, graduate level PHYS course with a grade of B or higher.

Note: Students who do not meet the criteria in items 1) and 2) above may submit an appeal to the Physics Honors Committee. The Physics Honors Committee may use other considerations (instructor evaluations, research activity, etc.) to award the Honors citation. Students who do not meet the criteria and are not awarded a departmental honors citation will not receive any negative record regarding the Physics Honors Program on any official document.

Student Societies and Professional Organizations

Society of Physics Students (SPS); Sigma Pi Sigma

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu. Departmental scholarships for undergraduates in Physics include the following:

Angelo Bardasis Memorial Scholarship

Joseph Helfand Memorial Scholarship in Physics

Professor William M. MacDonald Physics Scholarship

Physics PALS Scholarship

University of Maryland Department of Physics NSF Scholarships in Science, Technology, Engineering and Mathematics

Awards and Recognition

Jerry B. Marion Award

IPST Monroe Martin Prize for Undergraduate Research in Physics

Plant Sciences (PLSC)

College of Agriculture and Natural Resources

2139 Plant Sciences Building, 301-405-4359

dcortez@umd.edu

Chair: A. Murphy (Prof & Chair)

Director: S. Cohan (Clinical Prof)

Professors: J. Culver, K. Everts, J. H. Sullivan, J. Lea-Cox, C. Walsh

Associate Professors: M. Carroll, G. Coleman, R. Kratochvil, M. Neel, T. Turner, S. Xiao, J. Zhu

Assistant Professors: P. Chaverri, L. Johnson, S. Micallef, B. Phillips (Asst Clin Prof), J. Roberts, B. Schulz, C. Swett, K. Tully

The Major

Plant Sciences combines basic science courses with applied technical classes to prepare students for research, public sector, and industry careers.

Students seeking a Plant Sciences degree must complete requirements in one of the following Areas of Concentration: Plant Science (Plant Biology), Horticulture and Crop Production, Landscape Management, Turf and Golf Course Management, or Urban Forestry.

- Plant Science (Plant Biology) is designed to prepare students for graduate or professional schools and/or a career in research. This area provides a strong foundation for postgraduate education and research careers in biotechnology, plant physiology and development, cell biology, molecular biology, plant genetics/genomics, conservation biology, ecology, and plant pathology.
- Horticulture and Crop Production prepares students for managerial positions in greenhouse, nursery, orchard and vegetable crops. Students focus their studies on plant growth and development, and plant pathology.

Management Programs:

- Landscape Management trains students for management positions in the landscape industry. The curriculum combines plant science, design and business management courses enabling graduates to meet the challenges of careers in the green industry.
- Turf and Golf Course Management prepares students to succeed as a turfgrass professional in the golf course or sports turf industry, stressing an interdisciplinary approach to this career.
- Urban Forestry prepares students to manage urban trees and forests and enhance their sustainability. This program stresses tree biology, forest ecology and forest assessment and management tools and prepares students for careers with municipalities or government agencies as well as private industry such as power companies and the tree-care industry.

The Department of Plant Science and Landscape Architecture also offers two additional degrees: the Bachelor of Science (B.S.) in Agricultural Science and Technology (Agronomy) and the Bachelor of Landscape Architecture (BLA). Courses offered may be found under AGST and LARC.

Program Learning Outcomes

- Students will develop technical and knowledge-based skills in the required areas of study.
- Students will use technical and basic learned knowledge to collaborate, solve problems and then articulate conclusions.
- Students shall develop effective communication skills and demonstrate the ability to present ideas with clarity to an appropriate audience.
- Students will connect and build relationships with external groups in the appropriate fields of study.

Requirements for the Major

Requirements for all Areas of Concentration		Credits
CHEM131/132	General Chemistry I	4
ENGL101	Introduction to Writing	3
ENGL393	Technical Writing	3
ENST200	Fundamentals of Soil Science	4
MATH113	College Algebra with Applications, OR	3
MATH115	Precalculus	
PLSC100	Introduction to Horticulture, OR	
PLSC101	Introductory Crop Science	4
PLSC398	Senior Seminar	1

With the exception of ENGL101 and ENGL393, a grade of "C-" or better is required in the courses above.

Area B: Horticulture and Crop Production

Requirements		Credits
AREC250	Elements of Agricultural and Resource Economics	3
AREC306	Farm Management	3
BSCI337	Biology of Insects	4
CHEM105	Fundamentals of Organic and Biochemistry	3
ENST411	Principles of Soil Fertility	3
PLSC201	Plant Structure and Function	4
PLSC202	Management of Horticultural Crops, OR	3
PLSC203	Plants, Genes and Biotechnology, OR	
PLSC271	Plant Propagation	
PLSC389	Internship	1-3
PLSC400	Environmental Plant Physiology	3
PLSC420	Principles of Plant Pathology	4
PLSC453	Weed Science	3

Advanced Production Electives (Select four of the following)

BSCI497	Insect Pests of Ornamentals and Turf	4
ENST4xx	Soils Courses (Minimum of two)	6-8

PLSC305	Introduction to Turf Management	3
PLSC432	Greenhouse Crop Production	3
PLSC433	Technology of Fruit and Vegetable Crop Production	4
PLSC452	Principles of Landscape Establishment and Maintenance	3
PLSC456	Nursery Crop Production	3
PLSC474	Physiology of Maturation and Storage of Horticultural Crops	3
PLSC4xx	Crops Courses (Minimum of two)	6-8
Total General Education, PLSC and Horticulture and Crop Production Area		104-108
University Electives		12-16

Area C: Landscape Management Requirements		Credits
AREC250	Elements of Agricultural & Resource Economics, OR	3/4
ECON200	Principles of Micro-Economics	
BMGT220	Principles of Accounting I	3
BMGT350	Marketing Principles and Organization	3
BSCI337	Biology of Insects	4
CHEM105	Fundamentals of Organic and Biochemistry	3
LARC140	Graphic Fundamentals Studio	4
LARC160	Introduction to Landscape Architecture	3
PLSC200	Land Surveying	2
PLSC201	Plant Structure and Function	4
PLSC202	Management of Horticultural Crops	4
PLSC253	Woody Plants for Mid-Atlantic Landscapes I	3
PLSC254	Woody Plants for Mid-Atlantic Landscapes II	3
PLSC255	Landscape Design and Implementation	4
PLSC271	Plant Propagation	3
PLSC305	Introduction to Turf Management, OR	3
ENST411	Principles of Soil Fertility	
PLSC320	Principles of Site Engineering	4
PLSC321	Landscape Structures and Materials	3
PLSC361	Commercial Principles of Landscape Management	3
PLSC389	Internship	1-3
PLSC420	Principles of Plant Pathology	4
PLSC452	Environmental Horticulture	3

PLSC253	Woody Plants for Mid-Atlantic Landscapes I	4
PLSC254	Woody Plants for Mid-Atlantic Landscapes II	3
PLSC272	Principles of Arboriculture	3
PLSC361	Commercial Principles of Landscape Management	3
PLSC389	Internship	1 - 3
PLSC400	Environmental Plant Physiology	3
PLSC420	Principles of Plant Pathology	4
PLSC471	Forest Ecology	3
PLSC472	Capstone - Urban Forest Project Management	3

Suggested general education courses and electives¹

BIOM301*	Introduction to Biometrics	3
BSCI460	Plant Ecology, OR	3
BSCI460/461	(Plant Ecology Lecture and Lab)	5
CHEM241/242*	Organic Chemistry II	4
CHEM271/272*	General Chemistry and Energetics	4
COMM107	Oral Communication: Principles and Practices	3
ENST413	Soil & Water Conservation	3
ENST415	GIS Applications in Soil Science	3
ENST444	Restoration Ecology	3
GEOG201	Geography of Environmental Systems	3
GEOG347	Introduction to Biogeography	3
GVPT170	American Government	3
GVPT273	Introduction to Environmental Politics	3
LARC450	Environmental Resources	3
MATH120 or MATH220*	Elementary Calculus I	3
NRMT460	Principles of Wildlife Management	3
NRMT461	Urban Wildlife Management	3
NRMT489B	Field Experience: Park Management	1
PHYS121*/122*	Fundamentals of Physics I / II, OR	8
PHYS141*/142*	Principles of Physics	
PLSC200	Land Surveying	2
PLSC203	Plants, Genes and Biotechnology	3
PLSC320	Principles of Site Engineering	3
PLSC473	Woody Plant Physiology	3
PLSC475	Silviculture	4
SOCY100	Introduction to Sociology	3
SOCY105	Introduction to Contemporary Social Problems	3
SOCY305	Scarcity and Modern Society	3
SPAN223	United States Latino Culture	3
URSP100	Challenge of the Cities	3
URSP320	Planning of the Contemporary City	3
URSP372	Diversity and the City	3
Total General Education, PLSC and Urban Forestry Area		99
University Electives		21

¹ Note: Courses with an asterisk are suggested electives for students planning on graduate study in Forestry.

Requirements for the Minor**Minor in Landscape Management**

The Landscape Management minor provides students with a foundation in plant sciences and business management. The required science courses lead to an integrative understanding of plant growth and development and the plant's responses to its environment. These courses also teach students the skills needed to recommend best management practices and to identify plant abnormalities in the landscape. The business courses in this minor foster an understanding of the business structure, human resource management and financial management associated with landscape management companies.

All courses presented in this minor must be passed with a grade of "C-" or better. To complete this minor, students will be expected to complete an 18-19 credit course sequence. Students should also be aware that many of the courses in this minor list PLSC100, *Introduction to Horticulture*, as a prerequisite.

Curriculum:

		Credits
PLSC253	Woody Plants for Mid-Atlantic Landscapes I	3
PLSC254	Woody Plants for Mid-Atlantic Landscapes II	3
PLSC305	Introduction to Turf Management	3
PLSC361	Commercial Principles of Landscape Management	3
PLSC452	Environmental Horticulture	3

Select one of the following courses:

AREC240	Introduction to Agriculture and the Environment	4
AREC250	Elements of Agricultural and Resource Economics	3
AREC306	Farm Management	3
BMGT220	Principles of Accounting I	3

Total Credits: A minimum of 18 or 19 credits is required to complete this minor. (Depending on which AREC or BMGT course is chosen)

- A student may use a maximum of six credits (or two courses) to satisfy the requirements of both a major and a minor. In the event that more than six credits of coursework listed above are required in the student's major, he or she should contact the Landscape Management faculty advisor for course substitutions.
- This minor is particularly relevant to students who are interested in pursuing a career in the landscape industry. Landscape architecture, environmental science and policy, and life science majors can readily complete these minor requirements within their four-year programs.
- Students from the business school and social sciences who are seeking managerial careers in this rapidly-expanding service industry would also find this minor to be relevant.

Advising

The Department has mandatory faculty advising for each of its major and minor programs. Students are required to meet with their faculty advisor at least twice a year. See the Coordinator for Undergraduate Studies in 2139 Plant Sciences Building (301-405-4359) for additional information.

Internships

Internships with scientists are available at nearby federal and state agencies. Numerous internships also exist and can be readily arranged for students interested in private sector employment.

Scholarships and Financial Assistance

Several scholarships and awards are available to PLSC students. Contact the Associate Dean's office at 301-405-2078 for additional information. The Department also maintains a listing of scholarships. Contact Jessica Trotta in 2102 Plant Sciences, 301-405-4356. The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Pre-Health Professions Advising and Programs

1210 H. J. Patterson Hall, 301-405-7805
www.prehealth.umd.edu/

Director of Health Professions Advising Office: Wendy Loughlin
 Assistant Director: Becky Kenemuth
 Advisor: Nick Celedon

The Reed-Yorke Health Professions Advising Office (HPAO), part of the College of Computer, Mathematical, and Natural Sciences, serves University of Maryland students and alumni interested in pursuing careers in medicine, dentistry, or allied health fields. Advisors and staff in the HPAO provide students with pre-professional planning, including individual and group advising, career preparation workshops, admission information for pre-professional programs, a committee process to support their professional school applications, and much more. Pre-professional program advising provides the academic, and experiential foundations required for entrance into professional schools. HPAO advising encompasses the fields of medicine, dentistry, optometry, podiatry, and the allied health professions - especially nursing, pharmacy, physical therapy and physician assistant, as well as others. The pre-health professional programs at the University of Maryland are not degree granting programs. They are recommended programs of study for students interested in each profession.

Students planning to pursue professional programs in medicine, dentistry, optometry, osteopathic medicine or podiatry after graduation from University of Maryland must declare an academic major by 60 credits. Students who are undecided about which academic major they will declare may enter the Letters and Sciences, but must adhere to the University of Maryland requirement that students declare a degree-granting major by the time they reach 60 credits.

Pre-professional students who plan to earn a bachelor's degree should declare an academic major by 60 credits. A pre-professional student who does not declare an academic major will be designated as an undecided student in Letters and Sciences, where they will receive academic advising. Pre-professional students, including those interested in the allied health fields, may receive advising related to admission to professional school requirements through the Health Professions Advising Office, however the HPAO does not serve as a student's assigned academic advising unit.

Students interested in allied health professions can in some cases transfer to such programs before earning a bachelor's degree. Such students may enter Letters and Sciences, where they will receive academic advising.

The University of Maryland participates in an early assurance program with George Washington University School of Medicine. More information can be found at <http://www.prehealth.umd.edu/early-assurance-programs>.

Pre-Dental Hygiene

1210 HJ Patterson Hall, 301 405 7805
prehealth.umd.edu
preprof@umd.edu

The Pre-Dental Hygiene track prepares students for entrance into a professional curriculum for Dental Hygiene at institutions that offer a Bachelor of Science in Dental Hygiene. Pre-Dental Hygiene is not a Pre-Dental major and is not a degree-granting program at the University of Maryland, College Park. A Baccalaureate degree program for a Bachelor of Science in Dental Hygiene (B.S.-D.H.) follows a 2+2 model. Students may complete two years of prerequisite courses at the University of Maryland, College Park, and then apply for admission into a professional school program which they will complete after an additional two years.

University of Maryland students also have the option of completing a four-year degree at College Park in a selected major, in addition to completing dental hygiene prerequisites, the 4+2 model. In this case, students will complete degree requirements in their chosen major, as well as the pre-dental hygiene prerequisites for entrance into a professional dental hygiene program. They will then apply for admission into a professional school where they will earn a Bachelor of Science in Dental Hygiene upon successful completion of the program.

Prerequisites may change; students are strongly encouraged to contact professional programs for the most current requirements. The American Dental Hygienists Association and the American Dental Association maintain information about individual B.S.-D.H. program prerequisites. See www.adea.org.

Pre-Dentistry

1210 HJ Patterson Hall, 301-405-7805
prehealth.umd.edu
preprof@umd.edu

The pre-professional program for pre-dental students provides advising for students preparing to apply to dental school. The recommendations of American dental schools and the requirements for a baccalaureate degree at the University of Maryland form the basis for the advising.

Four-Year Baccalaureate Program

Pre-dental students at the University of Maryland are encouraged to complete a four-year undergraduate degree, with a diversified curriculum, balancing humanities, social sciences and fine arts courses with science and mathematics courses, prior to entering dental school. Courses in which students work with their hands are also advised. Students in the four-year program must plan an undergraduate experience that satisfies the requirements of their selected major, as well as pre-dental admission requirements. Students should seek pre-dental advising early in order to create an appropriate four-year pre-dental plan. The national association www.adea.org provides current information for applicants.

Students who have completed AP or IB programs and received credit for courses in the sciences that are required for dental school admission are advised to read the AP/IB section of the HPAO website (<http://www.prehealth.umd.edu/ab-and-ib-credit>) and review individual school websites for their specific policies toward this credit.

Three-year Arts-Dentistry Degree Program

For highly motivated and academically talented students, the University of Maryland, College Park and University of Maryland School of Dentistry offer the three-year Arts-Dentistry Program. This program gives students the opportunity to apply to the University of Maryland School of Dentistry one year early. This accelerated program requires students to complete their dental school admission requirements in three years, as they apply to dental school at the end of the second year and the beginning of their third year. Competitive students must apply and be accepted by the University of Maryland Dental School. Students accepted in the combined arts-dentistry program, receive the B.S. degree (Arts-Dentistry) after satisfactory completion of the first year at the dental school and upon the recommendation of the Dean of the School of Dentistry and approval of the University of Maryland, College Park. Participation in the combined-degree program at the University of Maryland, College Park does not guarantee admission to the University of Maryland School of Dentistry.

The HPAO strongly urges incoming students interested in this combined-degree program to identify their interest and consult with the Pre-Health advisor very early in their academic career. Please visit the website for specific details and instruction. This is a highly competitive program for top students with broad exposure to the dental field and other extracurricular activities.

Pre-Medicine (Allopathic, Osteopathic, Optometry, Podiatry)

1210 HJ Patterson Hall, 301-405-7805
prehealth.umd.edu
preprof@umd.edu

Four-Year Baccalaureate Program

It is recommended that students planning to apply to medical school complete a four-year undergraduate degree prior to entrance into medical school. Students should choose an undergraduate degree program that matches their interests, and should plan how to satisfy their degree requirements and the general education requirements along with the courses in the natural and social sciences required for medical school admission. Students should seek pre-medical advising early in order to create an appropriate four-year academic plan. The HPAO website provides specific information on each of the medical programs. The national associations: AAMC, www.aamc.org and AACOM, aacom.org provide current information for applicants.

Students who have completed AP or IB programs and received credit for courses in the sciences that are required for medical school admission are advised to read the AP/IB section of the HPAO website (<http://www.prehealth.umd.edu/ab-and-ib-credit>) and review individual school websites for their specific policies toward this credit.

Early Assurance Program

University of Maryland students have the opportunity to apply to The George Washington University School of Medicine Early Assurance Program. This program encourages talented and committed undergraduate sophomore students in the humanities, who have achieved academic distinction and a record of service to others in and out of the medical field, to gain a provisional early acceptance to the M.D. program. The George Washington University School of Medicine and Health Sciences makes the decision to accept a qualified student into the program. Selected sophomore students (rising juniors, when selected) are nurtured through their undergraduate experience at the University of Maryland. Upon successful completion of the undergraduate program and all delineated requirements, students are guaranteed admission to The George Washington University School of Medicine and Health Sciences for a four-year M.D. degree program. Please visit HPAO to learn more about this program; the pre-medical website offers detailed information and specific instructions: <http://www.prehealth.umd.edu/early-assurance-programs>.

Pre-Nursing

1210 HJ Patterson Hall, 301 405 7805
prehealth.umd.edu
preprof@umd.edu

The Pre-Nursing track prepares students for entrance into a professional curriculum for Nursing at institutions that offer Bachelor of Science in Nursing programs. Pre-Nursing is not a degree-granting program at the University of Maryland, College Park. A Baccalaureate degree program for a Bachelor of Science in Nursing (B.S.N.) follows a 2+2 model also known as a Traditional Baccalaureate program. Students may complete two years of prerequisite courses at the University of Maryland, College Park, and then apply for admission into a professional school to complete two years of professional course work, which includes classroom, laboratory, and clinical education. Prerequisite courses are not limited to two years and can be completed in three years.

University of Maryland College Park/University of Maryland School of Nursing Guaranteed Admission Pathway: First time Freshmen admitted to University of Maryland College Park are eligible to participate in a guaranteed admission pathway with the University of Maryland School of Nursing. Students may be admitted directly into the pathway upon admission to University of Maryland, College Park or may enter the pathway after matriculation. Students must complete pre-requisite coursework earning a 3.25 overall and a 3.0 in the required science coursework in order to maintain eligibility for guaranteed admission to University of Maryland School of Nursing where the rest of their training is completed. For more information visit www.prehealth.umd.edu.

University of Maryland students also have the option of completing a four-year degree at College Park in their selected major, in addition to completing approximately twenty to twenty-five credits of nursing prerequisites. This is the Second Degree or Accelerated Second Degree model. In this model, students complete degree requirements in their chosen major, as well as the nursing prerequisites for entrance into an accelerated B.S.N. or C.N.L. program. The institution offering the program confers a Bachelor of Science in Nursing or Clinical Nurse Leader (Masters of Science) upon completion of the program.

Prerequisites may change; students are strongly encouraged to contact professional programs for the most current requirements. The American Association of Colleges of Nursing maintains specific information about individual nursing program prerequisites.

Pre-Occupational Therapy

1210 HJ Patterson Hall, 301 405 7805
prehealth.umd.edu
preprof@umd.edu

The Pre-Occupational Therapy track prepares students for entrance into a professional curriculum for Occupational Therapy at institutions that offer professional advanced degrees, including master or doctoral degrees. Community colleges and technical schools offer associate degrees or certificates to students who wish to become occupational therapy assistants. Some colleges offer Bachelor degrees in Occupational Therapy, while others offer combined Bachelor and Master degree programs.

Students who wish to enter the occupational therapy profession may choose from several educational paths; they should thoroughly research the different options to determine the best path to their career goals. University of Maryland students have the option of completing a four-year degree at College Park, in their selected major, in addition to completing occupational therapy prerequisites. They may then choose to complete a Post-Bachelor certificate, Master of Science or doctoral degree in Occupational Therapy offered by professional schools. Some states require a degree in occupational therapy prior to approving licensure to work as an occupational therapist in that state. The certificate cannot substitute for a degree. Students should become familiar with the laws of the state(s) in which they wish to work if they choose to pursue a certificate rather than a degree.

Prerequisites may change; students are strongly encouraged to contact professional programs for the most current requirements. The American Occupational Therapy Association maintains specific information about individual program prerequisites. See www.aota.org.

Pre-Pharmacy

1210 HJ Patterson Hall, 301 405 7805
prehealth.umd.edu
preprof@umd.edu

The Pre-Pharmacy track prepares students for entrance into a professional curriculum for Pharmacy at institutions that offer a Doctor of Pharmacy (Pharm.D.) degree program. Pre-Pharmacy is not a degree-granting program at the University of Maryland, College Park. A Pharm.D. degree program follows a 2+4 model in which students complete two years of prerequisite courses at the University of Maryland, College Park and then apply for admission into a professional pharmacy school to complete four years of professional coursework, which includes classroom, laboratory, and clinical education. Prerequisite courses are not limited to two years and can be completed in three years.

University of Maryland students also have the option of completing a four-year degree at College Park in their selected major, in addition to completing pharmacy school prerequisites, a 4 + 4 model. In this model, students complete degree requirements in their chosen major, as well as the pre-pharmacy prerequisites for entrance into a professional pharmacy program. The institution offering the program confers a Pharm.D. degree upon completion of the program.

Prerequisites may change; students are strongly encouraged to contact professional programs for the most current requirements. The American Association of Colleges of Pharmacy maintains information about individual Pharm.D. program prerequisites. See www.aacp.org.

Pre-Physical Therapy

1210 HJ Patterson Hall, 301 405 7805
prehealth.umd.edu
preprof@umd.edu

The Pre-Physical Therapy track prepares students for entrance into a professional curriculum for Physical Therapy at institutions that offer a doctoral degree. Pre-Physical Therapy is not a degree-granting program at the University of Maryland, College Park.

Most physical therapy schools now confer only doctoral degrees, Doctor of Physical Therapy (D.P.T.). Currently, the accepted, entry-level clinical degree to practice as a Physical Therapist is the D.P.T. The length of time to complete the D.P.T. coursework is usually three years. University of Maryland students interested in attending a D.P.T. program need to complete a four-year degree in their selected major in addition to completing physical therapy prerequisites. The coursework required to enter a Doctor of Physical Therapy (D.P.T.) degree program varies depending on the professional schools to which the student intends to apply and the expected year of matriculation into the professional phase of Physical Therapy. Most physical therapy schools also require some health-care experience in the physical therapy field.

Several educational paths exist for students who wish to enter the physical therapy field. Students are encouraged to thoroughly research this profession and determine which educational path best leads to their particular career goals.

Prerequisites may change; students are strongly encouraged to contact professional programs for the most current requirements. The American Physical Therapy Association as well as the Physical Therapy Centralized Application Service maintains information about individual program prerequisites. See www.apta.org and/or www.ptcas.org.

Pre-Physician Assistant

1210 HJ Patterson Hall, 301 405 7805
prehealth.umd.edu
preprof@umd.edu

The Pre-Physician Assistant (P.A.) program prepares students for entrance into a professional curriculum for Physician Assistant at institutions that offer a Master's degree in this field. Pre-Physician Assistant is not a degree-granting program at the University of Maryland, College Park. At the University of Maryland, students may complete the necessary prerequisite courses required by the professional physician assistant programs to which they will be applying. Pre-Physician Assistant typically follows a 4+2 model (though some professional programs may exceed 2 years). Students complete a four-year degree at College Park in their selected major, in addition to completing Physician Assistant prerequisites in areas including but not limited to science, psychology, and statistics. Most physician assistant schools also require health-care experience, many preferring applicants to have worked directly with patients. The institution offering the program confers a Master's degree upon completion of the Physician Assistant program.

Several educational paths exist for students who wish to enter the physician assistant field. Due to the many variables in the educational options, students are encouraged to thoroughly research this profession and determine which educational path best leads to their particular career goals. Students should check the particular prerequisites of the P.A. educational programs that interest them.

Prerequisites may change; students are strongly encouraged to contact professional programs for the most current requirements. The American Academy of Physician Assistants as well as Physician Assistant Education Association maintains information about individual program prerequisites. See www.aapa.org and/or www.paeonline.org.

Other Health Programs

1210 HJ Patterson Hall, 301 405 7805
prehealth.umd.edu
preprof@umd.edu

The pre-biomedical science research and medical technology program prepares students for entrance into the professional curriculum for medical technologists and biotechnologists. Pre-Medical Technology is not a degree-granting program at the University of Maryland, College Park.

A degree program for a Bachelor of Science in Medical Technology (B.S.-M.T.) generally follows a 2+2 model. Students may complete two years of prerequisite courses at the University of Maryland, College Park and then apply for admission into a professional school to complete two years of professional coursework, which includes classroom, laboratory, and clinical education.

University of Maryland students also have the option of completing a four-year degree at College Park in their selected major, in addition to completing medical technology prerequisites, the 4 + 2 model. In this model, students complete degree requirements in their chosen major, as well as the pre-medical technology prerequisites for entrance into a professional medical technology program. The institution offering the program confers a Bachelor of Science in Medical Technology degree upon completion of the program.

Prerequisites may change; students are strongly encouraged to contact professional programs for the most current requirements. The American Society of Clinical Pathologists and the National Accrediting Agency for Clinical Laboratory Sciences maintain information about individual B.S.-M.T. program prerequisites.

Pre-Professional Advising: Law

0110 Hornbake Library, 301-405-2793
www.prelaw.umd.edu
gshaffer@umd.edu

Pre-Law Advising Program

0110 Hornbake Library, 301-405-2793
www.prelaw.umd.edu
prelawadvisor@umd.edu

The Pre-Law Advising Office within Letters and Sciences serves all current and former students at the University of Maryland interested in pursuing law school and careers in law. The program provides students with law school planning, including individual and group advising, career preparation workshops, admission information, and much more. While law schools do not require, favor, or prefer specific majors, the pre-law advisor can provide guidance concerning the choice of major. Pre-law does not serve as an undergraduate major, nor does the program require completion of a specific academic curriculum.

Four-Year Baccalaureate Program

Most law schools require applicants to have received a Bachelor's degree prior to law school enrollment. A wide variety of majors give students an excellent foundation for law school. The student should select a major and plan an undergraduate experience in which they will be successful and helps them acquire skills that are essential in preparing to perform well on the LSAT, in law school, and ultimately as a lawyer. These skills include imaginative and coherent thinking, critical reasoning, accurate and perceptive reading, and a strong command of the spoken and written language, including grammar.

In some cases, law schools will consider truly outstanding applicants with only three years of academic work, as described below. Law schools do not require the completion of prerequisite courses for admission, but they do require that the student follow one of the standard academic majors offered at the student's undergraduate institution. The LSAT is offered four times per calendar year and is required of all applicants. More information on the LSAT and related admissions material may be found at www.lsac.org.

Three-Year Arts/Law Degree

The University of Maryland has cooperative agreements with the University of Baltimore School of Law and University of Maryland Francis King Carey School of Law. These agreements provide students at College Park, who are enrolled in any recognized major and meet certain qualifications, with the opportunity to apply to law school one year early. If accepted, the Three-Year Arts/Law Degree program allows students to begin their law school studies prior to their receipt of their baccalaureate degree. Instead, the University of Maryland, College Park awards these students their baccalaureate degree in Arts/Law upon satisfactory completion of the first year of law school. Participation in this program at the University of Maryland, College Park and application to the University of Baltimore Law School or University of Maryland Francis King Carey School of Law under this program does not guarantee admission.

This program is only available with the University of Baltimore Law School and University of Maryland Francis King Carey School of Law and may not be an appropriate choice for all students. Students who consider this program should contact the pre-law advisor for more information or view the website, at www.prelaw.umd.edu.

Pre-Professional Advising: Pre-Veterinary Medicine

1409 Animal Sciences Center, 301-405-6495
<http://ansc.umd.edu/undergraduate/vet-school-faq>
[sbacom@umd.edu](mailto:sbalcom@umd.edu)

Advising for pre-veterinary students occurs at two levels: initially, Dr. Sarah Balcom, DVM, pre-veterinary advisor in the Department of Animal and Avian Sciences (1409 Animal Sciences Center; 301-405-6495 or email at [sbacom@umd.edu](mailto:sbalcom@umd.edu)), will advise students, regardless of major, about preparing for veterinary school. During the freshmen and sophomore years, advising is done through spring group advising meetings which cover topics such as coursework, grades, finances, extra-curricular activities, gaining animal and veterinary experience, and securing academic and professional references. For students in the process of applying to veterinary school, Dr. Balcom is available for email and one-on-one consultations. As students progress and establish academic credentials, they should also use the advising resources of the Virginia-Maryland Regional College of Veterinary Medicine, 8075 Greenmead Drive, University of Maryland, College Park, MD 20742-3711. Dr. Nathaniel Tablante (301-314-6810, nlt@umd.edu) is the pre-veterinary advisor for the Regional College at that location.

Pre-Veterinary Medicine

1409 Animal Sciences Center, 301-405-6495
<http://ansc.umd.edu/undergraduate/vet-school-faq>
[sbacom@umd.edu](mailto:sbalcom@umd.edu)

University of Maryland students in any major may prepare for admission to veterinary school by completing the basic science and other courses required by veterinary colleges. The College of Agriculture and Natural Resources major in Animal Sciences (Science/Pre-professional option) includes many of the commonly required courses; however, students should consult catalogs from the veterinary schools to which they are interested in applying to determine the specific courses required by each. That information is available through the American Association of Veterinary Medical Colleges (<http://www.aavmc.org/>).

Advising for pre-veterinary students occurs at two levels: initially, Dr. Sarah Balcom, DVM, pre-veterinary advisor in the Department of Animal and Avian Sciences (1409 Animal Sciences Center; 301-405-6495 or email at [sbacom@umd.edu](mailto:sbalcom@umd.edu)), will advise students, regardless of major, about preparing for veterinary school. During the freshmen and sophomore years, advising is done through spring group advising meetings which cover topics such as coursework, grades, finances, extra-curricular activities, gaining animal and veterinary experience, and securing academic and professional references. For students in the process of applying to veterinary school, Dr. Balcom is available for email and one-on-one consultations. As students progress and establish academic credentials, they should also use the advising resources of the Virginia-Maryland Regional College of Veterinary Medicine, 8075 Greenmead Drive, University of Maryland, College Park, MD 20742-3711. Dr. Nathaniel Tablante (301-314-6810, nlt@umd.edu) is the pre-veterinary advisor for the Regional College at that location.

There is also a active pre-veterinary society (<http://agnr.umd.edu/students/clubs-and-organizations/veterinary-science-club>) on campus that provides its members with regular speakers, animal volunteering opportunities, networking, and comradery. Pre-veterinary students are strongly encouraged to join.

Pre-veterinary students are asked to read our Pre-veterinary advising guide (<http://ansc.umd.edu/undergraduate/vet-school-faq>), as it answers many common questions about preparing for and applying to veterinary schools.

Early Admission:

Students enrolled in the Combined Degree Option (<http://ansc.umd.edu/undergraduate/program-options/combined-ag-veterinary-medicine-1299d>) are eligible for a special degree program that confers a Bachelor of Science degree in Agriculture and Pre-Veterinary Medicine. Students who will have completed 90 undergraduate credits (including all science courses required for veterinary school application and university general education) and who will have met other application criteria for veterinary schools by the end of the junior year, may apply in the Fall of their junior year. If they matriculate in an accredited college of veterinary medicine, they may apply the successful completion of the first thirty hours of their professional training towards the completion of their baccalaureate degree. See the Undergraduate Catalog entry for Animal Sciences for more details.

Psychology (PSYC)

College of Behavioral and Social Sciences

1121 Biology-Psychology Building, 301-405-5862

www.psychology.umd.edu

psycadvising@umd.edu

Chair: J. Blanchard

Director: M. Dougherty (Director of Graduate Studies), N. Salahuddin (Director of Undergraduate Studies)

Professors: G. Ball (Dean, BSOS), O. Barbarin (Chair, African-American Studies), J. Blanchard, S. Brauth, J. Cassidy (Distinguished Scholar-Teacher), A. Chronis-Tuscano, R. Dooling (Distinguished Scholar-Teacher), M. Dougherty (Associate Chair), M. Gelfand (Distinguished Scholar-Teacher), P. Hanges, C. Hill, A. Kruglanski (Distinguished University Professor), K. O'Brien, L. Pessoa, C. Stangor

Associate Professors: A. De Los Reyes, L. Dougherty, J. Herberholz, E. Lemay, L. MacPherson, K. Norman, M. Roesch, D. Yager (Associate Chair)

Assistant Professors: J. Beier, E. Bernat, E. Glasper, J. Grand, D. Iwamoto, J. Mohr, E. Redcay, T. Riggins, A. Shackman, R. Slevc, J. Wessel

Lecturers: R. Curtis (Assistant Director of Undergraduate Studies), S. Roberts, N. Salahuddin, D. Seltermann, T. Tomlinson

Professors Emeriti: R. Brown, C. Gelso, W. Hall, W. Hodos (Distinguished University Professor), C. Moss, K. Murnane, K. O'Grady, H. Sigall, B. Smith, R. Steele, C. Sternheim, F. Tyler, T. Wallsten

The Major

The undergraduate major in psychology provides an introduction to the methods by which the behavior of humans and other organisms are studied, and to the biological conditions and social factors that influence thought and behavior. Courses are organized into three broad themes: 1) Mind, Brain, and Behavior; 2) Mental Health and Interventions; and 3) Social, Developmental, and Organizational Studies.

The program emphasizes a strong foundation in quantitative and research methods. Beyond coursework, students will have opportunities to assist with and conduct research, and important advantage in any career path.

Students who are interested in the biological aspects of behavior tend to choose a program leading to the Bachelor of Science (BS) degree, while those interested primarily in the impact of social factors on behavior tend to choose the Bachelor of Arts (BA) degree. The choice of program is made in consultation with an academic advisor.

Courses offered by this department may be found under the following acronym: PSYC

Program Objectives

At the undergraduate level, students in the BA and BS programs in psychology will acquire a broad exposure to the field of psychology. They will acquire the tools and experiences necessary for future training or work in the behavioral and social sciences. These include a foundation in research methods, critical and creative problem solving skills, and the communication skills necessary to impart this knowledge to others. Students should also have developed content knowledge representing both the breadth and depth of the fields in psychology.

Program Learning Outcomes

The undergraduate curriculum in psychology has been designed to challenge students and to highlight the four major learning objectives that will prepare our graduates for productive roles in society. These learning objectives are consistent with the institutional goals developed in the University of Maryland Learning Outcomes (<https://www.irpa.umd.edu/Assessment/>) and the American Psychological Association's (<http://www.apa.org/ed/precollege/ptn/2014/02/undergraduate-guidelines.aspx>) recommendations for undergraduate programs.

- **Research Methods in Psychology**

Students should understand and apply basic research methods in psychology including research design, data analysis, and interpretation.

- **Critical Thinking Skills in Psychology**

Students should be able to use critical and creative thinking, skeptical inquiry, and, when possible, the scientific approach to solve problems related to behavior and mental processes.

- **Communication Skills**

Students should be able to communicate effectively in a variety of formats.

- **Content in Psychology**

Students should demonstrate familiarity with the questions that gave rise to content knowledge, a sampling of the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology.

In addition, students completing the Psychology major will have an understanding of cultural and social diversity. Students should demonstrate ethical decision-making and cultural competence in all professional activities.

For more information on the psychology learning outcomes, go to the department website: <http://psychology.umd.edu>.

Academic Programs and Departmental Facilities

State of the art research labs in the Psychology Department provide students with opportunities for studies in clinical and counseling psychology, cognitive and neural systems, developmental psychology, and social, decisional and organizational sciences. Students benefit from a close relationship with the University Counseling Center. The new Maryland Neuroimaging Center makes available facilities for several types of functional brain imaging including fMRI and high-density EEG. The Psychology Department also contains the internationally recognized Center for Addictions, Personality, and Emotions Research (CAPER).

Admission to the Major

In accordance with University policy, the Department of Psychology has been designated a Limited Enrollment Program (LEP) (<http://www.lep.umd.edu/>). All first-time freshman who request psychology as a major will be directly admitted into the major. Other first-time freshman who wish to declare psychology as a major prior to the last day of classes of their first semester in residence will be allowed to do so.

In order to remain a psychology major, newly admitted freshman will be required to meet an academic performance review on or before the end of the semester in which they earned 45 University of Maryland credits. This standard includes:

- Completion of PSYC100 with a grade of "B-" or higher (if the student has Advanced Placement credit for PSYC100, the student must complete PSYC221 with a grade of "B-" or higher)
- Completion of MATH120 or MATH220 or MATH140 with a grade of "C-" or higher. MATH 140 is highly recommended for students pursuing a B.S. in Psychology. (MATH 130 is acceptable only for declared PSYC/BSOI double majors and for students who have taken the course prior to becoming a PSYC major.)
- Completion of BSCI1170 (Principles of Molecular and Cellular Biology) and BSCI1171 (Principles of Molecular and Cellular Biology Lab) with a minimum grade of "C-" in both courses.
- A minimum cumulative grade point average of 2.00 in all coursework taken at the University of Maryland.

All other students, including both internal and external transfer students, will be admitted to the program only if they have met the above LEP requirements and also have a minimum cumulative GPA based on all previous college-level coursework of 2.70 or higher.

For a more detailed discussion of LEP policies visit www.lep.umd.edu and then call 301-405-5866 to consult with one of our academic advisors.

Any student denied admission or dismissed from the major may appeal to the Director of Undergraduate Studies in Psychology (<http://psychology.umd.edu>).

Internal transfer students may appeal to the Office of the Dean for Behavioral and Social Sciences (www.bsos.umd.edu).

External transfer students may appeal to the Office of Admissions (www.admissions.umd.edu).

Requirements for the Major

All students must complete at least 35 credits (11 courses) in Psychology. The required courses include:

- PSYC100 – Introduction to Psychology

- PSYC200 – Statistical Methods in Psychology
- PSYC300 – Research Methods in Psychology (4 credit lab)
- A minimum of 2 courses from each of the following three thematic areas:
 - Mind, Brain, & Behavior
 - Mental Health & Interventions
 - Social, Developmental, & Organizational Processes
- Two 400 level, 3 credit PSYC courses
- One additional 4 credit PSYC lab course

A detailed list of courses by theme can be found at the following link: <http://psychology.umd.edu/undergraduate/courses-syllabi>

A grade of "C-" or better must be earned in all 35 credits of psychology courses used for the major, except for PSYC100 (or PSYC221, if AP credit was earned for PSYC100), in which the grade must be "B-" or higher. No course may be used as a prerequisite unless a grade of "C-" is earned in that course prior to its use as a prerequisite.

Students pursuing the Bachelor of Science degree option must complete a minimum of 5 courses/17 credits in mathematics and science. At least three courses must be advanced and at least two courses must contain a lab. The 5 courses/17 credits must be completed with at least a 2.0 average. MATH140 (highly recommended) or MATH120 (formerly MATH220) and BSCI170 plus BSCI171, may be used to satisfy part of the requirement for the B.S. degree. (MATH130 is acceptable only for declared PSYC/BSCI double majors and for students who have taken the course prior to becoming a PSYC major.) Students should consult the following website for a list of approved advanced math and science courses for the Bachelor of Science in psychology: <http://ter.ps/psycbs>

Requirements for the Minor

Neurosciences

The minor in Neurosciences will give the highly qualified and motivated undergraduate an opportunity to study Neuroscience. The emphasis includes study in systems, cognitive, and computational neuroscience in a manner that crosses the traditional boundaries of Psychology, Biological Sciences, and other related disciplines. The minor is most appropriate for students who already have a background in the biological sciences or psychology.

- All majors are eligible for the minor except students in the Physiology & Neurobiology (PHNB) track in Biological Sciences (BSCI).
- There are a number of science course prerequisites for the required and elective classes. Students should carefully review the prerequisites for all courses listed for the Neurosciences minor. A student without a sufficient science background may not be able to complete the minor in the allotted credits.
- Students may only count a maximum of two courses (6-8 credits) toward both their major degree requirements and the minor in Neurosciences.

Eligibility and Application to the Minor

In order to apply for the minor in Neurosciences, a student must have:

1. Completed at least 30 college credits and at least 15 credits at UM.
2. Earned at least a "C-" in BSCI170&171 and CHEM131&132 or have AP equivalents.
3. Earned at least a "C-" in PSYC301 or BSCI330.
4. Be in good academic standing.

Applications for the Minor in Neurosciences will be considered three times each year on October 1, March 1, and June 1. Students will be notified via email regarding the status of their application within three weeks of the submission deadline so that students will know whether or not they are accepted to the prior to early registration for the next semester.

Interested students may submit an application for the minor to the Undergraduate Psychology Office (BPS 1121). Applications are available on the Neurosciences and Cognitive Sciences (NACS) Program website at www.nacs.umd.edu.

Course Requirements

There are five required courses (11-14 credits) and two elective courses (6-8 credits) for a total of 17-22 credits to complete the minor. The five required courses and their prerequisites are listed below. All courses used to satisfy the requirements of the minor must be completed with a grade of "C-" or better. Students must have a minimum 2.0 cumulative grade point average across all courses used to satisfy the minor requirements. A list of eligible electives can be found on the program website at www.nacs.umd.edu.

Required Courses	Course	Prerequisites
<i>(5 courses, 11-14 credits)</i>		
PSYC301 or BSCI453	PSYC301 Biological Basis of Behavior (3)	BSCI170&171, PSYC100
	BSCI453 Cellular Neurophysiology (3)	BSCI330, CHEM231/232, PHYS122
PSYC401 or BSCI454	PSYC401 Biological Basis of Behavior Lab (4)	BSCI170&171, PSYC200, PSYC301 or equiv.
	BSCI454 Neurophysiology Lab (1)	BSCI330, CHEM231/232, PHYS122
PSYC402 or BSCI446	PSYC402 Neural Systems (3)	PSYC206 or PSYC301
	BSCI446 Neural Systems (3)	BSCI330
PSYC403 or BSCI360	PSYC403 Animal Behavior (3)	PSYC206 or PSYC301
	BSCI360 Principles of Animal Behavior (3)	BSCI170&171, BSCI160&161, BSCI222
PSYC409	Topics in Neuroscience Seminar (1)	Permission of Instructor & Department

Advising

The Department of Psychology's Office of Undergraduate Studies has three full-time academic advisors to assist you every step of the way. Advising is not mandatory, but we encourage all students to schedule an appointment at least once a semester, particularly first year freshmen, new psychology majors, and first semester transfer students to take advantage of advising. Advisors are located in the Biology-Psychology Building Room 1121.

Some examples of common advising services include assistance with:

- Strategies for degree completion
- Opportunities in the psychology major
- Department and university policies
- Career and internship opportunities
- Research opportunities
- Social and personal adjustment to university life
- Preparation for graduate study
- Other ways to enrich your undergraduate experience

For assistance via email write PSYCadvising@umd.edu

Walk-in advising: Monday through Friday 10 a.m. - noon. No appointment is necessary.

Appointments: Call **301-405-5866** to schedule afternoon appointments.

Contact information for the staff of the Office of Undergraduate Studies can be found on <http://psychology.umd.edu/undergraduate/psvc-advising>

Undergraduate Research Experiences

Research experience is strongly encouraged for students who wish to pursue graduate training in psychology. The faculty welcome undergraduate research students into their labs, and every semester over 100 students take advantage of these opportunities. The Office of Undergraduate Studies advertises opportunities for students to participate in research. See <http://ter.ps/PSYCblog> and subscribe to receive announcements by email. Many students also find research opportunities on their own by approaching individual faculty members and graduate students with whom they share common research interests.

Freshmen and sophomore students can participate as a Maryland Student Researcher in the Maryland Center for Undergraduate Research. Students participating in this program have the opportunity to work individually with faculty members.

If eligible, students can earn academic credit for research participation (maximum of 9 credits) through PSYC479, Independent Research in Psychology. Applications and requirements for PSYC479 are available here: <http://psychology.umd.edu/undergraduate/research-assistantships>

Internships

The Washington D.C. Area is rich in offering a variety of high-quality psychological research and practice opportunities. These include research organizations, training and service-delivery agencies, and institutions involved in legal, policy, and legislative concerns that intimately affect the psychological well-being of the nation. Opportunities for field experience exist in all areas of psychology.

Working with psychologists and related professionals in these settings can be a source of considerable enrichment for you. You can apply your classroom learning, test out your interests and skills in psychology, and receive training in a specialized aspect of psychology which is not available on campus.

The Psychology E-News Blog (<http://umdpsvc.blogspot.com/>), the University Career Center and the President's Promise (<http://www.studentaffairs.umd.edu/university-career-center-the-president-s-promise>), and individual organizations in the area are all good sources for you to consult in your search for an internship experience. Some additional tips on finding internships are posted online here: <http://psychology.umd.edu/undergraduate/finding-internships>

If you have identified a psychology-related internship opportunity and would like it to be considered for academic credit, you should download and submit the PSYC389 contract online (<http://psychology.umd.edu/undergraduate/psvc-forms>), once you are sure that you meet the requirements.

Honors Program

The Honors Program in Psychology is designed to enrich and accelerate the acquisition of knowledge in the field. The goals of the honors program of the psychology department include:

- Train students to think as independent scholars.
- Provide opportunities for close, scholarly analysis of significant topics in psychology.
- Encourage and provide opportunities for students to undertake independent research.
- Introduce students to a broad range of advanced psychological principles and methodologies.

Details about program eligibility and how to apply are posted here: <http://psychology.umd.edu/undergraduate/psvc-honors-program>

For more information about the Honors Program in Psychology please call 301-405-5866 to schedule an appointment with the Assistant Director of Undergraduate Studies.

Student Societies and Professional Organizations

The University of Maryland chapter of the **Psi Chi International Honor Society in Psychology** provides membership to students who meet the application requirements. Psi Chi members abide by the core values of scholarship, service, and community, receive academic recognition for their achievements in psychology, and have the opportunity to connect and build relationships with other members, faculty members, and professionals. Details and contact information about Psi Chi can be found on the chapter's website <http://umdpsichi.weebly.com>

Active Minds at Maryland is a student-run organization that focuses on mental health awareness and advocacy on campus. Members are students interested in psychology, medicine, and public health, students who have friends or family members with a mental illness, and/or students who are struggling with mental illness themselves. To learn more, please visit the Active Minds office in room 0208R in the Student Involvement Suite of the Stamp Student Union, or visit the Active Minds at Maryland website <http://umdaactiveminds.webs.com/> or facebook page (<http://www.facebook.com/ActiveMindsAtMaryland/info?tab=overview>).

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

The **Mark S. Harper Award for Excellence in Psychology** is given annually at the spring commencement to the graduating senior who best exemplifies the spirit of Mark, a UM Psychology graduate. The top 10 percent of the graduating class are eligible to be nominated by a faculty member for the award.

The Department's **Award for Excellence in Student Leadership** goes to a student nominated by his or her peers for an outstanding commitment to advancing the opportunities and achievements of fellow psychology majors, students and community members.

The **Harper Travel Award** provides travel support for students presenting their research at professional conferences. Please contact the undergraduate office for more information and an application form.

Public Health Science (PHSC)

School of Public Health

SPHL Room 2302 School of Public Health, 301 405-5436
<http://sph.umd.edu/degrees/bs-public-health-science-college-park>
kcips@umd.edu

Chair: B. Alving (Res Prof)

Director: K. Cipriani (Asst Dir)

Associate Professors: M. Haider (Assoc Res Prof), K. Mortensen (Asst Prof)

Assistant Professors: C. Dallal (Asst Prof), T. Dyer (Asst Prof), M. Grantham (Asst Rsch Prof), M. Jones (Asst Prof, Aff Asst Prof), E. King-Marshall (Asst Rsch Prof), D. Payne-Sturges (Asst Prof)

Lecturers: G. De Silva (Lecturer), J. O'Hara (Lecturer)

The Major

The Public Health Science Bachelor of Science degree is an interdisciplinary program designed to provide students with the educational foundation required to effectively address local, national and global issues within the public health arena. As a collaborative degree involving multiple scholarly disciplines, courses offered by this department may be found under the following acronyms: PHSC, SPHL, HLTH, KNES, EPIB, MIEH and HLSA.

The degree effectively prepares students to pursue exciting careers in allied health fields and medicine as well as post-baccalaureate professional and academic degrees.

Program Objectives

The Public Health Science Bachelor of Science degree is an interdisciplinary program designed to provide students with the educational foundation required to effectively address local, national and global issues within the public health arena.

Program Learning Outcomes

1. Students will demonstrate knowledge of the core public health concepts (environmental health sciences, health services administration, biostatistics, epidemiology, and social and behavioral sciences).
2. Students will integrate scientific concepts into the solving of public health issues.
3. Students will apply an interdisciplinary approach to inform public health practice.

Academic Programs and Departmental Facilities

The Public Health Science Program is located within the School of Public Health which houses multiple research centers and laboratories. Grant-funded faculty mentor both graduate and undergraduate students in areas such as neuroscience, alzheimer's, global health, environmental health, health policy, epidemiology, biostatistics, concussions, sports medicine, prosthetics, health equity, tobacco, and community health.

Admission to the Major

It is recommended that prospective students enjoy science and strive to meaningfully translate this knowledge into the core mission of improving public health locally, nationally and globally.

Other Requirements for the Major

Students must earn a "C-" in all courses which are required for the major, including prerequisite courses. Elective coursework is designed to facilitate future career interests in allied health, medicine and/or post-baccalaureate degrees.

Advising

Advising within the degree is strongly recommended. The program advisors coordinate closely with the School of Public Health Center for Academic Success and Achievement as well as the in-house Career Center and the Campus Career Center. Students interested in pursuing medicine should also consult the Allied Health Advising Center.

Undergraduate Research Experiences

Undergraduate research experiences, both research and applied, are highly recommended. Multiple formal opportunities exist both within the School of Public Health as well as the Washington DC metro area. A data base consisting of grant-funded research as well as external sites exists. Students may also propose internship opportunities.

Fieldwork Opportunities

The School of Public Health is, by design, defined by the application of theoretical knowledge to improving health in clinical and large populations. Multiple opportunities exist within the grant-funded SPHL research as well as the immediate metro area.

Internships

The Public Health Science degree maintains a separate internship data base. Please consult the Program Director, Ms. Kristin Cipriani at kcips@umd.edu.

Student Societies and Professional Organizations

The School of Public Health has a robust internal Honors Society composed of students from all four degree programs. Additionally, students are encouraged to become involved in global health opportunities such as Public Health Without Borders (<http://sph.umd.edu/news-item/public-health-without-borders-students-return-peru-explore-new-projects-ethiopia>), Half the Sky Movement (<https://sph.umd.edu/content/half-sky-movement-umd>), Health Leads (<http://www.healthleadsusa.org/>) and SHARE (Supporting Hospitals Abroad with Resources and Equipment).

Scholarships and Financial Assistance

Students may be partially supported through the TerpStart Scholarships, the Jerry Wrenn Scholarships, and the Federal Work Study Work Scholars grants (research internships mentored by SPH faculty). Additionally, The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

The annual Convocation honors highly meritorious students who are recipients of the prestigious Dean's Scholars awards, the Jerry Wrenn Scholarship awards and the Lester M. Fraley award.

Romance Languages (ROML)

College of Arts and Humanities
3106 Jiménez Hall, 301-405-4025
www.romancelanguages.umd.edu

The Major

The Romance Languages Program is intended for students who want to specialize in two of the Romance languages offered in SLLC: French, Italian, and Spanish. Students selecting this major take a total of 45 credits selected from courses in two of the three components. The first four courses listed under each group are required for that particular language component; exceptions or substitutions may be made with the approval of the departmental language advisor only, in consultation with the Romance Languages advisor. 21 credits are taken in each of the two languages, as specified, and three additional credits are taken at the 400 level in either of the languages chosen. Literature or civilization courses may not be taken in translation. Students who wish to apply for Teacher's Certification should consult the College of Education.

Placement in Courses

<http://www.arhu.umd.edu/undergraduate/flpa>

Requirements for the Major

Students must take language-acquisition courses sequentially. Once credit has been received in a higher level language acquisition or grammar course, a lower level course may not be taken for credit.

French Requirements

FREN204	French Grammar and Composition	3
FREN250	Introduction to French Literature	3
FREN301	Composition and Style	3

FREN351	From Romanticism to the Age of Modernism and Beyond	3
FREN352	From the Age of Epic and Romance to the Enlightenment	3
FREN4xx	Two additional literature or civilization courses at the 400 level	6

Italian Requirements

ITAL207	Reading and Writing in Italian	3
ITAL301	Italian Composition	3
ITAL351 or 352 or ITAL361 or 362	One additional course at the 300 level in literature or culture	3
ITAL4xx	Three additional literature or civilization courses at the 400 level with 1 credit colloquium	12

Spanish Requirements

SPAN207	Reading and Writing in Spanish	3
SPAN301	Advanced Grammar and Composition I	3
SPAN303	Approaches to Cultural Materials in Hispanic World	3
Two courses from SPAN331,332, or 333 or Two courses from SPAN361, 362 or 363	Two courses from Spanish Culture, Civilization & Literature I,II or III or Two courses from Latin American Literatures & Cultures I,II or III	6
SPAN4xx	Two literature or civilization courses at the 400 level	6

Additional Requirement for ROML Majors:

One additional course at the 400 level in one of the two languages (3)

Students must earn a grade of "C-" or higher in each course applied toward a major or minor in the School of Languages, Literatures, and Cultures. Additionally, an overall GPA of 2.0 in a major or minor is required for graduation.

Study Abroad

For information on study abroad programs see the program advisor and/or the Education Abroad website www.international.umd.edu/studyabroad.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state, and institutional financial assistance programs, and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

The UG Committee organizes an annual awards ceremony to celebrate SLIC students who have earned SLIC, campus and/or national scholarships, and academic achievement awards. The awards ceremony takes place in conjunction with the annual SLIC UG Research Forum.

Russian Language and Literature (RUSS)**College of Arts and Humanities**

3215 Jiménez Hall, 301-405-4025

www.russian.umd.edu

Associate Professors: M. Lekic, C. Martin, E. Papazian

Lecturers: R. Fradkin (Lecturer), Z. Gerus-Vernola (Maya Brin Distinguished Lecturer)

The Major

The undergraduate major in Russian Language and Literature consists of 40 credits beyond the prerequisite of Elementary Russian (Russian 101-102 or equivalent). Many students pursue a double major or double degree in Russian and another discipline, such as international relations, business, history, economics, journalism, engineering, etc. Russian students have the opportunity to live in St. Mary's Language House, and the majority of majors participate in study abroad. Native or heritage speakers wishing to enroll in Russian courses or major in Russian should consult the undergraduate advisor. Students interested in enrolling in a course that appears closed or that has a waitlist are strongly encouraged to contact the faculty member or undergraduate advisor for Russian for permission to enroll.

Placement in Courses

<http://www.arhu.umd.edu/undergraduate/flpa>

Requirements for the Major

Students must take language-acquisition courses sequentially. Once credit has been received in a higher level language acquisition or grammar course, a lower level course may not be taken for credit.

Requirements

RUSS201	Intermediate Russian I	5
RUSS202	Intermediate Russian II	5
RUSS301	Advanced Russian I	3
RUSS302	Advanced Russian II	3
RUSS3xx	One additional course at 300-level	3
RUSS401	Advanced Russian Composition	3

RUSS402	Practicum in Written Russian	3
RUSS4xx	One additional course at the 400-level	3
RUSS	Two RUSS electives	6
RUSS300/400	Two upper level RUSS electives*	6

*Must be taught in Russian

Notes: One supporting course outside the department (at the 300-level or above) may be counted toward the major with an advisor's prior approval.

Students must earn a grade of "C-" or higher in each course applied toward a major or minor in the School of Languages, Literatures, and Cultures. Additionally, an overall GPA of 2.0 in a major or minor is required for graduation.

Study Abroad

Students majoring in Russian Studies are encouraged to spend a summer or a semester abroad. For information on study abroad programs see www.russian.umd.edu/abroad/index.html.

Requirements for the Minor

Russian Studies

School of Languages, Literatures, and Cultures

www.russian.umd.edu

The minor in Russian Studies is a series of five courses to be chosen in consultation with the departmental advisor. The completion of a Minor in Russian Studies provides students with a broad background in Russian language, literature, and culture.

A minimum of fifteen credits/five courses* is required, to be chosen from among the following:

Courses taught in Russian:

RUSS201, 202, 210, 211, 301, 302, 303, 307, 321, 322, 381, 382, 401, 402, 403, 404, 405, 406, 407, 409, 410, 411, 412, 431, 432, 433, 434, 473

Courses in English:

RUSS221, 222, 281, 282, 298, 327, 328, 329, 398, 439

Courses in SLAVIC may also be counted toward the Russian Studies Minor: SLAV469, 475, 479

Prerequisites for the minor: RUSS102 (Elementary Russian) or the equivalent as determined by the department

**Note that in most cases, five courses of 3-credits each will fulfill the 15-credit requirement. However, RUSS 201 and 202 are 5 credit courses. If a student chooses to count these two courses as part of the minor, they are still required to complete three additional courses (for a total of five courses).*

- Courses taken through Study Abroad programs may be applied.
- A minimum of six credits must be earned from courses in Russian.
- At minimum of nine credits must be at the 300- or 400-level.
- Transfer credits (from study abroad or another US institution) may count toward the minor with approval of the department. In most cases, a maximum of six transfer credits will be approved.
- All courses counting toward the minor must be passed with a "C-" or better.
- An overall GPA of 2.0 in the minor is required for graduation.
- Substitutions of other departmental offerings may be approved by the advisor.

Oversight of the minor program will be through the normal academic processes of the Russian program in the School of Languages, Literatures and Cultures. The Undergraduate Advisor will be responsible for ensuring that students are properly advised and that records are appropriately kept.

To make an appointment or declare a minor, go to www.arhu.umd.edu/undergraduate/academics/minors

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state, and institutional financial assistance programs, and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

The UG Committee organizes an annual awards ceremony to celebrate SLLC students who have earned SLLC, campus and/or national scholarships, and academic achievement awards. The awards ceremony takes place in conjunction with the annual SLLC UG Research Forum.

Science Education (TLPL)

Sociology (SOCY)

College of Behavioral and Social Sciences

2108 Parren J. Mitchell Art/Sociology Building, 301-405-6389

<http://www.socy.umd.edu/>

Chair: R. Korzeniewicz (Prof & Chair)

Director: L. Moghadam (Undergrad Director), L. Sayer (Prof & Grad Director)

Professors: F. Chen, P. Cohen (Prof), P. Collins, S. Desai, K. Finsterbusch, D. Fisher (Prof), J. Kahn, R. Korzeniewicz, J. Lucas (Prof & Assoc Chair), M. Moaddel (Prof), S. Presser, M. Rendall (Prof & Dir MPRC), G. Ritzer, R. Vanneman (Prof), A. Villarreal (Prof), W. Yu (Prof)

Associate Professors: M. Kestnbaum, M. Kleykamp, K. Marsh, A. Neustadt, J. Park (Assoc Prof), J. Pease

Assistant Professors: C. Prell, R. Ray

Lecturers: A. Forsythe (Lecturer), R. Pernick (Lecturer), Y. Yu (Lecturer)

Professors Emeriti: R. Clignet, E. Dager, W. Falk, J. Hage, J. Hunt, L. Hunt, K. Kammeyer, L. Landry, J. Lengermann, B. Meeker, M. Milkie (Prof Emeritus), J.

Robinson, D. Segal, M. Segal

Visiting Faculty: D. Schaefer (Visit Assoc Prof)

The Major

Sociology is the scientific study of society and its institutions, organizations, and groups. By observing the broad range of activities in society, and exploring topics such as social class, race, gender, deviance, family, religion, the work place, and demographic trends, sociologists provide important information and perspectives on our social order and the causes and impacts of social change. Sociology provides important information useful both to personal life and public policy decisions. Sociology is among the broadest of the social sciences and is characterized by considerable pluralism in

theoretical and methodological approaches, substantive specializations, and in units of analysis.

Students major in Sociology for a variety of reasons. Some emphasize sociology's relevance to understanding a broad range of social issues that interest them out of intellectual curiosity, personal life relevance, or usefulness for ameliorative social change efforts. Other majors emphasize acquisition of sociological knowledge and skills useful in a variety of career paths where understanding societal problems and trends, group dynamics, and personnel issues are critical. For a small core of majors the purpose of the undergraduate program is preparation and training for admissions to graduate programs and eventual careers as sociologists in teaching and research and/or policy development. Majors may also use sociology as a basis for graduate study in related fields, including law, social work, public policy, and human resource management.

Courses offered by this department may be found under the acronym: SOCY.

Program Objectives

The overall goals of the program are:

- To provide meaningful and challenging courses within the University general education program
- To provide meaningful and challenging courses as electives for non-majors
- To provide a coherent program of courses for Sociology majors which enables majors to attain:
 - a) general sociological knowledge and understanding of our society
 - b) sociological knowledge and skills relevant to a variety of career paths
 - c) sociological knowledge and skills relevant to application and success within competitive sociology graduate programs
 - d) to provide a Sociology Honors component for selected students who have the capability and motivation to work at the most challenging level

Program Learning Outcomes

Having completed the degree program, students should have acquired the following knowledge and skills:

- To be able to think critically and assess information about society using sociological concepts and a social science mode of argument.
- To be confident in one's understanding of key questions addressed by the discipline and the ways in which social structure and social interaction shape human behavior.
- To feel competent to use research tools to conduct and assess research.
- To understand the role of theory in the construction of sociological inquiry; for majors this entails knowing the central ideas of major classical and contemporary theorists.
- To understand and be able to apply statistical concepts.
- To understand the social science model of evidence and argument; for majors this entails familiarity with basic social science statistical techniques, basic methods of data analysis, basic methods of organizing and presenting information, and the ability to carry out a small research project.

Requirements for the Major

As part of the 120 credits and other requirements for a Bachelor of Arts degree, sociology majors must complete a minimum of 38 credits in Sociology and 12 credits in supporting courses outside of Sociology. All these credits must be completed with a minimum grade of "C-" or better in each course, and students must earn at least a 2.00 cumulative GPA for all courses in the major. The 38 credits in Sociology must include the following:

		Credits
	Required Courses	
	Basic Requirements	
SOCY100	Introduction to Sociology	3
SOCY201	Introductory Statistics for Sociology	4
SOCY202	Introduction to Research Methods in Sociology	4
SOCY203	Sociological Theory	3
	Breadth Requirement	9
	one course from three of the following concentration areas:	
	<i>Family and Demography:</i>	
SOCY410	Social Demography	
SOCY443	The Family and Society	
	<i>Organizations and Institutions:</i>	
SOCY431	Principles of Organizations	
SOCY443	The Family and Society	
SOCY460	Sociology of Work	
SOCY464	Military Sociology	
	<i>Social Psychology:</i>	
SOCY230	Sociological Social Psychology	
SOCY430	Social Structure and Identity	
	<i>Stratification and Inequality:</i>	
SOCY441	Social Stratification and Inequality	
	Depth Requirement	9
	At least three courses (including one required) in any one of the following concentration areas:	
	<i>Family and Demography:</i>	
SOCY410	Social Demography (<i>Required</i>)	
SOCY411	Demographic Techniques	
SOCY412	Family Demography	
SOCY418*	Research in Family and Demography	
SOCY442	The Family and Social Class	
SOCY443	The Family and Society	
SOCY444	Sociology of Children	
	<i>Organizations and Institutions:</i>	
SOCY431	Principles of Organizations (<i>Required</i>)	
SOCY425	Gender Roles and Social Institutions	

SOCY438*	Research in Organizations & Institutions
SOCY443	The Family and Society
SOCY456	Sociology of Consumerism
SOCY460	Sociology of Work
SOCY462	Women in the Military
SOCY463	Sociology of Combat
SOCY464	Military Sociology
SOCY465	The Sociology of War
SOCY467	Sociology of Education
	<i>Social Psychology:</i>
SOCY230	Sociological Social Psychology (<i>Required</i>)
SOCY402	Intermediate Procedures for Data Collection, OR
SOCY430	Social Structure and Identity
SOCY440	Sociology of the Self-Concept
SOCY447	Small Group Analysis
SOCY448*	Research in Social Psychology
SOCY450	Measurement of Time, Work, and Leisure
SOCY463	Sociology of Combat
	<i>Stratification and Inequality:</i>
SOCY441	Social Stratification and Inequality (<i>Required</i>)
SOCY325	The Sociology of Gender
SOCY421	Women and Men in the World System
SOCY422	Social Change in Latin America
SOCY424	Sociology of Race Relations
SOCY425	Gender Roles and Social Institutions
SOCY428*	Research in Inequality
SOCY442	The Family and Social Class
SOCY462	Women in the Military
SOCY467	Sociology of Education

	Methods Requirement	3
SOCY	An intermediate methods course or research course selected from a list maintained by the Sociology Undergraduate Advising Office	
	Electives	0 - 3
	Elective course(s) in sociology sufficient to fill out the required minimum of 38 credits in sociology; may be selected from any of the sociology courses	
	Supporting Courses	12
	• Two supporting courses from approved list	6
	• Two supporting courses at the 400 level from approved list	6

*Special Topics courses, may be repeatable - see note below.

Students should note the following in reference to Sociology requirements:

- SOCY201 has a prerequisite of Math111 or higher with a minimum grade of "C-";
- some of the courses necessary to fulfill depth requirements and/or the methods/research course requirement may have prerequisites such as SOCY201, 202, and 203;
- it is permissible to count one course as fulfilling more than one type of requirement, e.g. a course can be counted towards meeting a breadth requirement and a depth requirement, or a courses might be counted towards a depth requirement while simultaneously fulfilling the methods/research course requirement;
- special topics courses (indicated with an * in the above lists) may be repeatable for credit if its content differs from when previously taken;
- SOCY498 courses may be used to fulfill depth requirements for particular concentration areas when so designated by the Undergraduate Sociology Office; the Sociology Undergraduate Office maintains current lists of special topics courses (SOCY498) that fulfill depth requirements; and
- each course counted as meeting sociology or supporting course requirements must be passed with a grade of "C-" or better.

Other Requirements for the Major

Students must earn a minimum grade of "C-" in MATH111 and all major requirements. Students must have a minimum 2.0 cumulative grade point average across all courses used to satisfy major requirements.

Advising

Regular advising is strongly recommended for all majors. Advising is particularly important for those majors who are considering graduate school. Majors are reminded of the importance of taking the four basic required courses (SOCY100, 201, 202, 203) as soon as possible because these are prerequisites for some upper level course work. Degree audits are required of all majors at 60 and 90 credits. Further information on course work, internships, the department honors program, careers, and other topics may be obtained from the Sociology Undergraduate Advisor, 2108 Art/Sociology Building, 301-405-6389.

Internships

Although internships are not a requirement for the major, students may wish to consider the internship program offered by the department or through the Experiential Learning unit of the [University Career Center @ BSOS](#). Majors may receive up to six credits in SOCY386 when an internship/volunteer position is combined with an academic project. A prerequisite of 12 credit hours in Sociology course work is required. Sociology internship credit does not count toward meeting requirements for the major.

Honors Program

The Sociology Honors Program seeks to encourage and recognize superior scholarship by providing an opportunity for interested, capable, and energetic undergraduate students to engage in study in an area of the student's interest under the close supervision of a faculty mentor. The honors program is based upon tutorial study and independent research.

Students who have an overall cumulative grade point average of at least 3.3, a cumulative average of 3.5 in Sociology courses, and who have taken at least nine credits in Sociology may apply. Transfer students with equivalent academic records at other accredited institutions are also eligible. Admission to the program will be based upon academic performance and the judgment of the Undergraduate Committee whether the applicant has sufficient maturity and interest to complete successfully the requirements for graduation with Honors. Further information on the honors program is available from the Sociology Undergraduate Office.

Student Societies and Professional Organizations

The Sociology Collective, open to all Sociology majors, is organized by a group of interested undergraduates to fill student needs within the Sociology community. The Collective provides information about topics of interest, including department activities, career planning, and relevant changes within the university, and strives to enhance the sense of community within the department. Representatives of the Collective participate in many faculty committees within the department and thereby provide the undergraduate perspective on policy issues.

The Alpha Kappa Delta is the National Honor Society for Sociology majors. Membership is based on Sociology GPA (3.3 minimum) and overall GPA (3.3 minimum). Students may apply after they have completed 18 hours of Sociology course work. Application for membership may be made in the Sociology Undergraduate office and are accepted in both fall and spring semesters.

Scholarships and Financial Assistance

The Tara Lynn Resnick Scholarship is awarded annually to an outstanding female Sociology undergraduate student. This scholarship carries an award of \$500 that may be used toward educational expenses for the following Fall semester. Applications are accepted during the Spring semester. Female students who have earned 60 credits and have a minimum GPA of 3.0 are eligible to apply.

The Parker-Fuller Scholarship is awarded annually to a full-time undergraduate Sociology major in their senior year of study on the basis of need. It provides an annual award of \$1,000. Applications for this scholarship are accepted during the Spring semester. The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Spanish Language, Literatures, and Culture (SPAN)

College of Arts and Humanities

2215 Jiménez Hall, 301-405-6441

www.spanish.umd.edu

Professors: C. Benito-Vessels, R. Igel, J. Quintero-Herencia, S. Sosnowski

Associate Professors: H. De Pinillos, L. Demaria, M. Lacorte, R. Lavine, R. Long, E. Merediz, J. Naharro-Calderon, M. Penrose, A. Rodriguez

Assistant Professors: T. Lima

Lecturers: A. Acedo Garcia (Senior Lecturer), E. Canabal-Torres (Senior Lecturer), F. Faccio, C. Onate

Professors Emeriti: J. Aguilar-Mora (Distinguished Scholar Teacher), S. Cypess, R. Harrison, G. Nemes

The Major

The undergraduate major in Spanish Language, Literatures, and Cultures consists of 36 credits of coursework beyond the intermediate prerequisite level, with an additional supporting area (nine credits). All students will take a core of four courses and a three course literature/culture sequence focused on Spain or Latin America. The remaining coursework will come from one of three options: Literature and Culture, Linguistics and Culture, Language and Culture in Professional Contexts.

Placement in Courses

<http://www.arhu.umd.edu/undergraduate/flpa>

Requirements for the Major

Prerequisites: 11 credits (or equivalent knowledge)

Note: Students who receive a grade of "B+" or above in SPAN203 can proceed directly to SPAN207.

SPAN103	Intensive Elementary Spanish	4 credits
SPAN203	Intensive Intermediate Spanish	4 credits
SPAN204	Review of Spanish Grammar	3 credits

Core Sequence: 21 credits (required for all three options)

SPAN207	Reading and Writing <i>Prereq: SPAN203 with a grade of B+ or higher or SPAN204 or concurrent SPAN204; or equivalent knowledge</i>	3
SPAN301	Advanced Grammar & Composition I <i>Prereq: SPAN207 or concurrent SPAN207</i>	3
SPAN302	Advanced Grammar & Composition II <i>Prereq: SPAN301</i>	3
SPAN303	Approaches to Cultural Materials in the Hispanic World <i>Prereq: SPAN207</i>	3

SPAN331, and	Spanish Culture, Civilization and Literature I: Medieval Times <i>Prereq: SPAN301 and 303</i>	9
-----------------	---	---

SPAN332, and	Spanish Culture, Civilization and Literature II: Renaissance and Baroque <i>Prereq: SPAN301 and 303</i>	
SPAN333	Spanish Culture, Civilization and Literature III: Modern Times <i>Prereq: SPAN301 and 303</i>	

- or -

SPAN361, and	Latin American Literatures and Cultures I: From Pre-Columbian to Colonial <i>Prereq: SPAN 301 and 303</i>	9
SPAN362, and	Latin American Literatures and Cultures II: From Independence to Nation Formation <i>Prereq: SPAN 301 and 303</i>	
SPAN363	Latin American Literatures and Cultures III: From Modernism to Neo-liberalism <i>Prereq: SPAN 301 and 303</i>	

Literature and Culture option: 15 credits

This option provides greater expertise in Spanish or Latin American literature and culture (three 400 level courses minimum). Students can choose either two commercial Spanish classes OR two translation classes OR two additional 400 level literature classes.

SPAN4xx	Two 400 level courses in Spanish	<i>Prereq: one from SPAN331, 332, 333</i>	6
SPAN4xx	Latin American Literature and Culture or	<i>Prereq: 361, 362, 363 literature sequence above</i>	
SPAN316	Practicum in Translation I	<i>Prereq: SPAN301 and SPAN303</i>	
SPAN318	Translation of Technical Texts or	<i>Prereq: SPAN316</i>	
SPAN4xx	Three 400 level courses in Spanish or Latin American Literature and Culture	<i>Prereq: one from SPAN331, 332, 333, 361, 362, 363 literature sequence above</i>	9

Linguistics and Culture option: 15 credits

This option provides greater expertise in Hispanic linguistics (three upper level courses)

SPAN310	Spanish Phonetics	<i>Prereq: SPAN301 and SPAN303</i>	3
SPAN425, and	Intro Hispanic Linguistics I; and	<i>Prereq: SPAN301 and SPAN303</i>	3
SPAN426	Intro Hispanic Linguistics II	<i>Prereq: SPAN425</i>	3
SPAN4xx	Two 400 level courses in Spanish or Latin American Literature and Culture *		6

**The approved program in Spanish and Secondary Education requires 2 upper level courses in literature/culture along with the three linguistics courses this option provides.

Language and Culture in Professional Contexts: 15 credits

This option combines business courses with translation courses to provide a better understanding of professional language contexts.

SPAN315 and I	Commercial Spanish	<i>Prereq: SPAN301 and 303</i>	3
SPAN415	Commercial Spanish II	<i>Prereq: SPAN315</i>	3

SPAN316 and	Practicum in Translation I	<i>Prereq: SPAN301 and 303</i>	3
SPAN318	Translation of Technical Texts	<i>Prereq: SPAN316</i>	3

SPAN422 or	Cross-cultural Communication; or	<i>Prereq: SPAN315</i>	3
SPAN4xx	One 400-level course in Spanish or Latin American Literature and Culture	<i>Prereq: one from SPAN331, 332, 333, 361, 362, 363 literature sequence</i>	

Supporting Area

Nine credits in a single area other than Spanish, 6 of which must be at the 300 or 400 level, all with the approval of the Spanish advisor. Students should discuss their choice of supporting area with the Spanish advisor early on in their Spanish studies.

Courses for Heritage Learners

Heritage learners and students from homes where Spanish is spoken or who have had in-depth exposure to Spanish take a series of courses designed to enhance their skills:

SPAN206	Review of Oral and Written Spanish for Native Speakers Educated in the US	<i>Prereq: Native or near native knowledge of and no formal education in Spanish</i>	
SPAN306	Spanish II for Native Speakers	<i>Prereq: SPAN206</i>	

SPAN307	Oral Communication Skills for Native Speakers of Spanish	<i>Prereq: Native or near native knowledge of oral Spanish and no formal education in Spanish</i>
---------	--	---

- Placement in courses for heritage learners is determined by speaking with the Spanish advisor.
- Native speakers and all others with the ability to begin coursework at a higher level should speak with the undergraduate advisor for course substitutions.

Students must earn a grade of "C-" or higher in each course applied toward a major or minor in the School of Languages, Literatures, and Cultures. Additionally, an overall GPA of 2.0 in a major or minor is required for graduation.

Study Abroad

For information on study abroad programs see the program advisor and/or the Education Abroad website: www.international.umd.edu/studyabroad.

Requirements for the Minor

Spanish Language and Cultures

School of Languages, Literatures, and Cultures (SLLC)
www.spanish.umd.edu

Information

The minor in Spanish Language and Cultures is a series of five courses in Spanish to be chosen in consultation with the departmental advisor. Courses taken through Study Abroad programs may be applied. This 15 credit minor will provide students with a solid background in linguistic, cultural, and literary aspects of the study of Spanish.

Core Courses Required for the Minor

SPAN207 Reading and Writing in Spanish
 SPAN301 Advanced Grammar and Composition I
 SPAN303 Approaches to Cultural Materials in the Hispanic World

Other Required Courses

Following completion of the core sequence, students choose **two** courses from the following:

SPAN206 Review of Oral and Written SPAN for Native Speakers Educated in the United States
 SPAN302 Advanced Grammar and Composition II
 SPAN306 Spanish II for Native Speakers
 SPAN310 Spanish Phonetics
 SPAN307 Oral Communication Skills for Native Speakers of Spanish
 SPAN315 Commercial Spanish I
 SPAN316 Practicum in Translation I
 SPAN317 Practicum in Translation II
 SPAN318 Translation of Technical Texts
 SPAN331 Spanish Culture, Civilization and Literature I: Medieval Times
 SPAN332 Spanish Culture, Civilization and Literature II: Renaissance and Baroque
 SPAN333 Spanish Culture, Civilization and Literature III: Modern Times
 SPAN356 Literary Translation I
 SPAN357 Literary Translation II
 SPAN361 Latin American Literatures and Cultures I: From Pre-Colombian to Colonial Times
 SPAN362 Latin American Literatures and Cultures II: From Independence to Nation Formation
 SPAN363 Latin American Literatures and Cultures III: From Modernism to Neo-Liberalism
 SPAN415 Commercial Spanish II
 SPAN417 Interpretation
 SPAN425 Introduction to Hispanic Linguistics I: Basic Concepts
 SPAN426 Introduction to Hispanic Linguistics II: Language In Use
 SPAN448 Special Topics in Latin American Civilization
 SPAN449 Special Topics in Spanish Civilization

All Spanish literature courses on the 400 level

- All courses must be taught in Spanish.
- Native or heritage learners of Spanish should seek the advice of the Undergraduate Advisor for Spanish before choosing their courses.
- The minor is open to all students except Spanish majors. A grade of "C-" or better is required in each class.
- An overall GPA of 2.0 in the minor is required for graduation.
- A maximum of 6 credits may be applied to the minor from courses taken at other institutions. However, a maximum of 9 credits may be applied from a University of Maryland study abroad program.

To make an appointment to explore or declare a minor, go to
www.arhu.umd.edu/undergraduate/academics/minors

Spanish Language, Business, and Cultures

School of Literatures, Languages, and Cultures (SLLC)
www.spanish.umd.edu

Information

This 15 credit minor will provide students with a solid background in language, culture, and concepts important for business in the Spanish-speaking world.

Core Courses Required for the Minor

SPAN207 Reading and Writing in Spanish
 SPAN301 Advanced Grammar and Composition I
 SPAN303 Approaches to Cultural Materials in the Hispanic World

Other Required Courses

Following completion of the core sequence, students will complete:

SPAN315 Commercial Spanish I
 SPAN415 Commercial Spanish II

All courses must be taught in Spanish.

Native and Heritage Speakers

Native speakers and all others with the ability to begin coursework at a high level should speak with the Undergraduate Advisor. **Heritage learners**, students from homes where Spanish is spoken or who have had in depth exposure to Spanish, are encouraged to take a series of courses designed to enhance their skills.

Transfer Credits

A maximum of 6 credits may be applied to the minor from courses taken at other institutions. However, a maximum of 9 credits may be applied from a University of Maryland study abroad program.

Eligibility

The minor is open to all students except Spanish majors.

Application Process

Students should meet with the Minor Advisor during walk-in advising hours. The advising hours are always posted at 2211 Jimenez Hall, and are available on the Department of Spanish and Portuguese website, <https://sllic.umd.edu/spanish/undergraduate/advising>.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state, and institutional financial assistance programs, and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

The UG Committee organizes an annual awards ceremony to celebrate SLIC students who have earned SLIC, campus and/or national scholarships, and academic achievement awards. The awards ceremony takes place in conjunction with the annual SLIC UG Research Forum.

Speech Communication

See the Department of Communication.

Supply Chain Management

See "Logistics, Business & Public Policy."

Teaching and Learning, Policy and Leadership (TLPL)

The Department of Teaching and Learning, Policy and Leadership is one of three newly formed departments within the College of Education. It is a union of former units Curriculum and Instruction (EDCI), Education Policy Studies (EDPS) and Organizational Leadership and Policy Studies (OLPS). Interrelated program areas currently include: Art Integration, Curriculum Theory and Development, Education Policy, Elementary Education, English Education, Literacy Education, Mathematics Education, Middle School Education, Minority and Urban Education, Organizational Leadership, Reading Education, Science Education, Second Language/TESOL, Social Studies Education, Professional Development/Teacher Education, and Sociocultural Foundations of Education.

Most of the College's teacher preparation programs (including elementary, middle, and secondary education) are housed in TLPL. Additional departmental programs encourage thoughtful and responsive explorations of education policies, practices and related social issues. Graduate students are prepared to create and critique alternative courses of action to enhance the quality of education for all persons and to redress the social conditions that restrict collective democratic aspirations.

The Department offers undergraduate and graduate study leading to the Bachelor of Arts (BA), Bachelor of Science (BS), Master of Arts (MA) (thesis and non-thesis options), Master of Education (MED), Doctor of Education (EdD) and Doctor of Philosophy (PhD).

Curriculum and Instruction - Middle School (EDCI)

College of Education

2311 Benjamin Building, 301-405-3324

www.education.umd.edu/TLPL

Chair: F. Hultgren (Prof & Chair)

Professors: P. Afflerbach (Prof), P. Campbell (Assoc Prof), D. Chazan (Prof), M. Dreher (Prof), D. Imig (Prof Of Practice, Lecturer), R. Lavine (Assoc Prof, Affil Assoc Prof), J. MacSwan, J. McGinnis (Prof), O. Saracho (Prof), D. Sullivan (Prof), L. Valli (Prof), D. Wiseman (Prof, Prof And Dean)

Associate Professors: S. Benson (Assoc Prof), A. Brantlinger (Assoc Prof), A. Elby (Assoc Prof, Affil Assoc Prof), E. Hutt (Asst Prof), D. Ketelhut (Assoc Prof), M. Martin-Beltran (Aff Asst Res Prof, Assoc Prof), J. McCaleb (Assoc Prof), J. O'Flahavan (Assoc Prof), W. Slater (Assoc Prof), J. Turner (Assoc Prof)

Assistant Professors: T. Clegg (Asst Prof), J. Walkoe (Asst Prof)

Professors Emeriti: M. Chambliss (Assoc Prof Emerita), A. Graeber (Assoc Prof Emerita), W. Holliday (Prof Emeritus), M. Johnson (Prof Emeritus), S. Koziol (Prof, Asst to Dean)

The Major

Teaching and Learning, Policy and Leadership offers undergraduate curricula in Middle School Education that lead to the Bachelor of Science degree and prepare teachers for teaching in middle schools, grades 4-9.

Graduates of the Middle School Math and Science (grades 4-9) program meet the requirements for certification in Maryland and additional states that are affiliated with the Interstate Reciprocity Agreement through the Maryland State Department of Education.

Program Learning Outcomes

1. Middle School teacher candidates have in-depth knowledge of the subject matter that they teach as described in professional (Association for Middle Level Education – AMLE); state (MSDE); and, institutional standards.
2. Middle School teacher candidates can effectively plan classroom-based instruction or activities for their roles as teachers. Candidates' knowledge, skills, and dispositions are applied effectively in practice.
3. Middle School teacher candidates practice evidence-based decision-making through the use of assessment as well as the critical interpretation of research and inquiry in order to improve educational practice. They accurately assess and analyze student learning, make appropriate adjustments to instruction, monitor student learning, and have a positive effect on learning for all students.
4. Middle School teacher candidates demonstrate understanding of learners and their social and cultural contexts with a global perspective and intentional sensitivity to other cultures. They are able to work with students, families, and communities in ways that reflect the dispositions expected of professional educators as delineated in professional (AMLE); state (MSDE); and, institutional standards.
5. Middle School teacher candidates competently integrate technology in instruction to support student learning and develop data-driven solutions for instructional and school improvement. They demonstrate proficiency in each of the seven *Maryland Teacher Technology Standards*.

Admission to the Major

Admission to the Teacher Education Professional Program is competitive. Admission procedures and criteria are explained in the College of Education entry in [Chapter 6](#).

Placement in Courses

The Middle School program includes both pre-professional and professional education course work. Before undergraduates may enroll in courses identified as part of the professional sequence, they must complete the selective admissions requirements and be fully admitted to the College of Education's Teacher Education program. Admission procedures and criteria are explained in the College of Education entry. Teacher candidates will not be

permitted to enroll in professional sequence courses -- including the yearlong internship -- prior to completion of the selective admissions requirements and full admission to the College of Education.

Requirements for the Major

All Teacher Education Programs have designated pre-professional courses and a specified sequence of professional courses. Before undergraduates may enroll in professional education course requirements they must be fully admitted to the College of Education's Teacher Education Program. An overall grade point average of 2.75 must be maintained after admission to Teacher Education. All teacher candidates are required to obtain satisfactory evaluations on the College of Education Foundational Competencies/Technical Standards and to attain qualifying scores for the State of Maryland on the Praxis I and Praxis II assessments. Praxis I is required for admission, and Praxis II is required for the teaching internship and graduation. The culminating experience of the program is the yearlong internship, which takes place in a Collaborating School (i.e., partner school, PDS - Professional Development School).

Pre-Professional/Subject Area Courses	Credits
GEOL100/110 - Physical Geology and Laboratory	4
PHYS115 - Inquiry into Physics <i>or</i> PHYS121 - Fundamentals of Physics I	4
BSCI103 -The World of Biology <i>or</i> BSCI170&171 - Principles of Molecular and Cellular Biology and Lab <i>or</i> BSCI122 - Microbes in Society	4
CHEM131/132 - Fundamentals of General Chemistry and Laboratory	4
AOSC200/201 - Weather and Climate with Laboratory	4
MATH212 - Elements of Numbers and Operations	3
MATH213 - Elements of Geometry and Measurement	3
MATH214 - Elements of Probability and Statistics	3
MATH312 - Mathematical Reasoning and Proof for Pre-service Middle School Teachers	3
MATH314 - Introduction to Probability, Data Analysis, and Statistics for Pre-Service Middle School Teachers	3
MATH315 - Algebra for Pre-Service Middle School Teacher	3

One from: (3-4 credits)

ANTH220 - Introduction to Biological Anthropology
 ASTR100/111 - Introduction to Astronomy and Observational Astronomy Laboratory
or ASTR101 - General Astronomy
 ASTR121 - Introductory Astrophysics II – Stars and Beyond
 BSCI160&161 - Principles of Ecology and Evolution and Lab BSCI120 Insects
 BSCI124/125 - Plant Biology and Laboratory for Non-Science Students
 CHEM104 - Fundamentals of Organic and Biochemistry
 ENST200 - Fundamentals of Soil Science
 GEOG201/211 - Geography of Environmental Systems and Laboratory
 PHYS102/103 - Physics of Music and Laboratory
 PHYS106/107 - Light, Perception, Photography, and Visual Phenomena and Laboratory
 PLSC100 - Introduction to Horticulture
 PLSC101 - Introductory Crop Science

Pre-Professional Education Courses	Credits
EDPS210 - Historical and Philosophical Perspectives on Education <i>or</i> EDPS 301 - Foundations of Education	3
EDCI280 - Looking Inside Schools and Classrooms	3
EDCI297 - Students, Schooling, and Communities	3
EDHD4XX - Adolescent Development	3
EDHD436 - Cognition and Motivation in Reading: Reading Acquisition for Middle School Students	3
EDCI465 - Teaching Reading in Middle School Content Areas	3

Professional Education Courses	Credits
EDCI360 - Field Experience in Middle School Education	1
EDCI411 - Knowledge, Reasoning, and Learning in Science	3
EDCI413 - Interdisciplinary Teaching in the Middle Grades I	2
EDCI414 - Interdisciplinary Teaching in the Middle Grades II	2
EDCI424 - Equitable Classrooms	2
EDCI425 - Equity and Pedagogy	2
EDCI457 - Teaching and Learning Middle School Mathematics	3
EDCI460 - Student Teaching: Middle School	12
EDCI474 - Teaching Academically, Culturally, and Linguistically Diverse Students in Secondary Education	2

Other Requirements for the Major

An overall grade point average of 2.75 must be maintained after admission to Teacher Education. All teacher candidates are required to obtain satisfactory evaluations on the College of Education Foundational Competencies and to attain qualifying scores for the State of Maryland on a test of basic skills (http://www.msde.maryland.gov/MSDE/divisions/certification/certification_branch/testing_information/praxis1.html) and Praxis II assessments. The test of basic skills is required for admission, and Praxis II is required for the teaching internship and graduation. The culminating experience of the program is the yearlong internship, which takes place in a Professional Development School.

Advising

Advising is mandatory for all middle school math and science education majors. For more information or to schedule an advising appointment, contact the Office of Student Services (301-405-2364).

Internships

The yearlong internship, which is the culminating experience in the teacher preparation program, takes place in a Professional Development School.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu. The College of Education also offers a number of scholarships. For more information, see: <http://www.education.umd.edu/studentinfo/scholarships.html>.

Affiliate Professors: E. Redish

Affiliate Associate Professors: S. Benson, R. Lavine

Professors Emeriti: M. Chambliss, B. Finkelstein, A. Graeber, W. Holliday, M. Johnson, S. Koziol, S. Selden

The Major

Teaching and Learning, Policy and Leadership offers an undergraduate curriculum in elementary education that leads to the Bachelor of Science. Courses offered in this program may be found under the following acronyms: EDCI, and TLPL. Graduates of the Elementary Education program are prepared to teach grades 1 through 6, and meet the requirements for certification in Maryland and additional states that are affiliated with the Interstate Reciprocity Agreement through the Maryland State Department of Education (MSDE).

NOTE: The Elementary Education program is currently under review. Consult an advisor in the Office of Student Services (1204 Benjamin) for additional information.

Program Learning Outcomes

1. Elementary Education teacher candidates have in-depth knowledge of the subject matter that they teach as described in professional (Association for Childhood Education International, ACEI), state (MSDE), and institutional standards.
2. Elementary Education teacher candidates can effectively plan classroom-based instruction or activities for their roles as teachers. Candidates' knowledge, skills, and dispositions are applied effectively in practice.
3. Elementary Education teacher candidates practice evidence-based decision-making through the use of assessment as well as the critical interpretation of research and inquiry in order to improve educational practice. They accurately assess and analyze student learning, make appropriate adjustments to instruction, monitor student learning, and have a positive effect on learning for all students.
4. Elementary Education teacher candidates demonstrate understanding of learners and their social and cultural contexts with a global perspective and intentional sensitivity to other cultures. They are able to work with students, families, and communities in ways that reflect the dispositions expected of professional educators as delineated in professional (ACEI), state (MSDE), and institutional standards.
5. Elementary Education teacher candidates competently integrate technology in instruction to support student learning and develop data-driven solutions for instructional and school improvement. They demonstrate proficiency in each of the seven *Maryland Teacher Technology Standards*.

Admission to the Major

Admission to the Teacher Education Professional Program is competitive. Admission procedures and criteria are explained in the College of Education entry.

Placement in Courses

The Elementary Education program includes both pre-professional and professional education course work. Before undergraduates may enroll in courses identified as part of the professional sequence, they must complete the selective admissions requirements and be fully admitted to the College of Education's Teacher Education program. Admission procedures and criteria are explained in the College of Education entry. To be eligible to enroll in professional sequence courses during the Fall semester, prospective majors must submit a completed application form by May 1st of the preceding Spring semester. Teacher candidates will not be permitted to enroll in professional sequence courses -- including the yearlong internship -- prior to completion of the selective admissions requirements and full admission to the College of Education.

Requirements for the Major

All Teacher Education Programs have designated pre-professional courses and a specified sequence of professional courses. Before undergraduates may enroll in courses identified as part of the professional sequence, they must complete the selective admission requirements and be fully admitted to the College of Education's Teacher Education Program. An overall grade point average of 2.75 must be maintained after admission to Teacher Education. All teacher candidates are required to obtain satisfactory evaluations on the College of Education Foundational Competencies/Technical Standards and to attain qualifying scores for the State of Maryland on the Praxis I and Praxis II assessments. Praxis I is required for admission, and Praxis II is required for the teaching internship and graduation. The culminating experience is the yearlong internship, which takes place in a Professional Development School.

Credits

The Gateway Requirements for entrance into the Elementary Teacher Education program include:

BIOSCI	Biological Science/Lab	4
PHY SCI	Physical Science/Lab	4
MATH212	Elements of Numbers and Operations	3
MATH213	Elements of Geometry and Measurement	3
EDCI280	Looking Inside Schools and Classrooms*	3

*minimum grade, "B-"

NOTE: The 14-16 credits of math and science must be completed with a minimum grade of "C-" in each course and an overall GPA of 2.7.

Courses which double count with the General Education Program

Courses which may satisfy the university's general education requirements and which are required in the Elementary Education program of studies follow:

HIST200	History of the United States to 1865	3
BIO SCI	Biological Science/Lab Gateway Requirement	4

PHY SCI	Physical Science/Lab Gateway Requirement	4
SOC SCI	Social Science	3
	<i>Recommended social science course options:</i>	
GEOG100	Introduction to Geography	
GVPT170	American Government	
PSYC100	Introduction to Psychology	
SOCY100	Introduction to Sociology	

Other Pre-Professional Requirements:

EDCI301	Teaching Art in the Elementary School, OR	3
ARTT100	Two Dimensional Design Fundamentals, OR	
ARTT110	Elements of Drawing	
EDCI443	Literature for Children and Youth	3
MATH214	Elements of Probability and Statistics	3
MUED155	Fundamentals for the Classroom Teacher	3
SOCY230	Sociological Social Psychology, OR	3
PSYC221	Social Psychology

EDPS201	Education in Contemporary American Society, OR	
EDPS210	Historical and Philosophical Perspectives on Education	
EDHD411	Child Growth and Development	3
EDHD425	Language Development and Reading Acquisition	3
Area Crs	Area of Emphasis chosen from the following areas: Communication, Foreign Language, Literature, Mathematics, Science, and Social Studies**	18

***The EDCI Advising Office has detailed information regarding each area of emphasis. All pre-professional course work must be completed with a "C-" or better.*

Professional Education Courses:

EDCI397	Principles and Methods of Teaching in Elementary Schools	3
EDCI461	Materials and Instruction for Creating Skilled and Motivated Readers, Part I	3
	<i>Year Long Internship</i>	
EDCI322	Curriculum and Instruction in Elementary Ed.: Social Studies	3
EDCI342	Curriculum and Instruction in Elementary Ed.: Language Arts	3
EDCI352	Curriculum and Instruction in Elementary Ed.: Mathematics	3
EDCI362	Curriculum and Instruction in Elementary Ed.: Reading	3
EDCI372	Curriculum and Instruction in Elementary Ed.: Science	3
EDCI488	Classroom Management	1
EDCI481	Student Teaching: Elementary	12
EDCI464	Assessment for Reading	3

NOTES:

- All pre-professional and professional courses must be completed with a grade of "C-" or better.
- All courses must be completed before the year-long internship unless an exception has been approved by the EDCI Advising Office.
- A passing score on Praxis II is required before enrollment in the teaching internship.

Other Requirements for the Major

An overall grade point average of 2.75 must be maintained after admission to Teacher Education. All teacher candidates are required to obtain satisfactory evaluations on the College of Education Foundational Competencies/Technical Standards and to attain qualifying scores for the State of Maryland on a test of basic skills and the Praxis II assessments. The test of basic skills is required for admission, and Praxis II is required for the teaching internship and graduation. The culminating experience of the program is the yearlong internship, which takes place in a Professional Development School (PDS)/collaborating partner school.

Advising

Advising is mandatory for all elementary education majors. For more information or to schedule an advising appointment, contact the Office of Student Services (301-405-2364).

Fieldwork Opportunities

EDCI280 (*Looking Inside Schools and Classrooms*) typically is taken during the sophomore year. This course, which is part of the gateway requirements for admission to the Elementary Education Teacher Education Program, provides an exploration of teaching in the public schools. This course includes a three hour per week field component.

Internships

During the senior year of the program, teacher candidates complete a yearlong internship in a network of professional development school settings (PDS Networks). These sites reflect the linguistic, ethnic and economic diversity that is characteristic of the Greater Baltimore-Washington D.C. region. For additional information about the yearlong internship, see the College of Education entry.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu. The College of Education also offers a number of scholarships. For more information, see: <http://www.education.umd.edu/studentinfo/scholarships.html>.

Curriculum and Instruction - Secondary Education (EDCI)

College of Education

2311 Benjamin Building, 301-405-3324

www.education.umd.edu/TLPL

Chair: F. Hultgren (Prof & Chair)

Professors: P. Afflerbach, P. Campbell, D. Chazan, M. Dreher, D. Imig (Prof Of Practice), J. MacSwan, B. Malen (Prof), J. McGinnis, J. Rice (Prof, Prof & Assoc Dean), O. Saracho, D. Sullivan, L. Valli, D. Wiseman (Dean)

Associate Professors: J. Ahn, A. Brantlinger (Assoc Prof), R. Croninger, A. Elby (Assoc Prof, Affil Assoc Prof), D. Herschbach, E. Hutt, D. Ketelhut, M. Martin-Beltran (Aff Asst Res Prof, Assoc Prof), J. McCaleb, J. O'Flahavan, M. Peercy (Assoc Prof), W. Slater, J. Turner

Assistant Professors: T. Clegg, J. Walkoe

Affiliate Professors: E. Redish

Affiliate Associate Professors: S. Benson, R. Lavine

Professors Emeriti: M. Chambliss, B. Finkelstein, A. Graeber, W. Holliday, M. Johnson, S. Koziol, S. Selden

The Major

The Department of Teaching and Learning, Policy and Leadership offers undergraduate curricula in secondary education that lead to the Bachelor of Science or Bachelor of Arts degree and prepares teachers in various subject areas for teaching in middle schools, secondary schools (grades 7-12), and PreK-12 settings (Art and World Languages).

Multiple pathways are available for individuals who are interested in teaching at the secondary level:

The Dual Major option, which is designed for incoming freshmen or sophomores, leads to the Bachelor's degree with a major in an academic content area plus a second major in secondary education. All secondary majors are required to have an academic content major which satisfies the requirements of the academic department and meets the standards for teacher certification. Candidates who follow the proposed sequencing of courses can complete both majors in four years with careful advisement and scheduling.

Teaching and Learning, Policy and Leadership also offers a five-year integrated master's with certification program. See <http://www.education.umd.edu/MCERT/>.

Graduates of the Secondary Education programs meet the requirements for certification in Maryland and additional states that are affiliated with the Interstate Reciprocity Agreement through the Maryland State Department of Education.

Note: The Mathematics Education and Science Education programs are currently under review. For more information, please visit the Terrapin Teachers website <http://terrapinteachers.umd.edu/>.

Program Learning Outcomes

1. Secondary Education teacher candidates have in-depth knowledge of the subject matter that they teach as described in professional (e.g., National Council of Teachers of English - NCTE, National Council of Teachers of Mathematics - NCTM, etc.); state (MSDE); and, institutional standards.
2. Secondary Education teacher candidates can effectively plan classroom-based instruction or activities for their roles as teachers. Candidates' knowledge, skills, and dispositions are applied effectively in practice.
3. Secondary Education teacher candidates practice evidence-based decision-making through the use of assessment as well as the critical interpretation of research and inquiry in order to improve educational practice. They accurately assess and analyzes student learning, make appropriate adjustments to instruction, monitor student learning, and have a positive effect on learning for all students.
4. Secondary Education teacher candidates demonstrate understanding of learners and their social and cultural contexts with a global perspective and intentional sensitivity to other cultures. They are able to work with students, families, and communities in ways that reflect the dispositions expected of professional educators as delineated in professional (e.g., NCTE, NCTM, etc.); state (MSDE); and, institutional standards.
5. Secondary Education teacher candidates competently integrate technology in instruction to support student learning and develop data-driven solutions for instructional and school improvement. They demonstrate proficiency in each of the seven *Maryland Teacher Technology Standards*.

Academic Programs and Departmental Facilities

In addition to the double major program, the Department of Teaching and Learning, Policy and Leadership offers a Five-Year Integrated Master's with Certification Program (IMCP). This program is intended for talented undergraduates with a minimum GPA of 3.0 who seek to combine undergraduate studies in the content area and professional education as a foundation for a focused professional year at the graduate level leading to secondary-level certification in the subject field and the Master's of Education degree. As undergraduates, teacher candidates are double majors in both secondary education and their content area. While double majors, undergraduates complete a minimum of 12 credits in professional education studies related to teacher certification requirements. In their junior or senior year they apply to the graduate program. If they are admitted to the graduate program they enroll in a full-year internship. These individuals will also complete graduate-level professional studies that make them eligible for initial teacher certification and the Master's of education degree.

Information about this secondary education program option is available at http://www.education.umd.edu/Academics/Programs/teacher_education/TECGprograms.html.

Admission to the Major

Admission to the Teacher Education Professional Program is competitive. Admission procedures and criteria are explained in the College of Education entry in Chapter 6.

Placement in Courses

The Secondary Education programs include both pre-professional and professional education course work. Before undergraduates may enroll in courses identified as part of the professional sequence, they must complete the selective admissions requirements and be fully admitted to the College of Education's Teacher Education program. Admission procedures and criteria are explained in the College of Education entry. Teacher candidates will not be permitted to enroll in professional sequence courses -- including the yearlong internship -- prior to completion of the selective admissions requirements and full admission to the College of Education.

Requirements for the Major

All Teacher Education Programs have designated pre-professional courses and a specified sequence of professional courses. Before undergraduates may enroll in professional education course requirements they must be fully admitted to the College of Education's Teacher Education Program. An overall grade point average of 2.75 must be maintained after admission to Teacher Education. All teacher candidates are required to obtain satisfactory evaluations on the College of Education Foundational Competencies/Technical Standards and to attain qualifying scores for the State of Maryland on the Praxis I and Praxis II assessments. Praxis I is required for admission, and Praxis II is required for the teaching internship and graduation. The culminating experience of the program is the yearlong internship, which takes place in a Collaborating School (i.e., partner school, PDS - Professional Development School).

Curriculum and Instruction offers a variety of secondary education programs-tracks leading to the Bachelor of Science and Bachelor of Arts degrees. Teacher candidates who complete a secondary education program at UM meet the Maryland State Department of Education requirements for the Professional Eligibility Certificate. Consult the Curriculum and Instruction program advisor for updated information.

Foreign-Language Requirement, Bachelor of Arts Degree

Beginning fall 2011 high school language will no longer place undergraduates in foreign language classes nor exempt individuals from taking the foreign language placement exam. All teacher candidates planning to study a foreign language will be required to take a foreign language placement test. This test is used to determine the appropriate placement prior to course registration. For more information, contact the Office of Student Affairs in the College of Arts and Humanities at arhuadvising@umd.edu or 301-405-2108.

Art Education (pre K-12)

The Art Education curriculum is designed to prepare individuals to teach art in elementary through secondary schools. It provides prospective art teachers with a knowledge base about the theories and best practices relevant to effective pedagogy, as well as current education and art education goals and standards. Teacher candidates admitted to Art Education complete the Bachelor of Arts and are required to have an academic content major.

For more information on the sequence of pre-professional and professional courses, consult the Curriculum and Instruction program advisor.

For more information on the sequence of pre-professional and professional courses, consult the Curriculum and Instruction program advisor.

World Language Education (Grades 7-12)

The World Language (WL) Education curriculum is designed for prospective world language teachers in grades 7-12 who have been admitted to the TLPL Teacher Education Program. Currently, admission is open to qualified candidates seeking teacher certification in Spanish, French, Russian, Italian, Chinese and German. Other languages might be added later for teacher certification. Teacher candidates enrolled in world language education are required to have an academic content major. Consult with an advisor in Curriculum and Instruction for further information.

A minimum of six hours of intermediate-level language course work in the major language must precede the required 300-400 level courses. The latter are comprised of a minimum of 30 hours of prescribed course work that includes the areas of reading strategies, grammar and composition, conversation, literature, civilization and culture, and linguistics. Teacher candidates must also take a minimum of nine hours (three courses) of electives in a related area. The second area of concentration must be approved by a FL advisor.

In addition to all coursework, teacher candidates must earn an Advanced Low score on the ACTFL oral proficiency exam in their corresponding foreign language. Majors in Russian, Italian, and Chinese must also earn an Advanced Low score on the ACTFL written proficiency test.

The following requirements must be met with the WL Education program:

		Credits
Pre-Professional/Subject Area Courses		
Primary WL Area	Intermediate (200 level) courses	6
Primary WL Area	Reading Strategies	3
Primary WL Area	Grammar and Composition (300-400 levels)	6
Primary WL Area	Survey of Literature (300-400 levels)	6
Primary WL Area	Conversation (300-400 levels)	3
Primary WL Area	Literature (400-above levels)	6

Primary WL Area	Culture and Civilization	6
Primary WL Area	Applied Linguistics, OR	3
LING200*	Introductory Linguistics	
ELECTIVES	Electives in Supporting Area/WL-Related Courses (minimum of three courses)	9
	<i>*Applied Linguistics in the Primary WL Area if available; otherwise LING200 may satisfy this requirement; check with your advisor.</i>	

In almost all instances, Primary WL Area courses must have been completed prior to the Teaching Internship. Any substitutions for the above must be pre-approved by a WL Education Advisor.

Note: The pre-professional courses vary by subject area. Consult the academic department for the specific course requirements for each language area.

		Credits

EDCI474	Teaching Academically, Culturally, and Linguistically Diverse Students in Secondary Education	2

Science Education (Grades 7-12)

Please check with the science department regarding specific course work.

Teacher candidates may earn credentials in biology, chemistry, geology, physics or agriculture. Undergraduates admitted to the secondary program in science education must complete a major in their area of specialization. Candidates should consult the respective departments for requirements. For more information, please see www.education.umd.edu/science.

Social Studies Education (Grades 7-12)

The Social Studies Education program is under review. Contact an advisor in 1207 Benjamin Building for updated program information.

Undergraduates in the Social Studies Education program may select an area of concentration in history, geography, or government and politics. Each concentration follows the general requirements of their respective majors in addition to the pre-professional/subject area supporting course work required for certification. Teacher candidates may elect to complete the program for certification in Social Studies by choosing one of three options for completing the program.

Option I: History

This option requires completion of the foreign language requirement and is primarily for those teacher candidates earning their initial degree. Requires 68 semester hours of which 39 credit hours must be in history.

Note: The history major requires completion of UNIV 101 and a foreign language requirement through the intermediate level. See ARHU advising for details.

		Credits
Pre-Professional/Subject Area Courses		
Introductory Courses:		
HIST200	History of the United States	3
HIST201	History of the United States	3
HIST100/200	Non-US, prior to 1500 (<i>see advisor for approved courses</i>)	3

<i>*EDCI 427 and EDCI428 are taken concurrently</i>		

Option III: Government and Politics

The Government and Politics program is under review. Please check with the Government Department regarding specific course work.

This option is primarily for those teacher candidates earning their initial degree. Requires a minimum of 65 credit hours of preprofessional/subject area course work. Thirty-six hours must be in GVPT. At least eighteen of the thirty-six credit hours must be upper-level courses.

All GVPT majors must also complete an approved skills option (a foreign language or three quantitative courses from a select list - see GVPT advising office.)

In addition, the GVPT program is a Limited Enrollment Program (LEP). See GVPT advisor for specific admission requirements.

Credits**Pre-Professional/Subject Area Courses****Introductory Courses:**

GVPT100	Principles of Government and Politics	3
GVPT170	American Government	3

GVPT241	The Study of Political Philosophy: Ancient and Modern	3
ELECTIVES	GVPT Electives	9
GVPT3xx/4xx	GVPT Upper Level Courses	18

Social Science Quantitative Courses or Foreign Language (see GVPT advisor)

In addition to the required credit hours in GVPT, the social studies education program requires 29 credit hours of course work in history and the social sciences as outlined below.

HIST201	History of the United States since 1865	3
HIST100/200	Non-Western History 100/200 level	3
ECON200	Principles of Micro-Economics	4
ECON201	Principles of Macro-Economics	4

GEOG100	Introduction to Geography	3
GEOG202	Introduction to Human Geography	3
SOCY100/105	Contemporary Social Problems	3

Other Requirements for the Major

An overall grade point average of 2.75 must be maintained after admission to Teacher Education. All teacher candidates are required to obtain satisfactory evaluations on the College of Education Foundational Competencies and to attain qualifying scores for the State of Maryland on a test of basic skills and Praxis II assessments. The test of basic skills is required for admission, and Praxis II is required for the teaching internship and graduation. The culminating experience of the program is the yearlong internship, which takes place in a Professional Development School.

Requirements for the Minor

Requirements for the Minor Secondary Education

The Minor in Secondary Education provides opportunities for undergraduate subject area majors to enroll in a sequence of education courses that helps them to determine if teaching is a viable career option for them. The 15-18 credit minor may be taken prior to admission into a teacher preparation program. If an undergraduate student pursuing or completing the minor desires to enter an education track, the candidate must apply for the dual major program to obtain certification as a secondary education classroom teacher through completion of a Maryland State Department of Education approved program option. Some of the courses undergraduates take to complete the Minor in Secondary Education may also be applicable in certification options at the graduate level offered through Teaching and Learning, Policy and Leadership. These individuals should consult with an advisor in the Office of Student Services to identify the most appropriate option leading to teacher certification and to review the specific admission requirements associated with these programs.

Requirements for the Minor in TESOL

The minor in Second Language Education provides opportunities for undergraduate subject area majors to complete a sequence of courses that helps them prepare for careers as teachers of English as a second language in US schools and/or prepare them for roles as teachers of English as a foreign language in international settings. It includes coursework from Curriculum and Instruction and Human Development. The curriculum provides a foundation in second language learning and pedagogy, adolescent learning, cross-cultural issues and understanding, and curricular and pedagogical issues which support reading and writing in a second language context. Several of the courses include field components that provide candidates with direct experience in working with second language learners. The minor incorporates coursework required for TESOL certification from the Maryland State Department of Education.

Certificate

Secondary Education Upper Division Certificate

The Certificate Program in Secondary Education is currently under review. Please see an advisor in Teaching and Learning, Policy and Leadership (TLPL) for more information on this pathway and other pathways to certification.

Advising

Advising is mandatory for all secondary education majors. For more information or to schedule an advising appointment, contact the Office of Student

Services (301-405-2364).

Internships

The yearlong internship, which is the culminating experience in the teacher preparation program, takes place in a Professional Development School.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu. The College of Education also offers a number of scholarships. For more information, see <http://www.education.umd.edu/studentinfo/scholarships.html>.

Second Language Education

Teaching and Learning, Policy and Leadership (TLPL)

2311 Benjamin Building, 301-405-3324

www.education.umd.edu/TLPL

The minor in Second Language Education provides opportunities for undergraduate subject area majors to complete a sequence of courses that helps them prepare for careers as teachers of English as a second language in US schools and/or prepare them for roles as teachers of English as a foreign language in international settings. If the undergraduate pursuing the minor desires to enter the ESOL teacher preparation track, the candidate may apply for the Five Year Integrated Program option or the one year MCERT Program option; in either case, satisfactorily completed courses in the minor that meet program requirements will be applied to the certification program requirements. Individuals should consult with an advisor in Student Services to identify the most appropriate option leading to teacher certification and to review the specific admission requirements associated with that program.

The minor in Second Language Education includes coursework from Curriculum and Instruction and Human Development. The curriculum provides a foundation in second language learning and pedagogy, adolescent learning, cross-cultural issues and understanding, and curricular and pedagogical issues which support reading and writing in a second language context. A number of the courses include field components that provide candidates with direct experience in working with second language learners. The minor incorporates coursework required for TESOL certification from the Maryland State Department of Education.

Courses required for the minor are:

	credits
EDCI437 English Grammar Pedagogy for Teachers of English Language Learners	3
EDCI432 Issues in the Education of English Language Learners	3
EDHD413 Adolescent Development	3
EDCI434* Pedagogy of Teaching English Language Learners	3
EDCI435* Teaching English Language Learners Reading and Writing in the Secondary Content Areas	3
EDCI436 Understanding Cross Cultural Communication for Teaching English Language Learners	3

* courses that include required field experiences

Secondary Education

Teaching and Learning, Policy and Leadership (TLPL)

2311 Benjamin Building, 301-405-3324

www.education.umd.edu/TLPL

The minor in Secondary Education provides opportunities for undergraduate subject area majors to enroll in a sequence of education courses that helps them to determine if teaching is a viable career option for them. The 15-18 credit minor may be taken prior to admission into a teacher preparation program. If an undergraduate student pursuing the minor desires to enter an education track, the candidate may apply for the dual major program to obtain certification as a secondary education classroom teacher through completion of a Maryland State Department of Education (MSDE) approved program option. Some of the courses undergraduates take to complete the Minor in Secondary Education may also be applicable toward certification options at the post-baccalaureate level offered through TLPL. These individuals should consult with an advisor in Student Services to identify the most appropriate option leading to teacher certification and to review the specific admission requirements associated with these programs.

The secondary education minor includes coursework from Teaching and Learning, Policy and Leadership. The curriculum provides a foundation in adolescent development and education policy and includes an introductory pedagogy course in one of the core secondary areas: English, Social Studies, Mathematics, Science, World Languages. The minor also incorporates coursework to meet the MSDE reading requirements that are part of secondary subject area teacher certification.

Courses required for the minor are:

	Credits
EDHD413 Adolescent Development	3
EDHD426 Cognition and Motivation in Reading: Reading in Content Areas I	3
EDCI463 Reading in the Secondary School	3
<i>Select one of the following foundation courses:</i>	
EDPS201 Education in Contemporary American Society OR	3
EDPS210 Historical and Philosophical Perspectives on Education OR	
EDPS301 Foundations of Education	
<i>Select one of the following secondary education introductory methods:</i>	
EDCI416 Teaching and Learning in Secondary Education: English OR	3
EDCI410 Methods I: K-12 Foreign Language Methods and Technology OR	
EDCI457 Teaching and Learning Middle School Mathematics OR	
EDCI411 Knowledge, Reasoning, and Learning in Science OR	
EDCI426 Knowledge, Reasoning, and Learning in Secondary Social Studies	
<i>Other Electives (optional):</i>	
EDCI280 - Looking Inside Schools and Classrooms (3)	
EDCI386 - Experiential Learning (3)	

A total of 15 credits is required. All courses presented for the minor must be passed with a grade of "C-" or better. A cumulative GPA of 2.75 is required for enrollment in the secondary education introductory methods courses (EDCI410, 411, 416, 426, 457). No more than six of the required credits (or two courses) may be taken at an institution other than the University of Maryland, College Park.

School of Theatre, Dance, and Performance Studies

School Information

2806 Clarice Smith Performing Arts Center
301-405-6676
<http://tdps.umd.edu/>

School Administration

Director: L. Smiley
Associate Director of Theatre: E. Lee
Associate Director of Dance: P. Widrig
Director of Undergraduate Studies in Theatre: F. Carpenter
Director of Undergraduate Studies in Dance: A. Mayes

The unique structure of the School of Theatre, Dance, and Performance Studies provides the opportunities of a larger community in which students can interconnect and collaborate between the different degree programs. While the degree programs in the dance and theatre disciplines retain their individuality, the School affords the inter-disciplinary prospects that enable landmark creativity and scholarship to flourish. Dynamic interaction between faculty, staff, and students encourages innovative ideas and new initiatives.

Dance (DANC)

College of Arts and Humanities - School of Theatre, Dance, and Performance Studies

2806 Clarice Smith Performing Arts Center, 301-405-6676
<http://tdps.umd.edu>
tdps@umd.edu
Director: L. Smiley
Associate Professors: K. Bradley, S. Mansur, S. Pearson, P. Widrig
Assistant Professors: A. Fang, M. Phillips
Instructors: A. Mayes
Lecturers: P. Jackson, M. Rebelo-Plaut
Professors Emeriti: D. Madden, M. Rosen, A. Warren, L. Warren, A. Wiltz
Visiting Faculty: C. Morgan (Asst Art-In-Res)

The Major

The undergraduate curriculum, which leads toward a B.A. degree in Dance, offers students a solid foundation in the core areas of the discipline as well as insights into cross-disciplinary fields of study.

Coursework is designed to help students become skillful, articulate, and expressive movers; to enable students to find their own voice as creative artists, develop the ability to work effectively in a collaborative environment, and to grow in their conceptual understanding of dance as an art form in relation to the other arts.

The cornerstones of the curriculum are foundational coursework in the first two years. The project based learning experiences in the junior and senior years engage students in interdisciplinary and/or cross-cultural work and offer in-depth exploration of a theme from a performance, choreographic, and theoretical perspective. Students select an area of emphasis in performance and choreography, production, or education.

Foundational sequences in technique and in the creative process, which integrate a conceptual understanding of dance as an art form in relation to the other arts, are at the core of the discipline.

Through these fundamental practices of the discipline, students gain, not only necessary skills, but also an embodied knowledge of the field.

The dance faculty is composed of a number of distinguished teachers, choreographers, performers, and scholars, each one a specialist in his or her own field. Visiting artists and guest artists make additional contributions to the program. There are performance and choreographic opportunities for all dance students, ranging from informal workshops to fully mounted concerts both on and off campus.

Courses offered by this department may be found under the following acronym(s): DANC, TDPS

Program Objectives

Our Mission

The University of Maryland School of Theatre, Dance, and Performance Studies advances and transforms the research and practice of theatre, dance, and performance studies through its commitment to excellence and innovative education in the performing arts.

Our Vision

We envision a School that serves as a national model for collaboration, innovation, and entrepreneurship in the performing arts. The undergraduate curriculum, which leads toward a B.A. degree in Dance, offers students a solid foundation in the core areas of the discipline as well as insights into cross-disciplinary fields of study. Coursework is designed to help students become skillful, articulate, and expressive movers; to enable students to find their own voice as creative artists, develop the ability to work effectively in a collaborative environment, and to grow in their conceptual understanding of dance as an art form in relation to the other arts.

Academic Programs and Departmental Facilities

Dance is housed in the Clarice Smith Performing Arts Center, a state-of-the-art performing arts "village" comprised of ten interconnected structures occupying 318,000 square feet and situated on a 17-acre site at the northwest end of the campus. The Center is designed to serve the theatre, music, and dance programs of the University and also houses the Michelle Smith Performing Arts Library. With 30 classrooms, 50 practice and rehearsal rooms, and fully outfitted costume, electric, scenic production, paint, and properties shops, the Center serves more than 5,000 students, 200 faculty and staff, and numerous regional, national, and international audiences and professionals. For further information, visit the Clarice Smith Performing Arts Center website at <https://theclarice.umd.edu>.

Admission to the Major

An audition is not required to become a dance major.

Requirements for the Major

Students must complete 58 credits. The following courses or areas are required:

- DANC218 (3) Foundations of Technique I
- DANC219 (3) Foundations of Technique II
- DANC318 (3) Foundations of Technique III
- DANC319 (3) Foundations of Technique IV
- DANC179 (2) Movement Integration

6 credits of Dance Styles selected from

- DANC138 (2) World Dance Forms

- DANC228 (2) Ballet I
- DANC229 (2) Ballet II
- DANC328 (2) Ballet III
- DANC329 (2) Ballet IV
- DANC109 (2) Improvisation
- DANC207 (3) The Creative Process
- DANC209 (3) Dance Composition
- TDPS201 (3) Production
- DANC283 (3) Foundations of Dance History
- DANC304 (3) Teaching Dance
- TDPS479 (1) Production Practicum
- DANC488 (4) Project Based Learning (two semesters required)

12 credits of upper level course work in an area of emphasis in performance and choreography or in production, or education.

Performance and Choreography Area of Emphasis

Students in the Performance and Choreography area are expected to enroll in a technique class each semester and to be actively engaged in experiences that transition them from the classroom to the stage. Opportunities for engagement include auditioning for student, faculty, and guest artist works, showing works in progress at monthly open showings, and auditioning works for performances.

Approved Courses:

TDPS479 Production Practicum (Required--1 credit--This is in addition to the 1 credit required of all majors.)

An additional 11 credits selected from:

- DANC448 (Modern Dance V)*
- DANC449 (Modern Dance VI)*
- DANC468 Modern Repertory (3 credits)
- DANC420 Contemporary Partnering (2 credits)
- DANC466 Laban Movement Analysis (3 credits)
- DANC371 Somatics, (3 credits)
- DANC310 Dance lighting (3 credits)
- DANC399 Practicum in Choreography, Production and Performance III (1-3)
- DANC499 Practicum in Choreography, Production and Performance IV (1-3)
- DANC489 Special Topics in Dance
- Additional courses approved by the program.

*A maximum of a total of 6 credits of Dance 448 and 449 will count toward the 12 credit area requirement.

Production Area of Emphasis

Approved courses:

- TDPS479 (Required - 3 credits) This is in addition to the 1 credit required of all majors.

An additional 9 credits selected from:

- DANC310 Dance Lighting
- DANC410 Topics in Dance Production
- THET116 Fundamentals of Theatrical Design
- THET284 Stage Costume Construction I
- THET371 Scenic Design I
- THET383 Costume Design I
- THET377 Lighting Design I
- THET373 Rendering for the Theatre I
- THET472 Scene Painting
- THET474 Stage Management

Note: THET284, 371, 383, 377, 373, 472, and 474 are permission required courses

Education Area of Emphasis

Approved courses:

- DANC405 (3) Dance Education and Policy
- DANC371 (3) Somatics
- DANC389 (1) Independent Study in Global Movement Practice Research
- DANC466 (3) Laban Movement Analysis
- DANC489F (2) Upper Level Global Movement Practice

A grade of "C-" or higher must be attained in all dance courses.

An overall GPA of 2.0 in the major is required for graduation.

Other Requirements for the Major

Mid-Point Assessment

The Mid-Point assessment gives the program a mid-course opportunity for learning outcomes assessment. In preparation for the assessment, students prepare a portfolio that includes a resume, samples of their writing, and a DVD with examples of their work in technique and choreography classes. The Mid-Point assessment is a benchmark requirement in the program. All transfer students, as well as students who declare Dance after their first semester on campus, will be assigned an assessment date when they meet with their Dance advisor to develop an academic plan. Students who do not complete the assessment process in their assigned semester will not be permitted to continue in the major. Completion is defined as submission of a portfolio and participation in a scheduled assessment meeting.

The Dance program has mandatory advising each semester. New, re-entering, and transfer students are expected to contact the program, following their admission to the University, for instructions regarding advising and registration procedures. Although entrance auditions are not required, some previous dance experience is highly desirable.

For additional information about the program contact:

Alvin Mayes
 Director of Undergraduate Dance Studies School of Theatre, Dance, and Performance Studies
 2810 Clarice Smith Performing Arts Center
 University of Maryland
 College Park, Maryland 20742
 301-405-3194
 amayes@umd.edu

Advising

The College of Arts and Humanities has a dual track advising system where students meet with college advisors to discuss their ARHU and general education requirements and meet with departmental advisors to discuss the major requirements. The Dance Major requires mandatory advising each semester to keep in touch with our student base and assist majors and double majors with curricular and co-curricular choices. Advising procedures and

instructions to sign up for an advising appointment can be obtained at the school's main office, or, you may contact:

Susan Miller, Coordinator of Student Services and Academic Advisor
smille13@umd.edu

Scholarships and Financial Assistance

Scholarships and financial assistance may be awarded to prospective and enrolled students through a number of Creative and Performing Arts (CAPA) scholarships and other Dance Scholarship Award Funds. For further information, visit the TDPS website at <http://tdps.umd.edu> and select "Scholarships and Awards" on the BA Dance page.

Assistant Professors: J. Barclay Newsham, J. Mezzocchi

Lecturers: C. Barger (Coordinator, Lecturer), K. Rothman (Visit Asst Prof, Lecturer)

Professors Emeriti: P. Gillespie, R. Meersman, W. Patterson, R. Pugliese, D. Wagner

The Major

Small classes, diversity, and a close-knit environment promote a strong sense of community within the Theatre major. An extensive production schedule offers students a myriad of opportunities to practice their craft. A supportive and stimulating environment fosters creative development and spurs achievement. Our comprehensive curriculum embraces the liberal arts approach to theatre study and cultivates skills - discipline, creativity, self-confidence, and critical thinking - that are valuable in all career fields. Students gain a strong foundation in theatre arts and have the opportunity to tailor the degree to their strengths and interests. Our performance and design/production faculty cluster members are active in their fields (members of Actors Equity and United Scenic Artists), providing students a vital link to the world of professional theatre. Our scholarship faculty cluster members regularly publish and participate at national and international conferences. Situated in close proximity to the vibrant Washington/Baltimore theatre communities, students have ready access to the best of contemporary and classical productions at more than 80 professional theatres. Through professional affiliations with many of these theatre companies, students enjoy unique opportunities such as internships, workshops, partnership projects, and blended productions. An audition, portfolio, or interview is not required for admission to the program. Courses offered by this Department may be found under the following acronym(s): THET, TDPS, DANC, AASP, HONR, JAPN, JWST, WMST, ANTH.

Program Objectives

Our Mission

The University of Maryland School of Theatre, Dance, and Performance Studies advances and transforms the research and practice of theatre, dance, and performance studies through its commitment to excellence and innovative education in the performing arts.

Our Vision

We envision a School that serves as a national model for collaboration, innovation and entrepreneurship in the performing arts. The Theatre program offers a balanced liberal arts education that integrates production, design, and scholarship. The B.A. in Theatre seeks to introduce students to the history, theory, and literature of theatre; to offer them insights into the cultural diversity that has shaped the creation of theatrical forms around the world; to allow them to develop their own aesthetic sensibilities and perspectives as an artist and audience member; and to offer them practical training in the areas of theatre craft, which ranges from design, to directing, and to performance.

Program Learning Outcomes

By the end of their undergraduate work students should be able to demonstrate fundamental knowledge of theatre performance, design, history, craft and literature analysis. They will also be able to demonstrate critical and creative thinking skills and the ability to communicate with both written and spoken word and artistic vision. Students will also develop the ability to interpret and analyze dramatic texts with critical understanding of content and methodology. They will expand their awareness of the basic methods and principles for creating a dialogue between theory and practice. Finally, students will develop the ability to work effectively within a collaborative environment.

Academic Programs and Departmental Facilities

Theatre is housed in the Clarice Smith Performing Arts Center, a state-of-the-art performing arts "village" comprised of ten interconnected structures occupying 318,000 square feet and situated on a 17-acre site at the northwest end of the campus. The Center is designed to serve the theatre, music, and dance programs of the University. The Center also houses the Michelle Smith Performing Arts Library. With 30 classrooms, 50 practice and rehearsal rooms, and fully outfitted costume, electric, scenic production, paint, and properties shops, the Center serves more than 5,000 students, 200 faculty and staff, and numerous regional, national, and international audiences and professionals. For further information, visit the Clarice Smith Performing Arts Center website at <https://theclarice.umd.edu>.

Admission to the Major

An audition/portfolio is not required to become a Theatre major.

Placement in Courses

Many Theatre performance and production courses above the Sophomore level require an audition, interview, and/or permission of the Department.

Requirements for the Major

Requirements for the College of Arts and Humanities include a minimum of 45 upper-level credits and the Global Engagement Requirement. Students in the Theatre major prior to the Fall 2009 semester should consult the unit for prior curriculum requirements.

FOUNDATION SERIES (16 credits):

TDPS201	Introduction to Technical Production
THET116	Fundamentals of Theatrical Design
THET222	Foundations of Acting and Performance
THET223	Text and Context in Western Theatre
TDPS479	Production Practicum (1 credit repeated four times)

**Foundation Series courses may be taken in any sequence.*

**THET222, THET223, one credit of TDPS479, and either THET116 or TDPS201 must be completed by the end of the second semester or 30 credits.*

**TDPS479 (4 - 1 credit courses for a total of 4 credit hours) cannot be taken until TDPS201 is completed.*

**TDPS479 must be completed in 3 different areas - costume, scenic, lighting and sound*

**Students are expected to complete one TDPS479 course by the end of the 2nd semester or 30 credits, and all 4 courses by the end of the 6th semester or 90 credits.*

AREA MENU (18 credits):

Students must take courses from each Area as delineated below. Students may enter the Area Menu after completing appropriate prerequisites.

Performance Area: 3 credits required

Design Area: 6 credits required; 3 at the 300-400 level

History/Theory: 9 credits required; THET390, THET391, 3 at 400 level

Performance Area (3 credits required): *courses marked with an * require an audition. Students may only audition twice for each course requiring an audition for enrollment.*

THET210	Movement for Actors
THET285	The Art of Communication and Presentation
THET310	Voice for the Actor I*
THET324	Acting: Character Development*
THET325	Acting: The Actor's Process Part I*
THET330	Play Directing I
THET360	Voice Archetypes
THET411	Voice for the Actor II*
THET420	Acting IV: Language and the Actor*
THET424	Movement II: Advanced Studies in Movement for the Actor*
THET425	Acting: The Actor's Process Part II*
THET430	Play Directing II
THET451	Musical Theatre Workshop I*
THET452	Musical Theatre Workshop II*

Design/Production Area (6 credits required):

Some courses require departmental or instructor approval

THET273	Theatre Graphics I
THET274	Introduction to Stage Management
THET282	Stage Makeup
THET284	Stage Costume Construction I
THET371	Scenic Design I
THET372	Stage Property Design
THET373	Rendering for the Theatre I
THET377	Lighting Design I
THET380	Sound Design
THET383	Costume Design I
THET384	Stage Costume Construction II
THET457	Advanced Lighting Technology
THET465	History of Fashion for the Theatre
THET470	Advanced Stage Craft
THET471	Design Studio in Scenery
THET472	Scene Painting
THET473	Rendering for the Theatre II
THET474	Stage Management
THET475	History of Art, Architecture, and Décor for the Theatre
THET477	Design Studio in Lighting
THET481	Theatre Graphics II
THET482	Scene Painting II
THET483	Design Studio Costume

History/Theory Area (9 credits; THET390, THET391, 3 must be at the 400 level):

THET390	Theatre History I
THET391	Theatre History II
THET408	Seminar: Theory and Performance Studies
THET488	Special Topics in Theatre History Before 1800
THET489	Special Topics in Theatre History from 1800 to Present

All seminars offered at the 400/600 level require undergraduate students to obtain permission from the instructor and to have completed either THET488 or 489. This includes: THET408/608, THET410/610, THET486/686, THET487/608, THET498/698.

SUPPORTING COURSES (21 credits):

12 Supporting credits must come from THET courses; 15 credits of Supporting Courses must be upper level (300-400) coursework.

Supporting course credits may come from the Performance, Design/Production, or History/Theory Area menus OR any combination of the four menus. Students may also petition to their advisor for other suitable courses to be accepted, conditional on course work relating to their area of focus. For course prerequisites contact the Department that is offering the course or check [Testudo online](#).

For a complete listing of Supporting Courses check the Undergraduate page of the Theatre website at <http://tdps.umd.edu/>.

Major requirements include 55 credits of course work in Theatre. 46 credits of these must be THET and 9 Supporting Courses may come from approved courses outside the unit. Of the 55 credits, at least 28 credit hours must be upper level (300-400 series). No course with a grade less than "C-" may be used to satisfy major or supporting area requirements. An overall GPA of 2.0 in the major is required for graduation. No course for the major may be taken Pass/Fail or Audit.

Other Requirements for the Major

As the Area and Supporting Course Menus do not require specific course choices, students may select courses according to their interests and abilities. In consultation with their advisor, students may choose to tailor their degree and create a focus in a specific area of interest to prepare them for the profession or entrance to graduate school.

Advising

The College of Arts and Humanities has a dual track advising system where students meet with college advisors to discuss their general education and college requirements and with departmental advisors to discuss their major requirements. The Theatre major requires mandatory advising each semester to keep in touch with our student base and assist majors and double majors with curricular and co-curricular choices. Advising procedures and instructions to sign up for an advising appointment can be found on the TDPS website at <http://tdps.umd.edu> and under the heading "BA Theatre."

Or, you may contact:

Susan Miller, Coordinator of Student Services and Academic Advisor
smille13@umd.edu

Internships

Theatre majors may register for up to 6 credits of internship work under the THET286 or THET386 course number. Internships may be done during the academic year or during the summer. Internships may be done for credit and salary, or, an internship may be done just for credit. Information about the internship procedure may be found on the Theatre website. Internships are not required but are strongly encouraged.

Scholarships and Financial Assistance

Scholarships and financial assistance may be awarded to prospective and enrolled students through a number of Creative and Performing Arts (CAPA) scholarships, and various Theatre Scholarship/Awards Funds. For further information visit the TDPS website at <http://tdps.umd.edu> and select "Scholarships and Awards" on the BA Theatre page. The Office of Student Financial Aid (OSFA) administers all types of federal, state, and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

At the spring TDPS commencement ceremony, the Charles B. Hale Award is presented to the two members of the senior class who have done the most for the advancement of dramatic art while undergraduates at the University of Maryland.

Professors Emeriti: E. Beck, A. Bolles, S. Kim, C. Moses, D. Rosenfelt

The Major

Women's Studies is an interdisciplinary field of inquiry analyzing structures of power, especially as they are grounded in gender, race, sexuality, ethnicity, nationality, ability, and other inequalities, and as they configure historical and contemporary struggles for social change. The department sees itself as a force for change in the world, change which leads toward intellectual freedom, social justice, and equality for all people. We do this by providing an outstanding education in women, gender, race, and sexuality studies through excellent teaching, engaged mentoring, path-breaking research and scholarship, and dedicated community service.

The Women's Studies major offers students a coherent but flexible program of study examining scholarship and theory on the history, status, contributions, and experiences of women in diverse cultural communities; the lives, experiences, identities, and representations of lesbian, gay, bisexual, and transgender people; the significance of gender as a social construct and as an analytical category; and an understanding of race as a structural and historical formation in the context of power.

The B.A. degree prepares students for work in a wide range of areas, including non-profit management, social justice advocacy, law, health-related fields, student affairs, and government and public policy. We seek to develop a new generation of scholars and leaders who, with us, will work to acknowledge, understand, and critically interrogate human differences.

To achieve these goals each student meets every semester with an academic advisor to plan a course of study tailored to individual interests and goals. In addition to the B.A. in Women's Studies, the department also offers two certificate programs and two minors. Courses offered by this department may be found under the following acronyms: WMST, LGBT.

Program Learning Outcomes

Students are expected to fully engage with the curriculum and the opportunities presented for learning and research. Having completed the Women's Studies degree program, students should have acquired the following knowledge, skills, and practices:

- An ability to critically analyze issues related to women, race/ethnicity, gender, sexuality, and class
- A demonstrated engagement with the practices of feminist, critical race, and LGBTQ social action
- An ability to do independent research using appropriate methods
- An ability to use effective forms of communication

Academic Programs and Departmental Facilities

The Women's Studies Multimedia Studio is a multi-purpose event space and lab dedicated to fostering connections between Women's Studies and digital humanities by engaging issues of identity and difference through art, performance, media activism, and interdisciplinary scholarship.

Requirements for the Major

Students will earn a total of 39-42 credit hours, distributed as indicated below. Drawing from approximately fifty courses, many of which are cross-listed with other academic units, students will have the opportunity to design an emphasis within the major relevant to their special interests. A number of courses may count in more than one category. At least 30 credits must be at or above the 300 level. No course with a grade less than "C-" may be used to satisfy the major. An overall GPA of 2.0 in the major is required for graduation. Students will design their programs in consultation with a Women's Studies advisor.

	Foundation Courses (18 credit hours)	Credits
WMST200	Introduction to Women's Studies: Women and Society, OR	3

*Fulfills Women's Studies Multi-Cultural Requirement

Courses in Cultural Diversity (6 credit hours)

Approved courses are noted with an asterisk in Distributive Courses section above. Courses in this category may overlap with other requirements.

Student-Developed Emphasis (9 credit hours)

Each student, with the help of the Academic advisor, will design an emphasis relevant to their special interests. Courses will ordinarily be drawn from the more than 50 courses approved for the major; in some instances, students may secure permission to include other courses.

Electives

Students should select their electives from the full list of courses for the major. The number of credit hours will vary depending on the individual student's program, but should bring the total number of semester credit hours to at least 39.

Requirements for the Minor

Joint Minor in Black Women's Studies

College of Arts and Humanities
2101 Woods Hall, 301-405-6877
www.umd.edu/wmst
College of Behavioral and Social Sciences
2169 Lefrak Hall
www.bsos.umd.edu/aasp

See African American Studies Department or Women's Studies Department for faculty roster.

The joint minor in Black Women's Studies focuses on the lives and experiences of women of Africa and the African Diaspora. As a specialty in the fields of Women's Studies and African American Studies, it will provide students with tools for understanding the social and cultural contexts in which race, gender, class, sexuality, ethnicity, nation and other dimensions of difference intersect to influence the lives and experiences of Black women. Fifteen (15) credits of coursework are required, distributed below. A number of courses may count in more than one category. No course with a grade less than "C-" may be used to satisfy the minor. An overall GPA of 2.0 in the minor is required for graduation. Students will design their program in consultation with the Women's Studies or African American Studies advisor. No more than two courses may count toward a major in African American Studies or Women's Studies.

Foundation courses (6 credits)

WMST263/AASP203 Introduction to Black Women's Studies or
WMST265/AASP213 Constructions of Manhood and Womanhood in the Black Community
AASP313/WMST314 Black Women in U.S. History

Distributive Requirements (9 credits)

Area I - Comparative or Non-US Course - indicated by a * below (3 credits)

Area II - Humanities (3 credits)

WMST263/AASP203 Introduction to Black Women's Studies
THET240 African Americans in Film and Theater
*ENGL362 Caribbean Literature in English
*FREN478B Themes and Movements of French Literature in Translation: Francophone Women Writers

Area III - Social Sciences (3 credits)

WMST265/AASP213 Constructions of Manhood and Womanhood in the Black Community
HIST319 Women and the Civil Rights Movement
*WMST360 Caribbean Women
*WMST410 Women of the African Diaspora
WMST488 Senior Seminar: Black Women in the Public Eye
AASP493 Feminist and Nationalist Thought in the Black Community
WMST498 Black Feminist Thought WMST498 Womanisms and Feminisms: Theories and Methods
AASP483 Gender, Sexuality and the Black Family

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/undergraduate/academics/minors

Lesbian, Gay, Bisexual and Transgender Studies

College of Arts and Humanities
2101 Woods Hall, 301-405-6877
www.lgbts.umd.edu
lgbts@umd.edu

The LGBT minor in the Department of Women's Studies is a 15 credit program which provides students an opportunity for interdisciplinary study of the lives, experiences, identities, and representations of LGBT people. This course of study provides solid grounding in the major concepts and methods that define studies of sex, gender, and gender identity today. Any student in good standing in the university may enroll in the LGBT Studies minor. In consultation with the Department of Women's Studies Academic Advisor, students will design a minor program that complements their major field of study.

Minor Requirements:

15 credits: 12 credits are in required courses, while 3 credits are earned in one upper-level elective course.

A. Required core curriculum for the Minor in LGBT Studies (12 credits)

1. LGBT200 - Introduction to Lesbian, Gay, Bisexual, and Transgender Studies
 2. One lower-level course focused on literature, art, or culture by or about LGBT people, either LGBT265 (X-listed as ENGL265) or LGBT291 (X-listed as CMLT291);
 3. One of the following upper-division courses focused on the personal, social, political, and historical aspects of LGBT people: LGBT350, LGBT407 (X-listed as PHIL407), or LGBT494 (X-listed as WMST494);
 4. One of the following upper-division courses focused on literature, art, or culture by or about LGBT people: LGBT359 (X-listed as ENGL359), LGBT459
-

(X-listed as ENGL459), LGBT465 (X-listed as ENGL465); or LGBT327.

B. Elective course for the Minor in LGBT Studies (3 credits)

An upper-division elective will complement the required courses. This elective may be a course from categories 3 and 4 above that has not been used to fulfill requirements; or it may be one of the capstone courses in LGBT Studies (LGBT386 or LGBT488), or a course chosen from the list of approved electives for the LGBT Studies program. The list of approved electives is available at www.lgbts.umd.edu/minor.html. A student may also petition to have any course fulfill this requirement by providing evidence, usually the syllabus, that a substantial amount of the course work, usually including a term paper, consists of LGBT material.

- Appropriate substitutions for courses listed in categories 2 through 4 above may be made with approval from the Director of Undergraduate Studies in the Department of Women's Studies.
- No course earned with a grade below "C-" will count toward the minor in LGBT Studies.
- An overall GPA of 2.0 in the minor is required for graduation.
- Students may use a maximum of six credits (or two courses) to satisfy the requirements of both their major and the minor in LGBT Studies. However, courses taken to complete the minor in LGBT Studies may not be used to satisfy the requirements of another minor.
- No more than six of the required credits (or two courses) may be taken at an institution other than the University of Maryland, College Park. However, at least six upper division credits applied to the minor must be taken at this university.
- Students are advised to declare the minor in LGBT Studies to the Director of Undergraduate Studies in the Department of Women's Studies one year prior to their intended graduation to assure appropriate advising and record-keeping.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/undergraduate/academics/minors

Certificate

The Department of Women's Studies offers two undergraduate certificate programs. Any student in good standing in the university may enroll in either certificate program by declaring their intention to the Director of Undergraduate Studies in Women's Studies.

The Women's Studies Certificate Program consists of an integrated, interdisciplinary curriculum on women and gender. To qualify for this certificate, a student will be required to earn 21 credits in Women's Studies courses, nine of which must be at the 300/400 level.

The Lesbian, Gay, Bisexual, and Transgender Studies Certificate Program provides students an opportunity for interdisciplinary study of the lives, experiences, identities, and representations of LGBT people. To qualify for this certificate, a student will be required to earn 21 credits in LGBT or related courses.

No grade below the grade of "C-" may count toward a certificate. An overall GPA of 2.0 in the certificate program is required for graduation.

Advising

Advising is mandatory for all majors each semester. Please call 301-405-6827 for an appointment.

Certificate students and minors are also encouraged to consult with the Department of Women's Studies academic advisor prior to registration each semester.

Internships

As part of the major, students are required to complete a hands-on, practical learning experience. They may do so through an internship or a feminist pedagogy course.

Students seek internship opportunities in local, state and federal governments, non-profit organizations, policy and research institutions as well as agencies committed to social change. Student internship sites have included: League of Women Voters of Maryland, Sinister Wisdom lesbian literary and art journal, National Organization for Women, Jewish Women International, Institute for Women's Policy Research, Asian Pacific Islander Domestic Violence Resource Project, State of Maryland Lt. Governor's Office, D.C. Rape Crisis Center, the District Alliance for Safe Housing, the Gay, Lesbian, Bisexual, Transgender Community Center of Baltimore and Central Maryland, and Calvert OB/GYN Associates.

Students who complete this requirement through the feminist pedagogy course work closely with a faculty member in an undergraduate course in Women's Studies, studying feminist theories of learning and assisting in the planning and delivery of the course.

Honors Program

The Honors Program is designed to give students the opportunity to pursue an area of passionate academic interest in greater depth than that allowed by formal classes. Honors students engage in rigorous interdisciplinary research under the close supervision and mentorship of a Women's Studies faculty member. Students can be expected to gain a deeper understanding of some aspect of women's, gender, and/or sexuality studies and to develop habits of self-reliance, individual initiative, and critical analysis. The culminating thesis may be a sustained piece of writing or a substantial creative or activist project.

Student Societies and Professional Organizations

Iota, Iota, Iota (Triota) is the Women's Studies Honor Society. This organization strives to maintain feminist values of egalitarianism and inclusiveness. It celebrates the diversity of experiences that are central to Women's Studies. Triota works to promote student research and activism in socio-political issues that affect all minority groups and aims to recognize and promote the academic achievements of students enrolled in Women's Studies and Lesbian, Gay, Bisexual, and Transgender Studies courses.

Scholarships and Financial Assistance

The Novak Family TerpStart Endowed Scholarship is awarded to an undergraduate student participating in the department's Lesbian, Gay, Bisexual, and Transgender Studies Program. For information and requirements, contact the Director of Undergraduate Studies (301-405-7710).

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu.

Awards and Recognition

The Women's Studies Department administers a variety of awards and grants to encourage and recognize outstanding scholarship, research, leadership and service.

Each fall the department awards travel funds to support the participation of undergraduate students in the National Women's Studies Association Annual Conference. Any student in the university who has completed 12 credits of WMST and/or LGBT courses is eligible to apply for the NWSA travel award.

Majors are eligible to apply for Academic Enrichment funds for research travel, participation in academic or leadership conferences and workshops, or other activities that will enhance their education in women's, gender, and/or sexuality studies.

The Laura Nichols Award recognizes student commitment to equality, inclusion, and social change.

Additionally, at its commencement ceremony, the department recognizes graduates who have excelled in academics or in service to the campus and community.

For information on any of these awards, including how to apply, contact the Director of Undergraduate Studies.

World Language Education (TLPL)

For more information see Teaching and Learning, Policy and Leadership in Chapter 7.

8. Minors

Actuarial Mathematics

Mathematics (MATH)

1117 Mathematics Building, 301-405-5053

www-math.umd.edu

The Department of Mathematics offers a minor in Actuarial Mathematics for students whose majors are not mathematics. The goal of the minor in Actuarial Mathematics is to provide the student with an introduction to statistics in general and actuarial mathematics in particular. This minor is closely related to the minor in Statistics, but its focus is on actuarial mathematics.

16 credits are required for the minor as outlined below:

- MATH241 (4 credits)
- One pair of the following 3-credit courses: (for a total of 6 credits)
 - STAT400/401 or
 - STAT410/420 or
 - STAT410/401
- MATH461 (3 credits)
- *Note: MATH240 (4 credits) may be substituted for MATH461*
- STAT470 (3 credits)
- Recommended: MATH424 and/or STAT430

Other issues related to coursework:

- The minor in Actuarial Mathematics is NOT open to Mathematics majors.
- The student will need to achieve at least a "C-" in each course required for the minor.
- A student may use a maximum of 2 courses to satisfy the requirements of both a major and a minor in Actuarial Mathematics.
- No more than two of the courses for the minor in Actuarial Mathematics may be taken at an institution other than the University of Maryland, College Park. In addition, only one of the upper-level courses for the minor may be taken at an institution other than the University of Maryland, College Park.

The departmental advisor for this program is Ida Chan, Undergraduate Mathematics Advisor (ichan@math.umd.edu).

Anne Arundel Hall, 301-314-7414

www.aces.umd.edu

aces@umd.edu

The ACES (Advanced Cybersecurity Experience for Students) Minor is housed in the Honors College but is open to all undergraduate students in all majors. This minor takes a multidisciplinary approach to cybersecurity education in that students gain knowledge about many of the fields that intersect in cybersecurity (e.g., legal and public policy aspects, criminal justice, journalism, and computer science and engineering). With an emphasis on hands-on experiences, students will gain practical skills through coursework, seminars, group projects, internships, and research, both on and off campus.

Students in the ACES Minor will also have opportunities to engage in the larger ACES community, including serving as peer mentors, tutors, and advisors for ACES Living-Learning Program students; participating in educational events; and serving as student leaders on the ACES Student Board. ACES Minor students will also have regular interactions with corporate and governmental leaders in cybersecurity, who will serve as both mentors and professional contacts.

Coursework:

The ACES Minor features a customizable 16-credit curriculum.

Prerequisites

Required for students who have not completed the ACES Living-Learning Program

**HACS201 is waived for students who have completed CMSC216*

Course	Credits
HACS201 Introduction to Unix*	1
HACS202 Group Project in Cybersecurity	3

Required Course

Required for all ACES Minor students

Course	Credits
HAC318 Cybersecurity Professionals Colloquium	1

Electives

Select at least 3 courses. Students may also substitute one or two electives from courses including CCJS418B, CMSC414, CMSC456, CMSC498R, ENEE459C, ENEE459D, ENEE459E, and ENME442.

Course	Credits
HACS402 Applied Security Analysis & Visualization	3
HACS404 Security through Cyber Forensics	3
HACS408 Advanced Seminars in Cybersecurity	3

Experiential Learning

Complete a minimum of 3 and a maximum of 6 credits

Course	Credits
HACS479 Undergraduate Research in Cybersecurity	1 - 3
HACS498 Cybersecurity Team Problem Solving	3

Notes:

- At the time of application students must have 30 university credits completed (including transfer credit), a minimum cumulative GPA of a 3.0, and at least 4 semesters remaining prior to graduation
- Upon admission to the minor students will become part of the Honors College and are subject to its policies
- Students must maintain a 3.0 cumulative GPA to remain in good standing in the minor per Honors College requirements
- All courses used to satisfy the requirements of the minor must be completed with a grade of "C-" or better
- A maximum of 2 courses may be used to satisfy the requirements of both a major and a minor

Agribusiness Economics

Agricultural and Resource Economics (AREC)

2200 Symons Hall

www.arec.umd.edu

This minor provides students with economic knowledge and analytical skills to apply to real world problems in agribusiness. The 400-level courses are a truncated version of the upper-level course requirements of the AREC major. These courses focus particularly on economic analysis relevant to business decisions. AREC250 is an introductory course giving students an overview of the subject.

		Credits
AREC240 OR	Introduction to Economics and the Environment OR	3
AREC250	Elements of Agricultural & Resource Economics	3
AREC306	Farm Management and Sustainable Food Production	3
AREC404	Applied Price Analysis	3
AREC405	Economics of Production	3
AREC425	Economics of Food Sector	3
AREC427	Economics of Commodity Marketing Systems	3
AREC433	Food and Agricultural Policy	3
AREC435	Commodity Futures and Options	3
AREC422	Econometric Applications in Agricultural and Natural Resource Economics	3
<i>Please choose five courses from the list above. Nine credits must be at the 300-400 level.</i>		
<i>Another AREC course can be substituted for one of the courses listed above with permission of the Undergraduate Advisor.</i>		
Total Credits		15

Arabic

School of Languages, Literatures, and Cultures (SLLC)

<http://sllc.umd.edu/arabic/>

The minor in Arabic (21 credits) provides a solid grounding in Modern Standard Arabic and colloquial Arabic. Students who satisfy the requirements of the minor in Arabic can expect to be able to read, write, and communicate orally in Modern Standard Arabic and one of the Arabic dialects at a level that would allow them to interact with native speakers and perform effectively in a daily environment, watch TV and films in Arabic, engage with authentic texts, write short papers in Arabic, and perform other tasks expected from an Advanced Level learner.

The materials used to further language acquisition are culturally rich resources, and students completing the minor will have become familiar with many of the cultural patterns, social issues, historical events, artistic traditions, and elements of daily life of the people whose cultures are rooted in Arabic. Students interested in pursuing the minor in Arabic should contact the undergraduate advisor, who will be responsible for oversight and record keeping.

Students should declare the minor in Arabic at least one year prior to graduation.

Prerequisites (12 credits):

	Credits
ARAB104 Elementary Modern Standard Arabic I-II	6
ARAB105 Elementary Modern Standard Arabic III-IV	6

No prerequisites are required for students with equivalent knowledge. Placement testing is mandatory.

Courses required for Minor (21 credits):

All prerequisites imply "or equivalent knowledge."

		Prerequisite	Credits
ARAB204	Intermediate Modern Standard Arabic I	ARAB105	6
ARAB205	Intermediate Modern Standard Arabic II	ARAB204	6
ARAB304	Advanced Modern Standard Arabic	ARAB205	3
ARAB305	Advanced Modern Standard Arabic	ARAB304	3
ARABXXX	Additional upper level course taught in Arabic*		3
	*Contact the minor advisor for approved courses		
			21

Notes:

- Once credits have been received for a higher-level language focus course, a lower-level course in the same strand may not be taken for credit. (For example, ARAB204 may not be taken after ARAB205).
- In cases where a student has equivalent knowledge, required courses are replaced in consultation with minor advisor. All courses applied to the minor must be taught in Arabic.
- Students who begin their study as heritage speakers must seek the advice and written permission of the advisor before choosing the courses they will use to replace any required minor courses.
- A maximum of 6 credits can be applied to the minor from courses taken at other institutions. No more than 6 credits of the minor may be used to satisfy the requirements of a major. No courses in the minor may count toward another minor.
- All courses presented for the minor must be passed with a grade of "C-" or better.
- An overall GPA of 2.0 in the minor is required for graduation.

To make an appointment to explore or declare a minor, go to: www.arhu.umd.edu/undergraduate/academics/minors

Archaeology

Professor Lillian Doherty

ldoherty@umd.edu

301-405-2022

<http://classics.umd.edu/academicprograms/undergraduate/minor>

The interdisciplinary minor in Archaeology is intended to introduce students to the global importance of archaeology and its value as a mode of scholarly inquiry.

The minor requires a minimum of 15 credits and consists of three elements:

1. A required 3-credit, 300-level course, Archaeological Methods and Practice, cross-listed as ANTH305, CLAS305, and ARTH305, to be offered once each year. There is a one-course prerequisite, to be chosen from among the following: ANTH240, CLAS180, or ARTH200.
2. 3 to 6 credits in approved courses offering fieldwork experience. There are many options at UMCP, including historical archaeology courses in ANTH that do not require travel abroad.

Study-abroad programs at other institutions must be approved in advance by a UMCP faculty member with the appropriate specialization.

3. 6 to 9 credits in supporting courses involving subject matter that includes a significant focus on archaeology (in, e.g., ARCH, ANTH, ARTH, CLAS, HIST, JWST, LARC, RELS). A list of approved courses will be made available to students interested in the minor. The list will be updated as course offerings change.

Advising will be coordinated in any given year by the faculty member who is teaching the required, cross-listed course. Contact Prof. Lillian Doherty in the Classics Department for information.

As required for all minors, at least 9 credits overall must be in courses at the 300 or 400 level. The grade point average in the minor must be at least 2.0 and no grade below "C-" can be counted toward the minor. A maximum of 6 credits may be counted toward both the minor and the student's major. A maximum of 6 credits earned at other institutions may be counted toward the minor.

Art History

Art History and Archaeology (ARTH)

1211-B Art/Sociology Building, 301-405-1479

www.arthistory.umd.edu

The minor in Art History introduces students to a range of art-historical periods, problems, and methodologies and is intended at once to broaden and deepen the student's knowledge of arts and humanities. A total of 18 credits is required.

1. Nine credits of 200-level surveys in the history of art are required. Choose any three (3) broad surveys from among the following 3-credit courses:

- ARTH200: Art and Society in Ancient and Medieval Europe and the Mediterranean
- ARTH201: Art and Society in the West from Renaissance to the Present
- ARTH250: Art and Society in the Ancient American World
- ARTH255: Art and Society in the Modern American World
- ARTH275: Art and Society in Africa
- ARTH290: Art and Society in Asia

2. In addition, nine (9) credits of upper-level art history courses are required. Choose any three (3) upper-division (300- or 400-level) 3-credit courses in Art History (ARTH prefix).

A total of six (6) credits may be transferred into the minor from other institutions or programs. These transferred credits include those from study-abroad programs. Study-abroad credit requires the prior approval of the Director of Undergraduate Studies.

All courses presented for the minor must be passed with a grade of "C-" or better.

An overall GPA of 2.0 in the minor is required for graduation.

To make an appointment to explore or declare a minor, go to

www.arhu.umd.edu/undergraduate/academics/minors

Asian American Studies

Asian American Studies Program (AASST)

2117 Susquehanna Hall, 301-405-0996

www.aast.umd.edu

aast@umd.edu

Director: Janelle Wong, Ph.D.

In the Asian American Studies Program (AASST), students undertake an interdisciplinary and critical study of race, immigration, and political and social representation through examination of

the experiences of Asian Americans. Students study the experiences of Asian Americans compared to and connected with other groups in the United States, as well as situated within a global and transnational context. Through this approach, students examine the histories, communities and cultures of Asian Americans as both distinctive and connected to the broader themes for diversity, ethnicity, race, gender, sexual orientation and migration in the Americas. AAST offers a 15 credit-hour minor. For the minor, courses may be cross-listed in other departments and some may satisfy general education requirements.

Minor Requirements:

A. AAST FOUNDATIONAL COURSE (3 credits)

1. Introduction to Asian American Studies (AAST200/AMST298C)

OR

2. Asian American History (AAST201/HIST221/HIST219M/HIST219G)

B. ELECTIVE COURSES (9 credits)

Three (3) additional AAST or other approved courses, two of which must be upper division and one must be comparative ethnic or global/transnational/international (see courses with an asterisk*). Students may take a course not on this list with approval from the AAST Director. The following list of regular and special topics include:

AAST200 Introduction to Asian American Studies

AAST201 Asian American History

AAST223 Introduction to Asian American Literature

AAST222/HIST222 Immigration and Ethnicity in the United States

AAST443 Asian American Politics

AAST378 Experiential Learning

AAST388 Independent Research

AAST498M Asian American Public Policy

AAST498I Asian American Leadership

AAST498G Asian American Women and Gender

AAST498O Asian American Health

*THET498D Special Topics in Theatre History from 1800 to Present: Asian American Theatre

*AAST498B Confucius' Many Lives in East Asia and Asian America

*AASP499T Advanced Topics in Public Policy and the Black Community: Race, Poverty, Violence, and the Juvenile Justice System: A Theoretical and Contextual Analysis of Social Capital

*AASP202H Black Culture in the United States

*USLT498B Special Topics: Latinas/os and US Popular Culture

*USLT498B Special Topics: Latinas/os and Racial Formation

*EALL300 The Languages of East Asia

*ARTH290 Art and Society in Asia

*AAST498W/AMST498R Selected Topics in American Studies: Transnational American Studies

*ARTH489F Special Topics in Art History: Modern Chinese Film and Visual Culture

*ENGL428Y Seminar in Language and Literature: Authors of the Early Black Atlantic

*USLT202 Overview US Latino/a Studies

*PSYC354 Cross-Cultural Psychology

*300-Level Asian language course (only 1 language class can count toward AAST minor)

C. UPPER DIVISION COURSES (3 credits)

AAST 499 Senior Thesis. Prerequisite: AAST200 or AAST201. Restriction: Permission of instructor or enrolled in AAST minor. This advanced colloquium in Asian American Studies is designed as a senior seminar. The course offers an intensive learning experience and students are required to complete a thesis, applied research project, or take part in and write about a sustained community experience.

OR

One additional 400-level AAST course

Astronomy

1208 Physical Sciences Complex, 301-405-3001

www.astro.umd.edu

Minor in Astronomy

A Minor in Astronomy may be earned by completing the following with grades of "C-" or better. An appointment must be made to register for the minor before final 30 credits are taken. Please contact Department for complete rules and procedures.

	<i>One from:</i>	Credits
ASTR100	Introduction to Astronomy	3
ASTR101	General Astronomy	4
ASTR120+121	Astrophysics 1 and 2	7
	or equivalent transfer course(s)	
	<i>One from:</i>	
ASTR220	Collisions in Space - The Threat of Asteroid Impact	3
ASTR230	The Science and Fiction of Planetary Systems	3
	<i>Three from:</i>	
ASTR300	Stars and Stellar Systems	3
ASTR305	Astronomy and the Media	3
ASTR330	Solar System Astronomy	3
ASTR340	Origin of the Universe	3
ASTR380	Life in the Universe - Astrobiology	3
ASTR498	Special Problems in Astronomy	3
CRSxx	Or a course approved by the department	3

Minor in Planetary Science

A Minor in Planetary Science may be earned by completing the following with grade of "C-" or better. An appointment must be made to register for the minor before final 30 credits are taken. Please contact Department for complete rule, and procedures.

The minor will require 19-22 credits:

One of the following:		
ASTR100	Introduction to Astronomy	3
ASTR101	General Astronomy	4
ASTR120	Astrophysics I	3
	or equivalent transfer course(s)	
One of the following:		
GEOL100/110	Physical Geology with Lab	4
GEOL120/110	Environmental Geology with Lab	4
One of the following:		
ASTR330	Solar System Astronomy	3
ASTR430	The Solar System	3
GEOL212	Planetary Geology	3
Three of the following:	(At least one course must be from Geology and one from Astronomy. At least 6 credits from this list, and 9 overall, must be at the 300-400 level.)	
ASTR220	Collisions in Space - The Threat of Asteroid Impacts	3
ASTR230	The Science and Fiction of Planetary Systems	3
ASTR380	Life in the Universe	3
ASTR498	Special Problems in Astronomy	3
GEOL322	Mineralogy	4
GEOL340	Geomorphology	4
GEOL412	Geology of Terrestrial Planets	3
GEOL437	Global Climate Change, Past and Present	4
GEOL499	Special Problems in Geology	3
ASTR/GEOL ???	An approved Astronomy or Geology course	3 - 4

At least 9 credits for the minor must be at the 300-400 level.

Atmospheric Chemistry

Atmospheric and Oceanic Science (AOSC)

3417 Computer and Space Sciences Building, 301-405-5391

www.atmos.umd.edu

This minor will provide the students with a general background in meteorology as offered by the lower level required courses, and a background on issues in atmospheric chemistry. This minor track is intended for students who might pursue careers where background in atmospheric chemistry is needed, such as air pollution, atmospheric chemistry, and environmental issues. It is aimed at students that might consider graduate work in atmospheric chemistry, or prepare them for a very favorable job market in the Washington area, where a background in meteorology can be an important asset. Students attempting this minor will need a strong background in mathematics, physics and chemistry at the level of MATH240 or 461, PHYS270 and PHYS271, CHEM481 (preferred), CHEM135 or 131, which are prerequisites for the required courses. Students interested in taking this minor program should contact the Undergraduate Advisor in the Department of Atmospheric and Oceanic Science. This minor is not open to students who major in Physical Sciences with a concentration in Meteorology, or who major in Physics within the Meteorology Physics area of concentration.

A total of 15 credits is required. All courses presented for the minor must be passed with a grade of "C-" or better.

The students must choose two electives from:

- AOSC123 Causes and Consequences of Global Change
- AOSC200 Weather and Climate
- Any AOSC 400 level course offered below as elective

The following two courses are required:

- AOSC431 Atmospheric Thermodynamics
- AOSC433 Atmospheric Chemistry and Climate, or AOSC434 Air Pollution

One elective from:

- CHEM474 Environmental Chemistry
- GEOL471 Geochemical Methods of Analysis
- Other 400 level courses offered in the Department of Atmospheric and Oceanic Science on a regular basis, or from a list of non-permanent electives that will be offered by Research Scientists, regular faculty from Atmospheric and Oceanic Science, or members of the Earth System Science Interdisciplinary Center (ESSIC)
- Courses offered by the Departments of Geography and Geology such as:

GEOG446 Applied Climatology
GEOG447 Advanced Biogeography
GEOG472 Remote Sensing
GEOL437 Global Climate Change: Past and Present
GEOL452 Watershed and Wetland Hydrology

Atmospheric Sciences

Atmospheric and Oceanic Science (AOSC)

3417 Computer and Space Sciences Building, 301-405-5391

www.atmos.umd.edu

This minor will provide a general background in meteorology as offered by the lower level courses, and a solid background in atmospheric physics (AOSC431) and atmospheric dynamics (AOSC432), as offered by two required courses. It is aimed at non-majors who might consider graduate work in meteorology, or prepare them for the very favorable job market in the Washington, D.C. area, where a background in meteorology can be an important asset. Students attempting this minor will need a strong background in mathematics, physics and chemistry at the level of MATH240 or 461, PHYS270 and PHYS271; CHEM135 (preferred) or CHEM131, which are prerequisites for the required courses. Students interested in taking this minor program should contact the undergraduate advisor in the Department of Atmospheric and Oceanic Science for advising. This minor is not open to students who major in Physical Sciences with a concentration in meteorology, or who major in Physics within the Physics-Meteorology area of concentration.

This minor will require 15 credits. All courses presented for the minor must be passed with a grade of "C-" or better.

The students must choose two electives from:

- AOSC123 Causes and Consequences of Global Change
- AOSC200 Weather and Climate
- AOSC400 Physical Meteorology of the Atmosphere

The following two courses are required:

- AOSC431 Atmospheric Thermodynamics
- AOSC432 Dynamics of the Atmosphere and Ocean

One elective from:

- Other 400 level courses offered in the Department of Atmospheric and Oceanic Science on a regular basis, or from a list of non-permanent electives that will be offered by research scientists, regular faculty from Atmospheric and Oceanic Science, or members of the Earth System Science Interdisciplinary Center (ESSIC)
- Courses offered by the Departments of Geology and Geographic Sciences, such as:
 - GEOL437 Global Climate Change: Past and Present
 - GEOL452 Watershed and Wetland Hydrology
 - GEOG446 Applied Climatology
 - GEOG447 Advanced Biogeography
 - GEOG472 Remote sensing

Black Women's Studies

Joint Minor in Black Women's Studies

College of Arts and Humanities
2101 Woods Hall, 301-405-6877

www.wmst.umd.edu

College of Behavioral and Social Sciences
2169 Lefrak Hall

www.bsos.umd.edu/aasp

The joint minor in Black Women's Studies focuses on the lives and experiences of women of Africa and the African Diaspora. As a specialty in the fields of Women's Studies and African American Studies, it will provide students with tools for understanding the social and cultural contexts in which race, gender, class, sexuality, ethnicity, nation and other dimensions of difference intersect to influence the lives and experiences of Black women.

Fifteen (15) credits of coursework are required, distributed below. A number of courses may count in more than one category. At least nine (9) credits must be at the 300-400 level. No course with a grade less than C- may be used to satisfy the minor and an overall GPA of 2.0 in the minor is required for graduation. Students will design their program in consultation with the Women's

Studies or African American Studies advisor. No more than two courses may count toward a major in African American Studies or Women's Studies.

Foundation courses (6 credits)

WMST263/AASP203 Introduction to Black Women's Studies or
WMST265/AASP213 Constructions of Manhood and Womanhood in the Black Community
AASP313/WMST314 Black Women in U.S. History

Distributive Requirements (9 credits)

Area I - Comparative or Non-US Course - indicated by a * below (3 credits)

Area II - Humanities (3 credits)

WMST263/AASP203 Introduction to Black Women's Studies
THET240 African Americans in Film and Theater
*ENGL362 Caribbean Literature in English
*FREN478B Themes and Movements of French Literature in Translation: Francophone Women Writers

Area III - Social Sciences (3 credits)

WMST265/AASP213 Constructions of Manhood and Womanhood in the Black Community
HIST319 Women and the Civil Rights Movement
*WMST360 Caribbean Women
*WMST410 Women of the African Diaspora
WMST488 Senior Seminar: Black Women in the Public Eye
AASP493 Feminist and Nationalist Thought in the Black Community
WMST498 Black Feminist Thought WMST498 Womanisms and Feminisms: Theories and Methods
AASP483 Gender, Sexuality and the Black Family

To make an appointment to explore or declare a minor, go to

www.arhu.umd.edu/undergraduate/academics/minors

Business Analytics

The Minor in Business Analytics integrates technology with statistical and quantitative modeling techniques to provide students with the foundation needed for data driven decision making, as well as for graduate study in the field of Business Analytics. Students with these skills are in high demand in a variety of industries and sectors including marketing, finance, information systems, operations, health care and energy. For more information about this minor visit

<http://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/academic-minors>.

Chinese Language

School of Languages, Literatures, and Cultures (SLLC)

www.chinese.umd.edu

The 15-credit minor in Chinese language will provide students with a sophisticated understanding of Chinese linguistic knowledge and an upper-level Chinese language skill. Students attempting this minor will need a strong background in Chinese at the level of Chinese 101 and CHIN102/103, which are prerequisites for some of the required courses. This minor will be of particular relevance to students with a broad interest in learning Chinese language. Students interested in taking this minor program should contact the Chinese advisor in the Department of Asian and East European Languages and Literatures of the School of Languages, Literatures, and Cultures.

Requirements

A: Four 3-credit language courses from among the following - **12 credits**

CHIN201 Intermediate Spoken Chinese I
 CHIN202 Intermediate Written Chinese I
 CHIN203 Intermediate Spoken Chinese II
 CHIN204 Intermediate Written Chinese II
 CHIN205 Intermediate Chinese - Accelerated Track
 CHIN207 Linguistic Resources for Students of Chinese
 CHIN301 Advanced Chinese I
 CHIN302 Advanced Chinese II
 CHIN305 Life in China through TV Plays I
 CHIN306 Life in China through TV Plays II
 CHIN321 Classical Chinese I
 CHIN322 Classical Chinese II
 CHIN401 Readings in Modern Chinese I
 CHIN402 Readings in Modern Chinese II
 CHIN408 Classical Chinese II
 CHIN411 Business Chinese I
 CHIN412 Business Chinese II
 CHIN413 Advanced Conversation and Composition
 CHIN415 Readings in Current Newspapers and Periodicals
 CHIN431 Translation and Interpretation I
 CHIN432 Translation and Interpretation II
 CHIN441 Traditional Chinese Fiction
 CHIN442 Modern Chinese Fiction

B: One 3-credit linguistics-oriented course from the following - **3 credits**

CHIN421 Sounds and Transcriptions of Mandarin Chinese
 CHIN422 Advanced Chinese Grammar
 CHIN423 Chinese Historical Phonology
 CHIN424 Linguistics of the Chinese Writing System
 CHIN428 Selected Topics in Chinese Linguistics

- The course CHIN331 "Chinese Calligraphy: Theory and Practice" may not be used for the Chinese major or minor.
- Students must receive a "C-" or better in all courses used for the minor. 9 of the 15 credits must be upper-level courses.
- An overall GPA of 2.0 in the minor is required for graduation.
- No more than six of the fifteen credits toward the minor may be taken at an institution other than UMCP.

To make an appointment to explore or declare a minor, go to: <http://www.arhu.umd.edu/undergraduate/academics/minors>

Classical Mythology

Classics (CLAS)

1210 Marie Mount Hall, 301-405-2013

www.classics.umd.edu

This minor will introduce students to classical mythology, its uses within ancient Greek and Roman culture, and its subsequent influence on art and literature. The minor requires 15 credits.

Required courses:

CLAS170 Greek and Roman Mythology	3
CLAS470 Approaches to Greek Myth	3

In addition, the student must choose three courses from the following list, two of which must be

at the 300 or 400 level. All courses listed are 3 credit.

CLAS270 Greek Literature in Translation

CLAS271 Roman Literature in Translation

CLAS320 Women in Classical Antiquity

CLAS330 Ancient Greek Religion: Gods, Myths, Temples

CLAS331 Ancient Roman Religion: From Jupiter to Jesus

CLAS370 Classical Myths in America

CLAS374 Greek Tragedy in Translation

CLAS419 The Classical Tradition

No course grade below the grade of "C-" may count toward the minor. An overall GPA of 2.0 in the minor is required for graduation.

You are strongly encouraged to make an appointment with the undergraduate director in Classics. Please contact the department chair, Prof. Lillian Doherty (ldoherty@umd.edu).

Computer Science

1119 A.V. Williams Building, 301-405-2672

www.cs.umd.edu

ugrad@cs.umd.edu

The purpose of the minor in Computer Science is not only to give students a strong foundation in and understanding of algorithmic reasoning, problem solving methods involving computers and computation, as well as a solid base to help students adapt to future changes in technology, but to complement and enhance any student's major program of study.

The minor in Computer Science consists of 15-24 credits; all courses must be completed with a grade of "C-" or better. MATH140 and CMSC131 are pre-requisites for entrance into the curriculum for the minor.

Requirements:

		Credits
CMSC132	Introduction to Object Oriented Programming*	4
CMSC216	Introduction to Computer Systems*	4
CMSC250	Discrete Structures*	4
CMSC330	Organization of Programming Languages	3
CMSC351	Algorithms	3
CMSC4XX and CMSC4XX	Two of CMSC411, CMSC412, CMSC414, CMSC417, CMSC420, CMSC421, CMSC422, CMSC423, CMSC424, CMSC426, CMSC427, CMSC430, CMSC433, CMSC434, CMSC435, CMSC436, CMSC451, CMSC452, CMSC456, CMSC460, CMSC466. Note: some of these classes variously have MATH240, MATH241 or PSYC100 as prerequisites.	6(7)

* or acceptable score on the CMSC exemption exam.

NOTES:

- Students who satisfy all three of 132, 216 and 250 by exemption exam shall take one additional 400 level class from the approved list. This obligation is in addition to all other minor requirements.
- With prior permission of the Undergraduate Director, and at his/her discretion, at most one section (3 credits) of CMSC498, Independent Study, may substitute for one of the two core CS classes at the 400 level. This provision is intended to allow students to pursue unexpected opportunities for study of interdisciplinary topics having a substantial computational

component complementing their major.

- Course combinations:
 - Students may not use more than one of CMSC460 or CMSC466 toward the minor.

Construction Project Management

A. James Clark School of Engineering

1131 Glenn L. Martin Hall, 301-405-0234

School of Architecture, Planning and Preservation

Architecture Building, 301-405-8000

A minor in Construction Project Management will prepare students for employment in one of the many careers related to the built environment, such as project management, architectural engineering, design and commercial construction. Students will learn how to manage multiple phases of operation and management in the construction process including building information modeling, cost estimating, project scheduling, construction financing and planning. The Construction Project Management minor is ideal for students in Architecture, Engineering and similar fields. This minor is designed to give students a competitive advantage when applying for a job in the construction industry.

Admissions Requirements

This Minor is only available to undergraduate students in the A. J. Clark School of Engineering and the School of Architecture, Planning and Preservation who have earned at least 60 credit hours (Junior standing) and have a Maryland GPA of 3.0 or higher.

Application Process

Interested students must complete an application to the Minor and get approval from his/her Major advisor and the CPM Minor advisor for his/her school. Students can get an application from his/her Major advisor or go to: <http://pm.umd.edu/program/cpm-minor/> for an online copy.

Engineering – CPM Minor Advisor- Dr. Qingbin Cui: cui@umd.edu

Architecture – CPM Minor Advisor - Heidi Bulich: hbulich@umd.edu

Course Requirements

The Minor in Construction Project Management consists of 15 credit hours. Students must complete 5 of the following courses with a grade of "C-" or better and have a minimum 2.0 GPA for the minor. Students must also complete an internship in the construction industry.

When are the required courses offered?

Core Courses	Fall	Winter	Spring	Summer
ENCE 325 - Introduction to Construction Project Management	C		C	
ENCE 423 – Project Planning, Estimating & Scheduling	C		C	
ENCE 424 – Communication for Project Managers	C		C	Online
ENCE 426 – Construction Documentation and BIM Applications in Engineering and Construction				
<i>or</i>	C		C	
ARCH 472– Building Information Modeling				

Communication and Collaboration

Electives – Choose 1

ENCE 420 – Selection & Utilization of Construction Equipment	C		
ENCE 421 – Legal Aspects of Architectural & Engineering Practice		C	
ENCE 422 – Project Cost Accounting & Economics	C	C	Online
ARCH 430 – Measuring Sustainability in Architecture	C		
ARCH 462 – Methods & Materials of Building Construction	C		
ARCH 467 – Integrated Project Delivery			

Creative Writing

1128 Tawes Hall, (301) 405-3825

www.english.umd.edu

english@umd.edu

The minor in Creative Writing offers students the opportunity to engage deeply with their own writing and that of their peers in a graduated series of workshops led by professional writers of poetry and prose.

The Creative Writing minor's 15 credits consist of the following:

- Three credits at the 200-level (ENGL271 or ENGL272 or ENGL273 or AASP274/ENGL274)
- Three credits at the 300-level (ENGL352 or ENGL353)
- Six credits at the 400-level (two sections of ENGL498 or of ENGL499)
- Three credits in any upper-level English literature course.

After admission to the minor, students choose to specialize in either prose (352, 498) or poetry (353, 499). Students admitted directly to a 300-level workshop must take three workshops (9 credits) at the 400-level.

All courses presented for the minor must be passed with a grade of C- or better. An overall GPA of 2.0 in the minor is required for graduation.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/undergraduate/academics/minors.

Earth History

Geology (GEOL)

1115 Geology Building, 301-405-4365

www.geol.umd.edu

The undergraduate minor in Earth History recognizes concentrated study in this designated field in the College of Computer, Mathematical, and Natural Sciences. The award of a minor will be noted on the student's transcript at the time of graduation.

This minor may be earned by students not majoring in Geology and is administered by the Geology Undergraduate Studies Director. A grade of "C-" or better must be earned in all courses required for the minor. See www.geol.umd.edu for more information.

	Credits
GEOL100/110 or Physical Geology/Lab, or GEOL120/110 Environmental Geology/Lab	4
GEOL102 Historical Geology	4
<i>Three from:</i>	
GEOL331 Principles of Paleontology	4
GEOL341 Structural Geology	4
GEOL342 Sedimentation and Stratigraphy	4
GEOL436 Principles of Biogeochemistry	3
GEOL437 Global Climate Change: Past & Present	3
GEOL499 Special Problems in Geology	3
Total	18-20

Earth Material Properties

Geology (GEOL)

1115 Geology Building, 301-405-4365

www.geol.umd.edu

The undergraduate minor in Earth Material Properties recognizes concentrated study in this designated field in the College of Computer, Mathematical, and Natural Sciences. The award of a minor will be noted on the student's transcript at the time of graduation.

This minor may be earned by students not majoring in Geology and is administered by the Geology Undergraduate Studies Director. A grade of "C-" or better must be earned in all courses required for the minor. See www.geol.umd.edu for more information.

Required:

- One of the following:
 - GEOL100/110 Physical Geology/Physical Geology Lab (4)
 - GEOL120/110 Environmental Geology/Physical Geology Lab (4)
- GEOL322 Mineralogy (4)
- Plus three from:
 - GEOL341 Structural Geology (4)
 - GEOL423 Optical Mineralogy (4)
 - GEOL443 Petrology (4)
 - GEOL445 High Temperature Geochemistry (3)
 - GEOL456 Engineering Geology (3), or
 - GEOL457 Seismology (3)
 - GEOL499 Special Problems in Geology (3)

Secondary Education

Teaching and Learning, Policy and Leadership (TLPL)

2311 Benjamin Building, 301-405-3324

www.education.umd.edu/TLPL

The minor in Secondary Education provides opportunities for undergraduate subject area majors to enroll in a sequence of education courses that helps them to determine if teaching is a viable career option for them. The 15-18 credit minor may be taken prior to admission into a teacher preparation program. If an undergraduate student pursuing the minor desires to enter an education track, the candidate may apply for the dual major program to obtain certification as a secondary education classroom teacher through completion of a Maryland State Department of Education (MSDE) approved program option. Some of the courses undergraduates take to complete the Minor in Secondary Education may also be applicable toward certification options at the post-baccalaureate level offered through TLPL. These individuals should consult with an advisor in Student Services to identify the most appropriate option leading to teacher certification and to review the specific admission requirements associated with these programs.

The secondary education minor includes coursework from Teaching and Learning, Policy and Leadership. The curriculum provides a foundation in adolescent development and education policy and includes an introductory pedagogy course in one of the core secondary areas: English, Social Studies, Mathematics, Science, World Languages. The minor also incorporates coursework to meet the MSDE reading requirements that are part of secondary subject area teacher certification.

Courses required for the minor are:

	Credits
EDHD413 Adolescent Development	3
EDHD426 Cognition and Motivation in Reading: Reading in Content Areas I	3
EDCI463 Reading in the Secondary School	3
<i>Select one of the following foundation courses:</i>	
EDPS201 Education in Contemporary American Society OR	3
EDPS210 Historical and Philosophical Perspectives on Education OR	
EDPS301 Foundations of Education	
<i>Select one of the following secondary education introductory methods:</i>	
EDCI416 Teaching and Learning in Secondary Education: English OR	3
EDCI410 Methods I: K-12 Foreign Language Methods and Technology OR	
EDCI457 Teaching and Learning Middle School Mathematics OR	
EDCI411 Knowledge, Reasoning, and Learning in Science OR	
EDCI426 Knowledge, Reasoning, and Learning in Secondary Social Studies	
<i>Other Electives (optional):</i>	
EDCI280 - Looking Inside Schools and Classrooms (3)	
EDCI386 - Experiential Learning (3)	

A total of 15 credits is required. All courses presented for the minor must be passed with a grade of "C-" or better. A cumulative GPA of 2.75 is required for enrollment in the secondary education introductory methods courses (EDCI410, 411, 416, 426, 457). No more than six of the required credits (or two courses) may be taken at an institution other than the University of Maryland, College Park.

Second Language Education

Teaching and Learning, Policy and Leadership (TLPL)

2311 Benjamin Building, 301-405-3324

www.education.umd.edu/TLPL

The minor in Second Language Education provides opportunities for undergraduate subject area majors to complete a sequence of courses that helps them prepare for careers as teachers of English as a second language in US schools and/or prepare them for roles as teachers of English as a foreign language in international settings. If the undergraduate pursuing the minor desires to enter the ESOL teacher preparation track, the candidate may apply for the Five Year Integrated Program option or the one year MCERT Program option; in either case, satisfactorily completed

courses in the minor that meet program requirements will be applied to the certification program requirements. Individuals should consult with an advisor in Student Services to identify the most appropriate option leading to teacher certification and to review the specific admission requirements associated with that program.

The minor in Second Language Education includes coursework from Curriculum and Instruction and Human Development. The curriculum provides a foundation in second language learning and pedagogy, adolescent learning, cross-cultural issues and understanding, and curricular and pedagogical issues which support reading and writing in a second language context. A number of the courses include field components that provide candidates with direct experience in working with second language learners. The minor incorporates coursework required for TESOL certification from the Maryland State Department of Education.

Courses required for the minor are:

	credits
EDCI437 English Grammar Pedagogy for Teachers of English Language Learners	3
EDCI432 Issues in the Education of English Language Learners	3
EDHD413 Adolescent Development	3
EDCI434* Pedagogy of Teaching English Language Learners	3
EDCI435* Teaching English Language Learners Reading and Writing in the Secondary Content Areas	3
EDCI436 Understanding Cross Cultural Communication for Teaching English Language Learners	3

* courses that include required field experiences

Engineering Leadership Development

A. James Clark School of Engineering

1131 Glenn L. Martin Hall, 301-405-0234

www.ilp.umd.edu

The goal of the minor in Engineering Leadership Development is to prepare engineering students for leadership roles in industry and to develop the skill most attractive to employers. The minor will complement the technical skills and knowledge students acquire during their engineering coursework to better prepare them to engage in leadership within industry. Students may earn a minor and a notation on their official transcript by completing coursework which focuses on communication, leadership theory, global awareness, project management, understanding oneself, and working effectively with others.

Requirements

The minor in Engineering Leadership Development consists of **16 credit hours**. A maximum of six credits may also count toward the student's major, and no more than six credits may be taken at an institution other than the University of Maryland, College Park. All courses counted toward the minor must be completed with a "C-" or better. The following courses are required:

- ENES317: Introduction to Engineering Leadership (3 credits)
- ENCE320: Engineering Project Management (3 credits)
- ENES472: International Business Cultures in Engineering and Technology (3 credits)
- ENES424: Engineering Leadership Capstone Course (3 credits)
- EDHI338: Intergroup Dialogue (1 credit)
- Elective: Requires advisor approval (3 credits)

Note: ENES317, ENCE320, and ENES472 must be taken **before** ENES424.

Contact the minor advisor, Ramsey Jabaji (rjabaji@umd.edu), or visit the web at www.ilp.umd.edu for more information.

Environmental Economics and Policy

Agricultural and Resource Economics (AREC)

2200 Symons Hall

www.arec.umd.edu

This minor provides students with economic knowledge to apply to analysis and understanding of environmental and resource policies. AREC382 and the 400-level courses are a truncated version of the upper-level course requirements of the AREC major. These courses focus particularly on economic analysis relevant to environmental policy analysis. AREC332 is a course intended primarily for non-AREC majors. AREC240 is an introductory course giving students an overview of the subject. AREC382 and AREC455 are required courses in the ENSP environmental economics concentration; AREC445 is on a list of restricted electives in that concentration. AREC240 and AREC332 can be used to meet ENSP core requirements for all ENSP concentrations.

AREC200	The Chesapeake Bay Ecosystem: Intersection of Science, Economics, and Policy	3
AREC240	Introduction to Economics and the Environment	3
OR		
AREC250	Elements of Agricultural and Resource Economics	3
AREC382	Computer-based Analysis in Agricultural and Resource Economics	3
AREC445	Agricultural Development, Population Growth, and the Environment	3
AREC453	Natural Resources and Public Policy	3
AREC454	The Economics of Climate Change	3
AREC455	Economics of Land Use	3
AREC422	Econometric Applications in Agricultural and Natural Resource Economics	3
<i>Please choose five courses from the list above. Nine credits must be at the 300-400 level.</i>		
<i>Another AREC course can be substituted for one of the courses listed with permission of Undergraduate Advisor.</i>		

Total Credits 15

French Studies

School of Languages, Literatures, and Cultures (SLLC)

www.french.umd.edu

This 18-credit minor will provide students with a solid overview of linguistic, cultural, and literary aspects of the study of French.

Courses required for the minor, in this order, are:

FREN204, FREN250, FREN301

Following completion of this core sequence, students will choose three (3) courses from the following:

FREN302 or FREN303

FREN311 or 312

FREN351, 352, and any 4XX-level course/s*

* Starting in Fall 2013 one 4xx-level elective is required for completion of the minor in French studies.

- All courses must be in French.
- A maximum of six (6) credits can be applied to the minor from courses taken at other institutions, with the exception of Maryland in Nice, which allows the transfer of nine (9) credits.
- All courses presented for the minor must be passed with a grade of "C-" or better.
- Students who matriculated in Fall 2012 or later must earn a cumulative GPA of 2.0 within their minor in order to graduate.
- Students who begin their study as native/fluent speakers should seek the advice of the advisor before choosing the courses they will use to replace the core minor courses.

To make an appointment to explore or declare a minor, go to

www.arhu.umd.edu/undergraduate/academics/minors

General Business

The General Business minor provides the business savvy to complement the depth of knowledge acquired in the students' chosen area of major, so they excel in their careers after graduation.

Note: The General Business minor is not open to declared Business majors. For more information about this minor visit

<http://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/academic-minors>.

Germanic Language, Literature and Culture

School of Languages, Literatures, and Cultures (SLLC)

www.german.umd.edu

This minor will provide students with an in-depth understanding of German Language and Literature as a source of Culture. Building on these essentials, students can concentrate on Language, Literature, Culture, or a combination of these fields. This will be accomplished by taking 5 courses beyond GERM203 or its equivalent. Students will determine, in close consultation with the German undergraduate advisor, how to constitute their own concentration.

Minor Requirements:

15 credits - 5 courses beyond GERM203 or its equivalent

- Courses taught in German beyond 203 or its equivalent
- 3 of these 5 courses (9 hours) must be upper division level: one language, one literature, and one culture
- Prerequisites: GERM103 and 203 are required, or their equivalents as determined through departmental advising
- All courses must be passed with a grade of "C-" or higher.
- An overall GPA of 2.0 in the minor is required for graduation.

To make an appointment to explore or declare a minor, go to

www.arhu.umd.edu/undergraduate/academics/minors

Geochemistry

Geology (GEOL)

1115 Geology Building, 301-405-4365

www.geol.umd.edu

The undergraduate minor in Geochemistry recognizes concentrated study in this designated field in the College of Computer, Mathematical, and Natural Sciences. The award of a minor will be noted on the student's transcript at the time of graduation.

This minor may be earned by students not majoring in Geology and is administered by the Geology Undergraduate Studies Director. A grade of "C-" or better must be earned in all courses required for the minor. See www.geol.umd.edu for more information.

Required:

- One of the following:
 - GEOL100/110 Physical Geology/Physical Geology Lab (4)
 - GEOL120/110 Environmental Geology/Physical Geology Lab (4)
- GEOL322 Mineralogy (4)
- One of the following:
 - GEOL444 Low Temperature Geochemistry (4)
 - GEOL445 High Temperature Geochemistry (4)
- Plus two from:
 - GEOL435 Environmental Geochemistry (3)
 - GEOL436 Biogeochemistry (3)
 - GEOL443 Petrology (4)
 - GEOL444 Low Temperature Geochemistry (4) (if not used to satisfy requirement above)
 - GEOL445 High Temperature Geochemistry (4) (if not used to satisfy requirement above)
 - GEOL471 Geochemical Methods of Analysis (3)
 - GEOL499 Special Problems in Geology (3)

Geographic Information Science

Geographical Sciences (GEOG)

2108M LeFrak Hall, [301-405-4073](tel:301-405-4073)

www.geog.umd.edu

geog-advise@umd.edu

Non-Geography Major Required Courses

GEOG201/211 or GEOG202	Geography of Environmental Systems/Lab or The World in Cultural Perspective	3 or 4
GEOG306	Introduction to Geographic Methods for the Geographic Environmental Sciences	3
GEOG372	Remote Sensing	3
GEOG373	Geographic Information Systems	3
<i>One from:</i>		
GEOG416	Conceptualizing and Modeling Human-Environmental Interactions	3

GEOG472	Remote Sensing: Digital Processing and Analysis	3
GEOG473	Geographic Information Systems and Spatial Analysis	3
GEOG475	Computer Cartography	3
GEOG476	Object-Oriented Computer Programming for GIS	
	Total Credits	15/16

Geography Major Required Courses

GEOG306	Introduction to Quantitative Methods for the Geographic Environment Sciences	3
GEOG372	Remote Sensing	3
GEOG373	Geographic Information Systems	3
GEOG376	Introduction to Computer Programming for GIS	3
	<i>One from</i>	
GEOG416	Conceptualizing and Modeling Human-Environmental Interactions	3
GEOG472	Remote Sensing: Digital Processing and Analysis	3
GEOG473	Geographic Information Systems and Spatial Analysis	3
GEOG475	Computer Cartography	3
GEOG476	Object-Oriented Computer Programming for GIS	3
	Total Credits	15

Student must achieve a "C-" or better in each course applied to the minor in Geographic Information Systems. Students must have a minimum 2.0 cumulative grade point average across all courses used to satisfy the minor requirements.

Geophysics

Geology (GEOL)

1115 Geology Building, 301-405-4365

www.geol.umd.edu

Depending on the courses taken, there are a total of 16-18 credits required for the minor in Geophysics (also see prerequisites.)

GEOL100/110	Physical Geology/Lab, OR	4
GEOL120/110	Environmental Geology/Lab	4
	<i>Any two of the following:</i>	
GEOL446	Geophysics	3
GEOL447	Observational Geophysics	3
GEOL457	Seismology	3
	<i>Two from:</i>	
GEOL341	Structural Geology	4
GEOL412	Geology of the Terrestrial Planets	3
GEOL446	Geophysics (if not used to satisfy requirement above)	3

GEOL447	Observational Geophysics (if not used to satisfy requirement above)	3
GEOL455	Marine Geophysics	3
GEOL456	Engineering Geology	3
GEOL457	Seismology (if not used to satisfy requirement above)	3
GEOL499	Special Problems in Geology	3

All Geology minors are an appropriate disciplinary combination with Astronomy, Computer Science, Mathematics, or Physics majors within CMNS. The minors are also appropriate for majors outside the college with appropriate matches including, but not limited to:

Geography/Remote Sensing (Surficial Geology)
 Engineering and Material Sciences (Earth Material Properties)
 Evolutionary Biology and Physical Anthropology (Earth History)
 Biology, Biological Diversity, and Ecology (Earth History, Hydrology)

Global Poverty

Agricultural and Resource Economics (AREC)

2200 Symons Hall

www.arec.umd.edu

Students must complete at least 15 credits in the Minor including at least one of the following Signature courses in the Global Poverty Minor:

AREC345 Global Poverty and Economic Development (3 credits)
 AREC365 World Hunger, Population, and Food Supplies (3 credits)

and at least one signature course from another track in the Global Studies Minor Program:

BSST330 Terrorist Motivations and Behaviors (3 credits)
 ENES472 International Business Cultures in Engineering and Technology (3 credits)
 GEOG130 Developing Countries (3 credits)
 GEOG330 As the World Turns: Society and Sustainability in a Time of Great Change (3 credits)
 GVPT306 Global Ecopolitics (3 credits)

The remaining credits must be completed from the following:

AREC445 Agricultural Development, Population Growth and the Environment (3 credits)
 ANTH265 Anthropology of Global Health (3 credits)
 GVPT282 Politics and the Developing World (3 credits)
 GVPT350 International Relations of the Third World (3 credits)
 GEOG423 Latin America (3 credits)
 ECON314 Economic History, Development and Policy (3 credits)
 ECON315 Economic Development of Underdeveloped Areas (3 credits)
 ECON317 Global Economic Policies (3 credits)
 ECON375 Economics of Poverty and Discrimination (3 credits)
 ECON416 Theory of Economic Development (3 credits)
 ECON418 Economic Development of Selected Areas (3 credits)
 ENST100 International Crop Production-Issues and Challenges in the 21st Century (3 credits)
 FMSC381 Poverty, Affluence, and Families (3 credits)
 GEOG130 Developing Countries (3 credits)
 HIST496 Africa Since Independence (3 credits)
 HONR228N Evaluating Global Development Assistance (3 credits)
 HONR228R Parenting and Poverty: The Effects of Growing Up Poor on Children's Development (3 credits)
 NFSC425 International Nutrition (3 credits)

3 credits of study abroad or 3 credits of an internship or experiential learning related to poverty and approved by advisor.

A second Global Poverty signature course and additional signature courses from another Global Studies Minor may serve as electives provided they are not being used to satisfy the requirements of a different minor. Students may also propose other courses to meet the elective requirement. No course may be used to satisfy the requirements of more than one minor.

At least 9 credits must be at the 300-400 level.

All courses presented for the minor must be passed with a grade of "C-" or better. Beginning with students matriculating in Fall 2012, to be awarded a baccalaureate degree, students must have a minimum C (2.00) cumulative grade point average across all courses used to satisfy minor requirements.

Global Studies Minor Program

The Global Studies Minor Program provides opportunities for students from any discipline or major to study how evolving global connections affect the well-being of people throughout the world. Students in this interdisciplinary program develop an understanding and appreciation of how and why interactions across national and ethnic borders are shaped by language, culture, politics, economic development, and conflict.

The program is comprised of a number of specialization tracks which address issues from the perspective of different disciplines. The tracks are:

- International Development and Conflict Management (<http://www.cidcm.umd.edu/minor/>)
- International Engineering (<http://www.ilp.umd.edu/coursework>)
- Global Poverty (<http://arec.umd.edu/undergraduate/minors/global-poverty>)
- Global Terrorism (<http://www.start.umd.edu/>)

All students choose one course from a set of "signature" courses outside of their chosen track for exposure to major global issues addressed by the other Global Studies Minors. The minors provide an opportunity for an experiential component within a student's elective courses, including a study abroad experience. The Global Studies Minor Program includes special activities that involve students across the minors, such as special speaker forums, participation in major events, and experiences in Washington, D.C.

Global Terrorism

National Consortium for the Study of Terrorism and Responses to Terrorism (START)

Route One Annex, Suite 250, University of Maryland, College Park, MD 20740

301-405-6600

www.start.umd.edu

The Global Terrorism program focuses on exploring the origins and motivations of terrorism based on theoretical understandings of individual and group behavior. Students also explore the impacts of the threat of terrorism on individuals and communities as well as strategies for preventing, deterring, mitigating, and responding to terrorist threats. For more information about the minor, please visit: www.start.umd.edu

Students are required to take the following three courses:

- **BSST330: Terrorist Motivations and Behaviors** (3 credits). This course explores theories explaining the formation of terrorist groups and the motivations behind terrorist behavior, building upon theories from social psychology, sociology, political science, criminology, and history. This course draws heavily from historical examples as well as current examples of international and domestic terrorist groups around the world.
 - **BSST331: Responses to Terrorism** (3 credits). This course examines the impact of terrorism
-

on groups and individuals and explores how communities have prepared and ideally should prepare in the face of potential terrorist threats. This course draws from anthropology, criminology, economics, history, political science, social psychology, and sociology.

- **BSST332: The Practice of Terrorism Studies** (5 credits). This seminar serves as the capstone for the minor program. As part of the course, students complete an approved internship or conduct a relevant, original research project. Students also meet regularly with an instructor to learn and apply academic and professional analytical tools relevant to the study of terrorism. The course includes visits from guest speakers working in the field of terrorism studies and interactive simulations related to terrorism prevention, deterrence, and mitigation.

In addition to the three required BSST courses, students must take one 3-credit elective course on research methods, to be drawn from courses in any discipline, including but not limited to: African-American Studies; Applied Mathematics and Scientific Computation; Biological Sciences; Criminology and Criminal Justice; Communications; Economics; Civil Engineering; Electrical Engineering; Fire Protection Engineering; Family Studies; Geography; Government and Politics; History; Health; Latin American Studies; Psychology; Sociology; Statistics; and Survey Methodology.

To satisfy the final requirement, students must also enroll in one Global Studies Signature Course, to be selected from the following list of approved courses:

- **AREC345: Poverty, Public Policy and Economic Growth.** An examination of public policy toward poverty in countries around the world. The role of economic incentives and the relation between poverty and income distribution, natural resources and the environment, and economic growth.
- **AREC365: World Hunger.** An introduction to the problem of world hunger and possible solutions to it. World demand, supply, and distribution of food. Alternatives for leveling off world food demand, increasing the supply of food, and improving its distribution. Environmental limitations to increasing world food production.
- **ENES472: International Business Cultures in Engineering and Technology.** The goal is to provide students with an understanding of cultural aspects pertaining to global business and engineering and develop the cultural understanding, attitudes, and communication skills needed to function appropriately within an increasingly global and multicultural working environment. Restricted to students with the minor in international engineering or in engineering leadership development.
- **GEOG130: Developing Countries.** An introduction to the geographic characteristics of the development problems and prospects of developing countries. Spatial distribution of poverty, employment, migration and urban growth, agricultural productivity, rural development, policies and international trade. Portraits of selected developing countries.
- **GEOG330: As the World Turns: Society and Sustainability in a Time of Great Change.** This cultural geography class will familiarize the student with the concept of society and sustainability. Students will study cultures as basic building blocks which are key to the sustainability of societies. Students will learn about the sustainability of societies on different scales, examining local, regional and worldwide issues. The sustainability of society will be examined as a key element of environmental sustainability. Culture and society are the anchors people cling to in the face of rapid world change. How societies adjust to change will be examined as a positive and/or negative factor in sustainability. The world is turning quickly in terms of climate change, development, politics, economy, and demography and we can't get off, so what will we do?
- **GVPT306: Global Ecopolitics.** Consideration of global problems such as the growth controversy, agricultural productivity, pollution, resource depletion, the energy crisis, and the general impact of science and technology on the world ecological, socio-economic, and political system with particular emphasis on such matters as objects of public policy.

All courses used to satisfy the requirements of the minor must be completed with a grade of "C-" or better. Students must have a minimum 2.0 cumulative grade point average across all courses used to satisfy the minor requirements.

Greek Language and Culture

Department of Classics

www.classics.umd.edu

This minor may be earned in EITHER the ancient or the modern Greek language (not a combination). In completing it, the student will reach an intermediate or advanced level of proficiency in the language and will also be introduced to the history and culture of Greece.

The minor requires 9 to 15 credits in ancient OR modern Greek language courses, i.e., courses with the GREK prefix; at least one language course must be at the 300 or 400 level. All the language courses counted toward the minor must be in either ancient OR modern Greek, not a combination.

The minor also requires 3 to 6 credits in courses taught in English; these may focus on either ancient or modern Greek literature, history, and culture.

As required for all minors, at least 9 credits overall must be in courses at the 300 or 400 level. The grade point average in the minor must be at least 2.0 and no grade below "C-" can be counted toward the minor. A maximum of 6 credits may be counted toward both the minor and the student's major. A maximum of 6 credits earned at other institutions may be counted toward the minor.

To make an appointment to explore or declare a minor, contact the department chair, Dr. Lillian Doherty (ldoherty@umd.edu). She will put you in touch with the undergraduate director in Classics.

Hearing and Speech Sciences

Hearing and Speech Sciences (HESP)

0100 LeFrak Hall, 301-405-4213

www.hesp.umd.edu

This course sequence acquaints students with the primary basic science background in the speech, language and hearing sciences, and permits students to select two courses in the specific professional areas of speech language pathology or audiology.

This minor serves two different purposes:

1. A minor in HESP can be used to **compliment** a major in a related field such as Special Education, Human Development, Linguistics, Psychology, Education or a Foreign Language. It allows a student to understand the relationship between speech, language and hearing, normal development, and their related disorders. It also encourages collaboration between this discipline and related ones.
2. This minor can also be utilized for students who are in other majors but have decided to **pursue graduate studies in either Speech-Language Pathology or Audiology**. These courses are widely viewed as potential pre-requisites to such programs and constitute a **proportion but not all** of the pre-requisites needed for eventual certification with an M.A. in Speech-Language Pathology or an Au. D. in Audiology. Because both graduate programs and the American Speech Language Hearing Association require additional coursework, the student pursuing a HESP Minor for this purpose is strongly encouraged to meet with the HESP Academic Advisor to ensure that eventual educational goals are properly addressed.

The HESP minor **DOES NOT** qualify an individual to work professionally as a Speech-Language Pathologist, or an Audiologist, but does provide **a proportion but not all** of the coursework required to practice in the State of Maryland as a Speech-Language Pathology Assistant.

Requirements for the HESP minor include the following coursework:

All students must take the following six courses:

HESP202-Introduction to Hearing and Speech Sciences

HESP300-Introduction to Psycholinguistics

HESP400-Child Language Acquisition

HESP403-Phonetics

HESP407-Hearing Science

PLUS 2 courses in one of the two elective areas:

Elective option 1 (Speech-Language Pathology Focus)

HESP305-Anatomy/Physiology of the Speech Mechanism, and

One Disorder class. Choice of one of (HESP402, 404, 406, 410)

Elective option 2 (Audiology focus)

HESP311-Anatomy/Physiology/Pathology of the Auditory Mechanism, and

HESP411-Introduction to Audiology

TOTAL CREDITS: 21

Notes:

- As with HESP majors, students must obtain a grade of "C-" or better in a class in order to enroll in any courses that require that class as a pre-requisite.
- Students must have a minimum 2.0 cumulative grade point average across all courses used to satisfy the minor requirements.
- This course sequence acquaints the student with the primary basic science background in the speech, language and hearing sciences, and permits the student to select two courses in the specific professional areas of speech, language or hearing, based on the student's primary interest area.

The History Minor is designed to introduce students to the broad field of historical study, both by deepening their knowledge and understanding of the past and by developing their ability to do critical, historically-minded analysis. In working with both primary and secondary texts, students will hone their skills in research methods, critical thinking, and expository/analytical writing. The requirement that courses are distributed across geographic fields and chronological periods ensures that students consider the variety and range of historical experiences. History courses must be completed with a grade of C- or better to count toward the minor. Additionally, a minimum GPA of 2.0 is required across all courses counted toward the minor.

Participating students must complete 18 credits (6 courses) in History.

- The courses must be distributed in at least 2 geographic fields (Asia, Europe, United States, Middle East, etc.).
- The courses must include at least one course in each of two chronological periods (pre-1750/post-1750).
- At minimum of 9 credits (3 courses) must be taken at the 300 or 400 level.
- No more than 3 credits (1 course) may be taken at the 100 level.
- No more than 3 credits (1 course) may be fulfilled by AP, IB, or transfer credit.
- A student may use a maximum of 6 credits (2 courses) to satisfy requirements for both a major and a minor. Courses completed for one minor may not be used to satisfy the requirements for another minor.
- Any student is eligible to pursue the minor, with the exception of a student majoring in History.

To make an appointment to explore or declare a minor, go to

www.arhu.umd.edu/undergraduate/academics/minors

Human Development

3304 Benjamin Building, 301-405-2827

www.education.umd.edu/HDQM

The Human Development Undergraduate Minor provides a rigorous foundation in Human Development for students who wish to support their major field of study with knowledge of human growth and development across multiple domains and developmental stages, as well as knowledge related to principles of teaching and learning and/or who desire active participation in human development research under the supervision of Human Development faculty in laboratory settings. Students with a 2.0 minimum grade point average may seek enrollment in the program, during which they must complete 15-24 credits of coursework. Only courses in which the student has earned a grade of "C-" or higher will count toward the minor. Students must take EDHD306 and choose other courses from at least two of the other areas of human development study, as outlined below. Students who have taken FMSC332 will be required to choose a course other than EDHD411 from the list of courses available in Area 4: Lifespan. Students who apply to the Minor and who have taken FMSC302 may substitute that course for EDHD306. At least nine credits must be at the 300 or 400 level.

Students interested in taking this minor should contact the Human Development Minor advisor, Ms. Shannon Hayes, at shayes@umd.edu, or 301-405-5612 for more information or to arrange an advising appointment. Ms. Hayes office is located in 1204 Benjamin Building.

Area 1	Area 2	Area 3	Area 4
Cognitive	Social	Research	Lifespan
EDHD201	EDHD221	EDHD306*	EDHD230
EDHD231	EDHD402	EDMS451	EDHD320
EDHD420	EDHD421		EDHD400
EDHD425	EDHD430		EDHD401
EDHD426	EDHD445		EDHD411
EDHD436	HONR219Y		EDHD412
EDHD460	HONR228R		EDHD413
			EDHD414
			EDHD440

Course selections might include three credits of EDHD319 (Selected Topics in HD), EDHD386 (Experiential Learning), or EDHD498 (Special Problems in Education). These courses involve directed study with a faculty advisor.

**EDHD306 cannot be excluded from any course plan. It is required for all EDHD minors.*

General Education Designations: History and Social Science (EDHD 201, 221, 230, 231, 320, 400, 411, 413, 440, & 460); Analytical Reasoning (EDHD306, EDMS451); Understanding Plural Societies (EDHD230); I-Series (EDHD 221, EDHD 231).

CORE Designations: EDHD230, HONR219Y, HONR228R

Hydrology

Geology (GEOL)

1115 Geology Building, 301-405-4365

www.geol.umd.edu

An undergraduate minor in Hydrology recognizes concentrated study in a designated field in the College of Computer, Mathematical, and Natural Sciences. The award of a minor will be noted on the student's transcript at the time of graduation.

This minor may be earned by students not majoring in Geology and is administered by the Geology Undergraduate Studies Director.

A grade of "C-" or better must be earned in all courses required for the minor. See www.geol.umd.edu for more information.

Minor Requirements

GEOL100/110	Physical Geology/Lab, or	4
GEOL120/110	Environmental Geology/Lab	4
GEOL451	Groundwater	3
GEOL452	Watershed and Wetlands Hydrology	3
<i>Two from:</i>		
GEOL436	Principles of Biogeochemistry	3
GEOL444	Low Temperature Geochemistry	4
GEOL453	Ecosystem Restoration, or	3
GEOL435	Environmental Geochemistry	3
GEOL499	Special Problems in Geology	3

Innovation & Entrepreneurship

The Innovation & Entrepreneurship minor equips students with the knowledge and skills to ramp up their own businesses, as well as to innovate and think creatively about problem-solving and strategy. For more information about this minor visit

<http://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/academic-minors>.

International Development and Conflict Management (MIDCM)

2117 Chincoteague Hall

301-314-7703

<http://www.cidcm.umd.edu/minor/>

MIDCM is a 16-credit, undergraduate program of instruction for students with academic and professional interests in the fields of international development and conflict management – and their intersections.

Applications to MIDCM are accepted in the Spring and accepted students begin the program the following Fall. Students applying for the program must be entering their sophomore, junior, or senior year of undergraduate study. Applicants must be full-time students in good standing, with a cumulative GPA of 2.5 or better. Up to 70 students are accepted into the program each year.

Requirements for the minor include the following coursework:

	Required Courses	Credits
GVPT354	International Development and Conflict Management	3
GVPT355	Capstone in International Conflict Management	3
GVPT356	Capstone in International Development	3

ELECTIVE	Global Studies Signature Elective course from approved list	3
METHODS	One research methodology course from approved list	3
BSOS388E	Behavioral and Social Sciences Special Topics: CIDCM Minor Practicum	1
	Total Credits	16

Note: Six credits (or two courses) can be double counted for your major and the minor. Classes must generally be completed after acceptance into the minor program, with the exception of the signature elective and methods requirements.

All courses used to satisfy the requirements of the minor must be completed with a grade of "C-" or better. Students must have a minimum 2.0 cumulative grade point average across all courses used to satisfy the minor requirements.

International Engineering

A.James Clark School of Engineering (ENGR)
1131 Glenn L Martin Hall, 301-405-0234
www.ilp.umd.edu

In addition to a strong engineering background, there is a need for engineers with cross-cultural experience and foreign language abilities. Students may earn the minor by completing a course in International Business Cultures for Engineering and Technology, a Global Studies Minor Program signature course, and additional courses in language, culture studies, or internationally related studies, plus an engineering experience abroad. Contact the minor advisor, Jane Fines (jfines@umd.edu) or visit the web at www.ilp.umd.edu for more information. Students who fulfill minor requirements will receive a notation on their official transcript.

Israel Studies

Minor in Israel Studies

www.israelstudies.umd.edu/undergraduate-minor.html

Students doing a Minor in Israel Studies will study the history, culture and political structure of Israel and its place in the Middle East. Students from all majors are encouraged to apply.

Program Requirements

The minor consists of 15 credits, and is organized around the following requirements:

Required Core Courses (9 Credits)

ISRL342/HIST376*	History of Zionism and the State of Israel	3 credits
ISRL448	Seminar in Israel Studies – seminar topics change each semester	3 credits
Middle East Studies Course**	One course in the area of Middle East Studies (<i>see following list</i>)	3 credits

To fulfill the Middle East Studies requirement, students must take one of the courses listed below or a comparable course. Courses within ISRL cannot be counted for this requirement. This list is not complete; other courses may be substituted with the approval of the Advisor. Students may also take one additional course from this list as an elective for credit toward the Minor.

ARAB221 The Arab World Today through Readings in Translation

HIST120 Islamic Civilization

HIST314 Crisis and Change in the Middle East *prereq: one prior History course*

HIST491 History of the Ottoman Empire

GVPT455 Contemporary Middle Eastern Politics *prereq: GVPT280 or 282*

*A comparable course at another university may substitute for this; consult the Minor Advisor

** Other courses in Middle East Studies at UMD or elsewhere may be substituted for those on this list in consultation with the Advisor. HIST, COMM, GVPT, and SLLC all regularly offer special topics courses on the Middle East.

Elective Courses (6 Credits)

JWST142 Introduction to Modern Israel

ISRL289I Fundamental Questions of the Israeli-Palestinian Conflict

ISRL448A: Israeli Politics and Government

ISRL448B: Israeli Society

ISRL449 Advanced Topics in Israel Studies

*HEBR111, 112, 211, 212

*ARAB104, 105, 107, 204, 205, 207, 304, 305

JWST304 Critical Approaches to Israeli Culture

HEBR313 Conversation and Composition I

HEBR314 Conversation and Composition II

HEBR381 Introduction to Hebrew Cultural Studies (taught in Hebrew)

HEBR382 Israeli Media (taught in Hebrew)

JWST478 Readings in Modern Hebrew (if topic appropriate: must be approved)

JWST471 Modern Hebrew Literature in Translation

JWST249 Special Topics in Israel Studies

JWST349 Special Topics in Israel Studies

JWST449 Advanced Special Topics in Israel Studies

JWST488 Independent Study in Israel Studies

* No more than 3 credits of language instruction below the 300 level may be credited toward the Minor.

Special Topics in Israel: (Topics change on an annual/semester basis, generally taught by distinguished visiting faculty.)

- ISRL249: Special Topics in Israel Studies
- ISRL349: Special Topics in Israel Studies
- ISRL449: Advanced Topics in Israel Studies

Special Topics in recent years have included: The Arab-Israeli Conflict through Film; Introduction to Israeli Cinema; Immigration & Ethnicity in Israel; Israel Politics and Society; Women and Gender in Israel; Public Culture in Israel; Israel Society as Seen Through Literature & Culture; Cultural Diversity and Multiple Identities in Contemporary Israeli Society; Society Politics and Mass Media in Israel; The Theater of Terror: Modern Terrorism and Mass Media; Israeli Politics for Young

Leaders, and more.

Other appropriate courses may be taken as electives if approved by the Israel Studies Advisor.

Restrictions:

- Coursework must include at least 9 upper level credits, of which 6 of those credits **MUST** be taken at University of Maryland. These include credits earned in UM Study Abroad programs.
- A student may use a maximum of 6 credits (two courses) to satisfy requirements for both a major and a minor. Courses completed for one minor, may not be used to satisfy the requirements for another minor.
- No courses with an earned grade below "C-" may count towards the minor.
- An overall GPA of 2.0 in the minor is required for graduation.
- Up to 2 courses may be taken at another university if the courses are approved by the Israel Studies Advisor. These would include credits earned in non-UM Study Abroad Programs.

To make an appointment to explore or declare a minor go to: www.arhu.umd.edu/undergraduate/academics/minors

Students should also contact **Prof. Paul Scham**, *Israel Studies Advisor*

pscham@umd.edu

4141 Susquehanna Hall

College Park, MD 20742

Or visit: www.israelstudies.umd.edu

Italian Language and Culture

School of Languages, Literatures, and Cultures (SLLC)

www.italian.umd.edu

The minor in Italian Language and Culture is an official recognition that a student has reached a certain level of proficiency in the target language. The minor will serve as a validation to potential employers of the student's proficiency in Italian.

18 credits are required for this minor:

Prerequisite: Successful completion of ITAL203 Intensive Intermediate Italian

Minor Requirements

ITAL204	Review Grammar and Composition
ITAL207	Reading and Writing in Italian
ITAL211	Intermediate Conversation
ITAL301	Italian Composition and Style
ITAL311	Italian Conversation: Current Events

One additional course taught in Italian at the 300/400 level

- All courses must be taught in Italian
- A maximum of six (6) credits can be applied to the minor from courses taken at other institutions, with the exception of the Study Abroad Program in Italy, which allows the transfer of nine (9) credits.
- All courses presented for the minor must be passed with a grade of "C-" or better.
- An overall GPA of 2.0 in the minor is required for graduation.

- Students who begin their study as native/fluent speakers should seek the advice of the Italian advisor before choosing the courses they will use to replace the core minor courses.

To make an appointment to explore or declare a minor, go to
www.arhu.umd.edu/undergraduate/academics/minors

Japanese

School of Languages, Literatures, and Cultures
www.japanese.umd.edu

This 15-credit minor is designed to provide a concentration in Japanese language and an introduction to the academic fields of Japanese literature and linguistics. Additionally, the minor will allow Japanese heritage speakers the opportunity to engage in language study for special purposes (such as Business Japanese, Diplomatic Translation, or Classical Japanese) as well as in the study of Japanese linguistics and literature.

Requirements for the 15 credit minor in Japanese include:

- A. Japanese Language Acquisition (6)
- B. Japanese Linguistics (3)
- C. Japanese Literature/Cultural Studies (3)
- D. An additional 3 credits of student's choice from one of the three lists above.
 - At least nine of the fifteen hours must be at the 300-400 level.
 - Students must receive a "C-" or better in all courses used for the minor.
 - An overall GPA of 2.0 in the minor is required for graduation.
 - No more than 6 of the 15 credits toward the minor may be taken at an institution other than UMCP.

To make an appointment to explore or declare a minor, go to
www.arhu.umd.edu/undergraduate/academics/minors

Jewish Studies

Jewish Studies Program (JWST)
4141 Susquehanna Hall, 301-405-4975
www.jewishstudies.umd.edu
jwst-contact@umd.edu

The Minor in Jewish Studies offers a broad overview of the principal aspects of Jewish Studies as a field. Students are encouraged to take courses in a variety of areas through a combination of required fields and general electives.

Requirements - 15 credits are to be distributed as follows:

History	3 credits
Literature	3 credits
Thought, Religion, or Culture	3 credits
Electives	6 credits

- A minimum of 9 credits must be at the upper level.
- All credits must be earned with a grade of "C-" or above.
- An overall GPA of 2.0 in the minor is required for graduation.
- A list of qualifying courses in each category is available from the Director of the Jewish Studies program.
- Up to 3 credits of lower-level Hebrew or Yiddish language study may be credited toward the minor. In exceptional cases, students may petition to have other languages included.

Restrictions:

- Students enrolled in the Jewish Studies Major are not eligible to enroll in the minor.
- At least 6 credits of upper-level credit must be taken at the University of Maryland.
- No more than 6 credits may be taken at an institution other than Maryland.
- In keeping with University policy, no more than 6 credits may also be applied to a major.

Korean Studies

School of Languages, Literatures, and Cultures (SLLC)

www.korean.umd.edu

The Korean Studies Minor will provide students with a basic knowledge of Korea and its language and culture. Five 3-credit courses are required, and three of the five must be at the 300-level (or above). This minor is open to both heritage and non-heritage students alike. Those interested should contact the faculty in the Korean Language Program for advising.

15 credits are required for the minor:

A. Korean language and language-related courses:

Two 3-credit courses devoted specifically to Korean language or language-related studies. Both must be at the second-year level or above. Courses that fit this description include the following:

KORA201 Intermediate Korean I
 KORA202 Intermediate Korean II
 KORA211 Introductory Reading for Speakers of Korean I
 KORA212 Introductory Reading for Speakers of Korean II
 KORA241 History of the Korean Language
 KORA242 Introduction to Korean Linguistics
 KORA311 Korean for Heritage Speakers, Advanced-Low I
 KORA312 Korean for Heritage Speakers, Advanced-Low II
 KORA345 Korean Language and Linguistics

B. Korea-related courses:

Three 3-credit courses in Korea-related studies from fields such as history, sociology, and art history. At least one of these courses must have broad East Asian content to provide breadth to the minor. (Examples of such East Asian courses are marked with an asterisk.)

HIST319N* Korean History
 SOCY398K Contemporary South Korean Society
 HIST284* East Asian Civilization I
 HIST285* East Asian Civilization II
 HIST319C* Asian Age in World History
 EALL300* The Languages of East Asia
 GVPT359C* Politics of Japan and Northeast Asia

ARTH 290* Art of Asia

- Other Korea-related courses may be used to satisfy the requirements, subject to the approval of the Korean Program advisor.
- Three of the five required courses must be at the 300-level or above.
- All courses presented for the minor must be passed with a grade of "C-" or better.
- An overall GPA of 2.0 in the minor is required for graduation.
- No more than six credits can overlap with the major, and no more than six credits can come from off-campus (study abroad, transfer, etc.).

To make an appointment to explore or declare a minor, go to: www.arhu.umd.edu/undergraduate/academics/minors

Landscape Management

Plant Sciences (PLSC)

2139 Plant Sciences Building, 301-405-4359

www.psla.umd.edu/

scohan@umd.edu

The Landscape Management minor provides students with a foundation in plant sciences and business management. The required science courses lead to an integrative understanding of plant growth and development and the plant's responses to its environment. These courses also teach students the skills needed to recommend best management practices and to identify plant abnormalities in the landscape. The business courses in this minor foster an understanding of the business structure, human resource management and financial management associated with landscape management companies.

All courses presented in this minor must be passed with a grade of "C-" or better. To complete this minor, students will be expected to complete an 18-19 credit course sequence. Students should also be aware that many of the courses in this minor list PLSC100, *Introduction to Horticulture*, as a prerequisite.

Curriculum:

	Credits
PLSC253 Woody Plants for Mid-Atlantic Landscapes I	3
PLSC254 Woody Plants for Mid-Atlantic Landscapes II	3
PLSC305 Introduction to Turf Management	3
PLSC251 Financial Applications for the Green Industry	3
PLSC452 Environmental Horticulture	3
<i>Select one of the following courses:</i>	
AREC240 Introduction to Agriculture and the Environment	4
AREC250 Elements of Agricultural and Resource Economics	3
AREC306 Farm Management	3
BMGT220 Principles of Accounting I	3

Total Credits: A minimum of 18 or 19 credits is required to complete this minor. (Depending on which AREC or BMGT course is chosen)

- A student may use a maximum of six credits (or two courses) to satisfy the requirements of both a major and a minor. In the event that more than six credits of coursework listed above are required in the student's major, he or she should contact the Landscape Management faculty advisor for course substitutions.

- This minor is particularly relevant to students who are interested in pursuing a career in the landscape industry. Landscape architecture, environmental science and policy, and life science majors can readily complete these minor requirements within their four-year programs.
- Students from the business school and social sciences who are seeking managerial careers in this rapidly-expanding service industry would also find this minor to be relevant.

Latin Language and Literature

Department of Classics
www.classics.umd.edu

This minor introduces students to the Latin language and enables them to read, in Latin, important works of Latin literature. For students with no prior experience of Latin, the minor requires 21 credits, consisting of the following courses:

	Credits
LATN101 Elementary Latin I	4
LATN102 Elementary Latin II	4
LATN201 Intermediate Latin	4
LATN3xx Two reading courses chosen from the following: Plautus, Petronius, Ovid or LATN3xx Horace and Catullus	6
LATN4xx A reading course in a major Latin author	3
Total	21

No course grade below the grade of "C-" may count toward the minor. An overall GPA of 2.0 in the minor is required for graduation.

Students who enter with advanced standing in Latin can complete the minor by taking a total of five courses in Latin at the 200 level and beyond. To make an appointment to explore or declare a minor, contact the department chair, Dr. Lillian Doherty (ldoherty@umd.edu). She will put you in touch with the undergraduate director in Classics.

Law and Society

Law and Society Minor

0101 Taliaferro Hall
 University of Maryland, College Park, MD 20742
 301-405-3179
www.mlaw.umd.edu

The minor in Law and Society focuses on exploring the relationship between law and society. There is a focus on how law is viewed in a practical and pragmatic way. It focuses on the intent and the experience that the law brings into various industries and society as a whole. The minor is intended for students interested in expanding their knowledge and skills of laws and the effect of laws in any industry. The minor is appropriate for students in preparation for law school, graduate school, and careers in the non-profit, public and private sectors. The program consists of an integrated, interdisciplinary package of courses in research and analytic methods in applied social sciences, law and humanities.

Lesbian, Gay, Bisexual and Transgender Studies

College of Arts and Humanities

2101 Woods Hall, 301-405-6877

www.lgbts.umd.edu

womensstudies@umd.edu

The LGBT minor in the Department of Women's Studies is a 15 credit program which provides students an opportunity for interdisciplinary study of the lives, experiences, identities, and representations of LGBT people. This course of study provides solid grounding in the major concepts and methods that define studies of sex, gender, and gender identity today.

Any student in good standing in the university may enroll in the LGBT Studies minor. In consultation with the Department of Women's Studies Academic Advisor, students will design a minor program that complements their major field of study.

Minor Requirements:

15 credits: 12 credits are in required courses, while 3 credits are earned in one upper-level elective course.

A. Required core curriculum for the Minor in LGBT Studies (12 credits)

1. LGBT200 - Introduction to Lesbian, Gay, Bisexual, and Transgender Studies
2. One lower-level course focused on literature, art, or culture by or about LGBT people, either LGBT265 (X-listed as ENGL265) or LGBT291 (X-listed as CMLT291);
3. One of the following upper-division courses focused on the personal, social, political, and historical aspects of LGBT people: LGBT350, LGBT407 (X-listed as PHIL407), or LGBT494 (X-listed as WMST494);
4. One of the following upper-division courses focused on literature, art, or culture by or about LGBT people: LGBT359 (X-listed as ENGL359), LGBT459 (X-listed as ENGL459), LGBT465 (X-listed as ENGL465); or LGBT327.

B. Elective course for the Minor in LGBT Studies (3 credits)

An upper-division elective will complement the required courses. This elective may be a course from categories 3 and 4 above that has not been used to fulfill requirements; or it may be one of the capstone courses in LGBT Studies (LGBT386 or LGBT488), or a course chosen from the list of approved electives for the LGBT Studies program. The list of approved electives is available at www.lgbts.umd.edu/minor.html. A student may also petition to have any course fulfill this requirement by providing evidence, usually the syllabus, that a substantial amount of the course work, usually including a term paper, consists of LGBT material.

- Appropriate substitutions for courses listed in categories 2 through 4 above may be made with approval from the Director of Undergraduate Studies in the Department of Women's Studies.
- No course earned with a grade below "C-" will count toward the minor in LGBT Studies.
- An overall GPA of 2.0 in the minor is required for graduation.
- Students may use a maximum of six credits (or two courses) to satisfy the requirements of both their major and the minor in LGBT Studies. However, courses taken to complete the minor in LGBT Studies may not be used to satisfy the requirements of another minor.
- No more than six of the required credits (or two courses) may be taken at an institution other than the University of Maryland, College Park. However, at least six upper division credits applied to the minor must be taken at this university.
- Students are advised to declare the minor in LGBT Studies to the Director of Undergraduate Studies in the Department of Women's Studies one year prior to their intended graduation to assure appropriate advising and record-keeping.

Linguistics

Linguistics (LING)

1401 Marie Mount Hall, 301-405-7002

www.ling.umd.edu

The minor in linguistics will introduce students to key concepts that form the basis of modern generative linguistics. Students are introduced to the different sub-areas of linguistics in two introductory courses. Two more advanced courses in syntax and in phonology build on this foundation. One upper level linguistics elective completes the minor. The minor in linguistics will be of relevance to students majoring in Languages, English, Psychology, Philosophy, Education and Computer Science.

To make an appointment to explore or declare a minor, go to: www.arhu.umd.edu/undergraduate/academics/minors. More information is available at the linguistics website, "Minoring in Linguistics" at: <http://ling.umd.edu/undergraduate/minors/>

Courses required for the minor are:

LING200 Introduction to Linguistics (3 credits)

LING240 Language and Mind (3 credits)

LING321 Phonology I (3 credits)

LING311 Syntax 1 (3 credits)

In addition, the student will choose any one 300 or 400 level linguistics elective as a fifth course in linguistics.

- A total of 15 credits is required.
- All courses presented for the minor must be passed with a grade of "C-" or better.
- An overall GPA of 2.0 in the minor is required for graduation.
- Students who take LING240 as their first linguistics course will substitute an approved elective for LING200
- All courses counting for the minor must be actual "classroom" courses (i.e., not independent study, research assistantships, or internships).

Mathematics

1117 Mathematics Building, 301-405-5053

www-math.umd.edu

The Department of Mathematics offers a minor in Mathematics for students majoring in other disciplines. The goal of the minor in Mathematics is to provide the student with significant mathematical skills and a perspective on the discipline.

The requirements for the minor include at least 22 credits beyond first-year calculus and are outlined below:

MATH241 or MATH340	4
	3
MATH240 or MATH461 or MATH341	or
	4
MATH310 (unless exempted)	3
At least one theoretical course from: MATH403, 405, 410	3
At least one algebra course from: MATH401, 402, 403, 405, 406	3
At least one analysis course from: MATH410, 414, 462, 463, 464	3
At least one probability course from: STAT400 or STAT410	3

Note: If additional credits are needed in order to fulfill the 22-credit minimum, any 400-level MATH-STAT-AMSC courses except MATH 400, MATH 477-478, 480-484, 489, 498, and STAT 464 are acceptable.

Other issues related to the minor in Mathematics:

- The minor in Mathematics is NOT open to Mathematics majors.
- The student will need to achieve at least a "C-" (2.0) in each course to be applied to the minor in Mathematics.
- No more than one of the 400-level courses for the minor in Mathematics may be taken at an institution other than the University of Maryland, College Park.

The departmental advisor for this program is Ida Chan, Undergraduate Mathematics Advisor (ichan@math.umd.edu).

Meteorology

Atmospheric and Oceanic Science (AOSC)

3417 Computer and Space Sciences Building, 301-405-5391

www.atmos.umd.edu

This minor will provide the students with a general background in meteorology as offered by the lower level courses, a broader background on a wide range of sub-fields in meteorology, and on current issues in climate research, as provided by the two required courses. This minor is aimed at students who wish to be informed about this field, who may not intend to pursue graduate work in this field, but who might pursue careers where a background in meteorology is important, such as environmental policy, government, and industry. This minor is not open to students who major in Physical Sciences with a concentration in Meteorology, or who major in Physics with the Physics-Meteorology area of concentration.

A total of 15 credits is required. All courses presented for the minor must be passed with a grade of "C-" or better.

The students must choose two electives from:

- AOSC123 Causes and Consequences of Global Change
- AOSC200 Weather and Climate
- Any other 400 level courses offered below as electives

Two required courses:

- AOSC400 Physical Meteorology of the Atmosphere
- AOSC401 Climate Dynamics and Earth System Science

One additional elective from:

- Any 400 level courses offered in the Department of Atmospheric and Oceanic Science on a regular basis, or from a list of non-permanent electives that will be offered by research scientists, regular faculty from Atmospheric and Oceanic Science, or members of the Earth System Science Interdisciplinary Center (ESSIC)
- Courses offered by the Departments of Geology and Geographic Sciences, such as:
 - GEOL437 Global Climate Change: Past and Present
 - GEOL452 Watershed and Wetland Hydrology
 - GEOG446 Applied Climatology
 - GEOG447 Advanced Biogeography
 - GEOG472 Remote Sensing

Middle Eastern Studies

History (HIST)

2115 Francis Scott Key Hall, 301-405-4265

<http://history.umd.edu/undergraduate/programs/middleeast>

Advisor: Antoine Borrut (aborrut@umd.edu); 301-405-7448

Requirements: 15-18 credits (5 courses; some language courses carry more than 3 credit hours per course) towards the Minor in Middle Eastern Studies. Coursework must be distributed to meet the overlapping requirements below. (For example, HIST120: Islamic Civilization can be used to meet both the pre-modern requirement and the Arab world requirement, but does not count doubly in terms of credit.)

6 credits (2 courses) in Area distribution: At least one course in each of two of the following Area categories: (a) the Arab world; (b) Iran and the Persian/Iranian world; (c) (Middle Eastern) Jewish and Israel; (d) Turkish and Ottoman; and (e) Middle Eastern Diasporas and All Middle East. Other areas of concentration may be considered and require the director's approval.

6 credits (2 courses) in Pre-Modern: At least two courses (6 credits) must focus on the pre-modern period (the 7th century through the 19th century). Students may fulfill this requirement through their area distribution or elective courses.

3 credits (1 course) in Electives: The fifth course may be chosen from the list of approved Middle East Studies courses. A language course of 3 or more credits may be used to satisfy this requirement. Advanced Arabic, Persian, Hebrew, or Turkish language courses that are content courses rather than grammar-based can be used for the Elective category or count toward Area Distribution and/or Pre-Modern, depending on subject matter.

Additional requirements:

- A minimum of 3 courses (9 credits) must be at the upper level (300- or 400-level).
- All credits must be earned with a grade of "C-" or above (no Pass/Fail option).
- An overall GPA of 2.0 in the minor is required for graduation.
- A list of qualifying courses in each category is available from the academic advisor of the minor and on MESM's webpage.
- Only one lower-level or grammar based course in Arabic, Hebrew, Persian, or Turkish may be credited toward the Minor.
- At least six credits of upper-level credit must be taken at the University of Maryland.
- No more than six credits may be taken at an institution other than Maryland.
- A maximum of two courses can count towards both the major and the minor.
- Courses cannot count towards multiple minors.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/undergraduate/academics/minors

Minor in Military Studies

Air Force ROTC

301-314-3242

www.afrotc.umd.edu/minor.html

afrotc330@umd.edu

The minor in Military Studies provides students with the opportunity to study the U.S. military and more specifically the U.S. Air Force. Students seeking a minor in Military Studies are not required to be members of the Air Force ROTC program. This minor enables students to develop a secondary academic experience which may serve them in the future. The minor may also alert potential employers to the student's knowledge in a minor field of study.

The Military Studies minor consists of the courses identified below (Required and Electives), and is open to any student at the University of Maryland. Students seeking a minor in Military Studies

must be approved by the Director of Air Force ROTC and be advised by instructional personnel in that office.

A. Required Courses (12 credits)

All students are required to take the four upper-level Air Science courses.

ARSC300: Management and Leadership I (3 credits)

ARSC301: Management and Leadership II (3 credits)

ARSC400: National Security Forces in Contemporary American Society I (3 credits)

ARSC401: National Security Forces in Contemporary American Society II (3 credits)

At the 300 level, students focus on case studies in effective leadership, management, and team-building. Readings explore topics such as accountability, motivation, teamwork, and ethical and moral leadership. These exercises help students develop critical thinking and problem solving skills, as well as effective professional writing.

At the 400 level, students study military policies, doctrine, and strategy, especially as related to areas of the world that are in crisis or transition. Special units are included on Europe, South Asia, East Asia, Latin America, Russia, and the Middle East to prepare students to function effectively in today's multi-ethnic, multi-cultural societies at home and abroad. Students also explore problem areas in military personnel management, including sexual harassment awareness, suicide awareness, and guidelines for working with civilian personnel. Capstone projects and activities for each student are part of the 400-level curriculum.

B. Elective Courses (6 credits)

In addition to the four required courses, students complete two additional courses, one each from Global Affairs and Military Affairs as listed below. Other courses may be substituted with approval of the minor advisor and Advisory Committee. Students will be advised on the options for seeking BMGT courses.

Global Affairs

GVPT280: Comparative Politics and Governments (3) (GVPT 100)

HIST224: Modern Military History, 1494 - 1815 (3)

HIST225: Modern Military History, 1815 - Present (3)

HIST240: Europe in the Twentieth Century (3)

HIST266: The United States in World Affairs (3)

HIST314: Crisis and Change in the Middle East & Africa (3)

Military Affairs

BMGT360: Human Resource Management (3)

BMGT364: Management and Organization Theory (3)

GVPT354: Peacebuilding, Post-Conflict Reconstruction, & International Development (3)
(Sophomore standing)

GVPT360 Introduction to International Negotiations (3)

SOCY462: Women in the Military (3) (6 credits of SOCY or department permission)

SOCY463: Sociology of Combat (3) (6 credits of SOCY or department permission)

SOCY464: Military Sociology (3) (6 credits of SOCY or department permission)

SOCY465: The Sociology of War (3) (6 credits of SOCY or department permission)

Restrictions

- Courses completed in one minor may not be used to satisfy the requirements in another minor.
- No more than six of the required credits (or two courses) may be taken at an institution other than the University of Maryland, College Park.
- At least six upper division credits applied to the minor must be taken at the University of Maryland, College Park.
- All courses presented for the Minor must be passed with a grade of "C-" or better.
- Course work other than that listed in section B must be approved by the Air Force ROTC advisor and the ROTC Advisory Committee.

Music Performance

School of Music

2110 Clarice Smith Performing Arts Center, [301-405-5549](tel:301-405-5549)
www.music.umd.edu

This minor provides students with high-level training in instrumental or vocal performance. Four semesters of individual study are taken concurrently with four semesters of ensemble. MUSC130 and MUSC140 provide basic historical and theoretical background in support of performance studies. Admission to the minor is based on successful completion of a performance audition before a faculty committee prior to enrolling in the minor. Audition information can be found at www.music.umd.edu.

Eighteen credit hours consisting of the following:

- Four semesters of applied lessons (MUSP302, 303, 402, 403)
- Four semesters of ensemble (chosen from MUSC129, 229, 329)
- MUSC130 Survey of Music Literature
- MUSC140 Fundamentals of Music

No course grade below the grade of "C-" may count toward the minor. An overall GPA of 2.0 in the minor is required for graduation.

Students who fulfill minor requirements will receive a minor on the official transcript. Please contact the School of Music Office for more information.

Nanoscale Science and Technology

Maryland NanoCenter

Kim Engineering Building

www.nanocenter.umd.edu/education/nano_minor/nano_minor.php

Explosive growth in the field of nanometer scale science and technology (NS&T) has led in the past few years to many technological advances in devices and materials structured at the nanometer scale. The Interdisciplinary Minor Program of Study in Nanoscience and Technology at the University of Maryland is intended to prepare participating University of Maryland students for a career in this rapidly developing field. This program draws upon the considerable expertise in nanoscience at Maryland, in departments distributed in two schools: Engineering and Computer, Mathematical and Natural Sciences. Students take courses in Fabrication/Synthesis and Characterization, which emphasize the experimental side of NS&T, as well as Fundamental Science and Specialization Electives, which teach the underlying principles and directions, and include underlying theory and the motivations for NS&T. The minor is open to any student majoring in the College of Engineering or Computer, Mathematical and Natural Sciences.

Completion of the program instills in students the broad perspective needed for nano, including understanding and experience in fabrication/synthesis of nanomaterials and structures, their characterization/measurement, the fundamental science underlying them, and their applications.

For more information see www.nanocenter.umd.edu/education/nano_minor/nano_minor.php or contact the Director of the Nano Minor, Professor Ray Phaneuf, MSE, or Education Coordinator, Nano Minor, Dr. Kathleen Hart, MSE.

Neuroscience

Program in Neuroscience and Cognitive Science

2143 Biology-Psychology Building, 301-405-5866

<http://www.nacs.umd.edu>

The minor in Neurosciences will give the highly qualified and motivated undergraduate an opportunity to study Neuroscience. The emphasis includes study in systems, cognitive, and computational neuroscience in a manner that crosses the traditional boundaries of Psychology,

Biological Sciences, and other related disciplines. The minor is most appropriate for students who already have a background in the biological sciences or psychology.

- All majors are eligible for the minor except students in the Physiology & Neurobiology (PHNB) track in Biological Sciences (BSCI).
- There are a number of science course prerequisites for the required and elective classes. Students should carefully review the prerequisites for all courses listed for the Neurosciences minor. A student without a sufficient science background may not be able to complete the minor in the allotted credits.
- Students may only count a maximum of two courses (6-8 credits) toward both their major degree requirements and the Minor in Neurosciences.

Eligibility and Application to the Minor

In order to apply for the Minor in Neurosciences, a student must have:

1. Completed at least 30 college credits and at least 15 credits at UM
2. Earned at least a "C-" in BSCI170&171 and CHEM131&132 or have AP equivalents
3. Earned at least a "C-" in PSYC301 or BSCI353
4. Be in good academic standing with the University

Applications for the Minor in Neurosciences will be considered three times each year on October 1, March 1, and June 1. Students will be notified via email regarding the status of their application within three weeks of the submission deadline so that students will know whether or not they are accepted prior to early registration for the next semester.

Interested students may submit applications electronically via the Neurosciences and Cognitive Sciences (NACS) Program website at www.nacs.umd.edu.

Course Requirements

There are five required courses (11-14 credits) and two elective courses (6-8 credits) for a total of 17-22 credits to complete the minor. All courses used to satisfy the requirements of the minor must be completed with a grade of "C-" or better. Students must have a minimum 2.0 cumulative grade point average across all courses used to satisfy the minor requirements. A list of required courses and eligible electives can be found on the program website at www.nacs.umd.edu.

Nuclear Engineering

Mechanical Engineering (ENME)

2181 Engineering Classroom Building, 301-405-2410

www.enme.umd.edu

Contact Dr. G.A. Pertmer (pertmer@umd.edu) for further information.

The minor in Nuclear Engineering provides the engineering student with the understanding of nuclear engineering and its application to many different fields, such as power generation, reactor operation, and industrial uses. Students in the minor will learn the fundamentals of nuclear reactor engineering, radiation interactions and measurement, power plant design concepts, and reactor safety. The minor is open to any student in the Clark School of Engineering.

Requirements for Minor

To successfully complete the minor in nuclear engineering, a student must complete a total of 15 credits (5 3-credit courses). All courses must be completed with a grade of "C-" or higher. A maximum of two of the required five courses can be used to satisfy requirements of the student's major (with approval of the major department).

All students pursuing the minor will be required to take the following four courses:

- ENME430 - Fundamentals of Nuclear Reactor Engineering
-

- ENME431 - Nuclear Reactor Systems and Safety
- ENME432 - Reactor and Radiation Measurements Laboratory
- ENME472 - Capstone Design Project (Nuclear Topic)

The fifth course for the minor will be selected, with the help of the student's minor advisor, based on student interest. Some possible choices include:

- ENME488 - Special Problems in Mechanical Engineering
- ENME489 - Special Topics in Mechanical Engineering (Student would select an appropriate course from a number of special topics courses taught each semester in the Mechanical Engineering Department)
- ENRE447 - System Safety Engineering
- ENMA422 - Radiation Effects on Materials
- ENEE474 - Power Systems

Students who fulfill minor requirements will receive a notation on their official transcript.

Persian Studies

School of Languages, Literatures, and Cultures

www.persian.umd.edu

This 15-credit minor will provide students with a background in linguistic, literary, and cultural aspects of the study of Persian, including the cultures of Iran, Afghanistan, Persian-speaking Central Asia, and the Persian diaspora. Students will work toward linguistic competence in speaking, reading, writing, and listening. Additionally, students will be introduced to Iranian culture in its diverse perspectives, practices, and products. The Minor in Persian Studies complements a range of professions, which include careers in education, engineering, government, journalism, the arts, business, and communication.

- A minimum of 9 credits must be earned through courses taught in Persian.
- Up to 6 may be earned from PERS courses taught in English.
- A minimum of 9 credits must be at the upper level.
- All courses presented for the minor must be passed with a grade of "C-" or better.
- An overall GPA of 2.0 in the minor is required for graduation.
- A maximum of 6 credits may be applied to the minor from courses taken at other institutions.

No courses applied to the minor may count toward another minor. All students planning to pursue the Minor in Persian Studies should contact the undergraduate advisor for Persian, who will be responsible for oversight and record keeping.

Prerequisites (14 credits):

PERS101 Elementary Persian I (4 credits)
PERS102 Elementary Persian II (4 credits)
PERS201 Intermediate Persian I
PERS211 Intermediate Conversation

There are no prerequisites for students with equivalent knowledge.

Course requirements:

A. Courses taught in Persian (at least 9 credits)

B. Persian Studies Courses Taught in English (up to 6 credits; no prerequisites)

To make an appointment to explore or declare a minor, go to:

www.arhu.umd.edu/undergraduate/academics/minors

Philosophy

The study of philosophy develops students' reasoning and expository skills and increases their understanding of the foundations of human knowledge and value. The department views philosophy as an activity rather than a body of doctrine and students can expect to receive training in clear thinking, inventive synthesis, and precise expression. For some, this will serve as preparation for graduate studies in philosophy. However, philosophical skills are useful in professions such as law, medicine, government, business management, and in any field that demands intellectual rigor. The department offers a wide range of courses, including several that deal with the philosophy of various disciplines outside philosophy itself.

The requirements for a minor in Philosophy are as follows:

A total of at least 18 hours (six courses, at least three of which must be at least 300-level or above) in philosophy, not counting internship course (PHIL386). For a course to count toward a student's minor, the grade in the course must be "C-" or above. For students who matriculated in September 2012 or later, the average of all grades counted toward the minor must be 2.0 or greater. Therefore, grades of "C-" will have to be balanced with higher grades. ("C-" counts as 1.7 toward the GPA) Candidates for the minor must satisfy the following distribution:

- at least one course numbered 200 or above in the history of pre-twentieth century philosophy
- at least one course numbered 200 or above in value theory (including aesthetics and political philosophy as well as ethics)
- at least one course numbered 200 or above in metaphysics or epistemology (including philosophy of science, philosophy of mind, and philosophy of religion, as well as metaphysics and theory of knowledge)

Physics

1120 Physics Building, 301-405-5979

umdphysics.umd.edu

ugrad@physics.umd.edu

This minor provides a rigorous foundation in physics for students who choose not to complete the entire physics major. The minor begins with a set of two introductory courses (6 credits) in electromagnetic fields (PHYS260 or PHYS272) and waves (PHYS270 or PHYS273). As part of this introduction to Physics, the minor also requires a one-credit introductory physics laboratory (PHYS174, PHYS261, or PHYS271) involving techniques of data gathering and analysis. To obtain a deeper understanding of physics, the minor requires three additional upper-level courses (3-4 credits each), which students can select from the list below.

- Other upper level Physics courses can be substituted only with approval from the Department's undergraduate director and the Faculty Minor Advisor.
- All courses must be completed with a grade of "C-" or better to be counted towards the minor.
- No more than 7 credits in this minor can count toward major requirements. Students with more than 7 credits of overlap must substitute non-overlapping 300 or 400 level courses from the above list to reduce the overlap to no more than 7 credits.
- Physics majors and students majoring in Astronomy are not eligible to complete the Physics Minor due to the large number of overlapping course requirements.

Courses required for the minor	Credits
<i>One from:</i>	7
PHYS174 Physics Laboratory Introduction	1

PHYS261	General Physics: Vibrations, Waves, Heat, Electricity and Magnetism: Laboratory	1
PHYS271	General Physics: Electrodynamics, Light, Relativity and Modern Physics: Laboratory <i>One from:</i>	1
PHYS272	Introductory Physics: Fields	3
PHYS260	General Physics: Vibrations, Waves, Heat, Electricity and Magnetism <i>One from:</i>	3
PHYS273	Introductory Physics: Waves	3
PHYS270	General Physics: Electrodynamics, Light, Relativity and Modern Physics <i>Three from the following:</i>	3 9 - 12
PHYS373	Mathematical Methods for Physics II	3
PHYS375	Experimental Physics III: EM Waves, Optics & Modern Physics	3
PHYS401	Quantum Physics I	4
PHYS402	Quantum Physics II	4
PHYS404	Introductory Statistical Thermodynamics	3
PHYS410	Classical Mechanics	4
PHYS411	Intermediate Electricity and Magnetism	4
PHYS465	Modern Optics	3
PHYS474	Computational Physics	3

Prerequisites

MATH140 (4 credits), MATH141 (4 credits), MATH241 (4 credits), MATH240 (4 credits), MATH246 (3 credits), and Physics161 (or Physics171) (3 credits) are prerequisites for some of the courses in this program.

Contact

Students interested in earning a minor in physics should contact the undergraduate advisor for the Physics Department:

1120 John S. Toll Physics Building; 301-405-5979

email: ugrad@physics.umd.edu

Note: At the beginning of the semester in which graduation is intended, a student should make an appointment with the Physics Department's Undergraduate Advisor to fill out the appropriate paperwork.

Planetary Sciences

The minor in Planetary Sciences will provide students with a broad understanding of the application of the methods of astronomy and geology to the study of the Solar System, and develop the students' appreciation of how issues in the study of planets connect with larger issues in those sciences. It is intended for all students with an interest in the study of the Solar System, be it professional or avocational. In addition to Astronomy and Geology majors, it dovetails with the professional goals of Environmental Science and Policy, Environmental Science and Technology, Chemistry, Physics, Physical Sciences, and Secondary Education majors. Building on a three-course base of fundamental knowledge of astronomy, geology and an introduction to the Solar System, the program is completed by three advanced courses addressing specific topics adding depth to the student's knowledge of planetary astronomy and to the geologic tools of the planetary scientist. Students are required to sample from optional courses from both departments. The Joint Minor in Planetary Sciences does not require significant prerequisite knowledge, however some optional courses may require prerequisites of 100-level courses in chemistry, mathematics, or geology.

Courses required for the proposed minor are:

REQUIRED:

One of the following:

- ASTR100 Introduction to Astronomy (3)
- ASTR101 General Astronomy (4)
- ASTR120 Introductory Astrophysics - Solar System (3)

One of the following:

- GEOL100/110 Physical Geology/Physical Geology Lab (4)
- GEOL120/110 Environmental Geology/Physical Geology Lab (4)

One of the following:

- ASTR330 Solar System Astronomy (3)
- ASTR430 The Solar System (3)
- GEOL212 Planetary Geology (3)

Plus three from the following:

At least one choice must be from Geology and one from Astronomy. At least six credits from the list below and nine credits overall must be at the 300-400 level.

- ASTR220 Collisions in Space - The Threat of Asteroid Impacts (3)
- ASTR230 The Science and Fiction of Planetary Systems (3)
- ASTR380 Life in the Universe - Astrobiology (3)
- ASTR498 Special Problems in Astronomy (3)
- GEOL322 Mineralogy (4)
- GEOL340 Geomorphology (4)
- GEOL412 Geology of Terrestrial Planets (3)
- GEOL437 Global Climate Change, Past and Present (3)
- GEOL499 Special Problems in Geology (3)
- Or another appropriate astronomy or geology course approved in advance by the Astronomy or Geology advisor (3-4)

Depending on the optional course taken, there is a total of 19-22 required credits (see prerequisites). All courses presented for the minor must be passed with a grade of "C-" or better.

Portuguese Language, Literature, and Culture

School of Languages, Literatures, and Cultures

www.portuguese.umd.edu

This 15-credit minor will provide students with a solid overview in the linguistic, literary, and cultural aspects of Portuguese-speaking countries, with an emphasis on Brazil.

Prerequisite: Portuguese 104 and 204 (or equivalent).

Requirements: Students will choose the fifteen credits from among the following courses: Portuguese 205, 224, 228*, 311, 320, 321, 350, 378*, 408, 409, 421, 470, 478*.

**Portuguese 228, 378, 478 are conducted in English. The majority of written assignments will be in Portuguese for those students in the minor program.*

- A maximum of 6 credits may be applied to the minor from courses taken at other institutions.
- A maximum of 9 credits may be applied from a University of Maryland Study Abroad program.
- All courses must be passed with a grade of C- or better.
- An overall GPA of 2.0 in the minor is required for graduation.

All administrative records and advising will be handled by the advisor for the Portuguese Program: Regina Igel, ri@umd.edu, 301-405-6457.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/undergraduate/academics/minors

Professional Writing

1220 Tawes Hall
301-405-3763
pwminor@umd.edu

For students who wish to specialize in public and professional writing as an area of expertise and for students who wish to communicate their discipline through writing, the Professional Writing minor offers opportunities to engage deeply with the theory and practice of writing, editing, and designing both print and digital documents for professional workplaces, civic organizations, and community deliberations. Students will develop electronic portfolios throughout their minor coursework as a means to showcase their professional writing knowledge and skills.

Writing-focused internships will be encouraged, although not required, in the later stages of coursework.

Successful completion of the Professional Writing minor requires the following:

A. Fifteen credit hours of coursework consisting of:

- 1) Three credits in ENGL297: Introduction to Professional Writing
- 2) Twelve credits from the following courses, including at least nine credits at the 300 or 400 level and three credits at the 400 level:

ENGL281: Standard English Grammar, Usage, and Diction (See Note 1)

ENGL282: Introduction to Rhetorical Theory

ENGL291: Intermediate Writing

ENGL292: Writing for Change

ENGL293: Writing in the Wireless World

ENGL381: MGA Legislative Seminar (See Note 2)

ENGL384: Concepts of Grammar (See Note 1)

ENG388M: Writing Internship: Maryland General Assembly Pre-Professional Writing Internship (See Note 2)

ENGL388P: Writing Internship: Pre-Professional Writing Skills Internship

ENGL388W: Writing Internship: Writing Center Internship

Professional Writing Program Courses:

ENGL390: Science Writing

ENGL391: Advanced Composition: Argumentation

ENGL392: Legal Writing

ENGL393: Technical Writing

ENGL394: Business Writing

ENGL395: Writing for the Health Professions

ENGL398A: Writing for the Arts

ENGL398B: Writing for Social Entrepreneurship

ENGL398C: Writing Case Studies and Investigative Reports

ENGL398E: Writing for Economics

ENGL398L: Scholarly Writing in the Humanities

ENGL398N: Writing for Non-Profit Organizations

ENGL398R: Writing Non-Fiction Narratives

ENGL398V: Writing for the Environment

ENGL487: Foundations of Rhetoric

ENGL488: Topics in Advanced Writing

ENGL493: Advanced Writing Theory and Practice

ENGL494: Editing and Document Design

B. Submission of an electronic professional writing portfolio

Successful completion of the Professional Writing minor also requires the submission of a writing portfolio during a student's final semester. This portfolio must be submitted to the minor advisor by November 1 for fall semester graduation or April 1 for spring semester graduation. The electronic portfolio must contain, at a minimum, the following material: 1. A welcome page; 2. Six finished, polished texts written by the student in Professional Writing minor courses; and 3. A reflective essay that analyzes how these documents demonstrate the student's achievement of the minor's learning outcomes. The minor advisor will confirm that each portfolio meets these minimum requirements.

Notes:

1. Credit toward the minor will be granted for only one of these two courses: ENGL281 or ENGL384.
2. ENGL381 is a prerequisite for ENGL388M.
3. A student cannot count toward the Professional Writing minor the PWP course that he or she takes to fulfill the Fundamental Studies Professional Writing requirement for the University of Maryland General Education Program. Only a second PWP course can be used to fulfill the Professional Writing minor requirement. Advisors will encourage students to select a second PWP course only if it complements the students' academic or professional goals.
4. Students may satisfy up to three credits of the nine-credit 300- or 400-level coursework requirement through documented writing-intensive professional or internship experience. Students must submit an acceptable portfolio of workplace writing to the Professional Writing minor advisor in order to have these three credits count toward their minor.
5. Following university policy, English majors may count two Professional Writing minor courses toward both the requirements for the English major and the Professional Writing Minor.

Students must be accepted into the minor no later than the start of the semester before the semester in which they plan to graduate. All courses presented for the minor must be passed with a grade of "C-" or better. An overall GPA of 2.0 in the minor is required for graduation.

To make an appointment to explore or declare a minor, go to
www.arhu.umd.edu/undergraduate/academics/minors.

Project Management

Minor In Project Management

Civil and Environmental Engineering (ENCE)

1173 Engineering Classroom Building, 301-405-7768

<http://pm.umd.edu/program/undergraduate-minor-in-project-management/>

Contact Qingbin Cui, Project Management Minor Advisor (cui@umd.edu) or visit the web site.

The Minor in Project Management is open to all students in the A.J. Clark School of Engineering or the School of Architecture, Planning & Preservation that have earned at least 60 credit hours and have a GPA of 3.0 or higher.

A basic understanding of project management is becoming increasingly important for engineers. Such knowledge enables them to contribute immediately to employers, and to advance their careers. In addition to a strong engineering background, there is significant need for engineers to understand the fundamentals of managing projects in order to effectively participate as members of project teams. Students who successfully complete minor requirements will receive a notation on their official transcript.

A total of 15 credits are required. All courses for the minor must be passed with a grade of "C-" or better.

Core Courses

ENCE320 Introduction to Engineering Project Management (3)

ENCE422 Project Cost Accounting & Economics (3)

ENCE423 Project Planning, Scheduling, & Control (3)

ENCE424 Communications for Project Managers (3)

Elective Courses (one)

ENCE 421 Legal Aspects of Architectural & Engineering Practice (3)

ENCE 426 Construction Documentation and BIM Applications in Engineering and Construction (3)

Public Leadership

Maryland School of Public Policy

<http://publicpolicy.umd.edu/plminor>

plminor@umd.edu

1118 Taliaferro

The minor in Public Leadership allows students to examine pressing issues (the global environment, democratization and human rights, crime and the penal system, diversity and affirmative action, poverty and inequality, and the quality of public education) facing leaders today. The minor directs students to think critically about the viable solutions needed to solve problems which require effective leadership for the public good. The Public Leadership minor engages students in learning about leadership for the public good and effective citizenship. Additionally, the minor will serve as a feeder for the school's graduate program.

Objectives and Learning Outcomes

The minor in Public Leadership has the following objectives:

1. To develop students' knowledge of leadership theories;
 2. To offer undergraduate students a coherent and integrated public leadership curriculum;
 3. To give undergraduate students an education providing knowledge and skills appropriate to the understanding and exercise of appropriate leadership in their chosen professions, organizations, and communities;
 4. To create and support a community of young public leaders who hold a common interest in
-

leadership studies;

5. To offer students who are interested in public service a place to begin to build an intellectual foundation which will allow them to address the problems of the next decade;
6. To prepare our students for the responsibilities of leadership and citizenship in a complex world; and
7. To gain experience in applying leadership theories and concepts in a structured internship experience.

Requirements: 15 approved credits, at least 9 of which are 300- or 400-level. All courses taken for a minor must be completed with a minimum grade of "C-". A minimum C (2.00) cumulative grade point average across all courses used to satisfy the minor is also required. Notes: No more than 6 credits may overlap between the major and the Public Leadership Minor, unless otherwise approved by the major department. Additionally, courses completed in one minor may not be used to satisfy the requirements in another minor.

At least **3 credits** from one of the following Anchor courses:

- PUA201 Leadership for the Common Good; (3 credits): Two hours of lecture and one hour of discussion/recitation per week. This course is designed to provide undergraduate students an introduction to leadership theory and civic studies and a chance to practice a core set of practical skills relevant to various kinds of leadership, such as transformational and collaborative leadership.
- PUA302 Leadership: Philosophy, Policy and Praxis; (3 credits): Leadership as a search for meaning, identity and purpose are explored. Also introduces major philosophical traditions, from the ancient world to the modern one, and encourages students to ground their leadership interests and aspirations in a disciplined process of self-reflection, critical thinking and inquiry.
- PUA288P Special Topics in Public Policy; Introduction to Public Policy (3 credits): There is much more to public policy than who wins and who loses. This course will provide a broad understanding of the policy making process, and the tools for analyzing and managing successful policies and briefly considers various policy arenas, including education policy, and economic/fiscal policy. There will be optional visits to external institutions involved in the practice of public policy.

The remaining 12 credits will be selected by the student from a list of approved signature courses and electives. A credit-bearing experiential learning option for which a grade is earned, e.g., internship, study abroad, research project, etc. can count as part of the remaining 12 credits. The experiential learning option must be linked to public leadership and approved in advance.

Please see the Public Leadership Minor [website](#) or email plminor@umd.edu for additional information on requirements and the application process.

Religious Studies

Jewish Studies Program (JWST)

4141 Susquehanna Hall, 301-405-4975

www.religious-studies.umd.edu

jwst-contact@umd.edu

Religious Studies is an interdisciplinary field that enables students to study the texts, culture, history, beliefs, and practices of the religions of the world, present and past. The minor in Religious Studies draws from a wide range of departments and programs (including Anthropology, Art History, Classics, English, History, Jewish Studies, and Philosophy) and offers the opportunity for both in-depth and wide-ranging study. A required core course introduces students to religions of the world and to the academic study of religion (students may take either

RELS 216 or RELS289I). In addition to this course, students are required to take three courses at the upper level and another two at any level. Completion of coursework includes fulfillment of a breadth requirement, which demonstrates that students have been exposed to a variety of religious traditions, periods, and geographic regions. Selection of courses in consultation with the advisor will ensure that students complete this breadth requirement.

Many courses are now offered with the RELS prefix. Other regularly-offered courses that may be counted toward the minor are: ARTH200, ARTH201, ARTH250, ARTH290, ARTH314, ARTH376, CHIN316, CLAS170, CLAS470, ENGL262, GERM283, GERM287, HIST111, HIST120, HIST282, HIST284, HIST306, HIST332, HIST480, PHIL236, and many courses in JWST and HONR. Other courses may be taken with the permission of the minor advisor.

Requirements:

- **RELS216 or RELS289I:** Introduction to the Study of World Religions.
- **Three courses at the 300-level or above.** These courses can be in any of a variety of subjects, chosen in consultation with an advisor. See Breadth requirement below.
- **Two additional courses at any level.** Chosen in consultation with an advisor. See Breadth requirement.

Breadth requirement

The breadth requirement ensures that students are exposed to a diversity of religious phenomena. Most Religious Studies students will complete this requirement simply by selecting from the wide variety of courses available to them. Students with particular interests (in a single approach, like Art History, or a single setting, like contemporary North America) will need to take at least one course that falls outside their particular focus of interest. Students will need to demonstrate:

A. Exposure to a diversity of religious traditions (understood to include African religions, Buddhism, Christianity, Hinduism, Islam, and Judaism, among others), in coursework that extends beyond a single geographic area (such as the Americas, Asia, or the Mediterranean world).
 B. Exposure to diverse temporal periods (including antiquity, the medieval and early modern periods, and modernity).

C. Experience of multiple approaches to religious phenomena or the study of religion (for example, art history, philosophy, historical approaches, and comparative methods).

D. Depth: At least one course must incorporate the focused study of a single religious tradition or cluster of traditions (see item A for traditions).

Examples: A student with academic focus in religions of the ancient Mediterranean might complete the breadth requirement with a single course on Asian religions. A student concentrating on art historical approaches to religion might take one course in philosophy or literature. A student whose interests run to comparative and cross-cultural coursework might take a course in the focused study of a single tradition.

- A minimum of 9 credits must be at the upper level.
- All courses must be passed with a grade of "C-" or above.
- An overall GPA of 2.0 in the minor is required for graduation.
- A list of qualifying courses is available from the advisor to the RELS program.
- At least six credits of upper-level credit must be taken at the University of Maryland.
- No more than six credits may be taken at an institution other than Maryland.
- In keeping with University policy, no more than six credits may also be applied to a major.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/undergraduate/academics/minors.

Remote Sensing of Environmental Change (RSEC)

Geographical Sciences (GEOG)

2108M LeFrak Hall, [301-405-4073](tel:301-405-4073)
www.geog.umd.edu
geog-advise@umd.edu

Description:

The Remote Sensing of Environmental Change minor program (RSEC) is designed to build students' understanding global environmental change in order to assess their impacts on the physical and human landscapes, and to use remote sensing as an analytical tool for identifying the impacts. Students in the minor program will receive technical training in remote sensing to examine how extreme environmental events shape human society and ecosystems from the interdisciplinary perspective afforded by the field of Geography.

Admission to the Program:

There are no special requirements for the Minor Program in Remote Sensing of Environmental Change. The Department of Geographical Sciences welcomes students from every area of study. GIS and ENSP students are also welcome to enroll in this minor.

Requirements:

- All credits for the minor must be taken in the Department of Geographical Sciences at the University of Maryland, College Park.
- All courses must be completed with a grade of "C-" or better.
- No more than **six credits** are to be included in the Minor and student's major, supporting courses, and college requirements.

The Required Curriculum: (18 credits)

Foundation Course (3 credits)

- **Natural Disasters:** GEOG140 (3 credits)

Or

- **Introduction to Methods of Geospatial Intelligence and Analysis:** GEOG170 (3 credits)

Technical Geography Courses (6 credits)

- **Introduction to Remote Sensing:** GEOG372 (3 credits)
- **Advanced Remote Sensing:** GEOG472 (3 credits)

Choose one Physical Geography Course (3 credits)

- **Geomorphology:** GEOG340 (3 credits)
- **Biogeography:** GEOG342 (3 credits)
- **Climatology:** GEOG345 (3 credits)

Choose one Human Dimension of Global Change Course (3 credits)

- **Regional Geography: China** GEOG328B (3 credits)
 - **Regional: Sub-Saharan Africa:** GEOG328C (3 credits)
 - **Regional: Latin America:** GEOG313 (3 credits)
 - **Society and Sustainability:** GEOG330 (3 credits)
 - **Intro to Human Dimensions of Global Change:** GEOG331 (3 credits)
 - **Economic Geography:** GEOG332 (3 credits)
-

Choose one Advanced Integrated Course (3 credits)

- **Land Use, Climate Change, and Sustainability:** GEOG415 (3 credits)
- **Modeling Human-Environment Interactions:** GEOG416 (3 credits)
- **Cultural and Natural Resource Management:** GEOG431 (3 credits)
- **Coastal Oceans:** GEOG441 (3 credits)
- **Biogeography & Environmental Change:** GEOG442 (3 credits)

Resource and Agricultural Policy in Economic Development

Agricultural and Resource Economics (AREC)

2200 Symons Hall

www.arec.umd.edu

This minor provides students with the economic knowledge necessary for analysis and understanding of policies affecting agriculture and resource use in developing countries. The 400-level courses are a truncated version of the upper-level course requirements of the AREC major. These courses focus particularly on economic analysis relevant to agricultural and development policy. AREC365 is a course on world food supply and demand intended primarily for non-AREC majors. AREC250 is an introductory course giving students an overview of the subject.

AREC240	Introduction to Economics and the Environment	3
OR		
AREC250	Elements of Agricultural and Resource Economics	3
AREC345	Global Poverty and Economic Development	3
AREC365	World Hunger, Population and Food Supplies	3
AREC433	Food and Agricultural Policy	3
AREC445	Agricultural Development, Population Growth, and the Environment	3
AREC453	Natural Resources and Public Policy	3
AREC422	Econometric Applications in Agricultural and Natural Resource Economics	3
AREC446	Sustainable Economic Development	3

Please choose five courses from the list above. Nine credits must be at the 300-400 level.

Another AREC course can be substituted for one of the courses listed with permission of the Undergraduate Advisor.

Total Credits 15

Rhetoric

Department of Communication and Department of English

<http://rhetoric.umd.edu>

Rhetoric is the theory of persuasive communication, both written and spoken. The minor in rhetoric has been designed for students who want to know the principles and skills of practical persuasion in its varied contexts. The program will be of value for all students wishing to improve

their writing and speaking skills and especially useful for those students who plan careers in business, management, law, government, and education. The minor in rhetoric is an interdisciplinary program offered through the cooperation of the Department of English and the Department of Communication.

Fifteen semester hours of coursework are required:

- A. Six semester hours from the course list in Rhetorical Theory and Analysis of Discourse
- B. Six semester hours from the course list in Writing and Speaking Skills
- C. Three semester hours in electives from either section of the Rhetoric Course List
- D. At least nine of the fifteen semester hours must at the 300-level or higher (including at least six hours at the University of Maryland, College Park)
- E. No more than six of the fifteen semester hours may be taken at an institution other than the University of Maryland, College Park
- F. No more than six of the fifteen semester hours may count toward the student's major, supporting courses, and college requirements
- G. No course from the student's major department may count toward the minor
- H. No course used to satisfy a Fundamental Studies requirement may count toward the minor
- I. No course used to satisfy the requirements of another minor may count toward the rhetoric minor.
- J. No course grade below the grade of "C-" may count toward the minor
- K. An overall GPA of 2.0 in the minor is required for graduation.

Entering the Minor:

The College of Arts and Humanities has established a maximum enrollment in the rhetoric minor. Students wishing to pursue the minor should check the Arts and Humanities minor website: <http://www.arhu.umd.edu/undergraduate/academics/minors>, or the rhetoric minor website: <http://rhetoric.umd.edu>, for the current status of minor admissions.

When enrollment in the minor is open, students should review the requirements above, make tentative selections of courses to satisfy these requirements, and meet with one of the advisers below. Students will officially declare the minor in rhetoric during this advising session. The earliest possible advising meeting is recommended, however, because, under University rules for minors, no student may declare the minor during their final year of coursework.

Current course lists for the minor in Rhetoric can be found at:

<http://rhetoric.umd.edu>

Russian Studies

School of Languages, Literatures, and Cultures

www.russian.umd.edu

The Minor in Russian Studies is a series of five courses to be chosen in consultation with the departmental advisor. The completion of a Minor in Russian Studies provides students with a broad background in Russian language, literature, and culture.

A minimum of fifteen credits/five courses* is required, to be chosen from among the following:

Courses taught in Russian:

RUSS201, 202, 210, 211, 301, 302, 303, 307, 321, 322, 381, 382, 401, 402, 403, 404, 405, 406, 407, 409, 410, 411, 412, 431, 432, 433, 434, 473

Courses in English:

RUSS221, 222, 281, 282, 298, 327, 328, 329, 398, 439

Courses in SLAVIC may also be counted toward the Russian Studies Minor: SLAV469, 475, 479

Prerequisites for the minor: RUSS102 (Elementary Russian) or the equivalent as determined by the department

**Note that in most cases, five courses of 3-credits each will fulfill the 15-credit requirement. However, RUSS201 and 202 are 5 credit courses. If a student chooses to count these two courses as part of the minor, they are still required to complete three additional courses (for a total of five courses).*

- Courses taken through Study Abroad programs may be applied.
- A minimum of six credits must be earned from courses in Russian.
- A minimum of nine credits must be at the 300- or 400-level.
- Transfer credits (from study abroad or another US institution) may count toward the minor with approval of the department. In most cases, a maximum of six transfer credits will be approved.
- All courses counting toward the minor must be passed with a "C-" or better.
- An overall GPA of 2.0 in the minor is required for graduation.
- Substitutions of other departmental offerings may be approved by the advisor.

Oversight of the minor program will be through the normal academic processes of the Russian program in the School of Languages, Literatures, and Cultures. The Undergraduate Advisor will be responsible for ensuring that students are properly advised and that records are appropriately kept.

To make an appointment or declare a minor, go to: www.arhu.umd.edu/undergraduate/academics/minors

Soil Science

Environmental Science and Technology (ENST)

1457 Animal Sciences Building, 301-405-1193, shannonp@umd.edu

www.enst.umd.edu

The Soil Science minor will provide students with a sophisticated understanding of soil resources, its development, characteristics, and principles for its use and management. Building on a basic introduction to the broad field of soil science, the program is completed by adding four or five upper division soils courses balanced between underlying principles and field applications. Declared majors in the Conservation of Soil, Water and Environment area of concentration of NRSC or the Land and Water option in ENSP may not also minor in Soil Sciences.

Advising system for the minor:

The ENST Department has mandatory advising for each of its major and minor programs. Students are required to meet with their advisor at least once per semester. If you have any questions, please contact Shannon Pederson at shannonp@umd.edu.

Curriculum:

ENST200 Fundamentals of Soil
Science

Select 13 credits from the ten courses listed below. At least two courses must be from Group A.

Group A - Underlying Principles

ENST411	Principles of Soil Fertility	3
ENST414	Soil Morphology, Genesis & Classification	4
ENST417	Soil Hydrology and Physics	3
ENST421	Soil Chemistry	4
ENST422	Soil Microbiology	3

Group B - Applications

ENST301, 2, 3	Field Soil Morphology I, II, III	1 - 3
ENST309	Advanced Field Soil Morphology	1
ENST423	Soil-Water Pollution	3
ENST430	Wetland Soils	3

Total Credits: A minimum of 17 credits are required to complete this minor.

Students attempting this minor will need MATH113 or higher. There are a total of 17 required credits in ENST classes, plus a 4 credit CHEM prerequisite. Depending on the pre-requisites needed, and the optional courses selected and pre-requisites, students will take between 17 and 24 credits.

This minor is particularly relevant to students majoring in Agricultural and Resource Economics, Geology, Geography, Environmental Science and Policy, Biology, Biochemistry, Chemistry, Anthropology, Architecture, Agriculture Science and Technology, Horticulture and Crop Production, Animal Science, Landscape Architecture, Parks and Planning, Bioengineering, Civil Engineering, Environmental Engineering, Environmental Science and Technology, Natural Resources Management.

Spanish Language and Cultures

School of Languages, Literatures, and Cultures (SLLC)

www.spanish.umd.edu

Information

The minor in Spanish Language and Cultures is a series of five courses in Spanish to be chosen in consultation with the departmental advisor. Courses taken through Study Abroad programs may be applied. This 15 credit minor will provide students with a solid background in linguistic, cultural, and literary aspects of the study of Spanish.

Core Courses Required for the Minor

SPAN207 Reading and Writing in Spanish

SPAN301 Advanced Grammar and Composition I

SPAN303 Approaches to Cultural Materials in the Hispanic World

Other Required Courses

Following completion of the core sequence, students choose **two** courses from the following:

SPAN206 Review of Oral and Written SPAN for Native Speakers Educated in the United States

SPAN302 Advanced Grammar and Composition II
 SPAN306 Spanish II for Native Speakers
 SPAN310 Spanish Phonetics
 SPAN307 Oral Communication Skills for Native Speakers of Spanish
 SPAN315 Commercial Spanish I
 SPAN316 Practicum in Translation I
 SPAN317 Practicum in Translation II
 SPAN318 Translation of Technical Texts
 SPAN331 Spanish Culture, Civilization and Literature I: Medieval Times
 SPAN332 Spanish Culture, Civilization and Literature II: Renaissance and Baroque
 SPAN333 Spanish Culture, Civilization and Literature III: Modern Times
 SPAN356 Literary Translation I
 SPAN357 Literary Translation II
 SPAN361 Latin American Literatures and Cultures I: From Pre-Colombian to Colonial Times
 SPAN362 Latin American Literatures and Cultures II: From Independence to Nation Formation
 SPAN363 Latin American Literatures and Cultures III: From Modernism to Neo-Liberalism
 SPAN415 Commercial Spanish II
 SPAN417 Interpretation
 SPAN425 Introduction to Hispanic Linguistics I: Basic Concepts
 SPAN426 Introduction to Hispanic Linguistics II: Language In Use
 SPAN448 Special Topics in Latin American Civilization
 SPAN449 Special Topics in Spanish Civilization

All Spanish literature courses on the 400 level

- All courses must be taught in Spanish.
- Native or heritage learners of Spanish should seek the advice of the Undergraduate Advisor for Spanish before choosing their courses.
- The minor is open to all students except Spanish majors.
- A grade of "C-" or better is required in each class.
- An overall GPA of 2.0 in the minor is required for graduation.
- A maximum of 6 credits may be applied to the minor from courses taken at other institutions. However, a maximum of 9 credits may be applied from a University of Maryland Study Abroad program.

To make an appointment to explore or declare a minor, go to
www.arhu.umd.edu/undergraduate/academics/minors

Spanish Language, Business, and Cultures

School of Languages, Literatures, and Cultures (SLLC)
www.spanish.umd.edu

Information

This 15 credit minor will provide students with a solid background in language, culture, and concepts important for business in the Spanish-speaking world.

Core Courses Required for the Minor

SPAN207 Reading and Writing in Spanish
 SPAN301 Advanced Grammar and Composition I
 SPAN303 Approaches to Cultural Materials in the Hispanic World

Other Required Courses

Following completion of the core sequence, students will complete:

SPAN315 Commercial Spanish I
 SPAN415 Commercial Spanish II

All courses must be taught in Spanish.

Native and Heritage Speakers

Native speakers and all others with the ability to begin coursework at a high level should speak with the Undergraduate Advisor. **Heritage learners**, students from homes where Spanish is spoken or who have had in depth exposure to Spanish, are encouraged to take a series of courses designed to enhance their skills.

Transfer Credits

A maximum of 6 credits may be applied to the minor from courses taken at other institutions. However, a maximum of 9 credits may be applied from a University of Maryland study abroad program.

Eligibility

The minor is open to all students except Spanish majors.

Application Process

Students should meet with the Minor Advisor during walk-in advising hours. The advising hours are always posted at 2211 Jimenez Hall, and are available on the Department of Spanish and Portuguese website, <https://slc.umd.edu/spanish/undergraduate/advising>.

Statistics

1117 Mathematics Building, 301-405-5053

www-math.umd.edu

The Department of Mathematics offers a minor in Statistics for students whose majors are not Mathematics. The goal of the minor in Statistics is to provide the student with a substantial number of courses that are statistical in nature and involve a substantial amount of mathematics.

The requirements entail 16 credits, from I - IV:

I. MATH241 - Calculus III (Multivariable Calculus) (4 credits)

II. One of the three pairs of 3 credit courses: (6 credits)

STAT400 and STAT401

STAT410 and STAT420

STAT410 and STAT401

III. STAT430 (3 credits)

IV. One of the courses in a-e (3 credits):

(a) STAT440

(b) STAT470

(c) A third course in (II) not already taken to satisfy (II)

(d) ECON422

(e) or other courses as deemed appropriate

Other issues related to the minor in Statistics:

- The minor in Statistics is NOT open to Mathematics majors.
 - The student will need to achieve at least a "C-" in each course for the minor in Statistics.
 - A student may use a maximum of 2 courses to satisfy the requirements of both a major and the minor in Statistics.
 - No more than 2 courses for the minor in Statistics may be taken at an institution other than the University of Maryland, College Park. In addition, no more than one upper-level course may be taken at an institution other than the University of Maryland, College Park.
-

The departmental advisor for this program is Professor Paul Smith (pjs@math.umd.edu).

Surficial Geology

Geology (GEOL)

1115 Geology Building, 301-405-4365

www.geol.umd.edu

This undergraduate minor recognizes concentrated study in Surficial Geology, a designated field in the College of Computer, Mathematical, and Natural Sciences. The award of a minor will be noted on the student's transcript at the time of graduation.

This minor may be earned by students not majoring in Geology and are administered by the Geology Undergraduate Studies Director. A grade of "C-" or better must be earned in all courses required for the minor.

	Credits
GEOL100/110Physical Geology/Lab, or	4
GEOL120/110Environmental Geology/Lab	4
GEOL123 Causes and Implications of Global Change	3
GEOL340 Geomorphology	4
<i>Two from:</i>	
GEOL331 Principles of Paleontology	4
GEOL342 Sedimentation and Stratigraphy	4
GEOL435 Environmental Geochemistry	3
GEOL437 Global Climate Change Past and Present	3
GEOL444 Low Temperature Geochemistry	4
GEOL451 Groundwater, or	3
GEOL452Watershed and Wetland Hydrology	3
GEOL499 Special Problems in Geology	3

Survey Methodology

Survey Methodology

Joint Program in Survey Methodology

University of Maryland

1218 LeFrak Hall

College Park, MD 20742

301-314-7911

jpsm-contact@umd.edu

<http://jointprogram.umd.edu/>

The undergraduate Minor in Survey Methodology is a cross-disciplinary program offered by the Joint Program in Survey Methodology (JPSM) within the College of Behavioral and Social Sciences (BSOS). Students in the program will explore the theoretical foundations of survey design and survey data collection, together with the practical application of this theoretical material.

Completion of the minor will prepare students to enter careers in the Federal statistical system or any of the numerous private sector firms that collect survey data to inform decision-making, as well as for further graduate study in the field of survey methodology. In addition, students aspiring to careers in fields such as marketing, political consulting, economics or the social sciences that rest on the collection and use of survey data will benefit from the understanding of

the data collection process that they will acquire.

Student Learning Outcomes

Whether collecting information from survey respondents or making use of data collected by means of such surveys, individuals in many fields require an understanding of the process of designing surveys and collecting survey data. Requisite knowledge areas include the principles of questionnaire design, selecting survey samples to represent populations of interest, modes of data collection, and the use of weights in the analysis of survey data, among other topics.

Upon completion of the proposed curriculum, students will:

- Have the knowledge needed to construct a new survey questionnaire or evaluate an existing survey questionnaire in accord with the basic principles of questionnaire design;
- Know how to identify potential sources of error in survey estimates and suggest strategies for minimizing those errors; and
- Be aware of various features of the design of sample surveys that may affect the analysis and interpretation of the resulting data.

18 credits are required for the minor as outlined below:

Statistics and Research Methods Courses (6 to 8 credits)

The design of survey samples and the analysis of survey data are inherently quantitative exercises. It is, therefore, important that anyone seeking to work in these fields of endeavor have a solid quantitative background. Students enrolled in the minor will be required to take two courses in statistics and research methods. Any of the following courses are appropriate choices for the first of these two courses:

BIOM301 Introduction to Biometrics
 CCJS200 Statistics for Criminology and Criminal Justice
 ECON321 Economic Statistics
 EDMS451 Introduction to Educational Statistics
 GVPT422 Quantitative Political Analysis
 PSYC200 Statistical Methods in Psychology
 SOCY201 Introductory Statistics for Sociology
 STAT400 Applied Probability and Statistics I
 STAT410 Introduction to Probability Theory

Any of the following courses are appropriate choices for the second of the two courses:

ECON422 Econometrics
 SOCY401 Intermediate Statistics for Sociologists
 STAT401 Applied Probability and Statistics II
 STAT420 Introduction to Statistics

There is enormous demand on campus for many of the courses listed as options for fulfilling the statistics/research methods requirement, especially the courses on the first list, and the number of seats available in these classes may be limited. Majors in the department that offers a course may receive priority for enrollment (e.g., CCJS200) or enrollment in a course may be restricted to majors (e.g., ECON321). In addition, there may be prerequisites associated with a particular course. Several of the courses listed in the first set of options require that the student have taken calculus and some of the courses listed in the second set of options require a particular first course as a prerequisite (e.g., STAT420 requires STAT410 as a prerequisite). The fact that a course is listed as an appropriate option for fulfilling the minor requirements does not imply that students necessarily will be able to enroll in that specific course. Students interested in the minor will be asked to consult with their JPSM Advisor about the best way to complete the two course statistics and research methods requirement given their individual circumstances. Courses covering similar material, including courses offered at other institutions, may be accepted as substitutes for the listed courses.

SOCY201 and SOCY401 are 4-credit rather than 3-credit courses. For students choosing these courses to fulfill the requirements of the minor, the minor will be an 18 credit program. Students admitted to the minor in the spring of their sophomore year who have not yet taken one of the listed statistics/research methods courses ideally will take one in the fall of their junior year and the second in the spring of their junior year.

Core Course in Survey Methodology (3 credits)

The core course of the minor is SURV400 Fundamentals of Survey Design. This is an existing course that is offered each spring and is taught by a regular member of the JPSM teaching faculty. Students in the minor will be given enrollment priority. SURV400 is designed to provide students with an overview of the entire survey process, from the development of survey objectives to the collection and analysis of the survey data. The textbook for the course was authored by leading scholars in the field, all of whom have taught in the JPSM program. SURV400 will be a prerequisite for the two additional 3 credit SURV courses required for the minor and should be taken in the spring of the junior year.

Additional Survey Methodology Courses (6 credits)

Students completing the minor also will be required to take SURV430 Questionnaire Design, a new course developed to serve students in the minor as well as graduate students in other departments on campus. SURV430 will be offered as a stand-alone course each year in the fall semester and students in the minor will be given enrollment priority. We do not currently have the staff resources to offer a separate section of this new class in other semesters. In order to provide students completing the minor with needed scheduling flexibility, SURV430 will be offered jointly with SURV630, an existing course taken by students pursuing the JPSM Masters in Survey Methodology, in the spring and/or summer. Qualified students enrolled in the jointly offered SURV430/SURV630 course may choose, with permission, to register for SURV630. Successful completion of SURV630 will satisfy the minor requirement. Taking SURV630 could be advantageous for students who later apply for the JPSM Masters degree program, as it is a required course for that program.

Students taking the minor also will be required to take one additional 600-level SURV course. The course options and the semesters when these courses are regularly offered are as follows:

SURV623 Data Collection - Fall, Summer

SURV632 Social and Cognitive Foundations of Survey Measurement - Fall

SURV625 Applied Sampling - Spring, Summer

These are existing courses taken primarily by students in the JPSM Masters program. Although these are graduate level courses, we believe they should be accessible to advanced undergraduates with suitable preparation.

Seminar (1 credit)

The final requirement for the minor is that students participate in SURV672 Introduction to the Federal Statistical System and to the Survey Research Profession, another course taken by students in the JPSM Masters program. This is a one-credit pass-fail seminar, taught each fall, in which students consider issues related to the ethics of survey data collection and serving the users of survey data. During the semester, students meet with the heads of a number of the federal statistical agencies, giving them the opportunity to learn about those agencies' work. This seminar is an important part of the professionalization of our students and thus of preparing them for careers that make use of their survey methodology background.

Completion Requirements

In order to complete the minor, students must:

- Complete all 16-18 required credits;
- Achieve a minimum grade of "C-" or better in all minor courses;
- Students must have a minimum 2.0 cumulative grade point average across all courses used to satisfy the minor requirements;
- Apply no more than two courses from the minor to satisfying the requirements of the student's major;
- Complete no more than two courses for the minor at an institution other than the University of Maryland, College Park.

The minor is designed to be completed during the junior and senior years, but students could apply for admission to the minor as early as the fall of their sophomore year. Courses completed prior to applying for the minor will be accepted to satisfy the minor requirements.

Eligibility and Application Process

Admission to the minor will be limited to no more than 25 students per year, selected through a competitive application process. This limitation on potential enrollments is necessary because of the small size of the JPSM faculty. Successful applicants will have completed at least 30 semester credits and have demonstrated a high level of academic achievement with a minimal GPA requirement of a 3.2. Students who apply to the program are expected to be able to work

independently. Students seeking admission to the minor will be asked to complete an application form made available on the JPSM website, submit a letter of support for their application from a faculty member or advisor, submit a half page statement why this minor interests you and provide a copy of their transcript.

The faculty committee responsible for oversight of the minor will evaluate the applications submitted. In selecting students to the program the committee will emphasize academic achievement including, in particular, evidence of successful completion of courses in quantitative subjects.

Advising

Interested students should contact JPSM at jpsm-contact@umd.edu. The application form will be posted to the JPSM website at <http://jointprogram.umd.edu/> and applications for admission will be reviewed each semester. Once admitted to the program, students will work with the program director or an assigned faculty advisor to plan the courses to be taken to complete the minor. Students will be expected to be in touch with their faculty advisor(s) prior to the start of each semester to ensure that they are continuing on track to complete the minor requirements.

Sustainability Studies

Co-sponsored by the College of Agriculture and Natural Resources and the School of Public Policy
<http://publicpolicy.umd.edu/sustsusminor@umd.edu>
 1118C Taliaferro

The study of sustainability examines each generation's commitment to protect and preserve the quality of the natural environment for the benefit of succeeding generations. The stability of natural systems and the environment, economic progress, and promoting social justice are all important sustainability goals. Promoting these goals involves choices among competing ends.

The Sustainability Studies Minor at the University of Maryland provides students the opportunity to learn how human relationships, natural resources, and diverse environments can be understood and used to address creatively and positively the global challenges that will affect future human populations and cultures. It will complement any major on campus and provide both intellectual breadth and depth in a challenging area of inquiry that is gaining a high level of interest in businesses, government agencies, and non-governmental organizations. This minor will provide students with the critical thinking and problem-solving skills necessary for them as citizens, employees, or graduate students.

Requirements: 15 approved credits, at least 9 of which are 300- or 400-level. All courses taken for a minor must be completed with a minimum grade of "C-". A minimum C (2.00) cumulative grade point average across all courses used to satisfy the minor is also required. Notes: No more than 6 credits may overlap between your major and Sustainability Studies, unless otherwise approved by your major. Additionally, courses completed in one minor may not be used to satisfy the requirements in another minor. Students must declare the minor a full academic year before their intended graduation.

- **3 credits - AGNR/PUAF301 - Introduction to Sustainability (required).** This course will introduce you to the normative concepts and new thinking surrounding sustainability. We will use readings, lectures, writing exercises, and small group exercises that address how environmental responsibility, economic health, social equity, and cultural vitality are defined and considered in the sustainability context. The roles of resilience and adaptive management will be examined as key pragmatic dimensions of sustainability and as challenging concepts shaping our environmental ethics today. Guest speakers from the Washington region with research and policy expertise will discuss current policy issues.
- **9 credits – One course from each of three groups of courses** linked to the three pillars of sustainability: Science and Technology, Policy and Institutions, and Social and Human Dimensions (see web site for a list of approved courses).
- **3 credits – An additional course from one of these categories or an approved, credit-bearing experiential learning option for which a grade is earned.** These experiences

include internships, study abroad trips, and research projects. The experiential learning option must be linked to sustainability and approved in advance.

To declare this minor or for more information, please e-mail susminor@umd.edu

Technology Entrepreneurship

Minor in Technology Entrepreneurship: 15 credits.

A firm grasp of the entrepreneurial process and mind-set benefits every person engaged in developing technology. The goal of the minor in Technology Entrepreneurship is to infuse technology-creating students with that knowledge and its accompanying skills. Armed with an entrepreneurial mind-set, technology creators drive economic growth by launching successful ventures and bringing life-changing products and services to market.

The minor in Technology Entrepreneurship prepares students for launching successful technology ventures and bringing life-changing products and services to market. The minor develops the entrepreneurial mind-set and functional skillsets of students to improve their ability to create, launch, and manage technology ventures. Students earn the minor by completing coursework which focuses on entrepreneurial opportunity analysis, marketing high-technology products, strategies for managing innovation, and international entrepreneurship and innovation.

For details and contact information, visit <http://www.mtech.umd.edu/educate/minor/>

U.S. Latina/o Studies

Department of American Studies
3322 Tawes, 301-405-1354
<http://amst.umd.edu/uslt/>

The minor, which requires a total of 15 credits, is intended for students who wish to develop a specialization in U.S. Latina/o Studies alongside their degree pursuits. It is advantageous for students engaged in work with U.S. Latina/o communities in a variety of professions and academic fields including American studies, history, literature, education, non-profits, urban studies and planning, health care, social services, business, government, and public policy, among others.

Requirements (15 credits)

A. Two Lower-Level Foundation Courses (6 credits) - All students are required to take the two foundational courses:

USLT201 - U.S. Latina/o Studies I: An Historical Overview to 1960s

USLT202 - US. Latina/o Studies II: A Contemporary Overview, 1960s-Present.

B. One Upper-Level Course (3 credits)

All students are required to take the upper-level course:

USLT488 - Senior Seminar in U.S. Latina/o Studies

C. Two Upper Level Elective Courses (6 credits)

In addition to the three required courses, students will select two upper-level (300-400) elective courses in consultation with the USLT advisor. The elective courses will come from two of the following categories: Humanities, Social Sciences, Languages, and Education.

For these electives, students can choose USLT498 - Special Topics in U.S. Latina/o Studies and

from a list of pre-approved courses offered through other departments or programs. Elective courses will explore the historical, cultural, political, economic, and sociological dimensions of U.S. Latina/o experiences.

Additional courses that include comparative U.S. Latino content, such as in AMST, USLT, ANTH, ENGL, HIST, SPAN, WMST, EDCI, LASC, SOCY, GEOG, or GVPT would be eligible for inclusion in the minor with the approval of the USLT advisor and Director of U.S. Latina/o Studies.

No course grade below the grade of "C-" may count toward the minor. An overall GPA of 2.0 in the minor is required for graduation.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/undergraduate/academics/minors

Additionally, send an email to USLT@umd.edu or USLT Director Dr. Nancy Mirabal at nmirabal@umd.edu.

9. Certificates

African American Studies Certificate

1119 Taliaferro Hall, 301-405-1158
www.bsos.umd.edu/aasd
vskeeter@umd.edu

The Certificate in African American Studies offers undergraduate students an excellent opportunity to develop a specialization in African-American issues while pursuing a major in another field. Certificate students learn about the social, economic, political and cultural history of the African-American people through a concentration of courses they plan with the AASD Academic Advisor. Courses taken toward the certificate also may be used to satisfy General Education requirements and electives.

Earning a Certificate in African American Studies gives students a competitive advantage in the job market by adding greater focus to their undergraduate experience.

Requirements for the Certificate

- 9 hours of AASP General Education courses: AASP100, AASP101, and AASP200 or AASP202.
- 9 hours of upper division electives in AASP (300-level or above); courses in other departments must be pre-approved.
- 3 credit seminar: AASP400 or AASP402.
- Students must earn a "C-" or above in each course applied toward the certificate.
- Students must have a minimum 2.0 cumulative grade point average across all courses used to satisfy the undergraduate certificate requirements.
- No more than 9 credit hours applied towards a major may be counted for the certificate.
- No more than 9 credit hours may be taken at institutions other than UMD.

For more information, or to apply, please call the African American Studies Department at 301-405-1158. The AASD office is located in 1119 Taliaferro Hall.

Asian American Studies Certificate

Office of Undergraduate Studies

2117 Susquehanna Hall, 301-405-0996
www.aast.umd.edu
aast@umd.edu

Note: The Certificate in Asian American Studies is suspended. Information on the Certificate is for reference only.

The Certificate in Asian American Studies involves students in critical study of the

experiences of Asian Americans. Through an interdisciplinary approach, students examine the histories, communities, and cultures of Asian Americans as both distinctive from and connected to the broader themes for diversity, ethnicity, race, gender and migration in the Americas.

Requirements for Certificate

The Certificate in Asian American Studies requires at least 21 credits: 6 credits in core courses (AAST200 and AAST201); 12 credits in elective courses (from among AAST offerings or, with program approval, from among courses offered outside AAST); and a capstone course of 3 credits (AAST 378 or AAST388). Students must earn a grade of C- or better in any course that counts toward the Certificate in Asian American Studies. Beginning with students matriculating in Fall 2012, to be awarded a baccalaureate degree, students must have a minimum C (2.00) cumulative grade point average across all courses used to satisfy undergraduate certificate requirements.

Note: The Certificate in Asian American Studies was suspended beginning fall 2009. The Asian American Studies Program currently offers a 15-credit academic minor; see Chapter 6 for details on the Asian American Studies Minor.

Computational Science Certificate

College of Computer, Mathematical, & Natural Sciences

amsc@amsc.umd.edu

For program requirements contact Applied Mathematics & Statistics, and Scientific Computation department.

East Asian Studies Certificate

College of Arts and Humanities

4224 Jimenez Hall, 301-405-3745

<http://www.ceas.umd.edu/Certificate/index.html>

mmmason@umd.edu

The Undergraduate Certificate in East Asian Studies is a 24-credit course of instruction designed to provide specialized knowledge of the cultures, histories, and contemporary concerns of the peoples of China, Japan, and Korea. It will complement and enrich a student's major. The curriculum focuses on language instruction, civilization courses, and electives in several departments and programs of the university. It is designed specifically for students who wish to expand their knowledge of East Asia and demonstrate to prospective employers, the public, and graduate and professional schools a special competence and set of skills in East Asian affairs.

Upon satisfactory completion of the courses, with a grade of "C-" or better in each course, and recommendation by the Coordinator of the Certificate Program, a

certificate will be awarded. Beginning with Fall 2012, to be awarded a baccalaureate degree, students must have a minimum C (2.0) cumulative grade point average across all courses used to satisfy undergraduate certificate requirements. A notation of the award of the certificate will be included on the student's transcript. The student must have a bachelor's degree awarded by Maryland (must be College Park campus) previous to or simultaneously with an award of the certificate.

Core Values of the Program:

Vision: See the U.S. and East Asia as parts of one globalized world with cultural varieties.

Knowledge: Acquire language skills, spatial and chronological thinking skills, and creative prowess through interdisciplinary study.

Integrity: Adhere to the University's Code of Academic Integrity and professional ethics.

The Certificate will equip students to develop successful careers through teaching excellence and study abroad programs.

Certificate Requirements

The student is required to take:

1. HIST284 East Asian Civilization I
2. HIST285 East Asian Civilization II
3. Six semester hours of introduction to one of the following East Asian languages (Chinese, Japanese, or Korean):

CHIN101 Elementary Chinese I

JAPN101 Elementary Japanese I

KORA101 Elementary Korean I

KORA102 Elementary Korean II

KORA211 Introductory Reading for Speakers of Korean I

KORA212 Introductory Reading for Speakers of Korean II

Students with language competence equivalent to these language courses are exempted from the language requirement; such students are required to complete an additional six hours of electives in East Asian courses to fulfill the 24-credit requirement for the certificate.

Electives: Students must complete at least 12 hours of electives selected from four regular approved courses on East Asia in such disciplines as:

1. art history
 2. business
 3. ethnomusicology
 4. government and politics
 5. history
 6. language, linguistics, and literature
 7. music
 8. plant science and landscape architecture
-

- 9. sociology and
- 10. women's studies.

An overall GPA of 2.0 in the certificate is required for graduation.

Nine of the 12 hours of electives must be upper division (300-400 level courses).

A maximum of three credit hours of special topics courses on East Asia will be allowed with the approval of the certificate coordinator. No more than nine credits from any one department or from the student's major may be applied toward the certificate. In addition, no more than nine credits of the courses applied toward the certificate may be transferred from other institutions.

Students are asked to work with the coordinator in ensuring that the electives maintain an intercollegiate and interdisciplinary focus (at least three disciplines are recommended). Interested students should contact the Coordinator of the Certificate Program, Dr. Michele M. Mason, Department of East Asian Languages and Cultures, 4224 Jimenez Hall, mmmason@umd.edu (website at www.ceas.umd.edu).

International Agriculture and Natural Resources Certificate

College of Agriculture and Natural Resources

0110 Symons Hall, 301-405-2078

www.agnr.umd.edu

tgallman@umd.edu

The Certificate in International Agriculture and Natural Resources is designed to enrich a student's major with a global perspective. The required courses focus on: language instruction; international aspects of the environment, agricultural production, development and sustainability, nutrition, and business; an experience abroad; and a capstone course regarding the student's travel abroad. Any student in good academic standing may participate in the certificate program.

Requirements for Certificate

The certificate requires 19-21 credits that may include courses taken toward other degree and general education requirements. Upon successful completion of the courses, with a grade of "C-" or better in each course and a recommendation of the Associate Dean of the College of Agriculture and Natural Resources, a certificate will be awarded. A notation of the award of the certificate will be included on the student's transcript. In order to receive the certificate, students must have completed all requirements for a bachelor's degree.

Foreign Language

6-8 credits in a foreign language

International Courses

At least 9 credits from the following list of courses, at least 3 of these courses must be in the College of Agriculture and Natural Resources for students not majoring in a program outside of the College of Agriculture and Natural Resources:

ENST100 International Crop Production

ENST440 Crops, Soils, and Civilization

AREC365 World Hunger, Population, and Food Supplies

AREC433 Food and Agricultural Policy

BMGT392 Introduction to International Business Management

BMGT390 Competing on Quality in a Global Economy

BSCI365 International Pesticide Problems and Solutions

GEOG434 Agriculture and Rural Development

NFSC425 International Nutrition

AREC445 Agricultural Development, Population Growth, and the Environment

ECON440 International Economics

GVPT306 Global Ecopolitics

GEOG422 Population Geography

Travel Study or Travel Abroad

Three to four credits of travel study or study abroad. Prerequisite: to have completed the foreign language course work. Prerequisite or co-requisite: six credits from the International Courses List. In order to qualify for the certificate, travel study and study abroad experiences require prior approval of Associate Dean of the College of Agriculture and Natural Resources. For approval, travel experience must demonstrate significant learning opportunities in areas related to agriculture and natural resources and cultural immersion.

Travel Study Seminar

1 credit Travel Study Seminar. Prerequisite: completion of the travel study requirement.

This course will require student presentation of their travel experience including a paper, a poster presentation, as well as an oral presentation and discussion.

Latin American Studies Certificate

College of Arts and Humanities

2151 Taliaferro Hall, 301-405-9626

www.lasc.umd.edu

lasc@umd.edu

The interdisciplinary certificate program in Latin American Studies is open to University of Maryland, College Park, undergraduates in any major who are interested in Latin America and the Caribbean. The undergraduate certificate in

Latin American Studies will be awarded to students who have completed 21 credits with a cumulative GPA of 2.0 or better in the following areas:

Requirements for the Certificate

A. Core Curriculum for All Certificate Students (12 credits)

LASC/SPAN/PORT234	Issues in Latin American Studies I
LASC/SPAN/PORT235	Issues in Latin American Studies II
LASC/HIST250 or LASC/HIST251	Latin American History I or II
LASC/SPAN/PORT/ANTH458	Senior Capstone Course in Latin American Studies

B. Additional Courses in Latin American Studies (9 credits)

Nine credits of additional courses must be chosen from an approved list and from at least two different departments. At least six credits must be at the 300- or 400-level. See Latin American Studies advisor for details.

C. Foreign Language Competency

All certificate students must demonstrate their competence in one of the languages of Latin America and the Caribbean, including Spanish or Portuguese. Other languages may be used to fulfill this goal with the permission of the LASC undergraduate advisor. Competency may be proven with a grade of "C-" or better in an intermediate-level course or higher. Native speakers of Spanish or Portuguese or students with extensive experience in these languages should consult with the Latin American Studies advisor.

An overall GPA of 2.0 in the certificate is required for graduation.

Interested students should contact our director Dr. Laurie Frederik (Lfred@umd.edu, 301-405-6459) or LASC (lasc@umd.edu, 301-405-9626). Please visit our web page at www.lasc.umd.edu.

Leadership Studies Certificate

Counseling, Higher Education and Special Education (CHSE)

<http://umddepartments.orgsync.com/org/leadershipstudies/>
3214 Benjamin Building, 301-405-8627
leadershipstudies@umd.edu

Certificate Completion Requirements

The CHSE Certificate in Leadership Studies consists of **21 credit hours**. No more than six credits can also be applied to a student's major, and no more than six credits may be taken at an institution other than the University of Maryland College Park. No course with an earned grade below "C-" may count towards the

Certificate.

Requirements for the Certificate: (21 total credits)

- HESI217 - Introduction to Leadership (3 credits)
- HESI315 - Leadership in Groups and Organizations (3 credits)
- HESI318 - Applied Contextual Leadership OR HESI418 - Special Topics in Leadership (3 credits)
- HESI417 - Advanced Leadership Seminar (3 credits)
- HESI320 – Social Action Seminar (2 credits)
- HESI321 – Advanced Social Action Seminar (1 credit)
- TWO elective courses, from our pre-approved elective list (total 6 credits)

Lesbian, Gay, Bisexual and Transgender Studies Certificate

College of Arts and Humanities

2101 Woods Hall, 301-405-6877

www.lgbts.umd.edu

The Department of Women's Studies offers an interdisciplinary undergraduate certificate and a minor in Lesbian, Gay, Bisexual and Transgender Studies (LGBT). These are designed to examine the lives, experiences, identities and representations of LGBT persons, those who are today described as having a minority sexual orientation or who are gender transgressive. Students study LGBT families and communities, cultures and subcultures; histories, institutions, languages and literatures; economic and political lives; and the complex relations of sexual minorities to the culture and experience of the gender conformant and (hetero)sexual majority. LGBT Studies is an interdisciplinary and multidisciplinary field, and promotes the application of new theories and methodologies (e.g., queer, feminist, critical race, and multicultural theories) to established disciplines, and it advances the generation of new knowledge within traditional fields of scholarship. Through study of sexual minorities, students gain an understanding of and respect for other differences in human lives such as age, ability, class, ethnicity, gender, race, and religion. In consultation with the Department of Women's Studies Academic Advisor, LGBT minors and certificate candidates design a program that complements their major field of study.

Certificate Requirements:

21 credits: 15 credits are in required courses, while 6 credits are earned in two elective courses.

A. Required core curriculum for the Certificate in LGBT Studies (15 credits)

1. LGBT200 - Introduction to Lesbian, Gay, Bisexual, and Transgender Studies
2. One lower-level course focused on literature, art, or culture by or about LGBT people, either LGBT265 (X-listed as ENGL265) or LGBT291 (X-listed as CMLT291) ;
3. One of the following upper-division courses focused on the personal, social, political, and historical aspects of LGBT people: LGBT350, LGBT407 (X-listed as

PHIL407), or LGBT494 (X-listed as WMST494);

4. One of the following upper-division courses focused on literature, art, or culture by or about LGBT people: LGBT359 (X-listed as ENGL359), LGBT459 (X-listed as ENGL459), LGBT465 (X-listed as ENGL465); or LGBT327

5. One of the following:

a. LGBT488

Seminar in LGBT Studies

b. LGBT386

Supervised Internship - LGBT Community Organizations

B. Elective courses for the Certificate in LGBT Studies (6 credits)

Students choose 6 hours of elective credits in consultation with the Department of Women's Studies Academic Advisor. At least 3 hours of elective credits must be from upper-division courses (i.e., those numbered 300 or above). Students are encouraged to choose electives to complement their knowledge of LGBT people and issues by exploring disciplines that contrast with the major field of study.

Students may select elective courses from the list of core courses above that have not been used to fulfill requirements for categories 2-5, or from a list of approved courses maintained by the program. The list is updated regularly and available at www.lgbts.umd.edu/minor.html. A student may also petition to have any other course fulfill this requirement by providing evidence, usually the syllabus, that a substantial amount of the course work, usually including a term paper, consists of LGBT material.

- Appropriate substitutions for courses listed in categories 2 through 4 above may be made with approval from the Department of Women's Studies Director of Undergraduate Studies.
- No course earned with a grade below "C-" will count toward the certificate in LGBT Studies.
- An overall GPA of 2.0 in the certificate is required for graduation.
- Students may use a maximum of nine credits (or three courses) to satisfy the requirements of both their major and the certificate in LGBT Studies.
- No more than nine of the required credits may be taken at an institution other than the University of Maryland, College Park.
- Students must declare the certificate in LGBT Studies to the Department of Women's Studies one year prior to their intended graduation to assure appropriate advising and record-keeping.

Science, Technology and Society Certificate

1125 Cumberland Hall, 301-405-0527

<http://www.scholars.umd.edu/programs/sts/about>

Director, David Tomblin, PhD, dtomblin@umd.edu

The undergraduate University Certificate program in Science, Technology, and Society (STS) enables students to learn about the dynamic, interactive and creative

relationships among science, technology, and society. This 21-credit program helps structure a student's general education and elective requirements into a unifying theme. The end product of the program is a research project of the student's own choosing, which is developed under faculty mentorship. The STS University Certificate is especially helpful to students who are seeking jobs that require understanding policy decisions as they relate to scientific and engineering endeavors, those students hoping to seek a graduate degree that integrates science, technology, and policy, or students simply interested in developing a greater understanding of social issues related to science and technology.

STS is an interdisciplinary field that has been taught for more than 30 years at universities in the United States and Europe, notably in those with strong engineering and public policy programs. In recent years, STS University Certificate students have chosen to write their capstone term papers about timely topics, including the interactions among science, technology and society related to nanotechnology, fuel cell applications, physics research funding, climate change modeling, religious principles as a basis for climate action, integration of SONAR into underwater vehicles, nuclear power in developing countries, and interpersonal impacts of social networking.

Courses:

The STS program requires 9 credits of Lower Level (100-200) and 9 credits of Upper Level courses (300-400) and the STS Capstone (ENES 440, 3 credits). Students must obtain prior approval of the director before counting courses toward their individualized STS curriculum. Many of these credits may overlap with major and minor requirements. For guidance, see the website for a list of approved courses, and note that students may ask the director to approve a course not listed on the website.

Lower Level (100- and 200-level) Courses (9 credits):

Three courses that relate science to society, technology to society, or science to technology; one of the courses should be CPSS 225 (STS sophomore survey course)

Upper Level (300- and 400-level) Courses (12 credits):

These courses have an interdisciplinary orientation that demonstrates inter-relationships between science and society, between technology and society, or between science and technology. Students choose three courses and the fourth course is ENES440, the STS University Certificate capstone.

Joining the Program and Program Requirements:

Students interested in STS should contact the director to obtain advice and approval prior to enrolling in courses that fulfill the program. Students record their progress with the STS program office as they complete requirements, participate in a semi-annual advising meeting, and write a brief evaluation upon completing the program. Students must earn a minimum grade of "C-" in each course they wish to credit toward the STS University Certificate. A student's individual course of study may not exceed these maximums: 9 credits of courses applied to the student's major; 3 credits of Special or Selected Topics courses; 9 credits of courses taken outside UMCP; and 6 credits of courses with the AREC,

ECON and GVPT prefixes. Once all requirements are met and the director affirms that the student has completed the program, the Registrar includes a notation of this University Certificate on the student's transcript.

Women's Studies Certificate

College of Arts and Humanities

2101 Woods Hall, 301-405-6877

www.wmst.umd.edu

womensstudies@umd.edu

See Women's Studies Department for faculty roster.

The Women's Studies Certificate Program consists of an integrated, interdisciplinary curriculum on women and gender that is designed to supplement a student's major. Any student in good standing may enroll in the certificate program by declaring her/his intention to the Women's Studies Department. For additional information contact the Women's Studies office, 301-405-6827.

Requirements for Certificate

To qualify for a certificate in Women's Studies, a student will be required to earn 21 credits in Women's Studies courses, nine of which must be at the 300/400 level. No more than three credit hours of special topics courses may be counted toward the certificate. No more than nine credits which are applied toward a major may be included in the certificate program. No more than nine credit hours may be taken at institutions other than the University of Maryland. Each student must obtain a grade of "C-" or better in each course that is to be counted toward the certificate. An overall GPA of 2.0 in the certificate is required for graduation. Of the 21 credits, courses must be distributed as follows:

1. Requirements for the Certificate

Foundation Courses (9 credit hours)

WMST200	Introduction to Women's Studies: Women and Society, OR
WMST250	Introduction to Women's Studies: Women, Art & Culture
WMST400	Theories of Feminism
WMST488	Senior Seminar

2. Distributive Courses

Area I: Arts and Literature (3 credit hours)

WMST241	Women Writers of French Expression in Translation (X-listed as FREN241)
WMST250	Introduction to Women's Studies: Women, Art, and Culture
WMST255	Introduction to Literature by Women (X-listed as ENGL255)

WMST275	World Literature by Women (X-listed as CMLT 275)
WMST281	Women in German Literature and Society (X-listed as GERM281)
WMST348	Literary Works by Women (x-listed as ENGL348)
WMST408	Special Topics in Literature by Women before 1800 (X-listed as ENGL 408)
WMST444	Feminist Critical Theory (X-listed as ENGL 444)
WMST448	Special Topics in Literature by Women of Color* (X-listed as ENGL448)
WMST458	Special Topics in Literature by Women after 1800 (X-listed as ENGL458)
WMST466	Feminist Perspective on Women in Art (X-listed as ARTH466)
WMST468	Feminist Cultural Studies
WMST481	Femmes Fatales and the Representation of Violence in Literature(X-listed as FREN481)
WMST496	African -American Women Filmmakers* (X-listed as THET 496)
FREN482	Gender and Ethnicity in Modern French Literature

Area II: Historical Perspectives (3 credit hours)

WMST210	Women in America to 1880(X-listed as HIST 210)
WMST211	Women in America Since 1880 (X-listed as HIST 211)
WMST212	Women in Western Europe, 1750-present (X-listed as HIST212)
WMST320	Women in Classical Antiquity (X-listed as CLAS 320)
WMST453	Victorian Women in England, France, and the United States (X-listed as HIST 493)
WMST454	Women in Africa* (X-listed as HIST 494)
WMST455	Women in Medieval Culture and Society (X-listed as HIST495)
WMST456	Women in the Middle East*
WMST457	Changing Perceptions of Gender in the US: 1880-1935 (X-listed as HIST 433)
AASP313	Black Women in United States History*
AMST418J	Women and Family in American Life

Area III: Social and Natural Sciences (3 credit hours)

WMST200	Introduction to Women's Studies: Women and Society
---------	--

WMST313	Women and Science (X-listed as BSCI 313)
WMST324	Communication and Gender (x-listed as COMM 324)
WMST325	Sociology of Gender (X-listed as SOCY 325)
WMST326	Biology of Reproduction (X-listed as BSCI 342)
WMST336	Psychology of Women (X-listed as PSYC 366)
WMST360	Caribbean Women*
WMST410	Women in the African Diaspora*
WMST420	Asian-American Women*
WMST425	Gender Roles and Social Institutions
WMST430	Gender Issues in Families (X-listed as FMST 430)
WMST436	Legal Status of Women (X-listed as GVPT 436)
WMST452	Women and the Media (X-listed as JOUR 452)
WMST471	Women's Health (X-listed as HLTH 471)
WMST493	Jewish Women in International Perspective*
WMST494	Lesbian Communities and Difference*
AASP498F	Special Topics in Black Culture: Women and Work*
CCJS498	Special Topics in Criminology and Criminal Justice: Women and Crime
SOCY498W	Special Topics in Sociology: Women in the Military

*Fulfills Women's Studies Cultural Diversity Requirement

3. Courses in Cultural Diversity (3 credit hours)

Students will select one course for a minimum of 3 credit hours. Approved courses are noted with an asterisk in section 2, above. Courses in this category may overlap with other requirements.

4. Remaining Courses

The remaining courses may be chosen from any of the three distributive areas or from among any of the WMST courses including WMST 298 or 498: Special Topics and WMST 499: Independent Study.

Advising

To obtain more information, contact the Undergraduate Advisor, 301-405-6827, or write to the Women's Studies Department, 2101 Woods Hall, University of Maryland, College Park, MD 20742.

The policy below is current as of this publication. For more information and possible updates go to:
<http://president.umd.edu/administration/policies/section-iii-academic-affairs/iii-630a>

III-6.30(A) UNIVERSITY OF MARYLAND POLICY AND PROCEDURES ON THE DISCLOSURE OF STUDENT EDUCATION RECORDS

APPROVED BY THE PRESIDENT 1 AUGUST 1991; updated April 15, 1996, June 2, 1997, and October 1, 2002 by President's Legal Office.

I. POLICY

It is the policy of UMCP to comply with the requirements of the Federal Family Educational Rights and Privacy Act, known as the Buckley Amendment, concerning the disclosure of student records. Following is an outline of the policy, and an explanation of the procedures by which students may obtain access to education records. A copy of this policy shall be furnished annually to each student with registration materials.

II. DEFINITIONS

"Attendance" includes but is not limited to attendance in person or by correspondence; and the period during which a person is working under a work-study program.

"Directory Information" means information which would generally not be considered harmful or an invasion of privacy if disclosed. It includes, but is not limited to, a student's name, address, telephone listing, e-mail address, date and place of birth, major field of study, full-time/part-time status, participation in officially recognized activities and sports, weight and height of athletic teams, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended.

"Disclosure" means to permit access to or the release, transfer, or other communication of education records to any party by any means, including oral, written, or electronic means.

"Education Records" means those records maintained by UMCP which contain information directly related to a student except:

1. Records made by instructors, professors, and administrators for their own use, and not shown to others.
 2. Records maintained by UMCP Police solely for law enforcement purposes and kept separately from the education records described above.
 3. Records of employment which relate exclusively to the individual in that individual's capacity as an employee, and are not available for use for any other purpose.
(NOTE: If a currently enrolled student is employed as a result of his or her status as a student, records relating to that employment are education records.)
-

4. Records on a student who is eighteen years of age or older made by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional made or used only for treatment purposes and available only to persons providing treatment. (**NOTE:** Treatment for the purposes of this definition does not include remedial educational activities.)
5. Alumni records which contain only information relating to a person's activities after that person is no longer a student at UMCP and do not relate to that person as a student.

"Parent" means a parent of a student, and includes a natural or adoptive parent, a guardian, or, in the absence of natural or adoptive parents, an individual acting as a parent.

"Party" means an individual, agency, institution, or organization.

"Personally identifiable information" means a student's name, a name of a student's parent or family members, an address of a student or a student's family, a personal identifier, such as a social security number or student number, a list of personal characteristics or any information that would make a student's identity traceable.

"Record" means any information recorded in any way including but not limited to handwriting, print, tape, film, microfilm, and microfiche.

"Student" means any individual who is or has been in attendance at UMCP and on whom education records are maintained.

III. RIGHT OF ACCESS

Each student in attendance at UMCP has a right to inspect and review his or her education records.

A. Procedure

1. Form of Request

Requests for access to education records must be made in writing, signed by the student, and must include the student's social security number.

2. Place of Request

Requests are made to:

Registrar's Office
Clarence Mitchell Building
College Park, Maryland 20742-5231

3. Response by UMCP

UMCP will comply with a request for access within a reasonable time, not to exceed 45 days. Whenever possible, arrangements shall be made for the student to read his or her records in the presence of a staff member.

4. Reproduction of Records

A student may ordinarily obtain copies of education records by paying the cost of reproduction. The fee for photocopies is \$.25 per page. There is no charge for staff time to search for or collect education records. Only copies of a student's current UMCP transcript will be provided. Official University of Maryland transcripts with the seal of the University will be provided at a higher cost.

B. Types and Locations of Education Records Maintained at UMCP

(NOTE: All requests must be routed through the Registrar's Office.)

1. Admissions

Applications and transcripts from institutions previously attended.

a. Undergraduate:

Director of Admissions
Mitchell Building

b. Graduate:

Director of Graduate Records
Lee Building

2. Registrations

All on-going academic and biographical records, undergraduate and graduate:

Director of Registrations
Mitchell Building

3. Departments

-
- Departmental Offices
 - Chair of the Department
 - 4. Deans
 - Miscellaneous records
 - Dean's office of each school
 - 5. Resident Life
 - Student's housing records
 - Director of Resident Life
 - 6. Advisors
 - Letters of evaluation, personal information sheet, transcript, test scores (with student permission).
 - Pre-law advisor: Hornbake Library
 - Pre-dental advisor: Hornbake Library
 - Pre-medical advisor: Hornbake Library
 - 7. Judicial Affairs
 - Student's judicial and disciplinary records
 - Director of Judicial Programs
 - Mitchell Building
 - 8. Counseling Center
 - Biographical data, summaries of conversations with students, test results
 - Director
 - Shoemaker Hall
- (NOTE: Where records are used only for treatment purposes, they are not education records and are not subject to this policy.)
- 9. Financial Aid
 - Financial Aid applications, needs analysis statements, awards made
 - Undergraduate:
 - Director of Financial Aid
 - Lee Building
 - Graduate:
 - Deans' Offices
- (NOTE: There is no student access to parents' confidential statements.)
- 10. Career Development Center
 - Recommendations, unofficial copies of academic records
 - Director
 - Hornbake Library
 - 11. Office of the Bursar
 - Student accounts receivable, records of students' financial charges and credits with UMCP
 - Bursar
 - Lee Building

C. Waiver of Access to Confidential Recommendations

A student may waive the right of access to confidential recommendations in the following areas:

1. admission to any educational institution;
2. job placement;
3. receipt of honors and awards.

The waiver must be in writing, and UMCP shall not require such waivers as a condition to admission, or the receipt of any service or benefit. If right of access is waived, a student will be notified, upon written request, of the names of all persons making confidential recommendations. Such recommendations shall be used only for the purpose for which

they were specifically intended. A waiver may be revoked in writing at any time, and will only apply to subsequent recommendations.

IV. DISCLOSURE OF PERSONALLY IDENTIFIABLE INFORMATION

It is the policy of UMCP to limit disclosure of personally identifiable information without a student's prior written consent, subject to the following limitations and exceptions:

A. Directory Information (defined above)

1. This information may be disclosed and may appear in public documents unless a student files a written notice not to disclose any or all of the information within three weeks of the first day of the semester in which the student begins each year. This notice must be filed annually with the Registrar's Office within the allotted time to avoid automatic disclosure of directory information
2. Students will be given annual notice of the categories of information designated as directory information.

B. Prior Consent Not Required

Prior consent is not required for disclosure of education records to the following parties:

1. School officials of UMCP who are or may be in a position to use the information in furtherance of a legitimate educational objective.

A school official is:

- a. A person employed by the University of Maryland System in an administrative, supervisory, academic, research or support staff position.
- b. A member of the Board of Regents.
- c. A person employed by or under contract to the University to perform a special task, such as an attorney or auditor.

A school official has a legitimate educational interest if the official is:

- a. Performing a task that is specified in his or her position description or by a contract agreement.
- b. Performing a task related to a student's education.
- c. Performing a task related to the discipline of a student.
- d. Providing a service or benefit relating to the student's family, such as health care, counseling, job placement, or financial aid.

2. Officials of other schools in which a student seeks or intends to enroll or is enrolled. A student will be provided with a copy of the records which have been transferred upon request and payment of copying fees as described above.

3. Authorized representatives of the Comptroller General of the United States, the Secretary of Education, the Commissioner of the Office of Education, the Director of the National Institute of Education, the Administrator of the Veterans' Administration, the Assistant Secretary of Education, and State educational authorities, but only in connection with the audit or evaluation of federally supported education programs, or in connection with the enforcement of or compliance with federal legal requirements relating to these programs. Subject to controlling federal law, these officials will protect information received so as not to permit personal identification of students to outsiders.

4. Authorized persons and organizations who are given work in connection with a student's application for or receipt of financial aid to the extent necessary.

5. State and local officials to which such information is required to be reported by effective state law adopted prior to November 19, 1974.

6. Organizations conducting education studies for the purpose of developing, validating, or administering predictive tests, administering student programs, and improving instruction. The studies shall be conducted so as not to permit personal identification of students to outsiders, and the information is to be destroyed when no longer needed for these purposes.

7. Accrediting organizations for purposes necessary to carry out their functions.

8. Parents of a student who is dependent for income tax purposes.

9. Appropriate parties in connection with an emergency, where knowledge of the information is necessary to protect the health or safety of the student or other individuals.

10. In response to a court order or subpoena. Unless the issuing entity orders the university against prior notification, the university will make reasonable efforts to notify the student before complying with the court order.

11. To an alleged victim of any crime of violence of the results of any institutional disciplinary proceedings against the alleged perpetrator of that crime with respect to that crime.

C. Prior Consent Required In All Other Cases

UMCP will not release personally identifiable information in education records, or allow access to those records without prior consent from the student. The consent must be in writing, signed by the student, and dated. The student must specify the records to be disclosed, the identity of the recipient, and the purpose of the disclosure. A copy of the record disclosed will be provided to the student upon request and payment of copy fees described above.

D. Record of Disclosures**1. Maintenance of List**

UMCP shall maintain a list of each request and each disclosure of personally identifiable information with each student's education records. The list shall include:

- a. the parties who have requested or received the information;
- b. the legitimate interest the parties had in requesting or receiving the information.

2. Inspection of List

The list of disclosures may be inspected by:

- a. the student;
- b. the official custodian of the record; and
- c. other UMCP and governmental officials.

3. Exceptions

The following disclosures are not listed:

- a. disclosures to the student;
- b. disclosures pursuant to written consent;
- c. disclosures to instructional or administrative officials of UMCP;
- d. disclosures of directory information.

V. CORRECTION OF EDUCATION RECORDS

It is the policy of UMCP to provide students the opportunity to seek corrections to education records which are believed to be inaccurate, misleading, or which violate the right to privacy or other rights.

A. Request to Correct an Education Record

1. A request must be in writing to the Registrar's Office.
2. A request must contain:
 - a. the specific document(s) being challenged; and
 - b. the basis for the challenge.
3. UMCP shall decide within a reasonable time whether to amend the document(s). The student shall be notified of the decision in writing, and if the decision is to refuse to amend, the student shall be notified of the right to a hearing.

B. Right to a Hearing

Upon request, a student shall be provided an opportunity for a hearing to challenge the content of education records. A request for a hearing must be made in writing to the Registrar's Office. Within a reasonable time, the student shall be notified in writing of the date, place, and time. The student shall be given reasonable advance notice of the hearing.

C. Conduct of Hearing

1. The hearing shall be conducted by a UMCP official with no direct interest in the outcome.
2. The student shall have a full and fair opportunity to present evidence, and may be represented by individuals of his or her choice, including an attorney. The cost for such representation shall be the responsibility of the student.

D. Decision

1. The student shall be notified in writing within a reasonable amount of time.
 2. The decision is to be based solely upon evidence presented at the hearing, and must include a summary of the basis of the decision.
 3. In cases where the challenged information is found to be inaccurate, misleading, or otherwise in violation of the privacy or other rights of the student, the education records shall be amended accordingly within a reasonable time.
-

4. In cases where the challenged information is not found to be inaccurate, misleading, or otherwise in violation of the privacy or other rights of a student, the student shall be informed in writing of the right to place in the challenged record a statement commenting on the information and explaining any reasons for disagreeing with the decision.
5. The statements described above shall be kept as part of the student's record and disclosed whenever that portion of the record is disclosed.

VI. RIGHT TO FILE A COMPLAINT

Student alleging noncompliance with the Family Educational Rights and Privacy Act may file a complaint with the Department of Education, 600 Independence Avenue, S.W., Washington, D.C. 20202-4605.

Appendix G: STATUTE OF LIMITATIONS FOR THE TERMINATION OF DEGREE PROGRAMS

*Committee on Academic Procedures and Standards
Approved December 7, 1989*

The following policies apply to all undergraduate degree programs terminated at the University of Maryland at College Park at the beginning of the Spring, 1990 Semester and thereafter.

1. All students enrolled at the University of Maryland, College Park or at a Maryland community college program articulated with the terminated degree program during the semester in which the program is terminated must complete the major requirements of the terminated degree program within five calendar years of the date upon which the program is terminated. If only a few students are enrolled in a terminated program, a shorter time limit may be imposed based on a study of the academic records of all students enrolled in the program. If a shorter time period is imposed, all students enrolled in the program will be notified of its length.
2. Students who, prior to the termination date had been enrolled in the terminated program or a Maryland community college articulated with the terminated program, but who subsequently interrupt their studies at the University of Maryland, College Park or the community college for one or more semesters will be allowed to enter or re-enter the program only if a careful analysis of their records by the appropriate dean indicates they will be able to complete the major requirements of the terminated program within the remaining time period specified.
3. When a program is terminated the University of Maryland, College Park will make a good faith effort to notify those students who had interrupted their studies in that program. As part of that good faith effort, the University of Maryland at College Park will publish in its re-enrollment forms, catalogues, and schedules of classes a statement advising returning students that programs may have been terminated and that the student needs to check the current status of the program.
4. At the end of the time period specified for completion of major requirements after the termination date of the program, the relevant department or college will evaluate the records of each student enrolled in the program for fulfillment of departmental major requirements and will notify students whether they have completed these requirements. Such notice shall be in writing and sent to the student's last known addresses.
5. When a degree program is terminated, the university will send notification of the time limit for completion of the major requirements to all students enrolled in the program at that time. It will also attempt to send notification to students who interrupted their studies while enrolled in the program in the preceding three years, insofar as such students can reasonably be identified. This notification will be sent to the students' last known addresses on file with the university. Such

notifications also will be sent to the Maryland community colleges having programs articulated with the terminated program.

Appendix H: POLICY ON STUDENT CLASSIFICATION FOR ADMISSION AND TUITION PURPOSES VIII-2.70

The policy below is current as of this publication. For more information and possible updates go to:

www.usmd.edu/regents/bylaws/SectionVIII/viii270r.pdf

VIII-2.70 POLICY ON STUDENT CLASSIFICATION FOR ADMISSION AND TUITION PURPOSES

(Approved by the Board of Regents August 28, 1990; Amended July 10, 1998; Amended November 27, 2000; Amended April 11, 2003; Amended June 23, 2006; Amended February 15, 2008, Amended October 24, 2014; Amended April 10, 2015)

I. POLICY

A. Purpose

To extend the benefits of its system of higher education while encouraging the economical use of the State's resources,¹ it is the policy of the Board of Regents of the University System of Maryland (USM) to recognize the tuition categories of in-state and out-of-state students for the purpose of admission and assessing tuition at USM institutions.

B. Burden of Proof

The person seeking in-state status shall have the burden of proving by clear and convincing evidence that he or she satisfies the requirements and standards set forth in this Policy. Assignment of in-state or out-of-state status will be made by the applicable USM institution upon a review of the totality of facts known or presented to it.

C. In-state Status

To qualify for in-state tuition, a student must demonstrate that, for at least twelve (12) consecutive months immediately prior to and including the last date available to register for courses in the semester/term for which the student seeks in-state tuition status, the student had the continuous intent to:

1. Make Maryland his or her permanent home; and
2. Abandon his or her former home state; and
3. Reside in Maryland indefinitely; and
4. Reside in Maryland primarily for a purpose other than that of attending an educational institution in Maryland.

Satisfying all of the requirements in Section II (and Section III, when applicable) of this policy demonstrates continuous intent and qualifies a student for in-state tuition. Students not entitled to in-state status under this policy shall be assigned out-of-state status for admission and tuition purposes.

D. Presumption

Either of the following circumstances raises a presumption that the student is residing in the State of Maryland primarily for the purpose of attending an educational institution and therefore, does not qualify for in-state status under this policy:

1. A student is attending school or living outside Maryland at the time of application for admission to a USM institution, or
2. A student is Financially Dependent on a person who is not a resident of Maryland.

This presumption may be rebutted. The student bears the burden of rebutting the presumption. See "

II. REQUIREMENTS

Before a request for classification to in-state status will be considered, a student must comply with all of the following requirements for a period of at least twelve (12) consecutive months immediately prior to and including the last date available to register for courses in the semester/term for which the student seeks

in-state tuition status. The student must demonstrate he or she:

- A. Owns or possesses, and has continuously occupied, including during weekends, breaks and vacations, living quarters in Maryland. The student must provide evidence of a genuine deed or lease and documentation of rent payments made. In lieu of a deed or lease, a notarized affidavit from a landlord showing the address, name of the student as occupant, term of residence, and history of rent payments made will be considered. As an alternative, a student may demonstrate that he or she shares living quarters in Maryland which are owned or rented and occupied by a parent, legal guardian or spouse.
- B. Has substantially all of his or her personal property, such as household effects, furniture and pets in Maryland.
- C. Has paid Maryland income tax on all taxable income including all taxable income earned outside the State and has filed a Maryland tax return.
- D. Has registered all owned or leased motor vehicles in Maryland.
- E. Possesses a valid Maryland driver's license, if licensed.
- F. Is registered to vote in Maryland, if registered to vote.
- G. Receives no public assistance from a state other than the State of Maryland or from a city, county or municipal agency other than one in Maryland.
- H. Has a legal ability under Federal and Maryland law to live permanently without interruption in Maryland.
- I. Has rebutted the presumption that he or she is in Maryland primarily to attend an educational institution, if the student's circumstances have raised the presumption.

III. REBUTTAL EVIDENCE

Satisfying the requirements listed in paragraphs 1-8 of Section II, does not rebut the presumption that a student is in Maryland primarily to attend an educational institution. To overcome the presumption, a student must present additional evidence.

To determine a student's intent, the University will evaluate evidence of a student's objectively verifiable conduct. Evidence that does not document a period of at least twelve (12) consecutive months immediately prior to and including the last date available to register for courses in the semester/term for which the student seeks in-state tuition status is generally considered an unfavorable factor under this policy. Evidence of intent must be clear and convincing and will be evaluated not only by the amount presented but also based upon the reliability, authenticity, credibility and relevance of the evidence.

The absence of objective, relevant evidence is generally considered an unfavorable factor. A student's statement of intent to remain in Maryland in the future is generally not considered to be objective evidence under this policy.

Additional evidence that will be considered includes, but is not limited to, the following:

- A. Source of financial support:
 - i. Maryland employment and earnings history through sources beyond those incident to enrollment as a student in an educational institution e.g., beyond support provided by work study, scholarships, grants, stipends, aid, student loans, etc. (Tuition costs will be considered as a student expense only to the extent tuition exceeds the amount of any educational scholarships, grants, student loans, etc.) or
 - ii. Evidence the student is Financially Dependent upon a person who is a resident of Maryland.
- B. Substantial participation as a member of a professional, social, community, civic, political, athletic or religious organization in Maryland, including professionally related school activities that demonstrate a commitment to the student's community or to the State of Maryland.
- C. Registration as a Maryland resident with the Selective Service, if male.
- D. Evidence showing the student uses his or her Maryland address as his or her sole address of record for all purposes including on health and auto insurance records, bank accounts, tax records, loan and scholarship records, school records, military records, leases, etc.
- E. An affidavit from a person unrelated to the student that provides objective, relevant evidence of a

student's conduct demonstrating the student's intent to live permanently in Maryland.

IV. NON-RESIDENTS WHO MAY TEMPORARILY QUALIFY FOR IN-STATE STATUS

In addition, persons with the following status shall be accorded the benefits of in-state status for the period in which they hold such status:

- A. A full-time or part-time (at least 50 percent time) regular employee of USM or a USM institution.
- B. The spouse or Financially Dependent child of a full-time or part-time (at least 50 percent time) regular employee of USM or a USM institution.
- C. An active duty member of the Armed Forces of the United States who is stationed in Maryland, resides in Maryland, or is domiciled in Maryland, or the spouse or a Financially Dependent child of such an active duty member. Spouses and children who qualify for exemptions under this provision will retain in-state status for tuition purposes as long as they are continuously enrolled, regardless of whether the active duty member's station assignment, residence, or domicile remains in Maryland.²
- D. A veteran of the Armed Forces of the United States who provides documentation that he or she was honorably discharged and currently resides or is domiciled in Maryland.³
- E. A veteran who lives in Maryland and was discharged" from a period of at least 90 days of service in the active military, navy, or air service less than three years before the date of the veteran's enrollment and is pursuing a course of education with educational assistance under 38 U.S.C. §3001 or 38 U.S.C. §3301.⁴
- F. The spouse or child of a veteran, provided that:
 - (1) the veteran was discharged or released from a period of at least 90 days of service in the active military, navy, or air service less than three years before the date of the spouse or child's enrollment (or in the case of a spouse or child seeking benefits under the Post-9/11 G.I. Bill, the veteran died in the line of duty on or after September 11, 2001 but less than three years before the date of enrollment);
 - (2) the spouse or child is entitled to assistance under Post-9/11 G.I. Bill, , 38 U.S.C. §3319 and, 38 U.S.C. §3311(B)(9);
 - (3) the spouse or child currently lives in Maryland; and
 - (4) the spouse or child is pursuing a course of education with educational assistance under 38 U.S.C. §3001 or 38 U.S.C. §3301.⁵
- G. A member of the Maryland National Guard, as defined in the Public Safety Article of the Maryland Annotated Code, who joined or subsequently serves in the Maryland National Guard to: (i) provide a critical military occupational skill; or (ii) be a member of the Air Force Critical Specialty Code as determined by the National Guard.
- H. For UMUC, a full-time active member of the Armed Forces of the United States on active duty, or the spouse of a member of the Armed Forces of the United States on active duty.
- I. A graduate assistant appointed through a USM institution for the semester/term of the appointment. Except through prior arrangement, this benefit is available only for enrollment at the institution awarding the assistantship.

V. PROCEDURES

- A. An initial determination of in-state status will be made at the time of admission. The determination made at that time, and any determination made thereafter, shall prevail for each semester/term until the determination is successfully challenged in a timely manner.
- B. A change in status must be requested by submitting a USM institution's "Petition for Change in Classification for Tuition". A student applying for a change to in-state status must furnish all evidence that the student wishes the USM institution to consider at the time the petition is due. The due date is based on the deadline set forth by the USM institution at which the student seeks to enroll. If the applicable USM institution has no such deadline, the due date is the last published date to register for the forthcoming semester/term for which the change in classification is sought.
- C. The student shall notify the USM institution in writing within fifteen (15) days of any change in circumstances which may alter in-state status.
- D. In the event incomplete, false, or misleading information is presented, the USM institution

may, at its discretion, revoke in-state status and take disciplinary action provided for by the institution's policy. Such action may include suspension or expulsion. If in-state status is gained due to false or misleading information, the institution reserves the right to retroactively assess all out-of-state charges for each semester/term affected.

E. Each USM institution shall develop and publish additional procedures to implement this Policy. Procedures shall provide that on request the institution President or designee has the authority to waive any requirement set forth in Section II if it is determined that the application of the requirements creates an unjust result. These procedures shall be filed with the Office of the Chancellor.

VI. DEFINITIONS

A. Financially Dependent: For the purposes of this policy, a financially dependent student is one who is claimed as a dependent for tax purposes.

B. Parent: A parent may be a natural parent, or, if established by a court order recognized under the law of the State of Maryland, an adoptive parent.

C. Guardian: A guardian is a person so appointed by a court order recognized under the law of the State of Maryland.

D. Spouse: A spouse is a partner in a legally contracted marriage.

E. Child: A child is a natural child or a child legally adopted pursuant to a court order recognized under the law of Maryland.

F. Regular Employee: A regular employee is a person employed by USM or a USM institution who is assigned to a State budget line or who is otherwise eligible to enroll in a State retirement system. Examples of categories NOT considered regular employees are graduate students, contingent employees, and independent contractors.

G. Continuous Enrollment:

i. Undergraduate Student - An undergraduate student who is enrolled at a USM institution for consecutive fall and spring semesters, until completion of the student's current degree program or unless on an approved leave of absence or participating in an approved program off-campus.

ii. Graduate and Professional - Continuous enrollment for a graduate or professional student is defined by the institution in accordance with program requirements.

VII. IMPLEMENTATION

This policy as amended by the Board of Regents on April 10, 2015 shall be applied to all student tuition classification decisions EFFECTIVE JULY 1, 2015 AND THEREAFTER.

¹ Annotated Code of Maryland, Education Article, §12-101.

² Annotated Code of Maryland, Education Article § 15-106.4.

³ Annotated Code of Maryland, Education Article § 15-106.4.

Appendix I: UNIVERSITY OF MARYLAND POLICY ON THE CONDUCT OF UNDERGRADUATE COURSES AND STUDENT GRIEVANCE PROCEDURE V-1.00(A)

<http://president.umd.edu/administration/policies/section-v-student-affairs/v-100a-0>

Appendix J: UNIVERSITY OF MARYLAND PROCEDURES FOR REVIEW OF ALLEGED ARBITRARY AND CAPRICIOUS GRADING--UNDERGRADUATE STUDENTS III-1.20(B)

<http://president.umd.edu/administration/policies/section-iii-academic-affairs/iii-120b>

Appendix K: POLICY ON PARTICIPATION BY STUDENTS IN CLASS EXERCISES THAT INVOLVE ANIMALS

Students who are concerned about the use of animals in teaching have the responsibility to contact the instructor, prior to course enrollment, to determine whether animals are to be used in the course, whether class exercises involving animals are optional or required and what alternatives, if any, are available. If no alternatives are available, the refusal to participate in required activities involving animals may result in a failing grade in the course. Departments including courses where animals are used must actively inform students of such courses, including, but not limited to, notices in the Catalog.

The University of Maryland, College Park campus, affirms the right of the faculty to determine course content and curriculum requirements. The University, however, also encourages faculty to consider offering alternatives to the use of animals in their courses. In each course, the instructor determines whether the use of animals in the classroom exercises will be a course requirement or optional activity. The following departments have courses that may require animals to be used in class activities: Animal and Avian Sciences, Cell Biology and Molecular Genetics, Psychology, Veterinary Medicine, Biology, and courses with the NFSC prefix.

*Committee on Academic Procedures and Standards
April 27, 1990*

Appendix L: COMPLETION OF INTERRUPTED DEGREE

Students whose registration at the University of Maryland, College Park, has lapsed for more than 10 years shall be required to complete a minimum of 15 credit hours at College Park after their return to campus in order to earn a baccalaureate degree.

Recommendations about courses needed to satisfy the remaining degree requirements will be made at the department level, with approval of the Dean's Office required. The reason for requiring these credits is that many fields change sufficiently in 10 years to require that students take current courses if they are to be awarded a current degree. Exceptions to the requirement for a minimum of 15 credits earned at College Park upon return to the campus can be recommended by the Deans for approval in the Office of the Vice President for Academic Affairs.

*College Park Senate
October 1995*

Appendix M: UNIVERSITY OF MARYLAND POLICY ON THE COLLECTION, USE AND PROTECTION OF ID NUMBERS VI-26.00(A)

The policy below is current as of this publication. For more information and possible updates go to:

<http://president.umd.edu/sites/president.umd.edu/files/documents/policies/VI-2600a.pdf>

VI-26.00(A) UNIVERSITY OF MARYLAND POLICY ON THE COLLECTION,
USE AND PROTECTION OF ID NUMBERS

(Approved by the President May 31, 2005; Technical Amendment November 7, 2013)

I. Purpose:

The University of Maryland is dedicated to ensuring the privacy and proper handling of confidential information relating to students, faculty, staff and individuals associated with the University.

Traditionally, the Social Security Number (SSN) has been used as a common "person" identifier and the key to University "person" databases. The purpose of this policy is to authorize the creation of new methods of unique identification that will replace reliance on the SSN and allow for easy identification of a person for University transactions.

II. Policy

Use of the SSN as an identifier will be discontinued, except where required for employment, IRS reporting, Office of Institutional Research, Planning & Assessment, federal student financial aid processing, state and federal reporting and a limited number of other business transactions.

While the SSN will be collected and retained as authorized by law, it will not be used for routine identification or authentication purposes. Instead, a unique, nine digit university identification number called U ID Number will be assigned to each individual. For computer access, individuals will also have a unique Directory ID. For complete authentication, these identifiers (U ID Number and Directory ID) are accompanied by the use of a PIN or password.

III. Policy Implementation

1. The University of Maryland prohibits the use of a person's SSN as a publicly visible identification number for University-related transactions, unless specifically required by law or business necessity. A listing of currently approved uses is provided in Appendix A. This list is subject to change.
2. The University of Maryland will use SSN as a data element but not as a key for access to databases.
3. Each member of the University community will be assigned a unique identification number that will not be the same as nor derived from the individual's SSN. This number is called the U ID Number.
4. Software systems purchased or developed by the University of Maryland will not display a SSN either in read-only format or on print or other system output, unless authorized by law or business necessity.
5. Name and directory systems, purchased or developed by the University of Maryland, will be keyed for access by an individual's unique U ID Number, not the SSN.
6. When databases need to utilize SSN, they will use secure conversion tables or other technical mechanisms that automatically cross-reference SSN and other information within systems. In exceptional circumstances, it may be necessary to use SSN as an alternate search field. All such cases shall be referred to the data custodian (Registrar's Office for students, UHR for employees) who shall seek approval from the University Data Policy Advisory Committee (DPAC) DPAC has a strict procedure for reviewing and approving requests for the use of SSN in any campus application or database. Justifications must be submitted to the appropriate divisional DPAC representative for committee review and consideration of approval. In addition, any transmission of data containing SSN over any communication network must be transmitted using a secure methodology.
7. Systems or technology developed or purchased by the University of Maryland after the effective date of this policy shall comply with these provisions.
8. For computer access or login purposes, members of the University community will also be assigned a Directory ID. The Directory ID will be used as a standard identifier for all computer resource authentication purposes but individuals may also be allowed to authenticate by using their U ID Number.
9. Campus validation of University of Maryland photo ID cards will be by reference to either the holder's U ID Number or bar code.

Timeframe for Implementation: The University of Maryland recognizes that some of its major systems are currently keyed for access to SSN as an identifier and that the conversion of all systems will take time and resources. The expectation is that there will be a steady and purposeful movement away from dependency on SSN. Appropriate interim measures may be developed until such time as the conversion to U ID Numbers is complete.

"Legacy" Data: The University recognizes that the SSN must be retained and used as a person identifier in older "legacy" data pertaining to ex-students and ex-employees as it is impractical to assign U ID numbers to these individuals.

Protection of ID Data Held in Secondary or Derivative Data Files: Any University office that collects and maintains an individual's social security number in any media must:

- 1) Ensure that the number is stored in a secure and confidential environment; 2) eliminate using the number for any purpose except those specifically addressed in this policy; 3) begin a steady and purposeful movement away from its dependency on the SSN in performing its functions and processes; and 4) follow University guidelines for the retention and destruction of records containing the SSN.

Notification Requirement: Any University office that collects SSN from an individual must provide a disclosure statement approved by the Data Policy Advisory Committee. Notifications for students, employees, and affiliates/guests are provided in Appendix B.

APPENDIX A

Uses for Social Security Numbers (SSN) (Subject to change)

Employment: The SSN is required for a variety of employment matters; such as tax withholding, FICA, Medicare, etc. SSN may also be used and maintained if it is supplied by an employee as documentation when completing the Federal I-9 Employment Authorization Form.

Application and Receipt of Financial Aid: Any student who applies for student aid by use of the federal Free Application For Student Assistance (FAFSA) is required to provide his SSN. Students are also required to provide SSNs when applying for student education loans.

Tuition Remission: The SSN is required for state reporting of taxable tuition remission benefits received by employees, their spouses and dependents, and by graduate assistants.

Veterans Administration Benefits: The SSN is required for enrollment verification and reporting on all Veterans Administration beneficiaries.

IRS Reporting: The SSN is used for producing federally required 1098-T forms, which report the amount of tuition paid to the University during the tax year. Copies of these forms are mailed to students each year, and the information reported to the IRS. In addition, the University reports the value of all taxable and non-taxable scholarships and grants awarded to non-resident aliens to the IRS.

Inter-Institutional Communication and Information Exchange: Many institutions, including postsecondary educational institutions, use the SSN as a student identifier. To ensure the accuracy of inter-institutional data exchanges (transcripts, transfer credit evaluations, USM ArtSys data base, MHEC, etc.) the SSN may be used for the exchange of information from student academic records between appropriate institutions including other colleges and universities.

Tracking Name Changes of Students and Alumni: The SSN is also used internally to track name changes of students and alumni of the University.

APPENDIX B

REQUIRED DISCLOSURE STATEMENTS

Student Notification

“Use of Social Security Number (SSN) - Students

Section 15-110 of the Education Article of the Annotated Code of Maryland prohibits the use of SSN on University identification cards. Section 7(b) of the Privacy Act of 1974 (5 U.S.C. 522a) and section 10-624 of the State Government Article of the Annotated Code of Maryland, also require that when any Federal, State, or local government agency requests an individual to disclose his or her Social Security Number (SSN), that individual must also be advised whether the disclosure is mandatory or voluntary, by what statutory or other authority the number is solicited, what use will be made of it, the specific consequences for failure to provide the information, whether the information is generally available for public inspection and whether the information is made available or transferred to or shared with any entity other than the University.

Accordingly, each applicant for admission is advised that disclosure of his or her SSN is required as a condition for making application to the University of Maryland for purposes of administering federal financial aid programs and complying with various State and Federal reporting requirements including reporting to the IRS. The University may use a student's SSN to accurately report federally required data, to generate various federal tax and financial aid reports, and to ensure the accuracy of student data that is exchanged within the University of Maryland, between post-secondary education institutions, with the University System of Maryland and other outside entities as necessary or required for the conduct of legitimate University business and consistent with applicable law. The SSN will be maintained in a secure and confidential manner and not be re-disclosed for any other purpose.

The authority for requesting disclosure of a student's SSN is grounded in various federal laws including but not limited to: 42 USC 405c, affecting wage reporting and withholdings; 34 CFR

668.14 and 34 CFR 668.16, relating to student aid programs; and 26 CFR 1.6050S-1, addressing Internal Revenue Code reporting requirements pertaining to tuition payments.

In addition, it should be noted that the SSN of a parent, guardian or spouse of an applicant is also requested if the student claims dependency on that person for financial aid or residency for tuition purposes. A parent, guardian or spouse is advised that disclosure of his or her SSN is necessary for the above student purpose and failure to provide it may affect the student's financial aid or tuition status. A parent's, guardian's or spouse's SSN will only be used for the purpose for which it was collected and will not be maintained in any other system of records.

A unique U ID Number is assigned to students as part of their initial application to the University and is used for all University identification purposes.”

Employee Notification

“Use of Social Security Number (SSN) – Employees

Section 7(b) of the Privacy Act of 1974 (5 U.S.C. 522a) and section 10-624 of the State Government Article of the Annotated Code of Maryland, requires that when any Federal, State, or local government agency requests an individual to disclose his or her social security number, that individual must also be advised whether the disclosure is mandatory or voluntary, by what statutory or other authority the number is solicited, what use will be made of it, the specific consequences for failure to provide the information, whether the information is generally available for public inspection and whether the information is made available or transferred to or shared with any entity other than the University .

Accordingly, each employee is advised that disclosure of his or her SSN is required as a condition of employment at the University of Maryland in complying with State and Federal employment matters including but not limited to, the withholding and reporting of State and Federal income tax, FICA, and Medicare insurance tax. Additionally, the SSN may be used and maintained, when supplied by an employee, as documentation for completing the Federal I-9 Employment Authorization Form. The employee’s SSN will be used to accurately record state and federal required data as necessary or required for the conduct of legitimate University business and consistent with applicable law. This number will be maintained in a secure and confidential manner and not be re-disclosed for any other purpose.

The authority for requesting disclosure of an employee’s SSN is grounded in various federal laws including but not limited to, 42 U.S.C. 405c, affecting wage reporting and withholdings.

Efforts to limit the use of SSN include the issuance of a unique U ID Number that is assigned to all employees as part of their initial employment and will be used for all University identification purposes.”

Affiliates Notification

“Use of Social Security Number (SSN) – Affiliates/Guests who receive University services and are not students, employees, or non-paid appointees.

Section 7(b) of the Privacy Act of 1974 (5 U.S.C. 522a) and section 10-624 of the State Government Article of the Annotated Code of Maryland, requires that when any Federal, State, or local government agency requests an individual to disclose his or her social security number, that individual must also be advised whether the disclosure is mandatory or voluntary, by what statutory or other authority the number is solicited, what use will be made of it, the specific consequences for failure to provide the information, whether the information is generally available for public inspection and whether the information is made available or transferred to or shared with any entity other than the University .

Accordingly, each affiliate/guest is advised that disclosure of his or her SSN is requested as a condition of applying for services from the University of Maryland for the purpose of administering those services. The University may use an affiliate or guest’s SSN to accurately identify affiliates/guests, to coordinate services administered by different departments, and to ensure accuracy of data as necessary for the conduct of legitimate University Business and consistent with applicable law. The SSN will be maintained in a secure and confidential manner and not be re-disclosed for any other purpose.

A unique U ID Number is assigned to affiliates/guests as part of their initial request to receive University services and is used for all University identification purposes.”

Appendix P: UNIVERSITY OF MARYLAND IMMUNIZATION POLICY V-1.00(H)

The policy below is current as of this publication. For more information and possible updates go to:
<http://president.umd.edu/administration/policies/section-v-student-affairs/v-100h>

(Approved by the President August 1, 1991; revised June 1, 2000; amended February 4, 2014)

I. Policy.

The University enforces a mandatory pre-matriculation immunization requirement to reduce the incidence and risk of vaccine-preventable disease in the university community. This policy meets the regulatory requirements of the State of Maryland Department of Health and Mental Hygiene. It is also consistent with the recommendations for pre-matriculation immunizations of the Advisory Committee on Immunization Practices (ACIP) of the U.S. Center for Disease Control and Prevention, and the American College Health Association.

II. Applicability.

This policy applies to all undergraduate and graduate degree and non-degree seeking students, regardless of credit hours, taking courses on campus at the University's main campus or any of its satellite locations. Students taking courses online, overseas, or at their place of employment if employment is off-campus, are exempt from this policy.

III. Immunization Requirements.

A. All students to whom this policy applies shall be required to provide proof of 2 MMR immunizations or 2 measles, 1 mumps, 1 rubella and tetanus/diphtheria/pertussis (Td/Tdap) within the past 10 years. These immunization requirements do not apply to students born before 1957. Students living in on-campus residence halls must also provide proof of meningococcal vaccine within 5 years of matriculation, or sign the waiver on the University's immunization form.

B. An immunization form must be completed and returned to the Health Center prior to the first day of classes.

C. Students in noncompliance with this requirement shall be unable to drop/add classes or register for their second semester. This restriction shall be lifted by the University Health Center upon receipt of the required information or the granting of an approved waiver as described in Section D.

D. Exemptions:

1. A student who objects to immunization upon the grounds that it conflicts with his or her bonafide religious beliefs and practices may not be required to present a physician's certificate of immunization in order to register for classes. A religious exemption may be obtained by submitting the request to the Director of the Health Center. In case of an epidemic or disease outbreak, declared by the State of Maryland Secretary of Health and Mental Hygiene or his/her designee, the student must be immunized or not attend classes or functions on campus until the outbreak has resolved.

2. A student may be exempted from an individual vaccine-specific immunization requirement if he or she presents a written statement from a licensed physician or a local deputy state health officer indicating that immunization is medically contraindicated. The physician's statement shall state whether the contraindication is permanent or temporary. If temporary, the physician must provide a date by which the student will receive the vaccine and provide documentation when the immunization has been completed. Should there be an epidemic or disease outbreak that is pertinent to the student's immunization status, the student cannot attend classes or functions on campus until the outbreak has resolved.
